SEC. 170. (a) FINDINGS.—The Congress finds the following:

(1) The District of Columbia has recently witnessed a spate of senseless killings of innocent citizens caught in the crossfire of shootings. A Justice Department crime victimization survey found that while the city saw a decline in the homicide rate between 1996 and 1997, the rate was the highest among a dozen cities and more than double the second highest city.

(2) The District of Columbia has not made adequate funding available to fight drug abuse in recent years, and the city has not deployed its resources as effectively as possible. In fiscal year 1998, \$20,900,000 was spent on publicly funded drug treatment in the District compared to \$29,000,000 in fiscal year 1993. The District’s Addiction and Prevention and Recovery

Agency currently has only 2,200 treatment slots, a 50 percent drop from 1994, with more than 1,100 people on waiting lists.

(3) The District of Columbia has seen a rash of inmate escapes from halfway houses. According to Department of Corrections records, between October 21, 1998 and January 19, 1999, 376 of the 1,125 inmates assigned to halfway houses walked away. Nearly 280 of the 376 escapees were awaiting trial including two charged with murder.

(4) The District of Columbia public schools system faces serious challenges in correcting chronic problems, particularly long-standing deficiencies in providing special education services to the 1 in 10 District students needing program benefits, including backlogged assessments, and repeated failure to meet a compliance agreement on special education reached with the Department of Education.

(5) Deficiencies in the delivery of basic public services from cleaning streets to waiting time at Department of Motor Vehicles to a rat population estimated earlier this year to exceed the human population have generated considerable public frustration.

(6) Last year, the District of Columbia forfeited millions of dollars in Federal grants after Federal auditors determined that several agencies exceeded grant restrictions and in other instances, failed to spend funds before the grants expired.

(7) Findings of a 1999 report by the Annie E. Casey Foundation that measured the well-being of children reflected that, with one exception, the District ranked worst in the United States in every category from infant mortality to the rate of teenage births to statistics chronicling child poverty.

(b) SENSE OF THE CONGRESS.—It is the sense of the Congress that in considering the District of Columbia's fiscal year 2001 budget, the Congress will take into consideration progress or lack of progress in addressing the following issues:

(1) Crime, including the homicide rate, implementation of community policing, the number of police officers on local beats, and the closing down of open-air drug markets.

(2) Access to drug abuse treatment, including the number of treatment slots, the number of people served, the number of people on waiting lists, and the effectiveness of treatment programs.

(3) Management of parolees and pretrial violent offenders, including the number of halfway house escapes and steps taken to improve monitoring and supervision of halfway house residents to reduce the number of escapes.

(4) Education, including access to special education services and student achievement.

(5) Improvement in basic city services, including rat control and abatement.

(6) Application for and management of Federal grants.

(7) Indicators of child well-being.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and Senate on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 3194) making appropriations for the District of Columbia and other activities chargeable in whole or in part against revenues of said District for the fiscal year ending September 30, 2000, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report.

The composition of this conference agreement includes more than the District of Columbia Appropriations Act for fiscal year 2000. While the House version of H.R. 3194 and the Senate amendment in the nature of a substitute dealt only with District of Columbia appropriations, the conference report was expanded to include appropriations for other departments and agencies as well as some authorizing legislation. These appropriations are included in Division B.

Since the conference agreement is expanded to include matters beyond those relating to the District of Columbia appropriations, the title of the bill is amended to reflect this.

DIVISION A

DISTRICT OF COLUMBIA APPROPRIATIONS

The Division A portion of this joint explanatory statement includes more than a description of the resolution of the differences between the House and Senate versions of H.R. 3194. It also provides a fuller description of the matter not in disagreement between the two Houses. Since H.R. 2587 and H.R. 3064, previous District of Columbia Appropriations Acts for fiscal year 2000, were vetoed, the conferees have expanded this statement to provide an explanation of the additional matter in these bills that was not changed in H.R. 3194 as guidance in implementing this conference agreement.

A description of the resolution of the differences between the House and Senate on H.R. 3194 follows next.

GENERAL STATEMENT

BLUE PLAINS WASTE WATER TREATMENT PLANT

The conferees are concerned over recent reports about serious safety problems relating to hazardous chemical storage and handling at the Blue Plains Waste Water Treatment Plant, especially in Chlorine Building I. In 1998 the District of Columbia Water and Sewer Authority reported that the chlorine facility's "control sys-

tems are outdated and marginally adequate.” To reduce the risk to human health and the environment, the Water and Sewer Authority is directed to undertake immediately the design study of an alternate disinfection facility that will discontinue use of liquid chlorine and to report back to the Congress with its findings by December 31, 2000. In addition, the Water and Sewer Authority is directed to accelerate the construction schedule of the alternate disinfection facility, with the goal of completing the new facility by December 31, 2002, instead of the end of 2005 as called for in the Water and Sewer Authority’s Water and Sewer Facilities Master Plan of 1998.

INFRASTRUCTURE FUND

The FY 1999 Omnibus Consolidated and Emergency Supplemental Appropriations Act (Public Law 105–277) provided \$50,000,000 primarily for the repair and maintenance of roads, highways, bridges and transit in the District. The conferees are concerned that a tentative plan submitted to Congress, as required by the FY 1999 conference agreement, includes funding for certain projects that do not appear to fulfill the basic intent of the appropriation, which is to improve the deteriorated infrastructure of the District. The projects in question would expend over \$6,000,000 (or more than 10 percent of the appropriation) for millennium year activities and program support functions. The conferees request that the DC Financial Responsibility and Management Assistance Authority submit a revised spending plan to Congress within 30 days of enactment of this Act that focuses on repair and maintenance of roads, highways, bridges and transit in the District. The conferees note that the FY 1999 Omnibus Consolidated and Emergency Supplemental Appropriations Act also provided \$25,000,000 in Federal funds for economic development planning, project development, capital investments, loans, grants, administrative expenses and other purposes. With the District’s infrastructure being in a state of disrepair, the conferees believe the \$50,000,000 in the infrastructure fund should be used exclusively for infrastructure repairs and maintenance, and the \$25,000,000 for economic development should be used for economic development purposes.

FEDERAL FUNDS

DEFENDER SERVICES IN DISTRICT OF COLUMBIA COURTS

The conference action clarifies that interest earned on the FY 1999 Federal payment to the District of Columbia courts is required to be used to make payments under this heading for fiscal years 1999 and 2000. The availability of this additional amount is contingent on a certification by the Comptroller General. The Courts have reported that they anticipate a shortfall of “approximately \$1,000,000” in fiscal year 1999 for the Criminal Justice Act program.

FEDERAL PAYMENT TO THE GENERAL SERVICES ADMINISTRATION

The conference action appropriates \$6,700,000 for environmental clean-up costs near three proposed public schools that are

to be constructed in southern Fairfax County on land currently occupied by the Lorton Correctional Complex which is scheduled to be closed.

DISTRICT OF COLUMBIA FUNDS

PRODUCTIVITY BANK SAVINGS

The conference agreement inserts the word “aggregate” in the second sentence under this heading to clarify the cost savings or additional revenues to be derived. This language allows the District to finance projects from the Productivity Bank even if each project does not generate cost savings or additional revenues dollar-for-dollar as long as the total amount of projects generate an “aggregate” amount of savings for the Productivity Bank Savings equal to the total amount spent from the Productivity Bank.

GENERAL PROVISIONS

The conference action continues the prohibition in section 150 on using Federal or local funds to support needle exchange programs, but without the prohibition on privately-funded programs. The conference action also inserts a new subsection (b) that requires those who carry out a needle exchange program and who receive any funds in this Act to account for all funds used for needle exchange programs separately from any funds contained in this Act.

Section 157 in both the House and Senate versions of H.R. 3194 (as well as the conference agreements on H.R. 2587 and H.R. 3064) includes \$18,000,000 for severance and payments toward the Management Supervisory Service (MSS) program. MSS will provide increases in pay for those employees who sever themselves from career status and move into the MSS program. This classification allows for the termination of managers who do not achieve agreed upon performance outcomes. A portion of the money may be used as bonus pay for Compensation I and II employees, prior to implementing pay-for-performance plans, depending upon a plan agreed upon by the Mayor, the DC Financial Responsibility and Management Assistance Authority, the City Council and the Chief Financial Officer.

The conference action inserts a new section 175 that amends the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 2000 (Public Law 106-74), by making certain technical corrections and adding language reflecting the intent of the conferees on that Act. Language is included in the bill which provides for the availability of funds for the National and Community Service Programs Operating and Expenses account until September 30, 2001. Public Law 106-74, which contains the appropriation for this account, inadvertently provided for the funding to remain available only until September 30, 2000. In the past this account has been available for two years and this technical correction reinstates that policy.

The conference action inserts a new section 176 that allows \$1,000,000 in Federal funds for the Georgetown Waterfront Park

Fund, initially appropriated in the FY 1999 DC Appropriations Act (Public Law 105-277), to remain available until expended.

PRIOR CONFERENCE AGREEMENTS ON H.R. 2587 AND H.R.
3064

What follows next is a description of the resolution of selected differences between the House and Senate on the District of Columbia Appropriations Acts for fiscal year 2000 as contained in H.R. 2587 and H.R. 3064, that were vetoed. Even though there were differences between the House and Senate versions of H.R. 2587 and H.R. 3064, the resolution of nearly all of these differences was incorporated as identical text in the House-passed version and the Senate amendment to H.R. 3194. A description of the resolution of these differences is included in this conference agreement because an understanding of them is important to the overall implementation of this Act.

The conference agreement on H.R. 3194 incorporates some of the provisions of both the House and Senate versions of H.R. 2587 and H.R. 3064. The language and allocations set forth in House Report 106-249 and Senate Report 106-88 are to be complied with unless specifically addressed in the accompanying bill and statement of the managers to the contrary. The agreement herein, while repeating some report language for emphasis, does not negate the language referenced above unless expressly provided. General provisions which were identical in the House and Senate passed versions of H.R. 2587 and not changed in H.R. 3064 or H.R. 3194 and that are unchanged by this conference agreement are approved unless provided to the contrary herein.

TITLE I—FISCAL YEAR 2000 APPROPRIATIONS

FEDERAL FUNDS

FEDERAL PAYMENT FOR RESIDENT TUITION SUPPORT

Appropriates \$17,000,000 as proposed by the House and the Senate and makes modifications specifying that the entire \$17,000,000 will be available if the authorized program is a nationwide program and \$11,000,000 will be available if the program is for a limited number of States. The language also allows the District to use local tax revenues for this program.

FEDERAL PAYMENT FOR INCENTIVES FOR ADOPTION OF CHILDREN

Appropriates \$5,000,000 instead of \$8,500,000 as proposed by the House and includes language allowing the funds to be used for local tax credits to offset costs incurred by individuals in adopting children in the District's foster care system and for health care needs of the children in accordance with legislation to be enacted by the District government.

FEDERAL PAYMENT TO THE CITIZEN COMPLAINT REVIEW BOARD

Appropriates \$500,000 instead of \$1,200,000 as proposed by the House. This amount together with \$700,000 in local funds will provide a total of \$1,200,000 for the Board's operations in fiscal

year 2000. The conferees recognize the importance of an independent review body to act as a forum for the review and resolution of complaints against officers of the Metropolitan Police Department and special officers employed by the District of Columbia. The conferees also request that the Mayor's office provide a comprehensive plan for the use of the Civilian Complaint Review Board. The plan/report should contain information about the problems of the previous review board and what will be done to avoid these problems with the new board.

FEDERAL PAYMENT TO THE DEPARTMENT OF HUMAN SERVICES

Appropriates \$250,000 for a mentoring program and for hotline services as proposed by the House.

FEDERAL PAYMENT TO THE DISTRICT OF COLUMBIA CORRECTIONS
TRUSTEE OPERATIONS

Appropriates \$176,000,000 as proposed by the Senate instead of \$183,000,000 as proposed by the House and includes language allowing the Corrections Trustee to use interest earnings of up to \$4,600,000 to assist the Trustee with the sharp, rather unexpected increase in the overall inmate population.

FEDERAL PAYMENT TO THE DISTRICT OF COLUMBIA COURTS

Appropriates \$99,714,000 instead of \$100,714,000 as proposed by the House and \$136,440,000 as proposed by the Senate. The reduction below the House allowance reflects the \$1,000,000 in the capital program as proposed by the Senate.

Courts' budget.—The conferees request that budget information submitted by the Courts with their FY 2001 and future budgets include grants and reimbursements from all other sources so that information on total resources available to the courts will be available.

DEFENDER SERVICES IN THE DISTRICT OF COLUMBIA COURTS

Appropriates \$33,336,000 as proposed by the House and includes language proposed by the Senate requiring monthly financial reports.

FEDERAL PAYMENT TO THE COURT SERVICES AND OFFENDER
SUPERVISION AGENCY FOR THE DISTRICT OF COLUMBIA

Appropriates \$93,800,000 instead of \$105,500,000 as proposed by the House and \$80,300,000 as proposed by the Senate. The increase above the Senate allowance includes \$7,000,000 for increased drug testing and treatment and \$6,500,000 for additional parole and probation officers instead of \$13,200,000 and \$10,000,000, respectively, as proposed by the House.

CHILDREN'S NATIONAL MEDICAL CENTER

Appropriates \$2,500,000 for Children's National Medical Center instead of \$3,500,000 as proposed by the House.

FEDERAL PAYMENT FOR METROPOLITAN POLICE DEPARTMENT

Appropriates \$1,000,000 for the Metropolitan Police as proposed by the Senate. The conferees recognize the devastating problems caused by illegal drug use and fully support this program to eliminate open air drug trafficking in all four quadrants of the District of Columbia. The conferees have included language requiring quarterly reports to the Congress on all four quadrants. The reports should include, at a minimum, the amounts expended, the number of personnel involved, and the overall results and effectiveness of the open air drug program in eliminating the drug trafficking problem.

DISTRICT OF COLUMBIA FUNDS

GOVERNMENTAL DIRECTION AND SUPPORT

COUNCIL OF THE DISTRICT OF COLUMBIA

The conference action on H.R. 3064 inserts a proviso as proposed by the Senate concerning the salary of members of the Council of the District of Columbia.

OFFICE OF THE CHIEF TECHNOLOGY OFFICER

The conferees are concerned that the District's child support system is not Y2K compliant. The conferees have been advised that the Office of Corporation Counsel is responsible for developing, operating, and maintaining this system which is used by the District's courts to collect child support payments from absentee parents, disburse payments to custodial parents, and account for these activities. The conferees urge the District's Chief Technology Officer to provide the Office of Corporation Counsel with the necessary support to ensure that: (1) The system is promptly remediated and tested, and (2) a business continuity and contingency plan that includes a Courts' child support functions is in place. The conferees request a report on this matter by November 1, 1999.

PUBLIC SAFETY AND JUSTICE

Appropriates \$778,770,000 including \$565,511,000 from local funds and \$184,247,000 from other funds instead of \$785,670,000 including \$565,411,000 from local funds and \$191,247,000 from other funds as proposed by the House and \$778,470,000 including \$565,211,000 from local funds and \$184,247,000 from other funds as proposed by the Senate. The increase of \$300,000 above the Senate allowance will provide a total of \$1,200,000 for the Citizen Complaint Review Board consisting of \$500,000 in Federal funds and \$700,000 in local funds instead of a total of \$900,000 in local funds as proposed by the Senate.

The conference action retains the proviso that caps the number of police officers assigned to the Mayor's security detail at 15 as proposed by the House.

The conference action includes a proviso that allows up to \$700,000 in local funds for the Citizen Complaint Review Board instead of \$900,000 in local funds as proposed by the Senate.

FIRE DEPARTMENT

The conferees recommend that the Fire and Emergency Medical Services Department conduct a study about the need for placement of automated external defibrillators in Federal buildings.

PUBLIC EDUCATION SYSTEM

The conference action includes the proviso proposed by the Senate concerning the Weighted Student Formula and the setting aside of five percent of the total budget which is to be apportioned when the current student count for public and charter schools has been completed. The conference action also includes a proviso proposed by the Senate allowing \$500,000 for a Schools Without Violence program.

The conferees to H.R. 3064 are aware of the Values First program that is designed to bring character education to the District's public elementary schools. The conferees are aware that ten schools now have such a program. The conferees encourage the public school system to continue to expand the Values First program and expend the funds necessary to implement this program on a broader basis.

HUMAN SUPPORT SERVICES

Appropriates \$1,526,361,000 including \$635,373,000 from local funds as proposed by the House instead of \$1,526,111,000 including \$635,123,000 as proposed by the Senate.

PUBLIC WORKS

The conference action deletes the proviso earmarking funds as proposed by the Senate.

RECEIVERSHIP PROGRAMS

Appropriates \$342,077,000 including \$217,606,000 from local funds instead of \$345,577,000 including \$221,106,000 from local funds as proposed by the House and \$337,077,000 including \$212,606,000 from local funds as proposed by the Senate.

PROCUREMENT AND MANAGEMENT SAVINGS

The conference action restores the proviso requiring quarterly reports as proposed by the House and deletes the proviso requiring Council approval of a resolution authorizing management reform savings proposed by the Senate.

D.C. RETIREMENT BOARD

The conference action amends the cap on the compensation of the Chairman of the Board and the Chairman of the Investment Committee of the Board to \$7,500 instead of \$10,000 as proposed by the House.

CAPITAL OUTLAY

The conference action revises the first paragraph for clarity as proposed by the House.

GENERAL PROVISIONS

The conference action changes several section numbers for sequential purposes and makes technical revisions in certain citations. Unless noted otherwise, the conference action refers to H.R. 2587.

The conference action restores section 117 of the House bill prohibiting the use of Federal funds for a personal cook, chauffeur, or other personal servants to any officer or employee of the District of Columbia government.

The conference action approves section 119 of the House bill in lieu of section 118 of the Senate bill concerning the cap on the salary of the City Administrator and the per diem compensation to the directors of the Redevelopment Land Agency.

The conference action approves section 127 of the Senate bill (new section 128) concerning financial management services.

The conference action on H.R. 3064 inserts a new subsection (b) in section 129 as proposed by the Senate that allows an increase in payments to attorneys representing special education students if the Mayor, control board, and Superintendent of Public Schools concur in a Memorandum of Understanding setting forth the increase.

The conference action revises the ceiling on operating expenses in section 135 (new section 136) to \$5,515,379,000 including \$3,113,854,000 from local funds instead of \$5,522,779,000 including \$3,117,254,000 as proposed by the House and \$5,486,829,000 including \$3,108,304,000 as proposed by the Senate.

The conference action deletes subsection (d) of section 135 of the House bill concerning the application of excess revenues as proposed by the Senate.

The conference action deletes section 137 of the House bill concerning a report on public school openings as proposed by the Senate.

The conference action requires the inventory of motor vehicles required by section 139 of the House bill and 138 of the Senate bill (new section 139) to be submitted by the Chief Financial Officer as proposed by the House instead of by the Mayor as proposed by the Senate.

The conference action restores section 142 of the House bill concerning the Compliance with Buy American Act.

The conference action deletes section 141 of the Senate bill concerning certain real property in the District of Columbia. The language was made permanent in Public Law 105-277.

SEC. 623. (a) NORTHERN FUND AND SOUTHERN FUND.—

(1) As provided in the June 30, 1999, Agreement of the United States and Canada on the Treaty Between the Government of the United States and the Government of Canada Concerning Pacific Salmon, 1985 (hereafter referred to as the “1999 Pacific Salmon Treaty Agreement”) there are hereby established a Northern Boundary and Transboundary Rivers Restoration and Enhancement Fund (hereafter referred to as the “Northern

Fund”) and a Southern Boundary Restoration and Enhancement Fund (hereafter referred to as the “Southern Fund”) to be held by the Pacific Salmon Commission. The Northern Fund and Southern Fund shall be invested in interest bearing accounts, bonds, securities, or other investments in order to achieve the highest annual yield consistent with protecting the principal of each Fund. The Northern Fund and Southern Fund shall receive \$10,000,000 and \$10,000,000 respectively, of the amounts authorized by this section. Income from investments made pursuant to this paragraph shall be available until expended, without appropriation or fiscal year limitation, for programs and activities relating to salmon restoration and enhancement, salmon research, the conservation of salmon habitat, and implementation of the Pacific Salmon Treaty and related agreements. Amounts provided by grants under this subsection may be held in interest bearing accounts prior to the disbursement of such funds for program purposes, and any interest earned may be retained for program purposes without further appropriation. The Northern Fund and Southern Fund are subject to the laws governing Federal appropriations and funds and to unrestricted circulars of the Office of Management and Budget. Recipients of amounts from either Fund shall keep separate accounts and such records as are reasonably necessary to disclose the use of the funds as well as to facilitate effective audits.

(2) FUND MANAGEMENT.—

(A) As provided in the 1999 Pacific Salmon Treaty Agreement, amounts made available from the Northern Fund pursuant to paragraph (1) shall be administered by a Northern Fund Committee, which shall be comprised of three representatives of the Government of Canada, and three representatives of the United States. The three United States representatives shall be the United States Commissioner and Alternate Commissioner appointed (or designated) from a list submitted by the Governor of Alaska for appointment to the Pacific Salmon Commission and the Regional Administrator of the National Marine Fisheries Service for the Alaska Region. Only programs and activities consistent with the purposes in paragraph (1) which affect the geographic area from Cape Caution, Canada to Cape Suckling, Alaska may be approved for funding by the Northern Fund Committee.

(B) As provided in the 1999 Pacific Salmon Treaty Agreement, amounts made available from the Southern Fund pursuant to paragraph (1) shall be administered by a Southern Fund Committee, which shall be comprised of three representatives of Canada and three representatives of the United States. The United States representatives shall be appointed by the Secretary of Commerce: one shall be selected from a list of three qualified individuals submitted by the Governors of the States of Washington and Oregon; one shall be selected from a list of three qualified individuals submitted by the treaty Indian tribes (as defined by the Secretary of Commerce); and one shall be the Regional

Administrator of the National Marine Fisheries Service for the Northwest Region. Only programs and activities consistent with the purposes in paragraph (1) which affect the geographic area south of Cape Caution, Canada may be approved for funding by the Southern Fund Committee.

(b) PACIFIC SALMON TREATY IMPLEMENTATION.—(1) None of the funds authorized by this section for implementation of the 1999 Pacific Salmon Treaty Agreement shall be made available until each of the following conditions to the 1999 Pacific Salmon Treaty Agreement has been fulfilled—

(A) stipulations are revised and court orders requested as set forth in the letter of understanding of the United States negotiators dated June 22, 1999. If such orders are not requested by December 31, 1999, this condition shall be considered unfulfilled; and

(B) a determination is made that—

(i) the entry by the United States into the 1999 Pacific Salmon Treaty Agreement;

(ii) the conduct of the Alaskan fisheries pursuant to the 1999 Pacific Salmon Treaty Agreement, without further clarification or modification of the management regimes contained therein; and

(iii) the decision by the North Pacific Fisheries Management Council to continue to defer its management authority over salmon to the State of Alaska are not likely to cause jeopardy to, or adversely modify designated critical habitat of, any salmonid species listed under Public Law 93–205, as amended, in any fishery subject to the Pacific Salmon Treaty.

(2) If the requests for orders in subparagraph (1)(A) are withdrawn after December 31, 1999, or if such orders are not entered by March 1, 2000, amounts in the Northern Fund and the Southern Fund shall be transferred to the General Fund of the United States Treasury.

(3) During the term of the 1999 Pacific Salmon Treaty Agreement, the Secretary of Commerce shall determine whether Southern United States fisheries are likely to cause jeopardy to, or adversely modify designated critical habitat of, any salmonid species listed under Public Law 93–205, as amended, before the Secretary of Commerce may initiate or reinstate consultation on Alaska fisheries under such Act.

(4) During the term of the 1999 Pacific Salmon Treaty Agreement, the Secretary of Commerce may not initiate or reinstate consultation on Alaska fisheries under section 7 of Public Law 93–205, as amended, until—

(A) the Pacific Salmon Commission has had a reasonable opportunity to implement the provisions of the 1999 Pacific Salmon Treaty Agreement, including the harvest responses pursuant to Paragraph 9, Chapter 3 of Annex IV to the Pacific Salmon Treaty; and

(B) he determines, in consultation with the United States Section of the Pacific Salmon Commission, that implementation actions under the 1999 Agreement will not return escapements as expeditiously as possible to maximum sustainable yield or

other biologically-based escapement objectives agreed to by the Pacific Salmon Commission.

(5) The Secretary of Commerce shall notify the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Resources of the House of Representatives of his intent to initiate or reinstate consultation on Alaska fisheries.

(6)(A) For purposes of this section, "Alaska fisheries" means all directed Pacific salmon fisheries off the coast of Alaska that are subject to the Pacific Salmon Treaty.

(B) For purposes of this section, "Southern United States fisheries" means all directed Pacific salmon fisheries in Washington, Oregon, and the Snake River basin of Idaho that are subject to the Pacific Salmon Treaty.

A decision of the United States Section with respect to any salmon fishery regime covered by Chapters 4, 5 (except paragraph 2(b) of Chapter 5), or 6 of the Pacific Salmon Treaty of 1985 shall be taken upon the affirmative vote of both the United States Commissioner appointed from the list submitted by the Governors of Washington and Oregon pursuant to subsection (a) and the United States Commissioner appointed from the list submitted by the treaty Indian tribes of the States of Idaho, Oregon, or Washington pursuant to subsection (a). Before a decision of the United States Section is made under this paragraph, the voting Commissioner or Commissioners shall consult with the Commissioner who is an official of the United States Government under subsection (a)"; and

(3) by renumbering the existing paragraphs.

(d) AUTHORIZATION OF APPROPRIATIONS.—

(1) For capitalizing the Northern Fund and the Southern Fund, there is authorized to be appropriated in fiscal year 2000, \$20,000,000.

(2) For salmon habitat restoration, salmon stock enhancement, salmon research, and implementation of the 1999 Pacific Salmon Treaty Agreement and related agreements, there is authorized to be appropriated in fiscal year 2000, \$50,000,000 to the States of California, Oregon, Washington, and Alaska. The State of Alaska may allocate a portion of any funds it receives under this subsection to eligible activities outside Alaska.

(3) For salmon habitat restoration, salmon stock enhancement, salmon research, and implementation of the 1999 Pacific Salmon Treaty Agreement and related agreements, there is authorized to be appropriated \$6,000,000 in fiscal year 2000 to the

Pacific Coastal tribes (as defined by the Secretary of Commerce) and \$2,000,000 in fiscal year 2000 to the Columbia River tribes (as defined by the Secretary of Commerce).

Funds appropriated to the States under the authority of this section shall be subject to a 25 percent non-Federal match requirement. In addition, not more than 3 percent of such funds shall be available for administrative expenses, with the exception of funds used in Washington State for the Forest and Fish Agreement.

SEC. 624. Funds made available under Public Law 105-277 for costs associated with implementation of the American Fisheries Act of 1998 (division C, title II, of Public Law 105-277) for vessel documentation activities shall remain available until expended.

SEC. 625. Effective as of October 1, 1999, section 635 of Public Law 106-58 is amended—

(1) in subsection (b)(2), by inserting “the carrier for” after “if”; and

SEC. 627. None of the funds appropriated in this Act shall be available for the purpose of granting either immigrant or non-immigrant visas, or both, consistent with the Secretary’s determination under section 243(d) of the Immigration and Nationality Act, to citizens, subjects, nationals, or residents of countries that the Attorney General has determined deny or unreasonably delay accepting the return of citizens, subjects, nationals, or residents under that section.

SEC. 628. Following is explanatory language on H.R. 3421, as introduced on November 17, 1999.

The conferees on H.R. 3194 agree with the matter inserted in this division of this conference agreement and the following description of this matter. This matter was developed through negotiations on the differences in H.R. 2670, the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 2000, by members of the subcommittees of both the House and Senate with jurisdiction over H.R. 2670.

H.R. 2670 was vetoed. The format of the statement of the managers for this division is, in general, a repetition of the statement of the managers for the vetoed conference report with modifications to reflect the changes to the vetoed bill. References in the following statement to appropriations amounts or other items proposed by the House bill or Senate amendment refer only to those amounts and items recommended in the House-passed and Senate-passed versions of H.R. 2670. Any reference to appropriations amounts or other items included in the conference agreement reflects the final agreement on H.R. 3194.

TITLE I—DEPARTMENT OF JUSTICE

GENERAL ADMINISTRATION

SALARIES AND EXPENSES

The conference agreement includes \$79,328,000 for General Administration as proposed in the House bill, instead of \$82,485,000 as proposed in the Senate bill. The conference agreement assumes requested increases for reimbursable workyears for the Office of Information and Privacy as proposed in the House and Senate reports, and for the Justice Management Division as proposed in the House report. No additional funding has been provided for additional positions for the Office of Intelligence and Policy Review.

Within the total amount provided, the conference agreement includes \$8,136,000 for the Department Leadership Program as proposed in both the House and Senate bills. In addition, the conference agreement includes a provision which retains the limitation on the Department Leadership Program to the level of augmentation that occurred in these offices in fiscal year 1999.

The conference agreement also includes a provision that provides 41 permanent positions and 48 full-time equivalent workyears and \$4,811,000 for the Offices of Legislative Affairs and Public Affairs, modified to allow the use of non-reimbursable career detailees as proposed in the Senate bill. The House bill contained a similar provision, but did not allow for the use of non-reimbursable detailees.

The conference agreement includes a provision that provides the Attorney General the authority to transfer forfeited property of limited value to a State or local government or its designee for certain community-based programs, subject to reprogramming requirements, as proposed in the House bill. The Senate bill did not contain this provision.

The House report language with respect to the Department of Justice's actions to expeditiously protect the constitutional rights of all individuals is adopted by reference. In addition, the conferees concur with the direction included in the House report regarding comprehensive budget and financial reviews of Departmental components. The conferees expect the Attorney General to complete these reviews no later than January 15, 2000, and to provide a report to the Committees on Appropriations no later than February 15, 2000, on the results of these reviews and any recommendations

for improvements in the budget and financial management practices of Departmental components.

JOINT AUTOMATED BOOKING SYSTEM

The conference agreement includes \$1,800,000 as a separate account for the Joint Automated Booking System (JABS) program, instead of \$6,000,000 as proposed in the Senate bill. The House bill did not provide a separate appropriation for JABS. A direct appropriation is provided to fund the Departmental program office established to run this program. In addition, should funding be available from Super Surplus funds under the Assets Forfeiture Fund, the Attorney General is expected to make available up to \$4,200,000 for JABS development and deployment activities. The Senate report language regarding centralized funding for this program is adopted by reference.

NARROWBAND COMMUNICATIONS

The conference agreement includes \$115,941,000 for narrowband communications conversion activities, instead of \$125,370,000 as proposed in the House bill, and \$20,000,000 as proposed in the Senate bill. Of this amount, \$10,625,000 is provided as a direct appropriation, \$92,545,000 is provided through transfers from Departmental components, and \$12,771,000 is provided from Super Surplus balances in the Assets Forfeiture Fund, should funds be available. The Senate bill proposed a direct appropriation of \$20,000,000, and the House bill provided no direct appropriation but instead made funds available through transfers from Departmental components and Super Surplus balances from the Assets Forfeiture Fund.

Within the amount provided, \$10,625,000 is to support the Wireless Management Office (WMO), including systems planning and pilot tests, and \$105,316,000 is for wireless replacement activities, and operations and maintenance of legacy systems. The conferees expect the Department of Justice to move forward with the Department-wide consolidated, regional, interagency strategy developed by the WMO, and have therefore centralized all funding for narrowband communications activities under the WMO. The conferees expect the WMO to submit to the Committees on Appropriations no later than February 15, 2000, a status report on implementation of this plan. The conference agreement adopts the recommendations included in the House and Senate reports regarding the fiscal year 2001 budget submission for narrowband activities, and the House report language regarding the transfer of unobligated balances to the WMO.

The conference agreement does not include language proposed in the Senate bill allowing funds to be transferred to any Department of Justice organization upon approval by the Attorney General, subject to reprogramming procedures. The House bill contained no similar provision.

COUNTERTERRORISM FUND

The conference agreement includes \$10,000,000 for the Counterterrorism Fund as proposed in the House bill, instead of

\$27,000,000 as proposed in the Senate bill. When combined with \$22,340,581 in prior year carryover, a total of \$32,340,581 will be available in the Fund in fiscal year 2000 to cover unanticipated, extraordinary expenses incurred as a result of a terrorist threat or incident. The conferees reiterate the concerns expressed in both the House and Senate reports regarding the use of the Fund, and expect that the Fund will be used only for unanticipated, extraordinary expenses which cannot reasonably be accommodated within an agency's regular budget. The Attorney General is required to notify the Committees on Appropriations in accordance with section 605 of this Act, prior to the obligation of any funds from this account.

The conference agreement adopts the direction included in the House and Senate reports regarding the National Domestic Preparedness Office. The House and Senate report language regarding funding for cyberterrorism and related activities, and the Senate report language regarding the development of a Continuity of Government comprehensive emergency plan is also adopted by reference. The Senate report language regarding the involvement of State and local governments in the annual update of the comprehensive counterterrorism and technology crime plan is adopted by reference.

The conference agreement does not include language proposed in the Senate bill allowing the Fund to be used for the costs of conducting assessments of Federal agencies and facilities. The House bill did not contain this provision.

TELECOMMUNICATIONS CARRIER COMPLIANCE FUND

The conference agreement includes \$15,000,000, as proposed in both the House and Senate bills, for the Telecommunications Carrier Compliance program to reimburse equipment manufacturers and telecommunications carriers and providers of telecommunications services for implementation of the Communications Assistance for Law Enforcement Act of 1994 (CALEA).

ADMINISTRATIVE REVIEW AND APPEALS

The conference agreement includes \$148,499,000 for Administrative Review and Appeals, instead of \$134,563,000 as proposed in the House bill and \$89,978,000 as proposed in the Senate bill, of which \$50,363,000 is provided from the Violent Crime Reduction Trust Fund. Of the total amount provided, \$146,899,000 is for the Executive Office for Immigration Review (EOIR) and \$1,600,000 is for the Office of the Pardon Attorney.

The conferees direct the Executive Office for Immigration Review to provide the following: (1) beginning on March 1, 2000, semiannual reports on the number of immigration judges and Board of Immigration Appeals members; the number of cases pending and the number of cases completed before each body for each 6-month period; and the number of cases completed by type of completion (order of removal, termination, administratively closed, or relief granted) for those cases in each 6-month period; and (2) by April 1, 2000, a report, which should include consultation with the Immigration and Naturalization Service and the private bar, on the feasibility of electronic filing of documents, such as Notices to Ap-

pear, applications for relief, Notices of Appeal, and briefs, with the Offices of Immigration Judges and with the Board of Immigration Review.

OFFICE OF INSPECTOR GENERAL

The conference agreement includes \$40,275,000 for the Office of Inspector General, instead of \$42,475,000 as proposed in the House bill, and \$32,049,000 as proposed in the Senate bill.

The conference agreement does not include requested bill language which was included in the House bill, but not in the Senate bill, to use 0.2 percent of Violent Crime Reduction Trust Funds to audit grant programs within the Department. The conference agreement includes requested language relating to motor vehicles, which was in the House bill but not in the Senate bill. The conference agreement includes bill language designating a portion of funds to be used for narrowband conversion activities and transfers these funds to the Department of Justice Wireless Management Office.

The conferees are deeply concerned that Department employees accused of wrongdoing are not enjoying the swift justice that is every citizen's right. Though the Inspector General has made some progress in working down its backlog of "non-judicial cases", including special investigations, there are still far too many investigations that have stretched as long as 60 months without action or resolution. The conferees direct that all cases opened before April 1, 1999 shall be resolved not later than 60 days after the date of enactment of this Act in one of the following ways: (1) referral to the U.S. Attorneys for prosecution, (2) referral to the appropriate component for administrative punishment, (3) transmittal of a letter to the appropriate component for inclusion in the personnel jacket of the accused indicating case closure based upon a lack of evidence, or (4) transmittal of a letter to an appropriate component for inclusion in the personnel jacket of the accused indicating case closure based upon exoneration.

The conferees understand that there may be extenuating circumstances for certain extraordinary cases which may not allow for compliance with this requirement. In such instances, the Office of Inspector General shall report in an appropriate manner, so as not to jeopardize the pending investigation, to the Committees on Appropriations, the status and anticipated completion date for these cases. This report shall be submitted no later than 90 days after the date of enactment and shall be updated on a semi-annual basis.

UNITED STATES PAROLE COMMISSION

SALARIES AND EXPENSES

The conference agreement includes \$8,527,000 for the U.S. Parole Commission, instead of \$7,380,000 as proposed in the House bill and \$7,176,000 as proposed in the Senate bill.

LEGAL ACTIVITIES

SALARIES AND EXPENSES, GENERAL LEGAL ACTIVITIES

The conference agreement includes \$504,945,000 for General Legal Activities instead of \$503,620,000 as proposed in the House bill, and \$485,000,000 as proposed in the Senate bill, of which \$147,929,000 is provided from the Violent Crime Reduction Trust Fund (VCRTF) as proposed in the House bill. Of this amount, \$582,000 is to be transferred to the Presidential Advisory Commission on Holocaust Assets in the United States.

Except for amounts provided to the Civil Rights Division, the conference agreement includes no other program increases for this account, but instead has provided base adjustments proportionately distributed among the divisions. The distribution of funding included in the conference agreement is as follows:

Office of the Solicitor General	\$6,770,000
Tax Division	67,200,000
Criminal Division	104,477,000
Civil Division	147,616,000
Environment and Natural Resources	65,209,000
Office of Legal Counsel	4,698,000
Civil Rights Division	82,150,000
Interpol—USNCB	7,360,000
Legal Activities Office Automation	18,571,000
Office of Dispute Resolution	312,000
Total	504,363,000

The conference agreement allows \$36,666,000 to remain available until expended for office automation costs, instead of \$55,166,000 as proposed in the Senate bill, and \$18,166,000 as proposed in the House bill. The conference agreement adopts the Senate position that no funds are provided for the Joint Center for Strategic and Environmental Enforcement, and by reference adopts the House report language regarding extradition tracking systems.

THE NATIONAL CHILDHOOD VACCINE INJURY ACT

The conference agreement includes a reimbursement of \$4,028,000 for fiscal year 2000 from the Vaccine Injury Compensation Trust Fund to the Department of Justice, as proposed in the Senate bill, instead of \$3,424,000 as proposed in the House bill.

SALARIES AND EXPENSES, ANTITRUST DIVISION

The conference agreement provides \$110,000,000 for the Antitrust Division, instead of \$112,318,000 as proposed in the Senate bill, and \$105,167,000 as proposed in the House bill. The conference agreement assumes that of the amount provided, \$81,850,000 will be derived from fees collected in fiscal year 2000, and \$28,150,000 will be derived from estimated unobligated fee collections available from 1999 and prior years, resulting in a net direct appropriation of \$0. It is intended that any excess fee collections shall remain available for the Antitrust Division in future years.

The conferees are aware that the Division is facing increased requirements related to electronic data storage, data processing, and automated litigation support which have impacted the ability

of the Antitrust Division to maintain its current base operating level. Therefore, the conference agreement has included sufficient funding to address these requirements to enable the Division to maintain the current operating level.

The conference agreement includes language proposed in the Senate bill making technical corrections to code citations.

SALARIES AND EXPENSES, UNITED STATES ATTORNEYS

The conference agreement includes \$1,161,957,000 for the U.S. Attorneys as proposed in the House bill, instead of \$1,089,478,000 as proposed in the Senate bill, all of which is a direct appropriation, instead of \$500,000,000 from the Violent Crime Reduction Trust Fund (VCRTF) as proposed in the Senate bill.

The conference agreement provides a net increase of \$60,755,000 for adjustments to base as follows: \$69,944,000 is provided for annualization of the 96 positions provided in fiscal year 1999, as well as other pay and inflationary costs, offset by \$9,189,000 in base decreases attributable to savings from the direction included in the Senate report regarding unstaffed offices, the provision of funding for the victims witness coordinator and advocate program from the Crime Victims Fund, and other non-recurring requirements.

The conference agreement also includes the following program increases:

Firearms Prosecutions.—The conference agreement provides \$7,125,000 to continue and expand intensive firearms prosecution projects to enforce Federal laws designed to keep firearms out of the hands of criminals and to enhance existing law enforcement efforts. The conferees direct the Executive Office of U.S. Attorneys (EOUSA) to submit a spending plan to the Committees on Appropriations no later than December 1, 1999. This spending plan shall give priority consideration to the needs of those areas referenced in the Senate-passed bill, as well as other areas with high incidences of firearms violations.

Legal Education.—The conference agreement provides a program increase of \$2,300,000 to establish a distance learning facility at the National Advocacy Center (NAC) in accordance with the direction included in the Senate report. When combined with \$15,015,000 included within base resources, as requested in the budget, a total of \$17,315,000 is included under this account for legal education at the National Advocacy Center (NAC).

Courtroom Technology.—The conference agreement provides \$1,399,000 for technology demonstration projects, with priority given to the locations referred to in the Senate report.

In addition, \$1,000,000 is included from within base resources to continue a violent crime task force demonstration project to investigate and prosecute perpetrators of Internet sexual exploitation of children, to be administered under the auspices of Operation Streetsweeper, as proposed in the Senate bill.

The conference agreement does not adopt the recommendations included in the Senate report regarding term appointments, civil defensive litigation, or child support enforcement.

In addition to identical provisions that were included in both the House and Senate bills, the conference agreement includes the

following provisions: (1) providing for 9,120 positions and 9,398 workyears for the U.S. Attorneys, instead of 9,044 positions and 9,360 workyears as proposed in the House bill, and 9,044 positions and 9,312 workyears as proposed in the Senate bill; (2) allowing not to exceed \$2,500,000 for debt collection activities to remain available for two years as proposed in the House bill; and (3) allowing not to exceed \$2,500,000 for the National Advocacy Center and \$1,000,000 for violent crime task forces to remain available until expended as proposed in the Senate bill. The conference agreement does not include language proposed in the Senate bill designating funding for civil defensive litigation, allowing the transfer of up to \$20,000,000 from this account to the Federal Prisoner Detention account, and designating funding for certain task force activities.

UNITED STATES TRUSTEE SYSTEM FUND

The conference agreement provides \$112,775,000 in budget authority for the U.S. Trustees, of which \$106,775,000 is derived from fiscal year 2000 offsetting fee collections, and \$6,000,000 is derived from interest earned on Fund investments, instead of \$112,775,000 in budget authority and fiscal year 2000 offsetting fee collections as proposed in the Senate bill, and \$114,248,000 in budget authority, of which \$108,248,000 is derived from fiscal year 2000 offsetting fee collections and \$6,000,000 in interest earnings as proposed in the House bill.

The conference agreement assumes that \$9,319,000 in prior year carryover will be available to the U.S. Trustees in fiscal year 2000, providing a total operating level of \$122,094,000, the full amount necessary to maintain the current operating level of 1,128 positions and 1,059 workyears. The conferees remind the U.S. Trustees that amounts collected or otherwise available in excess of the total operating level assumed in the conference agreement are subject to section 605 of this Act. In addition, the conferees adopt by reference the Senate report language on the National Advocacy Center (NAC). The conferees direct the U.S. Trustees to report to the Committees on Appropriations no later than December 31, 1999, on the planned number and type of bankruptcy classes to be conducted at the NAC.

The conference agreement includes a provision as proposed in the House bill to allow interest earned on Fund investment to be used for expenses in this appropriation. The Senate bill did not contain this provision.

SALARIES AND EXPENSES, FOREIGN CLAIMS SETTLEMENT COMMISSION

The conference agreement provides \$1,175,000 for the Foreign Claims Settlement Commission, as requested and as provided in both the House and Senate bills, and assumes funding in accordance with both the House and Senate bills.

SALARIES AND EXPENSES, UNITED STATES MARSHALS SERVICE

The conference agreement includes \$543,365,000 for the U.S. Marshals Service Salaries and Expenses account, instead of \$538,909,000 as proposed in the House bill and \$547,253,000 as proposed in the Senate bill. Of this amount, the conference agree-

ment provides that \$209,620,000 will be derived from the Violent Crime Reduction Trust Fund (VCRTF) as proposed in the House bill, instead of \$138,000,000 as proposed in the Senate bill.

The amount included in the conference agreement includes a \$29,832,000 net increase for inflationary and other base adjustments, including \$1,600,000 to continue and expand the Marshals Service's subscriptions to credit bureau and personal and commercial property on-line services. The conferees remain seriously concerned about the Marshals Service's inability to accurately project its funding requirements and effectively manage the resources provided. Therefore, the conference agreement adopts by reference the language and direction included in the House report regarding budget and financial management practices.

In addition, the conference agreement includes \$20,424,000 in program increases for the following: (1) \$4,003,000 (56 positions and 28 workyears) for courthouse security personnel related to activation of new courthouses opening in fiscal year 2000; (2) \$2,600,000 for electronic surveillance unit equipment; and (3) \$13,821,000 for courthouse security equipment, of which \$9,000,000 is to be derived from the Working Capital Fund, to be provided for newly opening courthouses as follows:

The conferees expect the Marshals Service to give priority to those facilities scheduled to come on line in the first half of fiscal year 2000, and expect to be notified in accordance with section 605 of this Act prior to any deviation from the above distribution.

The conference agreement does not include a provision proposed in the Senate bill requiring a judge to submit a written request to the Attorney General for approval prior to the service of process by a Marshals Service employee. The conferees are aware of concerns regarding the impact that service of process duties is having on the Marshals Service. Therefore, the conferees direct the Attorney General and the Marshals Service to work with the Ad-

ministrative Office of the Courts to study alternatives for service of process in certain cases in which no law enforcement presence is required, and to report back to the Committees on Appropriations no later than February 1, 2000, on the impact of such alternatives on the Marshals Service and the Federal Courts.

In addition, the conferees concur with the recommendation included in the Senate report regarding the reallocation of personnel resulting from the defederalization of District of Columbia Superior Court operations. Should defederalization occur, the Marshals Service is directed to notify the Committees of such reallocation in accordance with section 605 of this Act.

The conference agreement does not include language proposed in the Senate bill which limits the use of contract officers and limits the use of employees of the Marshals Service to serve process.

CONSTRUCTION

The conference agreement includes \$6,000,000 in direct appropriations for the U.S. Marshals Service Construction account instead of \$9,632,000 as proposed in the Senate bill, and \$4,600,000 as proposed in the House bill. An additional \$2,600,000 is to be provided for this account should funds be available from Super Surplus balances in the Assets Forfeiture Fund. The conference agreement includes the following distribution of funds:

The conferees expect to be notified in accordance with section 605 of this Act prior to any deviation from the above distribution.

JUSTICE PRISONER AND ALIEN TRANSPORTATION SYSTEM FUND

The conference report includes requested language permanently establishing a revolving fund for the operation of the Justice Prisoner and Alien Transportation System (JPATS), as provided in both the House and Senate bills. The conference agreement does not include direct funding of \$9,000,000 proposed in the Senate bill to pay for Marshals Service payments to the JPATS revolving fund. The conferees expect the Marshals Service to adequately budget for

its own requirements for prisoner movements within its own base budget under the Salaries and Expenses account, as is the practice for all other agencies, and have addressed the Marshals Service's needs under that account.

The conference agreement adopts the direction included in the House and Senate reports regarding full cost recovery, the direction included in the House report regarding system enhancements, and the direction included in the Senate report regarding surplus Department of Defense aircraft.

The conference agreement does not include language amending the definition of public aircraft with respect to JPATS activities, which was proposed in the Senate bill.

FEDERAL PRISONER DETENTION

The conference agreement provides \$525,000,000 for Federal Prisoner Detention as proposed in the House bill, instead of \$500,000,000 as proposed in the Senate bill, which is a \$100,000,000 increase over the fiscal year 1999 level. This amount, combined with approximately \$14,000,000 in carryover, will provide total funding of \$539,000,000 in fiscal year 2000. The conferees remain extremely concerned about the inability of the Marshals Service to accurately project and manage the resources provided under this account. While the conferees appreciate the difficulty in projecting funding requirements, the wide fluctuations which have occurred in recent years are unacceptable. Given the conferees' continued concern about the ability of the Marshals Service to provide accurate cost projections, the recommendation includes the amount of funding identified as necessary to detain the current average population, adjusted for anticipated increases in jail day costs, as well as allows for additional growth in the detainee population. A general provision has also been included elsewhere in this title, as requested, addressing medical services costs, which should result in savings to the program. Should additional funding be required, the conferees would be willing to entertain a reprogramming in accordance with Section 605 of this Act. In addition, the conference agreement adopts the direction included in the Senate report requiring quarterly reports on cost savings initiatives, as well as a report on sentencing delays.

FEES AND EXPENSES OF WITNESSES

The conference agreement includes \$95,000,000 for Fees and Expenses of Witnesses as proposed in the House bill, instead of \$110,000,000 as proposed in the Senate bill. The conference agreement does not include a provision allowing up to \$15,000,000 to be transferred from this account to the Federal Prisoner Detention account, which was proposed in the Senate bill.

COMMUNITY RELATIONS SERVICE

The conference agreement includes \$7,199,000 for the Community Relations Service, as proposed in both the House and Senate bills. In addition, the conference agreement includes a provision allowing the Attorney General to transfer up to \$1,000,000 of funds available to the Department of Justice to this program, as proposed

in the House bill. The Attorney General is expected to report to the Committees on Appropriations of the House and Senate if this transfer authority is exercised. In addition, a provision is included allowing the Attorney General to transfer additional resources, subject to reprogramming procedures, upon a determination that emergent circumstances warrant additional funding, as proposed in the House bill. The Senate bill did not include either transfer provision.

ASSETS FORFEITURE FUND

The conference agreement provides \$23,000,000 for the Assets Forfeiture Fund as proposed in Senate bill, instead of no funding as proposed in the House bill.

RADIATION EXPOSURE COMPENSATION

ADMINISTRATIVE EXPENSES

The conference agreement recommends \$2,000,000 for fiscal year 2000, the full amount requested, the same amount proposed in both the House and Senate bills, and in accordance with the House and Senate bills.

PAYMENT TO RADIATION COMPENSATION EXPOSURE TRUST FUND

The conference agreement provides \$3,200,000 in direct appropriations and assumes prior year carryover funding of \$7,800,000 for total of \$11,000,000 for the Compensation Trust Fund.

The Administration's fiscal year 2000 request was predicated on the passage of legislation that increased both the amount of payments to qualifying individuals and the number of categories of claimants. The proposed legislation has not been acted on and future passage is uncertain. The conferees are concerned that the Administration has expanded the number of claimants through the issuing of regulations when Congress has not chosen to do so through the normal legislative process. The conferees have provided adequate funding to cover the payments of the three categories of claimants currently provided for in statute. No additional funding is provided to cover the claims of individuals provided for by 29 CFR Part 79.

INTERAGENCY LAW ENFORCEMENT

INTERAGENCY CRIME AND DRUG ENFORCEMENT

The conference agreement includes a total of \$316,792,000 for Interagency Crime and Drug Enforcement (ICDE) as proposed in the House bill, instead of \$304,014,000 as proposed in the Senate bill. The distribution of funding provided is as follows:

Reimbursements by Agency

[In thousands of dollars]

Drug Enforcement Administration	\$104,000
Federal Bureau of Investigation	108,544
Immigration and Naturalization Service	15,300
Marshals Service	1,900
U.S. Attorneys	83,300
Criminal Division	790

Reimbursements by Agency—Continued

Tax Division	1,344
Administrative Office	1,614
Total	316,792

The conferees continue to believe that a dedicated, focused effort is needed for this activity. Therefore, the conference agreement adopts the approach included in both the House and Senate bills to continue funding for Department of Justice components' participation in ICDE activities as a separate appropriations account, instead of providing funding directly to individual components as proposed in the President's budget. The conferees recognize that in order to be truly successful, all participants must remain committed to the program, and the program must be implemented as efficiently as possible. The conferees direct the Department of Justice to conduct a comprehensive review of the program and provide a report to the Committees on Appropriations no later than January 15, 2000, with any recommendations to improve the program.

The conference agreement includes language allowing up to \$50,000,000 to remain available until expended as proposed in the House bill, instead of \$20,000,000 as proposed in the Senate bill.

FEDERAL BUREAU OF INVESTIGATION

SALARIES AND EXPENSES

The conference agreement includes \$3,089,868,000 for the Federal Bureau of Investigation (FBI) Salaries and Expenses account as proposed in the House bill, instead of \$2,973,292,000 as proposed in the Senate bill, of which \$752,853,000 is provided from the Violent Crime Reduction Trust Fund (VCRTF) as recommended in the House bill, instead of \$280,501,000 as recommended in the Senate bill. In addition, the conference agreement provides that not less than \$292,473,000 shall be used for counterterrorism investigations, foreign counterintelligence, and other activities related to national security as proposed in the House bill, instead of \$260,000,000 as proposed in the Senate bill. This statement of managers reflects the agreement of the conferees on how the funds provided in the conference report are to be spent.

The conference agreement includes a net increase of \$100,836,000 for adjustments to base, as follows: increases totaling \$182,935,000 for costs associated with the annualization of new positions provided in fiscal year 1999, the 2000 pay raise, increased rent, continued direct funding of the National Instant Check System, and other inflationary adjustments; offset by decreases totaling \$82,099,000 for non-recurring costs associated with the completion of the Integrated Automated Fingerprint Identification System (IAFIS) and one-time equipment purchases provided for in fiscal year 1999, the transfer of the State Identification grants program to the Office of Justice Programs, the rebaselining of certain programs to match actual expenditures, and reductions for vehicle and furniture purchases. In addition, the conference agreement includes program increases totaling \$7,484,000, which are described below:

National Infrastructure Protection/Computer Intrusion.—The conference agreement adopts the direction included in the Senate

report requiring the conversion of 95 part-time positions for Computer Analysis Response Teams (CART) to 62 full-time positions, which will enable the FBI to increase its total effort by 20%. The conferees believe that the complexity of computer forensic examinations necessitates a cadre of personnel dedicated to this activity, which can provide the necessary investigative support to field offices, and expect the FBI to deploy these personnel in a manner which maximizes coverage and support to field offices. To ensure that these teams can effectively respond to the needs of the field, a program increase of \$3,399,000 has been provided for training, equipment, supplies and technology upgrades for these teams. The conferees direct the FBI to submit a spending plan to the Committees on Appropriations prior to the release of these funds. In addition, the conferees expect the FBI to comply with the direction included in the Senate report regarding the adequacy of examiner training, and the development of a master plan regarding current and planned capabilities to combat computer crime and intrusion.

In addition, the conference agreement provides a total of \$18,596,000 for the National Infrastructure Protection Center (NIPC), of which \$1,250,000 is for a cybercrime partnership with the Thayer School of Engineering, as proposed in the Senate report. This amount, when combined with \$2,069,436 in carryover funding, will provide a total of \$20,880,032 for the NIPC in fiscal year 2000, approximately the same level of funding available in fiscal year 1999, adjusted for costs associated with certain non-recurring requirements. It has come to the conferees' attention that concerns have been expressed regarding the adequacy of staffing levels at the NIPC. The conferees are concerned that the current FBI on-board staffing level at the NIPC is only at 80% of its authorized and funded level, and other agency participation is only at 70% of the authorized level. The conferees direct the FBI to provide a report to the Committees no later than December 1, 1999, on the actions it is taking to rectify this situation.

Mitochondrial DNA.—The conference agreement includes a program increase of \$2,835,000 (5 positions and 3 workyears) for the development of the use of mitochondrial DNA to assist in the identification of missing persons, as proposed in the Senate report.

Criminal Justice Services.—The conference agreement includes a total of \$212,566,000 for the Criminal Justice Information Services Division (CJIS), which includes the National Instant Check System (NICS), an increase of \$81,500,000 above the request. Of this amount, \$70,235,000 is for NICS, including \$2,500,000 to be funded from prior year carryover, and \$142,331,000 is for non-NICS activities, including \$11,265,000 for an operations and maintenance shortfall affecting the Integrated Automated Fingerprint Identification System (IAFIS) and the National Crime Information Center (NCIC).

The fiscal year 2000 budget for the FBI included no direct funding for the NICS, and instead proposed to finance the costs of this system through a user fee. The conference agreement includes a provision under Title VI of this Act which prohibits the FBI from charging a fee for NICS checks, and instead provides funding to the FBI for its costs in operating the NICS.

Indian Country Law Enforcement.—The conferees share the concerns expressed in the Senate report regarding sexual assaults on Indian reservations. The conferees direct the FBI to reallocate not less than 25 agents to existing DOJ offices nearest to the Indian reservations identified in the Senate report. The conferees assume these agents will serve as part of multi-agency task forces dedicated to addressing this problem. While the conferees do not intend for this to be a permanent redirection of FBI resources, the conferees expect the FBI to implement this direction in the most cost effective manner possible. Therefore, the conferees direct the FBI to submit an implementation plan to the Committees on Appropriations no later than December 1, 1999, and to provide a report on the success of its investigative efforts not later than June 1, 2000.

Information Sharing Initiative (ISI).—The conference agreement does not include program increases for ISI. Within the total amount available to the FBI, \$20,000,000 is available from fiscal year 2000 base funding, and \$60,000,000 is available from unobligated balances from fiscal year 1999. The Bureau is again directed not to obligate any of these funds until approval by the Committees of an ISI plan.

The conferees reiterate the concerns expressed in the House report regarding the FBI's information technology initiatives. The FBI is expected to comply with the direction included in the House report regarding the submission of an Information Technology report, and is directed to provide this report to the Committees on Appropriations no later than November 1, 1999, and an updated report as part of the fiscal year 2001 budget submission.

National Domestic Preparedness Office (NDPO).—The FBI is considered the lead agency for crisis management; the Federal Emergency Management Agency (FEMA) is considered the lead agency for consequence management; and various other Federal agencies share additional responsibilities in the event of a terrorist attack. In the past, there has been no coordinated effort to prepare State and local governments to respond to terrorist incidents. The Department of Justice has proposed the establishment of an inter-agency National Domestic Preparedness Office (NDPO) to coordinate Federal assistance programs for State and local first responders, provide a single point of contact among Federal programs, and create a national standard for domestic preparedness, thereby improving the responsiveness of Federal domestic preparedness programs, while reducing duplication of effort. The conferees approve the Department's request to create the NDPO and direct the Department of Justice to submit to the Committees no later than December 15, 1999, the final blueprint for this office. Within the total amount available to the FBI, up to \$6,000,000 may be used to provide funding for the NDPO in fiscal year 2000, subject to the submission of a reprogramming in accordance with section 605 of this Act. Further, the conferees expect the five-year interagency counterterrorism plan, which is to be submitted to the Committees no later than March 1, 2000, to identify and incorporate the NDPO's role and function.

Other.—From within the total amount provided under this account, the FBI is directed to provide not less than \$5,204,000 to

maintain the Crimes Against Children initiative as recommended in the Senate report. In addition, not less than \$1,500,000 and 11 positions are to be provided to continue the Housing Fraud initiative as recommended in the House report. The conferees are concerned about the delay in fully implementing the Housing Fraud initiative provided for in fiscal year 1999, and expect the FBI to take all necessary actions to fully implement this initiative and report back to the Committees on Appropriations no later than December 1, 1999, on its actions.

The Senate report language regarding intelligence collection management officers, background checks for school bus drivers, the Northern New Mexico anti-drug initiative, and continued collaboration with the Southwest Surety Institute is adopted by reference. The conference agreement also adopts by reference the House report language regarding the National Integrated Ballistics Information Network (NIBIN).

In addition to identical provisions that were included in both the House and Senate bills, the conference agreement includes provisions, modified from language proposed in the House bill, authorizing the purchase of not to exceed 1,236 passenger motor vehicles, and designating \$50,000,000 for narrowband communications activities to be transferred to the Department of Justice Wireless Management Office. The Senate bill did not include provisions on these matters. The conference agreement also includes language allowing up to \$45,000 to be used for official reception and representation expenses as proposed in the House bill, instead of \$65,000 as proposed in the Senate bill, and contains statutory citations under the Violent Crime Reduction Trust Fund proposed in the House bill, which were not included in the Senate bill.

The conference agreement does not include language proposed in the Senate bill regarding the independent program office dedicated to the automation of fingerprint identification services, nor is language included limiting the total number of positions and workyears available to the FBI in fiscal year 2000. The House bill did not include similar provisions on these matters. However, the conferees are concerned about the continued variances between the FBI's funded and actual staffing levels. Therefore, the conferees direct the FBI to provide quarterly reports to the Committees on Appropriations which delineate the funded and the actual agent and non-agent staffing level for each decision unit, with the first report to be provided no later than December 1, 1999.

CONSTRUCTION

The conference agreement includes \$1,287,000 in direct appropriations for construction for the Federal Bureau of Investigation (FBI), as provided for in the House bill, instead of \$10,287,000 as proposed in the Senate bill. The agreement includes the funding necessary to continue necessary improvements and maintenance at the FBI Academy.

DRUG ENFORCEMENT ADMINISTRATION
SALARIES AND EXPENSES

The conference agreement includes \$1,276,250,000 for the Drug Enforcement Administration (DEA) Salaries and Expenses account as proposed in the House bill, instead of \$1,217,646,000 as proposed in the Senate bill, of which \$343,250,000 is provided from the Violent Crime Reduction Trust Fund (VCRTF), instead of \$344,250,000 as proposed in the House bill, and \$419,459,000 as proposed in the Senate bill. In addition, \$80,330,000 is derived from the Diversion Control Fund for diversion control activities. This statement of managers reflects the agreement of the conferees on how the funds provided in the conference report are to be spent.

Budget and Financial Management.—The conferees share the concerns expressed in both the House and Senate reports regarding DEA's budget and financial management practices, including DEA's failure to comply with section 605 of the appropriations Acts, resulting in resources being expended in a manner inconsistent with the appropriations Acts. As a result of these concerns, a comprehensive review was conducted by the Department of Justice and DEA, and a report was provided to the Committees on Appropriations on July 8, 1999, which recommended a series of management reforms to be implemented by DEA and included a revised budget submission for fiscal year 2000. The conferees expect DEA to expeditiously implement all management reforms recommended in that report. Further, the conference agreement has used the revised budget submission as the basis for funding provided for fiscal year 2000. The following table represents funding provided under this account:

DEA SALARIES AND EXPENSES
[Dollars in thousands]

Activity	Pos.	FTE	Amount
Enforcement:			
Domestic enforcement	2,195	2,134	\$377,008
Foreign cooperative investigation	730	689	200,678

State and local task forces	1,678	1,675	233,073
Subtotal	4,745	4,641	825,357
Investigative Support:			
Intelligence	883	900	106,133
Laboratory services	381	378	42,833
Training	99	98	19,861
RETO	355	353	101,783
ADP	131	129	96,994
Subtotal	1,849	1,858	367,604
Management and administration	857	849	83,289
Total, DEA	7,451	7,348	1,276,250

DEA is reminded that any deviation from the above distribution is subject to the reprogramming requirements of section 605 of this Act.

The conference agreement provides a net increase of \$20,312,000 for pay and other inflationary costs to maintain current operations, as follows: increases totaling \$50,220,000 for costs associated with annualization of 617 new positions provided in fiscal year 1999, the 2000 pay raise, increased rent, and other inflationary increases; offset by decreases totaling \$29,908,000 for costs associated with one-time and non-recurring equipment purchases and other items provided for in fiscal year 1999, and a general reduction in administrative overhead.

In addition, the conference agreement includes program increases totaling \$41,925,000, as follows:

Caribbean Initiative.—The conference agreement includes a total of \$5,500,000 (17 positions, including 11 agents) to augment the Caribbean Initiative funded in fiscal years 1998 and 1999, as follows:

—\$1,900,000 within Domestic Enforcement for 17 positions and 9 workyears for new agents and support in Puerto Rico;

—\$500,000 within Domestic Enforcement to address law enforcement retention efforts in Puerto Rico, including the development of a community liaison office and center to provide assistance to Department of Justice employees and their families;

—\$3,100,000 within Research, Engineering, Test and Operations (RETO) to purchase four MWIR airborne thermal imaging systems and eight installation kits for UH-60 aircraft to support multi-agency operations in the Bahamas and North Caribbean. The conferees expect these aircraft to be configured like the US Customs Service UH-60 counter-drug aircraft to enhance interoperability.

The conferees direct DEA to provide quarterly status reports on the implementation of these initiatives. Further, the conference agreement adopts by reference the House report language regarding requirements related to the Caribbean.

Source Country/International Strategy.—Within the amount provided for Foreign Cooperative Investigations, the conference agreement includes program increases totaling \$5,000,000 (19 positions, including 8 agents) to enhance staffing in Central and South America, as follows:

—\$1,500,000 for 6 positions, including 2 agents, to enhance staffing in Panama (3 positions, including 2 agents), Nicaragua (1 position), and Belize (2 positions); and

—\$3,500,000 for 13 positions, including 6 agents, to enhance staffing in Argentina (2 positions, including 1 agent), Brazil (3 positions, including 2 agents); Chile (2 positions, including 1 agent); Peru (2 positions); and Venezuela (4 positions, including 2 agents).

The conferees are aware of concerns expressed regarding the adequacy of non-agent personnel in source countries, resulting in agent resources being used to perform functions more efficiently performed by non-agent personnel. Therefore, the conference agreement has included additional non-agent positions to address this problem. The conferees urge the DEA to review the adequacy of non-agent personnel in source countries to ensure that adequate support is provided. DEA is expected to provide quarterly reports on investigative and non-investigative workyears and funding, by type, within source and transit countries, including the Caribbean,

delineated by country and function, with the first report to be provided not later than November 15, 1999.

Domestic Enhancements.—The conference agreement includes program increases totaling \$10,700,000 for domestic counter-drug activities, exclusive of the Caribbean Initiative. Included are the following program increases:

—\$4,600,000 within Domestic Enforcement for 25 positions (15 agents) and 13 workyears for Regional Enforcement Teams (RETS), to provide a total of \$17,400,000 for RETS in fiscal year 2000. The conferees expect the additional personnel and resources provided to be dedicated to locations in the Western United States as determined by DEA, and to focus primarily on the methamphetamine problem in that geographic region;

—\$2,800,000 within State and Local Task Forces for 20 positions (12 agents) and 10 workyears for Mobile Enforcement Teams (METs), to provide a total of \$53,900,000 for METs in fiscal year 2000. The conferees expect the additional personnel and resources provided to be dedicated to locations as determined by DEA, and to focus primarily on the problems of black tar heroin and methamphetamines;

—\$1,500,000 within State and Local Task Forces for State and local methamphetamine training, as recommended in the Senate report;

—\$1,000,000 within Domestic Enforcement for Drug Demand Reduction programs, as recommended in the House report;

—\$400,000 within Domestic Enforcement for black tar heroin and methamphetamine enforcement along the Southwest border to address this problem in cooperation with other Federal law enforcement agencies, with particular emphasis on the illegal drug trafficking problem in Northern New Mexico;

—\$400,000 within State and Local Task Forces for support for methamphetamine enforcement in Iowa, as directed in the Senate report.

In addition, DEA is expected to comply with the direction included in the House report regarding DEA's continued participation in the HIDTA program, and support for DEA's newly established office in Madisonville, Kentucky. DEA is also expected to comply with the direction included in the Senate report regarding Operation Pipeline.

Investigative Support Requirements.—The conference agreement includes \$20,725,000 to address critical infrastructure needs, as follows:

—\$7,725,000 within RETO to consolidate and enhance DEA's electronic surveillance capabilities to support multi-agency, multi-jurisdictional investigations;

—\$13,000,000 within ADP to accelerate the completion of Phase II of FIREBIRD to December 2001. This amount will provide a total of \$44,890,000 in fiscal year 2000 for FIREBIRD, of which \$37,490,000 is to be for deployment only, and \$7,400,000 is for operations and maintenance (O&M) of the system, the full amount requested in the budget. Should additional funds be required for O&M, the Committees would be willing to entertain a reprogramming in accordance with section 605 of the Act. The conferees share the concerns expressed in the House report regarding this program,

and direct DEA to provide a full program plan for completion of Phase II of FIREBIRD, including deployment and O&M costs, to the Committees on Appropriations not later than December 1, 1999, and to provide quarterly status reports thereafter on deployment and O&M, delineated by location and function.

Drug Diversion Control Fee Account.—The conference agreement provides \$80,330,000 for DEA's Drug Diversion Control Program, including \$3,260,000 in adjustments to base and program increases, as requested. In addition, the Senate report language regarding development of electronic reporting and records systems is adopted by reference. The conference agreement assumes that the level of balances in the Fee Account are sufficient to fully support diversion control programs in fiscal year 2000. As was the case in fiscal year 1999, no funds are provided in the DEA Salaries and Expenses appropriation for this account in fiscal year 2000.

CONSTRUCTION

The conference agreement includes \$5,500,000 in direct appropriations for construction for the Drug Enforcement Administration (DEA) as proposed in the Senate bill, instead of \$8,000,000 as proposed in the House bill.

IMMIGRATION AND NATURALIZATION SERVICE

SALARIES AND EXPENSES

The conference agreement includes \$2,909,665,000 for the salaries and expenses of the Immigration and Naturalization Service (INS), instead of \$2,932,266,000 as provided in the House bill, and \$2,570,164,000 as provided in the Senate bill, of which \$1,267,225,000 is from the Violent Crime Reduction Trust Fund, instead of \$1,311,225,000 as proposed in the House bill and \$873,000,000 as proposed in the Senate bill. In addition to the amounts appropriated, the conference agreement assumes that \$1,269,597,000 will be available from offsetting fee collections instead of \$1,285,475,000 as proposed by the House and \$1,290,162,000 as proposed by the Senate. Thus, including resources provided under construction, the conference agreement provides a total operating level of \$4,260,416,000 for INS, instead of \$4,289,231,000 as proposed by the House and \$3,999,290,000 as proposed by the Senate. This statement of managers reflects the agreement of the conferees on how the funds provided in the conference report are to be spent.

Base adjustments.—The conference agreement provides \$54,740,000 for base restoration, instead of the requested \$55,830,000, and provides \$7,112,000 for the annualization of the fiscal year 1999 pay raise, instead of the requested \$14,961,000, the remaining amount of which has already been paid in the current fiscal year. Additionally, the conference agreement includes \$30,000,000 for the annualization of the Working Capital Fund base transfer, \$3,794,000 for the National Archives records project, and \$1,090,000 of the base restoration for fiscal year 1999 adjustments to base which are funded in the Examinations Fee account, since sufficient funds are available. The conference agreement does not include \$11,240,000 for the Interagency Crime and Drug En-

forcement funds, which are provided in a separate account or \$20,000,000 for the annualization of border patrol agents not hired. The conference agreement does not include the transfers to the Examinations Fee account, H-1b account, or the breached bond/detention account, as proposed by the Senate report.

INS Organization and Management.—The conference agreement includes the concerns expressed in the House report that a lack of resources is no longer an acceptable response to INS's inability to adequately address its mission responsibilities. The conference agreement includes the establishment of clearer chains of command—one for enforcement activities and one for service to non-citizens—as one step towards making the INS a more efficient, accountable, and effective agency, as proposed in both the House and Senate reports. Consistent with the concept of separating immigration enforcement from service, the conference agreement continues to provide for a separation of funds, as in fiscal year 1999 and in the House bill. The conference agreement includes the separation of funds into two accounts, as requested and as proposed in the House bill: Enforcement and Border Affairs, and Citizenship and Benefits, Immigration Support and Program Direction. INS enforcement funds are placed under the Enforcement and Border Affairs account. All immigration-related benefits and naturalization, support and program resources are placed under the Citizenship and Benefits, Immigration Support and Program Direction account. Neither account includes revenues generated in various fee accounts to fund program activities in both enforcement and functions, which are in addition to the appropriated funds and are discussed below. Funds for INS construction projects continue to fall within the INS construction account.

The conference agreement includes bill language which provides authority for the Attorney General to transfer funds from one account to another in order to ensure that funds are properly aligned. Such transfers may occur notwithstanding any transfer limitations imposed under this Act but such transfers are still subject to the reprogramming requirements under Section 605 of this Act. It is expected that any request for transfer of funds will remain within the activities under those headings.

The conference agreement includes \$1,107,429,000 for Enforcement and Border Affairs, \$535,011,000 for Citizenship and Benefits, Immigration Support and Program Direction, and \$1,267,225,000 from the Violent Crime Reduction Trust Fund.

The Enforcement and Border Affairs account is comprised of the following amounts: \$922,224,000 for existing base activities for Border Patrol, Investigations, Detention and Deportation, and Intelligence; less \$11,240,000 for the Interagency Crime and Drug Enforcement funds, which are provided in a separate account, less \$20,000,000 for the annualization of border patrol agents not hired and less \$7,555,000 for part of the fiscal year 1999 annualized pay raise, the remaining amount of which has already been paid in the current fiscal year.

The Citizenship and Benefits, Immigration Support and Program Direction account includes \$539,099,000 (plus VCRTF funds) for the existing activities of citizenship and benefits, immigration support, and management and administration; less \$294,000 of the

annualized fiscal year 1999 pay raise which has already been paid within the current year, and less \$3,794,000 for archives and records, which are now funded within the Examinations Fee account. The requested \$30,000,000 base restoration and the \$1,090,000 base restoration for fiscal year 1999 adjustments to base need not be funded in the Salaries and Expenses base since sufficient funds are available within the Examinations Fee account. None of these amounts include offsetting fees, which are used to fund both enforcement and service functions.

Border Control.—The conference agreement includes \$50,000,000 for 1,000 new border patrol agents and 475 FTEs, of which \$1,500,000 is for border patrol recruitment devices, such as language proficiency bonuses, recruitment bonuses, and costs for improved recruitment outreach programs, including the possibility of expanding testing capabilities and other hiring steps, as described in the Senate report, and the establishment of an Office of Border Patrol Recruitment and Retention, as described in the Senate report, including the submission of recommendations on pay and benefits. Owing to INS's failure to hire 1,000 border patrol agents in fiscal year 1999, INS may provide a recruiting bonus to new agents hired after January 1, 2000. Should the INS be unable to recruit the required agents by June 1, 2000, the only other allowable purpose to which the \$48,500,000 may be put is an increase in pay for non-supervisory agents who have served at a GS-9 level for more than one year. The Committees on Appropriations expect to be notified prior to the use of funds for a pay raise.

The conference report also includes \$22,000,000 for additional border patrol equipment and technology, to be funded from existing base resources for information resource management, as follows: \$9,350,000 for infrared night vision scopes; \$6,375,000 for night vision goggles; \$4,050,000 for pocket scopes; and \$2,225,000 for laser aiming modules and infrared target pointers/illuminators. Additionally, the conference agreement includes \$3,000,000, funded from the existing base for information resource management, for the Law Enforcement Support Center, as described in the Senate report.

The conference agreement includes the following reports on border-related activities and technologies: (1) hand-held night-vision binocular report by March 1, 2000, as in the House report; (2) night vision obligation report by December 15, 1999, as in the House report; (3) all-light, all-weather ground surveillance capability report by March 1, 2000, as in the House report; (4) border patrol hiring and spending plan for fiscal year 1999 by September 15, 1999, as in the House report; (5) report on the situation in the Tucson sector by October 1, 1999, as in the House report; (6) fiscal year 1999 border patrol aviation final report; and (7) a feasibility report on the participation of the Tucson sector in the ambulance reimbursement program by January 15, 2000. All overdue reports are still expected to be submitted to the Committees. The conferees are aware of a recently filed lawsuit against the INS and the Army Corps of Engineers challenging the major drug interdiction effort known as Operation Rio Grande and its impact on the environment. The conferees are concerned about the potential adverse effects that this suit may have on drug interdiction efforts. The con-

ferrees, therefore, direct the Department of Justice, within 30 days of enactment, to provide the House and Senate Appropriations Committees with a report on the status of this lawsuit.

IAFIS/IDENT.—The conferees direct the Assistant Attorney General for Administration to submit a plan by November 1, 1999, to integrate the INS IDENT and the FBI IAFIS systems. This plan should address Congressional concerns that the current environment does not provide other Federal, State and local law enforcement agencies with access to fingerprint identification information captured by INS Border Patrol agents, nor does it provide the Border Patrol with the full benefit of FBI criminal history records when searching criminal histories of persons apprehended at the border.

The conferees direct that the following studies be undertaken: a system design effort; a joint INS–FBI criminality study, involving a matching of IDENT recidivist records against the Criminal Master File; a study to determine the operational impact of 10-printing apprehended illegal crossers at the border; and an engineering proposal for the first phase to determine the validity of the systems development costs that have been estimated by the FBI. These studies will provide the data necessary to project accurate costs for the remainder of the development and implementation. The conferees expect that the Justice Management Division will oversee the integration effort and that all existing INS base funds for IDENT will be controlled by the Assistant Attorney General for Administration. The Assistant Attorney General for Administration shall submit to the Committees a proposed spending plan on the use of existing base funds available for IDENT for these studies and other related expenditures no later than December 15, 1999.

Deployment of border patrol resources.—The conference agreement directs the INS to continue its consultation with the Committees on Appropriations of both the House and Senate before deployment of new border patrol agents included in this conference agreement. In recognition of the increased problems in and around El Centro, California; Tucson, Arizona; the Southeastern states; and around the Northern border, as described in both the House and Senate reports, the conferees expect that the proposed deployment plan submitted to the Committees by INS will include an appropriate distribution to address these needs.

Interior enforcement.—The conference agreement includes \$5,000,000 in additional funding within existing resources to continue and to expand the local jail program pursuant to Public Law 105–141. The conferees direct the INS to staff the Anaheim City Jail portion of this program with trained INS personnel on a full-time basis, especially the portions of the day or night when the greatest number of individuals are incarcerated prior to arraignment.

The conference agreement includes the following reports: (1) by January 15, 2000, a report on possible new quick response teams (QRTs), as described in the House report; (2) by November 30, 1999, the revised interior enforcement plan, as described in the House report; and (3) by January 15, 2000, the local jail program status report, as described in the House report.

Detention.—The conference agreement provides \$200,000,000 for additional detention space for detaining criminal and illegal aliens, as described in the House report, of which \$174,000,000 is in direct appropriations and \$26,000,000 is from recoveries from the Violent Crime Reduction Trust Fund for fiscal year 1995. This amount is \$30,000,000 less than the budget request and is funded from direct appropriations instead of the requested combination of appropriated funds, reinstatement of Section 245(i), transfer of funds from the Crime Victims Fund and a reallocation of funds within the account. The conference agreement continues funding for the \$80,000,000 for detention provided in fiscal year 1999 supplemental appropriations and provides an additional 1,216 new beds for a total of approximately 18,535 detention beds in fiscal year 2000, and provides 176 additional detention and deportation staff to support these beds and \$4,000,000 and 10 positions to begin implementation of standards at detention facilities.

The conference agreement includes the concerns raised in the House report about the INS's ability to plan for, request in a timely fashion, and manage sufficient detention space. Accordingly, the conference agreement includes the following reports: (1) by September 1, 1999, recommendations by the Attorney General on a Department-wide strategy on detention, as described in the House report; (2) by January 15, 2000, a detailed assessment of INS's current and projected detention needs for the next 3 years, as described in both the House and Senate reports, and including possible supplemental detention locations such as Etowah County Detention Center near Atlanta and Tallahatchie County prison in Tutwiler, a hiring plan for the additional detention and deportation personnel, and a proposal for the expansion of the number of juvenile detention beds; (3) by December 1, 1999, a report on the detention needs and costs associated with Operation Vanguard, as described in the House report; and (4) by March 1, 2000, a feasibility study and implementation plan for utilizing the Justice Prisoner and Alien Transportation System for a greater number of deportations. All overdue reports are still expected to be submitted to the Committees.

Naturalization.—The conference agreement includes full funding to continue the fiscal year 1999 Backlog Reduction Action Teams (BRAT) and accompanying resources during fiscal year 2000. The conference agreement includes the concerns raised in the House report about recently-discovered naturalization cases processed during the Citizenship USA initiative and requests a report on these cases by March 1, 2000, as described in the House report.

Institutional Removal Program.—The conferees assume that, in the implementation of the Institutional Removal Program (IRP), priority is given to violent offenders and those arrested for drug violations. The conferees direct the INS, in consultation with the Executive Office of Immigration Review, to report to the Committees on Appropriations on IRP caseload, by case type, for fiscal years 1997–1999. If the IRP caseload does not give priority to aliens imprisoned for serious violent felonies or drug trafficking, the INS is directed to explain why and to outline the steps it will take to focus IRP efforts on the most dangerous incarcerated aliens. The report shall be delivered not later than March 31, 2000.

Other.—In spite of the direction in the fiscal year 1999 supplemental appropriations Act to promptly submit all previously requested and overdue reports, the INS has failed to do so. Therefore, the conference agreement again includes the direction to INS to submit all outstanding reports to the Committees no later than November 1, 1999. The conference agreement also includes the following items: (1) Senate report language on special agent deployments aimed at forcing the INS to execute directives contained in both the fiscal year 1999 INS deployment plan and the conference report; (2) Senate direction to INS on assessment of staffing along the U.S.-Canadian border; and (3) Senate direction for INS-proposed periodic visits to the upper Shenandoah Valley.

OFFSETTING FEE COLLECTIONS

The conference agreement assumes \$1,269,597,000 will be available from offsetting fee collections, instead of \$1,285,475,000 as proposed by the House and \$1,290,162,000 as proposed by the Senate, to support activities related to the legal admission of persons into the United States. These activities are entirely funded by fees paid by persons who are either traveling internationally or are applying for immigration benefits. The following levels are recommended:

Immigration Examinations Fees.—The conference agreement assumes \$708,500,000 of spending from Immigration Examinations Fee account resources, instead of \$712,800,000 as proposed by both the House and Senate. This is an increase of \$19,921,000 over fiscal year 1999 and is due to an increase in the estimate of the number of applications that will be received in fiscal year 2000. The conference agreement assumes that the requested \$3,794,000 for archives and records, the requested \$30,000,000 for base restoration, and the requested \$1,090,000 base for fiscal year 1999 adjustments to base are funded in this account, and not in the Salaries and Expenses, Citizenship and Benefits, Immigration Support and Program Direction account, since sufficient funds are available.

The conference agreement includes full funding to continue the fiscal year 1999 Backlog Reduction Action Teams (BRAT) and accompanying resources for fiscal year 2000. The agreement also continues funding for the implementation of a telephone customer service center to assist applicants for immigration benefits, for the indexing and conversion of INS microfilm images and for the records centralization initiative, and all projects which were funded in fiscal year 1999. The conferees have a strong interest in and supported in fiscal year 1999 the INS effort to modernize its records program, that is fundamental to improved services and enforcement activities. INS is therefore directed to fully fund the records centralization and redesign activities in Harrisonburg, VA and Lee Summit, MO and provide a progress report on records centralization to the Committee on Appropriations no later than January 15, 2000.

The agreement does not include the transfer to the Executive Office for Immigration Review, as proposed by the Senate report.

Inspections User Fee.—The conference agreement includes \$446,151,000 of spending from offsetting collections in this account, the same amount proposed in both the House and Senate reports,

and does not assume the addition of any new or increased fees on airline or cruise ship passengers. The recommendation does not include \$9,918,000 for "re-evaluation of receipts" nor \$888,000 for a portion of the annualization of 1999 pay raise which has already been paid in the current fiscal year. The agreement includes the data collection pilot program at J.F. Kennedy airport, as described in the House report, and the resulting report, to be submitted to the Committees no later than August 1, 2000, as well as the directive to submit certain documents by September 31, 1999, as described in the House report. The agreement does not include the transfer from the inspections user fee, as proposed in the Senate report.

Land border inspections fees.—The conference agreement includes \$1,548,000 in spending from the Land Border Inspection Fund, a decrease of \$1,727,000 under the current year due to lower projected receipts. The current revenues generated in this account are from Dedicated Commuter Lanes in Blaine and Port Roberts, Washington, Detroit Tunnel and Ambassador Bridge, Michigan, and Otay Mesa, California and from Automated Permit Ports that provide pre-screened local border residents' border crossing privileges by means of automated inspections. The conference agreement includes the report on the feasibility of adding a secure electronic network for travelers rapid inspection program for dedicated commuter lanes at San Luis, Arizona by March 1, 2000, as described in the House report.

Immigration Breached Bond/Detention account.—The conference agreement includes \$110,423,000 in spending from the Breached Bond/Detention account, instead of \$117,501,000 in the House report and \$127,771,000 in the Senate report, a decrease in \$66,527,000 from fiscal year 1999 due to a decrease in revenue and \$6,477,000 below the request. The level of spending assumed in the conference agreement is based on estimated revenues in this account totaling \$55,683,000, which includes revenue projected for fiscal year 1999 and assumes the availability of funds from penalty fees from applications under 245(i) of the Immigration and Nationality Act, which expired on January 14, 1998. The conference agreement assumes \$54,740,000 of expenses for alien detention costs provided under the salaries and expenses account for base restoration. The agreement does not include the base transfer to the breached bond/detention account, as proposed by the Senate report.

Immigration Enforcement Fines.—The conference agreement includes \$1,850,000 in spending from Immigration Enforcement fines, instead of \$1,303,000 assumed in both the House and Senate. The increase is due to new projections of carryover from fiscal year 1999 that will be available in fiscal year 2000.

H-1B fees.—The conference agreement includes \$1,125,000 in spending from the new H-1B fee account, the amount requested and the amount proposed in both the House and Senate. This new account supports the processing of applications for H-1B temporary workers. The agreement does not include the transfer to this account, as proposed by the Senate report.

Other.—The conference agreement includes bill language, similar to that included in previous appropriations Acts, which pro-

vides: (1) up to \$50,000 to meet unforeseen emergencies of a confidential nature; (2) for the purchase of motor vehicles for police-type use and for uniforms, without regard to general purchase price limitations; (3) for the acquisition and operation of aircraft; (4) for research related to enforcement of which up to \$400,000 is available until expended; (5) up to \$10,000,000 for basic officer training; (6) up to \$5,000,000 for payments to State and local law enforcement agencies engaged in cooperative activities related to immigration; (7) up to \$5,000 to be used for official reception and representation expenses; (8) up to \$30,000 to be paid to individual employees for overtime; (9) that funds in this Act or any other Act may not be used for the continued operation of the San Clemente and Temecula checkpoints unless the checkpoints are open and traffic is being checked on a continuous 24-hour basis; (10) a specific level of funding for the Offices of Legislative and Public Affairs with a modification, and incorporating by reference House direction including that the level is not to affect the number of employees dedicated to casework; (11) a limit on the amount of funding available for non-career positions; (12) direction and authorization to the Attorney General to impose disciplinary actions, including termination of employment, for any INS employee who violates Department policies and procedures relative to granting citizenship or who willfully deceives the Congress or Department leadership on any matter; and (13) separate headings for Enforcement and Border Affairs and Citizenship and Benefits, Immigration Support, and Program Direction. In addition, new bill language is included designating a portion of funds to be used for narrowband conversion activities and transfers these funds to the Department of Justice Wireless Management Office. The agreement does not include the Senate provisions on fee payments by cash or cashier's checks or the cap on the number of positions.

CONSTRUCTION

The conference agreement includes \$99,664,000 for construction for INS, instead of \$90,000,000 as proposed in the House bill and \$138,964,000 as proposed in the Senate bill. The conference agreement assumes funding of \$51,468,000, of which \$35,968,000 is for border patrol and ports of entry new construction (seven stations or sector headquarters and two ports of entry housing) as proposed in the Senate report; \$6,500,000 for the Douglas, Arizona border patrol station; and \$9,000,000 for maintenance and renovations to the Charleston Border Patrol Academy. The agreement includes \$2,340,000 for planning, site acquisition and design of 5 border patrol stations and Texas checkpoints, as in the House report; \$6,000,000 for military engineering support to border construction, pursuant to both House and Senate reports; \$500,000 for planning, site acquisition and design, pursuant to the House report; \$10,308,000 for one-time build out costs; \$19,250,000 for servicewide maintenance and repair; \$4,000,000 for servicewide fuel storage tank upgrade and repair; and \$5,798,000 for program execution. The conference agreement also includes bill language, included in fiscal year 1999 and in the House bill, prohibiting site, acquisition, design, or construction of any border patrol checkpoint in the Tucson sector.

FEDERAL PRISON SYSTEM
SALARIES AND EXPENSES

The conference agreement includes \$3,111,634,000 for the salaries and expenses of the Federal Prison System, instead of \$3,072,528,000 as proposed in the House bill and \$3,163,373,000 as proposed in the Senate bill. Of this amount, the conference agreement provides \$22,524,000 from the Violent Crime Reduction Trust Fund (VCRTF), as proposed in the House bill, instead of \$46,599,000 as proposed in the Senate bill. The agreement assumes that, in addition to the amounts appropriated, \$90,000,000 will be available for necessary operations in fiscal year 2001 from unobligated carryover balances as proposed by the House bill, instead of \$50,000,000, to be made available for one fiscal year for activation of new facilities, as proposed by the Senate bill.

The conference agreement reduces the appropriation required for the Federal prison system by \$46,793,000 without affecting requested program levels. Specifically, \$31,808,000 in savings is achieved as a result of delays in scheduled activations and \$4,985,000 is due to a reduction in the number of contract beds for the transfer of detainees from the Immigration and Naturalization Service required in fiscal year 2000. The conference agreement includes the notation on a recent report by the General Accounting Office, as in the House report.

The conference agreement includes bill language designating a portion of funds to be used for narrowband conversion activities and transfers these funds to the Department of Justice Wireless Management Office.

BUILDINGS AND FACILITIES

The conference agreement includes \$556,791,000 for construction, modernization, maintenance and repair of prison and detention facilities housing Federal prisoners, as proposed in the House bill, instead of \$549,791,000 as proposed in the Senate bill, and assumes funding in accordance with the House bill.

The conferees direct the Bureau of Prisons to submit to the Committees a study of the feasibility of constructing additional medium or high security prisons or work camps at existing Federal prison sites, including those currently being constructed, and including Yazoo City, by May 1, 2000.

FEDERAL PRISON INDUSTRIES, INCORPORATED
(LIMITATION ON ADMINISTRATIVE EXPENSES)

The conference agreement includes a limitation on administrative expenses of \$3,429,000, as requested and as proposed in the Senate bill, instead of \$2,490,000 as proposed in the House bill.

OFFICE OF JUSTICE PROGRAMS
JUSTICE ASSISTANCE

The conference agreement includes \$307,611,000 for Justice Assistance, instead of \$217,436,000 as proposed in the House bill, and \$373,092,000 as proposed in the Senate bill.

The conference agreement includes the following:

This statement of managers reflects the agreement of the conferees on how funds provided for all programs under the Office of Justice Programs in this conference report are to be spent.

National Institute of Justice (NIJ).—The conference agreement provides \$43,448,000 for the National Institute of Justice, instead of \$42,438,000 as proposed in the House bill and \$50,948,000 in the Senate bill. Additionally, \$5,200,000 for NIJ research and evaluation on the causes and impact of domestic violence is provided under the Violence Against Women Grants program; \$15,000,000 is provided from within technology funding in the State and Local Law Enforcement account to be available to NIJ to develop new, more effective safety technologies for safe schools; and \$20,000,000 is provided to NIJ, as was provided in previous fiscal years, from the Local Law Enforcement Block Grant for assisting local units to identify, select, develop, modernize and purchase new technologies for use by law enforcement.

The conference agreement adopts the recommendation in the House and Senate reports that within the overall amount provided to NIJ, the Office of Justice Programs is expected to review proposals, provide a grant if warranted, and report to the Committees on its intentions regarding: a grant for the current year level for information technology applications for High Intensity Drug Trafficking Areas; a grant for the current year level for a pilot program with a Department of Criminal Justice Training and a College of Criminal Justice for rural law enforcement needs, as described in the House report; a grant for \$300,000 to the U.S.-Mexico Border Counties Coalition for the development of a uniform accounting proposal to determine the costs to border States for the processing of criminal illegal aliens; a grant for \$250,000 to study the caseload increase on U.S. District Courts; \$360,000 to the Center for Child and Family studies to conduct research into intra-family vio-

lence; a grant for \$750,000 for the University of Connecticut Prison Health Center for prison health research; a grant for \$1,000,000 for the University of Mississippi School of Psychiatry for research in addictive disorders and their connection to youth violence; and a grant for \$300,000 for research into a non-toxic drug detection and identification aerosol technology, as described in the Senate report. Within available funds NIJ is directed to carry out a broad-based demonstration of computerized live scan fingerprint capture services and report to the Committees with the results.

Defense/Law Enforcement Technology Transfer.—Within the total amount provided to NIJ, the conference agreement includes \$10,277,000 to assist NIJ, in conjunction with the Department of Defense, to convert non-lethal defense technology to law enforcement use. Within the amount is the continuation at the current year level of the law enforcement technology center network, which provides States with information on new equipment and technologies, as well as assists law enforcement agencies in locating high cost/low use equipment for use on a temporary or emergency basis, of which the current year level is provided for the technology commercialization initiative at the National Technology Transfer Center and other law enforcement technology centers.

DNA Technology Research and Development Program.—Within the amount provided, the conference agreement includes \$5,000,000 to develop improved DNA testing capabilities, as proposed in the House and Senate reports.

Bureau of Justice Statistics (BJS).—The conference agreement provides \$25,505,000 for the Bureau of Justice Statistics, instead of \$22,124,000 as proposed in the House bill and \$28,886,000 as proposed in the Senate bill. The recommendation includes \$400,000 to support the National Victims of Crime survey and \$400,000 to compile statistics on victims of crime with disabilities. The conferees direct BJS to implement a voluntary annual reporting system of all deaths occurring in law enforcement custody, and provide a report to the Committees on its progress no later than July 1, 2000, as provided in the House report.

Missing Children.—The conference agreement provides \$19,952,000 for the Missing Children Program as proposed in the Senate bill, instead of the \$17,168,000 as proposed in the House bill. The conference agreement provides a significant increase and further expands the Missing Children initiative included in the 1999 conference report, to combat crimes against children, particularly kidnapping and sexual exploitation. Within the amounts provided, the conference agreement assumes funding in accordance with the Senate report including:

(1) \$8,798,000 for the Missing Children Program within the Office of Justice Programs, Justice Assistance, including the following: \$6,000,000 for State and local law enforcement to continue specialized cyberunits and to form new units to investigate and prevent child sexual exploitation which are based on the protocols for conducting investigations involving the Internet and online service providers that have been established by the Department of Justice and the National Center for Missing and Exploited Children.

(2) \$9,654,000 for the National Center for Missing and Exploited Children, of which \$2,125,000 is provided to operate the Cyber Tip Line and to conduct Cyberspace training. The conferees expect the National Center for Missing and Exploited Children to continue to consult with participating law enforcement agencies to ensure the curriculum, training, and programs provided with this additional funding are consistent with the protocols for conducting investigations involving the Internet and online service providers that have been established by the Department of Justice. The conferees have included additional funding for the expansion of the Cyber Tip Line. The conference agreement includes \$50,000 to duplicate the America OnLine law enforcement training tape and disseminate it to law enforcement training academies and police departments within the United States. The conference agreement also includes additional funds for case management.

(3) \$1,500,000 for the Jimmy Ryce Law Enforcement Training Center for training of State and local law enforcement officials investigating missing and exploited children cases. The conference agreement includes an increase for expansion of the Center to train additional law enforcement officers. The conferees direct the Center to create courses for judges and prosecutors to improve the handling of child pornography cases. To accomplish this effort, the conference agreement directs the Center to expand its in-house legal division so that it can provide increased legal technical assistance.

Regional Information Sharing System (RISS).—The conference agreement includes \$20,000,000 as proposed in both the House and Senate bills. An additional \$5,000,000 is provided for fiscal year 2000 under the Community Oriented Policing Services (COPS) law enforcement technology program in accordance with the House report.

White Collar Crime Center.—The conference agreement includes \$9,250,000 for the National White Collar Crime Center (NWCCC), to assist the Center in forming partnerships and working on model projects with the private sector to address economic crimes issues, as proposed in the House bill, instead of \$5,350,000 as proposed in the Senate bill. The additional funding is to be used in accordance with the House report.

Counterterrorism Assistance.—The conference agreement includes a total of \$152,000,000 to continue the initiative to prepare, equip, and train State and local entities to respond to incidents of chemical, biological, radiological, and other types of domestic terrorism, instead of \$74,000,000 as proposed in the House bill and \$204,500,000 as proposed in the Senate bill. Funding is provided as follows:

—*Equipment Grants.*—\$75,000,000 is provided for general equipment grants for State and local first responders, including, but not limited to, firefighters and emergency services personnel. The conferees reiterate that these resources are to be used to meet the needs of the maximum number of communities possible, based upon a comprehensive needs assessment which takes into account the relative risk to a community, as well as the availability of other Federal, State and local resources to address this problem. The conferees understand that such needs and risk assessments are currently being conducted by each State, and State-wide plans are

being developed. The conferees intend, and expect, that such plans will address the needs of local communities. The conferees expect these plans to be reviewed by the interagency National Domestic Preparedness Office (NDPO). The conferees direct that funds provided for general grants in fiscal year 2000 be expended only upon completion of, and in accordance with, such State-wide plans.

—*State and Local Bomb Technician Equipment.*—\$10,000,000 is provided for equipment grants for State and local bomb technicians. This amount, when combined with \$3,000,000 in prior year carryover, will provide a total of \$13,000,000 for this purpose in fiscal year 2000. The conferees note that State and local bomb technicians play an integral role in any response to a terrorist threat or incident, and as such should be integrated into a State's counterterrorism plan. The conferees request that the NDPO conduct an assessment of the assistance currently provided to State and local bomb technicians under this and other programs, the relationship of this program to other State and local first responders assistance programs, and the extent to which State and local bomb technician equipment needs have been integrated into, and addressed, as part of a State's overall counterterrorism plan. The NDPO should provide a report on its assessment to the Committees on Appropriations no later than February 1, 2000.

—*Training.*—\$37,000,000 is provided for training programs for State and local first responders, to be distributed as follows:

(1) \$27,000,000 is for the National Domestic Preparedness Consortium, of which \$13,000,000 is for the Center for Domestic Preparedness at Ft. McClellan, Alabama, including \$500,000 for management and administration of the Center; and \$14,000,000 is to be equally divided among the four other Consortium members;

(2) \$8,000,000 is for additional training programs to address emerging training needs not provided for by the Consortium or elsewhere. In distributing these funds, the conferees expect OJP to consider the needs of firefighters and emergency services personnel, and State and local law enforcement, as well as the need for State and local antiterrorism training and equipment sustainment training. The conferees encourage OJP to consider developing and strengthening its partnerships with the Department of Defense to provide training and technical assistance, such as those services offered by U.S. Army Dugway Proving Ground and the U.S. Army Pine Bluff Arsenal; and

(3) \$2,000,000 is provided for distance learning training programs at the National Terrorism Preparedness Institute at the Southeastern Public Safety Institute to train 11,000 students, particularly in medium and small communities, through advanced distributive learning technology and other mechanisms.

The conferees are aware that the Department of Justice has recently agreed to assume control of the Ft. McClellan facility from the Department of Defense in fiscal year 2000. In addition, the conferees are aware that discussions are occurring which could result in the transfer of ownership of the entire facility from the Department of Defense to the Department of Justice. Such actions will result in the Department of Justice assuming a significant additional financial burden to operate and maintain the facility which previously was not anticipated, and may impact OJP's ability to pro-

vide support for all training programs. While the conferees recognize the importance of the training provided at Ft. McClellan, a comprehensive assessment of DOJ's needs at the facility is warranted to ensure that such needs are met in the most cost-effective manner possible. The Attorney General is directed to conduct this assessment and provide a report to the Committees on Appropriations no later than February 1, 2000. Further, the Department is directed not to pursue or assume any other relationships which may result in the Department of Justice assuming facilities management responsibility or ownership of any other training facility, without prior consultation with the Committees.

The Senate report language regarding utilization of Consortium members is adopted by reference. In addition, the conferees encourage OJP to collaborate with the National Guard to make use of the National Guard Distance Learning Network to deliver training programs, thereby capitalizing on investments made by the Department of Defense to provide low cost training to first responders.

Counterterrorism Research and Development.—The conference agreement provides \$30,000,000 to the National Institute of Justice for research into the social and political causes and effects of terrorism and development of technologies to counter biological, nuclear and chemical weapons of mass destruction, as well as cyberterrorism through our automated information systems. These funds shall be equally divided between the Oklahoma City Memorial Institute for the Prevention of Terrorism and the Dartmouth Institute for Security Studies, and shall be administered by NIJ to ensure collaboration and coordination among the two institutes and NIJ, as well as with the National Domestic Preparedness Office and the Office of State and Local Domestic Preparedness Support. These institutes will also serve as national points of contact for antiterrorism information sharing among Federal, State and local preparedness agencies, as well as private and public organizations dealing with these issues. The conferees agree that such a collaborative approach is essential to production of a national research and technology development agenda and expect a status report by July 30, 2000.

The conference agreement includes language providing funding for counterterrorism programs in accordance with sections 819, 821, and 822 of the Antiterrorism and Effective Death Penalty Act of 1996, as proposed in the House bill. The conference agreement does not include language, proposed in the Senate bill, prohibiting the Bureau of Justice Assistance from providing funding to States that have failed to establish a comprehensive terrorism plan. The House bill did not include a similar provision.

Management and Administration.—The conference agreement includes \$37,456,000 for Management and Administration, instead of \$31,456,000 as proposed in the House, and \$43,456,000 as proposed in the Senate. Within the amount, \$2,000,000 is provided for Counterterrorism program activities. In addition, reimbursable funding from Violent Crime Reduction Trust Fund programs, Community Oriented Policing Services, and a transfer from the Juvenile Justice account will be provided for the administration of

grants under these activities. Total funding for the administration of grants assumed in the conference agreement is as follows:

	Amount	FTE
Direct appropriations	\$37,456,000	338
(Counterterrorism programs)	(2,000,000)	(16)
Transfer from Juvenile Justice programs	6,647,000	87
Reimbursement from VCRTF	56,288,000	434
Reimbursement from COPS	4,700,000	39
Total	\$105,091,000	898

The conferees commend OJP's restructuring report, submitted to the Committees during fiscal year 1999, and support the current comprehensive review undertaken by the authorizing committees. To further the goals of eliminating possible duplication and overlap among OJP's programs, improving responsiveness to State and local needs, and ensuring that appropriated funds are targeted in a planned, comprehensive and well-coordinated way, the conferees direct the Assistant Attorney General for OJP to submit a formal reorganization proposal no later than February 1, 2000, on the following limited items: the creation of a "one-stop" information center; the establishment of "state desks" for geographically-based grant administration; and the administration of grants by subject area.

The conference agreement includes \$2,000,000 for management and administration of Department of Justice counterterrorism programs. The conferees understand that the Department of Justice has submitted a reprogramming to establish an Office of State and Local Domestic Preparedness to administer these programs. The conferees have no objection to the establishment of this office.

The conference agreement does not include additional funding proposed in the Senate bill to enable the Department of Justice to begin to assume responsibility for counterterrorism assistance programs currently funded and administered by the Department of Defense. Such action could significantly impact ongoing Department of Justice programs, and absent careful consideration and study, may result in the duplication and inefficient use of limited resources to meet the needs of State and local first responders. Therefore, the conferees direct the Department of Justice, working through the National Domestic Preparedness Office, to review this matter and provide to the Committees on Appropriations no later than December 15, 1999, a comprehensive plan for the transition and integration of Department of Defense programs into ongoing Department of Justice and other Federal agency programs in the most efficient and cost-effective manner. The conferees expect the Department not to take any further actions to assume responsibility for these programs until such a review has been completed, and the Committees on Appropriations have been consulted. Upon completion of these actions, should additional funding be required by OJP, the Committees would be willing to entertain a reprogramming in accordance with section 605 of this Act.

STATE AND LOCAL LAW ENFORCEMENT ASSISTANCE

The conference agreement includes a total of \$2,828,950,000 for State and Local Law Enforcement Assistance, instead of \$2,822,950,000 as proposed in the House bill and \$1,959,550,000 as proposed in the Senate bill. Of this amount, the conference agreement provides that \$1,194,450,000 shall be derived from the Violent Crime Reduction Trust Fund (VCRTF), instead of \$1,193,450,000 as proposed in the House bill and \$1,407,450,000 as proposed in the Senate bill.

Local Law Enforcement Block Grant.—The conference agreement includes \$523,000,000 for the Local Law Enforcement Block Grant program, as proposed in the House bill, instead of \$400,000,000, as proposed in the Senate bill, in order to continue the commitment to provide local governments with the resources and flexibility to address specific crime problems in their communities with their own solutions. Within the amount provided the conference agreement includes language providing \$50,000,000 of these funds to the Boys and Girls Clubs of America, with the increase to be used as described by the Senate. In addition, the conference agreement extends the set-aside for law enforcement technology for which an authorization had expired, as proposed in both the House and Senate bills.

State Prison Grants.—The conference agreement includes \$686,500,000 for State Prison Grants as proposed by the House, instead of \$75,000,000 as proposed by the Senate. Of the amount provided, \$462,500,000 is available to States to build and expand prisons, \$165,000,000 is available to States for reimbursement of the cost of criminal aliens, \$25,000,000 is available for the Cooperative Agreement Program, and \$34,000,000 is available for construction of jails on Indian reservations, which does not include repair and

maintenance costs for existing facilities. There is an awareness of the special needs of Circle of Nations, ND.

State Criminal Alien Assistance Program.—The conference agreement provides a total of \$585,000,000 for the State Criminal Alien Assistance Program for payment to the States for the costs of incarceration of criminal aliens, as proposed in the House bill, instead of \$100,000,000, as proposed in the Senate bill. Of the total amount, the conference agreement includes \$420,000,000 under this account for the State Criminal Alien Assistance Program and \$165,000,000 for this purpose under the State Prison Grants program, as proposed by the House bill, instead of \$100,000,000 for this program with no funds from the State Prison Grants program, as proposed by the Senate.

Technology.—The conference agreement includes \$250,000,000 in total funding for law enforcement technology, as follows: \$130,000,000 for a Crime Identification Technology Program under the Community Oriented Policing Services program heading but to be administered by OJP, which includes \$15,000,000 for use by NIJ for researching technology to make schools safe, \$35,000,000 for grants to upgrade criminal history records, \$30,000,000 for grants to states to reduce their DNA backlogs and for the Crime Laboratory Improvement Program (CLIP); \$20,000,000 within the Local Law Enforcement Block Grant program to NIJ for assisting local units to identify, select, develop, modernize and purchase new technologies for use by law enforcement under this heading; and \$100,000,000 for grants for law enforcement technology equipment under the Community Oriented Policing Services program heading.

Indian Tribal Courts.—The conference agreement includes \$5,000,000, as proposed in the Senate, which was not funded in the House bill, to assist tribal governments in the development, enhancement, and continuing operation of tribal judicial systems. These grants should be competitive, based upon the extent and urgency of the need of each applicant. OJP should report back to the Committees with its proposal as to how the program may be administered. The conferees note the special needs of the Wapka Sica Historical Society of South Dakota.

VIOLENT CRIME REDUCTION TRUST FUND PROGRAMS

Edward Byrne Grants to States.—The conference agreement provides \$552,000,000 for the Edward Byrne Memorial State and Local Law Enforcement Assistance Program, of which \$52,000,000 is discretionary and \$500,000,000 is provided for formula grants under this program.

Byrne Discretionary Grants.—The conference agreement provides \$52,000,000 for discretionary grants under Chapter A of the Edward Byrne Memorial State and Local Law Enforcement Assistance Program to be administered by Bureau of Justice Assistance (BJA), instead of \$52,100,000 as proposed in the Senate bill, and \$47,000,000 as proposed in the House bill. Within the available resources for Byrne discretionary grants, BJA is urged to review proposals, and provide grants if warranted, and report to the Committees on Appropriations of the House and Senate on its intentions regarding: the Haymarket House; Oregon Partnership; and Westcare.

The conferees are aware that, on certain limited occasions, the Office of Justice Programs has provided or made grants to pay overtime costs for State and local law enforcement personnel. The conferees expect OJP to submit, no later than January 31, 2000, a report on (1) its current policy on paying State and local overtime costs, (2) the extraordinary circumstances that might warrant a waiver of existing procedures, and (3) the process by which such a waiver could be granted.

Byrne Formula Grants.—The conference agreement provides \$500,000,000 for the Byrne Formula Grant program, as proposed in Senate bill, instead of \$505,000,000 as proposed in the House bill. The conference agreement includes language, as proposed in both bills, which makes drug testing programs an allowable use of grants provided to States under this program.

Drug Courts.—The conference agreement includes \$40,000,000 for the drug courts as proposed both in the Senate and House bills. The conferees note that localities may also obtain funding for drug courts under the Local Law Enforcement Block Grant and Juvenile Accountability Block Grant.

Juvenile Accountability Block Grant.—The conference agreement provides \$250,000,000 for a Juvenile Accountability Incentive Block Grant program to address the growing problem of juvenile crime, as proposed in the House bill and instead of the \$100,000,000 proposed in the Senate bill. The conference agreement includes language that continues by reference the terms and conditions for the administration of the Block Grants contained in the fiscal year 1999 appropriations bill, instead of listing those terms and conditions.

WEED AND SEED PROGRAM

The conference agreement includes a direct appropriation of \$33,500,000 for the Weed and Seed program, as proposed by the House bill, instead of \$40,000,000 as proposed by the Senate bill. The conference agreement includes the expectation that \$6,500,000 will be made available from the Asset Forfeiture Super Surplus Fund.

COMMUNITY ORIENTED POLICING SERVICES

The conference agreement includes \$595,000,000 for the Community Oriented Policing Services (COPS) program, instead of \$325,000,000 as proposed in the Senate bill and \$268,000,000 as proposed in the House bill. Of this amount, \$45,000,000 is from the Violent Crime Reduction Trust Fund. This statement of managers reflects the conference agreement on how funds provided for all programs under the Community Oriented Policing Services program in this conference report are to be spent.

Police Hiring Initiatives.—Funds have been provided since fiscal year 1994 to support grants for the hiring of 100,000 police officers, a goal which the President announced had been met in May

of 1999. The conference agreement includes \$537,500,000 for police hiring initiatives as follows: \$180,000,000 from direct appropriations for school resource officers; \$209,500,000 from direct appropriations for the universal hiring program (UHP); \$40,000,000 from unobligated carryover balances for hiring police officers for Indian Country; and \$108,000,000 from unobligated carryover balances from the fiscal year 1999 universal hiring program to continue to be used for the universal hiring program.

Safe schools initiative (SSI).—The conference agreement supports the concern expressed in the Senate and House reports regarding the level of violence in our children's schools as evidenced by the tragic events that have occurred around the Nation. In the past year, guns and explosives have been used by children against children and teachers more than ever before, leading many to believe this violence is "out of control." To address this issue, the conference agreement includes \$225,000,000 for the Safe Schools Initiative (SSI), including funds for technology development, prevention, community planning and school safety officers. Within this total, \$180,000,000 is from the COPS hiring program to provide school resource officers who will work in partnership with schools and other community-based entities to develop programs to improve the safety of elementary and secondary school children and educators in and around schools; \$15,000,000 is from the Juvenile Justice At-Risk Children's Program and \$15,000,000 is from the COPS program (\$30,000,000 total) for programs aimed at preventing violence in schools through partnerships with schools and community-based organizations; \$15,000,000 is provided from the Crime Identification Technology Program to NIJ to develop technologies to improve school safety. Special note is made of the need for additional school resource officers in King County, Washington.

Indian Country.—The conference agreement includes \$40,000,000 from unobligated carryover balances to improve law enforcement capabilities on Indian lands, both for hiring uniformed officers and for the purchase of equipment and training for new and existing officers, as proposed by the Senate.

Management and Administration.—The conference agreement also includes a provision that provides that not to exceed \$29,825,000 shall be expended for management and administration of the program, instead of \$17,325,000 as proposed in the Senate bill, and \$25,500,000, as proposed in the House bill. A request for reprogramming or transfer of funds, pursuant to section 605 of this Act, would be entertained to increase this amount.

Non-Hiring Initiatives.—The conferees understand that the COPS program reached its goal of funding 100,000 officers in May of 1999. Having reached the original goals of the program, the conferees want to ensure there is adequate infrastructure for the new police officers, similar to the focus that has been provided Federal law enforcement over the past several years. The conferees believe this approach will enable police officers to work more efficiently, equipped with the protection, tools, and technology they need: to address crime in and around schools, provide law enforcement technology for local law enforcement, combat the emergence of methamphetamine in new areas and provide policing of "hot spots" of

drug market activity, and provide bullet proof and stab proof vests for local law enforcement officers and correctional officers.

Specifically, the conferees direct the program to use \$335,675,000, to be made available from a combination of \$170,000,000 from unobligated carryover balances and the \$165,675,000 from direct appropriations in this Act for COPS, to fund initiatives that will result in more effective policing. The conferees believe that these funds should be used to address these critical law enforcement requirements and direct the program to establish the following non-hiring grant programs:

1. *COPS Technology Program.*—The conference agreement includes the direction of \$100,000,000 to be used for continued development of technologies and automated systems to assist State and local law enforcement agencies in investigating, responding to and preventing crime. In particular, there is recognition of the importance of the sharing of criminal information and intelligence between State and local law enforcement to address multi-jurisdictional crimes.

Within the amounts made available under this program, the conference agreement includes the expectation that the COPS office will award grants for the following technology proposals:

—\$1,450,000 for a grant for the Access to Court Electronic Data for Criminal Justice Agencies project;

—\$1,000,000 for a grant for Alameda County, CA, for a voice communications system;

—\$1,000,000 for a grant to the Greater Atlanta Data Center for law enforcement training technology for a multi-jurisdictional area;

—\$350,000 for a grant to Birmingham, AL, for a Mobile Emergency Communication System;

—\$60,000 for a grant to the Bolivar City Sheriff's Office (MS) for public safety equipment;

Sec. 117.—The conference agreement includes section 117, modified from language proposed as section 119 in the Senate bill, which provides a procedure to grant national interest waivers to physicians if they have served an aggregate of five years and will continue to serve in areas designated as medically underserved or at facilities under the jurisdiction of the Secretary of Veterans Affairs. This provision essentially restores the situation that existed for alien physicians prior to the Immigration and Naturalization Service decision in *New York State Department of Transportation*,

and those physicians who filed prior to November 1, 1998, shall be granted a national interest waiver if they agree to serve three years in medically underserved areas or at facilities under the jurisdiction of the Secretary of Veterans Affairs. The House bill did not include a provision on this matter.

Sec. 118.—The conference agreement includes section 118, proposed as section 121 in the Senate bill, which permanently authorizes the land border inspection fee account. The House bill did not include a provision on this matter.

Sec. 119.—The conference agreement includes a new provision, section 119, to extend the authorities included in the fiscal year 1998 Act which authorized funds to be provided for the U.S. Attorneys victim witness coordinator and advocate program from the Crime Victims Fund. The conferees expect \$6,838,000 will be used under this provision to continue to support the 93 victim witness coordinators and advocates who are assigned to various U.S. Attorneys offices, including victim support for the D.C. Superior Court, and \$7,552,000 will be used to provide funding for the U.S. Attorneys to support the 77 victim witness workyears from pre-1998 allocations. The conferees expect that appropriate sums will be made available under this provision in succeeding fiscal years to continue this program at the current level.

Sec. 120.—The conference agreement includes a new provision, section 120, which authorizes the collection and analysis of DNA samples voluntarily contributed from the relatives of missing persons.

Sec. 121.—The conference agreement includes a new provision, section 121, which changes the entity to which electronic communication service providers report instances of child pornography.

TITLE II—DEPARTMENT OF COMMERCE AND RELATED AGENCIES

TRADE AND INFRASTRUCTURE DEVELOPMENT

RELATED AGENCIES

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

SALARIES AND EXPENSES

The conference agreement includes \$25,635,000 for the salaries and expenses of the Office of the United States Trade Representative, instead of \$25,205,000 as proposed in the House bill, and \$26,067,000 as proposed in the Senate bill.

The increase over the fiscal year 1999 appropriation provides for adjustments to base operations to maintain the current level of operations, and program increases requested for Washington-based security, travel, and translation services. The conferees concur with language in the House report related to the upcoming World Trade Organization Ministerial Meeting.

INTERNATIONAL TRADE COMMISSION
SALARIES AND EXPENSES

The conference agreement includes \$44,495,000 and \$2,500,000 in carryover for the salaries and expenses of the International Trade Commission (ITC) as proposed in the House bill, instead of \$45,700,000 as proposed in the Senate bill. The recommended funding will allow the ITC to operate at a level very close to the amount of the budget request, and permit the Commission to carry out planned activities.

DEPARTMENT OF COMMERCE
INTERNATIONAL TRADE ADMINISTRATION
OPERATIONS AND ADMINISTRATION

The conference agreement includes \$311,503,000 in new budgetary resources for the operations and administration of the International Trade Administration for fiscal year 2000, of which \$3,000,000 is derived from fee collections, instead of \$298,236,000 as proposed by the House bill, and \$311,344,000 as proposed by the Senate bill. In addition to this amount, the conference agreement assumes \$2,000,000 in prior year carryover, resulting in a total fiscal year 2000 availability of \$313,503,000.

The following table reflects the distribution of funds by activity included in the conference agreement:

Trade Development	\$62,376,000
Market Access and Compliance	19,755,000
Import Administration	32,473,000
U.S. & F.C.S.	186,693,000
Executive Direction and Administration	12,206,000
Fee Collections	(3,000,000)
Prior Year Carryover	(2,000,000)
 Total, ITA	 308,503,000

Trade Development (TD).—The conference agreement provides \$62,376,000 for this activity. Of the amounts provided, \$49,621,000 is for the TD base program, \$9,000,000 is for the National Textile Consortium, and \$3,000,000 is provided for the Textile/Clothing Technology Corporation. Further, the conference agreement includes \$255,000 for the Access Mexico program and \$500,000 for continuation of the international global competitiveness initiative recommended in the House report.

Market Access and Compliance (MAC).—The conference agreement includes a total of \$19,755,000 for this activity. Of the amounts provided, \$18,755,000 is for the base program, \$500,000 is for the strike force teams initiative proposed in the budget, and \$500,000 is for the trade enforcement and compliance initiative proposed in the budget.

Import Administration.—The conference agreement provides \$32,473,000 for the Import Administration.

U.S. and Foreign Commercial Service (U.S. & FCS).—The conference agreement includes \$186,693,000 for the programs of the U.S. & FCS, to maintain the current level of operations. The con-

ferrees concur with language in the House report concerning the Rural Export Initiative and the Global Diversity Initiative.

Executive Direction and Administration.—The conference agreement includes \$12,206,000 for the administrative and policy functions of the ITA. This amount does not include funding requested for transfer to centralized services.

ITA should also follow the direction included in the House report regarding trade missions, and the direction in the Senate report relating to the Hannover World Fair. ITA is also expected to follow the direction and submit the reports referenced in both the House and Senate reports relating to foreign currency exchange rate gains, and to provide the report on trade show revenues requested in the House report.

EXPORT ADMINISTRATION

OPERATIONS AND ADMINISTRATION

The conference agreement includes \$54,038,000 for the Bureau of Export Administration (BXA), instead of \$49,527,000 as proposed in the House bill and \$55,931,000 as proposed in the Senate bill. The conference agreement assumes \$739,000 will be available from prior year carryover, resulting in total availability of \$54,777,000. Of this amount, \$23,878,000 is for Export Administration, including a program increase of \$750,000 for Chemical Weapons Convention inspection activities; \$23,534,000 is for Export Enforcement, including a program increase of \$500,000 for computer export verification; \$4,365,000 is for Management and Policy Coordination, including a program increase of \$1,000,000 for the redesign and replacement of the Export Control Automated Support System; and \$3,000,000 is for the Critical Infrastructure Assurance Office (CIAO).

The CIAO was created by Presidential Decision Directive 63 (PDD-63) as an interim agency to facilitate coordination and integration among Federal agencies as those agencies develop and implement their own critical infrastructure protection and awareness plans. The conferees are concerned that the fiscal year 2000 budget for the CIAO proposes a number of initiatives which would expand the role of the CIAO beyond its coordination and integration function, and create new programs and activities which may be duplicative of activities and responsibilities assigned to other Federal agencies. The conferees believe the amount provided, which also reflects the fact that, in fiscal year 2000, 25 staff detailed from other agencies will now be provided to the CIAO on a non-reimbursable basis, will enable the CIAO to perform its functions as provided for in PDD-63. The conferees expect the CIAO to provide a spending plan for fiscal year 2000 to the Committees on Appropriations no later than December 1, 1999.

The conference agreement does not include language included in the Senate bill, allowing funds to be used for rental of space abroad and expenses of alteration, repair, or improvement.

ECONOMIC DEVELOPMENT ADMINISTRATION

ECONOMIC DEVELOPMENT ASSISTANCE PROGRAMS

The conference agreement includes \$361,879,000 for Economic Development Administration grant programs, instead of \$364,379,000 as proposed in the House bill, and \$203,379,000 as proposed in the Senate bill.

Of the amounts provided, \$205,850,000 is for Public Works and Economic Development, \$34,629,000 is for Economic Adjustment Assistance, \$77,300,000 is for Defense Conversion, \$24,000,000 is for Planning, \$9,100,000 is for Technical Assistance, including University Centers, \$10,500,000 is for Trade Adjustment Assistance, and \$500,000 is for Research. EDA is expected to allocate this funding in accordance with the direction included in the House report.

The conference agreement does not include language included in the House bill relating to attorneys' fees, since that language was included in the EDA reauthorization legislation (P.L. 105-393) enacted in 1998. The conference agreement makes funding under this account available until expended, as proposed in the Senate bill.

SALARIES AND EXPENSES

The conference agreement includes \$26,500,000 for salaries and expenses of the EDA, instead of \$24,000,000 as proposed in the House bill, and \$24,937,000 included in the Senate bill. This funding is to enable EDA to maintain its existing level of operations, which in the past has been partially funded by non-appropriated sources of funding that are not expected to be available in fiscal year 2000.

MINORITY BUSINESS DEVELOPMENT AGENCY

MINORITY BUSINESS DEVELOPMENT

The conference agreement includes \$27,314,000 for the programs of the Minority Business Development Agency (MBDA), instead of \$27,000,000 included in the House bill and \$27,627,000 included in the Senate bill. The conference agreement assumes that MBDA will continue its support for the Entrepreneurial Technology Apprenticeship Program at the current level, as directed in the House report.

ECONOMIC AND INFORMATION INFRASTRUCTURE

ECONOMIC AND STATISTICAL ANALYSIS

SALARIES AND EXPENSES

The conferees have provided \$49,499,000 for salaries and expenses of the activities funded under the Economic and Statistical Analysis account, instead of \$48,490,000 as proposed in the House bill and \$51,158,000 as proposed in the Senate bill. The conferees support the Bureau of Economic Analysis' initiative of updating and improving statistical measurements of the U.S. economy and its measurement of international transactions. The conference

agreement concurs with the directive included in the House report regarding the Integrated Environmental-Economic Accounting initiative.

The travel and tourism industry makes a substantial contribution to the economy. A satellite account for travel and tourism has the potential to provide objective, thorough data to inform policy decisions. The Bureau is directed to provide a report on the advisability, utility, and relative priority of establishing a satellite account for travel and tourism by March 1, 2000.

BUREAU OF THE CENSUS

The conference agreement includes a total of \$4,758,573,000 for the Bureau of the Census for fiscal year 2000, of which \$4,476,253,000 is provided as an emergency appropriation, instead of \$4,754,720,000 as proposed in the House bill, of which \$4,476,253,000 was proposed as an emergency appropriation, and \$3,071,698,000 as proposed in the Senate bill as a direct appropriation.

SALARIES AND EXPENSES

The conference agreement includes \$140,000,000 for the Salaries and Expenses of the Bureau of the Census for fiscal year 2000, instead of \$136,147,000 as proposed in the House bill, and \$156,944,000 as proposed in the Senate bill.

PERIODIC CENSUSES AND PROGRAMS

The conference agreement includes \$4,618,573,000, of which \$4,476,253,000 is an emergency appropriation, as proposed in the House bill, instead of \$2,914,754,000 in direct appropriations as proposed in the Senate bill.

Decennial Census Programs.—The conference agreement includes an emergency appropriation of \$4,476,253,000 for the 2000 decennial census as proposed in the House bill, instead of \$2,764,545,000 in direct appropriations as proposed in the Senate bill. The following represents the distribution of funds provided for the 2000 Census:

Program Development and Management	\$20,240,000
Data Content and Products	194,623,000
Field Data Collection and Support Systems	3,449,952,000
Address List Development	43,663,000
Automated Data Process and Telecommunications Support	477,379,000
Testing and Evaluation	15,988,000
Puerto Rico, Virgin Islands and Pacific Areas	71,416,000
Marketing, Communications and Partnerships	199,492,000
Census Monitoring Board	3,500,000
Total, Decennial Census	4,476,253,000

The conference agreement does not provide funding for the Continuous Measurement program in the decennial census program as proposed in the Senate bill, but instead continues funding for this program under Other Periodic Programs as proposed in the House bill.

The conferees share the concerns expressed in the House report regarding the Bureau's ability to accurately project its funding requirements, and provide timely information regarding its needs

to the Committees. The conferees expect the Bureau to follow the direction included in the House report requiring monthly reports on the obligation of funds against each framework. The conferees remind the Bureau that reallocation of resources among the frameworks listed above are subject to the requirements of section 605 of this Act.

The conferees remain concerned about the implementation of the decennial census in areas like Alaska, where most of the State is not accessible by road and many people speak languages other than English. The conferees encourage the Bureau to continue working with all interested parties in Alaska to ensure that full and complete census data is received from remote locations and the State's migratory populations.

In addition, the conferees encourage the Bureau to continue to explore the possible use of data collected in the decennial census from Puerto Rico in national summary data products and expect the Bureau to report to the Committees as directed in the House report. The conference agreement adopts by reference the House report language regarding enumeration of deaf persons in the 2000 Census.

The conference agreement includes language designating the amounts provided for each decennial framework as proposed in the House bill. Should the operational needs of the decennial census necessitate the transfer of funds between these frameworks, the Bureau may transfer such funds as necessary subject to modified transfer and reprogramming procedures. Language is also included designating the entire amount provided for the decennial census as an emergency requirement as proposed in the House bill. The Senate bill did not contain similar provisions. In addition, the conference agreement includes language designating funding under this account for the expenses of the Census Monitoring Board as proposed in the House bill. The Senate bill did not include a similar provision, but instead included funding for the Board as a separate appropriation under Title V.

Other Periodic Programs.—The conference agreement includes \$142,320,000 for other periodic censuses and programs as proposed in the House bill, instead of \$125,209,000 as proposed in the Senate bill. The following table represents the distribution of funds provided for other non-decennial periodic censuses and related programs:

Economic Censuses	\$46,444,000
Census of Governments	3,735,000
Intercensal Demographic Estimates	5,260,000
Continuous Measurement	20,000,000
Demographic Survey Sample Redesign	4,478,000
Electronic Information Collection (CASIC)	6,000,000
Geographic Support	33,406,000
Data Processing Systems	22,997,000
	<hr/>
Total	142,320,000

NATIONAL TELECOMMUNICATIONS AND INFORMATION
ADMINISTRATION

SALARIES AND EXPENSES

The conference agreement includes \$10,975,000 for National Telecommunications and Information Administration (NTIA) salaries and expenses, instead of \$10,940,000 as proposed in the House bill, and \$11,009,000 as proposed in the Senate bill. The conference agreement assumes that NTIA will receive an additional \$20,844,000 through reimbursements from other agencies for the costs of providing spectrum management, analysis and research services to those agencies.

The conferees direct the General Accounting Office to review the relationship between the Department of Commerce and the Internet Corporation for Assigned Names and Numbers (ICANN) and to issue a report no later than June, 2000. The conferees request that GAO review: (1) the legal basis for the selection of U.S. representatives to ICANN's interim board and for the expenditure of funds by the Department for the costs of U.S. representation and participation in ICANN's proceedings; (2) whether U.S. participation in ICANN proceedings is consistent with U.S. law, including the Administrative Procedures Act; (3) a legal analysis of the Department of Commerce's opinion that OMB Circular A-25 provides ICANN, as a "project partner" with the Department of Commerce, authority to impose fees on Internet users for ICANN's operating costs; and (4) whether the Department has the legal authority to transfer control of the authoritative root server to ICANN. In addition, the conferees seek GAO's evaluation and recommendations regarding placing responsibility for U.S. participation in ICANN under the National Institute of Standards and Technology rather than NTIA, and request that GAO review the adequacy of security arrangements under existing Departmental cooperative agreements.

PUBLIC TELECOMMUNICATIONS FACILITIES, PLANNING AND
CONSTRUCTION

The conference agreement includes \$26,500,000 for the Public Telecommunications Facilities, Planning and Construction (PTFP) program, instead of \$18,000,000 as proposed in the House bill, and \$30,000,000 as proposed in the Senate bill. NTIA is expected to use this funding for the existing equipment and facilities replacement program, and to maintain an acceptable balance between traditional grants and those stations converting to digital broadcasting.

The conference agreement contains language, similar to a provision carried in fiscal year 1999, permanently making the Pan-Pacific Education and Communications Experiments by Satellite (PEACESAT) program eligible to compete for funding under this account, as proposed in the Senate bill.

The conference agreement retains the statutory citation for the program as proposed in the House bill, instead of the citations proposed in the Senate bill.

INFORMATION INFRASTRUCTURE GRANTS

The conference agreement includes \$15,500,000 for NTIA's Information Infrastructure Grant program, instead of \$13,000,000 as proposed in the House bill, and \$18,102,000 as proposed in the Senate bill.

The conferees concur with both the House and Senate reports, which identify overlap between funding provided under this program and funding provided under Department of Justice, Office of Justice Programs, with respect to law enforcement communication and information networks, and which recommend that this program not be used to fund projects for which other sources of funding are available. The conferees also concur with language in the House report emphasizing the importance of increased telecommunications access in areas where service is not readily available and where assistance is not available through other mechanisms.

PATENT AND TRADEMARK OFFICE

SALARIES AND EXPENSES

The conference agreement provides a total funding level of \$871,000,000 for the Patent and Trademark Office (PTO), instead of \$851,538,000 as proposed in the House bill, and \$901,750,000 as proposed in the Senate bill. Of this amount, \$755,000,000 is to be derived from fiscal year 2000 offsetting fee collections, and \$116,000,000 is to be derived from carryover of prior year fee collections. This amount represents an increase of \$86,000,000, or 11%, above the fiscal year 1999 operating level of the PTO.

The conference agreement includes language limiting the amount of carryover that may be obligated in fiscal year 2000 to \$116,000,000, to conform to recently enacted authorization legislation, as proposed in the House bill.

The conference agreement also includes new language limiting the amount of fees in excess of \$755,000,000 that becomes available for obligation on October 1, 2000 to \$229,000,000.

The PTO is expected to follow the direction included in the House report concerning its partnership with the National Inventor's Hall of Fame and Inventure Place.

SCIENCE AND TECHNOLOGY

TECHNOLOGY ADMINISTRATION

UNDER SECRETARY FOR TECHNOLOGY/OFFICE OF TECHNOLOGY POLICY

SALARIES AND EXPENSES

The conference agreement includes \$7,972,000 for the Technology Administration, as proposed in both the House and Senate bills. No funds are made available beyond fiscal year 2000, as proposed in the House bill, instead of \$600,000 made available through fiscal year 2001, as proposed in the Senate bill. The conferees concur with the direction contained in both the House and Senate reports.

NATIONAL INSTITUTE OF STANDARDS AND TECHNOLOGY
SCIENTIFIC AND TECHNICAL RESEARCH AND SERVICES

The conference agreement includes \$283,132,000 for the internal (core) research account of the National Institute of Standards and Technology, instead of \$280,136,000 as proposed in the House bill, and \$288,128,000 as proposed in the Senate bill.

The conference agreement provides funds for the core research programs of NIST as follows:

Electronics and Electrical Engineering	\$38,771,000
Manufacturing Engineering	19,560,000
Chemical Science and Technology	32,493,000
Physics	28,697,000
Material Sciences and Engineering	52,010,000
Building and Fire Research	15,331,000
Computer Science and Applied Mathematics	45,352,000
Technology Assistance	17,723,000
Baldrige Quality Awards	4,958,000
Research Support	29,237,000
Subtotal, STRS	284,132,000
Deobligations	(1,000,000)
Total, STRS	283,132,000

The increase provided in the conference agreement above fiscal year 1999 is largely to fund increases in base requirements. The conference agreement also includes sufficient funding for selected program increases for the highest priority programs in computer science and applied mathematics and in technology assistance, and \$1,600,000 to continue the disaster research program on effects of windstorms on protective structures and other technologies begun in fiscal year 1998. NIST is directed to follow the guidance included in the House report regarding the placement of NIST personnel overseas.

INDUSTRIAL TECHNOLOGY SERVICES

The conference agreement includes \$247,436,000 for the NIST external research account instead of \$99,836,000 as proposed in the House bill, and \$336,336,000 as proposed in the Senate bill.

Manufacturing Extension Partnership Program.—The conference agreement includes \$104,836,000 for the Manufacturing Extension Partnership Program (MEP), instead of \$99,836,000 as proposed in the House bill, and \$109,836,000 as proposed in the Senate bill. The conference agreement does not contain the limitation on a Center's level of funding proposed in the House bill.

The conferees concur with the Senate direction that the Northern Great Plains Initiative e-commerce project should assist small manufacturers for marketing and business development purposes in rural areas.

Advanced Technology Program.—The conference agreement includes \$142,600,000 for the Advanced Technology Program (ATP), instead of \$226,500,000 as proposed in the Senate bill, and no funding as proposed in the House bill. This is \$60,900,000 below the fiscal year 1999 appropriation, and \$96,100,000 below the original request. At the end of fiscal year 1999, the Administration revised the overall level requested for the program downward from

\$251,500,000 to \$215,000,000, in part because the amount awarded for new grants in fiscal year 1999 totaled \$41,500,000, which was \$24,500,000 below the amount available for new awards. The amount of carryover into fiscal year 2000 was also substantially higher than had been anticipated. The requested level of new awards for fiscal year 2000 was also revised downward from \$73,000,000 to \$54,700,000. The funding levels contained in the conference agreement were considered in response to that revised request.

The recommendation provides the following: (1) \$115,100,000 for continued funding requirements for awards made in fiscal years 1996, 1997, 1998, and 1999, to be derived from \$46,700,000 in fiscal year 2000 funding, \$64,600,000 from excess balances available from prior years, and \$3,800,000 in anticipated deobligations in fiscal year 2000; (2) \$50,700,000 for new awards in fiscal year 2000; and (3) \$45,200,000 for administration, internal NIST lab support and Small Business Innovation Research requirements.

The conference agreement permits up to \$500,000 of funding to be transferred to the Working Capital Fund, as proposed in the Senate bill.

CONSTRUCTION OF RESEARCH FACILITIES

The conference agreement provides \$108,414,000 for construction, renovation and maintenance of NIST facilities, instead of \$56,714,000 as proposed in the House bill, and \$117,500,000 as proposed in the Senate bill.

Of this amount, \$84,916,000 is for construction of the Advanced Metrology Laboratory. This will provide the balance of funds needed to initiate construction. Total funding available for construction, including funding provided in previous years, is \$203,300,000. The conference agreement includes bill language making the \$84,916,000 provided for this Laboratory available upon submission of a spending plan in accordance with Section 605 of this Act.

In addition, \$11,798,000 is provided for safety, capacity, maintenance and major repair of NIST facilities.

In addition, \$11,700,000 is provided for grants and cooperative agreements.

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

The conference agreement provides a total funding level of \$2,343,736,000 for all programs of the National Oceanic and Atmospheric Administration (NOAA), instead of \$1,956,838,000 as proposed by the House, and \$2,556,876,000 as proposed by the Senate. Of these amounts, the conferees have included \$1,688,189,000 in the Operations, Research, and Facilities (ORF) account, \$596,067,000 in the Procurement, Acquisition and Construction (PAC) account, and \$59,480,000 in other NOAA accounts.

OPERATIONS, RESEARCH, AND FACILITIES

(INCLUDING TRANSFERS OF FUNDS)

The conference agreement includes \$1,688,189,000 for the Operations, Research, and Facilities account of the National Oceanic

and Atmospheric Administration instead of \$1,475,128,000 as proposed by the House, and \$1,783,118,000 as proposed by the Senate.

In addition to the new budget authority provided, the conference agreement allows a transfer of \$68,000,000 from balances in the account titled "Promote and Develop Fishery Products and Research Related to American Fisheries", instead of \$67,226,000 as proposed by the House, and instead of \$66,426,000 as proposed by the Senate. In addition, the conference agreement reflects prior year deobligations totaling \$36,000,000, unobligated balances of \$2,652,000, and \$4,000,000 in offsets from fee collections.

The conference agreement does not include language proposed in the House bill designating the amounts provided under this account for the six NOAA line offices. The Senate bill contained no similar provision.

The conference agreement includes language, as proposed by the House, which was adopted in the fiscal year 1999 appropriations Act, designating the amounts available for Executive Direction and Administration, and prohibiting augmentation of such offices through formal or informal personnel details, transfers, or reimbursements above the current level.

The conference agreement does not include or assume language proposed by the House, making the use of deobligated balances subject to standard reprogramming procedures. The conferees direct that any use of deobligations over and above the \$36,000,000 assumed by the conference agreement will be undertaken only under the procedures set forth in section 605 of this Act.

The conference agreement does not include \$34,000,000 in controversial new fisheries and navigation safety fees that were proposed in the budget request, although no details on the proposal were forthcoming. The House bill did not legislate the fees, but did assume the revenue from those fees would be available.

Budgetary and Financial Matters.—Language in the House report is adopted by reference relating to: (1) a revised budget structure, with the requested reports due by February 1, 2000; and (2) an operating plan for expenditure of funds, with the report due 60 days after the date of enactment.

Peer Review.—Language in the House report requiring peer review of all NOAA research is adopted by reference.

NOAA Commissioned Corps.—The conference agreement does not include bill language, as proposed by the House, setting a ceiling on the number of commissioned corps officers at not more than 250 by September 30, 2000. The Senate bill did not include a similar provision. With respect to the commissioned corps, as it is authorized by P.L. 105-384, the conferees understand that NOAA plans to reach a level of about 250 officers by the end of the fiscal year, up from the current level of 224, and expect to be notified if plans change significantly from that level.

The conference agreement includes language proposed by the House, providing such funds as may be necessary for NOAA commissioned corps retirement costs.

The conference agreement does not include a provision, as proposed by the Senate, permitting the Secretary to have NOAA occupy and operate research facilities at Lafayette, Louisiana.

NOAA is directed to report by March 1, 2000, on any requirement for new space for NOAA employees in the Gulf of Mexico area, including an explanation of the need for such space, and options for, and estimated costs of, obtaining the space. The report should also address the existing space that NOAA occupies in the area, and what would happen to the existing space.

The following table reflects the distribution of the funds provided in this conference agreement:

The following narrative provides additional information related to certain items included in the preceding table.

NATIONAL OCEAN SERVICE

The conferees have provided a total of \$278,838,000 under this account for the activities of the National Ocean Service (NOS), instead of \$236,290,000 as recommended by the House, and \$299,939,000 as recommended by the Senate.

Mapping and Charting.—The conference agreement provides \$35,298,000 for NOAA's mapping and charting programs, reflecting continued commitment to the navigation safety programs of NOS and concerns about the ability of the NOS to continue to meet its mission requirements over the long term. Of this amount, \$32,718,000 is provided for the base mapping and charting program. Within the total funding provided under Mapping and Charting, the conference agreement includes \$2,580,000 for the joint hydrographic center established in fiscal year 1999.

The conference agreement also includes \$18,900,000 under the line item Address Survey Backlog/Contracts exclusively for contracting out with the private sector for data acquisition needs. This is \$4,000,000 above the request and is intended to help keep the level of effort close to fiscal year 1999, when the program had a significant amount of carryover in addition to the fiscal year 1999 funding for the program.

Geodesy.—The conference agreement provides \$20,159,000 for geodesy programs, including \$19,159,000 for the base program, \$500,000 for initial planning of the National Height System Demonstration, as provided in the House report, and \$500,000 for the geodetic survey referenced in the Senate report.

Tide and Current Data.—The conference agreement includes \$12,390,000 for this activity, including \$12,000,000 for the base

program and \$390,000 for a one-time Year 2000 fix for Great Lakes Buoys, as provided by both the House and Senate bills.

Ocean Assessment Program.—The conference agreement includes \$44,846,000 for this activity. Within the amounts provided for ocean assessment, the conference agreement includes the following: \$12,685,000 for the base program; \$15,100,000 for NOAA's Coastal Services Center, of which \$2,500,000 is for coastal hazards research and services and development of defense technologies for environmental monitoring, and \$100,000 is one-time funding for the Community Sustainability Center, as referenced in the Senate report; \$5,800,000 to continue the Cooperative Institute for Coastal and Estuarine Environmental Technology; \$900,000 for the South Florida Ecosystem Restoration program; \$2,000,000 to support coral reef studies in the Pacific and Southeast, of which \$1,000,000 is for Hawaiian coral reef monitoring, \$500,000 is for reef monitoring in Florida, and \$500,000 is for reef monitoring in Puerto Rico, through the Department of Natural Resources; \$3,925,000 for *pfisteria* and other harmful algal bloom research and monitoring, of which \$500,000 is for a pilot project to preemptively address emerging problems prior to the occurrence of harmful blooms, to be carried out by the South Carolina Department of Marine Resources; \$2,000,000 for the JASON project and \$2,436,000 for the NOAA Beaufort/Oxford Laboratory. In addition, the conference agreement also includes an additional \$5,200,000 under Ocean and Coastal Research and the Coastal Ocean Program for research on *pfisteria*, hypoxia and other harmful algal blooms.

The conferees direct NOS to evaluate the need and requirements for a collaborative program in Hawaii to develop and transfer innovative applications of technology, remote sensing, and information systems for such activities as mapping, characterization and coastal hazards that will improve the management and restoration of coastal habitat throughout the U.S. Pacific Basin by bringing together government, academic, and private sector partners.

Office of Response and Restoration.—The conference agreement includes \$15,329,000 for this activity, including: \$2,674,000 for Estuarine and Coastal Assessment, \$5,155,000 for Damage Assessment, \$1,000,000 in accordance with the Oil Pollution Act of 1990, \$6,000,000 for coral reef mapping and debris removal, and \$500,000 for Coastal Resource Coordination. These funds may be used for mapping coral reefs; for the management and protection of coral reefs within Federal jurisdiction; and for activities that respond to requests from States and territories for assistance in managing and protecting coral reefs within the jurisdiction of those States and territories.

Ocean and Coastal Research.—The conference agreement includes \$8,470,000 for this activity, which includes the budget request and an additional \$500,000 for the Marine Environmental Health Research Laboratory.

The conference agreement does not include the proposed transfer of the Great Lakes Environmental Research Laboratory (GLERL) from Oceanic and Atmospheric Research to NOS.

Coastal Ocean Program.—The conference agreement provides \$17,200,000 for the Coastal Ocean Program (COP), of which

\$4,200,000 is provided for research related to hypoxia, pfiisteria, and other harmful algal blooms. The managers of COP are directed to follow the direction included in the House report regarding Long Island Sound, as well as the direction included in the Senate report concerning research on small high-salinity estuaries and the land use-coastal ecosystem study. The conference agreement also assumes continued funding at the current level for restoration of the South Florida ecosystem.

Coastal Zone Management.—The conference agreement includes \$67,700,000 for this activity, of which \$54,700,000 is for grants under sections 306, 306A, and 309 of the Coastal Zone Management Act (CZMA), an increase of \$1,000,000 over fiscal year 1999, and \$4,500,000 for Program Administration. In addition, the conference agreement includes \$2,500,000 for the Non-Point Pollution program authorized under section 6217 of the CZMA. No funding is provided under section 310, as in both the House and Senate bills, because there is no authorization of appropriations to make grants under that section. The conference agreement also includes \$6,000,000 for the National Estuarine Research Reserve program, an increase of \$1,700,000 above fiscal year 1999. The conferees concur with the direction in the House report relating to the assessment of administrative charges under the CZMA.

Marine Sanctuary Program.—The conference agreement includes \$23,000,000 for the National Marine Sanctuary Program, an increase of \$8,700,000 over fiscal year 1999. Of this amount, \$500,000 is provided to support the activities of the Northwest Straits Citizens Advisory Commission as outlined in the House and Senate reports. In addition, not to exceed \$500,000 may be provided in one-time support of the Marine Debris Conference referenced in the Senate report under the National Marine Fisheries Service, with the direction that other contributions from sources outside of NOAA be sought to support the conference.

NATIONAL MARINE FISHERIES SERVICE

The conference agreement includes a total of \$421,726,000 for the National Marine Fisheries Service (NMFS), instead of \$350,545,000, as recommended by the House and \$442,162,000, as recommended by the Senate.

In addition, \$4,000,000 is authorized to be collected under the Magnuson-Stevens Act to support the Community and Individual Fishery Quota Program. The conferees recommend \$500,000 for the Hawaiian Community Development Program, as referenced in the Senate report.

Resource Information.—The conference agreement provides \$108,348,000 for fisheries resource information. Within the funds provided for resource information, \$91,048,000 is provided for the base programs, including \$750,000 for west coast groundfish and \$3,500,000 for Magnuson-Stevens implementation added in fiscal year 1999, of which \$750,000 is for a Narragansett Bay Cooperative Study. In addition, NMFS is expected to continue to provide onsite technical assistance to the National Warmwater Aquaculture Research Center under the direction included in the Senate report. The conferees concur with the language in the Senate report re-

garding any shift of work now performed by the Alaska and Southwest Fisheries Science Centers.

In addition, within the total funds provided for resource information, the conference agreement includes: \$1,750,000 for additional implementation of the Magnuson-Stevens Act in the North Pacific as directed in the Senate report, funding for MARMAP at the same level as in the House and Senate, under the direction in the Senate report: \$1,700,000 for the Gulf of Mexico Stock Enhancement Consortium, \$1,250,000 for research on Alaska near shore fisheries, to be distributed in accordance with the Senate report, \$200,000 for an assessment of Atlantic herring and mackerel, \$450,000 for the Chesapeake Bay oyster recovery partnership, \$300,000 for research on the Charleston bump, \$300,000 for research on shrimp pathogens, \$150,000 for lobster sampling, \$350,000 for bluefin tuna tagging, of which \$250,000 is for the northeast; \$500,000 for the Chesapeake Bay Multi-species Management Strategy (including blue crab), \$200,000 for the Northeast Fisheries Science Center for the Cooperative Marine Education and Research Program, under the direction in the Senate report, and \$300,000 for research on Southeastern sea turtles under the direction of the Senate report. In addition, within the amounts provided for Resource Information, \$8,000,000 is included to continue the aquatic resources environmental initiative, and \$1,000,000 is provided to continue the activities of the Gulf and South Atlantic Fisheries Development Foundation for data collection and analyses in the red snapper and shrimp fisheries. The conferees acknowledge the work being done at the Xiphophorus Genetic Stock Center to improve the understanding of fish genetics and evolution, and urge NMFS to continue to work with the Center in fiscal year 2000. The conferees concur with language in the Senate report encouraging oyster disease research under the Saltonstall-Kennedy research grant program.

The conferees concur with the language in the House report concerning the migratory shark fishery, and reiterate the request for a report with recommendations for short and long term solutions within 45 days of enactment of this Act. The conferees direct NMFS to continue collaborative research with the Center for Shark Research and other qualified institutions, to provide the information necessary for effective management of the highly migratory shark fishery and conservation of shark fishery resources.

Under the MARFIN line, \$2,500,000 is provided for base activities, and \$250,000 is provided for Northeast activities. Funding is also provided for bluefish and striped bass research in accordance with the House report. Funding for right whale research and recovery activities is provided under the Endangered Species line. Under Yukon River Chinook Salmon, \$700,000 is provided for base activities, and \$500,000 is provided for the Yukon River Drainage Fisheries Association. Under the Pacific Salmon Treaty Program, \$5,587,000 is provided for base activities, \$1,844,000 is provided for the Chinook Salmon Agreement. In addition, under this line, \$10,000,000, subject to express authorization, is provided as the initial capital for the Southern Boundary and Transboundary Rivers Restoration and Enhancement Fund arising out of the June 30, 1999, Agreement of the United States and Canada on the Treaty

Between the United States and Canada Concerning Pacific Salmon. The conference agreement includes \$4,000,000 for steller sea lion recovery, to be utilized according to the direction in the Senate report.

Fishery Industry Information.—The conference agreement provides \$31,200,000 for this activity. Within the funds provided for Alaska Groundfish Monitoring, the conference agreement includes funding for the base program and NMFS rockfish research at the fiscal year 1999 level. In addition, \$850,000 is provided for crab research developed jointly by NMFS and the State of Alaska, and \$800,000 is provided for the State of Alaska to use in implementing Federal fishery management plans for crab, scallops and for rockfish research. In addition, the conference agreement provides \$150,000 each for Gulf of Alaska Coastal Communities Coalition and NMFS Alaska region infield monitoring program. No funding is provided for the Bering Sea Fisherman's Association CDQ.

Within the funds provided for Fishery Industry Information, the conference agreement provides \$3,700,000 for recreational fishery harvest monitoring, including \$500,000 for the annual collection of data on marine recreational fishing, with the balance to be expended in accordance with the direction included in the Senate report. Funds are also appropriated under this activity for the Pacific Fisheries Information Network, including Hawaii, and the Alaska Fisheries Information Network as two separate lines in accordance with the direction included in the Senate report. In addition, funding is provided for the Gulf of Mexico Fisheries Information Network. The conferees agree that NMFS should coordinate the techniques used by the agency to collect data on a national basis while taking into account the unique characteristics of the regional commercial and recreational fisheries. The conferees believe this objective can best be accomplished by relying on the regional information networks administered by the interstate Marine Fisheries Commissions. In addition, the conferees expect NMFS to provide the report on the state of U.S. fishery resources referenced in the Senate report.

The conferees recommend \$3,500,000 for computer hardware and software development, including \$750,000 for the Pacific Marine Fisheries Commission to develop catch reporting software in connection with West Coast States, which will allow electronic reporting of fish ticket information in a manner compatible with systems utilized in various regulatory and monitoring agencies as well as private industry.

The conferees understand that NMFS was using funds to develop its own computer software rather than seeking readily available software. In addition, the software that it was developing may not be compatible with State data collection programs, which means that States may be required to make changes in their systems to accommodate the federal system. In addition, NMFS was not consulting with the affected States and regulatory agencies as required by section 401 of the Magnuson-Stevens Act.

To address this inadequacy, the managers direct NMFS to develop catch data standards which set guidelines on the content of information it requires and the format for transmitting it. That will enable States and private industry to continue to use their existing

systems so long as they comply with NMFS standards and guidelines. NMFS may also use the funds provided to develop its own internal software program to manipulate the data it receives from fishermen and state regulators and produce the reports it needs to effectively manage the fisheries.

Under the Acquisition of Data line, within the total of \$25,943,000, an additional \$650,000 is provided for additional days at sea for the Gordon Gunter.

Fisheries Management Programs.—The conference agreement includes \$39,060,000 for this activity. Within this amount, \$33,330,000 is provided for base activities, including \$3,500,000 for NMFS facilities at Sandy Hook and Kodiak. Within funding determined to be available, if initial funding is required, the conferees also expect funds to be provided for the Santa Cruz Fisheries Laboratory. Also, the conferees expect the Atlantic Salmon Recovery Plan and the State of Maine Recovery Plan to continue to be funded from within base resources. In addition, \$230,000 is provided for the Pacific Coral Reef fisheries management plan, as described in the Senate report; \$500,000 is provided for Bronx River recovery and restoration; \$5,000,000 for American Fisheries Act Implementation, including \$500,000 each for the North Pacific Fishery Management Council and the State of Alaska.

The conference agreement appropriates a total of \$15,420,000 for NOAA support of Columbia River hatcheries programs, including \$12,055,000 under the NMFS. Within the amount provided under the line item Columbia River hatcheries, NMFS is expected to support hatchery operations at a level of \$11,400,000, and to use the additional funding to support salmon marking activities as described in the Senate report.

Under the Pacific Tuna Management line, \$400,000 is for swordfish research as referenced in the Senate report, and the balance for JIMAR.

For New England Fisheries Management, \$4,000,000 is for NMFS cooperative research, management, and enforcement, including enhanced stock assessments and discard mortality monitoring. In addition, \$2,000,000 is for Northeast Consortium activities, as referenced in the Senate report. The conferees direct NMFS to collaborate with the New England Fisheries Management Council and affected stakeholders to design and prioritize cooperative research programs, and to develop a long-term, comprehensive strategy to rebuild Northeast groundfish stocks.

Protected Species Management.—Within the funds provided for protected species management, \$750,000 is for continuation of a study on the impacts of California sea lions and harbor seals on salmonids and the West Coast ecosystem.

Driftnet Act Implementation.—Within the funds provided for Driftnet Act Implementation, \$75,000 is for the Pacific Rim Fisheries Program, and \$25,000 is for Washington and Alaska participation.

Endangered Species Recovery Plans.—A total of \$43,500,000 is provided for this activity. Of these amounts, \$43,000,000 is for the base program, \$250,000 is to be made available for the State of Alaska for technical support to analyze proposed salmon recovery plans, and \$250,000 is for the North Pacific Fishery Management

Council for the purposes directed in the Senate report. The amount for the base program represents an increase of \$17,250,000. Of this increase, \$3,250,000 is provided for additional Pacific salmon-related activities, and \$3,000,000 is provided for additional right whale activities. Together with the amount already in the base for right whales, this will result in a \$4,100,000 funding level for right whale activities, which is to be expended in accordance with the Senate report. Other than salmon and right whales, the conferees expect that all activities will be kept at least at the fiscal year 1999 level, including Steller sea lion activities.

The conference agreement adds \$11,000,000 to the \$32,500,000 included in the previous conference report for the Endangered Species Act recovery plan. The conferees expect these funds to be used for recovery plans for all endangered fish, marine mammals and sea turtles and not just for salmon in the northwest. In addition, the conferees expect NOAA to submit a staffing plan for the allocation of any new employees hired for this program in fiscal year 2000 and their proposed allocation by region.

Native Marine Mammal Commissions.—The conference agreement recommends that funding be distributed as follows: (1) \$400,000 for the Alaska Eskimo Whaling Commission; (2) \$150,000 for the Alaska Harbor Seal Commission; (3) \$225,000 for the Beluga Whale Committee; (4) \$50,000 for the Bristol Bay Native Association; and (5) \$125,000 for the Aleut Marine Mammal Commission.

Observers and Training.—The conference agreement distributes funding as follows: (1) \$425,000 for the North Pacific Fishery Observer Training Program; (2) \$1,875,000 for North Pacific marine resource observers; and (3) \$350,000 for east coast observers. Before initiating funding for a West Coast observer program, the conferees request that NMFS provide a report on the options for funding such a program, and include a comparison of how current programs in the North Pacific and the East Coast are funded with the proposal for the West Coast.

Interstate Fish Commissions.—The conference agreement includes \$7,750,000 for this activity, of which \$750,000 is to be equally divided among the three commissions, and \$7,000,000 is for implementation of the Atlantic Coastal Fisheries Cooperative Management Act.

Fisheries Development Program.—Within the amount provided for the Fisheries Development Program, funding for the administrative costs of the Fisheries Finance program has been retained under this account, as provided in the House bill, instead of transferred to the Fisheries Finance Program account, as provided in the Senate bill. Language with respect to the administration of the Hawaiian Fisheries Development program and Hawaii Stock Enhancement included in the Senate report is adopted by reference.

Other.—In addition, within the funds available for the Saltonstall-Kennedy grants program, the conferees direct that funding be provided to the Alaska Fisheries Development Foundation to be used in accordance with the direction included in the Senate report, and that funds be provided pursuant to the direction included in both the House and Senate reports to support ongoing efforts related to *Vibrio vulnificus*.

OCEANIC AND ATMOSPHERIC RESEARCH

The conference agreement includes a total of \$300,502,000 for Oceanic and Atmospheric Research activities, instead of \$260,560,000 as recommended by the House and \$319,910,000 as recommended by the Senate.

Interannual and Seasonal Climate Research.—The conferees have provided \$16,900,000 for interannual and seasonal climate research. Within this amount, the conference agreement provides \$2,000,000 to support climate and air quality monitoring and climatological modeling activities as described in the Senate report, and \$2,000,000 is provided for the Ocean Observations program, to be expended only if other countries involved in the project are also providing funding.

Climate and Global Change Research.—The conference agreement includes \$67,000,000 for the Climate and Global Change research program, an increase of \$4,000,000 above the amounts provided in fiscal year 1999. Of this amount, the conference agreement includes an increase of \$2,000,000 for the International Research Institute for Climate Prediction to fund planned modeling initiatives in water, agriculture, and public health, and will result in improved forecasting related to major climate events. Program increases of \$1,000,000 for the Variability Beyond ENSO and \$1,000,000 for Climate Forming Agents are also provided.

Long-term Climate and Air Quality Research.—The conference agreement provides \$30,000,000 for this activity, as proposed by the House, instead of \$32,000,000 as proposed by the Senate. Funding is distributed in the same manner as in fiscal year 1999. The conferees concur with language in the House report regarding research and a report on natural sources and removal for low-atmosphere ozone.

GLOBE.—A total of \$3,000,000 is provided for this program, instead of \$2,500,000 as proposed by the Senate. The House bill did not include funding for this program. NOAA is expected to comply with the direction included in the Senate report regarding this program.

Atmospheric Programs.—The conference agreement provides \$37,350,000 for the weather research activity. Of this amount \$1,500,000 is provided for research related to wind-profile data in accordance with the direction provided in the Senate report. In addition, \$1,000,000 is provided for the U.S. Weather Research Program for hurricane-related research. This funding is intended to be used for improvements in hurricane prediction, and is not intended as initial funding for a large-scale general research program under the U.S. Weather Research Program, which is primarily funded through other Federal agencies.

STORM.—The conference agreement includes \$2,000,000 as one-time funding for the Science Center for Teaching, Outreach and Research on Meteorology for the collection and analysis of weather data in the Midwest.

Solar/Geomagnetic Research.—The conference agreement includes \$7,000,000 for this activity, which includes \$6,000,000 for base programs, and \$1,000,000 for the study of radio propagation physics and technology development associated with satellite-based

telecommunications, navigation, and remote sensing, as referenced in the Senate report.

Marine Prediction Research.—The conference agreement includes \$27,325,000 for marine prediction research. Within this amount, the following is provided: \$8,875,000 for the base program; \$1,650,000 for Arctic research, as directed in the House report; \$2,400,000 for the Open Ocean Aquaculture program; \$2,300,000 for tsunami mitigation; \$2,100,000 for the VENTS program; \$4,000,000 for continuation of the initiative on aquatic ecosystems recommended in the House report; \$1,650,000 for implementation of the National Invasive Species Act, of which \$850,000 is for the ballast water demonstration as directed in the Senate report; \$500,000 for support for the Gulf of Maine Council; \$2,000,000 for mariculture research; \$1,450,000 for ocean services; \$250,000 for the Pacific tropical fish program to be administered by HIEDA; and \$150,000 for Lake Champlain studies. Due to recently enacted changes in the National Sea Grant Program Authorization Act, future activities related to Lake Champlain are expected to be funded through the regular Sea Grant program.

GLERL.—Within the \$6,825,000 provided for the Great Lakes Environmental Research Laboratory, the conference agreement assumes continued support for the Great Lakes nearshore research and zebra mussel research programs at current levels.

Sea Grant.—The conference agreement appropriates \$59,250,000 for the National Sea Grant program, of which \$53,750,000 is for the base program, a \$1,550,000 base increase over fiscal year 1999. The conferees expect NOAA to continue to fund the existing oyster disease research programs at their current levels and the zebra mussel research program at \$3,000,000 within these amounts. The Sea Grant program and NMFS are urged to work with the West Coast Harmful Algal Bloom Workgroup to develop a research plan to address the causes of harmful algal blooms and a monitoring and prevention program.

National Undersea Research Program (NURP).—The conference agreement provides \$13,800,000 for the National Undersea Research Program (NURP). The conferees expect the funds to be distributed to the east coast NURP centers according to fiscal year 1999 allocations, and to the west coast centers according to fiscal year 1998 allocations. The conferees expect level funding will be made available for the Aquarius, ALVIN and program administration. The fiscal year 2000 amount above these distributions shall be equally divided between east and west coast NURP centers.

NATIONAL WEATHER SERVICE

The conference agreement includes a total of \$603,870,000 for the National Weather Service (NWS), instead of \$599,196,000 as proposed by the House, and \$620,138,000 as proposed by the Senate.

Local Warnings and Forecasts/Base Operations.—The amount provided includes \$444,487,000 for this activity, an increase of \$23,417,000 above the fiscal year 1999 level, including MARDI. All requested increases to base activities are provided, except for \$1,935,000 in non-labor cost increases and \$3,634,000 of the request to cover labor-cost deficiencies. The House and Senate Appro-

priations Committees expect that if the amount to cover labor-cost deficiencies is insufficient, NWS will submit a reprogramming. The conference agreement provides \$4,500,000 for mitigation activities, an increase of \$716,000 over fiscal year 1999. Increases for the Cooperative Observers Network and Aircraft Observations are not provided. Within the total amount provided for Local Warnings and Forecasts, \$1,522,000 is for NOAA weather radio transmitters to be distributed in accordance with the direction included in the House and Senate reports, except that the amount for Wyoming weather transmitters is \$200,000, and the amount for Illinois weather transmitters is \$650,000. The conference agreement includes \$513,000, as provided in the Senate report, for the creation of a fine-scale numerical weather analysis and prediction capability, as referenced in the House report. The conference agreement also includes funding, as requested, for data buoys and coastal marine automated network stations. Funding of \$3,250,000 for WFO maintenance is provided under this heading.

The conferees concur with the language in the House and Senate reports relating to the Modernization Transition Committee/mitigation process to address the adequacy of NEXRAD coverage in certain areas. NOAA is expected to follow the recommendations contained in reports or applicable agreements requiring mitigation activities. The conferees also reiterate language in the fiscal year 1999 conference agreement addressing continued radar obstruction at the Jackson NEXRAD facility.

In addition, the conferees expect the NWS to continue the activities of NOAA's Cooperative Institute for Regional Prediction related to the 2002 Winter Olympic games.

NATIONAL ENVIRONMENTAL SATELLITE, DATA AND INFORMATION SERVICE

The conference agreement includes \$111,085,000 for NOAA's satellite and data management programs. In addition, the conference agreement includes \$457,594,000 under the NOAA PAC account for satellite systems acquisition and related activities.

Satellite Observing Systems.—The conferees have included \$57,300,000 for this activity, the same amount and the same distribution as in fiscal year 1999. Funding for the wind demonstration project is to be provided in accordance with the Senate report.

Environment Data Management.—The conferees have included \$53,785,000 for EDMS activities. Under EDMS base activities, the conference agreement includes \$24,000,000, an increase of \$650,000, to be expended as directed in the House report. No funds are included to continue weather record rescue and preservation activities or the environmental data rescue program. The conference agreement includes \$500,000 for the Cooperative Observers Network modernization. In addition, \$4,000,000 is included for the Coastal Ocean Data Development Center, as referenced in the Senate report. In addition, the conferees have provided \$10,200,000 to initiate a new, multi-year program for climate database modernization and utilization, to include but not be limited to key entry of valuable climate records, archive services, and database development. The conferees note the Administration's recent initiatives in support of reinvestment in economically distressed communities

within Appalachia and intend that work under this program must be performed by existing and experienced concerns currently located in the Appalachian counties of Laurel and Mineral, which are experiencing high unemployment and poverty. The conference agreement includes \$2,750,000 for the Regional Climate Centers.

PROGRAM SUPPORT

The conference agreement provides \$62,553,000 for NOAA program support, instead of \$54,594,000 as provided in the House bill, and \$72,887,000, as provided in the Senate bill. Included in this total is \$36,350,000 for Central Administrative Support, which is comprised of \$31,850,000 for base activities and \$4,500,000 for the Commerce Automated Management System.

FLEET PLANNING AND MAINTENANCE

The conference agreement includes an appropriation of \$13,243,000 for this activity, as recommended in the Senate bill, instead of \$7,000,000 included in the House bill. This amount includes \$1,000,000 for equipping the RAINIER and \$3,000,000 for NOPP-related activities.

FACILITIES

The conference agreement includes \$11,204,000 for facilities maintenance, lease costs, and environmental compliance, instead of \$10,165,000 as recommended in the House bill, and \$9,829,000 as recommended in the Senate bill. Included in this total is \$3,850,000 in lease payments to the General Services Administration (GSA) for the new Boulder facility. The conferees are aware that the GSA is applying 8% return-on-investment pricing to determine the rent that NOAA pays for the facility, with the possibility that the percentage will increase significantly in future years. The conferees believe that this results in an excessive rental charge that is not justified by the facts, and that a fair and reasonable return would be 6.25% amortized over 30 years. NOAA is directed to provide to the House and Senate Committees on Appropriations at the earliest opportunity the options that exist to moderate the cost of rental payments, and to consult with the Committees on the next steps to take to assure that NOAA does not get saddled with an excessive rental payment.

PROCUREMENT, ACQUISITION AND CONSTRUCTION

(INCLUDING TRANSFERS OF FUNDS)

The conference agreement includes a total of \$596,067,000 in direct appropriations for the Procurement, Acquisition and Construction account, and assumes \$7,400,000 in deobligations from this account. Systems Acquisition.—The conference agreement provides \$16,000,000 to initiate AWIPS Build 5.0. NWS is requested to provide quarterly reports on the status of the project, progress in meeting milestones, amount expended to date, expected overall cost, and problems encountered.

Construction.—The funds appropriated for the National Estuarine Research Reserve construction are to be distributed as follows: \$6,000,000 is for overall NERRS requirements, \$4,000,000 is for the Great Bay NERR, \$2,500,000 is for the Kachemak Bay NERR, the latter two as recommended in the Senate report, and \$750,000 is for the Jacques Cousteau NERR. The funds appropriated for Alaska facilities are to be distributed as follows: \$750,000 is for the Juneau Lab, \$3,500,000 is for Ship Creek, and \$5,500,000 is for the SeaLife Center. The conference agreement provides \$3,000,000 for preliminary design work for a new building in the Suitland Federal Center to be built by the General Services Administration. Prior to obligating these funds, the conferees expect NOAA to provide a report detailing the total estimated cost of the new building, including a breakout by fiscal year of the amounts proposed to be paid by both the GSA and NOAA, as well as a recapitulation of the options that were considered in reaching a decision on the proposed facility, and then consult with the Committees on the report.

The conferees are also interested in receiving a report on any planning for new space related to other facilities in the area by January 15, 2000.

PACIFIC COASTAL SALMON RECOVERY

In addition to \$20,000,000 provided elsewhere in this bill for initial capital for implementation of the 1999 Pacific Salmon agreement, the conference agreement includes \$58,000,000 for salmon habitat restoration, stock enhancement, and research. Of this amount, \$18,000,000 is provided to the State of Washington, \$14,000,000 is provided to the State of Alaska, \$9,000,000 is provided to the State of Oregon, and \$9,000,000 is provided to the State of California. In addition, \$6,000,000 is provided to the Pacific Coastal tribes (as defined by the Secretary of Commerce) and \$2,000,000 is provided to Columbia River tribes.

The States of Alaska, Oregon, and California, and the tribes are strongly encouraged to each enter into a Memorandum of Understanding (MOU) with NMFS regarding projects funded under this section. The MOU should not require federal approval of individual projects, but should define salmon recovery strategies. All states and tribes that receive funding shall report to the Secretary of Commerce, the Senate and House Committees on Appropriations, the Senate Committee on Commerce, Science, and Transportation, and the House Committee on Resources on progress of salmon recovery efforts funded under this heading by not later than September 1, 2000.

The 1999 Pacific Salmon Treaty Agreement provides a comprehensive, coastwide conservation program for the protection of Pacific salmon, including domestic and Canadian fisheries. In particular, it provides significant harvest reductions in Alaska below previous restrictions implemented in 1985 and 1995, each of which further reduced the impact of Alaska's fisheries on listed stocks. Therefore, any recovery efforts shall not be based on or anticipate exploitation rates in Alaska not included in the 1999 Agreement, but should include other quantifiable goals and objectives, such as escapement and production, required for the recovery of listed salmon.

The conference agreement provides \$18,000,000 for the State of Washington which is to be provided directly to the Washington State Salmon Recovery Board to distribute for salmon habitat projects, other salmon recovery activities, and to implement the Washington Forest and Fish Agreement authorized by the Washington State Legislature. The conferees urge, with input from the Board, local governments, local watershed organizations, tribes, and other interested parties, that clear, scientifically-based goals and objectives for salmon recovery in Washington State be established by NMFS and be rendered in the form of numerical goals and objectives for the recovery of each species of salmon listed under the Endangered Species Act in Washington State. The conferees expect such goals and objectives to specify the outcome to be achieved for the salmon resource in order to satisfy the requirements of the Endangered Species Act. The conferees anticipate that by July 1, 2000, NMFS will have established numerical goals and objectives for the recovery of salmon in the Puget Sound ESU, and will have produced a schedule for completion of numerical goals and objectives for all other parts of the State. The conferees expect that the Board will establish performance standards to inform its project funding decisions, and will give due deference to the project prioritization work being performed by local watershed organizations. Entities eligible to receive federal funds for salmon recovery projects and activities from the Board include local governments, tribes, and non-profit organizations, such as the Puget Sound Foundation. Funds appropriated by this Act may be distributed by the Board on a project-by-project basis or advanced in the form of block grants. Not more than one percent of these federal funds shall be used for the Board's administrative expenses, and not more than one percent of the remaining federal monies distributed by the Board for habitat projects and recovery activities shall be used by the eligible entities for administrative expenses. None of

the \$18,000,000 shall be used for the buy back of commercial fishing licenses or vessels. Nothing in this Act shall impair the authority of the Board to expend funds appropriated to it by the Washington State Legislature. Funds provided to tribes in Washington State from the \$8,000,000 appropriated for Pacific Coastal and Columbia River Tribes shall be used only for grants for planning (not to exceed 10 percent of any grant), physical design, and completion of restoration projects.

The funds provided for salmon and steelhead recovery efforts in the State of Oregon shall be provided to the Oregon Watershed Enhancement Board (OWEB). The OWEB shall provide funding for salmon recovery projects and activities including planning, monitoring, habitat restoration and protection, and improving State and local council capacity to implement local projects which directly support salmon recovery.

Additional funds are available from carryover and from the Judiciary automation fund. There continues to be substantial uncertainty as to the requirements for the Commission in fiscal year 2000, but should the situation clarify, the conferees believe there is flexibility in the Judiciary appropriation to address any resulting additional requirements.

GENERAL PROVISIONS—THE JUDICIARY

Section 301.—The conference agreement includes a provision included in both the House and Senate bills allowing appropriations to be used for services as authorized by 5 U.S.C. 3109.

Sec. 302.—The conference agreement includes a provision, as included in the House bill, providing the Judiciary with the authority to transfer funds between appropriations accounts but limiting, with certain exceptions, any increase in an account to 10 percent, instead of the Senate provision which would have limited the increase to 20 percent.

Sec. 303.—The conference agreement includes a provision allowing up to \$11,000 of salaries and expenses funds provided in this title to be used for official reception and representation expenses of the Judicial Conference of the United States, instead of \$10,000 as proposed in the House bill, and \$12,000 as proposed in the Senate bill.

TITLE IV—DEPARTMENT OF STATE AND RELATED AGENCY

DEPARTMENT OF STATE

ADMINISTRATION OF FOREIGN AFFAIRS

DIPLOMATIC AND CONSULAR PROGRAMS

The conference agreement includes a total of \$2,823,825,000 for Diplomatic and Consular Programs, instead of \$2,726,825,000 as included in the House bill and \$2,671,429,000 as included in the Senate bill. The conference agreement includes \$2,569,825,000 for

ongoing activities under this account, and an additional \$254,000,000 to remain available until expended for worldwide security upgrades.

The conference agreement includes language not included in either the House or Senate bills making fees collected in fiscal year 2000 relating to affidavits of support available until expended.

The conference agreement includes language designating \$236,291,000 for public diplomacy international information programs instead of \$306,057,000 as proposed in the House bill. The Senate bill did not contain a similar provision. This amount represents current services funding for program activities previously carried out by USIA, and includes the program and personnel costs associated with former USIA activities. The amount specified in the House bill included \$59,247,000 in ICASS costs, and \$10,519,000 for other overseas support costs. The conferees have excluded these support costs from the amount separately designated for public diplomacy international information programs.

The conference agreement includes language making available \$500,000 for the National Law Center for Inter-American Free Trade, as provided in the Senate bill. The House bill did not include a similar provision.

The conference agreement includes language transferring \$1,162,000 to the Presidential Advisory Commission on Holocaust Assets in the United States, as proposed in the House bill. Language is also included limiting the amount transferred from all Federal sources to the authorized amount. The Senate bill did not include a similar provision.

The conference agreement includes language making \$2,500,000 available for overseas continuing language education, instead of \$5,000,000 as proposed in the Senate bill. The House bill did not include a similar provision.

The conference report also includes a provision to collect and deposit as an offsetting collection to this account Machine Readable Visa fees in fiscal years 2000 and 2001 to recover authorized costs. The Senate bill included a similar provision but would have made it permanent. The House bill did not include a provision on this matter. The conference agreement does not include a provision in the House bill limiting the use of Machine Readable Visa fees to \$267,000,000 in fiscal year 2000. The Senate bill did not contain a similar provision.

The conference agreement includes language designating \$10,000,000 for activities associated with the implementation of the Pacific salmon treaty. The conference agreement does not include language that this funding must be designated from within amounts available for the Bureau of Oceans and International Environment and Scientific Affairs, as proposed in the Senate bill. The House bill did not contain a similar provision.

The conference agreement includes \$9,000,000 for the Office of Defense Trade Controls, instead of \$11,000,000 as proposed in the Senate bill. The House bill did not have a similar provision. House report language directed the Department to maintain the increased fiscal year 1999 funding level for the Office. The conferees expect that increased funding for this Office will result in increased scrutiny of export license applications, enhanced end-use monitoring,

and stronger compliance enforcement measures to ensure that U.S. technology is properly safeguarded when exported.

The conference agreement also includes language allowing the transfer of not to exceed \$4,500,000 to the International Broadcasting Operations account only to avoid reductions in force at the Voice of America.

The conference agreement does not include a provision transferring \$13,500,000 to the East-West Center, a provision making \$6,000,000 available for overseas representation, a provision making \$125,000 available for the Maui Pacific Center, or provisions placing limitations on details of State Department employees to other agencies or organizations. These provisions were proposed in the Senate bill, and the House bill did not contain similar provisions.

The conference agreement does not include funding for any program increases requested by the Department. Within the amount provided, and including any savings the Department identifies, the Department will have the ability to propose that funds be used for purposes not funded by the conference agreement, including high priority program increases such as China 2000 and a Hispanic and minority recruitment initiative, through the normal reprogramming process. The conferees agree that no funds shall be used for the requested market development pilot project. With respect to China 2000, it is expected that the Department will comply with program direction in the Senate report regarding information resource center upgrades.

The conference agreement includes \$42,000,000, of which not to exceed \$5,000,000 is for costs related to the WTO Ministerial in Seattle and the balance is for costs of additional staffing and support costs related to increased diplomatic activity in the Kosovo region. The Department may also use funding under this account for the participation costs of official delegates to the WTO Ministerial.

The conferees agree that the Department shall follow the program direction and reporting requirements related to worldwide security in both the House and Senate reports. The language in the House report under this heading is to be followed in expending fiscal year 2000 funds, including language on the Advisory Commission on Public Diplomacy, the implementation of Public Law 105-319, and on specific reporting requirements, including a report on compensation provided to the families of the Americans killed in the terrorist bombing of the U.S. Embassy in Nairobi. In addition, this statement of managers adopts by reference the provisions in the Senate report addressing the Arctic Council and the Bering Straits Commission.

The conference agreement does not adopt Senate report language on arms control treaty verification technology, and staffing levels in Berlin and Beijing.

The conferees agree that the Department shall report to the Committees, no later than January 15, 2000, on the Department's plan for implementing recommendations in OIG Memorandum Report 99-SP-013 regarding foreign service tour length, and on the Bureau of Consular Affairs' plan to manage issues related to the entry into the United States of foreign nationals for the 2002 Winter Olympic Games.

The conferees are concerned with what appears to be a large number of State Department employees staffing the Office of the Secretary and the Bureau of Legislative Affairs. The conferees believe the Secretary should be served by the best possible insight and advice, and it is important that potentially overlapping responsibilities among the regional and functional bureaus and the "Secretariat" do not produce a confusion of voices on key policy issues. Similarly, the conferees are concerned that unclear lines of responsibility and authority between the Bureau of Legislative Affairs and the various Congressional affairs offices in the regional and functional bureaus have resulted in confused or incomplete liaison with Congress. As a result, the conferees direct the Department to undertake staffing reassessments in these two offices. The Department should develop a plan to streamline staffing authorities and responsibilities and to rationalize the inclusion of staff and functions from USIA and ACDA, and report to the Committees on Appropriations no later than January 15, 2000.

CAPITAL INVESTMENT FUND

The conference agreement includes \$80,000,000 for the Capital Investment Fund, the amount included in the House bill, instead of \$50,000,000 as proposed in the Senate bill. The provisions in the House report are adopted by reference.

OFFICE OF INSPECTOR GENERAL

The conference agreement includes \$27,495,000 for the Office of Inspector General, which has jurisdiction over the Department of State and the Broadcasting Board of Governors, instead of \$28,495,000 as proposed in the House bill and \$26,495,000 as proposed in the Senate bill. The conferees expect that within the funds provided, the Inspector General will continue the current level of security-related audit and oversight activity. The conferees encourage the Inspector General to exercise appropriate oversight over the International Commissions and international broadcasting entities funded under this title.

EDUCATIONAL AND CULTURAL EXCHANGE PROGRAMS

The conference agreement includes \$205,000,000 for Educational and Cultural Exchange Programs of the Department of State, instead of \$175,000,000 as proposed in the House bill and \$216,476,000 as proposed in the Senate bill. The conference agreement also provides that not to exceed \$800,000 may be credited to this appropriation from fees and other payments.

The availability of significant carryover and recovered funds in this account is noted, and the Department is directed to submit a proposed distribution of the total resources available under this account no later than December 31, 1999, through the normal reprogramming process. The conferees intend that the distribution of funds under this account shall support, to the maximum extent possible, Fulbright Scholarship Programs, Humphrey Fellowships, educational advising and counseling, Citizen Exchange Programs, Pepper Scholarships, the Regional Scholar Exchange Program, the Disability Exchange Clearinghouse, the National Youth Science

Camp, and exchanges with Tibet, the South Pacific, and East Timor. Such a distribution shall also include funding at not less than the amounts designated for the following programs: \$42,800,000 for the International Visitor Program; \$2,656,000 for English language programs; \$2,000,000 for American Overseas Research Centers; and \$4,000,000 for Muskie Fellowships. To the extent that the Department allocates resources to civic education programs, these programs shall be separately identified and explained in the reprogramming submission.

The conferees agree that enabling Muskie Fellowship Program participants to undertake doctoral graduate study in the social sciences, including economics, in universities in the United States is an appropriate extension of this program. Therefore, the conferees recommend that funding be provided for not more than thirty percent of the program participants to pursue Ph.D. programs. As a condition of participation in the doctoral program, fellows shall perform one year of service in their home countries for every year their study is supported by this program. The conferees expect that not less than thirty percent of each participant's doctoral study be funded from non-Federal sources.

In addition, the conference agreement includes: \$2,400,000 for Congress-Bundestag Youth Exchanges; \$2,200,000 for Mansfield Fellowships; \$100,000 for the Montana Technical Foreign Exchange Program; \$400,000 for the Institute for Representative Government; \$500,000 for the Irish Institute; \$638,000 for the 2001 Special Olympic Winter Games; \$500,000 for Olympic and Paralympic Games Youth Camps; and \$150,000 for Interparliamentary Exchanges with Korea and China.

The statement of managers adopts by reference language in the House report on NIS exchanges, the number of Congress-Bundestag Youth Exchanges, competition for grant programs, and cooperation between the State Department and non-governmental exchange organizations, as well as language in the Senate report on the U.S./Mexico Conflict Resolution Center.

REPRESENTATION ALLOWANCES

The conference agreement includes \$5,850,000 for Representation Allowances, as proposed in the Senate bill, instead of \$4,350,000 as proposed in the House bill.

PROTECTION OF FOREIGN MISSIONS AND OFFICIALS

The conference agreement includes \$8,100,000 for Protection of Foreign Missions and Officials, as provided in both the House and Senate bills. The provisions in both the House and Senate reports are adopted by reference.

SECURITY AND MAINTENANCE OF UNITED STATES MISSIONS

The conference agreement includes \$742,178,000 for this account instead of \$717,178,000 as proposed in the House bill and \$583,496,000 as proposed in the Senate bill.

The conference agreement includes \$313,617,000 for the costs of worldwide security upgrades, including \$300,000,000 for capital security projects, as proposed in the House bill. The conferees di-

rect the Department to comply with the program direction related to security upgrades in the House report, including the submission of a spending plan within sixty days of the date of enactment of this Act. In proposing such a spending plan, the conferees direct the Department to include an assessment of the need for security upgrades related to housing, schools, and Marine quarters, as described in the Senate report.

The conference agreement includes \$25,657,000 in capital program activities for the costs of pending projects in Chengdu, Shenyang and Guangzhou.

The conferees note that the budget request included planned expenditures of \$92,500,000 from proceeds of sale of surplus property for opportunity purchases and capital projects. The conferees expect the Department to submit a spending plan for these funds that includes: at least \$42,500,000 for opportunity purchases to replace uneconomical leases; at least \$25,000,000 for capital security projects; and \$5,000,000 for Taiwan design costs. Any additional use of these funds is subject to reprogramming.

The conferees are aware that high operating costs in Paris have prompted a review of the post with the intent of transferring personnel and functions to lower cost cities. The conferees direct the Department to review the operations of the Paris Financial Service Center and determine if any services could be performed in the United States at the Charleston Financial Service Center. The Department shall develop plans to transfer any such services to the United States consistent with the Department's overall financial systems improvement schedule and on a time line that is cost effective. A progress report on Financial Service Center consolidation shall be submitted to the House and Senate Appropriations Committees not later than June 1, 2000.

The conferees are aware the Department is projecting a need for diversity visa processing capacity, and expect the Department to implement plans for a facility to meet such a need in a State previously designated for the purpose of passport processing.

The Department is directed to submit, and receive approval for, a financial plan for the funding provided under this account, whether from direct appropriations or proceeds of sales, prior to the obligation or expenditure of funds for capital and rehabilitation projects. The conferees expect that the amount in the plan for the leasehold program will not exceed \$138,210,000. The Department may include in the plan the costs of physical security upgrades including the costs of expanding Marine posts to new locations. The conferees agree that any such amount for expanding Marine posts to new locations shall not exceed half the total costs, in accordance with the existing cost-sharing arrangement.

The overall spending plan shall include project-level detail, and shall be provided to the Appropriations Committees not later than 30 days after the date of enactment of this Act. Any deviation from the plan after approval shall be treated as a reprogramming in the case of an addition greater than \$500,000 or as a notification in the case of a deletion, a project cost overrun exceeding 25 percent, or a project schedule delay exceeding 6 months. Notification requirements also extend to the rebaselining of a given project's cost estimate, schedule, or scope of work.

The conferees agree that no additional funding shall be allocated in fiscal year 2000 for the ongoing rehabilitation of the Ambassador's residence in London.

The conferees direct the Department to submit to the Committees a plan to implement the September 1998 recommendation of the Inspector General to sell a certain property in France, referenced in the Senate report.

As in the past, immediate notification is expected if there are facilities that the Department believes pose serious security risks.

EMERGENCIES IN THE DIPLOMATIC AND CONSULAR SERVICE

The conference agreement includes \$5,500,000 for Emergencies in the Diplomatic and Consular Service account, as provided in the House bill, instead of \$7,000,000, as provided in the Senate bill. The conference agreement does not adopt the provision in the Senate report designating not more than \$5,000,000 under this account for costs associated with the World Trade Organization conference in Seattle, Washington. The conferees address funding for these costs under the Diplomatic and Consular Programs account.

REPATRIATION LOANS PROGRAM ACCOUNT

The conference agreement includes a total appropriation of \$1,200,000 for the Repatriation Loans Program account, as provided in both the House and Senate bills.

PAYMENT TO THE AMERICAN INSTITUTE IN TAIWAN

The conference agreement includes \$15,375,000 for the Payment to the American Institute in Taiwan account, instead of \$14,750,000 as proposed in the House bill and \$16,000,000 as proposed in the Senate bill. Increased funding over the fiscal year 1999 level may be used for costs of security upgrades as described in the Senate report. The conferees expect the Department to submit a spending plan to the Committees, as indicated in the House report.

PAYMENT TO THE FOREIGN SERVICE RETIREMENT AND DISABILITY FUND

The conference agreement includes \$128,541,000 for the Payment to the Foreign Service Retirement and Disability Fund account, as provided in both the House and Senate bills.

INTERNATIONAL ORGANIZATIONS AND CONFERENCES

CONTRIBUTIONS TO INTERNATIONAL ORGANIZATIONS

The conference agreement includes \$885,203,000 for Contributions to International Organizations to pay the costs assessed to the United States for membership in international organizations, instead of \$842,937,000 as proposed in the House bill, and \$943,308,000 as proposed in the Senate bill, of which \$836,308,000 was for current year assessments, and \$107,000,000 was for payment of arrearages to the United Nations. The conference agreement includes all arrearage payments under a separate account.

The conference agreement includes language providing that none of the funds can be used for the U.S. share of interest costs for loans incurred after October 1, 1984 through external borrowings, as provided in the House bill. The Senate bill did not contain a similar provision.

The conference agreement includes language providing that funds under this account may be used to pay the full United States assessment to the NATO civil budget, as proposed in the House bill. The Senate bill did not contain a similar provision.

The conference agreement does not include a provision making \$100,000,000 available only upon certifications that the United Nations is staying within a zero nominal growth budget for both the 1998–1999 and 2000–2001 biennial budgets, as proposed in the House bill. The conferees expect that the Department will make every effort to ensure that the United Nations stays within the expected 1998–1999 budget of \$2,533,000,000 and accomplishes a zero nominal growth 2000–2001 budget at the United Nations General Assembly meeting in December 1999. The Department shall report to the Committees on these efforts by January 15, 2000.

The conference agreement does not contain a number of provisions in the Senate bill relating to payment of arrearages. Arrearages are addressed in a separate account.

The \$885,203,000 provided by the conference agreement is expected to be sufficient to fully pay assessments to international organizations. With excess fiscal year 1999 funds, including a transfer from the Contributions for International Peacekeeping account, the conferees expect the Department to prepay \$47,040,000 of the fiscal year 2000 assessment for the United Nations regular budget. Consequently, although the budget requested \$963,308,000 for this account, based on the prepayment of U.N. assessments and further exchange rate gains, the adjusted request is \$885,842,000. The conference agreement does not include requested funding for the Inter-American Indian Institute, the Interparliamentary Union, and the Bureau of International Expositions.

The conference agreement provides funding under this account for assessments for all international organizations. The Senate report proposed to transfer funding for commodity-based organizations to the Commerce Department and funding for the International Telecommunications Union to the Federal Communications Commission. The conferees direct the Department to take the necessary steps to ensure that full and timely payments are made to these organizations.

Provisions in the House report relating to reports on reforms in international organizations, tax equalization adjustments, and the Pan American Health Organization are adopted by reference.

CONTRIBUTIONS FOR INTERNATIONAL PEACEKEEPING ACTIVITIES

The conference agreement provides \$500,000,000 for Contributions for International Peacekeeping Activities instead of \$200,000,000 as proposed in the House bill, and \$387,925,000 as proposed in the Senate bill, of which \$143,925,000 was for payment of current year peacekeeping assessments and \$244,000,000 was for payment of peacekeeping arrearages. The conference agreement addresses arrearages under a separate account.

The conference agreement includes a provision that, of the total funding provided under this heading, not to exceed \$20,000,000 shall remain available until September 30, 2001. The Senate bill made \$28,093,000 available until September 30, 2001 and the House bill had no provision on the matter. The conferees intend that before any excess funding shall be carried over into fiscal year 2001 in this account, the Department shall transfer the maximum allowable amount to the Contributions to International Organizations account to prepay the fiscal year 2001 assessment for the United Nations regular budget.

The conference agreement includes a provision that prohibits obligation or expenditure of funds for new or expanded U.N. peacekeeping missions unless, at least 15 days prior to the Security Council vote, the appropriate Committees of the Congress are notified of the estimated cost and length of the mission, the vital national interest that will be served, and the planned exit strategy; and a reprogramming of funds is submitted setting forth the source of funds that will be used to pay for the cost of the new or expanded mission, as included in the House bill. The Senate bill did not contain a provision on this matter.

The conference agreement contains a provision requiring a certification that American manufacturers and suppliers are being given opportunities to provide equipment, services, and material for U.N. peacekeeping activities equal to those being given to foreign manufacturers and suppliers, as provided in the House bill. The Senate bill did not contain a provision on this matter.

In addition, the conference agreement includes a provision prohibiting funds from being used to pay the United States share of the cost of judicial monitoring that is part of any United Nations peacekeeping mission, as proposed in the House bill. Thus, if any current or future peacekeeping operation includes judicial monitoring as one of its functions, the U.S. will have to withhold its proportionate share of the cost of any court monitoring that is included in such a mission. This provision was not included in the Senate bill.

The conference agreement does not include several provisions relating to arrearages that were included in the Senate bill, as arrearages are addressed under a separate account.

The conference agreement includes funding for anticipated assessments for peacekeeping missions including those in the Golan Heights, Lebanon, Iraq/Kuwait, Bosnia-Herzegovina, Cyprus, Georgia, Tajikistan, as well as War Crimes Tribunals for Yugoslavia and Rwanda. The conference agreement does not include requested funding for missions in Western Sahara or Haiti. The conference agreement includes additional resources, which may be applied to additional assessments subject to reprogramming requirements. The conferees are aware that additional assessments are expected in fiscal year 2000 for new and expanded peacekeeping missions, including those in Kosovo, Sierra Leone and East Timor.

The statement of managers adopts by reference language in the House report making it clear that the Department is expected to live within the appropriation, to support the work of the United Nations Office of Internal Oversight Service, and to take all actions

necessary to prevent conversion of loaned employees into permanent positions at the United Nations.

ARREARAGE PAYMENTS

The conference agreement includes a total of \$351,000,000 for arrearage payments, as proposed in the House bill under this account, instead of \$107,000,000 and \$244,000,000 as proposed in the Senate bill under Contributions to International Organizations and Contributions for International Peacekeeping, respectively. The conference agreement includes \$244,000,000 for the payment of arrearages, and an additional \$107,000,000 to reduce the total amount of arrearages owed to the United Nations.

The conference agreement does not include language, as proposed in the House bill, making the amounts provided under this heading subject to enactment of authorizing legislation that makes payment of arrearages contingent upon United Nations reform. The conferees understand that such authorization will be included as a separate division in this Act, and that the amounts provided under this heading will be used pursuant to the reform conditions contained in that division.

The conference agreement makes the expenditure of the \$244,000,000 provided for payment of arrearages contingent upon a reduction in the U.S. assessment rate for the designated specialized agencies to not more than 22 percent, and upon the achievement of zero nominal growth budgets in the designated specialized agencies for the 2000–2001 biennium. These conditions are included among the conditions pending as part of the authorization, and are intended to assure that real and substantial reforms are achieved at the U.N. and other international organizations prior to payment of arrearage funding, and that assessment reductions are made that will provide long-term savings to the American taxpayer.

The conferees expect the Department to provide the Committees with a report on the payment of arrearages to international organizations as specified in the House report.

The conference agreement does not include provisions in the Senate bill limiting the amount to be obligated and expended by the Inter-American Tropical Tuna Commission and prohibiting the importation of tuna from certain countries under certain conditions. The House bill did not contain similar provisions.

The conference agreement adopts, by reference, language in the House report regarding the application of reductions if necessary, and language in the Senate report on funding for the Great Lakes Fishery Commission (GLFC), including sea lamprey operations and research, costs of treating Lake Champlain, and priority to States providing matching funds.

The conference agreement includes \$388,421,000 for International Broadcasting Operations, instead of \$410,404,000 as proposed in the House bill, and instead of \$362,365,000 as proposed in the Senate bill. Rather than funding broadcasting to Cuba under this account, as proposed by the House, all funding for broadcasting to Cuba is included under a separate account, as proposed by the Senate and consistent with the fiscal year 1999 appropriations Act.

The amount provided represents a freeze at fiscal year 1999 funding levels for all broadcast entities funded under this account, as provided in the House bill. The Broadcasting Board of Governors is directed to submit to the House and Senate Committees on Appropriations, no later than sixty days from the date of enactment of this Act, a financial plan including a distribution of the total resources available under this account. The conferees intend that the distribution of available resources shall include amounts sufficient to avoid reductions in force at the grantee broadcasting entities.

The House bill did not contain a provision on this matter.

The conference agreement also includes funding under MARAD general administration under this account to conduct a needs assessment on infrastructure improvements at the U.S. Merchant Marine Academy, as described in the House report. The conference agreement assumes that, of the amount provided, \$104,024,000 will be derived from fees collected in fiscal year 2000 and \$21,000,000 will be derived from estimated unobligated fee collections available from Fiscal Year 1999. These actions result in a final appropriated level of \$0, as proposed in both the House and Senate bills.

The conferees intend that any excess fee collections shall remain available for the Federal Trade Commission in future years. The conference agreement includes language, not included in either the House or Senate bills, specifying that fees may be retained and used notwithstanding a specific provision of law, rather than notwithstanding any provision of law.

The conferees note that \$28,000,000 is provided for civil legal assistance under the Violence Against Women Act program funded under title I of this bill.

The conferees expect that any unobligated balances remaining available at the end of the fiscal year may be reallocated among participating programs for technology enhancements and demonstration projects in succeeding fiscal years, subject to the reprogramming procedures in Section 605 of this Act.

The conferees have concerns about the case service reporting and associated data reports submitted annually by the Corporation's grantees and the case statistical reports submitted by the Corporation to the Congress, and the conferees direct the Corporation to make improvement of the accuracy of these submissions a top priority, per directions in the House report. The conferees also direct the Corporation to submit its 1999 annual case service reports and associated data reports to Congress no later than April 30, 2000. The Office of the Inspector General will assess the case service information provided by the grantees, and will report to the Committees no later than July 30, 2000, as to its accuracy, as described in the House report. The conference agreement adopts language included in the House report directing the SBA to fully LowDoc Processing Centers, and to continue activities assisting small businesses to adapt to a paperless procurement environment, as well as activities which assist small businesses in making the transition to meet both military and ISO 9000 quality systems requirements.

OFFICE OF INSPECTOR GENERAL

The conference agreement provides \$11,000,000 for the SBA Office of Inspector General, instead of \$10,800,000 as proposed in the House bill and \$13,250,000 recommended in the Senate bill.

An additional \$500,000 has been provided under the administrative expenses of the Disaster Loans Program to be made available to the Office of Inspector General for work associated with oversight of the Disaster Loans Program.

The conferees agree that the OIG should allocate resources to the priority areas mentioned in the Senate report.

BUSINESS LOANS PROGRAM ACCOUNT

The conference agreement includes \$266,800,000 under the SBA Business Loans Program Account, instead of \$222,792,000 as proposed in the House bill, and \$297,368,000 as proposed in the Senate bill. Within the amount provided, \$6,000,000 shall be available only for the New Markets Venture Capital Program, subject to the enactment of authorizing legislation in fiscal year 2000.

No appropriation is provided for the costs of direct loans. The conferees understand that \$2,500,000 in carryover is available for the Microloan Direct Loan Program, and will support an estimated 2000 program level of over \$29,000,000. The conferees direct the SBA to submit the report on Microloan programs requested in the House report.

The conference agreement includes \$137,800,000 for the costs of guaranteed loans, including the following programs:

7(a) General Business Loans.—The conference agreement provides \$107,500,000 in subsidy appropriations for the 7(a) general business guaranteed loan program, instead of \$106,400,000 as proposed in the House bill and \$118,500,000 as proposed in the Senate bill. When combined with \$7,000,000 in available carryover balances and recoveries, this amount will subsidize an estimated 2000 program level of \$9,871,000,000, assuming a subsidy rate of 1.16%. In addition, the conference agreement includes a provision, as proposed in the House bill, requiring the SBA to notify the Committees on Appropriations in accordance with section 605 of this Act prior to providing a total program level greater than \$10,000,000,000, instead of greater than \$10,500,000,000 as proposed in the Senate bill. The conferees agree with the concerns expressed by the Senate that many small businesses are not adequately prepared for the problems they may face from Y2K computer problems and about the impact that the Y2K computer problem may have on the economy and, in particular, on small business owners and their employees. Consequently, the conferees agree that the Small Business Administration must give the highest priority to loans to small businesses to correct Y2K computer problems affecting their own information technology systems or other automated systems, and loans to provide relief for small businesses from economic injuries suffered as a direct result of their own Y2K computer problems or some other entity's Y2K computer problems.

Small Business Investment Companies (SBIC).—The conference agreement provides \$24,300,000 for the SBIC participating securities program, instead of \$21,630,000 as proposed in the House bill,

and \$25,868,000 as proposed in the Senate bill. This amount will result in an estimated total program level of \$1,350,000,000 in fiscal year 2000. No appropriation is provided for the debentures program, as the program will operate with a zero subsidy rate in fiscal year 2000. The conference agreement includes language proposed in the House bill limiting the debentures program to the authorized program level, instead of similar language in the Senate bill.

Microloan Guaranty Programs.—The conference agreement does not include new appropriations for the Microloan Guaranty Program, as none were requested. Available carryover will provide for the subsidy costs of, at least, the requested 2000 program level of \$15,998,000.

In addition, the conference agreement includes \$129,000,000 for administrative expenses to carry out the direct and guaranteed loan programs as proposed in the Senate bill, and instead of \$94,000,000 as proposed in the House bill, and makes such funds available to be transferred to and merged with appropriations for Salaries and Expenses.

DISASTER LOANS PROGRAM ACCOUNT

The conference agreement includes a total of \$276,400,000 for this account, of which \$140,400,000 is for the subsidy costs for disaster loans and \$136,000,000 is for administrative expenses associated with the disaster loans program. The House bill proposed \$139,400,000 for loans and \$116,000,000 for administrative expenses. The Senate bill provided \$77,700,000 for loans and \$86,000,000 for administrative expenses.

For disaster loans, the conference agreement assumes that the \$140,400,000 subsidy appropriation, when combined with \$72,000,000 in carryover balances and \$10,000,000 in recoveries, will provide a total disaster loan program level of \$1,000,000,000. The conference agreement takes into account that the Administration requested only \$39,400,000 for disaster loan subsidies, which would have supported less than one quarter of an average annual program. The Administration is directed to realistically assess the level of need for the disaster loans program and budget accordingly.

The conference agreement includes language, as proposed in the Senate bill, allowing appropriations for administrative costs to be transferred to and merged with appropriations for Salaries and Expenses. The House bill did not include language allowing such transfers. The conference agreement includes a provision that any amount to be transferred to Salaries and Expenses from the Disaster Loans Program account in excess of \$20,000,000 shall be treated as a reprogramming of funds under section 605 of this Act. In addition, the conferees agree that any such reprogramming shall be accompanied by a report from the administrator on the anticipated effect of the proposed transfer on the ability of the SBA to cover the full annual requirements for direct administrative costs of disaster loan making and servicing.

Of the amounts provided for administrative expenses under this heading, \$500,000 is to be transferred to and merged with the Office of Inspector General account for oversight and audit activities related to the Disaster Loans program.

ADMINISTRATIVE PROVISION—SMALL BUSINESS ADMINISTRATION

The conference agreement includes a provision providing SBA with the authority to transfer funds between appropriations accounts as proposed in the House bill, instead of a similar provision in the Senate bill.

STATE JUSTICE INSTITUTE

SALARIES AND EXPENSES

The conference agreement provides \$6,850,000 for the salaries and expenses of the State Justice Institute (SJI) as proposed in the Senate bill, instead of no funding as proposed in the House bill. The conference agreement does not include the transfer of an additional \$8,000,000 to this account from the Courts of Appeals, District Courts and Other Judicial Services account in Title III as proposed in the Senate report.

TITLE VI—GENERAL PROVISIONS

The conference agreement includes the following general provisions:

Section 601.—The conference agreement includes section 601, identical in both the House and Senate bills, regarding the use of appropriations for publicity or propaganda purposes.

Sec. 602.—The conference agreement includes section 602, identical in both the House and Senate bills, regarding the availability of appropriations for obligation beyond the current fiscal year.

Sec. 603.—The conference agreement includes section 603, identical in both the House and Senate bills, regarding the use of funds for consulting services.

Sec. 604.—The conference agreement includes section 604, identical in both the House and Senate bills, providing that should any provision of the Act be held to be invalid, the remainder of the Act would not be affected.

Sec. 605.—The conference agreement includes section 605, as included in the House bill, establishing the policy by which funding available to the agencies funded under this Act may be reprogrammed for other purposes, instead of the slightly modified Senate version.

Sec. 606.—The conference agreement includes section 606, identical in both the House and Senate bills, regarding the construction, repair or modification of National Oceanic and Atmospheric Administration vessels in overseas shipyards.

Sec. 607.—The conference agreement includes section 607, identical in both the House and Senate bills, regarding the purchase of American-made products.

Sec. 608.—The conference agreement includes section 608, identical in both the House and Senate bills, which prohibits funds in the bill from being used to implement, administer, or enforce any guidelines of the Equal Employment Opportunity Commission similar to proposed guidelines covering harassment based on religion published by the EEOC in October, 1993.

Sec. 609.—The conference agreement includes section 609, proposed in the House bill as section 610, prohibiting the use of funds for any United Nations peacekeeping mission that involves U.S. Armed Forces under the command or operational control of a foreign national, unless the President certifies that the involvement is in the national security interest, as proposed in the House bill. The Senate bill did not contain a provision on this matter.

Sec. 610.—The conference agreement includes section 610, proposed in the Senate bill as section 609, that prohibits use of funds to expand U.S. diplomatic presence in Vietnam beyond the level in effect on July 11, 1995, unless the President makes a certification that several conditions have been met regarding Vietnam's cooperation with the United States on POW/MIA issues. The House bill included a similar provision, with minor technical differences.

Sec. 611.—The conference agreement includes section 611, modified from section 610 proposed in the Senate bill, which prohibits more than 20% of any account that is available for obligation only in the current fiscal year from being obligated during the last two months of the fiscal year unless the Committees on Appropriations are notified in accordance with standard reprogramming procedures, with an exemption to this limitation for grant programs. The House bill did not contain a provision on this matter.

Sec. 612.—The conference agreement includes section 612, identical in both the House and Senate bills, which prohibits the use of funds to provide certain amenities for Federal prisoners.

Sec. 613.—The conference agreement includes section 613, proposed as section 612 in the House bill, restricting the use of funds provided under the National Oceanic and Atmospheric Administration for fleet modernization activities. The Senate bill did not contain a provision on this matter.

Sec. 614.—The conference agreement includes section 614, proposed as section 612 in the Senate bill, which requires agencies and departments funded in this Act to absorb any necessary costs related to downsizing or consolidations within the amounts provided to the agency or department. The House bill included this provision as section 613, with minor technical differences.

Sec. 615.—The conference agreement includes section 615, as proposed in both the House and Senate bills, which prohibits funds made available to the Federal Bureau of Prisons from being used to make available any commercially published information or material that is sexually explicit or features nudity to a prisoner.

Sec. 616.—The conference agreement includes section 616, as proposed in both the House and Senate bills, which limits funding under the Local Law Enforcement Block Grant to 90 percent to an entity that does not provide public safety officers injured in the line of duty, and as a result separated or retired from their jobs, with health insurance benefits equal to the insurance they received while on duty.

Sec. 617.—The conference agreement includes a provision, proposed as section 616 in the House bill, which prohibits funds provided in this Act from being used to promote the sale or export of tobacco or tobacco products, or to seek the reduction or removal of foreign restrictions on the marketing of tobacco products, provided such restrictions are applied equally to all tobacco or tobacco prod-

ucts of the same type. This provision is not intended to impact routine international trade services provided to all U.S. citizens, including the processing of applications to establish foreign trade zones. The Senate bill did not contain a provision on this matter.

Sec. 618.—The conference agreement includes section 618, proposed as section 615 in the Senate bill, which extends the prohibition in last year's bill on use of funds to issue a visa to any alien involved in extrajudicial and political killings in Haiti. The provision also adds two names to the list of victims, and extends the exemption and reporting requirements from last year's provision. The House bill did not contain a provision on this matter.

Sec. 619.—The conference agreement includes section 619, proposed as section 617 in the House bill and carried in the fiscal year 1999 Act, which prohibits a user fee from being charged for background checks conducted pursuant to the Brady Handgun Control Act of 1993, and prohibits implementation of a background check system which does not require or result in destruction of certain information. The Senate bill included a similar provision as section 616, requiring immediate destruction of such information.

Sec. 620.—The conference agreement includes section 620, proposed as section 618 in the House bill, which delays obligation of any receipts deposited into the Crime Victims Fund in excess of \$500,000,000 until October 1, 2000. The conferees have taken this action to protect against wide fluctuations in receipts into the Fund, and to ensure that a stable level of funding will remain available for these programs in future years.

Sec. 621.—The conference agreement includes section 621, proposed as section 620 in the House bill, which prohibits the use of funds to implement or prepare to implement the Kyoto Protocol on Climate Change prior to Senate ratification of the treaty. The Senate bill did not contain a provision on this matter.

Sec. 622.—The conference agreement includes a new section 622, which provides additional amounts for the Small Business Administration, Salaries and Expenses account for the following small business initiatives: \$2,500,000 for continuation of an outreach program to assist small business development; \$2,000,000 for infrastructure to develop a facility to increase small business opportunities and economic development; \$3,000,000 for infrastructure to develop a facility that will serve as an incubator for small arts-related businesses; \$750,000 for a skills training program for small business owners; \$2,500,000 for infrastructure to develop a technology and training center; \$1,000,000 to develop a facility and operate an institute for small business and workforce development; \$1,000,000 to develop an education network; \$1,000,000 for a technical assistance program for at-risk small businesses; \$1,900,000 for infrastructure for a regional resource facility for small tourism businesses; \$1,000,000 for a science and technology small business loan fund; \$8,550,000 for infrastructure to develop a workforce development and skills training facility; \$2,000,000 for a one-stop resource center for technology start-up businesses; \$200,000 for a resource center for rural small business; \$200,000 for a community development foundation; \$500,000 for a training and technology center and associated infrastructure improvements; \$500,000 for a program for technology-based small business growth; \$500,000 for

a project to develop strategic plans for technology-based small business development; \$200,000 for infrastructure to develop a facility; \$150,000 for a small business entrepreneurial education center; \$300,000 for a microenterprise loan program; and \$250,000 for a small business incubator facility.

Sec. 623.—The conference agreement includes a section, modified from the Senate bill, that authorizes the establishment and initial capitalization of two funds: the Northern Boundary and Transboundary Rivers Restoration and Enhancement Fund; and the Southern Boundary Restoration and Enhancement Fund. This section withholds funding to implement the 1999 Pacific Salmon Treaty Agreement until anticipated judicial and regulatory actions have been taken. This section also requires NMFS to make a jeopardy determination in southern United States fisheries before it may revisit its decision in Alaska. It allows the Pacific Salmon Commission to implement harvest responses under the Pacific Salmon Treaty before NMFS may reinstate consultation in Alaska. The Pacific Salmon Commission can regulate salmon harvests in the United States and Canada in response to low escapement numbers, whereas NMFS may only address U.S. fisheries using the Endangered Species Act. Additionally, this section makes changes to the voting structure of the Pacific Salmon Commission. This section also authorizes funds in fiscal year 2000 for Pacific Coastal Salmon Recovery that are appropriated under title II of this Act, subject to requirements for a 25 percent non-federal match and a 3 percent limitation on administrative expenses, with certain exceptions.

Sec. 624.—The conference agreement includes section 624, proposed as section 627 in the Senate bill, which makes fiscal year 1999 appropriations associated with implementation of the American Fisheries Act of 1999 available until expended. The House bill did not contain a similar provision.

Sec. 625.—The conference agreement includes a new provision, numbered as section 625, which amends section 635 of Public Law 106–58 by inserting the words “the carrier for” after “if” in subsection (b)(2), and “or otherwise provide for” after “to prescribe” in subsection (c).

Sec. 626.—The conference agreement includes section 626, proposed as section 801 in the House bill, which prohibits the use of Department of Justice funds for programs which discriminate against or denigrate the religious beliefs of students participating in such programs. The Senate bill did not contain a provision on this matter.

Sec. 627.—The conference agreement includes section 627, proposed as section 802 in the House bill, which prohibits the use of funds to process visas for citizens of countries that the Attorney General has determined deny or delay accepting the return of deported citizens. The Senate bill did not contain a provision on this matter.

Sec. 628.—The conference agreement includes section 628, proposed as section 803 in the House bill, which prohibits the use of Department of Justice funds to transport a high security prisoner to any facility other than to a facility certified by the Bureau of Prisons as appropriately secure to house such a prisoner. The Senate bill did not contain a similar provision.

Sec. 629.—The conference agreement includes section 629, modified from language proposed as section 804 in the House bill, which prohibits funds from being used for the participation of United States delegates to the Standing Consultative Commission unless the President submits a certification that the U.S. Government is not implementing a 1997 memorandum of understanding regarding the 1972 Anti-Ballistic Missile Treaty between the U.S. and the U.S.S.R., or the Senate ratifies the memorandum of understanding. The Senate bill did not include a provision on this matter.

Sec. 630.—The conference agreement includes section 630, proposed as section 805 in the House bill, which prohibits funds for any activity in support of adding or maintaining any World Heritage Site in the U.S. on the List of World Heritage in Danger. The Senate bill did not include a provision on this matter.

The conference agreement does not include a provision, proposed as section 619 in the House bill, regarding Global Change Research assessments. However, the conferees direct that funds provided in this Act not be used to publish Global Change Research assessments unless the research has been subjected to peer review and made available to the public, and the draft assessment has been published in the Federal Register for a 60 day public comment period.

Programs, projects and activities for which the use of such technology should be considered include reconstruction assistance for the Balkans, activities carried out by the Global Environment Facility, and activities funded from USAID's Development Credit Authority.*

(2) PROHIBITION ON USE OF FUNDS IN CHINA.—None of the funds made available under “International Organizations and Programs” may be made available for the UNFPA for a country program in the People’s Republic of China.

(3) CONDITIONS ON AVAILABILITY OF FUNDS.—Amounts made available under “International Organizations and Programs” for fiscal year 2000 for the UNFPA may not be made available to UNFPA unless—

(A) the UNFPA maintains amounts made available to the UNFPA under this section in an account separate from other accounts of the UNFPA;

(C) the UNFPA does not fund abortions.

(B) If a report under subparagraph (A) indicates that the United Nations Population Fund plans to spend funds for a country program in the People’s Republic of China in the year covered by the report, then the amount of such funds that the UNFPA plans to spend in the People’s Republic of China shall be deducted from the funds made available to the UNFPA after March 1 for obligation for the remainder of the fiscal year in which the report is submitted.

AUTHORIZATION FOR POPULATION PLANNING

SEC. 599D. (a) AUTHORIZATION.—Not to exceed \$385,000,000 of the funds appropriated in title II of this Act may be available for population planning activities or other population assistance.

(b) RESTRICTION ON ASSISTANCE TO FOREIGN ORGANIZATIONS THAT PERFORM OR ACTIVELY PROMOTE ABORTIONS.—

(1) PERFORMANCE OF ABORTIONS.—(A) Notwithstanding section 614 of the Foreign Assistance Act of 1961, or any other provision of law, no funds appropriated by title II of this Act for population planning activities or other population assistance may be made available for any foreign private, nongovernmental, or multilateral organization until the organization certifies that it will not, during the period for which the funds are made available, perform abortions in any foreign country, except where the life of the mother would be endangered if the pregnancy were carried to term or in cases of forcible rape or incest.

(B) Subparagraph (A) may not be construed to apply to the treatment of injuries or illnesses caused by legal or illegal abortions or to assistance provided directly to the government of a country.

(2) LOBBYING ACTIVITIES.—(A) Notwithstanding section 614 of the Foreign Assistance Act of 1961, or any other provision of law, no funds appropriated by title II of this Act for population planning activities or other population assistance may be made available for any foreign private, nongovernmental, or multilateral organization until the organization certifies that it will not, during the period for which the funds are made available, violate the laws of any foreign country concerning the circumstances under which abortion is permitted, regulated, or prohibited, or engage in activities or efforts to alter the laws or governmental policies of any foreign country concerning the circumstances under which abortion is permitted, regulated, or prohibited.

(B) Subparagraph (A) shall not apply to activities in opposition to coercive abortion or involuntary sterilization.

(3) APPLICATION TO FOREIGN ORGANIZATIONS.—The prohibitions and certifications of this subsection apply to funds made available to a foreign organization either directly or as a subcontractor or subgrantee.

(c) WAIVER AUTHORITY.—

(1) AUTHORITY.—The President may waive the restrictions contained in subsection (b) that require certifications from foreign private, nongovernmental, or multilateral organizations.

(2) REDUCTION OF ASSISTANCE.—In the event the President exercises the authority contained in paragraph (1) to waive either or both subsections (b)(1) and (b)(2), then—

(A) assistance authorized by subsection (a) and allocated for population planning activities or other population assistance shall be reduced by a total of \$12,500,000, and that amount shall be transferred from funds appropriated by this Act under the heading “Development Assistance” and consolidated and merged with funds appropriated by this Act under the heading “Child Survival and Disease Programs Fund”; and

(B) Notwithstanding any other provision of law, such transferred funds that would have been made available for population planning activities or other population assistance shall be made available for infant and child health programs that have a direct, measurable, and high impact on reducing the incidence of illness and death among children.

(3) LIMITATION.—The authority provided in paragraph (1) may be exercised to allow the provision of not more than \$15,000,000, in the aggregate, to all foreign private, nongovernmental, or multilateral organizations with respect to which such authority is exercised.

(4) ADDITIONAL REQUIREMENTS.—Upon exercising the authority provided in paragraph (1), the President shall report in writing to the Committee on Appropriations and the Committee on Foreign Relations of the Senate and the Committee on Appropriations and the Committee on International Relations of the House of Representatives.

OPIC AUTHORIZATION

SEC. 599E. Section 235(a)(2) of the Foreign Assistance Act of 1961 (22 U.S.C. 2195(a)(2)) is amended by striking “1999” and inserting “November 1, 2000”.

This Act may be cited as the "Foreign Operations, Export Financing, and Related Programs Appropriations Act, 2000".

Following is explanatory language on H.R. 3422, as introduced on November 17, 1999.

FOREIGN OPERATIONS, EXPORT FINANCING, AND RELATED PROGRAMS APPROPRIATIONS

This joint explanatory statement includes a description of the resolution of differences between the House and Senate on both H.R. 2606, vetoed by the President on October 18, 1999, and H.R. 3196. References in the following statement to appropriations amounts or other items proposed by the House bill or Senate amendment refer only to those amounts and items recommended in the House-passed and Senate-passed versions of H.R. 2606. Appropriation amounts, bill language, and general provisions contained in this conference agreement which were identical in the House-passed and Senate-passed versions of H.R. 2606 are not referenced in the following joint explanatory statement. In some instances, appropriations amounts or other items in H.R. 3196 are not referenced in the statement as being part of the House-passed version of that bill. However, any reference to appropriations amounts or other items being included in the conference agreement does reflect the final agreement with regard to both H.R. 2606 and H.R. 3196.

The managers expect that each agency affected by this conference agreement consult with the Committees on Appropriations not later than December 15, 1999, regarding the directives and recommendations included in House Report No. 106-254 and Senate Report No. 106-81, which accompanied their respective versions of H.R. 2606:

TITLE I—EXPORT AND INVESTMENT ASSISTANCE

EXPORT-IMPORT BANK OF THE UNITED STATES SUBSIDY APPROPRIATION

The conference agreement appropriates \$759,000,000 for the subsidy appropriation of the Export-Import Bank as proposed by the House instead of \$785,000,000 as proposed by the Senate.

OVERSEAS PRIVATE INVESTMENT CORPORATION NON-CREDIT
ACCOUNT

The conference agreement provides \$35,000,000 for administrative expenses of the Overseas Private Investment Corporation (OPIC) as proposed by the House instead of \$31,500,000 as proposed by the Senate.

OVERSEAS PRIVATE INVESTMENT CORPORATION PROGRAM ACCOUNT

The conference agreement provides \$24,000,000 for program expenses of OPIC as proposed by the Senate instead of \$20,500,000 as proposed by the House.

The managers have included language allowing OPIC to use the authorities of Section 234(g) of the Foreign Assistance Act of 1961 as proposed by the House, instead of repealing said subsection as proposed by the Senate. The conference agreement also includes a general provision urging OPIC to establish within one year of enactment a maritime fund for the purpose of leveraging United States commercial maritime expertise to support international maritime projects.

The managers on the part of the House request OPIC and the Department of State to take all necessary actions to protect the interests of American investors in Gaza supported by OPIC financing or insurance.

Under Sec. 599E, authority is provided for OPIC to continue operations until November 1, 2000.

FUNDS APPROPRIATED TO THE PRESIDENT

TRADE AND DEVELOPMENT AGENCY

The conference agreement appropriates \$44,000,000 for the Trade and Development Agency as proposed by the House instead of \$43,000,000 as proposed by the Senate.

TITLE II—BILATERAL ECONOMIC ASSISTANCE

AGENCY FOR INTERNATIONAL DEVELOPMENT

CHILD SURVIVAL AND DISEASE PROGRAMS FUND

The conference agreement appropriates \$715,000,000 for the Child Survival and Disease Programs Fund instead of \$685,000,000 as proposed by the House. The Senate bill contained no provision on this matter, but included funds for these activities under "Development Assistance". The managers agree with and endorse House Report No. 106-254 regarding the use of funds appropriated under this heading, including \$110,000,000 for a grant to UNICEF for programs consistent with the purpose of the Child Survival and Disease Programs Fund. The grant for UNICEF does not preclude AID from providing additional funding for specific UNICEF projects as may be appropriate. The managers have been assured that the success of the polio eradication program is likely to result in a significantly lower requirement for this effort in future years. The managers have included \$35,000,000 for a special initiative to fight HIV/AIDS in Africa and India. This is in addition to the

\$145,000,000 provided in this Fund and elsewhere in the bill for ongoing HIV/AIDS programs. At least \$10,000,000 additionally is designated for children affected by the HIV/AIDS epidemic.

In implementing programs, projects, and activities to combat infectious diseases, including long-standing programs relating to malaria and measles, as well as the more recent emphasis on HIV/AIDS and tuberculosis, surveillance, and anti-microbial resistance, the conferees expect AID to continue to consult closely with the Appropriations Committees, the Centers for Disease Control, the National Institutes of Health, and other relevant agencies involved in international health issues. In addition to the increase for HIV/AIDS, funding for AID's other infectious disease programs should exceed the fiscal year 1999 level. The managers also direct AID to provide the Committees with a detailed report not later than February 15, 2000, on the programs, projects, and activities undertaken by the Child Survival and Disease Programs Fund during fiscal year 1999.

The managers strongly encourage AID to reserve funds from the Child Survival and Disease Programs Fund for the establishment of a Global Infectious Diseases Reserve. The Reserve is intended to provide a mechanism for rapid and flexible response to initiate or expand a limited number of programs in developing countries with high potential to respond to infectious disease outbreaks that threaten more than one region and to serve as seed money to attract other donors and partners.

The global health threat from tuberculosis is another priority for the funds provided in this Act. Because of difficulties encountered in implementing tuberculosis language accompanying last year's Act, the managers welcome AID's proposal to allocate \$3,000,000 in fiscal year 2000 to tuberculosis control programs in Mexico, with an emphasis on cost-sharing with Mexico on programs that focus on Mexico's border states.

In addition to increasing support for tuberculosis control worldwide, the managers urge AID to contribute up to \$5,000,000 toward the effort led by the Atlanta-based Carter Center to eradicate illness caused by the African guinea worm.

The managers are aware that significant new private resources are now available to augment AID's immunization programs, and commend the partners in this effort.

The managers are working with the General Accounting Office and experts from the public and private sectors to consider options for Congress to address childhood vaccine shortfalls in developing countries. The managers encourage AID to lend its support to this initiative.

The managers direct that core child survival activities focus on effective interventions to reduce infant mortality during the first month of life through activities that focus on the health and nutrition needs of pregnant women and new mothers, a vital aspect of child survival that has not yet attracted sufficient private funds. The managers also support expansion of core child survival programs in Africa.

The managers will consider the use of not more than three percent of the amount provided for the Child Survival and Disease Programs Fund in countries funded under SEED and FREEDOM

Support Act authorities. In particular, the managers urge AID to provide up to \$2,000,000 to support non-governmental organizations that work with older orphans, including those with cognitive disabilities and mild mental retardation, to teach life and job skills. The conference agreement also continues existing limitations on the use of the Fund for non-project assistance.

The managers note that Morehouse School of Medicine is establishing an International Center for Health and Development. This center will be dedicated to forming local and international partnerships to address the health problems that are devastating Africa today. The conferees encourage AID to provide assistance for these efforts.

DEVELOPMENT ASSISTANCE

(INCLUDING TRANSFER OF FUNDS)

The conference agreement appropriates \$1,228,000,000 for "Development Assistance" instead of \$1,201,000,000 as proposed by the House and \$1,928,500,000 as proposed by the Senate. The Senate included funding for the "Child Survival and Disease Programs Fund" under its "Development Assistance" account.

The conference agreement appropriates up to \$5,000,000 for the Inter-American Foundation from funds made available under this heading and up to \$14,400,000 directly to the African Development Foundation, as proposed in the House bill. The Senate amendment provided authority to transfer funds from this account to the Inter-American Foundation, but did not specify an amount. Also, the Senate amendment provided \$12,500,000 for the African Development Foundation. Section 586 of the conference agreement provides the President with the authority to abolish the Inter-American Foundation during fiscal year 2000. The managers note that the funding level provided for the Inter-American Foundation is sufficient for meeting existing grant, contract, and lease obligations and to wind up any other outstanding affairs of the Foundation.

The conference agreement continues current law regarding certain requirements on quotas and numerical targets for family planning providers participating in voluntary family planning projects that are funded through the "Development Assistance" account, as included in the House bill. The Senate amendment did not address this matter.

The conference agreement also includes House language providing that \$2,500,000 may be transferred from this account to the "International Organizations and Programs" account for a contribution to the International Fund for Agricultural Development (IFAD). The Senate amendment included similar language. The managers recognize the need for the type of expertise IFAD offers; therefore, the managers affirm the House and Senate support for continued United States contributions to IFAD. The Administration is expected to consult with the Appropriations Committees regarding IFAD's future resource requirements.

The conference agreement continues current law which prohibits funds from being made available for any activity in contravention of the Convention on International Trade in Endangered

Species of Flora and Fauna (CITES) as proposed by the House. The Senate bill did not address this matter.

The conference agreement includes language from the Senate amendment not in the House bill that provides not to exceed \$25,000, in addition to funds otherwise made available for such purposes, to monitor and provide oversight for assistance programs for displaced and orphan children and victims of war.

The conference agreement does not include bill language in the Senate amendment mandating a specific sum for the International Law Institute. The managers continue to be concerned by the lack of adherence to the rule of law in the Independent States. Therefore, the managers direct that \$250,000 shall be made available to the International Law Institute to continue its training and support of lawyers and judges in the Independent States.

The managers encourage AID to support the Financial Services Volunteer Corps (FSVC), which contributes to the process of building sound financial infrastructure in countries that are seeking to develop transparent, market-oriented economies. FSVC, as a not-for-profit organization, leverages its funding resources with expert volunteers from the U.S. financial services community to provide assistance that is objective, independent and free of commercial interest.

The conference agreement provides that not less than \$500,000 should be made available for support of the United States Telecommunications Training Institute. The Senate amendment included bill language mandating that such funds be made available for this purpose. The House bill did not address this matter.

The conference agreement includes language similar to a provision in the Senate amendment that requires that not less than 50 percent of the funds made available for the Microenterprise Initiative should be made available for loans of \$300 or less for very poor people, particularly women, or for institutional support of organizations primarily engaged in making such loans. The House bill contained a similar provision which continued existing law.

AGRICULTURE

The conference agreement does not contain language from the Senate amendment regarding the minimum level of funding for agriculture programs. However, the managers remain concerned about the decline in AID funding for international agriculture activities and recommend at least \$305,000,000 be provided for such programs in fiscal year 2000. Further, the managers note that both House Report No. 106-254 and Senate Report No. 106-81 signal the deep concern for the level of funding provided for international agricultural development. In addition, the managers support the language in House Report No. 106-254 regarding funding levels for the Collaborative Research Support Programs (CRSPs). Prior to the submission of the report required by section 653 of the Foreign Assistance Act, AID is directed to consult with the Committees on Appropriations regarding the proposed allocation of sector resources, including those intended for agriculture and for the CRSPs.

RURAL ELECTRIFICATION

The managers endorse Senate Report No. 106–81 regarding rural electrification as a key component of development. The managers recommend AID provide not less than \$5,000,000 in fiscal year 2000 for rural electrification in Guatemala, El Salvador, Honduras and Nicaragua. Further, the managers recommend that AID provide \$3,000,000 for the Republic of Georgia to assist rural electric cooperatives in rehabilitation and privatization efforts.

AID GLOBAL PROGRAMS AND BIODIVERSITY

The managers note the positive role AID's central offices and mechanisms can serve in providing policy and technical support in critical areas such as economic growth, energy, agriculture, biodiversity, democracy and women in development. The managers endorse House Report No. 106–254 on global issues such as these, and encourage AID to adequately fund these central offices and mechanisms. To ensure that the Committees' priorities are addressed in a timely manner, the managers direct AID to provide, within 30 days of enactment of this Act, a brief written report to the Appropriations Committees on its planned fiscal year 2000 allocation of funds to the central offices in the Global Bureau.

The conference agreement does not include a Senate provision regarding the proportion of funds utilized in support of biodiversity. The managers continue to believe that protecting biodiversity and tropical forests in developing countries is critical to the global environment and U.S. economic prosperity, especially for the agricultural and pharmaceutical industries. The managers note that House Report No. 106–254 and Senate Report No. 106–81 recognize the slight increase in AID biodiversity funding in fiscal year 1999, but remain concerned that the proportion of development assistance allocated for biodiversity activities remains less than the amount provided five years ago. Therefore, the managers direct AID to restore overall biodiversity funding as well as funding to the Office of Environment and Natural Resources to levels that reflect the proportion of funding of development assistance provided in fiscal year 1995.

EDUCATION IN AFRICA

The managers recognize that providing increased educational opportunities, including at the doctoral level, is a key component of development efforts in Africa. The managers are aware of AID's minority-serving institution initiative and commend the agency for engaging Historically Black Colleges and Universities (HBCU) in its program for Africa. Consistent with these efforts, the managers encourage AID to consider up to \$700,000 for the implementation of a distance education doctoral degree initiative in collaboration with an HBCU that can offer advanced training in the areas of educational leadership, pharmacy, environmental sciences and engineering.

AMERICAN SCHOOLS AND HOSPITALS ABROAD

The conference agreement does not contain Senate language requiring that not less than \$15,000,000 shall be available only for

the American Schools and Hospitals Abroad (ASHA) program. However, the managers direct the Agency for International Development to fully uphold its commitment to the Appropriations Committees to obligate at least \$15,000,000 for the American Schools and Hospitals Abroad program in fiscal year 2000. It is the intention of the managers that the increase in funding for the Lebanon country program (addressed below under the heading "Lebanon") should not result in a decrease in funding that has been traditionally allocated to Lebanese educational institutions through the American Schools and Hospitals Abroad program provided under "Development Assistance".

PATRICK LEAHY WAR VICTIMS FUND

The conferees direct \$12,000,000 for medical, orthopedic, and related rehabilitative and preventive assistance for war victims, particularly those who have been severely disabled from landmines and other unexploded ordnance. Of this amount, up to \$10,000,000 is to be funded from the "Development Assistance" account and the "Economic Support Fund". The balance should be funded from Office of Transition Initiatives resources, and with funds from the demining budget of the "Nonproliferation, anti-terrorism, demining and related programs" account.

The managers note the great needs, especially for children, in Sierra Leone for medical, orthopedic, and related rehabilitative services as a result of civil war. The managers direct that not less than \$750,000 from this account be used for programs such as those carried out by UNICEF and other international organizations and non-governmental organizations with experience in addressing such needs.

As in previous years, the managers expect that any such programs to assist war victims should be designed and implemented in consultation with AID's manager of the Leahy War Victims Fund.

CYPRUS

The conference agreement includes language from the Senate amendment that provides that not less than \$15,000,000 shall be made available for Cyprus to be used only for scholarships, administrative support of the scholarship program, bicomunal projects, and measures aimed at reunification of the island and designed to reduce tensions and promote peace and cooperation between the two communities on Cyprus. Funds are to be derived from "Development Assistance" and "Economic Support Fund". The House bill did not contain a provision on this matter.

LEBANON

The conference agreement includes language similar to that from the Senate amendment that provides that not less than \$15,000,000 of the funds appropriated under "Development Assistance" and "Economic Support Fund" should be made available for Lebanon to be used, among other purposes, for scholarships and direct support of the American educational institutions in Lebanon. The Senate language is identical to the conference agreement, ex-

cept it would have required the allocation of these funds. The House bill did not address this matter.

The increase of \$3,000,000 for Lebanon is being provided for the direct support of the American educational institutions in that country. It is the intention of the managers that the increase in funding for the Lebanon country program should not result in a decrease in funding that has been traditionally allocated to Lebanese educational institutions through the American Schools and Hospitals Abroad program provided under "Development Assistance".

BURMA

The conference agreement includes language similar to that from the Senate amendment that provides that, of the funds made available under "Development Assistance", "Child Survival and Disease Programs Fund", and "Economic Support Fund", not less than \$6,500,000 shall be made available to support democracy activities in Burma, democracy and humanitarian activities along the Burma-Thailand border, and for Burmese student groups and other organizations located outside Burma. These funds are to be made available notwithstanding any other provision of law and shall be subject to the regular notification procedures of the Committees on Appropriations, as proposed by the Senate. Language proposed by the Senate that would have allocated not less than \$800,000 of these funds for certain specified activities is not included, nor is language providing that funds made available under this heading shall be subject to consultation and guidelines provided by the leadership of the Burmese government elected in 1990.

The House bill did not address this matter.

CAMBODIA

The conference agreement does not include language proposed by the Senate that would have prohibited funds for the Central Government of Cambodia until the Secretary of State determines and reports to the Committees on Appropriations and the Committee on Foreign Relations that the Government of Cambodia has established a tribunal consistent with the requirements of international law and justice and including the participation of international jurists and prosecutors for the trial of those who committed genocide or crimes against humanity and that the Government of Cambodia is making significant progress in establishing an independent and accountable judicial system, a professional military subordinate to civilian control, and a neutral and accountable police force. The funding restriction proposed by the Senate would not have applied to demining and other humanitarian programs.

The House did not address this matter under title II. The House provision on Cambodia, section 573 of the House bill, is included in modified form in the conference report under title V.

SOUTHEAST ASIA

The conference agreement does not include reservations of specific minimum funding allocations for Indonesia as proposed by the Senate. The House bill did not address this matter.

The managers support the highest possible level of assistance to promote the economic recovery of the Philippines, Thailand, and Indonesia from the Asian financial crisis. Effective support for private investment, better governance, and less corruption in these countries should be given a higher priority in development assistance and Economic Support Fund allocation decisions. The Accelerated Economic Recovery in Asia and United States-Asia Environmental Partnership programs should be augmented by specific efforts to retain existing major United States private sector investments in the region, especially in the infrastructure sector. The renewed security relationship between the Philippines and the United States provides additional justification for increased support to that country.

The managers encourage support for the democratic transition now underway in Indonesia. The managers recognize that humanitarian and economic assistance from many nations will be needed to enable East Timor to recover from the violence and destruction perpetrated by anti-independence forces following the referendum of August 30, 1999. The recovery of East Timor will also depend on the cooperation of its Indonesian neighbors. The conference agreement provides that not less than \$25,000,000 from the "Economic Support Fund" account should be made available for a United States contribution to the recovery of East Timor.

The managers suggest a modest program of assistance for the people of Vietnam, mostly for humanitarian activities. The managers urge AID to work with the U.S. Embassy to support a safety awareness campaign in Vietnam to reverse the increase in preventable accidents, especially those affecting children.

The managers continue to be concerned about the status of religious groups in Vietnam. The Secretary of State is requested to report to the Committees on Appropriations not later than six months after enactment of this Act on the extent to which the Socialist Republic of Vietnam is facilitating the following: (1) the operation of independent churches; (2) the return of church properties confiscated since 1974; (3) visits to the Supreme Patriarch of the Unified Buddhist Church of Vietnam by a delegation of American religious leaders and medical doctors; and (4) participation of democracy and human rights advocates in United States education and cultural exchange programs.

CONSERVATION FUND

The conference agreement does not include a provision from the Senate amendment mandating \$500,000 from "Development Assistance" for the Charles Darwin Research Station and the Charles Darwin Foundation. The House bill did not address this matter.

The managers direct that \$500,000 be provided from "Development Assistance" for research, training, and related activities to support conservation efforts in the Galapagos. Because AID has made plans to sustain a commitment to the Galapagos, the managers expect fiscal year 2000 to be the final year for congressional mandates.

CONFLICT RESOLUTION

The conference agreement does not include Senate language earmarking \$1,000,000 from “Economic Support Fund”, “Development Assistance”, and “Assistance for Eastern Europe and the Baltic States” accounts to support conflict resolution programs. However, the managers urge the State Department and AID to support such programs where appropriate. The managers especially commend Seeds of Peace, a widely respected organization which promotes understanding between Arab and Israeli teenagers, and Turkish and Greek Cypriot teenagers, and direct the Agency for International Development to provide up to \$861,000 to Seeds of Peace in fiscal year 2000.

PRIVATE AND VOLUNTARY ORGANIZATIONS

The conference agreement includes language from the House bill providing that funds appropriated for development assistance should be available to private and voluntary organizations at a level which is at least equivalent to the level provided in fiscal year 1995. The Senate amendment included similar language.

INTERNATIONAL DISASTER ASSISTANCE

The conference agreement appropriates \$202,880,000 for “International Disaster Assistance” instead of \$200,880,000 as proposed by the House and \$175,000,000 as proposed by the Senate. The managers note that Congress provided \$388,000,000 for this account in fiscal year 1999, including \$188,000,000 in emergency supplemental funds, and that AID expects to carry over into fiscal year 2000 the unobligated fiscal year 1999 balances. Further, the managers note that section 492(b) of the Foreign Assistance Act provides the President with the authority to obligate up to \$50,000,000 from other assistance accounts in order to provide disaster assistance, if necessary.

The conference agreement requires greater accountability on disaster assistance funds utilized in support of AID’s Office of Transition Initiatives (OTI). OTI activities have been effective in many countries, but the managers are increasingly concerned that scarce emergency disaster aid may be unavailable due to longer-term OTI commitments. Therefore, the conference agreement requires that AID submit a report to the Appropriations Committees not less than five days prior to initiating an OTI program in a country in which OTI did not operate in fiscal year 1999. The managers believe this reporting requirement will help ensure that the Appropriations Committees receive timely information regarding the nature of OTI programs so they can better evaluate these transition activities in the future.

The managers note that OTI may utilize funds from other development and economic accounts in addition to the Disaster Assistance account and expect AID to report on the country allocations of all funds under OTI management in the annual report required under section 653 of the Foreign Assistance Act beginning in fiscal year 2000.

MICRO AND SMALL ENTERPRISE DEVELOPMENT PROGRAM ACCOUNT

The conference agreement continues existing law regarding the level of guarantees provided in support of micro and small enterprise activities. The Senate amendment proposed making the guarantee level permanent law.

URBAN AND ENVIRONMENTAL CREDIT PROGRAM ACCOUNT

The conference agreement provides \$1,500,000 for subsidy budget authority for the Urban and Environmental Credit program as proposed by the Senate. In addition, the conference agreement appropriates \$5,000,000 for administrative expenses as proposed by the House, instead of \$4,000,000 as proposed by the Senate.

DEVELOPMENT CREDIT AUTHORITY PROGRAM ACCOUNT

The conference agreement provides up to \$3,000,000 for the cost of loans and loan guarantees for AID's Development Credit Authority (DCA) from funds transferred from existing development and economic accounts administered by AID. Up to \$500,000 of this amount may be transferred to and merged with AID's "Operating Expenses" account. The managers urge that programs in the Russian Far East be given priority. The House bill did not provide authority for a development credit program. The Senate amendment provided \$7,500,000 for this purpose.

The managers recognize the serious effort made by the Administration during the past two fiscal years to guarantee the financial integrity of the DCA, including the establishment of a credit review board to approve individual DCA loan and loan guarantee projects. However, the managers continue to be concerned about the larger development policy implications of AID conducting new loan and guarantee programs. Given the significant problems developing nations have experienced in repaying existing U.S. loans and the subsequent rescheduling and cancellation of these debts, the managers urge caution in extending new loans and guarantees.

OPERATING EXPENSES OF THE AGENCY FOR INTERNATIONAL DEVELOPMENT

The conference agreement appropriates \$520,000,000 instead of \$495,000,000 as proposed by the Senate and \$479,950,000 as proposed by the House. The conference agreement does not include language proposed by the Senate to extend the availability of these funds until September 30, 2001. Also, the conference agreement does not provide \$1,500,000 from Operating Expenses for the purchase of land in northern India as proposed by the Senate. The House bill contained no similar provision.

The conference agreement prohibits the use of funds in this account to finance the construction or long-term lease of offices for use by AID unless the administrator of AID reports in writing to the Appropriations Committees at least 15 days prior to the obligation of funds for such purposes. This reporting requirement applies only when the total cost of construction (including architect and engineering services), purchase, or lease commitment, exceeds

\$1,000,000. The House bill and the Senate amendment contained similar provisions.

The managers expect that \$15,000,000 from this account will be used only for costs associated with construction of a new AID mission in Dar es Salaam, Tanzania, as requested by the President in a budget amendment submitted to Congress on September 21, 1999, or for other overseas physical security requirements of the agency. Further, the managers endorse House Report No. 106-254 which directs AID to report to the Committees on Appropriations on the agency's long-term physical security needs around the world.

OTHER BILATERAL ECONOMIC ASSISTANCE

ECONOMIC SUPPORT FUND

The conference agreement appropriates \$2,345,500,000 instead of \$2,227,000,000 as proposed by the House and \$2,195,000,000 as proposed by the Senate. In addition, it provides not less than \$960,000,000 for Israel and not less than \$735,000,000 for Egypt as proposed by the Senate instead of not to exceed \$960,000,000 for Israel and not to exceed \$735,000,000 for Egypt as proposed by the House. The conference agreement also includes language providing that not less than \$200,000,000 of the funds appropriated for Egypt shall be used for Commodity Import Program assistance as proposed by the Senate. The House bill did not address this matter.

The conference agreement also includes language providing that not less than \$150,000,000 should be provided for Jordan as proposed by the Senate. The House bill did not address this matter.

The conference agreement also includes Senate language providing that, notwithstanding any other provision of law, not to exceed \$11,000,000 may be used to support victims of and programs related to the Holocaust. The House bill did not address this matter.

The conference agreement does not include language from the Senate amendment, not in the House bill, that would have prohibited funds appropriated under this heading from being made available to the Korean Peninsula Energy Development Organization.

The conference agreement also includes language that, notwithstanding any other provision of law, \$1,000,000 shall be made available to nongovernmental organizations located outside of the People's Republic of China to support activities which preserve cultural traditions and promote sustainable development and environmental conservation in Tibetan communities in that country. The managers are aware of the important work of the Bridge Fund in this regard, and strongly support funding for this organization.

Senate language under this heading that authorized \$10,000,000 for activities for Iraqi opposition groups is addressed under title V of the conference report.

The managers strongly support assistance programs for Yemen and urge the Department of State and the Agency for International Development to maintain and, if possible, enhance such programs.

The managers recognize the critical importance that water and energy policies play in the implementation of the Wye River Accord. Therefore they reiterate the support expressed in the House and Senate reports for the desertification program for the Middle

East and southern Mediterranean proposed by San Diego State University. The managers also support the Middle East Water and Energy Resource Institute's program to provide technical assistance and conduct research and education programs coordinated through the International Arid Lands Consortium.

The conference agreement includes language stating that not less than \$25,000,000 should be made available for assistance for East Timor.

The managers direct that \$5,000,000 in funding from this account be used to support the activities authorized under the Irish Peace Process Cultural and Training Program Act of 1998 (Public Law 105-319).

The managers direct \$2,000,000 to support the demobilization of the Estado Mayor Presidencial in Guatemala.

INTERNATIONAL FUND FOR IRELAND

The conference agreement appropriates \$19,600,000 for the International Fund for Ireland, as proposed by the House. The Senate amendment did not address this matter.

The conferees encourage the International Fund for Ireland (IFI) to consider direct funding of locally-based organizations dedicated to attracting investment to their municipalities and regions. In doing so, the conferees believe the IFI will further its goals of increasing domestic and international interest in continued cooperation and stability.

ASSISTANCE FOR EASTERN EUROPE AND THE BALTIC STATES

The conference agreement appropriates \$535,000,000 as proposed by the Senate instead of \$393,000,000 as proposed by the House.

The conference agreement also includes language stating that \$150,000,000 should be provided for Kosova. The Senate amendment had provided for six country earmarks which are not included in the conference agreement. The House bill did not address this matter.

The conference agreement also includes language that prohibits funds for Kosova until the Secretary of State certifies that the resources pledged by the United States at the upcoming Kosova donors conference shall not exceed 15 percent of the total resources pledged by all donors. In addition, language has been included stating that funds for Kosova shall not be made available for large scale physical infrastructure reconstruction.

In addition, the conference report includes Senate language that provides not more than \$130,000,000 for Bosnia and Herzegovina from the funds appropriated under this account and under "International Narcotics Control and Law Enforcement" and "Economic Support Fund". The House bill did not address this matter.

The conference agreement also includes House language prohibiting funds from being used for new housing construction or repair or reconstruction of existing housing in Bosnia and Herzegovina unless directly related to the efforts of United States

troops to promote peace in said country. The Senate amendment did not address this matter.

The conference agreement also includes language from the House bill that applies the provisions of section 532 ("Separate Accounts") to all funds provided under this heading, rather than just to funds made available for Bosnia and Herzegovina as proposed by the Senate. In addition, it includes language proposed by the House that authorizes the President to withhold funds for economic reconstruction programs in Bosnia and Herzegovina if he certifies that the Bosnian Federation is not complying with requirements in the Dayton Peace Accord to remove foreign forces, and has not terminated intelligence cooperation with Iranian officials. The Senate amendment did not address this matter.

ROMANIAN CHILDREN AND ORPHANS

The managers direct that up to \$4,400,000 be provided for emergency aid for the child victims of the present economic crisis in Romania. The program should be administered through, or in close coordination with, the Romanian Department of Child Protection. It should focus on supplemental food support and maintenance, support for in-home foster care, and supplemental support for special needs residential care.

ASSISTANCE FOR THE INDEPENDENT STATES OF THE FORMER SOVIET UNION

The conference agreement appropriates \$839,000,000 instead of \$725,000,000 as proposed by the House and \$780,000,000 as proposed by the Senate. The word "New" is deleted from the heading, as proposed by the House. The managers have included a ceiling on management costs for nuclear safety activities as proposed by the Senate and a limitation of 25 percent on the percentage of funds (other than for nonproliferation and disarmament programs) that may be allocated for any single country as proposed by the House.

The managers also encourage the Coordinator and AID to move as rapidly as possible to implement programs that focus on the social transition in the region as it affects ordinary citizens, to reward reform-oriented countries such as Moldova and Kyrgystan, and to accelerate the focus on regional efforts in reform-oriented secondary cities in Russia, Ukraine, and Kazakhstan.

RUSSIA-IRAN

The conference agreement continues the current restrictions on assistance to the Government of the Russian Federation as long as Russian enterprises and institutes continue to collaborate with Iran to increase Iranian capability to develop and deploy nuclear and ballistic missile technology. The managers agree that assistance to combat infectious diseases, child survival and non-proliferation activities, support for regional and municipal governments, and partnerships between United States hospitals, universities, judicial training institutions and environmental organizations and counterparts in Russia should not be affected by this subsection.

EXPANDED NONPROLIFERATION AND SECURITY COOPERATION

The managers note that \$241,000,000 from this account was requested by the President for threat reduction activities in the former Soviet Union. The managers encourage the Administration to provide the Foundation established by section 511 of the FREEDOM Support Act not less than the \$23,500,000 requested for this purpose.

The managers request that the Coordinator for Assistance to the Independent States of the Former Soviet Union provide written reports on the allocation, obligation, and disbursement of appropriations during fiscal year 2000 for expanded nonproliferation and security cooperation from this and prior year acts not later than December 15, 1999, March 15, 2000, and July 15, 2000. The reports should, at a minimum, compare the allocation and obligation of funds by project, activity, and country with comparable data contained in the April 1999 justification documents subsequently provided to the Committees, and explain in detail any circumstances that resulted in reductions or other changes from the original justification.

The managers are concerned that none of the assistance provided to Russia for security cooperation be used for the benefit of military units credibly reported to be engaged in combat activities against civilian populations in the Northern Caucasus region of the Russian Federation. The Secretary of State is requested to inform the Committees in writing of steps taken to prevent United States assistance benefiting such units of the armed forces of the Russian Federation.

MATERNAL AND INFANT HEALTH CRISIS

The conference agreement sets aside \$14,700,000 from funds provided under this title for maternal and infant health programs to begin the process of addressing the demographic crisis in Russia and the other independent states.

RUSSIAN FAR EAST

The conference agreement includes new language providing not less than \$20,000,000 for the Russian Far East. This matter was not addressed in the House bill or the Senate amendment. Under the heading "Development Credit Authority" in title II, the managers also directed that additional funds be made available to stimulate ventures in the Russian Far East led by American firms with expertise in primary industries, including natural resource development, telecommunications and basic infrastructure, finance, and consumer goods.

SOUTHERN CAUCASUS REGION

The managers support regional cooperation efforts among the countries of Armenia, Azerbaijan, and Georgia, including United States efforts through the Caucasus Cooperation Forum. To further regional cooperation, the conference agreement continues the current six exemptions from the statutory restrictions on assistance to the Government of Azerbaijan. The managers include a requirement that 15 percent of the funds available for the Southern

Caucasus region be used for confidence-building measures and other activities related to the resolution of regional conflicts instead of 17.5 percent as proposed by the House.

The conference agreement includes a provision that not less than 12.92 percent of the funds under this heading be made available for Georgia and not less than 12.2 percent for Armenia. Similar language was proposed by the Senate but not included in the House bill. The managers are concerned that little progress has been made to improve conditions in the regions of Armenia affected by the 1988 earthquake. The conferees direct the Coordinator and AID to allocate up to \$15,000,000 to support recovery and economic reconstruction initiatives in the regions most severely affected. In addition, at least \$25,000,000 of the funds made available for Georgia should be obligated for border security and law enforcement training.

The managers continue to support funding of the judicial reform initiatives in Georgia, but are aware of concerns regarding the legal rights of Loren Wille, an American working for Catholic Relief Services who was recently arrested in Georgia. The conferees urge the State Department to use the influence of the United States to ensure fairness and transparency in the treatment of Mr. Wille, and request a report from the Department no later than December 1, 1999, on the extent to which Mr. Wille's rights have been respected during the Georgian judicial process.

UKRAINE

The managers include bill language that \$180,000,000 should be made available for Ukraine instead of a mandatory \$210,000,000 as proposed by the Senate. The managers recommend \$25,000,000 for nuclear safety programs in Ukraine and up to \$10,000,000 for regional initiatives that include industrial study tours, technology business incubators, and community based telecommunications projects. The conference agreement does not include any provision withholding funds for Ukraine as proposed by the Senate.

The conference agreement does not include Senate language regarding the destruction of stockpiles of landmines in Ukraine. However, the managers strongly support the elimination of some 10 million mines stockpiled in Ukraine and Moldova that could otherwise be exported to areas of conflict and cause egregious harm to innocent civilians. The managers intend and expect that of the funds made available in this Act for Ukraine and Moldova, \$5,000,000 will be contributed to a multinational effort to destroy these landmines and similar munitions.

RUSSIAN LEADERSHIP PROGRAM

The conference agreement includes new language providing an additional \$10,000,000 to carry out the Russian Leadership Program enacted on May 21, 1999. The statutory authority is modified to extend the pilot program administered by the Library of Congress for 1 year and to postpone transfer of the program to the Executive branch by 1 year.

RUSSIAN ORPHANS

The conferees strongly support AID's new strategy for addressing the needs of Russian orphans and concur with the House report language on this matter. The managers are concerned about the immediate needs of orphans in some of the most economically disadvantaged parts of the Russian Federation, such as Magadan. The conferees encourage AID to supplement its orphan strategy by identifying reform-minded and committed orphanage and child welfare officials in those regions and developing a program to improve the basic conditions of orphans there.

MEDICAL ASSISTANCE

The conference agreement does not include a Senate earmark for Carelift International. However, the managers are aware that large amounts of used high-technology medical equipment no longer needed by American hospitals can be put to good use in the former Soviet Union and other regions unable to afford high-technology medical equipment. Carelift International and other organizations provide such equipment and provide training on its proper use and maintenance. The conferees expect AID to support such private initiatives in its social transition strategy for the Independent States and Central Europe and direct that \$3,000,000 be made available to Carelift International upon receipt of a detailed proposal.

MONGOLIA

The conference agreement retains authority for funds provided under this heading to be used in Mongolia. The amount provided for Mongolia from this heading is \$6,000,000. The remainder of the amount requested is to be made available from other accounts in title II of this Act, including not less than \$750,000 for child survival activities.

INDEPENDENT AGENCY

PEACE CORPS

The conference agreement appropriates \$245,000,000 instead of \$240,000,000 as proposed by the House and \$220,000,000 as proposed by the Senate.

DEPARTMENT OF STATE

INTERNATIONAL NARCOTICS CONTROL AND LAW ENFORCEMENT

The conference agreement appropriates \$305,000,000 instead of \$285,000,000 as proposed by the House for International Narcotics Control and Law Enforcement. The Senate amendment proposed \$215,000,000.

The conference agreement does not include the ceiling of \$20,000,000 on anti-crime activities within the account as proposed by the House. However, the agreement does require that all anti-crime programs are subject to the regular notification procedures of the Committees on Appropriations.

The conference agreement contains House language allowing the Department of State to utilize section 608 of the Foreign Assistance Act to receive excess property from other U.S. federal agencies for use in a foreign country. The Senate amendment did not address this matter.

The conference agreement provides that not less than \$10,000,000 should be available for Law Enforcement Training and Demand Reduction, which is similar to the Senate amendment. The House did not address this matter. The managers urge up to \$4,000,000 of this amount be for demand reduction programs.

The conference agreement contains \$5,000,000 to establish and operate the International Law Enforcement Academy for the Western Hemisphere at Roswell, New Mexico as proposed by the Senate. The House bill did not address this matter. Given the proximity of the United States to Latin America, it is appropriate for such a center to be located in the United States. The managers are frustrated by the Department of State's seeming unwillingness to cooperate in this matter and direct the Department to establish the training center at Roswell.

The conference agreement does not contain a Senate amendment providing not less than \$10,000,000 for mycoherbicide counter drug research and development. The House did not address this matter. However, the managers recognize that the development of plant pathogens which are capable of destroying illicit drug crops, including opium poppy, coca and marijuana, offer a potential weapon for United States counter-narcotics efforts. The managers understand that all current funding requirements have been met for fiscal years 1999 and 2000. Consistent with the position taken in the fiscal year 1999 supplemental appropriations conference report, the managers recommend that the responsibility for this funding should be assumed by the Office of the National Drug Control Policy to support any additional future needs for counterdrug research and development for the following: mycoherbicide product research and development; narcotic crop eradication technologies; narcotic plant identification and biotechnology; worldwide narcotic crop identification; and alternative crop research and development.

The managers are concerned about the deteriorating conditions in Colombia. In 1998, 308,000 Colombians were internally displaced and during the past decade 35,000 Colombians have been killed in the violence between government forces, paramilitaries, and the FARC and ELN. The managers commend President Pastrana for his efforts to end this protracted conflict. The managers encourage the Department of State and other Executive agencies to continue their efforts to assist President Pastrana and the Colombian government toward a peaceful resolution of this conflict.

The managers affirm House Report No. 106-254 and Senate Report No. 106-81 regarding counter-narcotics programs and encourage the Assistant Secretary of State for International Narcotics Control and Law Enforcement to develop a comprehensive proposal to upgrade helicopter lift capability for anti-drug operations in Latin America.

Given the instability in the region, the managers have been concerned by the consistently low levels of support during the past

several years provided to the Government of Ecuador in its efforts to stem the flow of drugs transiting through Ecuador from both Colombia and Peru. Therefore, the managers direct the State Department Bureau of International Narcotics Control and Law Enforcement to provide a report, 60 days after the date of enactment, on its revised plans to assist Ecuador in improving its counter-narcotics efforts. Further, the managers expect that all funds in this Act designed to support Ecuador's joint regional economic development program with Peru be informed in advance to the Committees on Appropriations.

Because of budgetary limitations, \$21,000,000 of the amount provided under this heading and \$21,000,000 provided under the heading "Migration and Refugee Assistance" is withheld from obligation until September 30, 2000. Both programs were augmented by sizable supplemental appropriations during fiscal year 1999.

MIGRATION AND REFUGEE ASSISTANCE

The conference agreement appropriates \$625,000,000, instead of \$640,000,000 as proposed by the House bill and \$610,000,000 as proposed in the Senate amendment. The conference agreement makes available \$13,800,000, as proposed in the House bill, for administrative expenses. The Senate amendment proposed \$13,500,000.

The conference agreement also includes Senate language, not included in the House bill, that provides not less than \$60,000,000 for refugees from the former Soviet Union and Eastern Europe and other refugees resettling in Israel.

UNITED STATES EMERGENCY REFUGEE AND MIGRATION ASSISTANCE FUND

The conference agreement appropriates \$12,500,000 instead of \$30,000,000 as proposed by the House and \$20,000,000 as proposed by the Senate.

NONPROLIFERATION, ANTI-TERRORISM, DEMINING AND RELATED PROGRAMS

The conference agreement appropriates \$216,600,000 instead of \$181,630,000 as proposed by the House and \$175,000,000 as proposed by the Senate.

The conference agreement also includes language proposed by the House, that was not in the Senate amendment, that authorizes a United States contribution to the Comprehensive Nuclear Test Ban Treaty Preparatory Commission, and requires that the Secretary of State must inform the Committees on Appropriations at least 20 days prior to the obligation of funds for such Commission.

The conference agreement includes language similar to that proposed by the Senate, that was not in the House bill, that provides that \$40,000,000 should be used for demining, clearance of unexploded ordnance and related activities, and that not to exceed \$500,000 may be used for related administrative expenses.

The conference agreement does not include language from the Senate amendment that limited funding for the contribution to the International Atomic Energy Agency (IAEA) to \$40,000,000.

Funding limitations affecting the Korean Peninsula Economic Development Organization (KEDO) are addressed under title V of this statement and accompanying conference report.

The managers intend that funds appropriated under this heading be allocated as follows:

[In thousands of dollars]

Program	House	Senate	Conference
Nonproliferation and Disarmament Fund	15,000	15,000	15,000
Export control asst	5,000	5,000	15,000

KEDO	35,000	40,000	35,000
Anti-terrorism asst	33,000	20,000	33,000

DEPARTMENT OF THE TREASURY

INTERNATIONAL AFFAIRS TECHNICAL ASSISTANCE

Both the House and the Senate provided \$1,500,000 for the International Affairs Technical Assistance program of the Department of the Treasury. The managers encourage the Administration to meet the requested level for this program by transferring funds to the Department of the Treasury from other funds appropriated in title II of this Act.

DEBT RESTRUCTURING

The conference agreement includes \$123,000,000 of the \$320,000,000 requested by the President on September 21, 1999, for bilateral debt restructuring instead of \$33,000,000 as proposed by the House and \$43,000,000 as proposed by the Senate. The \$123,000,000 includes at least \$13,000,000 for implementation of the Tropical Forest Conservation Act.

The managers urge the Department of the Treasury to consider debt forgiveness for these countries only as a final option. Debt forgiveness reflects the inability of some nations to repay existing loans. This issue raises the urgent need to establish new benchmarks or conditions prior to initiating new lending. The managers expect that debt relief will be made available only to the poorest nations pursuing market-based economic reform and which commit to dedicate freed-up resources to improving health care, infrastructure, education and other pressing domestic needs. None of the funds in this account may be used to provide debt relief for any country that is engaged in offensive military action since any such relief would likely be used to facilitate the purchase of lethal weapons or to otherwise increase military expenditures.

The managers urge caution regarding new lending within the next five years to governments benefiting from debt forgiveness. The managers anticipate that legislation detailing the actual implementation of proposed debt restructuring involving United States payment of debts owed by heavily indebted poor countries to inter-

national and multilateral financial institutions will have been enacted separately and hearings on the President's request of September 21, 1999, held by the Committees on Appropriations prior to consideration of additional appropriations for debt restructuring.

The managers endorse language in House Report No. 106-254 regarding reports to the Committees on Appropriations on the use of funds in this account and intend to work with the Treasury Department to ensure this information is made available to the Committees without undue burden on the Department.

The managers expect that beginning with the fiscal year 2001 budget submission, the value of debt relief provided in the previous fiscal year for each country will be reported to Congress in all relevant presentation documents and summary tables. Further, the managers encourage the Treasury Department to undertake a review of United States lending policies to nations considered for debt relief and request a report to the Committees on Appropriations not later than March 1, 2000, regarding future bilateral lending, including the conditions under which any new lending could take place.

UNITED STATES COMMUNITY ADJUSTMENT AND INVESTMENT PROGRAM

The conference agreement appropriates \$10,000,000 for the United States Community Adjustment and Investment Program, a domestic program affiliated with the North American Development Bank. The House bill and Senate amendment did not address this matter.

TITLE III—MILITARY ASSISTANCE

INTERNATIONAL MILITARY EDUCATION AND TRAINING

The conference agreement appropriates \$50,000,000 as proposed by the Senate instead of \$45,000,000 as proposed by the House. It also provides that up to \$1,000,000 may remain available until expended as proposed by the House; the Senate amendment did not address this matter.

The conference agreement also includes language proposed by the House that limits Guatemala and Indonesia to Expanded IMET only, and provides for regular notification procedures for funds allocated for Guatemala as proposed by the House. The Senate amendment would have limited Guatemala to Expanded IMET only, but did not address funding for Indonesia and did not require notification for Guatemala.

The conference agreement also includes language from the House bill providing that funding for the School of the Americas is contingent upon a certification by the Secretary of Defense that the instruction provided by the School is fully consistent with training provided by the Department of Defense to United States military training students at U.S. military institutions. It also includes House language requiring a report by the Secretary of Defense on training activities at the School of the Americas during 1997 and 1998.

The Senate amendment did not address these matters.

FOREIGN MILITARY FINANCING PROGRAM

The conference agreement appropriates \$3,420,000,000 instead of \$3,470,000,000 as proposed by the House and \$3,410,000,000 as proposed by the Senate. In addition, it includes language proposed by the Senate that provides not less than \$1,920,000,000 for grants for Israel and not less than \$1,300,000,000 for grants for Egypt instead of not to exceed \$1,920,000,000 for Israel and not to exceed \$1,300,000,000 for Egypt as proposed by the House.

The conference agreement also includes language similar to that proposed by the Senate providing that not less than 26.3 percent of the funds made available for Israel shall be available for procurement in Israel. The House bill included language stating that not to exceed \$505,000,000 should be made available for such procurement.

The conference agreement also includes House language providing that no Partnership for Peace funds may be made available to a non-NATO country except through the regular notification procedures of the Committees on Appropriations. The Senate amendment did not address this matter.

The conference agreement does not include language proposed by the Senate that would have allowed direct loans to be converted to grants, and grants to direct loans. The House bill did not address this matter.

The conference agreement provides not less than \$3,000,000 in grant assistance for Tunisia and directs the drawdown of not less than \$4,000,000 in defense articles, defense services, and military education and training. The Senate amendment would have directed \$10,000,000 for Tunisia. The House bill did not address this matter.

The conference agreement also includes language providing up to \$1,000,000 for Ecuador, subject to the regular notification procedures of the Committees on Appropriations.

The conference agreement provides a ceiling of \$30,495,000 for administrative expenses as proposed by the House instead of \$30,000,000 as proposed by the Senate.

The conference agreement also includes language directing that, forty-five days after enactment, the Secretary of Defense shall report to the Committees on Appropriations regarding an appropriate host institution to support and advance the efforts of the Defense Institute for International and Legal Studies in both legal and political education. The Senate amendment would have provided not less than \$1,000,000 for the Defense Institute of International Studies for various activities under "International Military Education and Training". The House bill did not address this matter.

The conference agreement does not include an earmark of \$5,000,000 for the Philippines. However, the managers are strongly supportive of efforts to increase defense cooperation with that nation and are aware the Administration provided \$1,000,000 in grant funds for the Philippines in fiscal year 1999.

PEACEKEEPING OPERATIONS

The conference agreement appropriates \$153,000,000 instead of \$76,500,000 as proposed by the House and \$80,000,000 as proposed by the Senate.

TITLE IV—MULTILATERAL ECONOMIC ASSISTANCE

INTERNATIONAL FINANCIAL INSTITUTIONS

GLOBAL ENVIRONMENT FACILITY

The conference agreement appropriates \$35,800,000 for the Global Environment Facility instead of \$50,000,000 as proposed by the House and \$25,000,000 as proposed by the Senate.

CONTRIBUTION TO THE INTERNATIONAL DEVELOPMENT ASSOCIATION

The conference agreement appropriates \$775,000,000 instead of \$776,600,000 as proposed by the Senate and \$568,600,000 as proposed by the House.

CONTRIBUTION TO THE MULTILATERAL INVESTMENT GUARANTEE AGENCY

The conference agreement appropriates \$4,000,000 for paid-in capital issued by the Multilateral Investment Guarantee Agency instead of \$10,000,000 as proposed by the Senate. The House bill did not include any appropriation for this purpose. Approval for subscription to the appropriate amount of callable capital is also included in the conference agreement.

CONTRIBUTION TO THE INTER-AMERICAN INVESTMENT CORPORATION

The conference agreement appropriates \$16,000,000 in paid-in capital for the Inter-American Investment Corporation. The House bill and the Senate amendment did not contain any appropriation for this purpose.

The Inter-American Investment Corporation began operations in 1989 to promote the economic development of its Latin American and Caribbean member countries through co-financing and syndication, supporting security underwritings, and identifying joint venture partners for small and medium-size private enterprises.

CONTRIBUTION TO THE ASIAN DEVELOPMENT FUND

The conference agreement appropriates \$77,000,000 for the Asian Development Fund instead of \$50,000,000 as proposed by the Senate and \$100,000,000 as proposed by the House. The entire amount is for contributions previously due.

The Committees anticipate providing in subsequent acts additional appropriations requested for the Asian Development Fund, with the understanding that the senior management of the Asian Development Bank fully implements its anti-corruption policy and finalizes its private sector and poverty alleviation strategies.

CONTRIBUTION TO THE AFRICAN DEVELOPMENT BANK

The conference agreement appropriates \$4,100,000 for paid-in capital issued by the African Development Bank instead of \$5,100,000 as proposed by the Senate. The House bill did not include an appropriation for this purpose. Approval for subscription to \$64,000,000 in callable capital is also included in the conference agreement. No later than February 15, 2000, the Committees request the Secretary of the Treasury to provide an original, comprehensive evaluation of the financial outlook for the Bank, based on the appropriations provided in this Act. The evaluation may include such other assumptions that the Secretary may select and, as attachments, the most recent private credit evaluations of the Bank.

CONTRIBUTION TO THE AFRICAN DEVELOPMENT FUND

The conference agreement appropriates \$128,000,000 for the African Development Fund instead of \$108,000,000 as proposed by the House. The Senate amendment did not include any appropriation for this purpose.

INTERNATIONAL ORGANIZATIONS AND PROGRAMS

The conference agreement provides \$183,000,000. The House bill appropriated \$167,000,000 and the Senate amendment proposed \$170,000,000.

The conference agreement does not contain a provision in the House bill regarding the Climate Stabilization Fund. The Senate amendment did not address this matter.

The conference agreement continues current law indicating that \$5,000,000 should be made available for the World Food Program, which is similar to the Senate amendment. The House bill did not address this matter.

TITLE V—GENERAL PROVISIONS

(NOTE.—If House and Senate language is identical except for a different section number or minor technical differences, the section is not discussed in the Statement of Managers.)

Sec. 502. Prohibition of bilateral funding for international institutions

The conference agreement modifies existing law to prohibit funds from title II of this Act to be transferred by AID directly to an international financial institution for the purpose of repaying a foreign country's loan obligations, as proposed by the House. The Senate amendment made no change to existing law.

Sec. 509. Transfers between accounts

The conference agreement deletes the requirement for the President to notify the Appropriations Committees, through their regular notification procedures, when exercising the transfer authority provided under the section.

Sec. 512. Limitation on assistance to countries in default

The conference agreement ends the exemption for Nicaragua, Brazil, and Liberia from requirements under section 620(q) of the Foreign Assistance Act and under this section regarding default on loans made by the U.S. This language is the same as the Senate amendment. The House bill retained the exemption for these countries.

Sec. 514. Surplus commodities

The conference agreement deletes subsection (b) of the House general provision, as proposed by the Senate. This subsection would have required the Secretary of the Treasury to direct the U.S. executive directors of the international financial institutions to support the purchase of American produced agricultural commodities.

Sec. 515. Notification requirements

The conference agreement deletes “International Affairs Technical Assistance” from the notification requirements under this section as proposed by the House.

Sec. 520. Special notification requirements

The conference agreement adds “Panama” as proposed by the House bill to the list of countries subject to the special notification procedures of this section. The conference agreement does not include “India” as proposed in the Senate amendment.

Sec. 522. Child survival and disease prevention activities

The conference agreement modifies existing law to clarify the intent of this section that allows AID to use \$10,000,000 appropriated under the “Child Survival and Disease Programs Fund” for technical experts from other government agencies, universities, and other institutions. Since Congress established a separate Child Survival and Disease Programs account in 1996, the previous language has been obsolete. The conference agreement is similar to the House provision, but includes new language regarding the use of up to \$1,500,000 from the “Development Assistance” account for technical experts.

Sec. 526. Democracy in China

The conference agreement contains language from the House bill that authorizes the use of funds from “Economic Support Fund” for the support of nongovernmental organizations located outside of China for the support of democracy activities, and requires notification on the use of this authority. The Senate amendment did not address this matter.

The conference agreement also allows for funding for the National Endowment for Democracy (NED) or its grantees notwithstanding any other provision of law and notwithstanding the first proviso of this section. The intent of this language is to allow for the continuation of a program promoting democratic village elections and for related activities that is currently being conducted by a NED grantee. It is not intended to provide authority for the initiation of major new programs in China.

The conference agreement includes language that provides, notwithstanding any other provision of law that restricts assistance to foreign countries, \$1,000,000 from the Economic Support Fund shall be made available to the Robert F. Kennedy Memorial Center for Human Rights for a project to disseminate information and support research about the People's Republic of China.

Sec. 537. Funding prohibition for Serbia

The conference agreement includes House language that prohibits assistance for Serbia, except for aid to Kosova or Montenegro or to promote democracy. The Senate amendment did not address this matter.

Sec. 538. Special authorities

The conference agreement includes language proposed by the House that allows for funding from appropriations under title I for certain specified countries and activities, and for Montenegro, notwithstanding any other provision of law. The Senate amendment did not include these exemptions. It also includes language not in the House bill but in the Senate amendment that conditions assistance for Cambodia on the provisions of section 531(e) of the Foreign Assistance Act of 1961 and section 906 of the International Security and Development Cooperation Act of 1985.

The conference agreement also includes House language that authorizes the President to waive for six months a provision of Public Law 100–204, if he determines and certifies that doing so is important to the national security interests of the United States. The Senate amendment did not address this matter.

Sec. 539. Policy on terminating the Arab League boycott of Israel

The conference agreement contains House language on this matter. The Senate amendment did not include subsections (2) and (3) of the House general provision, dealing with the decision by the Arab League to reinstate the boycott in 1997, and calling on the League to immediately rescind its decision; and deleted language from subsection (4)(C) regarding a report on the specific steps that should be taken by the President to “expand the process of normalizing ties between Arab League countries and Israel”.

Sec. 540. Anti-narcotics activities

The conference agreement contains House bill language waiving certain provisions of section 534 of the Foreign Assistance Act to allow for administration of justice programs in Latin America and the Caribbean. The Senate amendment contained a similar provision.

Sec. 541. Eligibility for assistance

The conference agreement includes language regarding eligibility of assistance provided under this Act, as proposed by the House bill. The conference agreement does not include a modification, as proposed in the Senate amendment, regarding the prohibition on assistance to countries that violate internationally recognized human rights.

Sec. 544. Prohibition on publicity or propaganda

The conference agreement maintains current law limiting to \$750,000 the amount that may be made available to carry out the provision of section 316 of Public Law 96-533 relating to hunger and development education as proposed by the Senate amendment. The House bill provided no funding limitation. The managers expect AID to select the recipients of these grants through a public competition during fiscal year 2000.

Sec. 545. Purchase of American-made equipment and products

The conference agreement includes language proposed in the Senate amendment directing the Secretary of the Treasury to report annually to Congress on compliance with this provision.

Sec. 546. Prohibition of payments to United Nations members

The conference agreement modifies current law to prohibit the use of certain funds to pay the cost for attendance for another country's delegation at international conferences held under the auspices of multilateral or international organizations. This is similar to the House bill. The Senate amendment included a similar provision.

Sec. 549. Prohibition on assistance to foreign governments that export lethal military equipment to countries supporting international terrorism

The conference agreement includes the Senate version of this general provision, which is the same as House language except that under subsection (a) the reference to "any other comparable provision of law" is deleted and under subsection (c) the word "estimated" is deleted.

Sec. 552. War crimes tribunals drawdown

The conference agreement includes Senate language that authorizes a Presidential drawdown of up to \$30,000,000 of commodities and services for the United Nations War Crimes Tribunal for the former Yugoslavia or similar tribunals or commissions. It also specifies that such drawdowns are subject to the notification process and that drawdowns made under this section shall not be construed as an endorsement or precedent for the establishment of any standing or permanent international criminal tribunal or court. The House bill included similar language, but would not have exempted the tribunals for Yugoslavia and Rwanda from the notification requirements of the provision as in the Senate amendment.

Sec. 553. Landmines

The conference agreement includes language that amends section 1365(c) of the National Defense Authorization Act for Fiscal Year 1993 (Public Law 102-484) by extending until October 23, 2003, the ban on the export of landmines.

Sec. 555. Prohibition on payment of certain expenses

Section 555 prohibits the use of funds from "International Military Education and Training"; "Foreign Military Financing"; "Child Survival and Disease Programs Fund"; "Development Assistance";

and “Economic Support Fund” to pay for alcoholic beverages or entertainment expenses of a substantially recreational character.

Sec. 556. Competitive pricing for sales of defense articles

The conference agreement includes language from the Senate amendment that provides that direct costs associated with meeting a foreign customer’s additional or unique requirements will continue to be allowable under the Arms Export Control Act. The House bill did not address this matter.

Sec. 559. Limitation on assistance for Haiti

The conference agreement includes language similar to that proposed by both Houses. It sunsets the required reports after two years as proposed by the House and includes a provision limiting the percentage of funds that can be allocated to any single Latin American or Caribbean country. The latter limitation is a separate general provision in current law and in the House bill. The limitation was not included in the Senate amendment.

Sec. 563. Limitation on assistance to the Palestinian Authority

The conference agreement includes House language that prohibits funds for the Palestinian Authority unless the President certifies that waiving such prohibition is important to the national security interests of the United States. Such waiver shall apply no more than 6 months and shall not apply beyond 12 months after enactment. The Senate amendment did not address this matter.

Sec. 565. Limitations on transfer of military equipment to East Timor

The conference agreement includes language from the Senate amendment that requires that in any agreement for military assistance or sales a statement shall be included that the items will not be used in East Timor. The House language included a proviso that stated nothing in this section shall be construed to limit Indonesia’s inherent right to self-defense as recognized under the UN charter and in international law, and that military sales, assistance, or lease agreements include the statement that the United States “expects” that the military assistance will not be used in East Timor.

The conferees direct the Secretary of State, in consultation with the Secretary of Defense and other appropriate agencies, to submit a report to the Committees on Appropriations not later than February 1, 2000, identifying all Indonesian commanding officers and units deployed in East Timor during 1999, and providing any available information linking those officers and units to the violence prior to and after the August 30, 1999 referendum in East Timor. Such report may be provided in classified form, if appropriate.

Sec. 566. Restrictions on assistance to countries providing sanctuary to indicted war criminals

The conference agreement includes language similar to that of the House bill. It substitutes the word “municipality” for “canton”, includes a special rule that allows for assistance to an entity that

would otherwise be sanctioned under the terms of this section, and imposes certain recordkeeping requirements on the Secretary of State. The Senate amendment would have made a number of technical and substantive changes to the House bill, including: establishment of a policy for support of the International Criminal Tribunal for the former Yugoslavia; establishment of a special rule exempting certain specified entities and communities from sanctions under certain provisions of this section; a requirement for public information regarding certain assistance provided to the countries in the former Yugoslavia; and a provision for certain exemptions by types of assistance. The conference agreement defines “Montenegro” and “Kosova” separately for purposes of applying this provision of law.

Sec. 568. Greenhouse gas emissions

The conference agreement includes a modification of current laws as proposed by the House, primarily to obtain more detailed information from AID in an annual report submitted by the President.

Sec. 569. Excess defense articles for certain European countries

The conference agreement includes language from the Senate amendment that extends a provision of permanent law that expired in 1997 through 2000. The law authorizes the provision of excess defense articles to certain European countries. The House bill did not address this matter.

Sec. 570. Aid to the Government of the Democratic Republic of Congo

The conference agreement prohibits any assistance to the central Government of the Democratic Republic of Congo as proposed in the Senate amendment. The House bill included a similar provision.

Sec. 571. Assistance for the Middle East

The conference agreement contains language similar to the House bill that imposes a spending ceiling of \$5,321,150,000 on specified assistance in titles II and III of this Act for the Middle East. The Senate amendment did not address this matter.

Sec. 572. Enterprise Fund restrictions

The conference agreement includes language in the House bill that was not in the Senate amendment that requires that, prior to the distribution of any assets resulting from any liquidation, dissolution, or winding up of an Enterprise Fund, in whole or in part, the President shall submit a plan for the distribution of the assets of the Enterprise Fund to the Committees on Appropriations in accordance with regular notification procedures.

Sec. 573. Cambodia

The conference agreement includes language that prohibits funds for the central Government of Cambodia and states that the Secretary of the Treasury should instruct the Executive Directors of international financial institutions to use the voice and vote of

the United States to oppose loans to that government. The House bill contained similar language, but would have imposed the funding prohibition on all government assistance. The Senate amendment would have required the Secretary of the Treasury to instruct U.S. executive directors of international financial institutions to use the voice and vote of the U.S. to oppose loans to the Government of Cambodia, except to support basic human needs, unless: (1) Cambodia has held free and fair elections; (2) all political candidates were permitted freedom of speech, assembly, and equal access to the media; (3) the Central Election Commission was comprised of representatives from all parties, and (4) the Government had begun the prosecution of Khmer Rouge leaders to include six named individuals. The Senate also addressed this matter under title II.

It is the intention of the managers that if the Administration proposes to provide assistance to or through provincial or municipal governments in Cambodia it will first consult with the appropriate committees of the Congress prior to the obligation of funds.

Sec. 574. Customs assistance

The conference agreement amends the Foreign Assistance Act of 1961 regarding the prohibition on the use of certain bilateral assistance for police training by allowing assistance to foreign customs authorities and personnel, including training, technical assistance, and equipment for customs law enforcement. The conference agreement is identical to the Senate amendment. The House bill did not address this matter.

The managers expect this authority to be exercised to support U.S. private sector trade and investment opportunities.

Sec. 575. Foreign military training report

The conference agreement includes language similar to that in the House bill requiring a joint report by the Secretary of State and the Secretary of Defense on all overseas military training (excluding military sales) provided to non-NATO foreign military personnel under programs administered by the Departments of Defense and State during 1999 and 2000, including those proposed for 2000. The language specifies the scope of the report, and allows for a classified annex, if deemed necessary and appropriate. The report shall be due no later than March 1, 2000. The Senate amendment included similar language, but did not provide for an exemption for NATO countries.

Sec. 576. Korean Peninsula Energy Development Organization (KEDO)

The conference agreement includes language similar to that in the House bill that up to \$15,000,000 may be made available for KEDO prior to June 1, 2000, if, 30 days prior to such obligation of funds, the President certifies and so reports to Congress that (1) the parties to the Agreed Framework have taken and continue to take demonstrable steps to implement the Joint Declaration on Denuclearization of Korea; (2) the parties have taken and continue to take demonstrable steps to pursue the North-South dialogue; (3) North Korea is complying with all provisions of the Agreed Frame-

work; (4) North Korea has not diverted assistance for purposes for which it was not intended; and (5) North Korea is not seeking to develop or acquire the capability to enrich uranium, or any additional capability to reprocess spent nuclear fuel. In addition, up to \$20,000,000 may be made available for KEDO on or after June 1, 2000, if, 30 days prior to the obligation of such funds, the President certifies and so reports to Congress that (1) the effort to can and safely store all spent fuel from North Korea's nuclear reactors has been successfully concluded; (2) North Korea is complying with its obligations regarding access to suspect underground construction; (3) North Korea has terminated its nuclear weapons program, including all efforts to acquire, develop, test, produce, or deploy such weapons, and (4) the United States has made and continues to make significant progress on eliminating the North Korean ballistic missile threat, including further missile tests and its ballistic missile exports. The language allows for the President to waive the certification requirements of this section if he determines that it is vital to the national security interests of the United States, 30 days after a written submission to the appropriate congressional committees. It also requires a report from the Secretary of State on the fiscal year 2001 budget request for KEDO, with certain specified information to be included in such report.

The House bill contained identical language, except it did not allow for the use of certain authorities of the Foreign Assistance Act to provide for a reprogramming of funds above the level of \$35,000,000 specified for KEDO.

The Senate amendment contained language similar to the House bill. In addition, it required a report from the Director of Central Intelligence on all relevant intelligence bearing on North Korea's compliance with the above provisions; specified the timing of the report; and specified the types of intelligence covered by the report.

Sec. 577. African Development Foundation

The conference agreement provides that funds to grantees of the Foundation may be invested pending expenditure and that interest earned must be used for the same purpose for which the grant was made. Further, this section allows the Foundation's board of directors, in exceptional circumstances, to waive the existing \$250,000 project limitation, subject to reporting to the Committees on Appropriations. This section is identical to the House bill. The Senate amendment included these same authorities within its "Development Assistance" account.

Sec. 578. Prohibition on assistance to the Palestinian Broadcasting Corporation

The conference agreement includes House language not in the Senate amendment that provides that none of the funds made available by this Act may be used to provide equipment, technical support, consulting services, or any other form of assistance to the Palestinian Broadcasting Corporation.

Sec. 579. Voluntary separation incentives for employees of the U.S. Agency for International Development

The conference agreement provides for the payment of voluntary separation incentives to AID employees for the purpose of eliminating positions and functions at AID. The conference agreement is similar to the Senate amendment. The House bill did not address this matter.

The managers have included in this section a requirement that the AID administrator submit to the Committees on Appropriations, in addition to the Office of Management and Budget, a strategic plan outlining the intended use of incentive payments and a proposed organizational chart for AID once such incentive payments have been completed. The managers direct that AID consult regularly with the Committees on Appropriations on the strategic plan prior to implementing the separation program authorized by this section. Consistent with the Administration's request, the managers expect this authority to be used by AID to reduce its employment levels in Washington, D.C.

Sec. 580. Iraq opposition

The conference report includes language similar to that in the House bill and the Senate amendment that, notwithstanding any other provision of law, \$10,000,000 shall be made available to support efforts to bring about a political transition in Iraq, of which not less than \$8,000,000 shall be made available only to Iraqi opposition groups designated under the Iraq Liberation Act (Public Law 105-338), for political, economic, humanitarian, and other activities of such groups. It also provides that not more than \$2,000,000 of such funds may be made available for groups and activities seeking the prosecution of Saddam Hussein and other Iraqi government officials for war crimes.

The conference agreement does not contain Senate language providing \$250,000 for the Iraq Foundation. However, the conferees believe that the Foundation should receive funding made available by this Act for activities associated with pursuing war crimes.

Sec. 581. Agency for International Development budget submission

The conference agreement instructs the Agency for International Development to submit its 2001 budget in a format more useful to the Committees as proposed by the House. The Senate did not address this matter. AID is also requested to provide to the Committees not later than 45 days after enactment of this Act a report identifying each program, project, or intermediate result funded from appropriations provided under the heading "Development Assistance" for which the unexpended pipeline on October 1, 1999, exceeded either \$15,000,000, or the total amount expended for each such program, activity, or intermediate result in fiscal years 1998 and 1999.

Sec. 582. American churchwomen in El Salvador

The conference agreement includes language regarding the murder of four American churchwomen in El Salvador. The conference agreement requires a report from the Attorney General to the Committees on Appropriations and requires the President to

order all Federal agencies and departments that possess relevant information to make every effort to declassify and release that information to the victims' families. The House bill and Senate amendment included similar provisions.

Sec. 583. Kyoto Protocol

The conference agreement includes language regarding the Kyoto Protocol to the Framework Agreement on Global Climate Change as proposed by the House. The Senate amendment did not address this matter.

Sec. 584. Additional requirements relating to stockpiling of defense articles for foreign countries

The conference agreement includes language from the Senate amendment not in the House bill that amends the Foreign Assistance Act of 1961 to provide authority to increase the war reserve stockpiles in Korea and Thailand by \$60,000,000 for fiscal year 2000.

Sec. 585. Russian leadership program

The conference agreement includes new language amending the statutory authority for the Russian Leadership Exchange Program.

Sec. 586. Abolition of the Inter-American Foundation

The conference agreement provides authority from the President to abolish the Inter-American Foundation and terminate its functions. The House bill and Senate amendment did not address this matter.

Sec. 587. West Bank and Gaza Program

The conference agreement includes language that provides that, 30 days prior to the initial obligation of funds for the bilateral West Bank and Gaza Program, the Secretary of State shall certify to the appropriate committees of Congress that procedures have been established to assure the Comptroller General of the United States will have access to appropriate United States financial information in order to review the uses of United States assistance for the programs funded under "Economic Support Fund" for the West Bank and Gaza Program.

The Senate amendment included language that specified requirements for auditing assistance that may be provided to the Palestinian Authority. The House bill did not address this matter.

Sec. 588. Human rights assistance

The conference agreement includes language providing recommendations on the use of funds available from the "International Narcotics Control" account. The language states that not less than \$500,000 should be provided to the Colombia Attorney General's Human Rights unit; not less than \$500,000 should be made available to support Colombian nongovernmental organizations involved in human rights monitoring, particularly to assist in protecting the physical safety of their personnel; and not less than \$250,000 should be made available to the United Nations High

Commissioner for Human Rights for human rights assistance for the Colombian government. Further, not less than \$1,000,000 should be provided for assistance to enhance U.S. embassy monitoring of assistance to Colombian security forces and in responding to reports of human rights violations. The conference agreement also includes language that not less than \$5,000,000 should be made available for administration of justice programs, including support for the Colombia Attorney General's Technical Investigations Unit. The managers direct the Department of State's Bureau for International Narcotics Control and Law Enforcement Affairs to report to the Committees on Appropriations not later than January 15, 2000, regarding its plans to meet the requirements of this section.

Sec. 589. Indonesia

The conference agreement includes new language that conditions the obligations of funds appropriated by this Act under the headings "International Military Education and Training" and "Foreign Military Financing Program" on a Presidential determination and report to Congress that the Government of Indonesia and the Indonesian Armed Forces are meeting specified criteria regarding accountability for past acts and ongoing activities in Indonesia and East Timor.

Sec. 590. Man and the Biosphere Program

The conference agreement prohibits the provision of funds made available by the Act for the United Nations Man and the Biosphere Program of the United Nations World Heritage Fund if the Program or the Fund engage in activities affecting sites in the United States during the current fiscal year.

Sec. 591. Immunity for the Federal Republic of Yugoslavia

The conference agreement includes language that provides that the Federal Republic of Yugoslavia shall be deemed to be a state sponsor of terrorism for the purposes of 28 U.S.C. 1605(a)(7). The section shall not apply to Montenegro or Kosova, and shall become null and void when the President certifies in writing to the Congress that the Federal Republic of Yugoslavia (other than Montenegro and Kosova) has completed a democratic reform process that results in a newly elected government that respects the rights of ethnic minorities, is committed to the rule of law and respects the sovereignty of its neighbor states. However, the language provides that the certification shall not affect the continuation of ongoing litigation.

The Senate amendment would have applied all sanctions applicable to a terrorist state to the Federal Republic of Yugoslavia. The House bill did not address this matter.

Sec. 592. United States assistance policy for opposition-controlled areas of Sudan

The conference agreement provides the President the authority to provide food assistance to groups engaged in the protection of civilian populations in opposition-controlled areas of Sudan. In support of this effort, the managers urge AID to provide up to

\$500,000 for the People-to-People peace and reconciliation process designed to unite ethnic groups and communities in southern Sudan. Further, the conference agreement requires the President to submit to the Committees on Appropriations a report on United States bilateral assistance to opposition-controlled areas of Sudan. The managers expect this report to be provided in both classified and unclassified forms, if necessary. The report is to include an accounting of U.S. assistance to opposition-controlled areas of Sudan in certain fiscal years and the goals and objectives of such assistance. Further, the President is to report on the policy implications, costs, and sources of funds associated with providing humanitarian assistance, including food, directly to National Democratic Alliance participants and the U.S. agencies best suited to administer these activities. Also, the President is to report on the policy implications of increasing substantially the amount of development assistance for certain activities in opposition-controlled areas of Sudan, the identification (by organization) of all proposed beneficiaries of such assistance, and the obstacles to administering a development assistance program in this region.

The Senate amendment included three provisions relating to U.S. assistance programs in opposition-controlled areas of Sudan. The House bill did not address this matter.

Sec. 593. Consultations on arms sales to Taiwan

The conference agreement includes Senate language that directs the Secretary of State to consult with the Congress regarding a mechanism to provide for congressional input into the nature or quantity of defense articles and services for Taiwan. The House bill did not address this matter.

The conference agreement is the same as the Senate amendment regarding policy toward Central Asia, with the addition of language relating to trade disputes.

Sec. 597. Country reports on human rights practices

The conference agreement includes language, similar to the Senate amendment, which amends the Foreign Assistance Act of 1961 to require that the annual State Department "Country Reports on Human Rights Practices" include a new section regarding the trafficking in persons, especially women and children. The House did not address this matter.

Sec. 598. OPIC maritime fund

The conference agreement expresses the sense of the Congress that the Overseas Private Investment Corporation shall within one year from the date of enactment of this Act select a fund manager for the purpose of creating a maritime fund with total capitalization of up to \$200,000,000. This fund shall leverage United States commercial maritime expertise to support international maritime projects.

Sec. 599. Sanctions against Serbia

The conference report includes language similar to that in the Senate amendment that requires that a number of specified sanctions against Serbia remain in place until a certification is issued by the President. The certification requires that Serbia comply with a number of international agreements, and provides an exemption for Montenegro and Kosova for the sanctions imposed through international financial institutions. It also allows for a waiver of all sanctions if necessary to meet emergency humanitarian needs.

The House bill did not address this matter.

Sec. 599A. Clean coal technology

The conference agreement includes a section contained in the Senate amendment making a number of Congressional findings regarding clean coal technology. The House bill did not address this matter.

Sec. 599B. Restriction on United States assistance for certain reconstruction efforts in the Balkans region

The conference agreement includes language that provides that funds made available by this Act for assistance for reconstruction efforts in the Federal Republic of Yugoslavia or any contiguous country should to the maximum extent practicable be used for the procurement of articles and services of United States origin. Under the terms of this section, the term "article" means any agricultural commodity, steel, communications equipment, farm machinery or petrochemical refinery equipment.

The Senate amendment would have prohibited the use of reconstruction funds in this Act for the former Yugoslavia or any contiguous country for the procurement of any article purchased outside the United States, the recipient country, or least developed countries, or any service provided by a foreign person, subject to certain exceptions. The House bill did not address this matter.

Sec. 599C. United Nations Population Fund

The conference agreement provides that, of amounts under "International Organizations and Programs", not more than \$25,000,000 for fiscal year 2000 shall be available for the United Nations Population Fund (UNFPA) subject to certain prohibitions and conditions. This section prohibits funds for the UNFPA from being made available for a country program in the People's Republic of China. Also, fiscal year 2000 funds are prohibited for UNFPA unless (1) UNFPA maintains these funds in an account separate from other UNFPA accounts (2) UNFPA does not commingle these funds with other sums and (3) UNFPA does not fund abortions.

This section requires that the Secretary of State report to Congress not later than February 15, 2000, indicating the amount of funds that the UNFPA is budgeting for the year in which the report is submitted for a country program in the People's Republic of China. If this report indicates that the UNFPA plans to spend funds for a country program in the People's Republic of China in the year covered by the report, then the amount of such funds that the UNFPA plans to spend in China shall be deducted from the funds made available to the UNFPA after March 1 for obligation for the remainder of the fiscal year in which the report was submitted.

This section is identical to the House bill. The Senate amendment included similar language.

Sec. 599D. Authorization for population planning

The conference agreement includes language which limits the amount of funds appropriated in title II of this Act for population planning activities or other population assistance to \$385,000,000. Sec. 599E. OPIC authorization

The conference agreement includes language that provides authority for the operations of the Overseas Private Investment Corporation (OPIC) until November 1, 2000.

PROVISIONS NOT ADOPTED BY THE CONFEREES

DISTINGUISHED DEVELOPMENT SERVICE AWARD

The conference agreement does not include the section in the Senate amendment regarding the distinguished development service award. The House bill did not address this matter.

WITHHOLDING ASSISTANCE TO COUNTRIES VIOLATING UNITED NATIONS SANCTIONS AGAINST LIBYA

The conference agreement deletes a House provision that imposed a reduction in United States assistance of at least 5 percent when a country violates specified United Nations sanctions against Libya. The Senate amendment did not address this matter. The provision is no longer relevant, since the United Nations has suspended the application of sanctions against Libya.

LIMITATION ON FUNDS FOR FOREIGN ORGANIZATIONS THAT PERFORM OR PROMOTE ABORTIONS

The conference agreement does not include a provision contained in the House bill which would have restored, in part, the "Mexico City" policy regarding restrictions on U.S. assistance to foreign organizations that perform or actively promote abortion, including lobbying or any other effort to alter laws of any foreign country concerning abortion. The Senate did not address this matter.

RESTRICTION ON POPULATION PLANNING ACTIVITIES OR OTHER

(B) *debts not exceeding a total amount of \$200,000 owed to a single provider and incurred for any legitimate governmental purpose for the benefit of the general population of American Samoa, wherein the creditor agrees to compromise and settle the existing debt for a payment not exceeding 70 percent of the amount owed, shall be given the second highest priority for payment from the loan proceeds under this section;*

American Samoa, wherein the creditor agrees to compromise and settle the existing debt for a payment not exceeding 65 percent of the amount owed, shall be given the third highest priority for payment from the loan proceeds under this section;

Upon issuance of payments in accordance with the notice, the Governor shall immediately confirm such payments to the Secretary, and the Secretary shall within three business days following receipt of such confirmation transfer from the loan proceeds an amount sufficient to reimburse ASG for the payments made to creditors.

(3) Upon receipt of the initial plan, the Secretary shall consult with the Governor of American Samoa, and shall make any recommendations deemed reasonable and prudent to ensure the

goals of reform are achieved. The reform plan shall contain objective criteria that can be documented by a competent third party, mutually agreeable to the Governor and the Secretary. The plan shall include specific targets for reducing the amounts of ASG local revenues expended on government payroll and overhead (including contracts for consulting services), and may include provisions which allow modest increases in support of the LBJ Hospital Authority reasonably calculated to assist the Authority implement reforms which will lead to an independent audit indicating annual expenditures at or below annual Authority receipts.

(4) The Secretary shall enter into an agreement with the Governor similar to that specified in subsection (c)(2) of this section, enabling ASG to make payments as contemplated in the reform plan and then to receive reimbursement from the Secretary out of the portion of loan proceeds allocated for the implementation of fiscal reforms.

(5) Within 60 days following receipt of the initial plan, the Secretary shall approve an interim final plan reasonably calculated to make substantial progress toward overall reform. The Secretary shall provide copies of the plan, and any subsequent modifications, to the House Committee on Resources, the House Committee on Appropriations Subcommittee on the Department of the Interior and Related Agencies, the Senate Committee on Energy and Natural Resources, and the Senate Committee on Appropriations Subcommittee on the Department of the Interior and Related Agencies.

On such date, any unused loan proceeds totaling \$1,000,000 or less shall be transferred by the Secretary directly to ASG. If the amount of unused loan proceeds exceeds \$1,000,000, then such amount shall be credited to the total of loan repayments specified in paragraph (b)(1). Prior to the expiration of the authority for this pilot program, the Secretary shall submit a report to the House and Senate Committees on Appropriations, and the Committee on Energy and Natural Resources of the Senate and the Committee on Resources of the House of Representatives that evaluates whether the use of funds under this section resulted in more expeditious approval of rights-of-way and special use authorizations. SEC. 332. HARDWOOD TECHNOLOGY TRANSFER AND APPLIED RESEARCH. (a) The Secretary of Agriculture (hereinafter the “Secretary”) is hereby and hereafter authorized to conduct technology transfer and development, training, dissemination of information and applied research in the management, processing and utilization of the hardwood forest resource. This authority is in addition to any other authorities which may be available to the Secretary including, but not limited to, the Cooperative Forestry Assistance Act of 1978, as amended (16 U.S.C. 2101 et seq.), and the Forest and Rangeland Renewable Resources Act of 1978, as amended (16 U.S.C. 1600-1614).

(b) In carrying out this authority, the Secretary may enter into grants, contracts, and cooperative agreements with public and private agencies, organizations, corporations, institutions and individuals. The Secretary may accept gifts and donations pursuant to the Act of October 10, 1978 (7 U.S.C. 2269) including gifts and dona-

tions from a donor that conducts business with any agency of the Department of Agriculture or is regulated by the Secretary of Agriculture.

(c) The Secretary is hereby and hereafter authorized to operate and utilize the assets of the Wood Education and Resource Center (previously named the Robert C. Byrd Hardwood Technology Center in West Virginia) as part of a newly formed "Institute of Hardwood Technology Transfer and Applied Research" (hereinafter the "Institute"). The Institute, in addition to the Wood Education and Resource Center, will consist of a Director, technology transfer specialists from State and Private Forestry, the Forestry Sciences Laboratory in Princeton, West Virginia, and any other organizational unit of the Department of Agriculture as the Secretary deems appropriate. The overall management of the Institute will be the responsibility of the Forest Service, State and Private Forestry.

(d) The Secretary is hereby and hereafter authorized to generate revenue using the authorities provided herein. Any revenue received as part of the operation of the Institute shall be deposited into a special fund in the Treasury of the United States, known as the "Hardwood Technology Transfer and Applied Research Fund", which shall be available to the Secretary until expended, without further appropriation, in furtherance of the purposes of this section, including upkeep, management, and operation of the Institute and the payment of salaries and expenses.

SEC. 333. No timber sale in Region 10 shall be advertised if the indicated rate is deficit when appraised under the transaction evidence appraisal system using domestic Alaska values for western red cedar: Provided, That sales which are deficit when appraised under the transaction evidence appraisal system using domestic Alaska values for western red cedar may be advertised upon receipt of a written request by a prospective, informed bidder, who has the opportunity to review the Forest Service's cruise and harvest cost estimate for that timber. Program accomplishments shall be based on volume sold. Should Region 10 sell, in fiscal year 2000, the annual average portion of the decadal allowable sale quantity called for in the current Tongass Land Management Plan in sales which are not deficit when appraised under the transaction evidence appraisal system using domestic Alaska values for western red cedar, all of the western red cedar timber from those sales which is surplus to the needs of domestic processors in Alaska, shall be made available to domestic processors in the contiguous 48 United States at prevailing domestic prices. Should Region 10 sell, in fiscal year 2000, less than the annual average portion of the decadal allowable sale quantity called for in the current Tongass Land Management Plan in sales which are not deficit when appraised under the transaction evidence appraisal system using domestic Alaska values for western red cedar, the volume of western red cedar timber available to domestic processors at prevailing domestic prices in the contiguous 48 United States shall be that volume: (i) which is surplus to the needs of domestic processors in Alaska; and (ii) is that percent of the surplus western red cedar volume determined by calculating the ratio

of the total timber volume which has been sold on the Tongass to the annual average portion of the decadal allowable sale quantity called for in the current Tongass Land Management Plan. The percentage shall be calculated by Region 10 on a rolling basis as each sale is sold (for purposes of this amendment, a “rolling basis” shall mean that the determination of how much western red cedar is eligible for sale to various markets shall be made at the time each sale is awarded). Western red cedar shall be deemed “surplus to the needs of domestic processors in Alaska” when the timber sale holder has presented to the Forest Service documentation of the inability to sell western red cedar logs from a given sale to domestic Alaska processors at price equal to or greater than the log selling value stated in the contract. All additional western red cedar volume not sold to Alaska or contiguous 48 United States domestic processors may be exported to foreign markets at the election of the timber sale holder. All Alaska yellow cedar may be sold at prevailing export prices at the election of the timber sale holder.

SEC. 337. (a) MILLSITES OPINION.—No funds shall be expended by the Department of the Interior or the Department of Agriculture,

for fiscal years 2000 and 2001, to limit the number or acreage of millsites based on the ratio between the number or acreage of millsites and the number or acreage of associated lode or placer claims with respect to any patent application grandfathered pursuant to section 113 of the Department of the Interior and Related Agencies, Appropriations Act, 1995; any operation for which a plan of operations has been previously approved; or any operation for which a plan of operations has been submitted to the Bureau of Land Management or Forest Service prior to November 7, 1997.

SEC. 338. The Forest Service, in consultation with the Department of Labor, shall review Forest Service campground concessions policy to determine if modifications can be made to Forest Service contracts for campgrounds so that such concessions fall within the regulatory exemption of 29 CFR 4.122(b). The Forest Service shall offer in fiscal year 2000 such concession prospectuses under the regulatory exemption, except that, any prospectus that does not meet the requirements of the regulatory exemption shall be offered as a service contract in accordance with the requirements of 41 U.S.C. 351–358.

The term does not include trees, except as provided in regulations issued under this section by the Secretary of Agriculture.

(b) *RECOVERY OF FAIR MARKET VALUE FOR PRODUCTS.*—The Secretary of Agriculture shall develop and implement a pilot program to charge and collect not less than the fair market value for forest botanical products harvested on National Forest System lands. The Secretary shall establish appraisal methods and bidding procedures to ensure that the amounts collected for forest botanical products are not less than fair market value.

(c) *FEES.*—

(1) *IMPOSITION AND COLLECTION.*—Under the pilot program, the Secretary of Agriculture shall also charge and collect fees from persons who harvest forest botanical products on National Forest System lands to recover all costs to the Department of Agriculture associated with the granting, modifying, or monitoring the authorization for harvest of the forest botanical products, including the costs of any environmental or other analysis.

(2) *SECURITY.*—The Secretary may require a person assessed a fee under this subsection to provide security to ensure that the Secretary receives the fees imposed under this subsection from the person.

(d) *SUSTAINABLE HARVEST LEVELS FOR FOREST BOTANICAL PRODUCTS.*—The Secretary of Agriculture shall conduct appropriate

analyses to determine whether and how the harvest of forest botanical products on National Forest System lands can be conducted on a sustainable basis. The Secretary may not permit under the pilot program the harvest of forest botanical products at levels in excess of sustainable harvest levels, as defined pursuant to the Multiple-Use Sustained-Yield Act of 1960 (16 U.S.C. 528 et seq.). The Secretary shall establish procedures and timeframes to monitor and revise the harvest levels established for forest botanical products.

(e) **WAIVER AUTHORITY.**—

(1) **PERSONAL USE.**—The Secretary of Agriculture shall establish a personal use harvest level for each forest botanical product, and the harvest of a forest botanical product below that level by a person for personal use shall not be subject to charges and fees under subsections (b) and (c).

This Act may be cited as the "Department of the Interior and Related Agencies Appropriations Act, 2000".

Following is explanatory language on H.R. 3423, as introduced on November 17, 1999.

DEPARTMENT OF THE INTERIOR AND RELATED AGENCIES APPROPRIATIONS

The conferees on H.R. 3194 agree with the matter inserted in this division of this conference agreement and the following description of this matter. This matter was developed through negotiations on the differences in H.R. 2466, the Department of the Interior and Related Agencies Appropriations Act, 2000, by members of the subcommittee of both the House and Senate with jurisdiction over H.R. 2466.

The conference agreement with respect to fiscal year 2000 appropriations for the Department of the Interior and Related Agencies incorporates some of the provisions of House Report 106-222 and Senate Report 106-99. Report language and allocations set forth in either of those reports, which are not changed by the conference agreement, are approved. The agreement described herein,

while repeating some report language for emphasis, does not negate the language referenced above unless expressly provided. Administrative provisions and general provisions which are identical in the House-passed and Senate-passed versions of H.R. 2466 that are unchanged by the conference agreement are approved unless provided to the contrary herein.

ALLOCATION OF CONGRESSIONAL FUNDING PRIORITIES

When Congressional instructions are provided, these instructions are to be closely monitored and followed. In this and future years, earmarks for Congressional funding priorities shall be allocated for those projects or programs prior to determining and allocating the remaining funds. Field units or programs should not have their allocations reduced because of earmarks for Congressional priorities without direction from or approval of the House and Senate Committees on Appropriations. Further, it is a Congressional responsibility to determine the level of funds provided for Federal agencies and how those funds should be distributed. It is not useful or productive to have Administration officials refer to Congressional directives as condescending and encroaching on executive responsibility to direct agency operations.

TITLE I—DEPARTMENT OF THE INTERIOR

BUREAU OF LAND MANAGEMENT

MANAGEMENT OF LANDS AND RESOURCES

The conference agreement provides \$646,218,000 for management of lands and resources instead of \$631,068,000 as proposed by the House and \$634,321,000 as proposed by the Senate.

Increases above the House include \$2,500,000 for grazing permits, \$1,500,000 for invasive species, \$1,000,000 for riparian management, \$750,000 for Idaho weed control, \$50,000 for Rio Puerco, \$1,000,000 for the Colorado plateau ecosystem study, \$500,000 for the national laboratory grazing study, \$1,400,000 for fisheries, \$900,000 for salmon restoration on the Yukon River and Caribou-Poker Creek, \$1,330,000 for recreation resource management, \$400,000 for the National Petroleum Reserve-Alaska, \$4,400,000 for Alaska Conveyance, \$300,000 for the Utah wilderness study, \$350,000 for the Montana mapping project, and a \$1,000,000 restoration of the general decrease.

Decreases below the House include \$500,000 from standards and guidelines, \$400,000 from wildlife, and \$1,330,000 from recreation operations.

In addition to the increase of \$2,500,000 as proposed by the House and provided in the conference agreement for the processing of permits for coalbed methane activities, the conference agreement includes bill language that makes the use of some of the Bureau's funds contingent upon a written agreement between the coal mine operator and the gas producer prior to permit issuance if the permitted activity is in an area where there is a conflict between coal mining operations and coalbed methane production. This restrictive language only applies to the additional \$2,500,000.

The conference agreement earmarks \$750,000 for the Couer d'Alene Basin Commission for mining related cleanup activities with the clear understanding that funding will be provided only on a one-time basis.

The Senate bill calls for a report by USDA's Forest Service dealing with integration of watershed and community needs. It is expected that this report be a joint Forest Service and Bureau of Land Management report as stated on page 75 of Senate Report 106-99.

The Bureau appears to be introducing new burdensome and questionable requirements on domestic oil and gas applications for permits to drill, and it is expected that the Bureau to cease requiring companies to apply paint to ground that will be disturbed by drilling activities.

The conference agreement concurs with the Senate report language providing guidance on the Southern Nevada Public Lands Management Act as stated in Senate Report 106-99.

The conference agreement maintains the funding level for Kane and Garfield counties at the fiscal year 1999 level of \$250,000.

The conference agreement contains modified bill language in Title III as proposed by the Senate to allow the Bureau to use up to \$1,000,000 for the Youth Conservation Corps.

WILDLAND FIRE MANAGEMENT

The conference agreement provides \$292,282,000 for wildland fire management instead of \$292,399,000 as proposed by the House and \$283,805,000 as proposed by the Senate.

Changes to the House include an increase of \$57,500 to reimburse Trinity County for expenses incurred as part of the July 2, 1999, Lowden fire, and a decrease of \$175,000 as an offset against the Weber Dam project.

CENTRAL HAZARDOUS MATERIALS FUND

The conference agreement provides \$10,000,000 for the central hazardous materials fund as proposed by the House and Senate.

CONSTRUCTION

The conference agreement provides \$11,425,000 for construction instead of \$11,100,000 as proposed by the House and \$12,418,000 as proposed by the Senate.

Increases above the House include \$50,000 for the La Puebla pit tank, \$250,000 for the California Trail Interpretive Center, and \$25,000 for uncontrollable costs.

PAYMENTS IN LIEU OF TAXES

The conference agreement provides \$135,000,000 for payments in lieu of taxes as proposed by the Senate instead of \$145,000,000 as proposed by the House.

LAND ACQUISITION

The conference agreement provides \$15,500,000 for land acquisition instead of \$15,000,000 as proposed by the House and

\$17,400,000 as proposed by the Senate. Funds should be distributed as follows:

<i>State and project</i>	<i>Amount</i>
CA—California Wilderness (Catellus property)	\$5,000,000
AZ—Cerat Foothills	500,000
UT—Grafton Preservation	250,000
NM—La Cienega ACEC	1,000,000
CA—Otay Mts./Kuchamaa	750,000
WA—Rock Cr. Watershed (Escure Ranch)	500,000
CA—Santa Rosa Mts. NSA	500,000
CO—Upper Arkansas River Basin	2,500,000
ID—Upper Snake/S. Fork Snake River	500,000
OR—West Eugene Wetlands	500,000
<hr/>	
Subtotal	12,000,000
Emergency/Hardships/Inholdings	500,000
Acquisition Management	3,000,000
<hr/>	
Total	15,500,000

The \$250,000 provided for Grafton, Utah is for acquisition of a 30-acre portion of the 220-acre Stout property. The 30 acres are foothill land adjacent to BLM managed public land and are appropriate for BLM acquisition. It is expected that the Grafton Heritage Project and the Grand Canyon Trust will be responsible for acquisition and management of the balance of the Stout property.

The conference agreement provides \$5,000,000 to the National Park Service (NPS) and \$5,000,000 to the Bureau of Land Management (BLM) for land acquisition within the California desert. This funding is based on the understanding that the Wildlands Conservancy will acquire 8,000 additional acres, in consultation with the NPS and BLM, from willing seller and small private inholdings within Joshua Tree National Park and the Mojave National Preserve within the next year. An additional \$5,000,000 is provided in Title VI for this acquisition.

No additional funds will be provided for Catellus land acquisition in future years unless and until the Department of the Interior and the Department of Defense completely resolve remaining issues relating to desert tortoise mitigation and land acquisition and expansion at the National Training Center for the Army at Fort Irwin, California.

Furthermore, the House and Senate Committees on Appropriations will consider an additional \$15,000,000 for California desert land acquisition of the Catellus lands up to a total of \$30,000,000. Future funding decisions will be based upon resolution by the two departments of the issues concerning desert tortoise mitigation and land acquisition and expansion at the National Training Center for the Army of Fort Irwin.

OREGON AND CALIFORNIA GRANT LANDS

The conference agreement provides \$99,225,000 for Oregon and California grant lands as proposed by the House and Senate.

RANGE IMPROVEMENTS

The conference agreement provides an indefinite appropriation for range improvements of not less than \$10,000,000 as proposed by the House and Senate.

SERVICE CHARGES, DEPOSITS, AND FORFEITURES

The conference agreement provides an indefinite appropriation for service charges, deposits, and forfeitures which is estimated to be \$8,800,000 as proposed by the House and Senate.

MISCELLANEOUS TRUST FUNDS

The conference agreement provides an indefinite appropriation of \$7,700,000 for miscellaneous trust funds as proposed by the House and Senate.

UNITED STATES FISH AND WILDLIFE SERVICE

RESOURCE MANAGEMENT

The conference agreement provides \$716,046,000 for resource management instead of \$710,700,000 as proposed by the House and \$684,569,000 as proposed by the Senate.

Changes to the House position in endangered species programs include an increase of \$100,000 in candidate conservation and a decrease of \$300,000 in listing. The conference agreement includes increases of \$100,000 for the Broughton Ranch demonstration project and \$300,000 for a coldwater fish HCP in Montana and a decrease of \$300,000 for other program activities in consultation. Also included are increases of \$3,857,000 for Washington salmon recovery, \$500,000 for the Bruneau hot springs snail, \$400,000 for the Prebles meadow jumping mouse, \$1,500,000 for small landowner partnerships, and \$200,000 for a Weber Dam study, and a decrease of \$1,100,000 for other program activities in recovery. The conference agreement includes a decrease of \$1,500,000 for the small landowner incentive program.

Changes to the House position in habitat conservation include increases of \$250,000 for Hawaii ESA community conservation and \$150,000 for Nevada biodiversity and decreases of \$200,000 for the Washington State Department of Fish and Wildlife grant program and \$500,000 for other program activities in the partners for fish and wildlife program. There is a decrease of \$500,000 for FERC relicensing in project planning; an increase of \$193,000 for Long Live the Kings and a decrease of \$300,000 for other program activities in the coastal program; and a decrease of \$500,000 for the National wetlands inventory.

For refuge operations and maintenance changes to the House position include an increase of \$200,000 for Spartina grass research at the University of Washington and decreases of \$250,000 for coral reefs, \$500,000 for the Volunteer and Community Partnership Act, a net decrease of \$250,000 for tundra to tropics, leaving \$250,000 specifically for Hawaii ecosystems and \$1,000,000 for other program activities in refuges operations. There is also a decrease of \$500,000 for refuge maintenance. For law enforcement there is a decrease from the House position of \$500,000 for operations. In migratory bird management there is an increase over the House position of \$400,000 for Canada geese depredation, including dusky Canada geese, and a decrease of \$400,000 for other program activities.

Changes to the House position for hatchery operations and maintenance include increases of \$200,000 for White Sulphur Springs NFH, \$500,000 for other hatchery operations and maintenance, and \$3,600,000 for Washington State Hatchery Improvement as discussed below. Changes to the House position for the fish and wildlife management account include increases of \$200,000 for Yukon River fisheries management studies, \$100,000 for Yukon River Salmon Treaty public education programs, \$110,000 for Caribou-Poker Creek salmon passage assistance, \$1,018,000 for fish passage improvements in Maine, \$600,000 for a prototype machine to mark hatchery reared salmon at the Washington Department of Fish and Wildlife, \$400,000 for Great Lakes fish and wildlife restoration, and \$368,000 for a fisheries resource project in cooperation with the Juniata Valley School District in Alexandria, PA. There is a decrease of \$300,000 for Atlantic salmon recovery.

Changes to the House position in general administration include an increase of \$200,000 for the National Conservation Training Center and decreases in international affairs of \$700,000 for CITES permits and invasive species, \$100,000 for the Russia initiative and \$150,000 for neotropical migrants. There is also a decrease of \$250,000 for the National Fish and Wildlife Foundation.

Bill Language.—The conference agreement provides that the amount of funding for certain endangered species listing programs may not exceed \$6,232,000 instead of \$6,532,000 as proposed by the House and \$5,932,000 as proposed by the Senate.

The conference agreement makes permanent the authority provided in the Senate bill for National Wildlife Refuges in Louisiana and Texas to retain funds collected from oil and gas related damages under the Comprehensive Environmental Response, Compensation and Liability Act, the Oil Pollution Act and the Clean Water Act. The Senate provision extended the authority only through fiscal year 2000. The House had no similar provision.

Under General Provisions, Department of the Interior, the conference agreement modifies Senate Section 127 limiting the use of funds to implement Secretarial Order 3206. The modification permits implementation of the order except for two provisions. The first would give preferential treatment to Indian activities at the expense of non-Indian activities in determining conservation restrictions to species listed under the Endangered Species Act. The second would give preferential treatment to tribal lands at the expense of other privately owned lands in designating critical habitat under the Endangered Species Act. The House had no similar provision.

The conference agreement provides for the following:

1. The Service should continue to support the Nez Perce Tribe's wolf monitoring efforts. This program has been very successful and it should be continued at least at the funding level provided in fiscal year 1999.

2. Small landowner partnerships under the ESA recovery program are not transferred to the landowner incentive program as proposed by the House, but the Service should consider seriously consolidating these programs in the fiscal year 2001 budget.

3. The \$200,000 for a Weber Dam Study should be used by the Service, through a contract or memorandum of understanding with the Bureau of Reclamation, to (1) investigate alternatives to the modification of Weber Dam on the Walker River Paiute Reservation in Nevada; (2) evaluate the feasibility and effectiveness of the installation of a fish ladder at Weber Dam; and (3) evaluate opportunities for Lahontan cutthroat trout restoration in the Walker River Basin. Any future funding requirements identified for program implementation should not be the responsibility of the U.S. Fish and Wildlife Service.

4. The \$600,000 provided to assist with the Tongass Land Management Plan is included with the understanding that the State of Alaska should receive assistance as a partner.

5. The Long Live the Kings salmon program is funded at \$393,000 in the coastal program, and \$171,500 of that amount is to be provided directly to the Hood Canal Salmon Enhancement Group.

6. The continuing unmet maintenance needs at Ohio River Islands National Wildlife Refuge that not been addressed adequately in Service budget requests. The Service should ensure that: (1) the Refuge's maintenance requirements are fully included by Region 9 in the Maintenance Management System and (2) future budget requests include sufficient funding for the Ohio River Islands National Wildlife Refuge to cover adequately its growing maintenance needs.

7. The funding provided for Caribou-Poker Creek salmon restoration is for one-time fish passage assistance by the Service. Any future operations and maintenance costs associated with this project should not be borne by the Service.

8. The funding for fish passage improvements in Maine, related to removal of Edwards Dam, is provided on a one-time basis to help address a first-year shortfall in funding for fish passage assistance and restoration as anticipated by the Lower Kennebec River Comprehensive Hydropower Settlement Accord, of which the Service is a partner. The Service, as a partner in the Accord, should consider its responsibilities under the Accord as it prepares future budget requests.

9. The funding provided for the Washington Department of Fish and Wildlife for a prototype machine to mark hatchery reared salmon completes the Federal funding for this project.

10. The strategic plan required by the House for dealing with over-populations of snow geese and Canada geese should consider lethal means, including hunting, as possible solutions.

11. The conference agreement notes the Service's failure to gather the necessary information to delist the concho water snake. Before distributing the ESA recovery program increase, the Service should provide \$300,000 for the activities required to process the delisting of the concho water snake. It is expected the Service will proceed as quickly as possible, with the goal of gathering the necessary information within one year or as soon thereafter as possible.

12. The House Committee on Appropriations has received several expressions of concern about uncooperative responses from the Carlsbad ecological services office in California. The Service should

report to the House and Senate Committees on Appropriations on actions taken to improve communications between that office and State and local agencies and the public. Such actions should not involve increases in operational funding.

13. The increase provided for the coastal program is not limited to any particular coastal areas. The Senate reference to South Carolina and Texas is not intended to limit increased funding to those areas. The Maine coastal program is also commended.

14. Within the funds provided for resource management, the Service should set aside \$500,000 for the Blackwater NWR, MD nutria eradication program. There is no objection to the use of carryover funds for a portion of this earmark. This program should serve as a prototype for nutria eradication throughout the country. The Service should notify the House and Senate Committees on Appropriations of what funds will be used for this program within 30 days of enactment of this Act and prior to distribution of program increases to the field. Sufficient funds should be included in the fiscal year 2001 budget request to complete this important project, the cost of which is being shared by several non-Federal partners.

15. The conference agreement notes that the Fish and Wildlife Service designated critical habitat for the cactus ferruginous pygmy-owl on July 12, 1999, and expresses concern regarding the impact this designation will have on activities in southern Arizona. The Service should devote the necessary resources to respond adequately and efficiently to the needs of the people who are affected by this new rule and to conduct appropriate scientific studies.

16. In 1997 Congress requested the Northwest Power Planning Council to conduct a review of all Federally funded fish hatcheries in the Columbia River Basin and to make recommendations for a coordinated hatchery policy. Congress also requested the Council to provide the direction necessary to implement such a policy. The Council's report, "Artificial Production Review, Report and Recommendations of the Northwest Power Planning Council," identifies several immediate actions to begin implementation of its recommendations. The Service should cooperate with the Council, the National Marine Fisheries Service, State fish and wildlife agencies, and the Columbia Basin Indian tribes to begin implementing the report's recommendations. The Service should begin identifying the amount needed for these reforms and to request initial funds in its FY 2001 budget.

17. The \$100,000 provided in the ESA consultation account for the Broughton Ranch should be provided as a grant to the Washington Agriculture and Forestry Education Foundation for a demonstration project on the Broughton Ranch in Walla Walla, Washington. This project should serve as a template for how small private landowners can establish habitat conservation plans in cooperation with Federal agencies.

18. To conserve and restore Pacific salmon, the conference agreement includes \$3,857,000 in the recovery program for a competitively awarded matching grant program in Washington State. The funds should be provided in an advance payment of the entire amount on October 1, or as soon as practicable thereafter, to the National Fish and Wildlife Foundation, a Congressionally char-

tered, non-profit organization with a substantial record of leveraging Federal funds with non-Federal funds, coordinating private and public partnerships, managing peer reviewed challenge grant programs, and tracking the expenditure of funds. The funds will be available for award to community-based organizations in Washington State for on-the-ground projects that may include conservation and restoration of in-stream habitat, riparian zones, upland areas, wetlands, and fish passage projects. Within the amount provided, \$451,000 is for the River CPR Puget Sound Drain Guard Campaign. The Foundation should work with the affected local community in the Methow Valley in Okanogan County, Washington, on salmon enhancement projects. The Foundation should give priority in awarding funds to cooperative projects in rural communities throughout the State.

19. The funding for Washington State hatchery improvement activities is to support this new program as follows: The \$3,600,000 provided for hatchery reform in Washington State should be deposited with the Washington State Interagency Council for Outdoor Recreation. The director of the Interagency Council for Outdoor Recreation shall ensure these funds are expended as specified in the report of May 7, 1999, titled "The Reform of Salmon and Steelhead Hatcheries in Puget Sound and Coastal Washington to Recover Natural Stocks While Providing Fisheries", and at the direction of the Hatchery Scientific Review Group (as discussed below).

Funds should be used for the improvement of hatcheries in the Puget Sound area and other coastal communities as follows: (1) \$300,000 for activities associated with the Hatchery Scientific Review Group which will work with agencies to produce guidelines and recommended actions and ensure that the goals of hatchery reform are carried out, identify scientific needs, and make recommendations on further experimentation; (2) \$800,000 for agencies and tribes to establish a team of scientists to generate and maintain data bases, analyze existing data, determine and undertake needed experiments, purchase scientific equipment, develop technical support infrastructures, initiate changes to the hatcheries based on their findings and establish a science-based decision making process; (3) \$1,400,000 to improve hatchery management practices to augment fisheries, protect genetic resources, avoid negative ecological interactions between wild and hatchery fish, promote recovery of naturally spawning populations, and employ new rearing protocols to improve survival and operational efficiencies; (4) \$900,000 to conduct scientific research evaluating hatchery management operations; and (5) \$200,000 to Long Live the Kings to facilitate co-managers' design and implementation of Puget Sound hatchery reform.

A leading group of scientists representing Federal, State, and tribal agencies has been meeting for the past year to discuss the role of fish hatcheries in the Pacific Northwest. The listing of over 10 salmon species in the Columbia River over the past decade and the most recent the listing of 3 salmon species in other parts of the State have led many in the Northwest to question and challenge the role of fish hatcheries in the recovery of the listed wild salmon stocks.

Hatcheries can play a positive role in salmon management and the recovery of wild salmon stocks. Scientists are testing ways hatcheries can be retrofitted and managed to provide hatchery stocks to maintain a vibrant fishery in the Pacific Northwest without significantly impacting precious wild stocks.

The efforts of the advisory team that has established a framework designed to guide an effort to reform more than 100 State, tribal, Federal, and private hatcheries in Puget Sound and the Washington coast are commended. Many watersheds on the west coast of Washington have multiple hatcheries run by different agencies and tribes. Hatchery operations must be coordinated with logical geographical management units. There must be a coordinated effort among all levels of government to obtain the positive results expected by hatchery management reform. The framework outlined by the advisory committee should be implemented at hatcheries in Puget Sound and the west coast of Washington.

There is to be established a Hatchery Scientific Review Group which will serve as an independent panel. It should be comprised of five independent scientists selected by the advisory team from a pool of nine candidates nominated by the American Fisheries Society and four agency representatives; one each designated by the Washington Department of Fish and Wildlife, the Northwest Indian Fisheries Commission, the National Marine Fisheries Service and the U.S. Fish and Wildlife Service. Each of these designees should have technical skills in relevant fields such as fish biology or fish genetics. All appointments should be made no later than 30 days after enactment of this Act. The members of the group may be compensated for time and travel through this appropriation. The chair of the Hatchery Scientific Review Group should be one of the independent scientists chosen from the American Fisheries Society nominations and should be selected by the group itself. Hereafter, when an independent scientist on the group steps down, a replacement should be selected by the group from a list of three nominees provided by the American Fisheries Society.

The Hatchery Scientific Review Group should report to Congress by June 1, 2000, on progress made and work remaining in reforming Puget Sound hatcheries. Long Live the Kings should report to Congress by June 1, 2000, on its progress.

Bill Language.—The conference agreement includes bill language proposed by the Senate authorizing a single procurement for construction of the headquarters and visitors center at the Alaska Maritime NWR.

The conference agreement provides for the following:

1. The funding provided for construction of the headquarters and visitors center at Alaska Maritime NWR completes the Federal funding for this project by the Fish and Wildlife Service.

2. The funding for the education center at the Silvio O. Conte NWR, VT is provided with the understanding that the Federal commitment will not exceed \$2,900,000 and that the cost share will be substantially more than 50 percent.

3. Funding for the Tern Island seawall is provided with the understanding that the total cost of the project will not exceed \$12,000,000 and that project initiation will be delayed until appropriated funding is sufficient to provide for uninterrupted construction. Such an approach will avoid costly shut down and start up costs associated with piecemeal construction in this remote location. Although the Fish and Wildlife Service's efforts to obtain

logistical support from the Navy have been, so far, unsuccessful, the Service is encouraged to continue to pursue such support.

4. Funding provided for the Upper Mississippi River Discovery Center, IA represents the full Federal funding by the Fish and Wildlife Service. Within the \$1,200,000 provided, \$300,000 is for construction and installation of exhibits detailing the mission of the Fish and Wildlife Service and interpreting the Upper Mississippi River NWR, IA.

5. The \$615,000 decrease to the House recommended level for construction management eliminates the proposed increase for seismic compliance. Seismic compliance should be incorporated into overall priorities.

6. The conference agreement notes with concern that the Service has allowed the floodgates on and around Mattamuskeet NWR, North Carolina, to deteriorate substantially over the past 15 years, thus permitting saltwater intrusion onto surrounding farmlands of Hyde County, North Carolina. This situation has been exacerbated by the recent flooding in eastern North Carolina due to hurricanes, including Hurricane Floyd. While the Service has legitimate concerns with respect to water salinity and quality on the refuge, the Service should cooperate with other water users and landowners to ensure that their interests are adequately protected.

LAND ACQUISITION

The conference agreement provides \$50,513,000 in new land acquisition funds and a reprogramming of \$8,000,000 in prior year funds instead of \$42,000,000 as proposed by the House and \$56,444,000 as proposed by the Senate. Funds should be distributed as follows:

The \$8,000,000 allocated in fiscal year 1999 for the acquisition of Palmyra Atoll has been reprogrammed because the non-Federal matching funds essential to purchase the property are not available at this time. The House and Senate Committees on Appropriations recognize the unique biological value of this tropical habitat and will consider providing funding in the future should the non-Federal share be secured.

In addition to the funds provided in this account for the Rhode Island Refuge Complex, there is \$2,000,000 provided in Title VI.

The House and Senate Committee on Appropriations have conducted a preliminary review of the Federal land management agencies' definition of acquisition management costs. These initial findings indicate that the U.S. Fish and Wildlife Service is out of sync with the other agencies and the Committees are concerned about several issues, including the fact that only 65 percent of the acquisition management staff of the Service is accounted for in its acquisition management account, and that other costs are being assessed against the individual projects such as 10 percent third party costs. The other agencies do not consider such costs. The Department should prepare a complete analysis of land acquisition costs, which includes the Forest Service program, and report to the Committees no later than March 15, 2000, with recommendations for standardizing the situation.

COOPERATIVE ENDANGERED SPECIES CONSERVATION FUND

The conference agreement provides \$23,000,000 for the cooperative endangered species conservation fund instead of \$15,000,000 as proposed by the House and \$21,480,000 as proposed by the Senate. The increase above the House is for habitat conservation planning land acquisition. Bill language is included, as proposed by the Senate, to ensure that these funds are derived from the cooperative endangered species conservation fund.

NATIONAL WILDLIFE REFUGE FUND

The conference agreement provides \$10,779,000 for the national wildlife refuge fund as proposed by the House instead of \$10,000,000 as proposed by the Senate.

NORTH AMERICAN WETLANDS CONSERVATION FUND

The conference agreement provides \$15,000,000 for the North American wetlands conservation fund as proposed by both the House and the Senate.

WILDLIFE CONSERVATION AND APPRECIATION FUND

The conference agreement provides \$800,000 for the wildlife conservation and appreciation fund as proposed by both the House and the Senate.

MULTINATIONAL SPECIES CONSERVATION FUND

The conference agreement provides \$2,400,000 for the multinational species conservation fund as proposed by the Senate instead of \$2,000,000 as proposed by the House.

COMMERCIAL SALMON FISHERY CAPACITY REDUCTION

The conference agreement provides \$5,000,000 for the Federal share of a salmon fishery capacity reduction program. The funds should be given as a grant to the State of Washington Department of Fish and Wildlife and will be used to reimburse commercial fishermen for forfeiting their commercial fishing licenses for Fraser River Sockeye. The program will support the implementation of the 1999 Pacific Salmon Treaty Agreement between the United States and Canada.

NATIONAL PARK SERVICE

OPERATION OF THE NATIONAL PARK SYSTEM

The conference agreement provides \$1,365,059,000 for operation of the National Park System instead of \$1,387,307,000 as proposed by the House and \$1,355,176,000 as proposed by the Senate. The agreement provides \$255,399,000 for Resources Stewardship instead of \$265,114,000 as proposed by the House and \$247,905,000 as proposed by the Senate. Changes to the House level include decreases of \$6,915,000 for special need parks, \$500,000 to natural resources preservation, \$500,000 to native and exotic species, \$500,000 to inventory and monitoring, \$500,000 to cultural resources preservation, elimination of \$500,000 for the new resource protection act initiative, and a \$300,000 decrease for collections management. Despite these reductions from the House position, the conference agreement still provides significant funding for the new science data initiative, as well as increases above the budget request for special need parks and increases to both cultural resource preservation and collections management above current year funding levels. The amount provided does not include funds specifically for the Civil War initiative as proposed by the Senate.

The conference agreement provides \$318,970,000 for Visitor Services instead of \$320,558,000 as proposed by the House and \$317,806,000 as proposed by the Senate. Changes to the House level include a \$3,908,000 decrease to special need parks and an increase of \$2,320,000 for anti-terrorism base costs.

The conference agreement provides \$432,923,000 for Maintenance instead of \$442,881,000 as proposed by the House and \$432,081,000 as proposed by the Senate. Changes to the House level include decreases of \$4,458,000 to special need parks, \$3,000,000 for cyclic maintenance and \$2,500,000 for repair and rehabilitation. Therefore, the conference agreement provides a \$1,000,000 increase for cyclic maintenance and a \$2,500,000 increase for repair and rehabilitation above the current year funding levels.

The conference agreement provides \$248,482,000 for park support instead of \$248,895,000 as proposed by the House and \$248,099,000 as proposed by the Senate. Changes to the House level include an increase of \$137,000 for special need parks, a decrease of \$250,000 for partners for parks, a decrease of \$500,000 for the challenge cost share program and an increase of \$200,000 for cooperative agreements on the Lamprey Wild and Scenic River.

The conference agreement provides \$109,285,000 for external administrative costs as proposed by the Senate instead of \$109,859,000 as proposed by the House. Changes to the House level include a decrease of \$800,000 for GSA space and an increase of \$226,000 for electronic acquisition system.

The success of the bear management program at Yosemite National Park is noted and is encouraged by the Park Service to continue this worthwhile effort.

The conference agreement does not provide an earmark for the Kawerak Eskimo Heritage Program within the funds provided for Beringia as proposed by the Senate.

The beneficial uses at the Lake Roosevelt National Recreation Area include historical and traditional agriculture, grazing, recreation and cultural uses pursuant to a permit issued by the Service. Pursuant to the Lake Roosevelt National Recreation Area's new general management plan, existing and past historical use, and community moorage/public access facilities permitted by the Service at the Area may remain permitted under Service authority until it is determined by the Service that the permitted facility or activity is in conflict with a new or expanded concession facility. At such time the Service may choose to terminate that specific permit.

The Civil War battlefields throughout the country hold great significance and provide vital historic educational opportunities for millions of Americans. There is concern, however, about the isolated existence of these Civil War battle sites in that they are often not placed in the proper historical context.

The Service does an outstanding job of documenting and describing the particular battle at any given site, but in the public displays and multi-media presentations, it does not always do a similarly good job of documenting and describing the historical social, economic, legal, cultural and political forces and events that originally led to the larger war which eventually manifested themselves in specific battles. In particular, the Civil War battlefields

are often weak or missing vital information about the role that the institution of slavery played in causing the American Civil War.

The Secretary of the Interior is directed to encourage the National Park Service managers of Civil War battle sites to recognize and include in all of their public displays and multi-media educational presentations the unique role that the institution of slavery played in causing the Civil War and its role, if any, at the individual battle sites. The Secretary is further directed to prepare a report by January 15, 2000, on the status of the educational information currently included at Civil War sites that are consistent with and reflect this concern.

The conference agreement expresses concern over the unsafe conditions at the intersection of Routes 29 and 234 in Manassas National Battlefield, in Prince William County, Virginia which remain hazardous to local residents and visitors traveling through the intersection. The safety concerns at Routes 29 and 234 have been a long-standing problem for the local communities. The National Park Service and the Virginia Department of Transportation are strongly encouraged to finalize plans to allow for construction to begin by March, 2000.

The conference agreement has not provided funding as proposed in the budget request for full implementation of a new maintenance management system. The Service is approved to pursue a pilot demonstration program for a new facility management system, and understand that base funds will be applied toward this effort during fiscal year 2000. The Service is expected to provide an update on the results of the pilot program before proceeding with service-wide implementation.

The House and Senate Committees on Appropriations continue to monitor closely the Recreational Fee Demonstration program authorized in fiscal year 1996, particularly the National Park Service portion because of the size of that particular program. It is the Appropriations Committees' understanding that the Assistant Secretary for Policy, Management and Budget and the Assistant Secretary for Fish and Wildlife and Parks have both agreed upon a procedure for the National Park Service to follow in obtaining review and approval of expenditures of Recreational Fee Demonstration funds. All 80 percent projects for which the estimated total cost is \$500,000 or greater are reviewed by the NPS Development Advisory Board and require approval by the Director and both Assistant Secretaries, and are then submitted to the House and Senate Committees on Appropriations for approval prior to the obligation of funds for the project. For 80 percent projects for which the estimated total cost is \$100,000 or less, projects are reviewed against established program criteria and are approved by the respective NPS Regional Directors. All 80 percent projects over \$100,000 but less than \$500,000 require approval by the NPS Director and the Assistant Secretary for Fish and Wildlife and Parks, unless the project is replacement in kind or routine maintenance that protects prior investments, for which approval authority remains with the Regional Director. All 20 percent projects require approval by the NPS Director and both Assistant Secretaries, and those over \$500,000 are submitted to the Committees for approval. Listings of all projects, regardless of dollar amounts, are to be pro-

vided quarterly to the House and Senate Committees on Appropriations. Once the lists have been provided to the Committees for approval, any subsequent changes to these lists must also be forwarded to the Appropriations Committees for approval.

The Committees are aware of proposals to address needs in parks through the pursuit of non-Federal sponsors. The Committees have been, and continue to be, supportive of partnerships that further the Service's mission. The need for a certain degree of flexibility in order to respond to private philanthropic opportunities is understood. However, the conference agreement reiterates that partnerships should be linked to the accomplishment of service-wide goals and not pursued strictly for enhancing park infrastructure.

Partnership arrangements, including those where no Federal funds are involved, are not to be viewed as a way to bypass compliance with or adherence to existing policies, procedures, and approval requirements. Partnerships that benefit NPS sites or programs must have active involvement by NPS managers, and should be subject to the same review and approval requirements as projects funded with NPS funds. Review by the Development Advisory Board is expected for all partnership donation projects with a total cost above \$500,000. While some projects may be proposed to be accomplished without any Federal funds, the operation and maintenance requirements are frequently assumed to be the responsibility of the Service, and for this reason full review is expected before commitments are made.

Within the amounts provided, not less than \$500,000 is for maintenance activities at Isle Royale National Park to address infrastructure and visitor facility deterioration.

The National Park Service is directed to prepare a General Management Plan for the Lower East Side Tenement National Historic Site by November 2000 pursuant to section 104(c) of Public Law 105-378.

South Florida.—The conference agreement retains bill language in the land acquisition and state assistance account, as proposed by the House, that makes the \$10,000,000 grant to the State of Florida in the land acquisition account and the \$35,000,000 in Title VI subject to a fifty percent match of newly appropriated non-Federal funds. The State may not use funds for land acquisition which were previously provided in another fiscal year as the match. These funds are also subject to an agreement that the lands to be acquired will be managed in perpetuity for the restoration of the Everglades and other natural areas.

The conference agreement includes modified bill language in the land acquisition account which makes the release of the \$10,000,000 State grant funds subject to the Administration submitting legislative language that will ensure a guaranteed water supply to Everglades National Park and the remaining natural system areas located in the Everglades watershed, including but not limited to Big Cypress National Preserve, Biscayne National Park, Loxahatchee National Wildlife Refuge and Water Conservation Areas 2 and 3, as well as Biscayne Bay. While there has been recent testimony by the other partners, including the Army Corps of Engineers and the Florida Water Management District, assuring

the Congress that there will be adequate water supply to the natural areas, the water supply must include high-quality water and not merely storm water runoff.

It would be useful to have a complete estimate of the total costs to restore the South Florida ecosystem. The House and Senate Committees on Appropriations believe that this new estimate will exceed the \$7,800,000,000 estimate that has been used over the last five years. This recalculated estimate should include all three goals of this initiative, namely, (1) getting the water right, (2) restoring and enhancing the natural habitat, and (3) transforming the built environment. The Congress and the American people are committed to this project. Over \$1,300,000,000 has been appropriated to date; however, and the public deserves to know how much this project will truly cost. This information should be submitted to the House and Senate Committees on Appropriations no later than February 1, 2000, and should be updated biennially.

The Secretary of the Interior, in his capacity as Chair of the South Florida Restoration Task Force, is directed to develop a region-wide strategic plan as recommended by the General Accounting Office. The plan should coordinate and integrate Federal and non-Federal activities necessary to achieve the three ecosystem restoration goals. The Secretary is directed to submit a progress report to the House and Senate Committees on Appropriations in February, 2000, and the final strategic plan no later than July 31, 2000. This plan should be updated every two years.

The timely resolution of disputes regarding South Florida ecosystem restoration is important to avoid cost overruns and unnecessary delays in attaining the goals and benefits of the initiative. The Secretary of the Interior is directed to develop recommendations for resolving the most difficult conflicts and submit recommendations to the House and Senate Committees on Appropriations by February 15, 2000. These recommendations should be developed in consultation with the other major partners in this effort.

The Committees, through previous appropriations, have supported the preparation of a new General Management Plan for Gettysburg NMP to enable the NPS to interpret more adequately the Battle of Gettysburg and to preserve the artifacts and landscapes that help to tell the story of this great conflict of the Civil War. Accordingly, the conference agreement acknowledges the need for a new visitors facility and supports the proposed public-private partnership as a unique approach to the interpretive needs of our National Parks.

NATIONAL RECREATION AND PRESERVATION

The conference agreement provides \$53,899,000 for National recreation and preservation instead of \$49,449,000 as proposed by the House and \$51,451,000 as proposed by the Senate. The agreement provides \$533,000 for Recreation programs, the same as the House and Senate. The agreement provides \$10,090,000 for Natural programs as proposed by the House instead of \$10,555,000 as proposed by the Senate. This includes a \$500,000 general program increase and a \$285,000 increase for hydropower relicensing. While the conference agreement has not earmarked the River and Trails Conservation Assistance program, consideration should be given to

the following projects: Mt. Independence NHL trail work, the Back to the River initiative, NE, and the Harlan County coal heritage project, KY. This is a technical assistance program, and therefore it is not meant to provide for annual operating expenses or technical assistance beyond two years.

The conference agreement provides \$19,614,000 for Cultural programs instead of \$19,364,000 as proposed by the House and \$19,914,000 as proposed by the Senate. The change to the House level is an increase of \$250,000 for a Revolutionary War/War of 1812 Study. The conference agreement does not provide the increase of \$300,000 as proposed by the Senate for a pilot demonstration project to provide technical preservation and development assistance to non-Federal National Historic Landmarks. However, in providing funds for this core program, it is expected that the National Park Service will provide technical assistance to non-Federal National Historic Landmarks. This is the core mission of the National Historic Landmarks program: to identify and help protect significant historic properties possessing exceptional value such as the Weston State Hospital in West Virginia.

The conference agreement provides \$1,699,000 for International park affairs as proposed by the House and Senate, \$373,000 for environmental and compliance review as proposed by the House and Senate and \$1,819,000 for Grant administration as proposed by the House and Senate.

The conference agreement provides \$6,886,000 for the heritage partnership program as proposed by the House instead of \$5,886,000 as proposed by the Senate. The conference agreement provides the following disbursements of funds: \$1,000,000 each for the Ohio and Erie Canal National Heritage Corridor, the Essex National Heritage Area and the Rivers of Steel National Heritage Area, \$800,000 each for the Hudson Valley National Heritage Area and the South Carolina National Heritage Corridor and the balance of \$1,400,000 for the other four areas. The conference agreement provides \$886,000 for technical assistance, of which not more than \$150,000 may be provided for the Service's overhead expenses and the balance of which should be made available to the heritage areas for technical assistance agreed to by both the Alliance of National Heritage Areas and the National Park Service.

The conference agreement provides \$10,885,000 for Statutory or Contractual Aid instead of \$4,685,000 as proposed by the House and \$9,172,000 as proposed by the Senate. Funds are to be distributed as follows:

Of this amount, up to \$200,000 is provided for completing a Chesapeake Bay Watershed-wide framework for implementing this law. It is expected that this framework and the criteria and procedures for the proposed assistance program will be completed by the Service and approved by the House and Senate Committees on Appropriations prior to providing any specific grants and technical assistance to states, communities or other groups. The remaining \$400,000 will be available for competitive grants to meet the goals of the framework. A report is to be provided to the House and Senate Committees on Appropriations by April 1, 2000, on the framework goals and grants criteria and an annual end-of-year report, that details how the grants and technical assistance were allocated, the specific results of those individual grants and technical assistance and specifically how those projects relate to the framework and goals of the program.

The conference agreement provides on a one-time only basis, \$866,000 for the operation of the Oklahoma City Memorial, OK. It is noted that there was an unexpected delay in the construction of the memorial museum, which is the planned revenue source for the memorial.

The conference agreement provides \$2,000,000 for the Urban Parks and Recreation Recovery program instead of \$4,000,000 as provided by the House and \$1,500,000 as provided by the Senate.

The conference agreement includes language in the bill providing authority for the retention of fees for historic preservation tax certifications. Similar language was proposed by both the House and Senate.

The amounts provided for each program are increases above the fiscal year 1999 levels.

The conference agreement also includes \$30,000,000 for the second and last year of the Millennium Program. These grants are subject to a fifty percent cost share and no single project may receive more than one grant from this program. The funds are to be distributed as follows:

Bill Language.—The conference agreement does not include bill language as proposed by the House permitting Ellis Island to retain 100 percent of franchise fees subject to a requirement that these revenues be matched with non-Federal funds in fiscal year 2001.

The conference agreement earmarks \$885,000 for realignment of the Denali National Park and Preserve entrance road instead of \$1,100,000 as proposed by the Senate.

The conference agreement provides authority for the use of \$3,000,000 for the FDR Memorial instead of \$3,500,000 as proposed by the Senate. The Service is directed to modify the scope of the project to accomplish the same goal of providing an appropriate space for the privately funded new sculpture. The National Park Service should work closely with the National Organization on Disability on the plans for installing a statue at the FDR Memorial in Washington, D.C.

There are no earmarked funds for planning and development of interpretive sites at Saint Croix Island NHS as proposed in the Senate bill. Funds for this purpose should be derived from available planning funds.

The conference agreement provides \$500,000, subject to authorization, for studies on the preservation of certain Civil War battlefields along the Vicksburg Campaign Trail instead of \$1,000,000 as proposed by the Senate.

The conference agreement provides \$3,000,000 for the Wheeling National Heritage Area construction instead of \$5,000,000 as proposed by the Senate.

Language is included that provides one-year authorization of funding for the Lincoln Library and the Southwest Pennsylvania Heritage Area.

Language in Title I, General Provisions provides the National Park Service with authority to obligate certain fees for transportation services at Zion National Park in advance of the receipt of such fees.

The conference agreement provides \$4,300,000 for the Brown v. Board of Education NHS in Kansas. These funds are to complete the rehabilitation of the building and for exhibit planning. The amount provided is based on a revised estimate of obligations in fiscal year 2000.

Funds are provided for rehabilitation of sewer systems at Glacier National Park. The National Park Service has determined that the existing system cannot be upgraded sufficiently to meet state standards, and that therefore a replacement system likely will be required. Due to the additional time required to redesign the

project, construction funds for this project cannot be obligated in fiscal year 2000.

The conference agreement provides \$2,300,000 for Glacier Bay National Park and Preserve in Alaska. It is intended that \$1,400,000 be expended on the clean-up of contaminated soils at the site of the proposed visitor center. Another \$400,000 is provided for the Secretary to enter into a memorandum of understanding with the park concessionaire to design a visitor center that will be co-managed and co-operated by the Service and the concessionaire. Design costs are to be shared equally between the Service and the concessionaire except that the concessionaire may use in-kind services, cash, or a combination of both, as its share. The facility is expected to be at least 6,500 square feet and reserve an appropriate amount of space for non-exclusive use by the Hoonah Indian Association. In 1998, Congress approved the Glacier Bay National Park Boundary Adjustment Act of 1998 (P.L. 105-317), the purpose of which was to establish a process that could lead to the construction of a hydroelectric facility to provide power to Gustavus, Alaska. The hydroelectric project should be built and connected to the Park to protect the environment and to be more consistent with the purposes of the Park than the Park's use of diesel generators for power. Accordingly, \$500,000 is expected to be made available as a grant to Gustavus Electric Company to pay for studies required by the Act.

The conference agreement provides a total of \$3,650,000 for Denali National Park and Preserve in Alaska. These funds are intended for the following projects: \$2,015,000 for site work, \$885,000 for road realignment, \$175,000 for the South Denali/CIRI plan, \$125,000 for wildlife inventories and \$450,000 for planning for Phase I. The conference agreement directs funding of \$175,000 for the further development of plans to site National Park Service visitor services in facilities on Native lands near Talkeetna, Alaska.

The conference agreement does not earmark planning funds specifically for Kenai Fjords National Park. To the extent funds previously appropriated for this project are not sufficient to continue planning through fiscal year 2000, the Service should seek to provide any necessary funds from available planning funds.

The conference agreement provides \$500,000 for the G.W. Memorial Parkway in Virginia. Of this total, \$400,000 is available for a temporary alternative route at the Humpback Bridge, and \$100,000 is to conduct and complete a study to extend the Mt. Vernon multi-use trail north to I-495 in Virginia.

The conference agreement includes \$1,000,000 for the National Underground Railroad Freedom Center in Cincinnati subject to a non-Federal match and the enactment of authorization.

While the conference agreement has provided \$3,000,000 in funds for a new Lincoln Library in Springfield, Illinois, \$3,000,000 for Southwest Pennsylvania Heritage and \$3,000,000 for construction at the Wheeling National Heritage Area in West Virginia in fiscal year 2000, any future funding for these projects will be contingent on enacted authorization.

The conference agreement provides a total of \$500,000 for the research library administrative annex at Wilson's Creek National

Battlefield Visitor Center in Missouri. This completes the federal share of this project.

The conference agreement provides an appropriation of \$675,000 for the New River Gorge National River, West Virginia, for various construction projects. The agreement notes that \$500,000 in unobligated prior year funds are available to the New River Gorge for construction and that these funds are intended to be added to the \$675,000 in new appropriations (for a total of \$1,175,000) to carry out the highest priority construction needs of the New River Gorge National River for fiscal year 2000 as identified in Senate Report 106-99.

The conference agreement has not provided funds for unscheduled housing because the unobligated balance in this account exceeds \$22,000,000. The Committees have not agreed to release these funds until the Park Service agrees on a consistent new housing policy and standard construction designs that will be used for all trailer replacement units. The Service was supposed to present a complete package to the Committees on Appropriations in September 1999. As of November 5, 1999, no such proposal had been forwarded. The Service is strongly encouraged to submit the information to the Committees on Appropriations for approval so that these funds can be released.

The conference agreement provides \$12,000,000 for the Olympic National Park Elwha dam removal project. Within the funds provided, the National Park Service is directed to use up to \$5,500,000 to plan and design water supply mitigation measures for the City of Port Angeles. The National Park Service shall report final recommendations to the House and Senate Appropriations Committees no later than September 30, 2000. The Park Service shall also reimburse the City for current and future sunk costs reasonably incurred in studying and preparing water supply mitigation options associated with removing the Elwha dams up to \$500,000. The Park Service is urged to enter into a memorandum of understanding with the City of Port Angeles and other regional stakeholders setting forth the federal government's specific obligation with regard to the design, construction, operation, and maintenance of the domestic and industrial water mitigation measures as required by the Elwha River Ecosystem and Fisheries Restoration Act of 1992. The MOU should also define the specific roles of relevant federal agencies, the City of Port Angeles, and/or other regional stakeholders in the development and operation of the necessary water mitigation measures. The City of Port Angeles is encouraged to pursue an appropriate share of the costs related to upgrading its water system from the Environmental Protection Agency. An additional \$10,000,000 is included for this project in Title VI.

The National Park Service is urged to acquire title to the Elwha and Glines Canyon Dams by February 29, 2000, subject to agreement between the owners and the National Park Service on the details of the transfer. Pending completion of planning, design, and engineering work for removal of the dams, the Secretary may cease power production if he determines that such production is not cost effective.

The Service is directed to prepare special resource studies on the following areas: Anderson Cottage, Washington, District of Columbia; Bioluminescent Bay, Puerto Rico; Civil Rights Sites, multi-state; Crossroads of the American Revolution, Central New Jersey; Fort Hunter Liggett, California; Fort King, Florida; Gaviota Coast Seashore, California; Kate Mullany House, New York; Loess Hills, Iowa; Low Country Gullah Culture, multi-state; Nan Madol, State of Ponape, Federated States of Micronesia; Walden Pond and Woods, Massachusetts; World War II Sites, Commonwealth of the Northern Marianas; and World War II Sites, Republic of Palau. Bill language is included in Section 326 authorizing these studies.

LAND AND WATER CONSERVATION FUND

The conference agreement rescinds the contract authority provided for fiscal year 2000 by 16 U.S.C. 4601-10a as proposed by both the House and the Senate.

The conference agreement provides \$120,700,000 for land acquisition including stateside grants instead of \$132,000,000 as proposed by the House and \$107,725,000 as proposed by the Senate. Funds should be distributed as follows:

The conference agreement provides \$2,000,000 to purchase an easement on Thompson Island as part of the Boston Harbor Islands National Recreation Area in Massachusetts. The release of these funds is contingent upon a non-federal match to acquire the balance of the easement on the property.

The conference agreement provides \$5,000,000 to the National Park Service (NPS) and \$5,000,000 to the Bureau of Land Management (BLM) for land acquisition within the California desert. This funding is based on the understanding that the Wildlands Conservancy will acquire 8,000 additional acres, in consultation with the NPS and BLM, from willing sellers and small private inholdings within Joshua Tree National Park and the Mojave National Preserve during the next year. An additional \$5,000,000 is provided in Title VI for this land acquisition.

No additional funds will be provided for Catellus land acquisition in future years unless and until the Department of the Interior and Department of Defense completely resolve remaining issues relating to desert tortoise mitigation and land acquisition and expansion at the National Training Center for the Army at Fort Irwin in California.

Furthermore, the House and Senate Committees on Appropriations will consider an additional \$15,000,000 for California desert land acquisition up to a total of \$30,000,000. Future funding decisions will be based upon resolution by the two departments of the issues concerning desert tortoise mitigation and land acquisition and expansion at the National Training Center for the Army at Fort Irwin.

The conference agreement provides \$2,000,000 for land purchases at the Fredericksburg-Spotsylvania National Military Park in Virginia. Nearly \$2,000,000 in previously appropriated funds have not been obligated. The Park is strongly urged to obligate fully the funds provided in fiscal years 1999 and 2000. Future funding will not be provided until these funds are expended.

The conference agreement provides an additional \$1,600,000 for the Gettysburg National Military Park in Pennsylvania. This amount together with the \$4,500,000 in unobligated balances from prior fiscal years will complete the purchase of the Brown Ranch and provide for the acquisition of the Tower, which was appraised at \$3,000,000.

The conference agreement provides the following: Lands shall not be acquired for more than the provided appraised value (as addressed in section 301(3) of Public Law 91-646) except for condemnations and declarations of taking and tracts with an appraised value of \$50,000 or less, unless such acquisitions are submitted to the Committees on Appropriations for approval in compliance with established procedures.

The funds included for Paoli and Brandywine Battlefields are contingent upon authorization and a fifty percent non-Federal match.

The conference agreement provides the full \$31,900,000 to complete the land acquisition needs of the Everglades National Park, Biscayne National Park and Big Cypress National Preserve. The agreement provides \$10,000,000 for grants to Florida which are subject to a fifty percent match of newly appropriated non-Federal funds. An additional \$35,000,000 for these grants are provided in Title VI. The House bill language has been modified to make release of the grant funds to Florida subject to the submission of:

(1) detailed legislative language to the House and Senate Committees on Appropriations, agreed to by the Secretaries of the Interior and Army and the Governor of Florida, that provides assurances for the guaranteed supply of water to the natural areas in Southern Florida including all National Parks, Preserves, Wildlife Refuges and other natural areas; and

(2) a complete prioritized list of non-Federal land acquisitions. All State grant funds are contingent on new matching non-Federal funds and are subject to an agreement that the lands to be acquired will be managed in perpetuity for the restoration of the Everglades.

The conference agreement also provides the additional \$1,000,000 requested in the budget for acquisition management costs in Southern Florida but this amount is incorporated in the total acquisition management account. There was no need to provide a separate line for this purpose.

The conference agreement provides \$20,000,000 for Grants to States; an additional \$20,000,000 is provided for this purpose in Title VI.

Bill language allows the State of Wisconsin to receive grants for the purchase of lands for the Ice Age National Scenic Trail and North Country National Scenic Trail.

UNITED STATES GEOLOGICAL SURVEY

SURVEYS, INVESTIGATIONS, AND RESEARCH

The conference agreement provides \$823,833,000 for surveys, investigations, and research instead of \$820,444,000 as proposed by the House and \$813,093,000 as proposed by the Senate.

Increases above the House include \$250,000 for the Hawaiian volcano program, \$2,000,000 for minerals at risk, \$500,000 for the Great Lakes mapping coalition project, \$998,000 for watershed modeling, \$100,000 for the endocrine disrupter study in the Las Vegas Wash, \$500,000 for a monitoring well in Hawaii, \$200,000 for a hydrologic study of Noyes Slough, \$140,000 for the Southern Maryland ground water study, \$180,000 for a Yukon River salmon study, \$250,000 (for a total of \$500,000) for repairs to the Leetown science center, and \$500,000 for the Great Lakes boat restoration.

Decreases below the House include \$729,000 for technological efficiencies, \$500,000 for the real time hazards program in the water resources division, \$500,000 for amphibian research, and \$500,000 for the cooperative research units.

The House and Senate Committees on Appropriations have agreed to approve in part the Survey's proposed budget restructuring by establishing new "science support" and "facilities" budget line items. This action will improve the Survey's business practices and its relationship with its customers, and represents truth in budgeting. However, the Survey's proposal to establish a new "integrated science" budget activity is not agreed to. The House and Senate Committees on Appropriations see the need for and importance of an integrated approach to science, but believe that establishing such a policy is primarily a management issue and not a function of the structure of the budget. The Director is encouraged to employ the appropriate management, operational, fiscal, and programmatic means at the Director's disposal in order to achieve the goal of establishing an integrated science approach where appropriate.

Because of the severe budget constraints imposed on the appropriations process, no additional funds for new programs that were proposed in this year's budget were provided for. Therefore, no funds were provided for the community information partnership initiative or for the disaster information network.

The Survey should give priority consideration to the installation of water gages on the Alabama, Coosa, Tallapoosa, Apalachicola, Chattahoochee and Flint Rivers.

The conference agreement restores \$3,500,000 for coastal and marine geology programs. The conference agreement provides that a total of \$1,250,000 is designated for continuation of the joint Survey-Sea Grant Consortium South Carolina/Georgia Coastal Erosion Study as outlined in the Phase II Study Plan, of which \$250,000 is provided for the South Carolina coastal erosion monitoring program. Further, the Survey should continue its other high priority coastal and marine research programs, such as major studies of the Louisiana barrier islands, wetlands, hypoxia, and Lake Ponchartrain with the remaining available funds.

The conference agreement provides \$1,600,000 for the purchase of seismographic equipment as proposed by the House. It is expected that these funds will be allocated as indicated in the budget estimate.

MINERALS MANAGEMENT SERVICE

ROYALTY AND OFFSHORE MINERALS MANAGEMENT

The conference agreement provides \$110,682,000 for royalty and offshore minerals management as proposed by the Senate instead of \$110,082,000 as proposed by the House.

The \$600,000 increase above the House is for the Center for Marine Resources and the Environmental Technology program.

Within the funds provided \$1,400,000 is earmarked for the Offshore Technology Resource Center at Texas A&M University for high-priority offshore research associated with deepwater development.

OIL SPILL RESEARCH

The conference agreement provides \$6,118,000 for oil spill research as proposed by both the House and the Senate.

OFFICE OF SURFACE MINING RECLAMATION AND ENFORCEMENT
REGULATION AND TECHNOLOGY

The conference agreement provides \$95,891,000 for regulation and technology as proposed by the Senate instead of \$95,693,000 as proposed by the House. Funding for the activities should follow the Senate recommendation.

ABANDONED MINE RECLAMATION FUND

The conference agreement provides \$196,208,000 for the abandoned mine reclamation fund instead of \$196,458,000 as proposed by the House and \$185,658,000 as proposed by the Senate. The agreement provides \$181,019,000 for the environmental restoration activity, an increase of \$10,879,000 above the fiscal year 1999 funding level. Funding for the other activities follows the House recommendation. The House and Senate Committees on Appropriations have agreed on the House proposal to designate \$300,000 for the western Pennsylvania water quality demonstration project. The conference agreement authorizes up to \$8,000,000 for the Appalachian clean streams initiative as proposed by the House. The agreement includes the Senate proposed language allowing all funds from Title IV of the Surface Mining Control and Reclamation Act to be used as non-Federal cost shares.

BUREAU OF INDIAN AFFAIRS
OPERATION OF INDIAN PROGRAMS

The conference agreement provides \$1,670,444,000 for the operation of Indian programs instead of \$1,631,050,000 as proposed by the House and \$1,633,296,000 as proposed by the Senate.

Increases above the House include \$5,000,000 for the Indian Self Determination Fund, \$5,000,000 for other contract support costs, \$320,000 for new tribes, \$1,000,000 for student transportation, \$3,000,000 for facilities operations, \$2,000,000 for facilities maintenance, \$3,000,000 for tribally controlled community colleges, \$1,000,000 for fisheries enhancement, \$500,000 for tribal resource management, \$5,000,000 for implementation of the National Academy of Public Administration Report recommendations, \$3,000,000 for environmental management, \$20,000,000 for law enforcement, \$250,000 for the Crownpoint Institute of Technology, and \$600,000 for post secondary schools.

Decreases below the House include \$100,000 for Alaska legal services, \$108,000 for general program activities, \$3,573,000 for probate backlog, and \$1,495,000 for land records improvement. From within available funds, the Bureau of Indian Affairs is directed to provide \$108,000 to the United Sioux Tribes of South Dakota Development Corporation.

Over the past several years, the House and Senate Committees on Appropriations and the Department of the Interior have been concerned with improving the management of the Bureau of Indian Affairs which has consistently been criticized for organizational shortcomings. During this period, a number of reforms have been put in place which were designed to improve the Bureau's effectiveness and accountability. To the Bureau's credit it has made sub-

stantial progress in addressing its management problems. However, to truly address these issues one needs an analysis of the structure of the Bureau, how its management has changed over time due to increased tribal contracting and compacting, and the lack of concurrent shifts in the Bureau's management structure to these changing circumstances. To this end, the House and Senate Committees on Appropriations working with the Department of the Interior commissioned a study of the Bureau by the National Academy of Public Administration (NAPA). The NAPA study was tasked with providing recommendations for improving the quality, efficiency, and cost-effectiveness of the Bureau's operations.

The House and Senate Committees on Appropriations have received copies of the NAPA report titled, "A Study of Management and Administration: the Bureau of Indian Affairs". The report provides some excellent recommendations to improve the administrative activities of the Bureau and managerial control over the Bureau. The most startling finding of the NAPA study was that some of the basic administrative functions that are necessary for effective management, and that exist in other organizations, are absent in the Bureau. This finding led NAPA to conclude that Bureau personnel are hard working dedicated employees who are not provided with the tools to effectively do their jobs. For example, NAPA concluded that, "there is no existing capability to provide budget, human resources, policy, and other types of assistance to the Assistant Secretary—Indian Affairs and the Bureau." Even prior to the NAPA report, the House and Senate Committees on Appropriations were aware that the Office of the Assistant Secretary—Indian Affairs did not have the capability to develop and analyze policy recommendations. Therefore, \$250,000 has been provided under central office general administration as part of the fiscal year 2000 budget for the establishment of an office of policy analysis and planning in support of NAPA-related program reform efforts.

Consequently, the House and Senate Committees on Appropriations have provided \$5,000,000 to allow the Bureau to proceed with implementation of the NAPA report. In addition, the Bureau should incorporate the NAPA recommendations as part of the Bureau's fiscal year 2001 budget. It is recognized that implementation of the NAPA recommendations may require a reprogramming of funds. The Committees on Appropriations will look favorably on such requests and will try to expedite their approval. Lastly, the conference agreement directs the Bureau and the Department to keep the Committees on Appropriations fully informed as to the progress being made in implementing the NAPA recommendations.

The conference agreement provides \$592,000 for the Gila River Farms project with the understanding that the funding completes this multi-year agriculture project.

Within the funds provided for the Indian Arts and Crafts Board \$290,000 is earmarked for enforcement and compliance activities.

In recognition of the many pressing needs in public safety and justice and in order to allow the tribes and the Bureau to determine the priorities among those needs, the conference agreement has not earmarked funds for animal welfare and control efforts within the funds provided for law enforcement. However, there is

concern about the growing problems related to animal welfare and control on reservations and encourage the Bureau and the tribes to work with the Indian Health Service to determine if funding to address these problems should be included in future budget requests.

CONSTRUCTION

The conference agreement provides \$169,884,000 for construction instead of \$146,884,000 as proposed by the Senate and \$126,023,000 as proposed by the House.

Changes to the House number include an increase of \$45,374,000 for replacement school construction and decreases of \$500,000 for employee housing and \$1,013,000 from the safety of dams program. The funding increase provided for replacement school construction completes the next three schools on the priority list.

The House and Senate Committees on Appropriations remain troubled over the growing number of requests to use unobligated prior year school operations funds for replacement or repair of Bureau funded schools. The Congress has increased school operations funding every year for the past five years based on analysis by the Department, the Bureau, and the tribes showing that school operation funds remain well below the per student national average. Based on this analysis the House and Senate Committees on Appropriations are not convinced that any school should have carry-over operations funds at the end of the school year. Nevertheless, bill language has been included to allow the Tate Topa Tribal School, the Black Mesa Community School, and the Alamo Navajo School to use prior year operations funds for repair and replacement purposes. However, to ensure that the additional flexibility provided by this language does not create an incentive for schools to divert scarce operations dollars, any future requests require approval by the Secretary of the Interior. In addition, if this authority is used, the Secretary is directed to certify in writing to the House and Senate Committees on Appropriations that this request will not negatively impact the school's academic standards.

INDIAN LAND AND WATER CLAIM SETTLEMENTS AND MISCELLANEOUS PAYMENTS TO INDIANS

The conference agreement provides \$27,256,000 for Indian land and water claim settlements and miscellaneous payments to Indians instead of \$25,901,000 as proposed by the House and \$27,131,000 as proposed by the Senate.

Increases above the House level include \$1,000,000 for Aleutian Pribilof church repairs, \$230,000 for the Truckee River, and \$125,000 for the Walker River Paiute Tribe.

INDIAN GUARANTEED LOAN PROGRAM ACCOUNT

The conference agreement provides \$5,008,000 for the Indian guaranteed loan program as proposed by the House instead of \$5,004,000 as proposed by the Senate.

ADMINISTRATIVE PROVISIONS

The conference agreement includes bill language under the Bureau of Indian Affairs Administrative Provisions as proposed by the Senate that allows the use of prior year school operations funds to be used for replacement or repair of Bureau schools if approved by the Secretary.

The conference agreement modifies Senate proposed bill language included under the Bureau of Indian Affairs Administrative Provisions which clarifies that Bureau funded schools may share their campus with other schools that do not receive Bureau funding and have expanded grades, provided that any additional costs be provided by non-Federal sources.

The conference agreement modifies Senate proposed bill language under Title I General Provisions to direct that the allocation of funds to post secondary schools during fiscal year 2000 be determined by the post secondary funding formula adopted by the Office of Indian Education.

The Senate proposed bill language under General Provisions, Department of the Interior has been modified to allow the Secretary to redistribute Tribal Priority Allocation funds to address unmet needs, dual enrollment, overlapping service areas, or inaccurate distribution methodologies.

DEPARTMENTAL OFFICES

INSULAR AFFAIRS

ASSISTANCE TO TERRITORIES

The conference agreement provides \$70,171,000 for assistance to territories instead of \$62,320,000 as proposed by the House and \$67,325,000 as proposed by the Senate. The conference agreement follows the funding levels proposed by the Senate for the activities, except for a decrease of \$154,000 from the level proposed by the Senate for the Office of Insular Affairs and an increase of \$3,000,000 to the territorial assistance activity for Compact-Impact aid to Guam as authorized by the Compact of Free Association Act (P.L. 99-239). The conference agreement includes funding, as suggested by the Senate, for the Compact renegotiation process. The conference agreement also includes the language proposed by the Senate deferring part of the Covenant mandatory payment to the Commonwealth of the Northern Mariana Islands. The deferred funds are allocated to the Virgin Islands for federal mandates as directed by the Senate report. The Secretary should ensure that representatives of Hawaii are consulted during the upcoming compact renegotiation process so the impact to Hawaii of migrating citizens from the freely associated states is appropriately considered.

COMPACT OF FREE ASSOCIATION

The conference agreement provides \$20,545,000 for the Compact of Free Association as proposed by both the House and the Senate.

DEPARTMENTAL MANAGEMENT

SALARIES AND EXPENSES

The conference agreement provides \$62,864,000 for Departmental Management as proposed by the House instead of \$62,203,000 as proposed by the Senate. The conference agreement provides for the following distribution of funds:

Departmental direction	\$11,665,000
Management and coordination	22,780,000
Hearings and appeals	8,047,000

Investigations	4,940,000
Administration	5,880,000

OFFICE OF SPECIAL TRUSTEE FOR AMERICAN INDIANS

FEDERAL TRUST PROGRAMS

The conference agreement provides \$90,025,000 for Federal trust programs as proposed by the House instead of \$73,836,000 as proposed by the Senate.

Prior to the Department deploying the Trust Asset and Accounting Management System (TAAMS) in any Bureau of Indian Affairs Area Office, with the exception of locations in the Billings area, the Secretary should advise the Committees on Appropriations that, based on the Secretary's review and analysis, such systems meet TAAMS contract requirements and user requirements.

The conference agreement modifies House proposed bill language under Title I General Provisions to allow the Department to hire individuals other than administrative law judges (ALJ) to hear Indian probate cases, and to allow the Department to secure the services of ALJs from other Federal agencies as a means of reducing the Indian probate backlog.

INDIAN LAND CONSOLIDATION PILOT

The conference agreement provides \$5,000,000 for the Indian land consolidation pilot as proposed by the House and Senate.

The conference agreement includes a technical correction to the bill language to allow funds to be transferred to the Bureau of Indian Affairs for the administration of the consolidation pilot.

NATURAL RESOURCE DAMAGE ASSESSMENT AND RESTORATION

NATURAL RESOURCE DAMAGE ASSESSMENT FUND

The conference agreement provides \$5,400,000 for the natural resource damage assessment fund as proposed by the House instead of \$4,621,000 as proposed by the Senate.

GENERAL PROVISIONS, DEPARTMENT OF THE INTERIOR

The conference agreement includes sections 101 through 112 and sections 114 and 115 from the Senate bill which continue provisions carried in past years.

Section 113 contains a technical correction to the Senate language dealing with contract support costs paid by the Department of the Interior on Indian self-determination contracts and self-governance compacts as proposed by the House.

Section 116 changes the name of the Steel Industry American Heritage Area to the "Rivers of Steel National Heritage Area" as proposed by the House. The Senate had no similar provision.

Section 117 retains the text of section 116 as proposed by the Senate and provides for the protection of lands of the Huron Cemetery for religious and cultural uses and as a burial ground. The House had no similar provision.

Section 118 retains the text of section 114 as proposed by the House and section 118 as proposed by the Senate which permits the retention of rebates from credit card services for deposit to the Departmental Working Capital Fund.

Section 119 retains the text of section 115 as proposed by the House and section 119 as proposed by the Senate which permits the transfer of funds between the Bureau of Indian Affairs and the Office of Special Trustee for American Indians for the Trust Management Improvement Project High Level Implementation Plan.

Section 120 makes permanent the exemption from certain taxes and special assessments for properties at Fort Baker, Golden Gate National Recreation Area. The Senate had provided the exemption for one year.

Section 121 retains the text of section 117 as proposed by the House and section 121 as proposed by the Senate which permits the retention of proceeds from agreements and leases at Fort Baker, Golden Gate National Recreation Area for preservation, restoration, operation, maintenance, interpretation and related activities.

The conference agreement does not include language proposed in section 118 of the House bill requiring the renewal of grazing permits in the Lake Roosevelt National Recreation Area. Senate section 124 contained a similar provision and it is not included in the agreement either.

The House and Senate Committees on Appropriations are deeply concerned with the National Park Service's change in policy regarding historical grazing in the Lake Roosevelt National Recreation Area. The NRA was established on Federal lands acquired or withdrawn for the Grand Coulee Dam project. In 1946 and again in 1990, the Secretary of the Interior designated the NPS as the manager of the Federal lands within the NRA.

The House and Senate Committees on Appropriations recognize the cultural, custom and historic uses of the Lake Roosevelt National Recreation Area and expect the National Park Service to provide documentation to the Committees no later than July 1, 2000, on the history of grazing and all other uses that have existed since 1935 under the terms and provisions of the Columbia Basin Act and since 1946 under the terms and provisions of the Tri-Party Agreement. The report shall include the following: parties affected, acreage affected, description of uses, impacts of such custom and culture on the local economy, an analysis of the circumstances surrounding the National Park Service assumption of management of the area and suggestions for appropriate legislative language.

Section 122 makes a technical correction to the Omnibus Parks and Public Lands Management Act of 1996 (Public Law 104-333, 110 Stat. 4110) relating to a map reference to the Page Landing addition to the Colonial National Historical Park.

Section 123 modifies language proposed by the House in section 119 and by the Senate in section 117. The modification renews grazing permits based on the same terms and conditions as the expiring permits or until the Department completes processing the existing grazing permit backlog. The Department is directed to develop and implement a schedule to address and alleviate this backlog as soon as possible. To this end the conference agreement has provided an additional \$2,500,000 to expedite the grazing permit and lease renewal process. The House and Senate Committees on Appropriations expect these renewals to be completed in a timely manner so there will no longer be a need to continue to address this problem.

Section 124 modifies House section 120 and allows the Department to hire individuals other than administrative law judges and to secure the services of administrative law judges from other Federal agencies to address the Indian probate backlog. The Senate had no similar provision.

Section 125 retains the text of section 121 as proposed by the House allowing American Samoa to receive a loan which will be repaid from its proceeds from a settlement agreement with tobacco manufacturers. The Senate had no similar provision. The House and Senate Committees on Appropriations remain very concerned about the fiscal situation in American Samoa. The conference agreement includes the Senate proposal that the Secretary should not release certain funds withheld in fiscal year 1999 until the Secretary certifies that American Samoa implements activities regarding repayment for health care in Hawaii. It is expected that the substantial loan will be used effectively by American Samoa to provide a long-lasting fiscal remedy and economic development. The government is strongly encouraged to use some of these new funds for health care repayments which remain outstanding. The Sec-

retary is directed to craft the final loan agreement so that the principal of \$18,600,000, and interest calculated at the Congressional Budget Office's estimate of 5.4 percent, be fully repaid through the assignment of the tobacco lawsuit settlement funds over the next 26 years. At such time as these costs have been fully repaid the Secretary should act promptly to restore the tobacco settlement payments directly to American Samoa. The Secretary and the American Samoa government are also encouraged to work cooperatively to identify and bring economic development to the Territory. In addition, the Secretary is encouraged to consult with other Federal departments and agencies in this effort and make use of the recently established President's Interagency Group on Insular Areas to help achieve this goal.

The conference agreement does not include language proposed by the Senate in section 122 prohibiting the use of funds for the removal of the Elwha and Glines Canyon dams.

Section 126 modifies language as proposed by the Senate on a feasibility study for designating Midway Atoll as a National Memorial. The modification directs the Secretary, acting through the Fish and Wildlife Service (and its operating partner, Midway Phoenix Corporation) in coordination with the National Park Service, to pursue designation of Midway Atoll as a National Memorial to the Battle of Midway. It requires no study before establishment of the designation. The House had no similar provision. The Fish and Wildlife Service has an aggressive program underway at Midway relating to historic site protection, restoration and interpretation, and the House and Senate Committees on Appropriations fully support that effort by the Service and its operating partner.

Section 127 modifies section 125 as proposed by the Senate and provides the Secretary one year to redistribute Tribal Priority Allocation funds to address unmet needs, dual enrollment, overlapping service areas or inaccurate distribution methodologies. The House had no similar provision.

Section 128 retains the text of section 126 as proposed by the Senate prohibiting the use of funds to transfer land into trust status for the Shoalwater Bay Indian Tribe in Clark County, Washington, until the tribe and county reach agreement on development issues. The House had no similar provision.

Section 129 modifies section 127 as proposed by the Senate and limits the use of funds to implement Secretarial Order 3206 regarding the administration of the Endangered Species Act on Indian tribal lands. The modification permits implementation of the order except for two provisions. The first provision, which may not be implemented, would give preferential treatment to Indian activities at the expense of non-Indian activities in determining conservation restrictions to species listed under the Endangered Species Act. The second would give preferential treatment to tribal lands at the expense of other privately owned lands in designating critical habitat under the Endangered Species Act. The House had no similar provision.

Section 130 retains the text of section 128 as proposed by the Senate providing authority for the Bureau of Land Management to provide land acquisition grants to two local governments in Alaska. The House had no similar provision.

The conference agreement does not include section 129 as proposed by the Senate dealing with alternatives for the modification of Weber Dam. The projects listed in the section, however, have been funded and incorporated in the appropriate accounts. The House had no similar provision.

Section 131 retains the text of section 130 as proposed by the Senate redirecting \$1,000,000 from fiscal year 1999 appropriated funds for acquisition of the Howard Farm near Metzger Marsh, Ohio. The House had no similar provision.

The conference agreement does not include language proposed in section 131 of the Senate bill to place a moratorium on the issuance of final procedures for class III Indian gaming. This action is based on assurances from the Secretary that he will not implement final procedures until the Federal courts have ruled on this issue.

Section 132 modifies the text of section 132 as proposed by the Senate conveying certain lands to Nye County, Nevada. The House had no similar provision. The modification requires the county to pay an appropriate amount for the land.

Section 133 modifies the text of section 133 as proposed by the Senate conveying certain lands to the City of Mesquite, Nevada. The House had no similar provision. The modification requires the completion of environmental review prior to land conveyance.

Section 134 clarifies that section 134 as proposed by the Senate expresses the Sense of the Senate regarding exhibits commemorating the quadricentennial of European settlement at St. Croix Island IHS.

Section 135 retains the text of section 135 as proposed by the Senate prohibiting the Department of the Interior from studying or implementing any plan to drain Lake Powell or reduce water levels below levels required for the operation of Glen Canyon Dam. The House had no similar provision.

Section 136 modifies section 136 as proposed by the Senate dealing with the prohibition of inspection fees on certain exported hides and skins. The modification specifies that the prohibition on fees does not apply to any person who ships more than 2,500 hides, skins or parts during the course of one year. The House had no similar provision.

The conference agreement does not include language proposed by the Senate in section 138 prohibiting the implementation of sound thresholds at Grand Canyon National Park until 90 days after the National Park Service has provided a report detailing the scientific basis for such thresholds. The House had no similar provision.

Section 137 directs the Bureau of Indian Affairs to begin implementing the National Academy of Public Administration recommendations for improving the administration of the Bureau of Indian Affairs. In addition, this language directs that certain administrative functions be transferred from central office west to central office east. To facilitate this transfer and reduce any disruption, the House and Senate Committees on Appropriations have provided \$5,000,000 and language on employee compensation to alleviate the impact of reductions in force.

Section 138 modifies language as proposed by the Senate regarding funds appropriated in fiscal year 1998 for land acquisition in Haines Borough, Alaska.

Section 139 modifies section 142 as proposed by the Senate so that funds appropriated for Bureau of Indian Affairs Post Secondary Schools for fiscal year 2000 shall be allocated by the Post Secondary Funding Formula adopted by the Office of Indian Education Programs. The House had no similar provision.

Section 140 clarifies section 143 as proposed by the Senate that land and other reimbursement the Secretary may receive in the conveyance of the Twin Cities Research Center must be used for the benefit of the National Wildlife Refuge System in Minnesota and for activities authorized by Public Law 104-134. The House had no similar provision.

Section 141 modifies section 144 as proposed by the Senate regarding oil valuation regulations. This language places a moratorium on the issuance of the Minerals Management Service oil valuation regulations until March 15, 2000.

Section 142 extends through 2003 the authority of the Thomas Paine National Historical Association to establish a memorial to Thomas Paine in the District of Columbia.

Section 143 provides new contract authority regarding transportation concessions at Zion NP, Utah.

Section 144 provides an extension of the deadline for Red Rock Canyon National Conservation Area to allow the Bureau of Land Management sufficient time to process a pending rights-of-way application.

Section 145 increases to 15 percent the amount of funds that may be used by the National Park Foundation to administer the National Park Passport program.

TITLE II—RELATED AGENCIES

DEPARTMENT OF AGRICULTURE

FOREST SERVICE

FOREST AND RANGELAND RESEARCH

The conference agreement provides \$202,700,000 for forest and rangeland research instead of \$204,373,000 as proposed by the House or \$187,444,000 as proposed by the Senate. The agreement includes to the Senate proposal to direct \$250,000 to study hydrological and biological impacts of lead and zinc mining on the Mark Twain National Forest, MO. The bill language concerning prospecting permits and land withdrawals on this national forest has been moved to Title III. The agreement includes a funding decrease of \$2,574,000 from lower priority research but it does not include the Senate proposal to reduce non-forest health and productivity research specifically; nor are funds included for uncontrollable fixed cost support as proposed by the House.

The conference agreement includes the House proposed funding level for the forest inventory and analysis program. This program should focus on cost share opportunities with state partners and give first priority to those states that have demonstrated a

commitment to achieving the 20 percent annual plot measurement objective through cash or in-kind contributions.

The conference agreement includes the funding for the activities at Mount St. Helens proposed by the House. The Pacific Northwest (PNW) research station should collaborate with the National Monument staff and non-Federal scientists to assemble, summarize and archive long-term data sets on 20 years of biological responses at Mount St. Helens. The PNW should convene scientists with past or future involvement with ecological studies at Mount St. Helens to synthesize current knowledge and promote future studies.

The conference agreement provides no funding in the research account for the University of Washington landscape ecology study; rather, funds for this activity have been provided in the State and Private Forestry appropriation to maintain this effort at the fiscal year 1999 level.

The conference agreement includes the Senate proposal for a funding increase at the Sitka, AK, forest center and includes a \$300,000 increase above the fiscal year 1999 level for the Purdue University hardwood center. Funding for the Sitka facility should be included in the fiscal year 2001 budget justification.

The conference agreement does not include the Senate proposal for the University of Montana research nor the Senate proposed expansion of the CROP program, but it does maintain the CROP program at the fiscal year 1999 level at the Colville National Forest, WA.

The conference agreement moves \$1,000,000 from the national forest system account for the PNW station to fund the demonstration of ecosystem management options (DEMO) program; if additional funds are needed, they should be taken from the national allocation to research. The agreement concurs with the Senate colloquy that projects at West Virginia, Vermont, and the Forest Products lab should be funded at the fiscal year 1999 level as should the Coweeta and Bent Creek projects as proposed by the House. The agreement also provides that funding for the forest science laboratory in Juneau, AK, should be maintained at the fiscal year 1999 level.

The conference agreement directs that up to \$500,000 from the national allocation should be used, in a cost-share effort, to revise and update the Forest Service publication, "Carbon Changes in U.S. Forests". The updated publication should include all documentation of assumptions and methodologies used in estimating and projecting carbon sequestration using the forest carbon accounting model (FORCARB). A final draft of the updated publication should be presented to an accredited forestry school for scientific peer review by June 30, 2000, and an updated publication should be completed by September 30, 2000, and submitted to the House and Senate Committees on Appropriations.

The conference agreement revises instructions regarding services provided by Forest Service scientists in support of National Forest System (NFS) projects. Scientists should be available to support NFS project implementation as an important aspect of their professional public service and technology transfer responsibilities. The Forest Service is also encouraged to increase efforts at extra-

mural research and pursue additional cost-sharing for the full scope of forest and rangeland research.

STATE AND PRIVATE FORESTRY

The conference agreement provides \$202,534,000 for State and private forestry instead of \$181,464,000 as proposed by the House and \$190,793,000 as proposed by the Senate.

The conference agreement provides \$38,825,000 for Federal lands forest health management and \$21,850,000 for cooperative lands forest health management. The agreement includes the House proposal on Asian long-horned beetle work in urban areas and the Senate proposal for the Vermont forest cooperative. The agreement fully funds the gypsy moth slow-the-spread program. The agreement redirects the Senate proposal for Kenai Peninsula Borough, AK, assistance to the state fire assistance activity. The conference agreement directs the Forest Service to improve the control or eradication of the pine beetles in the Rocky Mountain region of the United States; to conduct a study of the causes and effects of, and solutions for, the infestation of pine beetles in the Rocky Mountain region of the United States; and to submit to the House and Senate Committees on Appropriations a report on the results of the study within six months of enactment of this Act.

The conference agreement includes \$24,760,000 for state fire assistance, including a special allocation of \$250,000 for the Senate-proposed project for wildfire training and equipment in Kentucky and \$2,000,000 for hazardous tree removal resulting from spruce bark beetle infestations in the Kenai Peninsula Borough, AK. The agreement includes the Senate direction concerning a direct lump sum payment to the Kenai Peninsula Borough and other direction concerning this funding. The conference agreement includes \$3,250,000 for volunteer fire assistance, an increase of \$1,250,000 above the fiscal year 1999 funding level.

The conference agreement includes \$29,430,000 for forest stewardship as proposed by the House. This funding includes the House-proposed funding for the New York City watershed and the NE Pennsylvania community forestry program and the Senate proposed funding for the Chesapeake Bay program. The conference agreement includes \$25,000,000 for the forest legacy program of which \$1,500,000 is directed for the Jefferson and Randolph, NH, project as proposed by the Senate, \$2,000,000 is included for the Niatous Lake, Phase 2 project in Maine and \$1,500,000 is for the Panguitch Lake, UT, project. The Forest Service and the States should develop forest legacy selection criteria that emphasize projects which enhance federal lands, federal investments, or past federal assistance efforts. The conference agreement includes \$31,300,000 for the urban and community forestry program which includes the House-proposed increase for the NE Pennsylvania forestry program and \$500,000 for the Senate-proposed Salt Lake City Olympic tree program. The Forest Service is encouraged to work with and help support the Chicago green streets program for urban forestry. The agreement does not include the Senate direction concerning headquarters staffing for the urban and community forestry program, but greater cost savings are encouraged at headquarters and regional office levels. In addition, the Forest Service

is directed to commission an independent study or panel to assess the feasibility and potential for enhanced efficiency by block-granting all or portions of the cooperative forestry program. This evaluation should be done in consultation with the state foresters, the Society of American Foresters, and other interested professional or citizens groups.

The conference agreement includes the following funding for the economic action program and the Pacific Northwest assistance program:

ECONOMIC ACTION PROGRAM	
Economic recovery	\$4,900,000

The conference agreement directs that within the funds provided for the rural development through forestry program \$3,000,000 is directed for the Northeast-Midwest area. The agreement includes \$500,000 for the Northern Forest Heritage Park, NH, within the available funds for the economic recovery program but the agreement stipulates that this will be the final Forest Service commitment for this effort and that this funding shall come from the allocation otherwise available to the Northeastern area.

The conference agreement provides an increase of \$100,000 in addition to the \$100,000 for the Hawaii forests and communities initiative within the economic action program as requested by the Administration. The agreement provides an increase of \$975,000 for the Princeton, WV, hardwood center in addition to \$1,520,000 included in the forest products conservation and recycling activity within the economic action program as requested by the administration. This brings the Princeton hardwood center funding to the FY 1999 level. The agreement also provides an increase of \$500,000 for the Four Corners sustainable forestry initiative which is in addition to \$500,000 that the agreement includes within the rural development through forestry activity as requested by the administration; this latter \$500,000 should come from the region's alloca-

tion. The agreement concurs with the Senate direction on lump sum payments with respect to the Forks, WA, Training Center.

The conference agreement revises instructions proposed by the House concerning the American Heritage Rivers initiative; the Forest Service may allocate up to \$300,000 for this effort. This funding should be used entirely for field activities, and no funds should be transferred to or used to fund personnel, training or other administrative activities at the Council on Environmental Quality or national interdepartmental coordination or training efforts. Bill language is also included in Title III concerning this matter. The agreement does not object to the Forest Service continuing to provide headquarters and regional administrative or technical support for this effort as they would for any program, but no staff at regional, headquarters or departmental levels should be substantially dedicated to this initiative. The Forest Service is encouraged to develop cost-share efforts for this initiative to the maximum extent feasible.

NATIONAL FOREST SYSTEM

The conference agreement provides \$1,269,504,000 for the national forest system instead of \$1,254,434,000 as proposed by the House and \$1,239,051,000 as proposed by the Senate. Funds should be distributed as follows:

Land management planning	\$40,000,000
Inventory and monitoring	88,350,000
Recreation management	155,500,000
Wilderness management	30,151,000
Heritage resources	13,214,000
Wildlife habitat management	32,561,000
Inland fish habitat management	23,341,000
Anadromous fish habitat management	26,091,000
TE&S species habitat management	26,932,000
Grazing management	28,982,000
Rangeland vegetation management	29,850,000
Timber sales management	224,500,000
Forestland vegetation management	63,340,000
Soil, water and air operations	26,932,000
Watershed improvements	36,850,000
Minerals and geology management	37,200,000
Real estate management	47,554,000
Land line location	15,468,000
Law enforcement operations	67,288,000
General administration	250,000,000
Land Between the Lakes NRA	5,400,000
Total, NFS	1,269,504,000

The conference agreement includes the following congressional priorities: recreation management includes a \$500,000 increase for the Monongahela National Forest, WV, as proposed by the Senate; rangeland vegetation management includes \$300,000 for noxious weed control on the Okanogan NF, WA, as proposed by the Senate and \$400,000 for Region 5 grazing monitoring as proposed by the House; timber sales management includes \$2,000,000 for the aspen program in Colorado as proposed by the Senate; forestland vegetation management includes \$240,000 for pinelands work on the Mark Twain NF, MO, and \$500,000 for spruce budworm work on the Gifford Pinchot NF, WA, proposed by the Senate and \$300,000 for the CROP project on the Colville NF, WA, and \$300,000 for

Cradle of Forestry, NC, environmental education as proposed by the House. The agreement provides no funds for the newly proposed forest ecosystem restoration and improvement activity but \$2,000,000 is included in the forestland vegetation management activity for work of this nature as well as \$1,000,000 for the Blue Ridge project on the Apache-Sitgreaves NF that the Senate had proposed funding within the forest ecosystem restoration and improvement activity. The Forest Service should consider enhancing the ecosystem restoration program, including the use of partnerships, in Region 3. The conference agreement also includes \$1,000,000 for the Wayne NF, OH, acid mine drainage work as proposed by the House; \$750,000 for Lake Tahoe basin watershed improvements proposed by the Senate; and \$750,000 for the Weyerhaeuser-Huckleberry land exchange supplemental environmental impact statement in Washington state as proposed by the Senate.

The conference agreement modifies bill language proposed by the House to require the display of unobligated balances by extended budget line items in the fiscal year 2001 budget justification.

The conference agreement provides funding in the timber sales management activity sufficient to maintain the same total timber sale volume as was proposed for fiscal year 1999; the total sale volume for fiscal year 2000 should be no less than the volume in fiscal year 1999. The report proposed by the Senate concerning timber growth, inventory and mortality should be submitted to the House and Senate Committees on Appropriations within 180 days of enactment. The drug law enforcement effort in Kentucky funding should be maintained at the 1999 level. The Forest Service should cooperate with the City of Fredonia, AZ, on standards for facilities for the North Kaibab ranger station and consider entering into an agreement with the city to occupy the facilities upon completion.

The conference agreement revises instructions proposed by the House concerning a detailed report on USDA and Forest Service fiscal, budget and related business activities. The Forest Service and the Department of Agriculture should present a clear exposition in their budget justifications explaining their respective responsibilities and funding concerning fiscal, budget and related business activities. The agreement also requests that the Forest Service provide a report to the House and Senate Committees on Appropriations within 180 days of enactment describing the public affairs and communications programs and outlining objectives, performance measures and expected costs for this effort. The agreement concurs with House recommended language concerning the Knutson-Vandenburg reforestation fund, salvage sale and brush disposal funds except that these funds may be used for national commitments within the Forest Service if the project relates to the fund's administration, management or authorized activity.

The conference agreement concurs with the House language that directs that no funds be used for the natural resource agenda or conservation education national commitment categories until a detailed, agency-wide spending plan, including funding sources and expected results, is approved by the House and Senate Committees on Appropriations. The agreement directs that no funds be used for

the construction of a national museum or visitor center in the Sidney R. Yates building without the review and approval of the House and Senate Committees on Appropriations. The agreement does not request the GSA report requested by the Senate concerning alternative office space for the Washington Office at this time.

Land Between the Lakes National Recreation Area—The agreement notes that the Energy and Water Development Appropriations Act, 2000, does not include funding for operation of the Land Between the Lakes National Recreation Area, KY and TN. Therefore, the management of this area will be transferred from the Tennessee Valley Authority to the U.S. Forest Service as directed by the Land Between the Lakes Protection Act of 1998 Title V of Sec. 101(e) of Public Law 105–277. The Land Between the Lakes (LBL) shall be managed as part of the national forest system for recreation in a manner consistent with the multiple use mandate of the Forest Service and the original 1972 LBL mission statement. The conference agreement also directs an orderly transfer of management from the Tennessee Valley Authority to the Forest Service. The agreement directs that the previously published guidelines for the transfer be followed; these are delineated on pages 1246 and 1247 of House Report 105–825 accompanying P.L. 105–277, the Omnibus Consolidated and Emergency Supplemental Appropriations Act for fiscal year 1999. The agreement includes a total of \$7,000,000 for the operation of LBL; this includes \$5,400,000 in the national forest system appropriation, \$1,300,000 in the reconstruction and maintenance appropriation and \$300,000 in the wildland fire management appropriation account.

The Forest Service wilderness management policy should consider the need for mitigating the adverse effect of human impact on vegetation, soil, water and wildlife. The agreement suggests that the policy should consider solitude as one among a number of qualities valuable to a wilderness experience but recognize that the 1964 Wilderness Act does not require solitude on every trail. The Forest Service should not impose a wilderness-wide blanket of determining use by social encounters (solitude).

The conference agreement recognizes the structural problems of the Long Park Dam in Daggett County, Utah. Recognizing the unique circumstances of the dam, its proximity to the Flaming Gorge National Recreation Area, and its significant contribution to the local economy of Daggett County, Utah, the agreement encourages the Secretary of Agriculture to make repair of the dam a priority within the Department of Agriculture's Natural Resource Conservation Service appropriation. The State of Utah is participating in the project on a 50/50 cost share basis. Should budgetary adjustments be necessary to provide for the federal share, the Secretary should do so in consultation with the House and Senate Committees on Appropriations.

WILDLAND FIRE MANAGEMENT

The conference agreement provides \$651,354,000 for wildland fire management instead of \$561,354,000 as proposed by the House and \$650,980,000 as proposed by the Senate. The conference agreement includes funding for fire operations and preparedness (includ-

ing Land Between the Lakes NRA) as proposed by the House and contingent emergency funding as proposed by the Senate. The agreement concurs with the Senate direction concerning acquisition of a high band radio system for the Monongahela NF, WV. The agreement calls for about \$70,000,000 to be reserved for hazardous fuel operations of which \$500,000 is designated for hazardous tree removal on the Chugach National Forest, AK, and \$1,500,000 is for implementing the Quincy Library group project as proposed by the Senate. The agreement does not specify any set amount of funding for particularly severe forest health areas as proposed by the House, but the Forest Service should follow other House and Senate instructions concerning this program, including a report within 120 days and full integration of this program with other vegetation, habitat management and watershed improvement programs. The agreement includes bill language proposed by the House which requires the transfer of not less than 50 percent of the unobligated balances remaining at the end of fiscal year 1999 to pay back funds previously advanced from the Knutson-Vandenburg reforestation fund during severe emergencies. This fund is still owed \$392,871,000 which was advanced for emergency wildfire fighting during previous years. The administration is again encouraged to make efforts to repay this important environmental restoration and protection fund.

RECONSTRUCTION AND MAINTENANCE

The conference agreement provides \$398,927,000 for reconstruction and maintenance instead of \$396,602,000 as proposed by the House and \$362,095,000 as proposed by the Senate. The conference agreement provides for the following distribution of funds:

Total reconstruction and maintenance	398,927,000

The conference agreement has included bill language as proposed by the Senate that requires the Forest Service to provide an opportunity for public comment on each road decommissioning project. The conference agreement has provided sufficient road reconstruction and construction funding to allow the timber sales program to offer the same level of harvest as in fiscal year 1999. The agreement notes that funds will not be used for the direct construction of new timber access roads; rather, the timber purchasers will provide for the actual construction, although the Forest Service will continue to provide all needed engineering support and project guidance. The agreement does not include the Senate recommendation that road reconstruction decreases should come from the Region 10 funding. The agreement includes \$100,000 for Noe's Dock boat ramp and \$325,000 for the Rockcastle project on the Daniel Boone NF, KY, and directs that the \$300,000 in the budget request originally designated for the Region 9 office move shall be used for the heating, ventilation and air conditioning systems at the Forest Products Lab, WI. The agreement emphasizes that the funding au-

thorization for the Auburn University forestry school construction project requires the University to provide the Forest Service with rent-free use of space for the life of the building for collaborative research.

LAND ACQUISITION

The conference agreement provides \$79,575,000 in new land acquisition funds and a reprogramming of \$40,000,000 in prior year funds instead of a total of \$1,000,000 as proposed by the House and \$36,370,000 as proposed by the Senate. Funds should be distributed as follows:

<i>State and project</i>	<i>Amount</i>
CA—Angeles NF (Pacific Crest Trail)	\$1,500,000
CA—Big Sur Ecosystem (Los Padres NF)	4,000,000

Cash Equalization	1,500,000
Emergency Acquisitions	1,500,000
Wilderness Protection	500,000
Total	\$79,575,000

The conference agreement provides \$1,000,000 for the Osceola National Forest, FL, to acquire black bear habitat. The agreement makes these funds contingent on an equal match from non-Federal sources. The project need is in excess of \$100,000,000. The State of Florida should partner with the Federal government on this and other projects which are under serious development threat. The conference agreement notes that the State's annual land acquisition budget exceeds that of the Federal program; the agreement provides Stateside land and water grants within the National Park Service appropriation for the first time in five years.

The conference agreement provides \$3,000,000 for the Pacific Northwest Streams initiative. Of this amount, \$2,000,000 is avail-

able for the Bowe Ranch, WA, and \$1,000,000 for the Bonanza Queen Mine, WA.

Senate Report 105-56, which accompanied the Fiscal Year 1999 Interior and Related Agencies Act, included a limitation on the purchase price for the acquisition of certain lands in the Columbia River Gorge NSA (CRGNSA), and also required a donation of a 40-acre tract adjacent to the CRGNSA. Both of these directives are hereby rescinded. The Forest Service shall notify the House and Senate Committees on Appropriations before finalizing the acquisition of these properties if the combined value of the acquisition of the Cannard Tract and the adjacent 40-acre parcel totals more than \$625,000. The agreement includes \$40,000,000 in previously appropriated funds for acquisition of the Baca Ranch subject to a specific authorization. An additional \$61,000,000 for the Baca Ranch acquisition is included in Title VI.

ACQUISITION OF LANDS FOR NATIONAL FORESTS SPECIAL ACTS

The conference agreement provides \$1,069,000 for the acquisition of lands for national forests special acts as proposed by both the House and the Senate.

ACQUISITION OF LANDS TO COMPLETE LAND EXCHANGES

The conference agreement provides an indefinite appropriation estimated to be \$210,000 for the acquisition of lands to complete land exchanges as proposed by both the House and the Senate.

RANGE BETTERMENT FUND

The conference agreement provides an indefinite appropriation estimated to be \$3,300,000 for the range betterment fund as proposed by both the House and the Senate.

GIFTS, DONATIONS AND BEQUESTS FOR FOREST AND RANGELAND RESEARCH

The conference agreement provides \$92,000 for gifts, donations and bequests for forest and rangeland research as proposed by both the House and the Senate.

ADMINISTRATIVE PROVISIONS, FOREST SERVICE

The conference agreement does not include language proposed by the House concerning Committee approval of organizational restructuring. However, the House and Senate Committees on Appropriations are concerned that the Forest Service is not doing all that is practicable to see that the maximum amount of funding gets to the field where there is so much need for management action and public service. In addition, the House and Senate Committees on Appropriations are concerned that the Forest Service has established new staff units within the Washington Office with very little Congressional consultation. While the agreement concurs that additional resources may be necessary to improve agency accountability, such increases should be strictly limited in order to assure maximum availability of funds for program accomplishment. The agreement directs the Forest Service to consult the House and Senate Committees on Appropriations prior to establishing new units

in the Washington Office where such units report to Associate Deputy Chiefs or above and for major reorganizations in the field where there is a significant deviation from the current organizational structure. Such deviation would be significant if the reorganizations involve a net increase in administrative support needs or where groups of employees are geographically relocated.

The conference agreement does not include language proposed by the House allowing the Secretary to use any available funds during wildland fire emergencies; the conference agreement continues the previous procedures as proposed by the Senate. The agreement includes House language which allows the release of non-wildland fire management funds for wildland emergencies only when all previously appropriated emergency contingent wildland fire funds have been released by the President and apportioned. The House and Senate Committees on Appropriations remain concerned that this Administration has been overly anxious to spend the KV reforestation fund on wildland fire emergencies and not sufficiently interested in paying the KV fund back. This fund provides for vital environmental restoration and protection activities including tree planting, watershed restoration, and wildlife and fish habitat enhancement.

The conference agreement does not include language proposed by the House preventing the transfer of Forest Service funds to the USDA working capital fund without advance approval from the House and Senate Committees on Appropriations. Clear statements should be included in future budget justifications concerning these and other departmental charges; the Forest Service should not be charged for Department of Agriculture administrative activities which should be funded by the Agriculture appropriations bill. In addition to the display contained in the agency budget justification, the agency should inform the House and Senate Committees on Appropriations immediately if the estimated total amount of funds to be transferred during the fiscal year differs from the agency estimate by more than 10 percent. The conference agreement further instructs the Secretary to provide the House and Senate Committees on Appropriations with a plan no later than March 31, 2000, for reduction of total charges against the agency beginning in fiscal year 2000.

The conference agreement includes language proposed by the Senate concerning clearcutting on the Shawnee National Forest, IL; this language was carried in previous bills. The conference agreement includes the Senate proposed funding level for the National Forest Foundation and includes the House proposed language concerning the payment to the National Fish and Wildlife Foundation. The agreement includes bill language proposed by the Senate concerning the definition of overhead and indirect expenses and limiting indirect expenses to 20 percent for certain trust funds and cooperative work funds. The House language is included which allows up to \$500,000 to be transferred to the Office of the General Counsel for certain travel and related expenses; the Senate had included similar language. The agreement modifies language proposed by the Senate allowing any funds available to the Forest Service to be used for law enforcement during emergencies; the modified language allows any funds to be used up to a maximum

of \$500,000 per year. This authority should only be used during real emergencies and every effort should be made to pay back the borrowed funds promptly during subsequent years. The agreement concurs with the House direction regarding the International Forestry program and it includes the Senate provision authorizing use of Forest Service funds to pay a certain employee for part of the cost of his house and possessions which were destroyed by arson because this arson appears to be retaliation for him performing his official job duties.

The agreement includes bill language directing that \$5,000,000 be allocated to the Alaska Region from fiscal year 1999 unobligated balances (excluding unobligated balances from the Alaska region) in addition to the \$20,600,000 appropriated to sell timber in the normal base program for fiscal year 2000. The funds provided from unobligated balances, plus \$5,100,000 from the base program, shall be used to prepare and make available timber sales to establish a three year timber supply for operators on the Tongass National Forest. Sales are to be prepared which have a high probability of being sold in order to facilitate a reliable Federal timber supply and transition to value added processing for the forest products industry in Southeast Alaska.

The conference agreement also includes bill language which appropriates \$22,000,000 to the Southeast Alaska economic disaster fund to be distributed over three years to the Ketchikan Gateway Borough, the City of Petersburg, the City and Borough of Sitka and the Metlakatla Indian Community. These funds are to be provided as direct lump sum payments and are to be used to employ unemployed timber workers and for related community redevelopment projects.

The House and Senate Committees on Appropriations have received the report from the National Academy of Public Administration (NAPA) on the Forest Service financial systems and budget structures. The House and Senate Committees on Appropriations are currently reviewing this important study and have assurances from the Secretary that he and the Forest Service will provide, by October 31, 1999, a report outlining specific steps, with deadlines, that the Forest Service will take to evaluate and implement NAPA recommendations as appropriate. The Academy's findings that the Forest Service has shown a substantial lack of leadership concerning managerial accountability are of great concern. The Forest Service and the Secretary should continue consultation with the House and Senate Committees on Appropriations concerning changes required to respond to this NAPA study. The Forest Service budget formulation and allocation processes do not provide sufficient linkage between on-the-ground needs and funding priority work. The Service must also address the consequences of inadequate performance. Development and implementation of sound performance measures will be needed before major budget restructuring is likely to be accepted by the House and Senate Committees on Appropriations. Another concern involves about the Forest Service granting approval to expand greatly the chief financial officer's staffing at headquarters: the Forest Service should pay close attention to NAPA recommendations concerning this matter and organizational structure.

DEPARTMENT OF ENERGY
CLEAN COAL TECHNOLOGY
(DEFERRAL)

The conference agreement provides for the deferral of \$156,000,000 in previously appropriated funds for the clean coal technology program as proposed by the Senate instead of a deferral of \$256,000,000 as proposed by the House. Up to \$14,400,000 may be used for program direction.

FOSSIL ENERGY RESEARCH AND DEVELOPMENT
(INCLUDING TRANSFER OF FUNDS)

The conference agreement provides \$419,025,000 for fossil energy research and development instead of \$280,292,000 as proposed by the House and \$390,975,000 as proposed by the Senate. Of the amount provided, \$24,000,000 is derived by transfer from the biomass energy development account.

Changes to the House position in advanced clean fuels research include increases of \$300,000 for coal preparation/carbon extraction from coal and \$250,000 for indirect liquefaction and a decrease of \$1,475,000 for direct liquefaction. For the advanced clean efficient power system program there is a decrease of \$1,000,000 for low emissions boiler systems and an increase of \$1,500,000 for Vision 21.

For natural gas programs there are increases to the House position in exploration and production of \$375,000 for arctic research and \$1,000,000 for methane hydrates; increases in advanced turbine systems of \$800,000 for mid-size turbines, \$2,500,000 for ramgen technology (coalbed methane), and \$41,008,000 for the utility turbines program that the House had proposed to transfer to the Energy Conservation account; and increases in emerging process technology of \$1,000,000 for gas-to-liquids/ITM Syngas and \$2,000,000 for coal mine methane.

Changes to the House position in the oil technology program include increases of \$375,000 for arctic research and \$250,000 for reservoir characterization/northern mid-continent atlas in exploration and production; an increase of \$750,000 for risk based data management systems and a decrease of \$2,000,000 for preferred petroleum upstream management in recovery field demonstrations; and an increase of \$3,500,000 for diesel biodesulfurization in Alaska.

Other changes to the House position include increases of \$5,000,000 for the black liquor gasification program, \$600,000 for cooperative research and development, \$2,400,000 for federal energy technology center program direction, \$600,000 for general plant projects, and \$79,000,000 which eliminates a general reduction to fossil energy programs.

The conference agreement provides for the following:

1. The black liquor gasification program should include the active involvement of the appropriate officials within the industries of the future program in energy conservation.

2. The funds provided for laser drilling may be used for other innovative technologies in addition to laser drilling.

3. Within the methane hydrate program, the Department is encouraged to consider the expertise of the Gulf of Mexico Hydrate Research Consortium in safety-related research.

4. Consideration should be given to a proposal to enhance the quality of low-grade sub-bituminous coal from the Powder River Basin by permanently removing moisture from the coal. This proposal also would provide economic development benefits for the Crow Nation. The Department is urged to evaluate this proposal and to consider providing technical assistance or other funding support to the extent the project represents a significant advance in coal dewatering technology, is consistent with the goals and objectives of the fossil energy program, and involves an appropriate degree of cost sharing.

5. The Department's PM 2.5 monitoring and research efforts should focus on developing data that respond to the fine particulate research needs identified in the Congressionally-mandated "National Research Council Priorities for Airborne Particulate Matter." To the extent feasible, the Department should coordinate with industry, State and university research efforts to clarify the uncertainties in the current understanding of fine particulate matter concentration, chemical composition and the relationship between personal exposure and ambient air quality. Research results should help Federal and State environmental regulators design plans that comply with the PM 2.5 ambient air standard and protect the public health.

ALTERNATIVE FUELS PRODUCTION

(INCLUDING TRANSFER OF FUNDS)

The conference agreement provides, as proposed by both the House and the Senate, for the deposit of investment income earned as of October 1, 1999, on principal amounts in a trust fund established as part of the sale of the Great Plains Gasification Plant in Beulah, ND, and immediate transfer of the funds to the General Fund of the Treasury. The amount available as of October 1, 1999, is estimated to be \$1,000,000.

NAVAL PETROLEUM AND OIL SHALE RESERVES

The conference agreement provides no new funding for the Naval petroleum and oil shale reserves as proposed by both the House and the Senate. Unobligated funds from previous fiscal years should be sufficient to continue necessary operations in fiscal year 2000.

ELK HILLS SCHOOL LANDS FUND

The conference agreement provides \$36,000,000 for the second payment from the Elk Hills school lands fund as proposed by the House instead of no funding as proposed by the Senate. This payment will be delayed until October 1, 2000, and the payment should be made on that date or as soon thereafter as possible.

ENERGY CONSERVATION
(INCLUDING TRANSFER OF FUNDS)

The conference agreement includes \$745,242,000 for energy conservation instead of \$731,822,000 as proposed by the House and \$684,817,000 as proposed by the Senate. Of the amount provided, \$25,000,000 is derived by transfer from the biomass energy development account.

Changes to the House position in building research and standards include increases of \$2,201,000 for building America and \$500,000 for technology roadmaps and a decrease of \$300,000 for industrialized housing in residential buildings; an increase of \$1,700,000 for commercial buildings research and development; and increases of \$470,000 for lighting research and development, \$3,250,000 for space conditioning and refrigeration, \$1,800,000 for cogeneration/fuel cells and \$1,797,000 for lighting and appliance standards in equipment, materials and tools. For the building technology and assistance program there is an increase of \$2,000,000 for the weatherization assistance program and an increase of \$500,000 for State energy program grants. For management and planning there is a decrease of \$300,000 in support for State and local grants. There are also increases of \$1,000,000 for Rebuild America, \$2,000,000 for cooperative programs with States and \$3,900,000 for the energy efficiency science initiative.

Changes to the House position in industry programs include increases of \$1,000,000 for the petroleum refining vision for biodesulfurization of gasoline, \$2,000,000 for reciprocating engines \$2,000,000 for a cogeneration field test and \$2,000,000 for characterization of oxidation behavior and a decrease of \$3,000,000 for industrial turbines in distributed generation; an increase of \$300,000 for technical assistance/integrated delivery; an increase of \$500,000 for precision forging; a decrease of \$41,008,000 for utility turbines that the House had proposed to transfer from the fossil energy account; and decreases of \$550,000 for NICE³, \$100,000 for inventions and innovations, \$200,000 for industrial assessment centers, \$400,000 for motors and compressed air, and \$250,000 for steam challenge. There are also increases of \$2,000,000 for cooperative programs with the States and \$3,900,000 for the energy efficiency science initiative.

Changes to the House position for transportation programs/vehicle technology include an increase of \$3,000,000 for advanced power electronics and a decrease of \$1,900,000 in hybrid systems; increases of \$400,000 for fuel cell systems, \$1,600,000 for stock components, and \$2,620,000 for fuel processing and storage in fuel cell research and development; decreases of \$500,000 each for light truck engines and for heavy truck engines in the advanced combustion engine program; and increases of \$800,000 each for CARAT and GATE in cooperative research. For fuels utilization there are increases of \$1,600,000 for advanced petroleum fuels for heavy trucks and \$1,000,000 for alternative fuels for automobiles/light trucks. For technology deployment there is a decrease of \$10,000 for advanced vehicle competitions. There are also increases of \$1,000,000 for high power energy storage, \$2,000,000 for heavy vehicle propulsion systems, \$3,000,000 for combustion and

aftertreatment, \$1,000,000 for heavy vehicle systems, \$1,500,000 for advanced petroleum fuels for automobiles and light trucks, \$1,000,000 for automotive lightweight materials, \$2,000,000 for cooperative programs with the States, and \$3,900,000 for the energy efficiency science initiative. In policy and management there is an increase of \$1,000,000 for a National Academy of Sciences review of fossil fuel and conservation research efforts as described below and decreases of \$100,000 for the headquarters working capital fund, \$300,000 for international market development programs, and \$200,000 for information and communications.

Bill Language.—Bill language proposed by the House that requires a 25 percent State cost share for the weatherization assistance program has been modified. The modification delays the cost-sharing requirement until fiscal year 2001 and thereafter to allow sufficient time for the States to prepare for this new requirement. The cost share must be non-Federal for each State or other qualified participant but is not strictly limited to funds appropriated by each State or other qualified participant.

The conference agreement provides for the following:

1. While language in the bill earmarking funds for grants to municipal governments as proposed by the Senate has not been included, the Department is urged to continue working closely with municipal governments and with the States to address municipal and community energy challenges. The Department should support worthy project proposals that address these issues within the amount provided for the buildings, industry and transportation programs.

2. The direction in the House report with respect to continuing fiscal year 1999 programs does not preclude the program eliminations and consolidations proposed in the budget request unless expressly identified to the contrary.

3. In addition to the development project identified in the Senate report, the amount provided for fuel cells for buildings includes \$750,000 to continue the partnership established with Materials and Electrochemical Research Corporation to work on polymer electrolyte membrane (PEM) fuel cells in collaboration with the Oak Ridge National Laboratory.

4. Within the funds provided for the Industries of the Future petroleum program, the Department is encouraged to continue support for research on the biocatalytic desulfurization of gasoline.

5. The reciprocating engine program should include the active involvement of the appropriate officials within the fossil energy program.

6. The increase for characterization of oxidation behavior is for rig testing in the turbine program. The Oak Ridge National Laboratory should be involved in this effort.

7. The Department has placed a high priority on combustion and aftertreatment in the transportation program an increase is provided in that program area. The House and Senate Committees on Appropriations are willing to consider a reprogramming request for additional funds if acceptable offsets are identified.

8. The Department should support hybrid-electric buses by funding integration and refinement of advance hybrid-electric drive trains by bus makers and propulsion teams that have dem-

onstrated the successful application of hybrid-electric drive trains in actual transit programs.

9. The Department should use the expertise of the Consortium for Advanced Transportation Technologies and its streamlined competitive, cost-shared procurement process across the various transportation programs.

10. Continued industry support for the hybrid lighting partnership is encouraging and the Department should continue the program in fiscal year 2000.

11. Reports that cost accounting standards and cost principles in the Federal Acquisition Regulations may be hindering contracting with certain commercial entities are of concern and the Department should submit a report by December 15, 1999 detailing problems in this area and making recommendations for addressing these problems in the future.

12. The \$1,000,000 provided for a National Academy of Sciences study is for a retrospective examination of the costs and benefits of Federal research and development technologies in the areas of fossil energy and energy efficiency. The study should identify improvements that have occurred because of Federal funding for: (1) fossil energy production with regard to performance aspects such as efficiency of conversion into electricity, lower emissions to the environment and cost reduction; and (2) energy efficiency technologies with regard to more efficient use of energy, reductions in emissions and cost impacts in the industrial, transportation, commercial and residential sectors. If the full amount provided is not needed for this study, the House and Senate Committees on Appropriations should be notified of the available balance. None of these funds may be used to fund overhead costs or other energy conservation programs. The Department has an arrangement with the National Academy of Sciences that will streamline the procurement process and the Department should expedite the necessary paperwork to get this study underway within 30 days of enactment of this Act.

13. A total of \$6,000,000 is provided for crosscutting cooperative programs with the States. No funds should be assessed for this activity from other activities funded by this Act.

14. A total of \$11,700,000 is provided for peer-reviewed, cost-shared, competitively awarded grants in support of an energy efficiency science initiative as approved by the Science Committee in the House of Representatives.

ECONOMIC REGULATION

The conference agreement provides \$2,000,000 for economic regulation as proposed by both the House and the Senate.

STRATEGIC PETROLEUM RESERVE

The conference agreement provides \$159,000,000 for the strategic petroleum reserve as proposed by the Senate instead of \$146,000,000 as proposed by the House. Bill language is included dealing with borrowing authority in the event of an SPR drawdown under this account as proposed by the Senate rather than addressing this provision under Administrative Provisions, Department of Energy as proposed by the House.

ENERGY INFORMATION ADMINISTRATION

The conference agreement provides \$72,644,000 for the energy information administration as proposed by the House instead of \$70,500,000 as proposed by the Senate.

ADMINISTRATIVE PROVISIONS, DEPARTMENT OF ENERGY

Bill language is included directing the Secretary of Energy, in cooperation with the Administrator of the General Services Administration, to transfer the site of the former National Institute of Petroleum Energy Research to the city of Bartlesville, Oklahoma. The House and Senate Committees on Appropriations understand that the Department agrees that this is an appropriate way to dispose of this property that is no longer needed by the Department because of the privatization of NIPER.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

INDIAN HEALTH SERVICE

INDIAN HEALTH SERVICES

The conference agreement provides \$2,078,967,000 for Indian health services instead of \$2,085,407,000 as proposed by the House and \$2,138,001,000 as proposed by the Senate.

Changes to the House position in hospital and clinic programs include increases of \$2,440,000 for the operation of Alaska facilities and \$200,000 for epidemiology centers and decreases of \$1,000,000 for the health care improvement fund and \$110,000 for Shoalwater Bay infant mortality prevention.

There are also increases of \$1,500,000 for dental services and \$1,030,000 for public health nursing and a decrease of \$500,000 for mental health services. For contract support costs, there is a decrease of \$10,000,000.

Bill Language.—Language is included permitting the use of Indian Health Care Improvement Fund monies for activities typically funded under the Indian Health Facilities account. The Service should notify the House and Senate Committees on Appropriations on the distribution and use of these funds. A total of \$10,000,000 has been provided. Indian Health Care Improvement Fund monies should be distributed to increase the level of need funded for the most underfunded tribes. Language also is included permitting the use of up to \$10,000,000 in contract support cost funding for new and expanded contracts and compacts.

The conference agreement provides for the following:

1. The \$4,000,000 provided for the Alaska telemedicine project is for the Alaska Federal Health Care Access Network.

2. The increase provided for epidemiology centers includes a \$100,000 increase for the Portland, OR center. The state-of-the-art work done by this center is impressive and the Service should use the expertise at the Portland center to assist the other epidemiology centers.

3. At least \$1,000,000 of the program increase for dental health should be used to develop four clinical and preventive dental support centers.

4. Within the program increase for public health nursing, the Service should hire a nurse for the Havasupai, AZ clinic.

5. The lack of a resolution to the contract support costs distribution disparity in IHS continues to be a great concern. The Service is strongly encouraged to continue its work with the tribes to resolve the discrepancies that exist currently and ensure that these costs can be funded fairly. Any resolution to the issue should not be made at the expense of funding for medical services and facilities for non-contracting and non-compacting tribes.

6. With respect to the House language on distribution of funds, fixed cost increases that are provided should be distributed equitably across all Service-operated and tribally-operated programs. Other program increases should not automatically be distributed on a pro-rata basis. For example, a \$1,000,000 program increase distributed across all health programs would give each program an insignificant amount of additional funding. In such a case, the Service should select a very limited number of projects so that demonstrable results can be achieved. The Service should develop objective criteria for evaluating project proposals prior to the distribution of program-specific increases that are unrelated to fixed costs.

7. Fetal alcohol syndrome and its impact on Indian families and Indian communities continues to be a great concern and there is a need for more collaborative efforts to address this important health problem. The University of Washington's fetal alcohol syndrome research program should consider a partnership with the Northwest Portland Indian Health Board to provide more direct services to the American Indian and Alaska Native communities through training and consultation and collaborative analysis of the data surrounding fetal alcohol syndrome and fetal alcohol effect.

8. The Service is encouraged to ensure that adequate funding is provided to support IHS and tribal epidemiological activities related to the surveillance and monitoring of AIDS/HIV and other communicable and infectious diseases.

9. On October 27, 1999, the United States Court of Appeals for the Federal Circuit overturned a judgment by the Department of the Interior Board of Contract Appeals with respect to contract support costs (Bruce Babbitt, Secretary of the Interior v. Oglala Sioux Tribal Public Safety Department). The court decision clearly states that the law unequivocally makes contracts providing such costs subject to the availability of appropriations and that any agency can only spend as much money as has been appropriated for contract support costs. Any shortfall does not create an unfunded liability for the Federal government.

INDIAN HEALTH FACILITIES

The conference agreement provides \$318,580,000 for Indian health facilities instead of \$312,478,000 as proposed by the House and \$189,252,000 as proposed by the Senate.

Changes to the House position include increases of \$1,500,000 for sanitation construction, \$2,942,000 for the Parker, AZ clinic construction and \$1,000,000 for Fort Defiance, AZ hospital construction and a decrease of \$1,745,000 for the Pawnee, OK clinic design. There is also an increase of \$2,405,000 for facilities and environmental health support.

Bill Language.—Several provisions are included to ensure that the facilities program is able to take advantage of certain purchase opportunities from other agencies and that construction projects can be successfully completed.

Language is included to assist the Hopi Tribe with the debt associated with the construction of staff quarters that is being financed with tribal funds.

Language is included permitting the use of up to \$500,000 to purchase equipment from the Department of Defense and permitting the use of up to \$500,000 to purchase ambulances, including medical equipment, from the General Services Administration.

Language is included permitting the use of up to \$500,000 for demolition of Federal facilities.

Language is included permitting the purchase of up to 5 acres to expand the parking facilities at the IHS hospital in Tahlequah, OK.

The conference agreement provides for the following:

1. The funds provided for Fort Defiance, AZ, hospital construction do not include staff quarters construction which is subject to the guidance provided in item number five below.

2. The funds for staff quarters at Zuni are for uniform building code approved modular housing.

3. The program increase provided for facilities and environmental health support is not specifically earmarked for individual programs; however, a portion of the total increase should be dedicated to injury prevention efforts. The Service should notify the House and Senate Committees on Appropriations on how the Service proposes to distribute these funds.

4. Within the funds provided for maintenance and improvement, \$1,000,000 is to be used for environmental remediation at Talihina, OK.

5. The Service needs to develop a standardized methodology for construction of staff quarters. That methodology should assume the use of uniform building code approved modular housing unless there is a compelling reason why such housing is not appropriate. The methodology should be applied fairly to all quarters projects on the priority list and should encourage tribal funding and alternative financing. The Service should address the new methodology in their 2001 budget request.

6. The Service may use up to \$5,000,000 in sanitation funding for projects to clean up and replace open dumps on Indian lands pursuant to the Indian Lands Open Dump Cleanup Act of 1994.

7. The Service should work closely with the tribes and the Administration to make needed revisions to the facilities construction priority system. Given the extreme need for new and replacement hospitals and clinics, there should be a base funding amount, which serves as a minimum annual amount in the budget request. Issues which need to be examined in revising the current system include, but are not limited to, projects funded primarily by the tribes, anomalies such as extremely remote locations like Havasupai, recognition of projects that involve no or minimal increases in operational costs such as the Portland area pilot project, and alternative financing and modular construction options. The Service in re-examining the current system for construction of health facili-

ties, should develop a more flexible and responsive program can be developed that will more readily accommodate the wide variances in tribal needs and capabilities.

OTHER RELATED AGENCIES

OFFICE OF NAVAJO AND HOPI INDIAN RELOCATION

SALARIES AND EXPENSES

The conference agreement provides \$8,000,000 for salaries and expenses of the Office of Navajo and Hopi Indian Relocation as proposed by the Senate instead of \$13,400,000 as proposed by the House.

INSTITUTE OF AMERICAN INDIAN AND ALASKA NATIVE CULTURE AND ARTS DEVELOPMENT

PAYMENT TO THE INSTITUTE

The conference agreement provides \$2,125,000 for payment to the institute instead of the \$4,250,000 proposed by the Senate and zero funding as proposed by the House.

The conference agreement provides \$2,125,000 to the institute with the understanding that these funds are subject to a one-to-one match from non-Federal sources. In addition, the House and Senate Committees on Appropriations note that this is the last year that Federal funding will be provided for institute operations.

SMITHSONIAN INSTITUTION

SALARIES AND EXPENSES

The conference agreement provides \$372,901,000 for salaries and expenses instead of \$371,501,000 as proposed by the House and \$367,062,000 as proposed by the Senate. Included in this amount is \$18,329,000 to fund fully the estimated cost increases associated with pay and benefits, utilities, communications and postage, rental space, and implementation of the Panama Canal Treaty at the Tropical Research Institute. A revised estimate of utilities costs by the Smithsonian has resulted in a decrease of \$1,100,000 from the original budget submission and is reflected in the foregoing total. In agreement with the House, an additional amount of \$5,000,000 is provided to the National Museum of the American Indian to meet anticipated expenses that will be incurred in moving staff and collections from New York City to the Cultural Resources Center in Suitland, Maryland. An additional amount of \$2,500,000 is provided to the National Museum of Natural History's Arctic Studies Center. A provision included in the House bill that would allow federal appropriations designated for lease or rent payments to be used as rent payable to the Smithsonian and deposited in the Institution's general trust fund account has been retained in the conference report.

REPAIR, REHABILITATION AND ALTERATION OF FACILITIES
(INCLUDING TRANSFERS OF FUNDS)

The conference agreement provides an amount of \$47,900,000 to fund activities in this account, as proposed by the House and agreed to by the Senate. Within this total, \$6,000,000 is provided specifically for repairs and improvements at the National Zoological Park. The conference agreement includes the proposal put forward by the Smithsonian to consolidate their previous budget structure, whereby separate accounts for Zoo Construction and Improvements, Repair and Restoration of Buildings, as well as the Alterations and Modifications portion of the Construction account, have been merged into one broad account designated as Repair, Rehabilitation and Alteration of Facilities. In agreeing to the proposal, the House and Senate Committees on Appropriations want to underscore the Institution's responsibility for ensuring that future budget estimates contain sufficiently detailed information for the various activities covered by this new account. In addition, the Smithsonian Institution is directed to provide the Committees on Appropriations with a report to be submitted annually by December 1, which details expenditures, obligations and remaining balances for this account from the previous fiscal year.

CONSTRUCTION

The conference agreement provides \$19,000,000 for construction as proposed by both the House and the Senate. With this appropriation, the Congress has fulfilled its commitment to provide Federal funding for construction of the National Museum of the American Indian on the National Mall in Washington, D.C.

ADMINISTRATIVE PROVISIONS, SMITHSONIAN INSTITUTION

The conference agreement includes a modification of language included in the House bill that will permit the Smithsonian to make minimal necessary repairs to the Holt House.

NATIONAL GALLERY OF ART

SALARIES AND EXPENSES

The conference agreement provides \$61,538,000 for salaries and expenses of the National Gallery of Art as proposed by the House instead of \$61,438,000 as proposed by the Senate.

REPAIR, RESTORATION AND RENOVATION OF BUILDINGS

Fellowship program	\$983,000
Scholar support	705,000
Public service	1,897,000
Administration	1,796,000

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

NATIONAL ENDOWMENT FOR THE ARTS

GRANTS AND ADMINISTRATION

The conference agreement provides \$85,000,000 for grants and administration instead of \$83,500,000 as proposed by the House and \$90,000,000 as proposed by the Senate. The conference agreement includes the Senate proposal to redirect \$1,500,000 from matching grants to program grants.

MATCHING GRANTS

The conference agreement provides \$13,000,000 for matching grants as proposed by the Senate instead of \$14,500,000 as proposed by the House. The conference agreement includes the Senate proposal to redirect \$1,500,000 from matching grants to program grants.

NATIONAL ENDOWMENT FOR THE HUMANITIES

GRANTS AND ADMINISTRATION

The conference agreement provides \$101,000,000 for grants and administration as proposed by the Senate instead of \$96,800,000 as proposed by the House. The National Endowment for the Humanities has for several years supported important efforts to preserve disintegrating books, periodicals and other published materials. While the Endowment acknowledges that other elements of our culture and heritage—such as films and sound recordings—are also at risk, its efforts in these areas have been considerably less. The House and Senate Committees on Appropriations are concerned that much of the musical heritage of the nation—as represented by early sound recordings—is irrevocably lost with each passing year. Consequently, the National Endowment for the Humanities is strongly encouraged to strengthen and expand its support of efforts to preserve the rich and important heritage

of early sound recordings. Within this effort, the NEH is encouraged to place emphasis on such traditional music forms as folk, jazz and the blues. The Endowment is directed to provide a report to the House and Senate Committees on Appropriations by March 30, 2000, detailing the state by state distribution of the various grants and other NEH funding.

MATCHING GRANTS

The conference agreement provides \$14,700,000 for matching grants as proposed by the Senate instead of \$13,900,000 as proposed by the House.

INSTITUTE OF MUSEUM AND LIBRARY SERVICES

OFFICE OF MUSEUM SERVICES

GRANTS AND ADMINISTRATION

The conference agreement provides \$24,400,000 for the Office of Museum Services as proposed by the House instead of \$23,905,000 as proposed by the Senate. The conference agreement provides the funding proposed by the House for program administration and agree that the remaining funding increase above that provided in fiscal year 1999 should be designated for national leadership grants for museums.

COMMISSION OF FINE ARTS

SALARIES AND EXPENSES

The conference agreement provides \$1,005,000 for the Commission of Fine Arts instead of \$935,000 as proposed by the House and \$1,078,000 as proposed by the Senate. The conference agreement includes the House proposal to provide one-year authority for the Commission to charge fees to cover publication costs and use the fees without subsequent appropriation. The conference agreement includes all House report language.

NATIONAL CAPITAL ARTS AND CULTURAL AFFAIRS

The conference agreement provides \$7,000,000 for National Capital Arts and Cultural Affairs as proposed by both the House and the Senate.

ADVISORY COUNCIL ON HISTORIC PRESERVATION

SALARIES AND EXPENSES

The conference agreement provides \$3,000,000 as proposed by the House instead of \$2,906,000 as proposed by the Senate.

NATIONAL CAPITAL PLANNING COMMISSION

SALARIES AND EXPENSES

The conference agreement provides \$6,312,000 as proposed by both the House and the Senate. The conference agreement includes the Senate proposal to provide one-year authority for appointed

members of the Commission to be compensated in a manner similar to other Federal boards and commissions.

UNITED STATES HOLOCAUST MEMORIAL COUNCIL

HOLOCAUST MEMORIAL COUNCIL

The conference agreement provides \$33,286,000 for the Holocaust Memorial Council as proposed by both the House and the Senate.

The United States Holocaust Memorial Council was established in 1980 to support the planning and construction of a permanent, living memorial museum to the victims of the Holocaust. Having opened in 1993, the United States Holocaust Memorial Museum has achieved remarkable success. Following these first six years of operation, the House Appropriations Committee requested the National Academy of Public Administration (NAPA) to conduct a review of the Council and the Museum. NAPA has completed its report and included a number of recommendations to improve the operation and management of the two entities that will set them on a strong course to ensure future success. The House and Senate Committees on Appropriations strongly support the NAPA findings and recommendations and urge the entities to include those reforms that require statutory changes in a reauthorization bill to the Congress by the opening of the second session of the 106th Congress. Further, the organizations should implement fully the administrative changes recommended in the report by February 15, 2000 and to report to the House and Senate Committees on Appropriations on the completion of their implementation by March 1, 2000.

PRESIDIO TRUST

PRESIDIO TRUST FUND

The conference agreement provides \$44,400,000 for the Presidio Trust as proposed by both the House and the Senate.

TITLE III—GENERAL PROVISIONS

The conference agreement includes sections 301 through 306, sections 308 through 315, sections 317 through 319 and section 325 from the Senate bill, which continue provisions carried in past years. Section 314 adds a reference to Alaska for the Jobs-in-the-Woods program as proposed by the Senate.

Section 307 makes permanent the provision on compliance with the Buy American Act, which was included in the House bill as section 306. The Senate had extended the provision for one year.

The conference agreement does not include language proposed by the House in section 315 and by the Senate in section 316 prohibiting the use of funds for biosphere reserves as part of the Man and Biosphere Program.

Section 316 exempts the Presidio Trust from certain taxes and assessments. While the Presidio Trust, and all property under its administrative jurisdiction, is exempt by law from all taxes of any kind, the conference agreement provides clarification that any interests created under leases or any other agreement associated

with Presidio properties are exempt from taxes of any kind, including but not limited to possessory interest taxes.

Section 320 continues the provision contained in the bill in previous years regarding outreach efforts to rural and underserved communities by the NEA, as amended by the House to include urban minorities.

Section 321 modifies a provision concerning Forest Service land management planning which was proposed by the House and the Senate and which was included in previous Appropriations acts. The modification now allows national forests to begin planning if their existing plans reach the fifteen year mandated date to revise before or during calendar year 2001.

Section 322 continues the limitation on funding for completion and issuance of the five-year program under the Forest and Rangeland Renewable Resources Planning Act as proposed by the Senate. The House had no similar provision.

Section 323 prohibits the use of funds to support government-wide administrative functions unless they are in the budget justification and approved by the House and Senate Committees on Appropriations as proposed by the House. The Senate had no similar provision.

Section 324 modifies a provision proposed by the House prohibiting the use of funds for certain programs. The modification retains the limitation on the use of funds for General Services Administration Telecommunications Centers and for the President's Council on Sustainable Development and deletes the limitation dealing with the National Telecommunications and Information Administration. The Senate had no similar provision.

The conference agreement does not include language proposed by the Senate in section 324 that would continue the moratorium on new or expanded Indian self-determination and self-governance contracts and compacts with the Bureau of Indian Affairs and Indian Health Service. The House had no similar provision.

Section 326 authorizes certain special resource studies. This issue is addressed in more detail under the construction account in the National Park Service.

Section 327 retains the text of section 324 as proposed by the House and section 325 as proposed by the Senate which permits the Forest Service to use the roads and trails fund for backlog maintenance and priority forest health treatments.

Section 328 modifies language proposed by the House in section 325 dealing with the establishment of a National Wildlife Refuge in the Kankakee watershed in northwestern Indiana and northeastern Illinois. The modification stipulates that refuge establishment must be consistent with the U. S. Army Corps of Engineers' efforts to control flooding and siltation in that area. Written certification of consistency and compatibility must be submitted to the House and Senate Committees on Appropriations prior to refuge establishment. The Committees note that any land acquisition for such a refuge may only occur after funds have been requested in subsequent budget submissions and approved by the Committees.

Section 329 modifies language proposed by the House in Section 326 concerning the American Heritage Rivers initiative. The

modified language specifically prevents funds from being transferred to, or used to fund personnel, training or other administrative activities at, the Council on Environmental Quality (CEQ) for purposes related to this program, but the language no longer prevents headquarters or departmental activities for these purposes. The Council on Environmental Quality, as part of the Executive Office of the President, is funded through a different appropriations bill to cover all of its program needs, including those associated with the American Heritage Rivers initiative. The Committees note that the appropriations act funding the CEQ provides that no funds other than those specifically appropriated to the CEQ may be used for or by the CEQ. Thus, no detailees from agencies funded by this Act may be used for or by the CEQ. The House and Senate Committees on Appropriations do not object to the agencies covered by this bill from participating in this initiative if it is a normal part of their programs. In fact, the technical assistance programs funded in this bill are intended to help respond to local initiatives and needs. The House and Senate Committees on Appropriations encourage maximum cost-sharing and expect the agencies to emphasize field-level accomplishments rather than headquarters or regional office bureaucratic efforts.

The House and Senate Committees on Appropriations are very concerned about reports that individuals employed by the Federal government who work on the American Heritage Rivers initiative have engaged in inappropriate lobbying activities with Congressional offices and Federal career employees concerning this legislative issue. Such activities should cease immediately and disciplinary actions should be taken. Such inappropriate behavior by Federal employees should not be tolerated, and staff should not be allowed to interfere with Congressional efforts to improve management and accountability.

Section 330 modifies language proposed by the House in section 327 restricting the use of answering machines during core business hours except in case of emergency. The modification requires that there be an option that permits the caller to reach immediately another individual. The American taxpayer deserves to receive personal attention from public servants. The Senate had no similar provision.

Section 331 modifies a provision proposed by the House concerning Forest Service administration of rights-of-way and land uses. The Senate had no similar provision. The modification retains most of the language proposed by the House, with technical modifications, but the provision now makes this a five-year pilot program and requires annual reports to the House and Senate Committees on Appropriations summarizing activities and funds involved during the previous year. The Forest Service is directed to follow the instructions proposed by the House regarding this provision. The House and Senate Committees on Appropriations and the authorizing committees of jurisdiction will review this pilot program and determine subsequently if it warrants permanent authority.

Section 332 modifies a provision included in the fiscal year 1999 act regarding the Institute of Hardwood Technology Transfer and Applied Research to make the related authorities permanent

as proposed by the Senate in section 326. The House had no similar provision.

Section 333 modifies language proposed by the Senate in section 327 to continue a program by which Alaska's surplus western red cedar is made available preferentially to U.S. domestic mills outside Alaska, prior to export abroad. The House had no similar provision. The provision has been modified to conform to the standard transaction evidence timber appraisal system used elsewhere in the national forest system and recently implemented in Region 10.

The conference agreement does not include the Senate-proposed section 328 concerning Forest Service and Bureau of Land Management inventorying, monitoring and surveying requirements. The House had no similar provision.

Section 334 includes language clarifying the Presidio Trust's borrowing authority by requiring that obligations issued to the Secretary of the Treasury be subject to terms and conditions prescribed by the Secretary of the Treasury including a review of the creditworthiness of the properties designed as the source of repayment of the obligations.

Section 335 modifies language regarding reports on the feasibility and cost of implementing the Interior Columbia Basin Ecosystem Management Project as proposed by the House in section 329. The Senate proposed similar language in section 330. The provision has been modified so that a report describing the estimated production of goods and services produced in the study area for the first five years during the course of the decision may be reported for each Resource Advisory Council or Provincial Advisory Council rather than for each individual unit of Federal land as required in the House and Senate passed versions.

The conference agreement does not include section 330 as proposed by the House which would have provided authority for breastfeeding in the National Park Service, the Smithsonian, the John F. Kennedy Center, the Holocaust Memorial Museum and the National Gallery of Art. A separate appropriations bill funding general government programs includes a similar provision, but one that is broader in its application. The Senate bill had no similar provision.

Section 336 prohibits the use of funds to propose or issue rules, regulations, decrees or orders for implementing the Kyoto Protocol prior to Senate ratification as proposed by the House in section 331. The Senate had no similar provision.

The conference agreement does not include House proposed bill language included under section 333 prohibiting the use of funds to directly construct timber access roads in the National Forest System. The Senate had no similar provision.

The conference agreement does not include either the across the board cut proposed by the House in section 333 or the across the board cut proposed by the Senate in section 348.

Section 337 modifies language proposed by the House in section 334 and the Senate in section 335 regarding patent applications. The modification exempts from the Solicitor's opinion of November 7, 1997 mining operations with approved plans of operation, patents that were grandfathered as part of the 1995 mining

patent moratorium, and plans of operation submitted prior to the Solicitor's opinion of November 7, 1997. It is inequitable to apply the Solicitor's millsite opinion to those plans of operation retroactively, since the Department of the Interior and the Forest Service have been approving and modifying plans of operation routinely for years without raising an issue with operators about the ratio of millsites to claims. The Departments of the Interior and Agriculture may not implement the millsite opinion for existing plans of operation. Further, the Departments of the Interior and Agriculture may not reopen decisions already made and relied upon by the stakeholders when these existing plans were approved.

The conference agreement does not include language proposed by the House in section 335 prohibiting certain uses of leghold traps and neck snares within the National Wildlife Refuge system.

The conference agreement does not include language as proposed by the House in section 336 that would prohibit implementation of certain portions of the Gettysburg NMP general management plan.

Section 338 modifies a Senate provision in section 330 concerning consistency among federal land managing agencies for the exemption to the Service Contract Act for concession contracts. The modified language deals only with the Forest Service and applies only in fiscal year 2000. The House had no similar provision.

Section 339 modifies section 331 as proposed by the Senate regarding the establishment of a five-year pilot program for the Forest Service to collect fair market value for forest botanical products. The House had no similar provision. The provision is modified to clarify the definition of forest botanical products, to ensure that the harvest of such products will be sustainable, to exempt some personal use harvest from fee collection at the discretion of the agency, and to return a portion of the funds collected to the national forest unit at which they are generated. The House and Senate Committees on Appropriations want to encourage the development of appropriate small-scale industries but also ensure that the Forest Service carefully manages this program so that plants and fungi are not over-collected. This provision has been modified so that the funds which exceed the level collected in fiscal year 1999 can be used right away rather than delaying expenditure of the funds until fiscal year 2001 as proposed by the Administration and the Senate. Fees will be returned to the forest unit where they are generated and will be used to provide for program administration, inventory, monitoring, sustainable harvest level and impact of harvest determination and restoration activities. The Forest Service is encouraged to develop harvest guidelines that cover species ranges so sharing of fees among units may be required to properly deal with wide-ranging species.

Section 340 includes the Senate-proposed section 333 extending the authorization for the Forest Service to provide funds to Auburn University, AL, for construction of a non-federal building. The House bill had no similar provision.

Section 341 modifies the Senate-proposed section 334 dealing with Forest Service stewardship end-results contracting. The modification deletes the Senate proposal to provide the Northern region with nine additional projects. The modified provision includes tech-

nical changes to the language which authorized the pilot program. These changes make it clear that the Forest Service can enter into a contract or agreement with either a public or private entity; that an agreement as opposed to a contract can be the primary vehicle for implementing a pilot project; and there is a national limit on projects, as opposed to contracts. This will allow, if necessary, use of more than one contract to implement a project. The House bill had no similar provision.

The conference agreement does not include Senate proposed bill language included under section 335 that provides that residents living within the boundaries of the White Mountain National Forest are exempt from certain user fees. The House bill had no similar provision.

Section 342 modifies the Senate-proposed section 336 dealing with special use fees paid for recreation residences on Forest Service managed lands. This provision supersedes section 343 of P.L. 105-83 and limits fee increases during fiscal year 2000 to \$2,000 per permit. The House had no similar provision.

The conference agreement does not include language proposed by the Senate in section 337 concerning acquisition of lands within the Columbia River Gorge National Scenic Area. The House had no similar provision.

Section 343 redesignates the Blackstone River Valley National Heritage Corridor as the John H. Chafee Blackstone River Valley National Heritage Corridor.

Section 344 provides that the Forest Service may not use the Recreation Fee Demonstration program to supplant existing recreation contracts on the national forests as proposed by the Senate in section 338. The House bill had no similar provision.

Section 345 amends the National Forest-Dependent Rural Communities Economic Diversification Act, as proposed by the Senate in section 339, to make Forest Service grasslands eligible for economic recovery funding. The House bill had no similar provision.

Section 346 modifies language proposed by the Senate in section 340 regarding the I-90 Land Exchange Act of 1998 to reflect a recently negotiated settlement of a federal district court case involving Plum Creek and five environmental groups. The settlement reconfigures the exchange in a way not reflected in the original amendment in the Senate Interior Appropriations bill. The settlement significantly reduces the scope of the exchange. Several parcels in the Gifford Pinchot National Forest were dropped from the exchange, along with several Plum Creek parcels destined for public ownership. As a result, the new language reflects the settlement agreement. The House had no similar provision.

Section 347 modifies language proposed by the Senate in section 341 adjusting the boundary of the Snoqualmie National Forest. Eight Plum Creek parcels will be placed in escrow for three years to be eligible for Forest Service ownership through either appropriations, additional land conveyances or private donation. If the parcels are not acquired after three years, the titles revert back to Plum Creek. The original section in the Senate Interior Appropriations bill placed five Plum Creek parcels in escrow. However,

the value of the lands in escrow remains the same. The House had no similar provision.

Section 348 amends the Food Security Act to protect the confidentiality of Forest Inventory and Analysis data on private lands as proposed by the Senate in section 342. The House bill had no similar provision.

Section 349 provides, as proposed by the Senate in section 343, that none of the funds appropriated or otherwise made available by this Act may be used to implement or enforce any provision in Presidential Executive Order 13123 regarding the Federal Energy Management Program which circumvents or contradicts any statutes relevant to Federal energy use and the measurement thereof. The Department is expected to adhere to existing law governing energy conservation and efficiency in implementing the Federal Energy Management Program. The House had no similar provision.

The conference agreement does not include Senate proposed bill language included under section 344 directing the Forest Service to use funds to improve the control or eradication of pine beetles in the Rocky Mountain region of the United States. The conference agreement provides direction on this matter under the Forest Service heading.

The conference agreement does not include Senate proposed bill language included under section 346 prohibiting the use of funds for certain activities on the Shawnee National Forest, IL.

The conference agreement does not include language proposed by the Senate in section 345 prohibiting funds for the physical relocation of grizzly bears into the Selway-Bitterroot Wilderness of Idaho and Montana. The House had no similar provision. This action is based on written assurances, by letter of November 8, 1999, from the Fish and Wildlife Service that the Service will not reintroduce or relocate grizzly bears during fiscal year 2000.

Section 350 provides for the investment of Exxon Valdez oil spill funds in high yield investments and in marine research.

Section 351 directs that up to \$1,000,000 of Bureau of Land Management funds be used to fund high priority projects to be conducted by the Youth Conservation Corps as proposed by the Senate in section 347. The House bill had no similar provision.

Section 352 makes a permanent appropriation for the North Pacific Research Board. To date, these funds have been subject to appropriation.

Section 353 prohibits the withdrawal of certain lands on the Mark Twain NF, MO, from mining activities and prohibits the issuance of new prospecting permits. The House had no similar provision.

Section 354 makes a minor technical modification to a previously established pilot program. This modification authorizes the Bureau of Land Management and the Forest Service to establish transfer appropriation accounts in order to facilitate efficient inter-agency fund transfers. The House and Senate Committees on Appropriations support the pilot effort of the two agencies to accomplish mutually beneficial management of respective lands. The agencies are expected to provide a combined report to the House and Senate Committees on Appropriations on the use of these accounts by June 30, 2000.

Section 355 provides for an extension of the public comment period for the White River National Forest, CO, forest plan revision for ninety days past the February 9, 2000, deadline currently in place.

Section 356 provides direction to the National Capital Planning Commission concerning a certain easement and other matters regarding the National Harbor project, MD.

Section 357 allows the Bureau of Land Management to promulgate new hardrock mining regulations so long as these regulations are not inconsistent with the recommendations contained in the National Research Council (NRC) report on hardrock mining and with BLM's statutory authority. To the extent necessary to accomplish this, the BLM is permitted to finalize the Draft Environmental Impact Statement on Surface Management Regulations for Locatable Mineral Operations. If the Department of the Interior wishes to implement any regulatory changes that go beyond the recommendations contained in the NRC report and existing statutes, it should provide a detailed report on such recommendations and the rationale for such changes in the fiscal year 2001 budget submission. In addition, the Department should submit any legislative proposals that might be required to implement changes that go beyond the NRC recommendations and existing statutes.

TITLE IV—MISSISSIPPI NATIONAL FOREST IMPROVEMENT ACT OF 1999

The conference agreement includes the Mississippi National Forest Improvement Act of 1999. This new bill language provides for the sale of surplus Forest Service research property and other surplus administrative sites in Mississippi; facilitates a cooperative agreement between the Forest Service and the University of Mississippi; and facilitates a land exchange on the Homochitto National Forest for the Franklin County Dam.

TITLE V—UNITED MINE WORKERS OF AMERICA COMBINED BENEFIT FUND

Title V provides an emergency transfer of interest earned by the Abandoned Mine Reclamation Fund to the United Mine Workers of America Combined Benefit Fund. The Abandoned Mine Reclamation Fund was established by the Surface Mining Control and Reclamation Act of 1977 (30 U.S.C. 1231). The Abandoned Mine Land Reclamation Act of 1990 provides for the investment of the unappropriated balances of the fund and the crediting of earned interest to the Abandoned Mine Reclamation Fund. The Coal Industry Retiree Health Benefit Act of 1992 (26 U.S.C. 9701–9722) was included as part of the Energy Policy Act of 1992 and provides for an annual transfer of part of the interest earned by the Abandoned Mine Reclamation Fund to the United Mine Workers of America Combined Benefit Fund.

The transfer of funds provided by this title is in response to rising health care costs and recent court decisions which have combined to seriously erode the solvency of the United Mine Workers of America Combined Benefit Fund. Consequently, the Trustees of the Fund have determined that without the relief provided by this

section, cuts in health care benefits to the more than 66,000 retired miners and their dependents throughout the nation are imminent.

The House and Senate Committees on Appropriations recognize that the emergency transfer provided by this title is not the long-term answer to the financial problems associated with the United Mine Workers of America Combined Benefit Fund. It is expected that the legislation necessary to remedy the financial problems of the United Mine Workers of America Combined Benefit Fund will be taken up by the legislative committees of jurisdiction and will be enacted into law in a timely manner. The committees of jurisdiction are urged to work with miners and the contributing companies in ensuring the long-term solvency of the fund. The best long-term solution to the financial problems associated with the fund must include a review of and action on appropriate adjustments to private sector contributions to the fund, including contributions currently being made by the so-called "reach back" companies. At the same time, the long-term solution for the fund should cover all eligible retired miners and their dependents, including the unassigned beneficiaries, as provided for in current law.

The more than 66,000 elderly retired miners and their dependents should not again be brought to the precipice, not knowing whether the Federal Government will continue to meet fully its commitment to provide their health care benefits, as provided in the Coal Industry Retiree Health Benefits Act of 1992.

TITLE VI—PRIORITY LAND ACQUISITION AND LAND EXCHANGES

The conference agreement provides \$197,500,000 for high priority land acquisition and other purposes. This amount is in addition to the \$266,288,000 provided in previous titles of this Act, for a total of \$463,788,000. The agreement provides the following additional funds for specific projects: \$61,000,000 for the Baca Ranch in New Mexico, subject to the same terms and conditions contained under the heading "Forest Service, Land Acquisition", \$20,000,000 for the State Assistance program, \$5,000,000 for the Catellus property in southern California with the expectation that certain conditions involving the National Training Center for the Army at Fort Irwin will be resolved in the future, \$2,000,000 for the Rhode Island National Wildlife Refuge Complex, \$19,500,000 for the purchase of mining rights in Utah, \$10,000,000 for Elwha River ecosystem restoration, \$5,000,000 for backlog maintenance in the National Park Service, \$5,000,000 for the Forest Legacy program in the Forest Service, and \$35,000,000 for State grants for land acquisition in the State of Florida subject to conditions on guaranteed water supply contained under the heading "National Park Service, Land Acquisition and State Assistance".

With respect to the remainder of the funds totaling \$35,000,000, the conference agreement provides \$20,000,000 to the Department of the Interior and \$15,000,000 to the Department of Agriculture, Forest Service for land acquisitions. These funds and the Forest Legacy funding in this title are made available with the understanding that the House and Senate Committees on Appropriations will notify the Secretaries of Agriculture and the Interior

in writing on the individual projects to be funded with these additional monies.

CONFERENCE TOTAL—WITH COMPARISONS

The total new budget (obligational) authority for the fiscal year 2000 recommended by the Committee of Conference, with comparisons to the fiscal year 1999 amount, the 2000 budget estimates, and the House and Senate bills for 2000 follow:

[In thousands of dollars]

Budget estimates of new (obligational) authority, fiscal year 2000	15,266,137

The conference agreement would enact the provisions of H.R. 3424 as introduced on November 17, 1999. The text of that bill follows:

A BILL Making appropriations for the Departments of Labor, Health and Human Services, and Education, and related agencies for the fiscal year ending September 30, 2000, and for other purposes

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the following sums are appropriated, out of any money in the Treasury not otherwise appropriated, for the Departments of Labor, Health and Human Services, and Education, and related agencies for the fiscal year ending September 30, 2000, and for other purposes, namely:

(b)(1) Each State that receives funds under this section shall distribute 100 percent of such funds to local educational agencies, of which—(A) 80 percent of such amount shall be allocated to such local educational agencies in proportion to the number of children, aged 5 to 17, who reside in the school district served by such local educational agency from families with incomes below the poverty line (as defined by the Office of Management and Budget and revised annually in accordance with section 673(2) of the Community Services Block Grant Act (42 U.S.C. 9902(2))) applicable to a family of the size involved for the most recent fiscal year for which satisfactory data are available compared to the number of such individuals who reside in the school districts served by all the local educational agencies in the State for that fiscal year; and (B) 20 percent of such amount shall be allocated to such local educational agencies in accordance with the relative enrollments of children, aged 5 to 17, in public and private nonprofit elementary and secondary schools within the boundaries of such agencies.

“(II) the State has submitted to the Secretary, not later than April 1, 2000, a corrective compliance plan that describes how, by when, and at what cost the State will achieve such compliance, which has been approved by the Secretary,

DEPARTMENTS OF LABOR, HEALTH AND HUMAN SERVICES, AND
EDUCATION, AND RELATED AGENCIES APPROPRIATIONS

The conferees on H.R. 3194 agree with the matter inserted in this division of this conference agreement and the following description of this matter. This matter was developed through negotiations on the differences in the House reported version of H.R. 3037 and the Senate version of S. 1650, the Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2000, by members of the subcommittee of both the House and Senate with jurisdiction over H.R. 3037 and S. 1650.

In implementing this agreement, the Departments and agencies should comply with the language and instructions set forth in House Report 106-370 and Senate Report 106-166.

In the case where the language and instructions specifically address the allocation of funds, the Departments and agencies are to follow the funding levels specified in the Congressional budget justifications accompanying the fiscal year 2000 budget or the underlying authorizing statute and should give full consideration to all items, including items allocating specific funding included in the House and Senate reports. With respect to the provisions in the House and Senate reports that specifically allocate funds, each has been reviewed and those which are jointly concurred in have been included in this joint statement.

The provisions of the House Report (105-205) are endorsed that direct “. . . the Departments of Labor, Health and Human Services, and Education and the Social Security Administration and the Railroad Retirement Board to submit operating plans with respect to discretionary appropriations to the House and Senate Committees on Appropriations. These plans, which are to be submitted within 30 days of the final passage of the bill, must be signed by the respective Departmental Secretaries, the Social Security Commissioner and the Chairman of the Railroad Retirement Board.”

The Departments and agencies covered by this directive are expected to meet with the House and Senate Committees as soon as possible after enactment of the bill to develop a methodology to assure adequate and timely information on the allocation of funds within accounts within this conference report while minimizing the need for unnecessary and duplicative submissions.

The Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, FY 2000, put in place by this bill, incorporates the following agreements of the managers:

The conference agreement appropriates \$5,465,618,000, instead of \$4,572,058,000 as proposed by the House and \$5,472,560,000 as proposed by the Senate. Of the amount appropriated, \$2,463,000,000 becomes available on October 1, 2000, instead of

\$2,607,300,000 as proposed by the House and \$2,720,315,000 as proposed by the Senate.

The agreement includes language authorizing the use of funds under the dislocated workers program for projects that provide assistance to new entrants in the workforce and incumbent workers as proposed by the Senate. It also includes language proposed by the Senate modified to waive a 10 percent limitation in the Workforce Investment Act with respect to the use of discretionary funds to carry out demonstration and pilot projects, multiservice projects and multistate projects with regard to dislocated workers and to waive certain other provisions in that Act. The House bill had no similar provisions.

The Department is expected to make every effort to be flexible in the use of worker training funds for reactivated shipyards, such as those referenced in the Senate Report. The conference agreement encourages the Department to use national emergency grants under the dislocated workers program to supplement available resources for (1) worker training needs at reactivated shipyards that have experienced large-scale worker dislocation, (2) continuing training to utilize the workplace as site for learning, (3) supporting training for American workers at state-of-the-art foreign shipyards, and (4) continuing upgrading of workers skills to increase employability and job retention.

The agreement includes a citation to the Women in Apprenticeship and Nontraditional Occupations Act as proposed by the House. The Senate bill did not cite this Act.

- \$2,000,000 for the University of Mississippi to establish a program to identify candidate phytomedicines for clinical evaluation; and

- \$3,000,000 for the Center for Environmental Medicine and Toxicology at the University of Mississippi Medical Center at Jackson.

The conference agreement provides \$30,000,000 for health disparities demonstrations instead of \$10,000,000 as proposed by the House and \$35,000,000 as proposed by the Senate. NIEHS is strongly urged to conduct research on the health and environmental aspects of agent orange and dioxin in Southeast Asia, in particular, Vietnam, provided that the Vietnamese government supports collaborative research between U.S. and Vietnamese scientists. Funding should be provided on a competitive basis to researchers who work independently or collaboratively with NIEHS and are experienced in agent orange, dioxins, and Vietnam research. The conference agreement also includes bill language designating \$75,000,000 for extramural facilities construction grants. These funds will provide seed money to stimulate greater public and private sector investments in this needed modernization effort. In awarding grants with these funds, NCRR is directed to recognize the special needs of smaller and developing institutions. NCRR shall assure that, given a sufficient number of meritorious applications from smaller and developing institutions, no less than 50 percent of the awards are made to these institutions. In addition, NCRR shall take all steps necessary to assure that small and developing institutions are notified of the funds available in this account and are provided adequate technical assistance in the application process. The House bill contained no similar provision.

The total provided also includes \$40,000,000 for the Institutional Development Awards (IDeA) program as proposed by the House instead of \$20,000,000 as proposed by the Senate. In addi-

tion, \$15,000,000 is included to enhance the science education program as referenced in the House and Senate reports.

The conference agreement concurs with language contained in the Senate report concerning animal research facilities in minority health professional schools.

It is believed that Federal policy in a number of areas is failing to keep up with the increased use of complementary and alternative therapies. Funding was provided in fiscal year 1999 to support the establishment and operation of a White House Commission on Complementary and Alternative Medicine Policy to study and make recommendations to the Congress on appropriate policies regarding consumer information, training, insurance coverage, licensing, and other pressing issues in this area. It is believed that the Commission is not intended to review the work of or set the priorities for the Center. Rather, the Center is expected simply to provide administrative support to the Commission.

The conference agreement concurs with the House and Senate report language regarding the training of physicians in integrative medicine, but urges the Center to also support the training of nurses in integrative medicine through appropriate mechanisms. The Center is also urged to study strategies for integrating complementary and alternative medicine into all nursing curricula.

OFFICE OF THE DIRECTOR

(INCLUDING TRANSFER OF FUNDS)

The conference agreement provides \$283,509,000 for the Office of the Director instead of \$270,383,000 as proposed by the House and \$299,504,000 as proposed by the Senate. The Senate bill contained no similar provision.

It is expected that the Minority Access to Research Careers, Minority Biomedical Research Support, Research Centers in Minority Institutions, and the Office of Research on Minority Health programs will continue to be supported at a level commensurate with their importance.

Investigations into the causes, prevention, treatment, and cure for diabetes are important. The Diabetes Research Working Group report outlines many scientific opportunities and NIH is encouraged to pursue research on all types of diabetes with equal vigor.

NIH is expected to consult closely with the research community, clinicians, patient advocates, and the Congress regarding Parkinson's research and fulfillment of the goals of the Morris K. Udall Parkinson's Research Act. NIH is requested to develop a report to Congress by March 1, 2000 outlining a research agenda for Parkinson's focused research for the next five years, along with professional judgment funding projections. The NIH Director should be prepared to discuss Parkinson's focused research planning and implementation for fiscal year 2000 and fiscal year 2001.

Continued advances in biomedical imaging and engineering, including the development of new techniques and technologies for both clinical applications and medical research and the transfer of new technologies from research projects to the public health sector are important. The disciplines of biomedical imaging and engineering have broad applications to a range of disease processes and organ systems and research in these fields does not fit into the current disease and organ system organizational structure of the NIH. The present organization of the NIH does not accommodate basic scientific research in these fields and encourages unproductive diffusion of imaging and engineering research. Several efforts have been made in the past to fit imaging into the NIH structure, but these have proved to be inadequate.

For these reasons, NIH is urged to establish an Office of Bioimaging/Bioengineering and to review the feasibility of establishing an Institute of Biomedical Imaging and Engineering. This Office should coordinate imaging and bioengineering research activities, both across the NIH and with other Federal agencies. The NIH shall report to the Appropriations Committees of the House and Senate on the progress achieved by this Office no later than June 30, 2000.

Security at Federal facilities is a growing concern and with the number of visitors to the NIH campus, including both domestic and foreign dignitaries, and the type of research that occurs on campus, adequate security at NIH is critical. The Director is requested to contract with an independent group to study the overall security situation at the Bethesda campus. This study should include, but not be limited to, recommendations regarding the appropriate manpower, training, and equipment needed to provide adequate security for NIH employees and all visitors to the campus as well as any recommended changes to the current security policy.

Infantile autism and autism spectrum disorders are biologically based neurodevelopmental diseases that cause severe impairments in language and communication and generally manifest in young children sometime during the first two years of life. Best estimates indicate that 1 in 500 children born today will be diag-

nosed with an autism spectrum disorder and that 400,000 Americans have autism or an autism spectrum disorder. NIH is strongly encouraged to dedicate more resources and to expand and intensify these efforts through the NIH Autism Coordinating Committee. More knowledge is needed concerning the underlying causes of autism and autism spectrum disorders, how to treat and prevent these disorders; the epidemiology and risk factors for the disorders; the development of methods for early medical diagnosis; dissemination to medical personnel, particularly pediatricians, to aid in the early diagnosis and treatment of this disease; and the costs incurred in educating and caring for individuals with autism and autism spectrum disorders. NIH is also encouraged to explore mechanisms, including innovative collaborative approaches in autism, supported by the Institutes to conduct basic and clinical research into the cause, diagnosis, early detection, prevention, control, and treatment of autism, including research in the fields of developmental neurobiology, genetics, and psychopharmacology.

NIDDK and NIAID are to be commended for jointly supporting research on foodborne illness. The Institutes are encouraged to enhance research on the reaction of the gut to foodborne pathogens, including research on the pathogenesis of the disease, the reasons for antibiotic resistance, the reaction of the gut to infections, the development of animal models to test therapies, and the invention of vaccines or substances that bind with the toxins to prevent the illness.

The conference agreement concurs with language contained in the House report regarding International Collaborations.

Ashkenazi Jewish women who carry the BRCA 1 gene have an abnormally high incidence of breast and ovarian cancer. NIH is urged to support, especially through NCI and NHGRI, coordinated U.S./Israeli research activities through all available mechanisms, as appropriate, including the establishment of a computerized data and specimen sharing system, subject recruitment and retention programs, and collaborative pilot research projects.

The Office of Research on Minority Health is encouraged to expand and strengthen science-based HIV prevention research for African Americans, Latinos, Native Americans, Asian Americans, Native Hawaiians and Pacific Islanders and consideration should be given to the U.S. Virgin Islands and Puerto Rico. The Office is also encouraged to expand existing culturally competent behavioral research, conducted by minority principal investigators, that seeks to break the link between HIV infection and high risk behaviors, and that seek to decrease the rate of mortality in targeted minority populations.

BUILDINGS AND FACILITIES

The conference agreement provides \$135,376,000 for buildings and facilities instead of \$108,376,000 as proposed by the House and \$100,732,000 as proposed by the Senate. In addition, \$40,000,000 was provided in the fiscal year 1999 appropriations bill for the Clinical Center.

SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES ADMINISTRATION

SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES

The conference agreement provides \$83,000,000 for children's mental health as proposed by the House instead of \$78,000,000 as proposed by the Senate.

Mental health services for children and adolescents could be strengthened by a comprehensive system that measures the quality and effectiveness of these services. The Center's Committee on Child and Adolescent Outcomes has supported the collaboration between Vanderbilt University and Australia in developing such an evaluation system in the United States. The Department is urged to continue this collaboration.

The National Mental Health Self-Help Clearinghouse, the Consumer Organization and Networking Technical Assistance Center, and the National Empowerment Center provide information and resources to individuals suffering from mental illnesses and their families. Continued funding of these Centers will allow services to be provided uninterrupted.

The conference agreement provides \$31,000,000 for grants to states for the homeless (PATH) as proposed by the Senate instead of \$28,000,000 as proposed by the House.

The conference agreement provides \$25,000,000 for protection and advocacy as proposed by the Senate instead of \$22,957,000 as proposed by the House.

The conference agreement provides \$138,982,000 for knowledge development and application instead of \$85,851,000 as proposed by the House and \$137,932,000 as proposed by the Senate. The conference agreement has doubled funding for mental health services for school-age children, as part of an effort to reduce school violence. It is intended that \$80,000,000 be used for the support and delivery of school-based and school-related mental health services for school-age youth. It is intended that the Department will continue to collaborate its efforts with the Department of Education to develop a coordinated approach.

Within the total provided: \$1,000,000 is for the Northwest Suburban Cook County and Lake County Public Action to Deliver Shelter (PADS) provider organizations to address long-term homelessness through service integration; \$1,000,000 is for the urban health initiative at the University of Connecticut to provide improved mental health services to underserved, impoverished and high risk children, teens, adults and seniors living in urban public housing;

and \$50,000 is for Steinway Child and Family Services of Queens, New York to provide mental health and support services to children and families affected by HIV/AIDS.

Center for Substance Abuse Treatment

The conference agreement provides \$1,600,000,000 for the substance abuse block grant instead of \$1,585,000,000 as proposed by the House and \$1,715,000,000 as proposed by the Senate. The conference agreement does not include a provision proposed by the Senate to provide \$100,000,000 on October 1, 2000. The House bill contained no similar provision.

The conference agreement provides \$214,566,000 for knowledge development and application instead of \$136,613,000 as proposed by the House and \$226,868,000 as proposed by the Senate. Within the total provided: \$200,000 is for the Center Point Program in Marin County, California, for substance abuse and related services to high-risk individuals and families; and \$1,000,000 is for the San Francisco Department of Public Health's treatment on Demand program. Within the total provided, sufficient funds are included to expand the residential treatment programs for pregnant and postpartum women.

The conference agreement includes \$40,325,000 for activities that strengthen substance abuse treatment capacity in communities of color disproportionately impacted by the HIV/AIDS epidemic, based on rates of new HIV infection and mortality from AIDS. These funds are designed to provide targeted service expansion and capacity building to minority, community-based substance abuse treatment programs with a history of providing services to communities of color severely impacted by substance abuse and HIV/AIDS. These funds are to be allocated based on program priorities identified in the previous fiscal year. Funds are also included to enhance state and county efforts to plan and develop integrated substance abuse and HIV/AIDS treatment and prevention services to communities of color. Within the funds provided, \$5,000,000 is for existing substance abuse treatment facilities for pregnant and postpartum women and to expand the program through a competitive process.

Recent reports by NIH and the Institute of Medicine recommend expansion of effective treatment approaches for adolescent drug abusers. CSAT is to be commended for its work in developing and testing manuals for program interventions through the Cannabis Youth Treatment initiative. CSAT is encouraged to expand this initiative by examining the immediate and long-term outcomes across the developmental period when adolescents are at risk for peak drug use, and by taking steps to replicate and improve such treatment approaches.

The Norton Sound Health Corporation project for substance abuse treatment services should be given full and fair consideration for funding.

Center for Substance Abuse Prevention

The conference agreement provides \$140,305,000 for knowledge development and application instead of \$118,910,000 as proposed by the House and \$161,000,000 as proposed by the Senate. Within

the total provided: \$750,000 is for the Rio Arriba and Santa Fe Counties "black tar" heroin program; \$350,000 is for the Rock Island County Council on Addiction's (RICCA) Healthy Youth Drug Prevention Program in Rock Island, Illinois; and \$3,000,000 is for a regional consortium of South Dakota, North Dakota, Minnesota, and Montana to provide Fetal Alcohol Syndrome services.

The conference agreement provides \$7,000,000 for high risk youth grants as proposed by the Senate. The House bill contained no similar provision.

Program Management

The conference agreement provides \$59,100,000 for program management instead of \$53,400,000 as proposed by the House and \$58,900,000 as proposed by the Senate. It is intended that \$1,000,000 of the increase over the Administration request is to support the school violence prevention initiative.

It is intended that, from within the funds reserved for rural programs, \$12,000,000 be allocated for CSAT grants and \$8,000,000 be allocated for CSAP grants.

The conference agreement includes \$3,700,000 to initiate and test the effectiveness of Community Assessment and Intervention Centers in providing integrated mental health and substance abuse services to troubled and at-risk children and youth, and their families in four Florida communities. Building upon successful juvenile programs, this effort responds directly to nationwide concerns about youth violence, substance abuse, declining levels of service availability and the inability of certain communities to respond to the needs of their youth in a coordinated manner. The total provided includes: \$2,000,000 from mental health knowledge development and application; \$500,000 from substance abuse prevention knowledge development and application; \$1,000,000 from substance abuse treatment knowledge development and application; and \$200,000 from program management.

The Senate recently heard testimony about pathological gambling disorders and the importance of additional federal research in this area as recommended by the National Gambling Impact Study Commission. The Center is urged to conduct demonstration projects to determine effective strategies and best practices for preventing and treating pathological gambling.

AGENCY FOR HEALTH CARE POLICY AND RESEARCH

HEALTH CARE POLICY AND RESEARCH

The conference agreement provides \$111,424,000 in appropriated funds instead of \$104,403,000 as proposed by the House and \$19,504,000 as proposed by the Senate.

The conference agreement designates \$88,576,000 to be available to the Agency under the Public Health Service one percent

evaluation set-aside instead of \$70,647,000 as proposed by the House and \$191,751,000 as proposed by the Senate.

In addition, \$5,000,000 previously identified by the Senate report for bioterrorism activities is included in the Public Health and Social Services Emergency Fund for the same purpose.

HEALTH CARE FINANCING ADMINISTRATION

PROGRAM MANAGEMENT

The conference agreement provides \$1,994,548,000 for program management instead of \$1,752,050,000 as proposed by the House and \$1,991,321,000 as proposed by the Senate. The House bill assumed that the Administration's user fee proposal would be enacted prior to conference. An additional appropriation of \$630,000,000 has been provided for this activity in the Health Insurance Portability and Accountability Act of 1996.

The conference agreement provides \$95,000,000 for Medicare+Choice as proposed by the Senate instead of \$15,000,000 as proposed by the House.

The conference agreement does not include language proposed by the Senate that would have allowed Medicaid and CHIP funding to be interchangeable. The House bill contained no similar provision.

The conference agreement repeats language included in last year's bill related to administrative fees collected relative to Medicare overpayment recovery activities.

The conference agreement does not include bill language proposed by the Senate to allow appropriated funds to be used to increase Medicare provider audits. The House bill contained no similar provision.

Research, Demonstration, and Evaluation

The conference agreement provides \$62,900,000 for research, demonstration, and evaluation instead of \$50,000,000 as proposed by the House and \$65,000,000 as proposed by the Senate. The conference agreement includes the following amounts for the following projects and activities:

- \$100,000 for Littleton Regional Hospital in New Hampshire to assist in the development of rural emergency medical services;

- \$250,000 for the University of Missouri-Kansas City to test behavioral interventions of nursing home residents with moderate to severe dementia;

- \$2,000,000 for a nursing home transition initiative;

- \$2,000,000 for a demonstration of residential and outpatient treatment facilities at the AIDS Healthcare Foundation in Los Angeles;

- \$3,000,000 for the University of Pennsylvania Medical Center, the University of Louisville Sciences Center, and St. Vincent's Hospital in Montana to conduct a demonstration to reduce hospitalizations among high-risk patients with congestive heart failure;

- \$1,000,000 to study the use of an independent informal dispute resolution process in skilled nursing certification and compli-

ance surveys consistent with language contained in the House and Senate reports;

—\$1,000,000 for a children's hospice care demonstration program in Virginia, Florida, Kentucky, New York, and Utah to provide a continuum of care for children with life-threatening conditions and their families;

—\$150,000 for L.A. Care Health Plan in Los Angeles, California for a Medicaid outreach demonstration project;

—\$500,000 for the Partners for a Healthier Community childhood immunization demonstration project at Baystate Medical Center in Springfield, Massachusetts; and

—\$250,000 for the Shelby County Regional Medical Center to establish a Master Patient Index to determine patient Medicaid/TennCare eligibility.

HCFA is urged to conduct a demonstration project to test the potential savings to the Federal government and to the Medicare program by comparing different products used for diabetic wound-care treatment. Such a demonstration should compare the aggregate costs of wound care treatment using different wound-care gel products as well as different gel application regimens.

HCFA is urged to conduct a demonstration project addressing the extraordinary adverse health status of native Hawaiians at the Waimanalo health center exploring the use of preventive and indigenous health care expertise.

HCFA is urged to conduct a demonstration project in Hawaii and Alaska to address the extraordinary adverse health status and limited access to health services of the indigenous people in Hawaii and Alaska natives and others residing in southwest Alaska.

There is strong concern over HCFA's failure to articulate clear guidelines and set expeditious timetables for consideration of new technologies, procedures and products for Medicare coverage. Two particularly troubling examples are HCFA's lengthy delays and failure to articulate clear standards regarding Medicare coverage of positron emission tomography (PET) and lung volume reduction surgery (LVRS). The effect of these delays in instituting Medicare coverage is to deny the benefits of these technologies and products to Medicare patients. There is also concern that HCFA appears to be requiring new technologies to repeat clinical trials and testing already successfully completed by the new products in the process of gaining FDA approval or in NIH clinical trials and which serve as signals to private insurers to cover new technologies. The recent creation of a 120-person advisory committee to review new technologies is also of some concern and it is noted that the Appropriations Committees will be observing the new advisory committee to review its costs and to see whether its use further delays Medicare coverage of new products. Because of the possible duplication of efforts among HHS agencies and related unnecessary costs to the Medicare program and the Department, it is expected that the Secretary will take a leadership role in resolving this matter expeditiously.

The Secretary is strongly urged to appoint a three-person Medicare-Technology Consumer Advisory Committee. The Committee should be appointed from among knowledgeable patient advocates and members of the medical community with expert knowl-

edge of new technologies and cost-benefit analysis. The new Committee should study the current HCFA process for determining new coverages and should report at least every six months to the Secretary, the Appropriations Committees, and the general public on its findings and recommendations. The Secretary is expected to report prior to fiscal year 2001 appropriations hearings about its recommendations on streamlining HCFA's approval process for Medicare coverage of new technologies.

If the Secretary of the Department of Health and Human Services, under existing demonstration authority, chooses to implement a program to improve health care access for uninsured workers, the Secretary should encourage applications from private, not-for-profit multi-state health systems in urban and rural areas. Such multi-state systems should be given special consideration if they are willing to provide private matching funds to create model public-private partnerships which enhance integrated systems of health care for the working poor.

Medicare contractors

The conference agreement provides \$1,244,000,000 for Medicare contractors as proposed by the Senate instead of \$1,176,950,000 as proposed by the House. The amount provided reflects HCFA's proposal to change its approach for processing managed care encounter data, which will result in estimated savings of \$30,000,000.

State survey and certification

The conference agreement provides \$204,674,000 for State survey and certification instead of \$106,000,000 as proposed by the House and \$204,347,000 as proposed by the Senate.

Federal administration

The conference agreement provides \$485,000,000 for Federal administration instead of \$421,126,000 as proposed by the House and \$480,000,000 as proposed by the Senate.

The conference agreement concurs with House report language regarding its concern that the current performance evaluation and recertification process for Organ Procurement Organizations (OPO) may hinder the goal of increased organ donations. HCFA is urged to work with and support the industry in its effort to develop alternative performance measures. HCFA is also urged to use existing authority to extend the OPO certification period until such time as an alternative process has been adopted.

Hospices in Wichita, Kansas will be adversely affected in their Medicare reimbursement in fiscal year 2000 because of an error in a faulty hospital cost report in 1995, over which they had no control, and because of a faulty tabulation by HCFA or its fiscal intermediary. HCFA is expected to correct the error in the publication of the hospice wage index for the Wichita, Kansas MSA by using the July 30, 1999 hospital wage index, published in the Federal Register, for the current fiscal year, rather than delaying until the following fiscal year, and by publishing a revised notice to reflect this correction.

In 1998, HCFA was urged to commit appropriate resources to ensure the provision of ongoing training, technical assistance, and quality assurance support to regional and State personnel who are responsible for implementation and review of Intermediate Care Facilities for the Mentally Retarded (ICF/MR) and waiver programs. Seeing no progress to date on this issue, and recognizing the growing concerns about abuse and neglect and the use of restraints in such settings, HCFA is strongly urged to ensure that staff be devoted solely to ensuring quality in ICFs/MR and home and community-based waivers. It is hoped that HCFA would also allow for the speedy revision of the ICF/MR regulations to reflect widely recognized advancements in the field and to encourage more flexibility, consumer involvement and direction, and community integration in meeting individual's needs. The Department is requested to report within 120 days on how these staffing requirements will be accommodated.

ADMINISTRATION FOR CHILDREN AND FAMILIES

PAYMENTS TO STATES FOR CHILD SUPPORT ENFORCEMENT AND FAMILY SUPPORT PROGRAMS

The conference agreement provides no extended availability of funds proposed by the Senate. The House bill proposed no extended availability.

LOW INCOME HOME ENERGY ASSISTANCE

The conference agreement includes language proposed by the House designating that the \$1,100,000,000 appropriated for LIHEAP for FY 2000 in the FY 1999 appropriations act is an emergency under the Budget Act and requiring that such funds be allocated in accordance with the statutory formula. The Senate bill contained no such language. The agreement also includes the House legal citation to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act.

REFUGEE AND ENTRANT ASSISTANCE

The conference agreement appropriates \$426,505,000, instead of \$423,500,000 as proposed by the House and \$430,500,000 as proposed by the Senate. The agreement provides for an annual appropriation as proposed by the House instead of three-year availability of funds proposed by the Senate. In the case of the Torture Victims Relief Act funds, the agreement provides for an annual appropriation as proposed by the House instead of the funds remaining available until expended proposed by the Senate.

In addition, the conference agreement includes language not contained in either bill that designates all funding in this account as an emergency requirement under the Budget Act.

The conference agreement includes \$20,000,000 from carryover funds that are to be used under social services to increase educational support to schools with a significant proportion of refugee children and for the development of alternative cash assistance programs that involve case management approaches to improve resettlement outcomes. Such support should include intensive English language training and cultural assimilation programs.

The agreement also includes \$26,000,000 for increased support to communities with large concentrations of refugees whose cultural differences make assimilation especially difficult justifying a more intense level and longer duration of Federal assistance.

CHILD CARE AND DEVELOPMENT BLOCK GRANT

The conference agreement appropriates \$1,182,672,000 as an advance appropriation for fiscal year 2001, instead of \$2,000,000,000 as proposed by the Senate. The agreement further provides that \$19,120,000 shall be for child care resource and referral and school-aged child care activities as proposed by the Senate. The House bill had no appropriation for this account.

The conference agreement includes language to require the States to use \$172,672,000 above the amount required by the basic law for activities that improve the quality of child care for fiscal year 2001. The basic law requires that not more than four percent of the appropriation be used for such activities. Neither the House nor the Senate bill included such language.

The conference agreement includes \$500,000 for a toll-free child care services program hotline to be operated by Child Care Aware.

States are encouraged to create or enhance systems of care that support and educate families expecting a baby or with young children, and help them understand that day-to-day interaction with children helps them develop cognitively, socially, physically and emotionally. Many states have already created state and local collaboratives that coordinate early childhood development, and these efforts are to be commended.

In the case of states that have yet to initiate such coordination, they are encouraged to look at best practices from across the country. The National Governors Association has developed goals, model indicators, and measures of performance to help states focus on improving the conditions of young children and their families. The State of Ohio has a successful initiative known as Family and Children First that could serve as a model. All states are encouraged to continue to develop and expand healthy early childhood systems of care.

SOCIAL SERVICES BLOCK GRANT

The conference agreement includes \$1,775,000,000, instead of \$1,909,000,000 as proposed by the House and \$1,050,000,000 as proposed by the Senate. The agreement does not include the provision in the House or Senate bills that limits the ability of States to transfer TANF funds to the Social Services Block Grant to 4.25 percent or 5 percent, respectively.

The conference agreement does not include section 216 of the Senate bill which increased the appropriation to \$2,380,000,000 but specified that \$1,330,000,000 of that amount would not become available for obligation until fiscal year 2001 and that the amount available for allocation to States in fiscal year 2001 would be \$3,030,000,000. The House had no similar provision.

CHILDREN AND FAMILIES SERVICES PROGRAMS
(INCLUDING RESCISSIONS)

The conference agreement appropriates \$6,835,133,000, instead of \$6,240,216,000 as proposed by the House and \$6,789,635,000 as proposed by the Senate. In addition, the agreement rescinds \$21,000,000 from permanent appropriations as proposed by the House.

The agreement includes an advance appropriation of \$1,400,000,000 for Head Start for fiscal year 2001 as proposed by the House instead of \$1,900,000,000 proposed by the Senate. The agreement also includes \$1,700,000,000 designated as an emergency.

An amount of \$10,000,000 is included under social services and income maintenance research for establishing Individual Development Accounts. The House proposed to fund this as a separate line item.

The Hull House Association's Neighbor to Neighbor (NTN) program in Chicago and Florida provides specialized placement and family services for sibling groups, keeping such children together, placed within their community, and stabilized in one foster home. Outcomes for this program have been noteworthy, including high rates of family reunification, placement stability and foster parent retention. The conference agreement includes \$500,000 to support the Association's project to provide training, technical assistance and implementation assistance to establishment of NTN programs within public and private foster care agencies in other states and localities.

The conference agreement includes language not contained in either House or Senate bills that requires the Department to establish certain procedures regarding the disposition of intangible property in the community economic development program under the Community Services Block Grant Act.

There is awareness of efforts by the state information technology consortium to identify best practices with regard to implementing Temporary Assistance to Needy Families, including best practices developed by states, the federal government, and the private sector. The next phase of this effort will enable states to discern which best practices are appropriate for their particular needs, then work with the consortium to implement those practices. Continuation of this effort at the current level of support is urged.

It is important that the Congress determine the economic status of former recipients of Temporary Assistance to Needy Families, and the conference agreement provides funds to support such research and evaluation.

Head Start grantees may use their basic grant funds, quality funds, and expansion funds for minor renovations and rehabilitation of existing Head Start facilities. The Secretary is urged to give special attention to Native American communities with particular needs, including the Alaskan communities of Chevak, Napakiak, Haines, Marshall, Noorvik, Selawik, Pilot Station, Hooper Bay, and Dillingham.

Within the funds provided for Runaway Youth—Transitional Living, the conference agreement includes \$500,000 for the House

of Mercy in Des Moines, Iowa; \$250,000 for the Briarpatch Transitional Living Facility of Madison, Wisconsin to provide housing and support services to homeless teens; \$150,000 for the Larkin Street Youth Center in San Francisco, California to provide interim housing and comprehensive support services; \$150,000 for the Casa Libertad Transitional Living Program for homeless youths in Santa Fe, New Mexico; and \$250,000 for the New Avenues for Youth demographic database project in Oregon to improve services delivery to homeless youths.

Within the funds provided for state and local innovations/projects of national significance, the conference agreement intends that funds be used for ongoing projects scheduled for refunding in FY 2000.

Nearly one in four American households is currently involved in family caregiving to elderly relatives or friends. The Administration on Aging should give full and fair consideration to a demonstration and evaluation of the Metropolitan Family Services’ community-based program that builds on the strengths of families to provide cost-effective and high quality care.

OFFICE OF THE SECRETARY

GENERAL DEPARTMENTAL MANAGEMENT

The conference agreement appropriates \$232,902,000, instead of \$227,787,000 as proposed by the House and \$189,420,000 as proposed by the Senate. To the extent that any staffing reductions are required to implement the conference agreement the Secretary should make the reductions in such overhead areas as the immediate office of the Secretary, public affairs, Congressional affairs, and intergovernmental affairs.

The agreement includes \$1,500,000 for the United States-Mexico Border Health Commission. The conference agreement concurs with the Senate Report language concerning the human services transportation technical assistance program. It also concurs with the Senate Report language concerning the amount available for a public education campaign on osteoporosis in the Office on Women's Health.

The conference agreement includes \$9,700,000 within the Office of Minority Health to fund activities that are designed to address the trend of the HIV/AIDS epidemic in communities of color based on rates of new infections and mortality from AIDS. These funds are to be allocated based on program priorities identified in the previous fiscal year, which include support for the Minority Community Coalition Demonstrations Grants program, including the Bilingual/Bicultural Demonstrations Grants Program targeted to fund HIV/AIDS prevention activities by minority organizations. Funds are also provided to target national, regional and local minority organizations with a history of service and development to communities of color to provide technical assistance and to expand the National Minority Organization/Cooperative Agreement Program. Funds have been provided to expand and strengthen contracts with HBCUs and HSIs to provide funding to minority behavioral scientists to enhance the implementation of research-based prevention activities for disease prevention, health promotion and HIV/AIDS in conjunction with community organizations targeting minority populations.

The conference agreement includes language proposed by the House that earmarks \$450,000 for a contract with the National Academy of Sciences to conduct a study of OSHA's proposed rule relating to occupational exposure to tuberculosis. The study should address the following questions:

1. Are health care workers at a greater risk of infection, disease, and mortality due to tuberculosis than the general community within which they reside? If so, what is the excess risk due to occupational exposure?

2. Can the occupationally acquired risk be quantified for different work environments, different job classifications, etc., as a result of implementation of the 1994 Centers for Disease Control and Prevention (CDC) guidelines for the prevention of tuberculosis transmission at the worksite or the implementation of specific parts of the CDC guidelines?

3. What effect will the implementation of OSHA's proposed tuberculosis standard have in minimizing or eliminating the risk of infection, disease, and mortality due to tuberculosis?

The agreement includes language as proposed by the Senate setting aside \$10,569,000 under the adolescent family life program for activities specified under § 2003(b)(2) of the Public Health Service Act, of which \$9,131,000 shall be for prevention grants under § 510(b)(2) of the Social Security Act, without application of the limitation of § 2010(c) of the Public Health Service Act. The House bill had no similar provision.

With respect to the advance appropriation of \$20,000,000 for title XX of the Public Health Service Act, it is intended that these funds be used for grants to organizations that clearly and consistently focus on abstinence for preventing STD's and unwanted pregnancy. [Abstinence shall have the same meaning as in Public Law 104-193, title IX, section 912.] Grants to these organizations should focus on training persons as abstinence instructors and on providing actual presentations to youth at vulnerable ages (grades 7 through 12). The Department shall hold competition for these grants during the regular grant cycle in fiscal year 2000 and issue these grants at the beginning of fiscal year 2001.

The conference agreement concurs with the language in the House Report relating to an Institute of Medicine study on ethnic bias in medicine.

Sufficient funds are available to continue the inner city childhood asthma project at the Children's Hospital of Philadelphia.

It is understood that the screening of blood and blood products could be improved through the use of nucleic acid testing (NAT) to better detect known infectious diseases such as Human Immunodeficiency Virus (HIV-1) and Hepatitis C virus (HCV). The National Heart, Lung and Blood Institute in the National Institutes of Health has contracted with private companies to develop fully automated NAT tests for HIV-1 and HCV. In view of NIH's financial commitment to NAT and the approval of NAT in other countries, the Public Health Service Blood Safety Committee, chaired by the Surgeon General/Assistant Secretary for Health, is urged to encourage the adoption of these screening tools for individual donor testing of blood and plasma.

The conference agreement includes language proposed by the Senate modified to earmark \$500,000 to be utilized by the Surgeon General to prepare and disseminate the findings of the Surgeon General's report on youth violence and to coordinate with other agencies activities to prevent youth violence. The House bill had no similar provision.

The conference agreement also includes the following amounts for the following projects:

- \$100,000 for Tomorrow's Child, a program to support and educate first time pregnant adolescents, their families and communities

- \$2,000,000 for the Lawton Chiles Foundation of Florida

- \$1,000,000 for the Albert Einstein Medical Center LIFE elderly care model

- \$500,000 for the Thomas Jefferson University Hospital sickle cell program

—\$1,250,000 for the CORE Center at Cook County Hospital in Chicago to develop a model HIV/AIDS Education and Training Center.

OFFICE OF INSPECTOR GENERAL

The conference agreement appropriates \$31,500,000, instead of \$29,000,000 as proposed by the House and \$35,000,000 as proposed by the Senate. The agreement does not include language proposed by the House to limit the amount of funds available to the Inspector General in FY 2000 under the Health Insurance Portability and Accountability Act of 1996 (HIPAA) to no more than \$100,000,000, the same amount as in FY 1999. The Senate bill had no similar provision.

Sufficient funds are available to initiate activities in Pittsburgh, PA as mentioned in the Senate Report.

OFFICE FOR CIVIL RIGHTS

The conference agreement appropriates \$22,152,000, instead of \$20,652,000 as proposed by the House and \$22,159,000 as proposed by the Senate.

The conference agreement appropriates \$17,000,000, instead of \$15,000,000 as proposed by the Senate and \$14,000,000 as proposed by the House. The agreement includes \$850,000 for the East St. Louis Center operated by Southern Illinois University to analyze problems faced by health service providers in administering multiple sources of funding.

The conference agreement includes \$7,150,000 to continue the study of the outcomes of welfare reform. It is recommended that this effort include the collection and use of state-specific surveys and state and federal administrative data. The study should focus on improving the capabilities and comparability of data collection efforts and developing and reporting reliable State-by-State measures of family hardship and well-being and of the utilization of other support programs. The study should measure outcomes for a broad population of low-income families, welfare recipients, former recipients, potential recipients, and other special populations affected by state TANF policies, including diversion practices. The conference agreement includes sufficient funds to continue supporting efforts at Iowa State University to develop state-level data on low-income families that can be integrated with national data collection efforts. A report is to be submitted to the Appropriations Committees within nine months.

PUBLIC HEALTH AND SOCIAL SERVICES EMERGENCY FUND

The conference agreement provides \$583,600,000 for the Public Health and Social Services Emergency Fund instead of \$391,833,000 as proposed by the House and \$475,000,000 as proposed by the Senate. The conference agreement also includes a provision that these funds shall be made available only upon submission of a budget request designating the entire amount as an emergency requirement as defined in the Balanced Budget and Emer-

gency Deficit Control Act of 1985 as proposed by the House. The Senate bill did not propose this account as an emergency.

The amount provided includes \$229,000,000 for the Centers for Disease Control and Prevention. Included in this amount is \$155,000,000 for the following bioterrorism activities:

- \$1,000,000 to enhance technical capabilities to identify certain biological agents;

- \$1,000,000 for the Noble Army Hospital of Alabama bioterrorism program;

- \$2,000,000 to assist States in developing emergency preparedness plans;

- \$2,000,000 for public health training centers;

- \$2,000,000 to discover, develop, and transition anti-infective agents to combat emerging diseases;

- \$2,000,000 to expand epidemiological intelligence service;

- \$4,000,000 for conducting independent studies of health and bioterrorism threats, of which \$1,000,000 is for the Carnegie Mellon Research Institute, \$1,000,000 is for the St. Louis University School of Public Health, \$1,000,000 is for the University of Texas Medical Branch at Galveston; and \$1,000,000 is for the Johns Hopkins University Center for Civilian Biodefense;

- \$5,000,000 to develop rapid toxic screening;

- \$7,000,000 to strengthen State and local epidemiological and surveillance capacity;

- \$8,400,000 to better identify potential biological and chemical terrorism agents;

- \$9,000,000 to develop new sources and methods for surveillance;

- \$30,000,000 for a national health alert network; and

- \$52,000,000 for a pharmaceutical and vaccine stockpile.

The remaining \$74,000,000 is provided for the following activities: \$5,000,000 for the environmental health laboratory; and \$69,000,000 for a global health initiative, of which \$5,000,000 is for micronutrient malnutrition programs; \$9,000,000 is for malaria programs; \$20,000,000 is for polio eradication activities; and \$35,000,000 is for international HIV/AIDS programs.

These funds are available to entities that target a specific minority group or multi-ethnic minority populations that are heavily impacted by HIV/AIDS, and are to compliment existing and planned HIV/AIDS activities in communities of color; \$75,000,000 for Ricky Ray Hemophilia Relief Fund

Act within the Health Resources and Services Administration, of which \$10,000,000 is for program administration; and \$150,000,000 for Y2K activities at the Health Care Financing Administration.

Within the increase provided to NIH, sufficient funds are available for global health initiative activities identified in the Senate report.

GENERAL PROVISIONS

NIH AND SAMHSA SALARY CAP

The conference agreement includes a provision limiting the use of the National Institutes of Health and the Substance Abuse and Mental Health Services Administration funds to pay the salary of an individual, through a grant or other extramural mechanism, at a rate not to exceed Level II of the Executive Schedule instead of Level III as proposed by the Senate. The House bill contained no similar provision.

TRANSFER AUTHORITY

The conference agreement includes a provision proposed by the House to prohibit any appropriation from increasing by more than three percent as a result of use of the Secretary's one percent transfer authority. The Senate bill contained a similar provision except it exempted the Public Health and Social Services Emergency Fund.

ORGAN ALLOCATION FINAL RULE

The conference agreement includes a provision delaying the effective date of the Department's final rule entitled, "Organ Procurement and Transplantation Network (OPTN)," promulgated by the Secretary of Health and Human Services on April 2, 1998 (63 FR 16295 et. seq.) (relating to part 121 of Title 42, Code of Federal Regulations), together with amendments to such rule promulgated on October 20, 1999 (64 FR 56649 et seq.). The amended final rule shall not become effective before the expiration of the 42 day period beginning on the date of enactment of this Act.

It is intended that the Secretary will continue discussions with the OPTN and other representatives of the transplant community for 21 days after enactment of this Act concerning the provisions of the amended final rule. It is also intended that the Secretary shall spend an additional 21 days considering the issues raised in those discussions before the amended final rule becomes effective. It is intended that this shall be the final delay of the rule.

SUBSTANCE ABUSE BLOCK GRANT FORMULA ALLOCATION

The conference agreement includes a provision proposed by the House to provide each State with the same funding level in fiscal year 2000 as it received in fiscal year 1999. The Senate bill contained a similar provision except it was based on an increased appropriation amount.

EXTENSION OF CERTAIN ADJUDICATION PROVISIONS

The conference agreement includes a provision proposed by the Senate to extend the refugee status for persecuted religious groups. The House bill contained no similar provision.

MEDICARE COMPETITIVE PRICING DEMONSTRATION PROJECT

The conference agreement includes a provision proposed by the Senate to prohibit funding to implement or administer the Medicare Prepaid Competitive Pricing Demonstration Project in Arizona or in Kansas City, Missouri or in the Kansas City, Kansas area. The House bill contained no similar provision.

DELAYED OBLIGATIONS

The conference agreement includes a provision to delay the obligation of \$3,000,000,000 of NIH funds; \$450,000,000 of HRSA funds; \$500,000,000 of CDC funds; \$200,000,000 of SAMHSA funds; \$425,000,000 of Social Services Block Grant funds; and \$400,000,000 of Children and Families Services funds until September 29, 2000. The Senate bill contained a provision to delay the obligation of \$3,000,000,000 of NIH funds until September 29, 2000. The House bill contained no similar provision.

SENSE OF THE SENATE REGARDING DIABETES AWARENESS AND FUNDING

The conference agreement deletes without prejudice a sense of the Senate provision regarding diabetes awareness and support for increased diabetes research funding. The House bill contained no similar provision.

STUDY OF THE GEOGRAPHIC ADJUSTMENT FACTORS IN THE MEDICARE PROGRAM

The conference agreement includes a provision proposed by the Senate to require the Secretary of HHS to conduct a study on appropriateness of the geographic adjustment factors used to determine the amount of payment for physicians' services under the Medicare program in New Mexico, Arizona, Colorado, and Texas and the effect these factors have on recruitment and retention of physicians in small rural States. The House bill contained no similar provision.

DENTAL SEALANT DEMONSTRATION PROGRAM

The conference agreement deletes a provision proposed by the Senate to establish a multi-State dental sealant demonstration program. The House bill contained no similar provision. The agreement includes sufficient funds within the Maternal and Child Health block grant to initiate such a program.

WITHHOLDING OF SUBSTANCE ABUSE FUNDS

The conference agreement includes a provision proposed by the Senate to allow a State to avoid a penalty under section 1926 of the Public Health Service Act (commonly known as the Synar Amendment) if the State agrees to commit new State funding to

help ensure compliance with State laws prohibiting youth purchase of tobacco products. It is noted that the provision applies only for fiscal year 2000 and States are expected to continue to try to meet the established Synar Amendment targets for enforcement of their youth tobacco laws. It is also noted that there is increasing sentiment that the Synar Amendment needs to be reexamined and all concerned parties are encouraged to work toward a compromise solution next year with the appropriate authorizing committees. The provision allows the Secretary to exercise discretion in enforcing the timing of the new State expenditures in order to provide flexibility to States that do not immediately have available funds for this purpose. It is expected that within 30 days of accepting an agreement to increase funding for enforcement, the State will provide a report to the Secretary of all State resources spent in fiscal year 1999 on enforcement of the State law by program activity and by May 15, 2000, a report on FY 2000 obligations regarding enforcement unless otherwise negotiated by the Secretary. The Secretary shall deliver the findings of these reports to Congress. The language provides the Secretary authority to permit a State to commit an amount smaller than its formula amount as described in subsection (b) in order to recognize that an individual state may have been granted "delayed applicability" status under the Synar Amendment by the Substance Abuse and Mental Health Services Administration.

MEDICARE INJECTABLE DRUG COVERAGE

The conference agreement includes a provision not proposed by either House or Senate related to Medicare injectable drug coverage. There is concern that an August 13, 1997 memorandum and subsequent interpretations will inappropriately restrict beneficiary access to injectable drugs that are and have been covered by the Medicare program. It is noted that for many years, Medicare policy (as stated in Section 2049.2 of the Medicare Carriers Manual) has allowed coverage of a drug or biological administered incident to a physician's service where the product is one that is not usually self-administered by the patient. It is intended that HCFA continue to cover such products under Social Security Act section 1861(s)(2) and communicate this policy through a program memorandum to all HCFA regional offices. HCFA is directed to obtain public input on this matter by holding at least two regional "town hall meetings" to give interested organizations and individuals an opportunity to share their thoughts and concerns on the issue of reimbursement for injectable drugs.

NATIONAL CANCER INSTITUTE

The conference agreement includes a provision to allow the Cancer Therapy and Research Center in San Antonio, Texas to continue to use prior year construction grant funding without fiscal year limitation.

CHILDHOOD ASTHMA

The conference agreement deletes a provision proposed by the Senate to provide an earmark of \$8,706,000 for the asthma preven-

tion program on October 1, 2000. The House bill contained no similar provision. The conference agreement includes \$11,294,053 for asthma prevention as part of the Centers for Disease Control and Prevention.

STUDY OF VACCINES FOR BIOLOGICAL AGENTS

The conference agreement transfers \$20,000,000 from the National Institutes of Health (NIH) to the Centers for Disease Control and Prevention (CDC) for a collaborative effort to study the safety and efficacy of vaccines used against biological agents. The study would address: (1) the risk factors for adverse events, including differences in rates of adverse events between men and women; (2) determining immunological correlates of protection and documenting vaccine efficacy; and (3) optimizing the vaccination schedule and administration to assure efficacy while minimizing the number of doses required and the occurrence of adverse events. It is intended that NIH, CDC, and the Department of Defense will fully cooperate in this effort.

TITLE II CITATION

The conference agreement includes a provision proposed by the House to cite title II as the “Department of Health and Human Services Appropriations Act, 2000”. The Senate bill contained no similar provision.

TITLE III—DEPARTMENT OF EDUCATION

EDUCATION REFORM

The conference agreement includes \$1,768,370,000 for Education Reform, instead of the \$800,100,000 proposed by the House and \$1,655,600,000 as proposed by the Senate. The agreement does not include advance funding of \$344,625,000 as proposed by the Senate. The House had no similar provision.

Goals 2000

For Goals 2000, the conference agreement provides \$491,000,000. The Senate provided \$494,000,000. The House proposed no funding for this program. This amount includes \$458,000,000 for state grants, instead of \$461,000,000 as proposed by the Senate. The House proposed no funding for this program. Technology Literacy Challenge Fund

For the Technology Literacy Challenge Fund, the conference agreement includes \$425,000,000 proposed by the Senate. The House provided \$375,000,000.

Technology Innovation Challenge Grants

EDUCATION FOR THE DISADVANTAGED

The conference agreement includes \$8,700,986,000 for Education for the Disadvantaged instead of the \$8,750,986,000 proposed by the Senate and \$8,417,897,000 as proposed by the House. The agreement includes advance funding for this account of \$6,204,763,000, the same as both the House and the Senate.

For Grants to Local Education Agencies (LEAs) the agreement provides \$7,941,397,000, compared with \$8,052,397,000 provided in the Senate bill and \$7,732,397,000 provided in the House bill. Of the funds made available for basic grants, \$5,046,366,000 becomes available on October 1, 2000 for the academic year 2000–2001.

The agreement includes \$6,783,000,000 for basic state grants and \$1,158,397,000 for concentration grants. Of this total, \$1,158,397,000 for fiscal year 2000 was advance funded in the fiscal year 1999 Departments of Labor, Health and Human Services and Education and Related Agencies Act (P.L. 105–277). The conference agreement funding of \$1,158,397,000 for concentration grants is advanced for fiscal year 2001.

The conference agreement includes \$134,000,000 within the Title I program to help schools in school improvement status to improve student achievement. The conference agreement also provides that school districts must give students attending schools identified in school improvement status the option to transfer to another public school within the local educational agency that has not been identified for school improvement. If the local educational agency does not have the capacity to provide this option to all students who seek it, the local educational agency must permit as many students as possible to transfer to another public school that is not in school improvement status.

The conference agreement includes \$12,000,000 for capital expenses for private school children, instead of \$15,000,000 proposed by the Senate. The House contained no funding for this program.

The conference agreement provides \$150,000,000 for the Even Start program as proposed by the House. The Senate provided \$145,000,000 for this program.

The conference agreement provides \$42,000,000 for Neglected and Delinquent Youth as proposed by the Senate. The House provided \$40,311,000 for this program.

The conference agreement provides \$8,900,000 for evaluation of title I programs as proposed by the Senate. The House provided \$7,500,000 for this activity.

The conference agreement includes the provision contained in the Senate bill regarding a 100% hold harmless for States and LEAs for both basic and concentration grants. The conference agreement also adopts language included in the Senate bill providing that the Department shall make 100% hold harmless awards to LEAs who were eligible for concentration grants in 1998 but are not eligible to receive grants in fiscal year 2000, ratably reduced if necessary.

The House nevertheless opposes the hold harmless provision because it unfairly penalizes underprivileged and immigrant children in growing states, including Arizona, Arkansas, California, Connecticut, Florida, Georgia, Hawaii, Montana, Nevada, New

Mexico, New York, North Carolina, South Carolina, Texas, Virginia and the District of Columbia. These states represent over half of the U.S. population of underprivileged schoolchildren.

The House also notes that the 100% hold harmless provision is opposed by the House authorizing committee of jurisdiction and the Administration. The House will continue to oppose the inclusion of such a provision in the future.

The conference agreement also adopts language included in the Senate bill providing that the Secretary of Education shall not take into account the 100% hold harmless provision in determining State allocations under any other program.

The conference agreement includes \$170,000,000 for the Comprehensive School Reform Demonstration Program under Title I-Education for the Disadvantaged; both the House and Senate funded this program at \$120,000,000. Together with \$50,000,000 provided under the Fund for the Improvement of Education, the conference agreement includes a total of \$220,000,000 for Comprehensive School Reform grants to school districts for continuation and new awards.

The conference agreement directs the Department to follow the directives in the conference report accompanying the fiscal year 1998 bill (House Report 105-390) and in the conference report accompanying the fiscal year 1999 bill (House Report 105-825).

The conference agreement includes \$15,000,000 for the High School Equivalency Program instead of \$9,000,000 as proposed by both the House and the Senate and includes \$7,000,000 for the College Assistance Migrant Program instead of \$4,000,000 as proposed by both the House and the Senate.

IMPACT AID

The conference agreement provides \$910,500,000 for the Impact Aid programs. The House proposed \$907,200,000. The Senate proposed \$892,000,000. For basic grants the conference agreement includes \$737,200,000, for payments for children with disabilities the agreement includes \$50,000,000, and for payments for heavily impacted districts the agreement includes \$76,000,000. The agreement also includes \$5,000,000 for facilities maintenance, \$10,300,000 for construction, and \$32,000,000 for payments for federal property. The conference agreement provides within the account for construction, \$500,000 for the Ft. Sam Houston ISD, \$800,000 for the Hays Lodgepole School District in MT and \$2,000,000 for the North Chicago Community Unit School District.

The conference agreement also includes the following language provisions: eligibility for the Central Union, Island, and Hueneme School Districts in California and the Hill City, Wall, and Hot Springs School Districts in South Dakota; timely filing of applications by the Brookeland School District in Texas, the Fallbrook High School District in California and Hydaburg School District in Alaska; forgiveness of overpayment for the Hatboro-Horsham and Delaware Valley School Districts in Pennsylvania; and computing payments for Travis School District in California. Neither the House nor Senate bills contained similar provisions.

The conference agreement notes the Administration's proposal to significantly expand the Military Family Housing Privatization

Initiative, which has since been scaled back. In some privatization projects, the property itself is privatized, causing serious implications for the affected school districts' ability to receive funding under the Impact Aid program. Thus, the conference agreement strongly urges the Administration to clarify that military family housing privatization proposals will have no effect on Impact Aid payments to local school districts, even if land is privatized.

SCHOOL IMPROVEMENT PROGRAMS

The conference agreement provides \$3,026,884,000 for School Improvement Programs, instead of \$3,115,188,000 as proposed by the House and \$2,961,634,000 as proposed by the Senate. The agreement provides \$1,511,884,000 in fiscal year 2000 and \$1,515,000,000 in fiscal year 2001 funding for this account.

Eisenhower professional development

For the Eisenhower professional development activities, the agreement provides \$335,000,000, the same level as in the Senate bill. The House provided no funding for this activity.

Innovative education program strategies

For innovative education program strategies, title VI of the Elementary and Secondary Education Act of 1965, the conference agreement provides \$380,000,000. The House provided \$385,000,000 and the Senate bill included \$375,000,000.

Class size

The conference agreement includes \$1,300,000,000 to continue the initiative to reduce class size that was begun in fiscal year 1999. The House bill provides \$1,800,000,000 for the Teacher Empowerment Act, subject to authorization. The Senate bill provided \$1,200,000,000 for teacher assistance activities, subject to authorization. The agreement provides \$400,000,000 in fiscal year 2000 and \$900,000,000 in fiscal year 2001 funding for this account.

The conference agreement provides that the allocation of funds under section 310 to the states shall be based on the proportional share that each state received from the fiscal year 1999 appropriation for class size reduction. States will continue to allocate their grant funds among local educational agencies based on a formula that reflects both their relative numbers of children in low-income families and their school enrollments.

Local educational agencies would use funds for recruiting, hiring and training fully qualified regular and special education teachers who are certified within the states, have a baccalaureate degree and demonstrate subject matter knowledge in their content areas. Twenty five percent of these funds may be used by local educational agencies to test new teachers for academic content knowledge, to meet state certification requirements, or to provide professional development for existing teachers to meet the goal of ensuring that all instructional staff are fully qualified. All teachers hired using fiscal year 1999 funds for this program must also be fully qualified within one year. A local educational agency that has already reduced class size in the early grades may use its funds to make further reductions in grades kindergarten through 3 or other

grades, or carry out activities to improve teacher quality. A local educational agency in which 10 percent or more of its elementary teachers are uncertified may apply to the state for a waiver under the Education Flexibility Partnership Act to use funds under this program for the purpose of helping those teachers become certified. A local educational agency that receives an award under this section which is less than the starting salary for a new teacher may use these funds to help pay the salary of a teacher or pay for professional development activities to ensure that all the instructional staff are fully qualified.

To improve accountability, the conference agreement provides that each state and local educational agency receiving funds publicly report to parents on the progress in reducing class size, increasing the percentage of classes in core academic areas taught by fully qualified teachers, and the impact that such activities has had on increasing student academic achievement. Parents, upon request, will also have the right to know the professional qualifications of their children's teachers.

The conference agreement urges the Secretary of Education to inform local educational agencies of the new flexibility provisions of this section, particularly the increase in the amount that can be spent on new teacher testing and professional development activities, the ability to spend these funds on professional development for existing teachers if the LEA receives an award that is less than the starting salary for a new fully qualified teacher, and the additional flexibility provided to LEAs in states participating in the "Ed-Flex" Program.

Safe and drug free schools

The conference agreement includes \$605,750,000 for the Safe and Drug Free Schools and Communities Act instead of the \$566,000,000 proposed by the House and \$636,000,000 proposed by the Senate. The agreement provides \$115,000,000 in fiscal year 2000 and \$330,000,000 in fiscal year 2001 funding for this account.

Included within this amount is \$445,000,000 for state grants, instead of \$441,000,000 as proposed by the House and \$476,000,000 as proposed by the Senate.

The conference agreement also includes \$110,750,000 for national programs, instead of \$90,000,000 as proposed by the House and \$100,000,000 as proposed by the Senate.

The conference agreement includes \$850,000 within the safe and drug free schools national programs to continue the National Recognition Awards programs to provide models of alcohol and drug abuse prevention and education at the college level.

The conference agreement includes \$50,000,000 under national programs for the Safe and Drug Free Schools coordinator initiative, instead of \$35,000,000 as proposed by the House and \$60,000,000 as proposed by the Senate.

The conference agreement includes \$750,000 for a study of school violence authorized under section 4 of P.L. 106-71 (the Missing, Exploited, and Runaway Children Protection Act). The conference agreement requests the National Academy of Sciences to consult with the authorizing and appropriations committees in developing the scope and specifications for this study.

Reading is Fundamental

For the Reading is Fundamental program, the conference agreement provides \$20,000,000 instead of \$21,500,000 as proposed by the Senate and \$18,000,000 as proposed by the House.

The conference agreement includes \$28,000,000 for Comprehensive Regional Assistance Centers as proposed by the Senate instead of \$27,054,000 as proposed by the House. The conference agreement includes \$750,000 within these funds for an evaluation to collect performance indicator data.

Advanced placement fees

For advanced placement fees, the conference agreement provides \$15,000,000 as proposed by the Senate instead of \$4,000,000 as proposed by the House. The conference agreement notes that less than half of our Nation's high schools offer some form of Advanced Placement (AP) course instruction for junior and senior high school students. The lack of access to this instruction is particularly acute in rural parts of the country. Internet-based AP course instruction is a dynamic and cost-effective way to deliver AP instruction to students living in rural areas and other areas where conventional instructor-led training for AP courses is not available. Accordingly, the conference agreement encourages the Secretary to use some of the Advanced Placement Incentive Program funds to award grants to States or LEAs seeking to establish Internet-based

AP pilot programs in rural parts of the country or other underserved districts where students would otherwise not have access to AP instruction.

READING EXCELLENCE

The conference agreement includes \$260,000,000 for activities authorized under the Reading Excellence Act instead of the \$200,000,000 proposed by the House and \$285,000,000 proposed by the Senate. For immigrant education, the agreement provides \$150,000,000, the same level as in the House and Senate bills. The agreement also provides \$8,000,000 for foreign language assistance instead of the \$6,000,000 proposed by the House and \$10,000,000 proposed by the Senate.

SPECIAL EDUCATION

The conference agreement includes \$6,036,646,000 for Special Education instead of the \$5,833,146,000 proposed by the House and \$6,035,646,000 proposed by the Senate. The agreement provides \$2,294,646,000 in fiscal year 2000 and \$3,742,000,000 in fiscal year 2001 funding for this account.

The conference agreement includes \$98,000,000 for Teacher Quality Enhancement Grants instead of \$75,000,000 as proposed

by the House and \$80,000,000 as proposed by the Senate. The conference agreement reflects concern about long-standing problems with teacher education programs in America, including inadequate time to learn subject matter in depth; fragmented coursework that is disconnected from practice teaching; uninspired teaching methods; and superficial curriculum. Without considerable attention to raising the quality of teacher preparation programs, an increasing number of under-qualified teachers will be teaching our children. The Department of Education estimates that 2 million more teachers will be needed over the next 10 years as student enrollments reach their highest levels ever, and teacher retirements and attrition create large numbers of vacancies.

The conference agreement notes that while some exemplary approaches to teacher education exist, too few institutions have restructured their programs to assure that teachers are well qualified in the subjects they teach and well trained in research-based instructional practices needed to help all children learn. Therefore, the conference agreement urges the Secretary to apply rigorous criteria in funding new Teacher Quality Enhancement Partnership Grants in fiscal year 2000 and to submit a letter to the House and Senate Committees on Appropriations outlining the criteria that the Secretary will use to evaluate applications and to ensure that institutions of higher education receiving funding under this program achieve measurable performance outcomes that will enhance teacher quality. Such outcomes might include, but not be limited to, improved performance (measured through test scores, portfolios, state certification or other means) of students in teacher training programs; increases in the amount and rigor of coursework in content areas; increased and extended clinical placements; increased entry of graduates into teaching; and raising academic standards for entry into and graduation from teacher preparation programs.

The conference agreement includes \$45,000,000 for a Small Schools initiative under section 10105 of Part A of title X of the Elementary and Secondary Education Act. The conference agreement recognizes that one approach that holds great potential for preventing school violence is creating smaller high schools. The tragic shootings at Columbine High School in Littleton, Colorado have reinforced what many education practitioners already know—the impersonal nature of large high schools leaves too many young people feeling apathetic, isolated and alienated from their peers, schools and communities.

Yet, approximately 70% of American high school students attend schools enrolling 1,000 or more students despite the strong body of research documenting the benefits of smaller higher schools. These benefits include less crime and violence, fewer disciplinary problems, less alcohol and tobacco use, better student attendance, fewer dropouts, more satisfied students, greater student participation in school activities, and greater student academic achievement. The conference agreement acknowledges that the significant benefits of smaller schools justify a federal investment to encourage school districts to undertake research-based strategies to create smaller learning communities within large high schools, as recommended in *Breaking Ranks*, a 1996 study commissioned by the nation's secondary school principals. Such strategies include establishing small learning clusters, "houses", career academies, magnet schools or other approaches to creating schools within schools; block scheduling; personal adult advocates, teacher-advisory systems and other mentoring strategies; reduced teaching loads; and other innovations designed to create a more personalized high school experience for students and improve student achievement.

Within the amount for the Small Schools initiative, not less than \$42,750,000 is for competitive grants to local educational agencies to plan, develop and implement smaller learning communities where students receive individual attention and support—with a goal of not more than 600 students in each learning community. The conference agreement directs that each grantee shall use funds only for activities related to high school redesign and that up to \$2,250,000 may be used by the Secretary for evaluation, technical assistance, and school networking activities. The conference agreement affirms that the management of this initiative would benefit from a team effort within the Department and directs that the program shall be jointly managed by the Office of Elementary and Secondary Education and the Office of Vocational and Adult Education. Finally, the Department shall provide a letter by March 31, 2000 to the House and Senate Committees on Appropriations outlining its plan for implementing this initiative.

TITLE IV—RELATED AGENCIES

ARMED FORCES RETIREMENT HOME

The conference agreement provides \$68,295,000 for the Armed Forces Retirement Home as proposed by the House. The Senate bill contained no appropriation for the Home.

CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

DOMESTIC VOLUNTEER SERVICE PROGRAMS, OPERATING EXPENSES

The conference agreement provides \$295,645,000 for the Domestic Volunteer Service programs instead of \$293,261,000 as proposed by the Senate and \$274,959,000 as proposed by the House.

Volunteers in Service to America (VISTA)

The conference agreement provides \$81,000,000 for VISTA as proposed by the Senate instead of \$73,000,000 proposed by the House.

National Senior Volunteer Corps

The conference agreement provides \$96,354,000 for the Foster Grandparent Program (FGP), \$39,369,000 for the Senior Companion Program (SCP), and \$46,293,000 for the Retired Senior Volunteer Program (RSVP). The House proposed \$93,256,000 for Fos-

ter Grandparents, \$36,573,000 for Senior Companions and \$43,001,000 for Retired Senior Volunteers. The Senate proposed \$95,000,000 for FGP, \$39,031,000 for SCP and \$46,001,000 for RSVP.

One-third of the increases provided for the FGP, SCP, and RSVP programs shall be used to fund Programs of National Significance expansion grants to allow existing FGP, RSVP and SCP programs to expand the number of volunteers serving in areas of critical need as identified by Congress in the Domestic Volunteer Service Act.

Sufficient funding has been included to provide a 2 percent increase for administrative costs realized by all current grantees in the FGP and SCP programs, and a 4 percent increase for administrative costs realized by all current grantees in the RSVP program. Funds remaining above these amounts should be used to begin new FGP, RSVP and SCP programs in geographic areas currently unserved. The conference agreement expects these projects to be awarded via a nationwide competition among potential community-based sponsors.

The Corporation for National and Community Service shall comply with the directive that use of funding increases in the Foster Grandparent Program, Retired and Senior Volunteer Program and VISTA not be restricted to America Reads activities. The agreement further directs that the Corporation shall not stipulate a minimum or maximum amount for PNS grant augmentations.

The conference agreement also provides \$1,500,000 for senior demonstration activities, instead of \$3,100,000 proposed by the Senate. The House did not propose funding for this activity. Sufficient funds are provided for the third and final year of the Seniors for Schools demonstration. Of the total, \$350,000 is provided to conduct an evaluation of existing demonstration activities and to bring to closure the Seniors for Schools demonstration project.

Funds are also provided to continue other existing senior demonstration activities, except that no funds are provided for the payment of non-taxable, non-income stipends to individuals not meeting income requirements established by Congress. No new demonstration projects may be begun with these funds. None of the increases provided for FGP, SCP, or RSVP in fiscal year 2000 may be used for demonstration activities. The agreement further expects that all future demonstration activities will be funded through allocations made through Part E of the Domestic Volunteer Service Act.

Funds appropriated for Fiscal Year 2000 may not be used to implement or support service collaboration agreements or any other changes in the administration and/or governance of national service programs prior to passage of a bill by the authorizing committees of jurisdiction specifying such changes.

Program administration

The conference agreement includes \$31,129,000 for program administration of DVSA programs at the Corporation, instead of \$29,129,000 that was provided in both House and Senate bills. The additional \$2,000,000 is provided to assist the Corporation in correcting its financial management weaknesses and obtaining a clean

opinion on its financial statements. Funding should be used to fully implement the new core financial management system and to make other technology enhancements that will improve customer service and field communications.

CORPORATION FOR PUBLIC BROADCASTING

The conference agreement provides \$350,000,000 in advance funding for fiscal year 2002 for the Corporation for Public Broadcasting as proposed by the Senate instead of \$340,000,000 as proposed by the House.

The conference agreement includes language proposed by the House providing an additional \$10,000,000 for digitalization, if specifically authorized by subsequent legislation by September 30, 2000. The Federal Communications Commission (FCC) has mandated that all public television be converted from analog to digital transmission by May 2003. Because television and radio broadcast infrastructures are closely linked, the conversion of television to digital will create immediate costs not only for television, but also for public radio stations. Public broadcasting stations with limited resources, in particular small rural stations, will be faced with extreme hardship because of the significant cost of converting to digital, therefore, the conference agreement encourages funds provided to be targeted to those stations with the most financial need.

The conference agreement commends the Corporation for adoption of the Listener Access 2000 initiative and other related efforts that recognize the need to enhance service in rural and underserved areas. These steps will expand the number of stations defined as serving rural areas, create a new incentive grant tailored to areas with limited financial resources, while maintaining the public-private nature of public broadcasting.

While this approach is a meaningful initial investment, the conference agreement urges the Corporation to continue to explore additional ways to ensure that its goal of universal service throughout the country is achieved. The conference agreement recognizes that stations serving rural and underserved audiences typically have limited local potential for fundraising because of sparse populations serviced, limited number of local businesses, and low-income levels.

The conference agreement strongly urges the Corporation to consider expanding its Rural Listener Access Incentive Fund, which will support further enhancements to and reliability of service in rural and underserved areas. Furthermore, the conference agreement supports additional actions that will assist stations in serving rural and underserved areas.

FEDERAL MEDIATION AND CONCILIATION SERVICE

The conference agreement provides \$36,834,000 for the Federal Mediation and Conciliation Service as proposed by the Senate instead of \$34,620,000 as proposed by the House. The conference agreement also includes bill language proposed by the Senate stating that FMCS may charge for training activities, services, and assistance, including those provided to foreign governments and international organizations.

FEDERAL MINE SAFETY AND HEALTH REVIEW COMMISSION

The conference agreement provides \$6,159,000 for the Federal Mine Safety and Health Review Commission as proposed by the Senate instead of \$6,060,000 as proposed by the House.

INSTITUTE OF MUSEUM AND LIBRARY SERVICES

The conference agreement provides \$166,885,000 for the Institute of Museum and Library Services. The Senate proposed \$154,500,000. The House proposed \$149,500,000. The conference agreement does not accept the President's request for \$5,000,000 under National Leadership Grants for Libraries for the National Digital Library initiative. The increase in funding for this account should be used for new awards under the regular grant competition. Within the amount provided, the conference report specifies funding for the following activities:

The conference agreement notes that the NLRB has indefinitely withdrawn from active consideration its proposed rulemaking proceedings in this area.

NATIONAL MEDIATION BOARD

The conference agreement provides \$9,600,000 for the National Mediation Board as proposed by the Senate instead of \$8,400,000 as proposed by the House. OFFICE OF INSPECTOR GENERAL

The conference agreement provides \$66,000,000 for the Office of Inspector General through a combination of general revenues and limitations on trust fund transfers as proposed by the Senate instead of \$56,000,000 as proposed by the House.

UNITED STATES INSTITUTE OF PEACE

The conference agreement provides \$13,000,000 for the United States Institute of Peace as proposed by the Senate instead of \$12,160,000 as proposed by the House. The conference agreement directs the United States Institute of Peace to provide information in the fiscal year 2001 Congressional budget justification regarding the use of appropriated funds in the Endowment. Included in this information should be the total amount of appropriated funds transferred into the Endowment from the most recent fiscal year available, the total amount of interest earned in the fiscal year on those funds, a list of all dates in which draw downs occur and those amounts, and a beginning and end of year balance of the Endowment.

TITLE V—GENERAL PROVISIONS

HOSPITAL OUTPATIENT SERVICES

However, the Secretary of HHS is urged to conduct such a study and report her findings to Congress.

tion 504 very low-income housing repair and \$4,500,000 is for section 514 farm labor housing.

GENERAL PROVISIONS—THIS CHAPTER

SEC. 101. The conference agreement directs the Secretary of Agriculture to provide up to \$20,000,000 in assistance under the noninsured crop assistance program, without any requirement for an area loss, to producers located in a county with respect to which a natural disaster was declared by the Secretary or a major disaster or emergency was declared by the President under the Robert T. Stafford Disaster Relief and Emergency Assistance Act.

SEC. 102. The conference agreement includes language making a technical correction to section 814 of Public Law 106-78 regarding crop insurance premium discounts.

SEC. 103. The conference agreement includes language permitting the Secretary of Agriculture to obligate not to exceed \$4,700,000 of previously appropriated funds for mandatory livestock private reporting.

SEC. 104. The conference agreement includes language which permits the Secretary of Agriculture to provide assistance to producers or first-handlers for the 1999 crop of cottonseed, and which provides special competitive provisions for extra long staple cotton.

The Farm Service Agency of the Department of Agriculture has indicated that funds made available by previous appropriations Acts for market loss assistance may exceed the amounts necessary to carry out the requirements of those Acts. If the Secretary determines that this is the case, the conference agreement directs that such funds shall be applied first to fund activities related to mandatory livestock price reporting, second to fund assistance to producers or first-handlers for the 1999 crop of cottonseed, and third to fund activities related to special competitive provisions for extra long staple cotton. Within 30 days of enactment of this Act, the Secretary shall report to the Appropriations Committees of the House and the Senate on the status of funds previously appropriated for market loss assistance in Public Laws 105-277 and 106-78, and the plan and timetable for obligation of any excess funds. Further, the Secretary shall report periodically (but no less frequently than quarterly) on the status of such funds and plans until all funds previously appropriated for market loss assistance are exhausted.

SEC. 105. The conference agreement requires that the entire amount necessary to carry out this chapter shall be available only to the extent that an official budget request for the entire amount, that includes designation of the entire amount of the request as an emergency requirement, is transmitted by the President to the Congress and that the entire amount is designated by the Congress as an emergency requirement.

CHAPTER 2

FEDERAL EMERGENCY MANAGEMENT AGENCY

DISASTER RELIEF

The President has proposed that of the funding made available in Public Law 106-74, up to \$429,149,000 would be available for property acquisition and relocation assistance for residential homeowner victims of Hurricane Floyd. Since current regulations and policies do not adequately address this type of assistance, the President's proposal would be to provide this funding to the affected states through the section 404 program of the Stafford Act.

There is no doubt that Hurricane Floyd caused significant damage and loss of property. The Congress is committed to providing appropriate assistance to affected property owners. However, the conferees are concerned that FEMA does not have a structured program for buyouts and relocation of structures, including eligibility criteria, oversight procedures, procedures for affected states to prioritize projects, requirements for the submission of state and local buyout plans, procedures for cost-benefit analysis, and the process for measuring program results.

The appropriate Congressional committees of jurisdiction should hold hearings early in the next session of Congress to explore fully the extent of the problem which exists because of damage caused by Hurricane Floyd and surrounding events, and the benefits and problems associated with buyouts and relocations. The authorizing committees should then recommend solutions to those problems, keeping in mind the need to control disaster relief costs while addressing the most compelling needs. Such hearings could then serve as the basis for FEMA to undertake a rulemaking which includes a significant comment period and would result in a policy which could be applied in a uniform manner to ensure that all individuals suffering losses are treated in a consistent and equitable manner.

In the interim, the conferees have agreed to provide authority to spend up to \$215,000,000 for buyout of homeowners (or the relocation of structures) for residences that have been made uninhabitable by flooding caused by Hurricane Floyd, and surrounding events, which are located in the 100-year flood plain. FEMA is required to promulgate interim regulations not later than December 31, 1999, pertaining to the buyout program. The conferees are aware that the authority provided does not give FEMA the same flexibility afforded under the section 404 program and FEMA is directed to report to the Committees on Appropriations of the House and Senate on any significant problems which arise as a result of this decreased flexibility.

The conferees continue to have serious concerns about the dissemination of accurate and useful information to water well owners about testing for contamination and implementing decontamination procedures for household drinking water in flood areas. The conferees encourage FEMA to continue to work with expert organizations, like the National Ground Water Association, in developing information about proper decontamination practices and procedures.

TITLE II—OTHER APPROPRIATIONS MATTERS

DEPARTMENT OF AGRICULTURE—OTHER ITEMS

The conference agreement expects the Agricultural Marketing Service [AMS] to continue to assess the existing inventories of cranberries and to determine whether or not there is a surplus and continued low price in fiscal year 2000. If there is a surplus inventory of cranberries and continued low price, the Department is expected to purchase surplus cranberries under the authorities of section 32 for donation to schools, institutions, and other domestic feeding programs or for humanitarian food aid.

The conference agreement encourages the Natural Resources Conservation Service to assist in the construction of the Snake River project in Warren, Minnesota.

The report shall include (a) a summary of state law requirements for such bonding of farm labor contractors; (b) an analysis of the role of farm labor contractors in the allocation and provision of farm labor for work performed by seasonal and migrant agricultural workers and the effect that state law bonding requirements have had on the availability of farm labor contracting services and farm labor; (c) an economic assessment of the availability, reliability and costs of such bonds for farm labor contractors; and (d) an assessment of the effect of such bond requirements on total farm labor compensation costs and benefits.

The conferees are aware that these funds are necessary to meet the additional workload requirements associated with the Secret Service's protective and investigative operations. The conferees regret that the Administration did not propose additional resources during the regular fiscal year 2000 appropriations process given that early separations and average overtime for agents are at unacceptably high rates.

The conferees direct the Administration to submit, as part of its annual budget submission, a summary of workload trends for field agents including, but not limited to, average overtime and early separations. The conferees further directed the United States Secret Service, Assistant Director, Office of Investigations, to provide quarterly reports to the Committees on Appropriations on workforce retention and workload balance including, but not limited to, investigative and protective workloads, recruitment, and staffing by field office.

(2) *ISSUES TO BE STUDIED.*—The issues described in this paragraph are the following:

(A) The ability of the average risk adjustment factor applied to a Medicare+Choice plan to explain variations in plans’ average per capita medicare costs, as reported by Medicare+Choice plans in the plans’ adjusted community rate filings.

(B) The year-to-year stability of the risk factors applied to each Medicare+Choice plan and the potential for substantial changes in payment for small Medicare+Choice plans.

(C) For medicare beneficiaries newly enrolled in Medicare+Choice plans in a given year, the correspondence between the average risk factor calculated from medicare fee-for-service data for those individuals from the period prior to their enrollment in a Medicare+Choice plan and the average risk factor calculated for such individuals during their initial year of enrollment in a Medicare+Choice plan.

(D) For medicare beneficiaries disenrolling from or switching among Medicare+Choice plans in a given year, the correspondence between the average risk factor calculated from data pertaining to the period prior to their disenrollment from a Medicare+Choice plan and the average risk factor calculated from data pertaining to the period after disenrollment.

(B) Establishing alternative risk adjustment methods that would require submission of less data.

(C) The potential for Medicare+Choice organizations to misreport, overreport, or underreport prevalence of diagnoses in outpatient sites of care, the potential for increases in payments to Medicare+Choice organizations from changes in Medicare+Choice plan coding practices (commonly known as “coding creep”) and proposed methods for detecting and adjusting for such variations in diagnosis coding as part of the risk adjustment methodology using encounter data from multiple sites of care.

(D) The impact of such requirements on the willingness of insurers to offer Medicare+Choice MSA plans and options for modifying encounter data reporting requirements to accommodate such plans.

(E) Differences in the ability of Medicare+Choice organizations to report encounter data, and the potential for adverse competitive impacts on group and staff model health maintenance organizations or other integrated providers of care based on data reporting capabilities.

(2) REPORT.—Not later than January 1, 2001, the Secretary shall submit a report to Congress on the study conducted under

this subsection, together with any recommendations for legislation that the Secretary determines to be appropriate as a result of such study.

TITLE VII—STATE CHILDREN’S HEALTH INSURANCE PROGRAM (SCHIP)

SEC. 701. STABILIZING THE STATE CHILDREN’S HEALTH INSURANCE PROGRAM ALLOTMENT FORMULA.

(a) *IN GENERAL.*—Section 2104(b) (42 U.S.C. 1397dd(b)) is amended—

(1) in paragraph (2)(A)—

(A) in clause (i), by striking “through 2000” and inserting “and 1999”; and

(B) in clause (ii), by striking “2001” and inserting “2000”;

(2) by amending paragraph (4) to read as follows:

“(4) FLOORS AND CEILINGS IN STATE ALLOTMENTS.—

“(A) *IN GENERAL.*—The proportion of the allotment under this subsection for a subsection (b) State (as defined in subparagraph (D)) for fiscal year 2000 and each fiscal year thereafter shall be subject to the following floors and ceilings:

“(i) FLOOR OF \$2,000,000.—A floor equal to \$2,000,000 divided by the total of the amount available under this subsection for all such allotments for the fiscal year.

“(ii) ANNUAL FLOOR OF 10 PERCENT BELOW PRECEDING FISCAL YEAR’S PROPORTION.—A floor of 90 percent of the proportion for the State for the preceding fiscal year.

“(iii) CUMULATIVE FLOOR OF 30 PERCENT BELOW THE FY 1999 PROPORTION.—A floor of 70 percent of the proportion for the State for fiscal year 1999.

“(iv) CUMULATIVE CEILING OF 45 PERCENT ABOVE FY 1999 PROPORTION.—A ceiling of 145 percent of the proportion for the State for fiscal year 1999.

“(B) RECONCILIATION.—

“(i) ELIMINATION OF ANY DEFICIT BY ESTABLISHING A PERCENTAGE INCREASE CEILING FOR STATES WITH HIGHEST ANNUAL PERCENTAGE INCREASES.—To the extent that the application of subparagraph (A) would result in the sum of the proportions of the allotments for all subsection (b) States exceeding 1.0, the Secretary shall establish a maximum percentage increase in such proportions for all subsection (b) States for the fiscal year in a manner so that such sum equals 1.0.

“(ii) ALLOCATION OF SURPLUS THROUGH PRO RATA INCREASE.—To the extent that the application of subparagraph (A) would result in the sum of the proportions of the allotments for all subsection (b) States being less than 1.0, the proportions of such allotments (as computed before the application of floors under clauses (i), (ii), and (iii) of subparagraph (A)) for all subsection (b) States shall be increased in a pro rata manner (but not to exceed the ceiling established under subparagraph (A)(iv)) so that (after the application of such floors and ceiling) such sum equals 1.0.

“(C) CONSTRUCTION.—This paragraph shall not be construed as applying to (or taking into account) amounts of allotments redistributed under subsection (f).

“(D) DEFINITIONS.—In this paragraph:

“(i) PROPORTION OF ALLOTMENT.—The term ‘proportion’ means, with respect to the allotment of a subsection (b) State for a fiscal year, the amount of the allotment of such State under this subsection for the fiscal year divided by the total of the amount available under this subsection for all such allotments for the fiscal year.

“(ii) SUBSECTION (b) STATE.—The term ‘subsection (b) State’ means one of the 50 States or the District of Columbia.”;

(3) in paragraph (2)(B), by striking “the fiscal year” and inserting “the calendar year in which such fiscal year begins”; and

(4) in paragraph (3)(B), by striking “the fiscal year involved” and inserting “the calendar year in which such fiscal year begins”.

(b) EFFECTIVE DATE.—The amendments made by this section apply to allotments determined under title XXI of the Social Security Act (42 U.S.C. 1397aa et seq.) for fiscal year 2000 and each fiscal year thereafter.

SEC. 702. INCREASED ALLOTMENTS FOR TERRITORIES UNDER THE STATE CHILDREN’S HEALTH INSURANCE PROGRAM.

Section 2104(c)(4)(B) (42 U.S.C. 1397dd(c)(4)(B)) is amended by inserting “, \$34,200,000 for each of fiscal years 2000 and 2001, \$25,200,000 for each of fiscal years 2002 through 2004, \$32,400,000 for each of fiscal years 2005 and 2006, and \$40,000,000 for fiscal year 2007” before the period.

“(b) ADJUSTMENT TO CURRENT POPULATION SURVEY TO INCLUDE STATE-BY-STATE DATA RELATING TO CHILDREN WITHOUT HEALTH INSURANCE COVERAGE.—

“(1) IN GENERAL.—The Secretary of Commerce shall make appropriate adjustments to the annual Current Population Survey conducted by the Bureau of the Census in order to produce

statistically reliable annual State data on the number of low-income children who do not have health insurance coverage, so that real changes in the uninsurance rates of children can reasonably be detected. The Current Population Survey should produce data under this subsection that categorizes such children by family income, age, and race or ethnicity. The adjustments made to produce such data shall include, where appropriate, expanding the sample size used in the State sampling units, expanding the number of sampling units in a State, and an appropriate verification element.

“(2) APPROPRIATION.—Out of any money in the Treasury of the United States not otherwise appropriated, there are appropriated \$10,000,000 for fiscal year 2000 and each fiscal year thereafter for the purpose of carrying out this subsection.”

(b) FEDERAL EVALUATION OF STATE CHILDREN’S HEALTH INSURANCE PROGRAMS.—Section 2108 (42 U.S.C. 1397hh) is amended by adding at the end the following:

“(1) IN GENERAL.—The Secretary, directly or through contracts or interagency agreements, shall conduct an independent evaluation of 10 States with approved child health plans.

“(2) SELECTION OF STATES.—In selecting States for the evaluation conducted under this subsection, the Secretary shall choose 10 States that utilize diverse approaches to providing child health assistance, represent various geographic areas (including a mix of rural and urban areas), and contain a significant portion of uncovered children.

“(3) MATTERS INCLUDED.—In addition to the elements described in subsection (b)(1), the evaluation conducted under this subsection shall include each of the following:

“(A) Surveys of the target population (enrollees, disenrollees, and individuals eligible for but not enrolled in the program under this title).

“(B) Evaluation of effective and ineffective outreach and enrollment practices with respect to children (for both the program under this title and the medicaid program under title XIX), and identification of enrollment barriers and key elements of effective outreach and enrollment practices, including practices that have successfully enrolled hard-to-reach populations such as children who are eligible for medical assistance under title XIX but have not been enrolled previously in the medicaid program under that title.

“(C) Evaluation of the extent to which State medicaid eligibility practices and procedures under the medicaid program under title XIX are a barrier to the enrollment of children under that program, and the extent to which coordination (or lack of coordination) between that program and the program under this title affects the enrollment of children under both programs.

“(D) An assessment of the effect of cost-sharing on utilization, enrollment, and coverage retention.

“(E) Evaluation of disenrollment or other retention issues, such as switching to private coverage, failure to pay premiums, or barriers in the recertification process.

“(B) assess the progress made in reducing the number of uncovered low-income children, including the progress made to achieve the strategic objectives and performance goals included in the State child health plan under section 2107(a).

“(2) *STATE DESCRIBED.*—A State described in this paragraph is a State with an approved State child health plan under this title that does not, as part of such plan, provide health benefits coverage under the State’s medicaid program under title XIX.

“(3) *MONITORING AND REPORT FROM GAO.*—The Comptroller General of the United States shall monitor the audits conducted under this subsection and, not later than March 1 of each fiscal year after a fiscal year in which an audit is conducted under this subsection, shall submit a report to Congress on the results of the audit conducted during the prior fiscal year.”.

The Following is explanatory language on H.R. 3426, as introduced on November 17, 1999.

TITLE I—PROVISIONS RELATING TO PART A

SUBTITLE A—ADJUSTMENTS TO PPS PAYMENTS FOR SKILLED NURSING FACILITIES (SNFs)

SEC. 101. TEMPORARY INCREASE IN PAYMENT FOR CERTAIN HIGH COST PATIENTS

Current law

The SNF prospective payment system (PPS) includes 44 hierarchical resource utilization groups (RUGs). The RUGs are utilized to formulate the per diem payments to SNFs on behalf of Medicare patients. The RUG payments represent the average cost for patients in each RUG category. During a phase-in starting in 1998, the per diem payment is based partially on the facility's specific costs and partially on a federal per diem rate.

H.R. 3075, as passed

Increases temporarily the federal per diem payment by 10% for 12 RUGs in the "Extensive Services," "Special Care," and "Clinically Complex" categories. Increased payments would be made from April 1, 2000 through September 30, 2000.

S. 1788, as reported

Increases temporarily the federal per diem payment by 25% for "Extensive Services" and "Special Care" categories and adds specified dollar amounts to per diem rates for five RUGs for rehabilitation therapies. Increased payments would be made from April 1, 2000 through September 30, 2001.

Agreement

The agreement includes the Senate provision with amendments. For SNF services furnished on or after April 1, 2000, and before the later of October 1, 2000, or implementation by the Secretary of Health and Human Services (hereafter referred to as "Secretary") of a refined RUG system, per diem payments are increased by 20% for 15 RUGs falling under categories for Extensive Services, Special Care, Clinically Complex, High Rehabilitation, and Medium Rehabilitation. It is the intent of the parties to the agreement that the implementation begin on April 1, 2000, and that on this date, each payment shall increase by the required amount so that the facilities will receive payment authorized on April 1, 2000. In FY 2001 and 2002 the federal per diem payment to a facility is increased by 4% in each year, calculated exclusive of the 20% RUG rate increase.

SEC. 102. AUTHORIZING FACILITIES TO ELECT IMMEDIATE TRANSITION TO FEDERAL RATE

Current law

Payments to SNFs under the federal per diem RUG system are phased in over a period of time. Starting in 1998, a SNF receives per diem rates that are a blend of 75% of the facility-specific rate and 25% of the federal per diem rate. The proportions shift annually by 25 percentage points until the federal rate equals the full payment.

H.R. 3075, as passed

Permits SNFs to choose to receive payments based wholly on the federal per diem rate if that would be more advantageous to the facility; effective for elections made more than 60 days after enactment.

S. 1788, as reported

Permits SNFs to choose to receive payments based wholly on the federal per diem rate if that would be more advantageous to the facility; effective upon enactment.

Agreement

The agreement includes the House provision with modification. SNFs may elect immediate transition to the federal rate on or after December 15, 1999 for cost reporting periods beginning on or after January 1, 2000. There is no election for cost reporting periods beginning before January 1, 2000. SNFs may elect immediate transition up to 30 days after the start of their cost reporting period.

SEC. 103. PART A PASS-THROUGH PAYMENTS FOR CERTAIN AMBULANCE SERVICES, PROSTHESES, AND CHEMOTHERAPY DRUGS

Current law

SNF PPS payments are inclusive of ancillary services and drugs (except for renal dialysis services) needed by patients in specified RUGs.

H.R. 3075, as passed

Excludes certain items, starting April 1, 2000, from RUG payments. Provides separate payment for ambulance services for beneficiaries needing renal dialysis in a facility outside of the SNF, specific chemotherapy items and services, radioisotope services, and customized prosthetic devices delivered to the beneficiary during an inpatient SNF stay. Beginning with FY 2001, requires Secretary to reduce base RUG rates to account for exclusion of these items to ensure budget neutrality.

S. 1788, as reported

No provision.

Agreement

The agreement includes the House provision. The parties to the agreement include this provision in recognition that skilled nursing facilities (SNFs) from time to time experience high-cost, low probability events that could have devastating financial impacts because their costs far exceed the payment they receive under the prospective payment system (PPS). This provision is an attempt to exclude from the PPS certain services and costly items that are provided infrequently in SNFs. For example, in the case of chemotherapy drugs, Health Care Financing Administration (HCFA) physicians excluded specific chemotherapy drugs from the PPS because these drugs are not typically administered in a SNF, or are exceptionally expensive, or are given as infusions, thus requiring special staff expertise to administer. Some chemotherapy drugs, which are relatively inexpensive and are administered routinely in SNFs, were excluded from this provision.

While this provision exempts ambulance services for end-stage renal disease (ESRD) patients, the parties to the agreement note that, in many cases, regularly scheduled trips may be made in vehicles that are less costly than an Advanced or Basic Life Support ambulance, and the parties to the agreement urge that SNFs use these cost-saving services appropriately.

The parties to the agreement recognize that excluding services or items from the PPS by specifying codes in legislation may not be the most appropriate way to protect SNFs from extraordinary events. Additionally, some items may have been inadvertently excluded from the list. New, extremely costly items may come into use or codes may change over time. Therefore, the parties to the agreement expect the Secretary to use her authority to review periodically and modify, as needed, the list of excluded services and items to reflect changes in codes and developments in medical technology. The parties to the agreement also request the General Accounting Office (GAO) to review the codes of the excluded items and make recommendations on whether the criteria for their exclusion are appropriate by July 1, 2000.

Section 1888(e)(5)(A) of the Social Security Act directed the Secretary to establish a SNF market basket index (MBI) that "reflects the changes over time in the prices of an appropriate mix" of goods and services. The parties to the agreement believe that the Secretary should ensure that the current SNF MBI, as developed by the Secretary and based on Fiscal Year 1992 costs, fulfills this

mandate. The parties to the agreement recognize that the Secretary revised and rebased the 1992 costs when developing the MBI; however, the Secretary should ensure that these types of modifications adequately reflect the costs of the efficient delivery of medically necessary new medications developed since 1992. Innovative medical research techniques, combined with significant technological advances, have led to the development of numerous new medications over the past seven years. The Secretary should ensure that these types of changes are represented in the current SNF MBI.

Accordingly, Congress expects the Secretary to: (1) evaluate the appropriateness of the SNF MBI with respect to medications used in the SNF population based on data from the first fiscal year after full implementation of the SNF PPS when they become available; (2) consider modification of the current SNF MBI as appropriate; and (3) ensure that the MBI continues to be responsive to new medications used by the SNF population.

SEC. 104. PROVISION FOR PART B ADD-ONS FOR FACILITIES PARTICIPATING IN THE NURSING HOME CASE MIX AND QUALITY (NHCMQ) DEMONSTRATION PROJECT

Current law

SNFs that had participated in the NHCMQ demonstration that preceded completion and implementation of the RUG/PPS do not have the cost of Part B services to their Medicare patients accounted for under the facility-specific component of the PPS during the transition period as do other SNFs.

H.R. 3075, as passed

Includes the cost of Part B services in the computation of the facility-specific component of the per diem payment during the transition to the federal per diem PPS for SNFs that had participated in the NHCMQ demonstration, including updates of the SNF market basket increase minus 1 percentage point, except for an increase in FY 2001 of the SNF market basket plus 0.8 percentage points. The provision becomes effective retroactively to implementation of the Balanced Budget Act of 1997 (BBA 97).

S. 1788, as reported

Similar to the House provision, with updates of the market basket increase minus 1 percentage point for cost reporting periods after 1997 and with allowances for exceptions payments.

Agreement

The agreement includes the House provision with a modification to keep the FY 2001 update at market basket minus 1 percentage point.

SEC. 105. SPECIAL CONSIDERATION FOR FACILITIES SERVING SPECIALIZED PATIENT POPULATIONS

Current law

No provision.

H.R. 3075, as passed

Provides temporarily for special per diem payments to be based 50% on the facility-specific rate and 50% on the federal rate for hospital-based SNFs: (1) that were certified for Medicare before July 1, 1992; (2) in 1998 served patients who were immuno-compromised secondary to an infectious disease; and (3) for which such patients accounted for more than 60% of the facility's total patient days in 1998. The special rates apply for the first cost reporting period starting after enactment and end on September 30, 2001. Requires the Secretary to assess and report within 1 year of enactment on the resource use of such patients and recommend whether permanent adjustments should be made to the RUGs in which they are classified.

S. 1788, as reported

Requires the Secretary to study and report to Congress within 1 year of enactment on alternative payment methods for SNFs specializing in caring for extremely high cost, chronically ill populations.

Agreement

The agreement includes the House provision.

SEC. 106. MEDPAC STUDY ON SPECIAL PAYMENT FOR FACILITIES
LOCATED IN HAWAII AND ALASKA

Current law

No provision.

H.R. 3075, as passed

Requires the Medicare Payment Advisory Commission (MedPAC) to study and report within 18 months of enactment on the need for additional payments for SNFs in Alaska and Hawaii.

S. 1788, as reported

No provision.

Agreement

The agreement includes the House provision.

SEC. 107. STUDY AND REPORT REGARDING STATE LICENSURE AND CERTIFICATION STANDARDS AND RESPIRATORY THERAPY COMPETENCY EXAMINATIONS

Current law

No provision.

H.R. 3075, as passed

No provision.

S. 1788, as reported

Requires the Secretary to report within 1 year of enactment on variations in state licensure and certification standards for workers

providing respiratory therapy in SNFs and to make recommendations regarding Medicare requirements for licensing or certification.

Agreement

The agreement includes the Senate provision with modification.

SUBTITLE B—PPS HOSPITALS

SEC. 111. MODIFICATION IN TRANSITION FOR INDIRECT MEDICAL EDUCATION (IME) PERCENTAGE ADJUSTMENT

Current law

Medicare pays teaching hospitals for its share of the direct costs of providing graduate medical education, and the indirect costs associated with approved graduate medical education programs. Prior to BBA 97, Medicare's indirect medical education (IME) payments increased 7.7% for each 10% increase in a hospital's ratio of interns and residents to beds. BBA 97 reduced the IME adjustment to 6.5% in FY 1999; to 6.0% in FY 2000 and to 5.5% in FY 2001 and subsequent years.

H.R. 3075, as passed

Freezes the IME adjustment at 6.0% for FY 2001 and then reduces the adjustment to 5.5% in FY 2002 and subsequent years.

S. 1788, as reported

Freezes the IME adjustment at 6.5% through FY 2003 and then reduces the adjustment to 5.5% in FY 2004 and subsequent years.

Agreement

The agreement includes the Senate provision with modifications. The IME adjustment would be frozen at 6.5% through FY 2000. The adjustment would be reduced to 6.25% in FY 2001 and then to 5.5% in FY 2002 and subsequent years.

The parties to the agreement include in this provision a special adjustment to achieve the 6.5 percent IME payment for the first six months of FY 2000. Because the PPS rates for FY 2000 were set prior to enactment and claims have already been paid at the IME percentage adjustment of 6.0 percent as mandated in the Balanced Budget Act of 1997, reverting to the 6.5 percent IME percentage adjustment provided in this legislation would require re-processing of beneficiary claims. Due to necessary Year 2000 computer adjustments, the Secretary is unable to make payment changes until April 1, 2000, thus requiring a special adjustment to accommodate the changes made under this section. To prevent reprocessing of over 5 million beneficiary claims and reissuing an FY 2000 PPS payment rule, the payment difference between a 6.0 and a 6.5 IME percentage adjustment will be accomplished through an aggregate adjustment to teaching hospital payments.

SEC. 112. DECREASE IN REDUCTIONS FOR DISPROPORTIONATE SHARE HOSPITALS; DATA COLLECTION REQUIREMENTS

Current law

Medicare makes additional payments to hospitals that serve a disproportionate share of low-income Medicare and Medicaid patients. BBA 97 reduced the disproportionate share hospital (DSH) payment formula by 1% in FY 1998; 2% in FY 1999; 3% in FY 2000; 4% in FY 2001; 5% in FY 2002 and 0% in FY 2003 and in each subsequent year.

H.R. 3075, as passed

Freezes the reduction in the DSH payment formula to 3% in FY 2001. Changes the reduction to 4% in FY 2002.

Requires the Secretary to collect hospital cost data on uncompensated inpatient and outpatient care, including non-Medicare bad debt and charity care as well as Medicaid and indigent care charges. Requires the submission of the data in cost reports for cost reporting periods beginning on or after the enactment date.

S. 1788, as reported

Freezes the reduction in the DSH payment formula to 3% in FY 2001.

Agreement

The agreement includes the House provision with modification by requiring the Secretary to have hospitals submit the data requested in cost reports for cost reporting periods beginning on or after October 1, 2001.

This provision eases the financial burden of hospitals caring for a disproportionate share of low-income individuals. In addition, the Secretary is required to collect additional data necessary to develop a DSH payment methodology that takes into account the cost of serving uninsured and underinsured patients, as recommended by MedPAC. Presently, the DSH formula is based only on the costs associated with Medicaid patients and Medicare patients eligible for Supplementary Security Income (SSI). MedPAC has recommended that the formula be amended to include inpatient and outpatient costs associated with services provided to low-income patients, defined broadly to include all care to the poor.

In order to develop such a revised formula, it is necessary first to collect additional data. MedPAC recommends that data be collected on patients enrolled in state and local indigent care programs, as well as uncompensated care associated with uninsured or underinsured patients. State and local indigent care programs would include non-federally financed programs with specific eligibility criteria for specified health care services. Financial data on state and local appropriations that offset uncompensated care expenses should also be collected. Uncompensated care costs and charges are those identified more typically as bad debt and charity care. While the parties to the agreement recognize that there may be problems in defining and appropriately measuring such costs and charges in a way that avoids duplication, such problems can best be overcome by developing standard definitions at the national

level. The parties to the agreement expect the Secretary to report on the financial interactions and potential for shifts between Federal and State governments.

SUBTITLE C—PPS-EXEMPT HOSPITALS

SEC. 121. WAGE ADJUSTMENT OF PERCENTILE CAP FOR PPS-EXEMPT HOSPITALS

Current law

BBA 97 established a national cap on the Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA) limits for PPS-exempt hospitals at 75% of the target amount for that class of hospital.

H.R. 3075, as passed

Adjusts the labor-related portion of the 75% cap to reflect differences between the wage-related costs in the area of the hospital and the national average of such costs within the same class of hospitals beginning for cost reporting periods on or after October 1, 1999.

S. 1788, as reported

No provision.

Agreement

The agreement includes the House provision.

SEC. 122. ENHANCED PAYMENTS FOR LONG-TERM CARE AND PSYCHIATRIC HOSPITALS UNTIL DEVELOPMENT OF PROSPECTIVE PAYMENT SYSTEMS (PPS) FOR THOSE HOSPITALS

Current law

BBA 97 established the amount of bonus and relief payments for eligible PPS-exempt providers.

H.R. 3075, as passed

Increases the amount of continuous bonus payments to the eligible long-term care and psychiatric providers from 1% to 1.5% for cost reporting periods beginning on or after October 1, 2000 and before September 30, 2001 and 2% for cost reporting periods beginning on or after October 1, 2001 and before September 30, 2002.

S. 1788, as reported

No provision.

Agreement

The agreement includes the House provision.

SEC. 123. PER DISCHARGE PROSPECTIVE PAYMENT SYSTEM (PPS) FOR LONG-TERM CARE HOSPITALS

Current law

BBA 97 requires the Secretary to develop a legislative proposal for a PPS for long-term care hospitals that includes an adequate patient classification system by October 1, 1999.

H.R. 3075, as passed

Requires the Secretary to report to the appropriate Congressional committees by October 1, 2001 on a discharge-based PPS with an adequate patient classification system for long-term care hospitals which would be implemented in a budget-neutral fashion for cost reporting periods beginning on or after October 1, 2002. The Secretary may require such long-term care hospitals to submit information to develop the payment system.

S. 1788, as reported

No provision.

Agreement

The agreement includes the House provision. In developing and evaluating the new PPS system, the parties to the agreement encourage the Secretary to measure the quality of outcomes.

SEC. 124. PER DIEM PROSPECTIVE PAYMENT SYSTEM (PPS) FOR
PSYCHIATRIC HOSPITALS

Current law

No provision.

H.R. 3075, as passed

Requires the Secretary to report to the appropriate Congressional committees by October 1, 2001 on a per diem-based PPS with an adequate patient classification system for psychiatric hospitals and distinct-part units which would be implemented in a budget-neutral fashion for cost reporting periods beginning on or after October 1, 2002. The Secretary may require such psychiatric hospitals and units to submit information to develop the system.

S. 1788, as reported

Requires the Secretary to report to Congress within 2 years of enactment on a PPS for psychiatric hospitals and units. The study should take into account the unique circumstances of psychiatric hospitals in rural areas.

Agreement

The agreement includes the House provision. The parties to the agreement are aware that changes to payments for psychiatric units and hospitals contained in this bill could affect the provision of mental health services in rural areas. Accordingly, the parties to the agreement request that MedPAC evaluate the impact of these changes and make recommendations if further modifications are needed to maintain the availability of rural hospitals to provide critical behavioral health services.

SEC. 125. REFINEMENT OF PROSPECTIVE PAYMENT SYSTEM (PPS) FOR
INPATIENT REHABILITATION HOSPITALS

Current law

BBA 97 requires the Secretary to establish a case-mix adjusted prospective payment system (PPS) for rehabilitation hospitals and

distinct-part units, effective beginning in FY 2001. PPS rates are to be phased-in between October 1, 2000 and before October 1, 2002 with an increasing percentage of the hospitals' payment based on the PPS amount. For FY 2001 and FY 2002, the Secretary is required to establish prospective payment amounts so that total payments for rehabilitation hospitals equal 98% of the amount that would have been paid if the PPS had not been enacted. The inpatient rehabilitation hospital/distinct-part unit PPS will be fully implemented by October 1, 2002.

H.R. 3075, as passed

Changes the phase-in requirements to permit rehabilitation facilities to elect to have their payment based entirely on the PPS amount in FY 2001 and FY 2002. Changes the budget neutrality requirement for FY 2001 and FY 2002 to account for the facilities that have elected to be fully reimbursed on the PPS amount during the transition period. Requires the Secretary, after obtaining substantially complete FY 2001 data, to analyze the extent to which changes in case-mix (or changes in the severity of illnesses) are attributable to changes in medical record coding and patient classification and do not reflect real changes in case-mix. Based on the analysis of the case-mix change attributable to coding and classification change, the Secretary shall adjust FY 2004 PPS rates by 150% of the estimate of the PPS percentage adjustment that would have achieved budget neutrality in FY 2001 if it had applied to setting the rates for that fiscal year. If this FY 2004 adjustment resulted in a percentage decrease in the rates, the Secretary shall increase the FY 2005 PPS rates by a percentage equal to $\frac{1}{3}$ of such percentage decrease. If this FY 2004 adjustment resulted in a percentage increase in the rates, the Secretary shall decrease the FY 2005 PPS rates by a percentage equal to $\frac{1}{3}$ of such percentage increase.

Requires the Secretary to base PPS on discharges. Requires the Secretary to establish classes of patient discharges of rehabilitation facilities by functional-related groups, based on impairment, age, comorbidities, and functional capability of the patient and such other factors as the Secretary deems appropriate to improve the explanatory power of Functional Independence Measure-Function Related Groups (FIMFRGs). Clarifies that the Secretary may adjust payments to account for the early transfer of a patient from a rehabilitation facility to another site of care. Requires the Secretary to submit a study to Congress not later than 3 years after the implementation of the PPS of its impact on utilization and access.

S. 1788, as reported

Bases the PPS on discharges classified according to functional-related groups based on impairment, age, comorbidities, and functional capability of the patient as well as other factors deemed appropriate to improve the explanatory power of FIMFRGs. Requires the Secretary to submit a study to Congress, not later than 2 years after implementation of PPS, of its impact on service utilization, beneficiary access, non-therapy ancillary services and other factors that the Secretary determines to be appropriate. The study should

include legislative recommendations on payment adjustments as appropriate.

Agreement

The agreement includes the House provision with amendments.

SUBTITLE D—HOSPICE CARE

SEC. 131. TEMPORARY INCREASE IN PAYMENT FOR HOSPICE CARE

Current law

Hospice payments are based on one of four prospectively determined daily rates which correspond to levels of care. Before BBA 97, the rates were updated annually by the hospital market basket; BBA 97 reduced the updates to market basket minus 1 percentage point for FY 1999 through FY 2002 and required the Secretary to collect hospice cost data.

H.R. 3075, as passed

No provision.

S. 1788, as reported

Changes the hospice update to market basket minus 0.5 percentage point through FY 2002.

Agreement

The agreement includes the Senate provision with an amendment. For each of fiscal years 2001 and 2002, hospice payment rates (otherwise in effect for those years) are increased by 0.5 percent and 0.75 percent, respectively. The Secretary is prohibited from including these additional payments in the updates of payment rates after FY 2002.

SEC. 132. STUDY AND REPORT TO CONGRESS REGARDING MODIFICATION OF THE PAYMENT RATES FOR HOSPICE CARE

Current law

The Secretary is required to collect data from hospices on the costs of care provided for each fiscal year beginning with FY 1999.

H.R. 3075, as passed

No provision.

S. 1788, as reported

Requires the GAO to conduct a study on the feasibility and advisability of updating the hospice rates and certain capped payment amounts, including an evaluation of whether the cost factors used to determine the rates should be modified, eliminated, or supplemented with additional cost factors. The report and recommendation are to be submitted to Congress within 1 year of enactment.

Agreement

The agreement includes the Senate provision.

SUBTITLE E—OTHER PROVISIONS

SEC. 141. MEDPAC STUDY ON MEDICARE PAYMENT FOR NON-PHYSICIAN
HEALTH PROFESSIONAL CLINICAL TRAINING IN HOSPITALS*Current law*

BBA 97 required that, not later than 2 years after enactment, MedPAC submit to Congress a study of Medicare's graduate medical education payment policy and reimbursement methodologies including whether and to what extent payments are being made (or should be made) for training in nursing and other allied health professions.

H.R. 3075, as passed

Requires MedPAC, within 18 months of enactment, to submit to Congress a study of Medicare payment policy with respect to professional clinical training of different types of non-physician health care professionals (such as nurses, nurse practitioners, allied health professionals, physician assistants, and psychologists).

S. 1788, as reported

No provision.

Agreement

The agreement includes the House provision. The parties to the agreement recognize that MedPAC has considered non-physician clinical training in its report to the Congress on long-term policies for graduate medical education. However, the parties to the agreement require additional explicit information on Medicare's role in financing clinical training for non-physician health professionals. A continuation of the existing effort, combined with quantitative analysis, will provide the Congress with all aspects of Medicare's support for health professional training, including possible methodologies for making payments and the entities that should receive them.

The parties to the agreement are pleased that the Secretary, consistent with language included in the Conference Report (Report 105–217) of the Balanced Budget Act of 1997, is considering a proposal to initiate graduate medical education payments to institutions involved in the training of clinical psychologists. The parties to the agreement urge the Secretary to issue a notice of proposed rulemaking to accomplish this modification before June 1, 2000.

SUBTITLE F—TRANSITIONAL PROVISIONS

SEC. 151. EXCEPTION TO CMI QUALIFIER FOR ONE YEAR

Current law

The Secretary is authorized to allow for exceptions and adjustments to the amount paid under PPS for hospitals that act as regional or national referral centers for patients transferred from other hospitals. Generally, a referral center is located in a rural area, has at least 275 or more beds, can show that at least 50% of its Medicare patients are referred from other hospitals, and that at least 60% of its Medicare patients live more than 25 miles from

the hospital or that 60% of all the services that the hospital furnishes to Medicare beneficiaries are furnished to those that live more than 25 miles from the hospital.

Alternatively, a hospital may meet certain other specified criteria including (1) a case-mix index above the national average or above the median case-mix value for urban hospitals located in that region; (2) a number of discharges greater than 5,000 or, if less, above the median number of discharges for urban hospitals in the region; (3) more than 50% of the hospital's active medical staff are specialists; (4) at least 60% of all its discharges are for patients who live more than 25 miles from the hospital; or (5) at least 40% of all patients treated at the hospital are referred from other hospitals or by physicians not on the hospital's staff. These referral centers receive preferential treatment in the Medicare inpatient PPS for the disproportionate share hospital payment adjustment and when considered for geographic reclassification.

H.R. 3075, as passed

No provision.

S. 1788, as reported

Deems that Northwest Mississippi Regional Medical Center meets the case-mix index criterion for classification as a referral center for FY 2000.

Agreement

The agreement includes the Senate provision.

SEC. 152. RECLASSIFICATION OF CERTAIN COUNTIES AND AREAS FOR PURPOSES OF REIMBURSEMENT UNDER THE MEDICARE PROGRAM

Current law

Medicare's inpatient hospital PPS payments vary by urban/rural classification and the geographic area where a hospital is located or to which a hospital is assigned.

H.R. 3075, as passed

No provision.

S. 1788, as reported

Deems that: Iredell County, NC is to be considered part of the Charlotte-Gastonia Rock Hill NC-SC Metropolitan Statistical Area (MSA); and Orange County, NY is to be considered part of the large urban area of New York, NY for discharges occurring on or after October 1, 1999.

Agreement

The agreement contains the Senate provision with modifications. For purposes of Medicare reimbursement, Lake County, Indiana and Lee County, Illinois are deemed to be considered part of the Chicago, Illinois MSA; Hamilton-Middletown, Ohio is deemed to be considered part of the Cincinnati, Ohio-Kentucky-Indiana MSA; Brazoria County, Texas is deemed to be considered part of the Houston, Texas MSA; and Chittenden County, Vermont is

deemed to be considered part of the Boston-Worcester-Lawrence-Lowell-Brockton, Massachusetts-New Hampshire MSA. These counties would be reclassified for the purposes of the Medicare inpatient PPS in FY 2000 and FY 2001.

SEC. 153. WAGE INDEX CORRECTION

Current law

Medicare's inpatient hospital PPS payments are adjusted to reflect the wage level in the geographic area where a hospital is located or to which a hospital is assigned. Hospitals can only submit and correct wage data during specified times. All payment changes that result from changes to the wage data are implemented in a budget-neutral fashion.

H.R. 3075, as passed

No provision.

S. 1788, as reported

Requires the Secretary to recalculate and apply the Hattiesburg, MS MSA wage index for FY 2000 using FY 1996 wage and hour data for Wesley Medical Center. The Secretary is instructed to adjust PPS to take into account the corrected wage index.

Agreement

The agreement includes the Senate provision with modifications. The wage index recalculation would not affect the wage indices for any other areas.

SEC. 154. CALCULATION AND APPLICATION OF WAGE INDEX FLOOR FOR A CERTAIN AREA

Current law

Medicare's inpatient hospital PPS payments are adjusted to reflect the wage level in the geographic area where a hospital is located or to which a hospital is assigned. Hospitals can only submit and correct wage data during specified times. All payment changes that result from changes to the wage data are implemented in a budget-neutral fashion.

H.R. 3075, as passed

No provision.

S. 1788, as reported

No provision.

Agreement

The agreement would require the Secretary to calculate and apply the wage index for the Allentown-Bethlehem-Easton MSA for FY 2000 as if Lehigh Valley Hospital were classified in such area. Such recalculation would not affect the wage index for any other area. For FY 2001, Lehigh Valley Hospital would be treated as being classified to the Allentown-Bethlehem-Easton MSA.

SEC. 155. SPECIAL RULE FOR CERTAIN SKILLED NURSING FACILITIES

Current law

The SNF prospective payment system pays SNFs a per diem amount for all covered services provided to Medicare beneficiaries. During a transition period lasting through the three cost reporting periods beginning on or after July 1, 1998, a portion of the per diem payment to a SNF will be based on a facility-specific rate, and the remaining portion on a federal rate. By the end of the transition, 100% of the per diem payment will be based on the federal rate. Federal and facility-specific payments are based on updated 1995 cost reports.

H.R. 3075, as passed

No provision.

S. 1788, as reported

No provision.

Agreement

The agreement includes provisions to require the Secretary to establish for each cost reporting period beginning in FY 2000 and in FY 2001, special per diem payments for SNFs: (1) that began participation in the Medicare program before January 1, 1995; (2) for which at least 80 percent of total inpatient days of the facility in the cost reporting beginning in 1998 were comprised of persons entitled to Medicare; and (3) that are located in Baldwin or Mobile County, Alabama. The payment amount would be equal to 100 percent of the facility-specific rate, which would be based on allowable costs for the cost reporting period beginning in FY 1998.

TITLE II—PROVISIONS RELATING TO PART B

SEC. 201. OUTLIER ADJUSTMENT; TRANSITIONAL PASS-THROUGH FOR CERTAIN MEDICAL DEVICES, DRUGS, BIOLOGICALS

Current law

Under the hospital outpatient PPS, payments will be uniform for all patients undergoing a certain procedure in certain hospitals. Currently, beneficiaries pay 20% of charges for outpatient services. Under the outpatient PPS, beneficiary copayments will be limited to frozen dollar amounts based on 20% of the national median of charges for services in 1996, updated to the year of implementation of the PPS.

H.R. 3075, as passed

For certain high cost (or “outlier”) patients, permits the Secretary to determine and provide additional payments to hospitals for each covered service for which the hospital’s costs exceed a fixed multiple of the PPS amount, including any “transitional pass-through” payments and including other adjustments. The pool of funds for such outlier payments may not exceed 2.5% of total program costs in years before 2004 and 3.0% thereafter, but must be budget-neutral.

Allows for 2 to 3 years of payments to be made in addition to PPS payments (“transitional pass through” payments) for innovative medical devices, drugs, and biologicals, including orphan drugs, cancer therapy drugs and biologicals, and certain “new” medical devices, drugs, and biologicals. The pool of funds for such items would be 2.5% for years up to 2004 and 2% thereafter, but must be budget-neutral.

For the outpatient PPS, defines covered outpatient services to include implantable medical devices; gives the Secretary the option of basing the system’s relative payment weights on the mean or the median of hospital costs.

Limits cost range of services and items (except for orphan drugs) comprising a cost group on which a prospective payment is based. Provides that beneficiary copayments will not reflect Medicare payments to hospitals for outlier costs or transitional pass through payments for certain drugs, biologicals, and devices.

S. 1788, as reported

Similar to House provision with additional transitional pass-through payments for radiopharmaceuticals.

Agreement

The agreement includes the House provision with amendments: the agreement includes a transitional pass-through of costs of radiopharmaceuticals. In addition, the agreement allows the Secretary to apply outlier payments for covered outpatient services furnished before January 1, 2002, for individual outpatient encounters, using an appropriate cost-to-charge ratio for the hospital rather than for the specific departments within the hospital.

It is the intent of the conferees that the phase-down in beneficiary coinsurance for hospital outpatient services enacted by the Balanced Budget Act of 1997 not be delayed further by any changes to the hospital outpatient prospective payment system included in this bill. The BBA 97 provision was intended to fix an anomaly in the law that resulted in Medicare beneficiaries paying more than 20 percent in coinsurance for hospital outpatient services. There has already been a one-year delay in the implementation of the BBA 97 provision. The conferees fully expect that the beneficiary coinsurance phase-down will commence, as scheduled, on July 1, 2000, and that beneficiary coinsurance for outpatient department (OPD) services will be frozen until it equals 20 percent of the Medicare OPD fee schedule amount, which should be determined without regard to any outlier adjustments, adjustments that limit payment declines, or transitional add-on payments.

The parties to the agreement believe that HCFA’s plans for implementing the outpatient prospective payment system (PPS), as described in HCFA’s September 7, 1998 proposed regulation, raise many concerns. The proposal: (1) fails to provide adjustments for high cost care; (2) does not adequately provide a transition to include medical devices, drugs and biologicals in the system, and; (3) will not be updated annually to keep pace with changes in technology and medical practice. The Committee is making several structural changes to improve the design of the outpatient PPS and to assure that patients are not denied access to needed care.

In the proposed regulation, HCFA classified many different services with varying costs into a single payment group. In one example, brachytherapy has been placed in a group with other procedures that are much less costly. This could provide disincentives to use this technology. The Committee believes that while some level of variation is unavoidable, there should not be wide variation that could potentially restrict access to the most costly services. To address this problem, this agreement would place an upper limit on the variation of costs among services included in the same group. The most costly item or service in a group could not have a mean or median cost that was more than twice the mean or median cost of the least costly item or service in the group. To provide additional flexibility, the parties to the agreement give the Secretary the option to base the relative payment weights on either the mean or median cost of the items and services in a group. Further, in classifying drugs and biologicals into payment categories, the parties to the agreement expect that consideration will be given to products that are therapeutically equivalent.

The parties to the agreement recognize that there may be unusual cases, such as low volume items and services, and the Secretary is given discretion to exempt these exceptional cases from the limitation. The parties expect that the Secretary would not use this exception to include orphan drugs in a group that contains very different resources.

In the proposed regulation, HCFA stated its intention not to update the payment groups and rates annually. This is different from the agency's process of annually updating the inpatient prospective payment system. Given the rapid pace of technological change as well as changes in medical practice, the parties to the agreement require the Secretary to review the outpatient payment groups and amounts annually and to update them as necessary.

BBA 97 gave the Secretary the discretion to make additional payments (called outlier payments) to hospitals for particularly costly cases. The parties to the agreement require the Secretary to make outlier payments in a budget neutral manner and in a similar way as is currently done in the inpatient PPS. The outlier pool would be established at any level up to 2.5 percent of total payments for the first three years under the new system. After the third year, the pool could be set at any level up to 3 percent of total payments.

While the statutory provisions for the inpatient PPS require an outlier pool equal to a level between 5 and 6 percent of total inpatient PPS payments, the Committee believes that the lower levels of 2.5 and 3.0 percent are more appropriate for the outpatient PPS because the outpatient PPS will make separate payments for most individual services performed during an outpatient encounter. The allowed upper limit on the size of the pool is increased after the third year because the need for outlier payments may increase after the temporary add-on payments for drugs and biologicals, described below, are replaced with a transitional provision that applies only to new products.

The parties to the agreement are concerned that HCFA's proposed payment system does not adequately address issues pertaining to the treatment of drugs, biologicals and new technology.

The parties believe that these oversights could lead to restricted beneficiary access to drugs, biologicals and new technology. The provisions would establish transitional payments to cover the added costs of certain services involving the use of medical devices, drugs and biologicals. Hospitals using these drugs, biologicals and devices would be eligible for additional payments.

The duration of the transitional payment would be for a period of at least two years but not more than three years. For drugs, biologicals, and brachytherapy used in cancer therapy and orphan drugs, the period would begin with the implementation date of the outpatient PPS. This also would be the period applicable to medical devices first paid as an outpatient hospital service after 1996 but before implementation of the outpatient PPS (as well as for any other item or service eligible for the additional payments at the inception of the outpatient PPS because of insufficient data or use of the Secretary's discretion). For products first paid as an outpatient service after implementation of the outpatient PPS, the transitional payment would begin with the first date on which payment is made for the device, drug or biological as an outpatient hospital service and continue for at least two, but not more than three, years.

The parties to the agreement expect the Secretary to develop a process to address new devices, drugs and biologicals introduced after the outpatient fee schedule for a particular year has been set. This process should include assigning an appropriate code (or codes) to the product and establishing the amount of the add-on payment. New codes and add-on payment amounts should be made effective quarterly.

The amount of the additional payment to hospitals, before applying the limitation described below, should equal the amount specified for the new technology less the average cost included in the outpatient payment schedule for the existing technology. Specifically, for drugs and biologicals, the amount of the additional payment is the amount by which 95 percent of the Average Wholesale Price (AWP) exceeds the portion of the applicable outpatient fee schedule amount that the Secretary determines is associated with the drug or biological. Similarly, for new medical devices, the add-on payment is the amount by which the hospital's charges for the device, adjusted to cost, exceed the outpatient fee schedule amount associated with the device.

The total amount of additional pass-through payments in a year should not exceed a prescribed percentage of total projected payments under the outpatient prospective payment system. The applicable percentages are: (1) 2.5 percent for the first three years after implementation of the new outpatient payment system; and (2) up to 2.0 percent in subsequent years. In setting the hospital outpatient department (OPD) rates and add-on amounts for a particular year, the Secretary will estimate the total amount of additional payments that would be made based on the add-on amounts specified above and the expected utilization for each service. If the estimated total amount exceeds the percentage limitation, the Secretary will apply a pro rata reduction to the add-on payment amounts so that projected total payments are within the limitation.

The parties to the agreement believe that the current DMEPOS fee schedule is not appropriate for certain implantable

items, since their use in the hospital setting involves the provision of services by the hospital. It is the parties' intent that payment for implantable medical items (for example, pacemakers, defibrillators, cardiac sensors, venous grafts, drug pumps, stents, neurostimulators, and orthopedic implants), as well as for items that come into contact with internal human tissue during invasive medical procedures (but are not permanently implanted), will be made through the outpatient PPS system—regardless of how these products might be classified on current HCFA fee schedules.

The parties to the agreement understand that the Secretary is committed to creating separate payment categories for blood, blood products, and plasma-based and recombinant therapies. The parties to the agreement continue to be concerned that the inadequate payment for these products and therapies could represent a barrier to patient access. Accordingly, the parties to the agreement expect the Secretary to carefully analyze potential patient access issues and create sufficient payment categories to adequately differentiate these products.

The agreement also requires the Secretary to conduct a study of intravenous immune globulin (IVIG) services in settings other than hospital outpatient departments and physicians' offices to be completed within 1 year of enactment. In addition, the agreement requires the Secretary to make recommendations on the appropriate manner and settings under which Medicare should pay for these services in such settings.

The parties to the agreement encourage the Secretary to examine Medicare policies regarding outpatient rehabilitation services (including cardiac and pulmonary rehabilitation services) in hospital outpatient departments and other ambulatory settings in light of advances in medical technology.

SEC. 202. ESTABLISHING A TRANSITIONAL CORRIDOR FOR APPLICATION OF OPD PPS

Current law

The hospital outpatient PPS is to be implemented in full and simultaneously for all services and hospitals (estimated for July 2000).

H.R. 3075, as passed

Provides payments in addition to PPS payments to a hospital during the first 3 years of the PPS if its PPS payments are less than the payments that would have been made prior to the PPS. During the first year, a hospital would receive an additional amount equal to 80% of the first 10% of the difference between its payments under the prior system and under the PPS, 70% of the next 10% of reduced payments, and 60% of the next 10%. If PPS payments are less than 70% of prior levels, the additional sum is 21% of the pre-BBA amount. During the second year, the payments as a proportion of reduced payments would change to 70% of the first 10% and 60% of the second 10%. If PPS payments are less than 80% of prior amounts the additional sum is 13% of the pre-BBA amount. In the third year, the payment would be 60% of the first 10% of reduced payments, and if the PPS payments are less

than 90% of the prior amounts, the additional payment is 6% of the pre-BBA amount. These additional payments would be made through 2003.

Until January 1, 2004, for rural hospitals with fewer than 100 beds, provides special payments to bring payments to hospital outpatient departments up to their pre-PPS amounts if their PPS payments are less than under the prior system. Waives budget neutrality for these payments; applies BBA 97 beneficiary copayment rules. Requires the Secretary to report by July 1, 2002, on whether the outpatient PPS should apply to Medicare dependent small rural hospitals; sole community hospitals; rural health clinics; rural referral centers; rural hospitals with 100 or fewer beds; other rural hospitals as determined by the Secretary.

S. 1788, as reported

Requires the Secretary to increase payments under the hospital outpatient PPS in amounts such that the ratio of Medicare payments (after correction for the formula-driven overpayment) plus beneficiary copayments to hospital costs would be no less than 90%, 85%, and 80% of the ratio of the hospital's 1996 payments-to-costs in the first, second, and third years of the new system, respectively. Authorizes the Secretary to make interim payments to hospitals during these 3 years and to make subsequent retroactive adjustments. The budget neutrality requirement of the PPS is waived. For each year beginning in 2000, the Secretary is authorized to increase permanently PPS payments to Medicare dependent small rural hospitals, sole community hospitals, and cancer hospitals to amounts such that the ratio of Medicare payments plus beneficiary copayments to a hospital's costs would be not less than that ratio in 1996. Beneficiary copayment reductions in BBA 97 would be protected for care in these facilities. The BBA 97 budget neutrality requirements would be waived for these payments.

Agreement

The agreement includes the House and Senate provisions with amendments. The agreement includes the House corridor amounts and a temporary hold harmless provision for small rural hospitals with modifications. It also includes the Senate's permanent hold harmless provision for cancer hospitals under the PPS. For services furnished before January 1, 2004, by rural hospitals with not more than 100 beds, Medicare payments will equal 100% of the hospitals' pre-BBA outpatient payment amounts if their PPS amount is less than the pre-BBA amount. On a permanent basis, Medicare payments to cancer hospitals will equal 100% of their pre-BBA amount if their PPS amount is less than their pre-BBA amount. Pre-BBA amount is defined as the amount equal to the product of the reasonable cost of the hospital for such services for the portions of the hospital's cost reporting period (or periods) occurring in the year and the base OPD payment-to-cost ratio for the hospital, excluding formula-driven overpayments.

SEC. 203. STUDY AND REPORT TO CONGRESS REGARDING THE SPECIAL TREATMENT OF RURAL AND CANCER HOSPITALS IN PROSPECTIVE PAYMENT SYSTEM (PPS) FOR HOSPITAL OUTPATIENT DEPARTMENT SERVICES

Current law

No provision.

H.R. 3075, as passed

Requires the Secretary to submit a report and recommendations to Congress by July 1, 2002 on whether a hospital outpatient prospective payment system (PPS) should continue to apply to Medicare Dependent Hospitals, Sole Community Hospitals, rural health clinics, rural referral centers, and other rural hospitals.

S. 1788, as reported

Requires MedPAC to prepare a report to the Secretary of HHS and the Congress within 2 years of enactment regarding the feasibility and advisability of including cancer hospitals and rural hospitals in the outpatient PPS. After submission of the report, the Secretary shall submit comments on the report within 60 days.

Agreement

The agreement includes the Senate provision with modifications.

SEC 204. LIMITATION ON OUTPATIENT HOSPITAL COPAYMENT FOR A PROCEDURE TO THE HOSPITAL DEDUCTIBLE AMOUNT

Current law

When the hospital outpatient PPS is implemented, BBA 97 freezes beneficiary copayments at the dollar amount that is equal to 20% of national median charges for a procedure in 1996 updated to 1999 (or the year of implementation of the PPS).

H.R. 3075, as passed

Caps beneficiary copayments under the PPS for care and services in hospital outpatient departments to the dollar amount of the deductible for an inpatient hospital stay under Part A. Provides Medicare payments to make up the difference between the frozen copayment amount and the new limit. Effective retroactively to enactment of the BBA 97.

S. 1788, as reported

No provision.

Agreement

The agreement includes the House provision.

SUBTITLE B—PHYSICIAN SERVICES

SEC. 211. MODIFICATION OF UPDATE ADJUSTMENT FACTOR PROVISIONS TO REDUCE UPDATE OSCILLATIONS AND REQUIRE ESTIMATE REVISIONS

Current law

Payments to physicians are made on the basis of a fee schedule which assigns a relative value unit to each service. The conversion factor is a dollar figure that converts the geographically adjusted relative value into a dollar payment amount. This amount is updated each year. Beginning in 1999, the update percentage equals the Medicare Economic Index (MEI), subject to an adjustment to match actual spending to target spending for physicians services under the sustainable growth rate (SGR) system.

H.R. 3075, as passed

Makes technical changes to limit oscillations in the annual update to the conversion factor beginning in 2001 by: (a) requiring that future update adjustment factors be calculated using data measured on a calendar year basis; (b) modifying the formula for determining the update by adding a new component to the formula to measure past year variances from allowed spending growth; and (c) mitigating the year-to-year impact of these measures on the update by the addition of dampening multipliers. Provides for a budget-neutral transition to the revised system. Provides that the SGR is to be calculated on a calendar basis. Requires that an estimate of the conversion factor and SGR be made available to MedPAC and the public by March 1 of each year, MedPAC comments in its annual report, and final publication November 1. Requires the Secretary to use the best available data to revise prior SGR estimates for up to 2 years after the estimate is first published. Provides that provision would not apply to or affect any update for any year before 2001.

S. 1788, as reported

Nearly identical provision. In addition, requires the Secretary, acting through the Administrator of the Agency for Health Care Policy and Research, to conduct a study on the utilization of physicians services under the fee-for-service program.

Agreement

The agreement includes the House provision with Senate amendment to include the AHCPR study. With regard to physician supervision of anesthesia services under Medicare's Conditions of Participation, if the Secretary determines that there is insufficient current scientific data comparing mortality and adverse outcome rates in the provision of anesthesia services to Medicare patients, the Secretary should conduct a comparative outcome study and report back to the parties to the agreement. If the Secretary believes that she has sufficient mortality and quality information regarding the provision of anesthesia services by nurse anesthetists and anesthesiologists, then she could make the appropriate regulatory changes to ensure access to quality care for Medicare beneficiaries.

SEC. 212. USE OF DATA COLLECTED BY ORGANIZATIONS AND ENTITIES
IN DETERMINING PRACTICE EXPENSE RELATIVE VALUES

Current law

The Social Security Act Amendments of 1994 (P.L. 103-432) required the Secretary to develop a methodology for a resource-based system for calculating practice expenses which would be implemented in calendar year 1998. BBA 97 delayed implementation of a resource-based practice expense methodology for a year, until 1999. BBA 97 also reduced certain practice expense relative value units in 1998. The new resource-based system is being phased-in beginning in calendar year 1999; 1998 is used as the base year for the calculation. Beginning in 2002, the values will be totally resource-based.

H.R. 3075, as passed

Requires the Secretary to establish by regulation a process (including data collection standards) under which the Secretary would accept for use and would use, to the maximum extent practicable and consistent with sound data practices, data collected by organizations and entities other than HHS. Requires a report to the Secretary on the process and the extent to which such data has been used.

S. 1788, as reported

No provision.

Agreement

The agreement includes the House provision. The parties to the agreement direct the Secretary to give fair consideration to data submitted by external entities. The parties to the agreement are particularly concerned about the instances when HCFA may not have adequate data for rate setting.

SEC. 213. GAO STUDY ON RESOURCES REQUIRED TO PROVIDE SAFE AND
EFFECTIVE OUTPATIENT CANCER THERAPY

Current law

No provision.

H.R. 3075, as passed

Requires a study and report to Congress on resources required to provide safe and effective outpatient cancer therapy and the appropriate payment rates for such services.

S. 1788, as reported

No provision.

Agreement

The agreement includes the House provision. The parties to the agreement direct the Comptroller General to determine the adequacy of practice expenses associated with the utilization of outpatient cancer clinical resources, examine the current level of work values in the practice expense formula, and assess various stand-

ards to assure the provision of safe outpatient cancer therapy services. The parties to the agreement also direct the Comptroller General to submit to Congress a report on this study. As part of the study, the Comptroller General is directed to make recommendations regarding adjustments to practice expense values in effect under Part B of the Medicare program and the impact on program costs. In addition, the parties to the agreement encourage the Comptroller General to examine the variation in Medicare payments for these services in hospital and non-hospital settings.

SUBTITLE C—OTHER SERVICES

SEC. 221. REVISION OF PROVISIONS RELATING TO THERAPY SERVICES

Current law

BBA 97 set annual payment limits for all outpatient therapy services provided by non-hospital providers. There are two per beneficiary limits. The first is a \$1,500 per beneficiary annual cap for all outpatient physical therapy services and speech language pathology services. The second is a \$1,500 per beneficiary annual cap for all outpatient occupational therapy services. The Secretary is required to report to Congress by Jan. 1, 2001 on recommendations for establishing a revised payment policy based on diagnostic groups.

H.R. 3075, as passed

Creates separate \$1,500 caps for physical therapy and speech-language pathology services which would be applied to services furnished on a per beneficiary, per facility (or provider) basis beginning in 2000. The cap on occupational therapy services would also be applied on a per beneficiary, per facility (or provider) basis. Directs the Secretary to establish a process so that a facility or provider may apply for an increase in the limitation for a beneficiary for services furnished in 2000 or 2001; limits additional payments to \$40 million in FY2000, \$60 million in FY2001, and \$20 million in FY2002.

In addition, H.R. 3075 specifies that an optometrist may meet the physician supervision requirement for outpatient physical therapy services. Current law limits outpatient occupational therapy services to services furnished to individuals who are under the care of a medical doctor, doctor of osteopathy, or podiatrist. Persons suffering from low vision (visual impairments not correctable using conventional eyewear) may be under the care of either a medical doctor, doctor of osteopathy, or optometrist. The provision would clarify that rehabilitation services for these individuals may be covered when the patient is under the care of, and the treatment plan has been ordered by, either a medical doctor, doctor of osteopathy, or optometrist.

S. 1788, as reported

Provides that the cap would not apply in 2000 and 2001. Modifies current report to Congress to include recommendation for assuring appropriate utilization and incorporation of functional status in recommended payment modifications. Requires Secretary to

study utilization patterns in 2000 compared to those in 1998 and 1999.

Agreement

The agreement includes the Senate provision with a modification requiring the Secretary to conduct focused medical reviews of therapy services during 2000 and 2001, with emphasis on claims for services provided to residents of SNFs.

The agreement also includes the House provision regarding optometrists and the supervision of outpatient physical therapy services. The parties to the agreement note that the extent to which these rehabilitation services are covered is a coverage decision made by carriers and the Health Care Financing Administration. Based on an agreement between organizations representing ophthalmology and optometry on appropriate low vision rehabilitation services, the parties to the agreement expect that referral for low vision rehabilitation services by optometrists would be limited to three codes—97530, 97535, and 97537.

SEC. 222. UPDATE IN RENAL DIALYSIS COMPOSITE RATE

Current law

Dialysis facilities providing care to beneficiaries with end-stage renal disease (ESRD) receive a fixed prospective payment amount for each dialysis treatment. The base composite rate is \$126 for hospital-based providers and \$122 for free-standing facilities.

H.R. 3075, as passed

Updates the composite rate by 1.2% for dialysis services furnished during CY2000 and an additional 1.2% for services furnished in CY2001. Requires a MedPAC study on the use of home dialysis services by Medicare beneficiaries.

S. 1788, as reported

Updates the rate for services furnished after October 1, 2000 by 2.0%.

Agreement

The agreement includes the House provision.

SEC. 223. IMPLEMENTATION OF THE INHERENT REASONABLENESS (IR) AUTHORITY

Current law

The Secretary has the authority to modify payment rates for Part B services (other than physicians services) if such rates (as determined by prevailing payment methodologies) are “grossly excessive or grossly deficient” and therefore inherently unreasonable. The Secretary is required, by regulation, to describe the factors to be used in making inherent reasonableness determinations. Interim final regulations describing such factors were issued January 7, 1998.

H.R. 3075, as passed

Prohibits the Secretary from exercising inherent reasonableness authority until after the Secretary has issued final rule-making. Specifies that final rule-making must be preceded by new proposed rule-making and a minimum 60-day public comment period.

S. 1788, as reported

Prohibits the Secretary from using inherent reasonableness authority until 90 days after the GAO issues a report regarding this issue.

Agreement

The agreement includes the House and Senate provisions with modifications to prohibit the Secretary from using inherent reasonableness authority until after (1) the GAO releases a report regarding the Secretary's recent use of the authority; and (2) the Secretary has published a notice of final rulemaking in the Federal Register that responds to the GAO report and to comments received in response to the Secretary's interim final regulation published January 7, 1998. In promulgating the final regulation, the Secretary is required to (1) reevaluate the appropriateness of the criteria included in the interim regulation for identifying payments which are excessive or deficient; and (2) take appropriate steps to ensure the use of valid and reliable data when exercising the authority. The parties to the agreement believe that the inherent reasonableness authority provided by section 1842(b) should be administered judiciously and applied only after public concerns and suggestions about proposed administrative criteria have been openly addressed. Also, the rules should include an explanation of the Secretary's costing methodology which should be based on statistically reliable and relevant data.

SEC. 224. INCREASE REIMBURSEMENT FOR PAP SMEARS

Current law

Medicare pays for Pap smears under the clinical laboratory fee schedule.

H.R. 3075, as passed

Sets the minimum payment for the test component of a Pap smear at \$14.60. Expresses Sense of Congress that HCFA should institute appropriate increases for new cervical cancer screening technologies approved by the FDA.

S. 1788, as reported

Similar payment provision, but does not include the language relating to the sense of Congress.

Agreement

The agreement includes the House provision.

SEC. 225. REFINEMENT OF AMBULANCE SERVICES DEMONSTRATION
PROJECT

Current law

BBA 97 authorized a demonstration project under which a unit of local government could enter into a contract with the Secretary to furnish ambulance services for individuals living in the local government unit. Capitated payments in the first year are to equal 95% of the amount which would otherwise be payable. Requires on a capitated basis the Secretary to publish a request for proposals for the project by July 1, 2000. Specifies that the capitation rate is to be based on the most current data and that the aggregate payments do not exceed what would otherwise be paid.

H.R. 3075, as passed

Requires the Secretary to publish a request for proposals for the project by July 1, 2000. Specifies that the capitation rate is to be based on the most current data and that the aggregate payments do not exceed what would otherwise be paid.

S. 1788, as reported

No provision.

Agreement

The agreement includes the House provision.

SEC. 226. PHASE-IN OF PPS FOR AMBULATORY SURGICAL CENTERS (ASC)

Current law

Medicare payments for services in ASCs have been based on a fee schedule (a form of PPS) since such services were first covered by Medicare in 1982. On June 12, 1998, HCFA published proposed rules rebasing, regrouping, and revising ASC rates which are to be implemented with the hospital outpatient PPS. These new rates are based on 1994 survey data.

H.R. 3075, as passed

For ASC rates based on pre-1999 survey data, requires the new rates to be phased in over a period of at least three years. In the first year, new payment rates cannot exceed $\frac{1}{3}$ of the payment totals made to an ASC; in the second year, new payment rates cannot exceed $\frac{2}{3}$ of the payment totals made to an ASC.

S. 1788, as reported

No provision.

Agreement

The agreement includes the House provision. The parties to the agreement note that the data upon which HCFA's proposed payment system is based was collected in 1994 and that there have been substantial changes in costs and technologies associated with these procedures since that time. In addition, the parties to the agreement note that HCFA is now completing a new cost survey intended to yield more reliable information and encourages the Sec-

retary to obtain adequate cost data for rate setting. Should HCFA move forward with its new payment policy, this provision will ensure that the Agency has the flexibility necessary to implement the new ASC system over a period of three years or longer.

SEC. 227. EXTENSION OF MEDICARE BENEFITS FOR
IMMUNOSUPPRESSIVE DRUGS

Current law

Medicare pays for drugs used in immunosuppressive therapy during the first 36 months following a Medicare covered organ transplant.

H.R. 3075, as passed

Requires the Secretary to provide for an extension of the 36-month time period. Prohibits any extension after September 30, 2004. Permits the Secretary to limit (or provide priority in) eligibility to those persons who because of income or other factors would be less likely to continue the regimen in the absence of the extension. Limits total expenditures under the extension to \$40 million in FY2000 and \$200 million overall. Requires a report on the operation of the extension.

S. 1788, as reported

No provision.

Agreement

The agreement includes the House provision with amendments. The extension would apply to beneficiaries whose benefits under current law expire during the 5-year period beginning January 1, 2000 and ending December 31, 2004. Beneficiaries who current law benefits are set to expire in 2000 would be provided an additional eight months of coverage. Those whose benefits are set to expire in calendar year 2001 would receive a minimum of eight months of additional coverage. Beginning in 2001, the Secretary would be required to compute and specify in May what period of such additional months (which may be portions of months) qualifying beneficiaries would receive in the following year. In May 2001, the Secretary could also extend the period of coverage provided in statute for 2001, if her actuarial estimates supported such an extension. The Secretary is required to compute additional months of coverage in such a manner as to limit total expenditures for the extension to \$150 million over the 5-year period. The Secretary would be required to adjust the number of additional months of coverage specified for each year beginning in 2001 and ending 2004 to the extent necessary to take into account differences between actual and estimated expenditures and to assure compliance with the limitation on spending for the extension. The Secretary's computations for any given year is to be based on the best data available to her at the time of computation in the preceeding May. The additional months of coverage established for a given year would apply to an individual who exhausts their 36-month period of coverage during that year. The Secretary's report on the extension would be due March 1, 2003.

SEC. 228. TEMPORARY INCREASE IN PAYMENT AMOUNT FOR DURABLE
MEDICAL EQUIPMENT (DME) AND OXYGEN

Current law

The DME fee schedules are updated annually by the CPI-U; BBA 97 eliminated the updates for 1998 through 2002.

H.R. 3075, as passed

Provides an update to the DME payments in 2001 and 2002 by the CPI minus 2 percentage points, for the 12-month period ending with June of the previous year.

S. 1788, as reported

No provision.

Agreement

The agreement includes the House provision, with a modification to provide temporary adjustments to the DME fee schedule payments equaling 0.3 percent in FY 2001 and 0.6 percent in FY 2002. The Secretary is prohibited from including the additional payments for FY 2001 and 2002 in updates for future years.

SEC. 229. STUDIES AND REPORTS

Current law

No provision.

H.R. 3075, as passed

Requires the following studies: (1) MedPAC study on cost-effectiveness of covering services of a post-surgical recovery center (that provides an intermediate level of recovery care following surgery); (2) AHCPR study comparing differences in the quality of ultrasound and other imaging services provided by credentialed individuals versus those provided by non-credentialed individuals; (3) MedPAC comprehensive study of the regulatory burdens placed on all classes of providers under fee-for-service Medicare and the associated costs; and (4) GAO monitoring of Department of Justice application of guidelines on use of False Claims Act in civil health care matters.

S. 1788, as reported

No provision.

Agreement

The agreement includes the House provision. The parties to the agreement are concerned that federal regulations governing health care providers participating in the Medicare program are overly complex and administratively burdensome. Therefore, the parties direct MedPAC to conduct a comprehensive study to review the regulatory burdens placed on all classes of health care providers under Parts A and B of the Medicare program. The purpose of the study is to determine the costs these burdens impose on the nation's health care system and the impact on patients and pro-

viders, and their ability to deliver cost-effective quality care to Medicare beneficiaries.

The parties to the agreement note that the Congress has expressed concern regarding the application of the False Claims Act (FCA) to Medicare billing errors that are the result of a complex regulatory system. The Department of Justice issued written guidance (“Guidance”) to the United States Attorneys on the appropriate use of the FCA in health care investigations. In 1998, the Congress directed the General Accounting Office (GAO) to monitor the implementation of and compliance with the “Guidance” and report to Congress. The provision directs the GAO to continue its monitoring of the issue.

The parties to the agreement request that AHCPR focus its report on the role and the value of credentialing. In designing the study, the Administrator should consult with groups with expertise in ultrasound procedures, including the Society of Diagnostic Medical Sonographers, the Society of Vascular Technology, the American Society of Echocardiography and the American Registry of Diagnostic Medical Sonographers.

TITLE III—PROVISIONS RELATING TO PARTS A AND B

SUBTITLE A—HOME HEALTH SERVICES

SEC. 301. ADJUSTMENT TO REFLECT ADMINISTRATIVE COSTS NOT INCLUDED IN THE INTERIM PAYMENT SYSTEM; GAO REPORT ON COSTS OF COMPLIANCE WITH OASIS DATA COLLECTION REQUIREMENTS

Current law

Home health agency workers are required to collect clinical and social data on new home health patients using the standard Outcome and Assessment Information Set (OASIS) data collection instrument.

H.R. 3075, as passed

Authorizes payments to home health agencies of \$10 for each beneficiary served during a cost reporting period beginning in FY 2000. By April 1, 2000, the Secretary shall pay an estimated 50% of the aggregate annual amount. The payments are to be made from the Hospital Insurance Trust Fund and the Federal Supplementary Medical Insurance Trust Fund as determined appropriate by the Secretary. Requires the GAO to report to Congress within 180 days of enactment on the cost of OASIS data collection and the effects on patient privacy. Requires the GAO to perform an audit of the costs of OASIS and report to Congress 180 days after the first cost and privacy report.

S. 1788, as reported

No provision.

Agreement

The agreement includes the House provision.

SEC. 302. DELAY IN APPLICATION OF 15 PERCENT REDUCTION IN PAYMENT RATES FOR HOME HEALTH SERVICES UNTIL 1 YEAR AFTER IMPLEMENTATION OF PROSPECTIVE PAYMENT SYSTEM (PPS)

Current law

PPS is to be designed to reduce Medicare payments to home health agencies by 15% from pre-PPS payments; if PPS is not implemented by October 1, 2000, payment limits per visit and per beneficiary are to be reduced by 15%.

H.R. 3075, as passed

Delays the 15% reduction in home health payments under the PPS until 12 months after implementation of the PPS. Total Medicare payments to home health agencies in the first year of the PPS shall be the same in total as would have been paid had the PPS not been in effect. The 15% reduction to begin 12 months after the start of the PPS shall be applied to the level of total payments in FY 2001 with updates. Within 6 months of implementation of the PPS, the Secretary shall report to Congress on the need for the 15% or other reduction.

S. 1788, as reported

Repeals the 15% reduction to the interim cost limits if PPS is not ready for implementation on October 1, 2000. Phases in the 15% reduction under the PPS by 5% over 3 years, starting in FY 2001.

Agreement

The agreement includes the House provision. The parties to the agreement encourage the Secretary to consider what changes would be necessary to provide home health care agencies with the flexibility to adopt new market innovations and new technologies that can improve health outcomes while maintaining the goals of quality of care and cost containment. The parties to the agreement also encourage the Secretary to eliminate barriers to the use of branch offices, by allowing the use of technology for means of supervision and oversight by the parent agency. The adequate level of onsite supervision from the parent agency should be determined based on quality outcomes.

SEC. 303. INCREASE IN PER BENEFICIARY LIMITS

Current law

Under the home health care interim payment system established in BBA 97, aggregate payments to home health agencies are computed using the least of reasonable costs, payments based on per visit limits (applied in the aggregate), or payments based on an average payment per beneficiary in FY 1994, with certain updates, applied in the aggregate. No limit applies to individual beneficiaries.

H.R. 3075, as passed

No provision.

S. 1788, as reported

Increases agency per beneficiary limits by 1% starting in October 1, 1999. The increase does not affect per visit limits and is not included in the payment base for establishing the PPS.

Agreement

The agreement includes the Senate provision with an amendment to raise the increase in per beneficiary limits for cost reporting periods beginning during or after FY 2000 by 2% for home health agencies with per beneficiary limits below the national median per beneficiary limit for agencies with cost reporting periods starting during or before FY 1994. This increase will not be included in the base on which payments under the home health PPS are determined.

SEC. 304. CLARIFICATION OF SURETY BOND REQUIREMENTS

Current law

Home health agencies must provide the Secretary on a continuing basis with a surety bond that is not less than \$50,000. HCFA regulations require the bond to be not less than 15% of the agency's Medicare payments in the previous year.

H.R. 3075, as passed

Establishes the lesser of \$50,000 or 10% of the agency's Medicare payments in the previous year as the annual amount of an agency's surety bond requirement. Requires the bond to be in effect for 4 years, or longer if agency ownership changes; prior periods covered by a bond may be counted. Coordinates Medicare and Medicaid surety bonds.

S. 1788, as reported

No provision.

Agreement

The agreement includes the House provision. The parties to the agreement encourage the Secretary to provide home health agencies with the opportunity to repay overpayments (due to incorrect interim payment system estimates) over a three-year period without interest costs.

SEC. 305. REFINEMENT OF HOME HEALTH AGENCY CONSOLIDATED BILLING

Current law

When the home health PPS is implemented, home health agencies will be responsible for billing Medicare and paying all other providers for services supplied on behalf of individual home health beneficiaries.

H.R. 3075, as passed

No provision.

S. 1788, as reported

Excludes durable medical equipment, including oxygen and oxygen supplies, from the consolidated billing requirement.

Agreement

The agreement includes the Senate provision.

SEC. 306. TECHNICAL AMENDMENT CLARIFYING APPLICABLE MARKET BASKET INCREASE FOR PROSPECTIVE PAYMENT SYSTEM (PPS)

Current law

When the home health PPS is in effect, the payments are to be updated in FY 2002 “or” 2003 by the market basket minus 1.1 percentage points.

H.R. 3075, as passed

Clarifies that the PPS market basket increase minus 1.1 percentage points applies to FY 2002 and FY 2003.

S. 1788, as reported

No provision.

Agreement

The agreement includes the House provision.

SEC. 307. STUDY AND REPORT TO CONGRESS REGARDING THE EXEMPTION OF RURAL AGENCIES AND POPULATIONS FROM INCLUSION IN THE HOME HEALTH PROSPECTIVE PAYMENT SYSTEM (PPS)

Current law

No provision.

H.R. 3075, as passed

No provision.

S. 1788, as reported

Requires MedPAC to report to Congress within 2 years on the feasibility and advisability of exempting rural home health agencies or services to individuals residing in rural areas from the home health PPS.

Agreement

The agreement includes the Senate provision.

SUBTITLE B—DIRECT GRADUATE MEDICAL EDUCATION

SEC. 311. USE OF NATIONAL AVERAGE PAYMENT METHODOLOGY IN COMPUTING DIRECT GRADUATE MEDICAL EDUCATION PAYMENTS

Current law

Medicare pays hospitals for its share of direct graduate medical education (DGME) costs in approved training programs using a hospital-specific historic cost per resident, updated for inflation and multiplied by a hospital’s number of full-time equivalent (FTE) residents.

H.R. 3075, as passed

Establishes a national average per resident payment amount, adjusted for differences in area wages, starting on or after October 1, 2000. Hospitals would receive the greater of the national average per resident amount or a blended amount of the hospital-specific amount and the national average amount for a transition period for cost reporting periods on or after October 1, 2000 and before October 1, 2004. For cost reports starting on or after October 1, 2004, teaching hospitals would receive Medicare's share of a wage-adjusted national average per resident amount. The national per resident amount would be calculated using each hospital's combined primary care and non-primary care per resident amount, weighted by the number of full time equivalent residents in each hospital with an approved program, and standardized for differences in area wages. The amount would be calculated with data from cost reporting periods ending during FY 1997 updated by the CPI to the midpoint of the FY 2001 cost reporting period. Subsequent updates would be based on the CPI. During the transition period, a hospital with a wage index of less than 1.00 would not have its payment based on the national average adjusted by its area wage index.

S. 1788, as reported

No provision.

Agreement

The agreement includes the House provision with amendments. This provision establishes a direct graduate medical education payment methodology based on the national average per resident amount modified by the geographic adjustment factor (GAF) used to adjust physician payments, that is the weighted average of the three geographic practice cost indices (GPCIs) weighted by the national average percentage as published in the Federal Register on October 31, 1997. A national average per resident payment amount, based on FY 1997 data, would be calculated from each hospital's combined primary care and non-primary care per resident amounts and would be standardized by the average of the three geographic index values (weighted by the national average weight for each of the work, practice expense, and malpractice components) as applied for 1999 in the fee schedule in which the hospital is located. The national average per resident amount, standardized for locality, would be calculated using each hospital's amount weighted by the number of FTE residents and would be updated to FY 2001 by the consumer price index for urban areas (CPI).

Beginning during FY 2001, a lower bound would be calculated at 70% of the locality-adjusted, or standardized, national average per resident amount. An upper bound of 140% of the locality-adjusted national average per resident amount also would be calculated. Each hospital's FY 2001 per resident amount would then be compared to the upper and lower bounds adjusted by the GAF for the locality in which the hospital is situated. Hospitals with per resident amounts below 70% of the locality-adjusted threshold would have their per resident amounts increased to the 70% locality-adjusted threshold. Hospitals with per resident amounts that

exceed 140% of their locality-adjusted upper bound would receive no update to their per resident amounts for two years (FY 2001 and FY 2002), and would receive updates of CPI minus two percentage points (but not below zero) for three years (FY 2003, FY 2004 and FY 2005). Hospitals with per resident amounts within the locality-adjusted boundaries of 70% and 140% would continue to be paid portions of their per resident amounts and would receive updates for inflation.

The parties to the agreement concur that the GAF seems to be an appropriate measure for adjusting per resident payment amounts, and represents an initial attempt to adjust for differences among geographic areas in the costs related to physician training. The parties to the agreement request that MedPAC study the use of the GAF for this purpose and, if appropriate, make recommendations by March 2002 on the development of a more sophisticated or refined index to adjust payment amounts for physician training.

SEC. 312. INITIAL RESIDENCY PERIOD FOR CHILD NEUROLOGY
RESIDENCY TRAINING PROGRAMS

Current law

Each full-time intern and resident is counted as a 1.0 full time equivalent (FTE) resident during the initial residency period. After the initial residency period, a full-time resident can be counted only as 0.5 FTE for Medicare's direct graduate medical education payment. Generally, the initial residency period is the minimum number of years in which a resident must train to be eligible for certification in a medical specialty as listed in the American Medical Association's (AMA) Graduate Medical Education Directory. With a combined primary care specialty program, such as internal medicine-pediatrics, the initial residency period is defined as the minimum number of years for the longer of the two programs, plus one additional year. However, with a combined program where one of the programs is not primary care, then the initial residency period is based on the minimum years to qualify for the longer of the composite programs.

H.R. 3075, as passed

Establishes a 3-year period where an individual in a child neurology residency program shall be treated as part of the initial residency period and shall not be counted against any limitation of the initial residency period.

Requires MedPAC to include in its March 2001 report to Congress a recommendation on whether the initial residency period for other combined residency training programs should be extended.

S. 1788, as reported

No provision.

Agreement

The agreement includes the House provision with amendment. A resident enrolled in a child neurology residency training program would have a period of board eligibility and initial residency of the board eligibility for pediatrics plus 2 years. This provision would be

effective on or after July 1, 2000 to residency programs that began before, on, or after the enactment of this division.

MedPAC would be required to include in its March 2001 report to Congress a recommendation on whether the initial residency period for other combined residency training programs should be extended.

SEC. 321. BBA TECHNICAL CORRECTIONS

H.R. 3075, as passed

Includes various technical corrections to the Balanced Budget Act of 1997.

S. 1788, as reported

Includes various technical corrections to the Balanced Budget Act of 1997.

Agreement

The agreement includes amendments to Medicare law that are needed as a result of the Balanced Budget Act of 1997.

TITLE IV—RURAL PROVIDER PROVISIONS

SUBTITLE A—RURAL HOSPITALS

SEC. 401. PERMITTING RECLASSIFICATION OF CERTAIN URBAN HOSPITALS AS RURAL HOSPITALS

Current law

Medicare's inpatient hospital PPS payments vary by urban/rural classification and the geographic area where a hospital is located or to which a hospital is reassigned. Several mechanisms within the Medicare program permit hospitals that meet certain criteria to apply to the Secretary to change their geographic designation.

H.R. 3075, as passed

Instructs the Secretary to treat certain urban hospitals as rural hospitals no later than 60 days after their application for such treatment if the hospitals: (1) are located in a rural census tract of a Metropolitan Statistical Area (as determined by the Goldsmith Modification published in the Federal Register on February 27, 1992); (2) are located in an area designated by State law or regulation as a rural area or designated by the State as rural providers; or (3) meet other criteria as the Secretary specifies. Permits otherwise qualifying urban hospitals to be classified as sole community hospitals, regional referral centers, rural referral centers, or national referral centers. Extends this rural designation for use in outpatient PPS. Updates other federal criteria used to designate rural providers.

Provides that a hospital in an urban area may apply to the Secretary to be treated as if the hospital were located in a rural area of the State in which the hospital is located. Hospitals qualifying under this section shall be eligible to qualify for all categories and designations available to rural hospitals, including sole com-

munity, Medicare dependent, critical access, and referral centers. Additionally, qualifying hospitals shall be eligible to apply to the Medicare Geographic Reclassification Review Board for geographic reclassification to another area. The Board shall regard such hospitals as rural and as entitled to the exceptions extended to referral centers and sole community hospitals, if such hospitals are so designated.

S. 1788, as reported

Provides alternative federal criteria to designate providers as rural.

Agreement

The agreement includes the House provision with clarification that the most recent Goldsmith Modification will be used.

SEC. 402. UPDATE OF STANDARDS APPLIED FOR GEOGRAPHIC RECLASSIFICATION FOR CERTAIN HOSPITALS

Current law

Section 1886(d)(8)(B) of the Social Security Act requires the Secretary to treat a hospital located in a rural county adjacent to one or more urban areas as being located in the urban Metropolitan Statistical Area (MSA) to which the greatest number of rural workers commute if the rural county's aggregate commuting rate (to all the contiguous MSAs) meets the standards for designating outlier counties to MSAs (and New England County Metropolitan Statistical Areas) that were published in the Federal Register on January 3, 1980.

H.R. 3075, as passed

Updates the standards which are used to classify hospitals located between two Metropolitan Statistical Areas (MSAs) from 1980 to 1990 census data and then to the most recently available decennial population data for FY 2003 and subsequent years. For FY 2000, the 1980 census data would be used. A transition is provided for discharges occurring during cost report periods during FY 2001 and 2002 for hospitals to choose between the standards published in 1980 and 1990. Beginning with cost reporting periods during FY 2003, standards would be based on the most recent decennial population data published by the Bureau of the Census as revised by the Office of Management and Budget. This provision is effective with discharges occurring during cost reporting periods beginning on or after October 1, 1999.

S. 1788, as reported

No provision.

Agreement

The agreement includes the House provision. The parties to the agreement believe that a transition period for hospitals that might be negatively affected by the change in the standard is appropriate.

SEC. 403. IMPROVEMENTS IN THE CRITICAL ACCESS HOSPITAL (CAH)
PROGRAM

Current law

BBA 97 established criteria for a small, rural, limited service hospital to be designated as a critical access hospital (CAH). These are geographically remote, rural nonprofit or public hospitals that are certified by the state as a necessary provider and have hospital stays of no more than 96 hours except under certain circumstances.

H.R. 3075, as passed

Applies the 96-hour length of stay limitation on an average annual basis. Permits for-profit hospitals and hospitals that have closed within the past 10 years to be CAHs. Permits States to designate a facility as a CAH if the facility: (1) was a hospital that ceased operations on or after 10 years before enactment of this legislation; (2) is a State-licensed health clinic or health center; (3) was a hospital that was downsized to a health clinic or health center; and (4) meets the criteria for designation as a CAH. Permits CAHs to elect either a cost-based hospital outpatient service payment plus a fee schedule payment for professional services or an all-inclusive rate. Eliminates coinsurance for clinical laboratory tests. Clarifies CAH's ability to participate in the swing bed program.

S. 1788, as reported

Applies the 96-hour length of stay limitation on an average annual basis.

Agreement

The agreement includes the House provision.

SEC. 404. 5-YEAR EXTENSION OF MEDICARE DEPENDENT HOSPITAL
(MDH) PROGRAM

Current law

Medicare dependent hospitals (MDH) are small rural hospitals, not classified as sole community hospitals, that treat relatively high proportions of Medicare patients. BBA 97 reinstated and extended the MDH program to FY 2001.

H.R. 3075, as passed

Extends the Medicare Dependent Hospital program through FY 2006.

S. 1788, as reported

Authorizes Medicare Dependent Hospitals to receive the market basket update in FY 2000 and subsequent years.

Extends the Medicare Dependent Hospital program through FY 2003.

Agreement

The agreement includes the House provision.

SEC. 405. REBASING FOR CERTAIN SOLE COMMUNITY HOSPITALS

Current law

Sole community hospitals are paid based on whichever of the following amounts yields the greatest Medicare reimbursement: (1) a hospital-specific amount based on its updated FY 1982 costs; (2) a hospital-specific amount based on its updated FY 1987 costs; or (3) the federal amount.

H.R. 3075, as passed

Permits sole community hospitals that are now paid the federal rate to transition over time to Medicare payment based on their FY 1996 costs.

S. 1788, as reported

No provision.

Agreement

The agreement includes the House provision.

SEC. 406. ONE-YEAR SOLE COMMUNITY HOSPITAL PAYMENT INCREASE

Current law

Sole community hospitals are paid based on whichever of the following amounts yields the greatest Medicare reimbursement: (1) a hospital-specific amount based on its updated FY 1982 costs; (2) a hospital-specific amount based on its updated FY 1987 costs; or (3) the federal amount.

H.R. 3075, as passed

No provision.

S. 1788, as reported

Provides for market basket update for sole community hospitals and Medicare Dependent Hospitals in FY 2000 and subsequent years.

Agreement

The agreement includes the Senate provision with modifications. Sole community hospitals will receive a market basket update for one year only for discharges occurring in FY 2001.

SEC. 407. INCREASED FLEXIBILITY IN PROVIDING GRADUATE PHYSICIAN TRAINING IN RURAL AND OTHER AREAS

Current law

BBA 97 limited the number of residents that a hospital may count for graduate medical education (GME) to the number of full-time equivalent residents recognized in the hospital's most recent cost reporting period ending on or before December 31, 1996.

H.R. 3075, as passed

Permits rural hospitals to increase their resident limits by 30% for direct graduate medical education payments for cost reporting periods starting on or after October 1, 1999 and indirect medical

education payments for discharges occurring on or after October 1, 1999.

Permits non-rural facilities that operate separately accredited rural training programs in underserved rural areas, or that operate accredited training programs with integrated rural tracks, to increase their resident limits for purposes of calculating direct graduate medical education payments effective for cost reporting periods starting on or after October 1, 1999 and for indirect medical education payments effective for discharges occurring on or after October 1, 1999.

S. 1788, as reported

Expands the number of residents reimbursed by Medicare to those appointed by the hospitals for periods ending on or before December 31, 1996; allows hospitals with only one residency program to increase their resident count by one per year, up to a maximum of three; allows hospitals to count residents associated with new training programs established on or after January 1, 1995 and before September 30, 1999; gives special consideration to facilities that are not located in a rural area but have established separately accredited rural training tracks.

Provides an exception to the count of residents to include those who participated in GME at a Veterans Affairs (VA) facility and were subsequently transferred on or after January 1, 1997 and before July 31, 1998 to the hospital because the program would lose accreditation if residents were trained at the VA facility. If the Secretary determines that the hospital is owed retroactive payments, these payments shall be made within 60 days of enactment.

Agreement

The agreement includes the House provision with amendment. It would allow hospitals to increase the number of primary care residents that it counts in the base year limit by up to 3 full-time equivalent residents if those individuals were on maternity, disability, or a similar approved leave of absence. The provision also permits non-rural facilities that operate separately accredited rural training programs in rural areas, or that operate accredited training programs with integrated rural tracks, to receive direct graduate medical education and indirect medical education payments for cost reporting periods beginning on or after April 1, 2000 and for discharges occurring on or after April 1, 2000. In addition, the agreement includes the Senate provision regarding an exception to the count of residents to include those who participated in GME at a Veterans Affairs (VA) facility and were subsequently transferred.

SEC. 408. ELIMINATION OF CERTAIN RESTRICTIONS WITH RESPECT TO HOSPITAL SWING BED PROGRAM

Current law

Medicare permits certain rural hospitals with fewer than 50 beds to use their inpatient facilities, as necessary, to furnish long-term care services. Rural hospitals with less than 100 beds can operate swing beds under certain circumstances.

H.R. 3075, as passed

Eliminates requirement that States review the need for swing beds through the Certificate of Need (CON) process. Constraints on length of stay are also eliminated.

S. 1788, as reported

No provision.

Agreement

The agreement includes the House provision.

SEC. 409. GRANT PROGRAM FOR RURAL HOSPITAL TRANSITION TO PROSPECTIVE PAYMENT

Current law

BBA 97 replaced and modified the existing Essential Access Community Hospital (EACH) program. The Secretary was authorized to award grants for certain limited purposes.

H.R. 3075, as passed

Permits rural hospitals with fewer than 50 beds to apply for grants not to exceed \$50,000 for meeting the costs of implementing data systems required to meet BBA 97 amendments. A hospital receiving a grant may use the funds for the purchase of computer software and hardware, for the education and training of hospital staff, and costs related to the implementation of PPS systems. Requires the Secretary to report to Congressional committees at least annually on the grant program including the number of grants, the nature of projects that are funded, the geographic distribution of the grant recipients, and other matters that are deemed appropriate. Requires the Secretary to submit a final report no later than 180 days after the completion of all projects funded by such grants.

S. 1788, as reported

No provision.

Agreement

The agreement includes the House provision.

SEC. 410. GAO STUDY ON GEOGRAPHIC RECLASSIFICATION

Current law

No provision.

H.R. 3075, as passed

Requires the GAO to submit a report to Congress no later than 18 months after enactment on the current laws and regulations for geographic reclassification of hospitals under Medicare. The purpose of the GAO study is to determine the need for geographic reclassification, whether reclassification is appropriate for the application of wage indices, and whether reclassification results in more accurate payments to all hospitals. The study shall evaluate: (1) the magnitude of the effect of geographic reclassification on rural

hospitals that do not reclassify; (2) whether the current thresholds used in geographic reclassification assign hospitals to appropriate labor markets; (3) the effect of eliminating geographic reclassification through the use of data on occupational mix; (4) the group reclassification process; (5) changes in the number of reclassifications and the compositions of the groups; (6) the effect of State-specific budget neutrality compared to national budget neutrality; and (7) whether there are sufficient controls over the intermediary evaluation of wage data reported by hospitals.

S. 1788, as reported

Requires the Secretary, in consultation with the Medicare Geographic Classification Review Board, to conduct a study to determine whether acute hospital PPS payment rates are an adequate proxy for the costs of inpatient hospital services and whether the standard for county-wide geographic reclassification needs to be updated or revised.

Agreement

The agreement includes the House provision. The parties to the agreement note that in recent years the geographic reclassification process and the increasing number of special designations for groups of hospitals have resulted in a system that is administratively cumbersome. In addition, the system, which relies on exceptions and waivers, lacks consistency and undermines the ability of hospitals to implement long-term planning. Most hospitals are required to reapply annually for geographic reclassification with no certainty that they will receive the desired wage index or standardized amount.

The parties to the agreement expect the GAO study to assess the background, rationale, and analytic justification for the current rural definitions and exceptions process. The parties to the agreement hope that this report will be an important tool in helping the Congress craft a more objective and equitable approach to Medicare payment for rural hospitals. This will only become more critical as the Congress considers extending geographic reclassification to other types of prospective payment systems. The parties to the agreement specifically ask the GAO to consider in its analysis whether the geographic reclassification process should be extended to other types of providers, particularly to skilled nursing facilities.

SUBTITLE B—OTHER RURAL PROVISIONS

SEC. 411. MEDPAC STUDY OF RURAL PROVIDERS

Current law

No provision.

H.R. 3075, as passed

Requires MedPAC to conduct a study of rural providers, evaluate the adequacy and appropriateness of the categories of special Medicare payments (and payment methodologies) for rural hospitals, and their impact on beneficiary access and quality of health services. MedPAC shall submit its recommendations to Congress no later than 18 months after the date of enactment.

S. 1788, as reported

No provision.

Agreement

The agreement includes the House provision.

SEC. 412. EXPANSION OF ACCESS TO PARAMEDIC INTERCEPT SERVICES
IN RURAL AREAS

Current law

BBA 97 authorized coverage of advanced life support (ALS) services provided by a paramedic intercept service provider in a rural area when medically necessary for the individual being transported and provided under contract with one or more qualified volunteer ambulance services. The volunteer ambulance service is certified, provides only basic life support services, and is prohibited by State law from billing for any services. The entity supplying the advanced life support services is Medicare-certified and bills all recipients who receive ALS services, regardless of whether the recipients are Medicare-eligible.

H.R. 3075, as passed

Expands the areas to be treated as rural areas to include those designated as rural areas by any State law or regulation or those located in a rural census tract of a Metropolitan Statistical Area (as determined under the Goldsmith Modification, published in the Federal Register on February 27, 1992).

S. 1788, as reported

No provision.

Agreement

The agreement includes the House provision with modification to clarify that the most recent Goldsmith Modification should be used. The parties to the agreement believe that a State-determined designation of a rural area or an area located in a rural census tract of a Metropolitan Statistical Area should be acceptable for purposes of expanding access to paramedic intercept services.

SEC. 413. PROMOTING PROMPT IMPLEMENTATION OF INFORMATICS,
TELEMEDICINE, AND EDUCATION DEMONSTRATION PROJECT

Current law

BBA 97 authorized Medicare payment for professional consultations via telecommunications systems to beneficiaries residing in rural areas designated as health professional shortage areas (HPSA). HPSAs encompass either a full county or part of a county. BBA 97 also authorized a telehealth demonstration project for beneficiaries with diabetes mellitus in medically underserved rural or inner-city areas.

H.R. 3075, as passed

Requires the Secretary to award without additional review the diabetes mellitus demonstration project no later than 3 months

after enactment to the best technical proposal as of the bill's enactment date. Clarifies that qualified medically underserved rural or urban inner-city areas are federally-designated medically underserved areas or HPSAs at the time of enrollment in the project. Changes the project's data requirements. Limits beneficiary cost sharing.

S. 1788, as reported

No provision.

Agreement

The agreement includes the House provision.

TITLE V—PROVISIONS RELATING TO PART C
(MEDICARE+CHOICE PROGRAM) AND OTHER MEDICARE
MANAGED CARE PROVISIONS

SUBTITLE A—PROVISIONS TO ACCOMMODATE AND PROTECT
MEDICARE BENEFICIARIES

SEC. 501. CHANGES IN MEDICARE+CHOICE ENROLLMENT RULES

Current law

Beneficiaries enrolled in a Medicare+Choice (M+C) plan that terminates its contract with HCFA are guaranteed access to certain Medicare supplemental insurance policies (i.e. "Medigap" policies) offered in their area of residence if they sign up within 63 days of their Medicare+Choice plan termination.

In addition, beneficiaries, at their election, may enroll or disenroll from a M+C plan offered in their area any time during the year. Beginning in 2002, however, beneficiaries generally will be able to enroll in a M+C plan or change plans only during an annual, month-long, open enrollment period.

If a M+C plan withdrawals from a M+C payment area (typically a county), enrollees who reside in that county may only elect to retain their enrollment in the plan (and travel to neighboring counties to obtain covered services) in certain circumstances.

H.R. 3075, as passed

Specifies that an individual who is enrolled in a M+C plan that announces its intention to withdrawal from the M+C program may elect to exercise their guaranteed issue rights with (respect to obtaining a Medicare supplemental insurance policy) within 63 days of being notified of the plan's intention to terminate.

Permits continuous open enrollment in M+C plans after 2002 for institutionalized beneficiaries. Permits a plan leaving a M+C payment area (typically a county) to offer enrollees in that county the option of continuing enrollment in the plan, so long as they agree to obtain all basic services through plan providers located in other counties.

S. 1788, as reported

Similar provision regarding Medigap special election period.

Agreement

The agreement includes the House provision with a modification clarifying that the continuous open enrollment provisions for the institutionalized only permit enrollment in a M+C plan or changing from one M+C plan to another.

SEC. 502. CHANGE IN EFFECTIVE DATE OF ELECTIONS AND CHANGES
OF ELECTIONS OF MEDICARE+CHOICE PLANS

Current law

Medicare+Choice plan enrollees may elect to disenroll from their M+C plan at any time, and either switch to another M+C plan offered in their area or elect to obtain benefits through the fee-for-service Medicare program. Beginning in 2002, generally enrollees will be only be able to change coverage options once a year.

H.R. 3075, as passed

No provision.

S. 1788, as reported

Specifies that any request to enroll in or disenroll from a M+C plan made after the 10th of the month will not be effective until the first day of the second calendar month thereafter.

Agreement

The agreement includes the Senate provision.

SEC. 503. 2-YEAR EXTENSION OF MEDICARE COST CONTRACTS

Current law

Prior to enactment of BBA 97, beneficiaries were able to enroll in organizations with cost contracts. BBA 97 specified that cost-based contracts could not be renewed after December 31, 2002.

H.R. 3075, as passed

Extends the cost contract program through 2004.

S. 1788, as reported

Similar provision. However, after December 31, 2003, no new persons could enroll in a plan.

Agreement

The agreement includes the House provision.

SUBTITLE B—PROVISIONS TO FACILITATE IMPLEMENTATION OF THE
MEDICARE+CHOICE PROGRAM

SEC. 511. PHASE-IN OF NEW RISK ADJUSTMENT METHODOLOGY;
STUDIES AND REPORTS ON RISK ADJUSTMENT

Current law

Currently, M+C payments to plans are adjusted using only demographic factors, including age, gender, coverage by Medicaid, institutionalized status, and working status. The law requires imple-

mentation of a risk adjustment payment methodology based on health status, effective January 1, 2000.

The Secretary has proposed use of the principal inpatient diagnostic cost groups (PIP-DCG) method of risk adjustment, which is based on diagnoses of beneficiaries with an inpatient hospitalization as well as demographic characteristics.

The Secretary has proposed a phase-in of the new risk adjustment methodology by blending the current demographic method with the new PIP-DCG method. The proposed phase-in schedule would be:

Year	Demographics	PIP-DCG
2000	90 percent	10 percent
2001	70 percent	30 percent
2002	45 percent	55 percent
2003	20 percent	80 percent

A new comprehensive risk adjustment method based on inpatient and other settings would be used beginning in 2004.

H.R. 3075, as passed

The phase-in schedule is modified as follows:

Year	Demographic	Health status
2000	90 percent	10 percent
2001	90 percent	10 percent
2002	80 percent	20 percent
2003	70 percent	30 percent

Beginning in 2004, M+C rates would be adjusted by a risk adjuster based 100% on data from multiple settings.

S. 1788, as reported

The Senate phase-in would be identical to the House provision from 2000 through 2003.

In 2004, the risk adjuster would be 45% demographic/55% health status based, with 67% of health status rate based on data from inpatient settings and 33% based on data from inpatient and other settings. In 2005, it would be 20% demographic/80% health status based, with 33% of health status rate based on data from inpatient settings and 67% on data from inpatient and other settings. Beginning in 2006, 100% of the risk adjuster would be based health status data, and be completely determined using data from inpatient and other settings.

Exempts frail elderly beneficiaries enrolled in EverCare demonstration projects for the frail elderly from the new risk adjustment system in 2000.

Requires Secretary to: (a) conduct a study on the effects, costs, and feasibility of requiring fee-for-service providers and entities to comply with quality standards and related reporting requirements which are comparable to those required for M+C plans; and (b) study and report to Congress regarding data submissions used to establish risk adjustment methodology under M+C.

Agreement

The agreement includes the identical House/Senate provisions for 2000–2002, only. The parties to the agreement note that in 1997, when Congress required the Secretary to develop a risk adjuster for Medicare+Choice plans, it was concerned that those plans that treated the most severely ill enrollees were not adequately paid. The Congress envisioned a risk adjuster that would be more clinically-based than the old method of adjusting payments. The Congress did not instruct HCFA to implement the provision in a manner that would reduce aggregate Medicare+Choice payments. In addition, the Congressional Budget Office did not estimate that the provision would reduce aggregate Medicare+Choice payments. Consequently, the parties to the agreement urge the Secretary to revise the regulations implementing the risk adjuster so as to provide for more accurate payments, without reducing overall Medicare+Choice payments.

The parties to the agreement also note that as currently designed, the proposed Medicare+Choice risk adjuster fails to account for several unique aspects of Medicare's frail elderly population. The parties to the agreement note that the Secretary recently acknowledged her authority to address this problem by waiving application of the risk adjuster within the frail elderly demonstration project commonly known as EverCare. The parties to the agreement note that the Secretary will begin implementation of a multi-setting risk adjuster for all enrollees in 2004, and that such a risk adjuster should be designed to better predict the unique costs associated with caring for frail elderly beneficiaries. Consequently, the parties to the agreement encourage the Secretary to consider her ability to waive the application of the new risk adjuster to such beneficiaries until that time.

The parties to the agreement also believe Medicare enrollees with end-stage renal disease (ESRD) could benefit by being offered the opportunity to enroll in Medicare+Choice plans. However, the parties to the agreement understand that the current risk adjuster may not adequately reflect the varying costs of these patients and requests further information from the Secretary so that it might address this issue in the future. The parties to the agreement also encourage the Secretary to develop proposed quality of care requirements for Medicare beneficiaries with ESRD in this report.

The parties agreed to the Senate proposed study requiring the Secretary to: (a) conduct a study on the effects, costs, and feasibility of requiring fee-for-service providers and entities to comply with quality standards and related reporting requirements which are comparable to those required for M+C plans; and (b) study and report to Congress regarding data submission used to establish risk adjustment methodology under M+C.

SEC. 512. ENCOURAGING OFFERING OF MEDICARE+CHOICE PLANS IN
AREAS WITHOUT PLANS

Current law

A M+C plan receives the M+C payment rate applicable to the payment area (typically a county) in which the enrollee resides, adjusted for risk. This rate is based on a formula which assigns to

the county the highest of three different rates—a floor, a minimum update or a blended rate.

H.R. 3075, as passed

Would establish added bonus payments to encourage new M+C plans to enter counties that would otherwise not have a plan participating. The first plan to enter a previously unserved county would receive a 5% added payment during their first year and a 3% added payment during their second year.

S. 1788, as reported

No provision.

Agreement

The agreement includes the House provision. In some counties, beneficiaries have access to only one Medicare option: the fee-for-service Medicare program. The parties to the agreement expect that this temporary enhancement of payments will encourage new plans to enter areas without Medicare+Choice options.

SEC. 513. MODIFICATION OF 5-YEAR RE-ENTRY RULE FOR CONTRACT TERMINATIONS

Current law

The Secretary cannot enter into a M+C contract with a M+C organization, if within the preceding 5 years, that organization had a M+C contract which it did not renew. This prohibition may be waived under special circumstances.

H.R. 3075, as passed

Allows, under certain circumstances, a plan to re-enter a county if a legislative or regulatory change that would increase M+C payments in the area occurred within 6 months of the plan's notification to the Secretary of its intent to terminate its M+C contract. Permits re-entry only if, at the time it notified the Secretary, there is no more than one other M+C plan offered in the area.

S. 1788, as reported

Reduces the exclusion period from 5 years to 2 years.

Agreement

The agreement includes the House and Senate provisions with modifications. The parties recognize that some plans left the Medicare+Choice program because of increased administrative requirements and payment growth that was lower than expected. Since this bill would make payment changes affecting Medicare+Choice plans, this provision would provide an opportunity for the plans to return to a county, and therefore, increase options for beneficiaries.

The general exclusion period is reduced from 5 to 2 years, with specific exceptions permitted where there is a change in payment policy. Further, nothing is to be construed as affecting the authority of the Secretary to provide additional exceptions, including those specified in Operational Policy Letter Number 103.

SEC. 514. CONTINUED COMPUTATION AND PUBLICATION OF MEDICARE ORIGINAL FEE-FOR-SERVICE EXPENDITURES ON A COUNTY-SPECIFIC BASIS

Current law

The Secretary is required to announce each year the M+C payment rates for each payment area, as well as risk and other factors that are used in adjusting those payments. The Secretary is not currently required to publish adjusted annual per capita cost (AAPCC) data.

H.R. 3075, as passed

Requires the Secretary to continue to publish estimates of adjusted annual per capita cost data (AAPCCs) for each M+C payment area, which represent county-specific per capita fee-for-service expenditure information.

S. 1788, as reported

Requires Secretary to provide county-level data on fee-for-service spending.

Agreement

The agreement includes the Senate provision with modifications to require the Secretary to publish for the original Medicare fee-for-service program under Parts A and B for each M+C payment area: 1) total expenditures per capita separately for Parts A and B; 2) expenditures as in "1" reduced by best estimates of expenditures (such as graduate medical education and disproportionate share hospital payments) not related to payment of claims; 3) average risk factors based on diagnoses reported for medicare inpatient services; and 4) average risk factors based on diagnoses reported for inpatient and other sites of service. The Secretary is required to provide information for 1998 and 1999 in the 2001 report.

SEC. 515. FLEXIBILITY TO TAILOR BENEFITS UNDER MEDICARE+CHOICE PLANS

Current law

In general, M+C managed care plans offer benefits in addition to those provided under Medicare's benefit package, and may, subject to regulation, charge for these additional benefits. Under current law, the monthly basic and supplemental premiums and benefits cannot vary among individuals enrolled in the plan.

H.R. 3075, as passed

Permits a M+C plan to waive part or all of a premium if the M+C capitation rates the plan receives vary, so long as premiums do not vary within payment areas.

S. 1788, as reported

Allows plans to vary premiums, benefits, and cost-sharing across individuals enrolled in the plan so long as these are uniform within a separate segment of a service area. A segment would comprise one or more counties within the plan's service area.

Agreement

The agreement includes the Senate provision. The parties to the agreement are also concerned about allegations that some Medicare beneficiaries enrolled in the Medicare+Choice program are being denied certain Medicare-covered benefits. It was the clear intent of Congress in passing the Medicare+Choice program in BBA 97 that all beneficiaries enrolled in Medicare+Choice plans should be guaranteed access to all benefits covered by the traditional Medicare fee-for-service program. Therefore, the parties to the agreement would like to clarify that, pursuant to this fundamental requirement of the Balanced Budget Act of 1997, all Medicare beneficiaries enrolled in a Medicare+Choice plan under Part C are entitled to treatment by means of manual manipulation of the spine to correct a subluxation.

SEC. 516. DELAY IN DEADLINE FOR SUBMISSION OF ADJUSTED
COMMUNITY RATES

Current law

BBA 97 required M+C plans to submit adjusted community rate (ACR) proposals by May 1 of the previous calendar year. The Secretary is required to make available, during the open enrollment period, comparative information on plans.

H.R. 3075, as passed

Changes the date for ACR submission from May 1st to July 1st. Specifies that, the Secretary will provide information to the extent it is available.

S. 1788, as reported

Similar provision. Also specifies that if a M+C organization intends to terminate a contract, it must provide notice to the Secretary 6 months in advance.

Agreement

The agreement includes the Senate provision with an amendment which retains the current law provisions relating to the information the Secretary is required to make available during the open enrollment period, and which reduces the required period of advance notification from 6 months to 4 months.

Despite this change, the parties to the agreement note that HCFA will know by mid-August of each year what the final plan premiums and benefits will be for each Medicare+Choice plan for the following calendar year. To help employers who sponsor retiree health benefits coordinate their own annual enrollment procedures, the parties to the agreement urge the Secretary to make this information available to such employers as soon as possible.

SEC. 517. REDUCTION IN ADJUSTMENT IN NATIONAL PER CAPITA
MEDICARE+CHOICE GROWTH PERCENTAGE FOR 2002

Current law

The M+C payment rate is based on a formula which gives the payment area (generally a county) the highest of three different

rates—a floor, a minimum update, or a blended rate. The blended capitation rates are subject to a budget neutrality provision. Each year, the Secretary projects national per capita growth rates in expenditures in fee-for-service Medicare. These projected rates are reduced by 0.8 percentage points for 1998, and by 0.5 percentage points annually from 1999 through 2002 to determine the national M+C growth percentage for that year. Growth rates are used to update the floor and blend payments in the M+C payment rate formula. Because the blend payments are subject to budget neutrality, they may not always be fully funded; thus annual increases in payment rates to these counties may be limited.

H.R. 3075, as passed

The provision would increase the national per capita M+C growth rate by 0.2 percentage points in 2002, by replacing the adjustment of -0.5 percentage points with -0.3 percentage points. The adjustment would remain at 0 for a year after 2002.

S. 1788, as reported

No provision.

Agreement

The agreement includes the House provision. The parties to the agreement expect that the increase in payments that will result from this provision will help to increase the number of counties paid a blended capitation payment rate.

SEC. 518. DEEMING OF MEDICARE+CHOICE ORGANIZATION TO MEET REQUIREMENTS

Current law

A M+C organization is required to meet certain standards. It is deemed to meet standards relating to quality assurance and confidentiality of records if it is accredited by a private organization that applies standards that are no less strict than M+C standards.

H.R. 3075, as passed

Requires the Secretary, within 210 days of receiving an application from a private accrediting organization, to determine whether such organization's accreditation procedures meet the requirements. If it does, the Secretary would be required to deem a M+C organization accredited by such accrediting entity as meeting the requirements relating to quality assurance and confidentiality of records.

S. 1788, as reported

No provision.

Agreement

The agreement includes the House provision with amendments. The Secretary would be required to recognize accreditation with respect to M+C requirements relating to anti-discrimination, access to services, information on advance directives, and provider participation. In approving accrediting bodies for M+C program

purposes, the Secretary would be required to use the same basic organizational criteria that are used to approve accrediting bodies who survey hospitals under the fee-for-service program. The agreement also clarifies that the accreditation bodies may choose to deem M+C plans' compliance with one or more of the specified requirements.

This provision would clarify the deeming process so that it is consistent with deeming in the Medicare fee-for-service program. The provision puts in place incentives for M+C plans to seek higher standards achievable through accreditation and would reduce redundancy in the oversight process. This will help ensure that improvements in the quality of care are made available through M+C plans.

Although accredited plans will be deemed to meet HCFA's standards, the parties to the agreement note that HCFA will continue to have broad authority to establish the actual standards that the accrediting bodies enforce. Moreover, HCFA continues to have broad authority to conduct independent oversight activities with respect to plans and to respond to any concerns beneficiaries may raise about a M+C plan. HCFA will also be able to approve or disapprove of the deeming process submitted by private accreditation bodies and maintain its authority to review periodically an approved accreditation body's standards and performance in the field. Nevertheless, the parties to the agreement emphasize that the intent of Congress in 1997 was clear that private accreditation procedures should be utilized in the Medicare+Choice program. The parties to the agreement's intent in this regard has not changed. Consequently, the parties to the agreement expect that the Secretary shall recognize and utilize qualified accreditation entities that have the ability to certify and enforce any of the requirements specified in the provision.

SEC. 519. TIMING OF MEDICARE+CHOICE HEALTH INFORMATION FAIRS

Current law

There is an annual coordinated period in November of each year during which beneficiaries may sign up for or change their M+C plan. Beginning in 2002, this enrollment period generally will be the only time during the calendar year that such an election or change of election may be made. A nationally coordinated information and publicity campaign is held in November each year to provide beneficiaries with information about their plan options.

H.R. 3075, as passed

No provision.

S. 1788, as reported

Permits HCFA to conduct the annual information campaign during the fall season.

Agreement

The agreement includes the Senate provision. The parties intend to give HCFA the flexibility to begin the annual information campaign earlier. For the purpose of this provision the parties in-

tent for the Fall season to mean the months of September, October or November.

SEC. 520. QUALITY ASSURANCE REQUIREMENTS FOR PREFERRED PROVIDER ORGANIZATION PLANS

Current law

M+C program requirements mandate that participating plans maintain ongoing quality assurance programs. Quality assurance program requirements are more extensive for coordinated care plans (which rely upon networks of providers with whom they contract to provide coordinated services) than they are from MSA and fee-for-service M+C plans. In implementing these quality assurance requirements, the Secretary has required that participating plans meet Quality Improvement System for Managed Care (QISMC) standards and guidelines.

H.R. 3075, as passed

No provision.

S. 1788, as reported

Exempts M+C preferred provider organizations from the QISMC requirements unless the Secretary establishes similar requirements for Medicare fee-for-service providers.

Agreement

The agreement includes the Senate provision with modifications. The provision would clarify that preferred provider organizations (PPOs) only be required to meet the quality assurance requirements currently applied to private fee-for-service and MSA plans. The provision further requires MedPAC to conduct a study on the appropriate quality assurance standards that should apply to each type of M+C plan (including each type of coordinated care plan) and to the original Medicare program. A report on this study is due within 2 years of enactment.

The changes incorporated in this provision are in response to the lack of preferred provider organizations participating in the M+C program, especially in rural counties. The parties to the agreement have taken these steps to help ensure that PPOs can reasonably comply with the quality assurance requirements under Part C, and strongly encourage PPO plans to begin offering coverage in rural counties.

SEC. 521. CLARIFICATION OF NONAPPLICABILITY OF CERTAIN PROVISIONS OF DISCHARGE PLANNING PROCESS TO MEDICARE+CHOICE PLANS

Current law

BBA 97 modified hospital discharge planning process to assure that patients are not directed to a single post-acute facility.

H.R. 3075, as passed

Provides an exemption for M+C enrollees.

S. 1788, as reported

No provision.

Agreement

The agreement includes the House provision with a modification specifying that a M+C discharge planning evaluation is not required to include information on the availability of home health services provided by individuals or entities that do not have a contract with the M+C organization. Further, the plan may specify or limit the provider or providers of post-hospital home health services or other post-hospital services.

SEC. 522. USER FEE FOR MEDICARE+CHOICE ORGANIZATIONS BASED ON
NUMBER OF ENROLLED BENEFICIARIES

Current law

Requires the Secretary to collect a user fee from each M+C organization for use in carrying out Medicare+Choice education and enrollment activities. The activities are directed at all Medicare beneficiaries, including the 84% still enrolled in the original medicare fee-for-service program under Parts A and B. The user fee is equal to the organization's pro rata share of the aggregate amount of fees authorized to be collected from M+C organizations. The Secretary is authorized to collect \$100 million in user fees each year.

H.R. 3075, as passed

No provision.

S. 1788, as reported

Specifies that the aggregate amount of fees collected from M+C organizations would be limited to a pro rata share of the total budget for the education and enrollment related activities. This pro rata share is to be based on the number of beneficiaries in M+C plans as compared to the total number of Medicare beneficiaries. Limits total amount available in a fiscal year to the Secretary to carry out functions to \$100 million. Authorizes the Secretary to draw upon the trust funds to finance that portion of authorized activities that are not financed by user fees imposed on M+C plans.

Agreement

The agreement includes the Senate provision with modifications. The program is authorized for \$100 million per year. A Medicare+Choice plan's share of the total is the same proportion as their share of the total Medicare population. For example, if a particular Medicare+Choice plans enrolled 2.5 percent of the total Medicare population, that plan would be responsible for 2.5 percent of the costs associated with the information campaign, up to the \$100,000,000 authorized.

SEC. 523. CLARIFICATION REGARDING THE ABILITY OF A RELIGIOUS
FRATERNAL BENEFIT SOCIETY TO OPERATE ANY MEDICARE+CHOICE
PLAN

Current law

Religious fraternal benefit societies may restrict enrollment in their M+C plans to their members. This allowable restriction applies only to coordinated care plans.

H.R. 3075, as passed

Extends the authority to all M+C plans.

S. 1788, as reported

Extends the authority to all M+C plans except MSAs.

Agreement

The agreement includes the House provision.

SEC. 524. RULES REGARDING PHYSICIAN REFERRALS FOR
MEDICARE+CHOICE PROGRAM

Current law

Currently it is unlawful for physicians who bill Medicare to refer patients to certain entities if the physician has an ownership interest in or a compensation arrangement with the entity to which the patient is referred. There is an exception for referrals to certain specified health plans that agree to provide care on a prepaid basis.

H.R. 3075, as passed

No provision.

S. 1788, as reported

Specifies that the exception applies to M+C coordinated care plans.

Agreement

The agreement includes the Senate provision.

SUBTITLE C—DEMONSTRATION PROJECTS AND SPECIAL MEDICARE
POPULATIONS

SEC. 531. EXTENSION OF SOCIAL HEALTH MAINTENANCE ORGANIZATION
(SHMO) DEMONSTRATION PROJECT AUTHORITY

Current law

Under waivers from the Secretary of HHS, SHMOs provide integrated health and long-term care services on a prepaid capitation basis. Medicare demonstration project waivers are to expire on December 31, 2000. The Secretary is required to submit to Congress by January 1, 1999, a report with a plan for integration and transition of SHMOs into an option under Medicare+Choice (this report is not yet completed) and a final report on the demonstration projects by March 31, 2001. Permits enrollment limits per site to be no fewer than 36,000.

H.R. 3075, as passed

Extends the Medicare demonstration project waivers until 18 months after the Secretary submits an integration and transition plan report to Congress. Within 6 months after the Secretary's final report (due March 31, 2001), requires MedPAC to submit a report to Congress with recommendations regarding the demonstration project. Increases the aggregate limit on participants at all sites to not less than 324,000.

S. 1788, as reported

Extends Medicare demonstration project waivers until 1 year after the Secretary submits an integration and transition plan report to Congress. Requires the Secretary to submit a final report on the demonstration projects to Congress 1 year after the integration and transition plan report.

Agreement

The agreement includes the House provision.

SEC. 532. EXTENSION OF MEDICARE COMMUNITY NURSING
ORGANIZATION DEMONSTRATION PROJECT

Current law

The community nursing organization demonstration project began on January 1, 1994 to test in four sites a system of capitated payments for specified community nursing services covered by Medicare. Experimental and control groups were followed for health care utilization and costs. The experiment ended at the end of 1997. BBA 97 extended the availability of services through 1999. A final report is in progress.

H.R. 3075, as passed

Extends the demonstration project for 2 years; requires the Secretary to submit a report to Congress on the results of the demonstration project no later than July 1, 2001.

S. 1788, as reported

No provision.

Agreement

The agreement includes the House provision with an amendment requiring the Secretary to provide for such reductions in payments under the project, in either year, which are necessary to ensure that federal expenditures under the project do not exceed those which would have been made in the absence of the project extension.

SEC. 533. MEDICARE+CHOICE COMPETITIVE BIDDING DEMONSTRATION
PROJECT

Current law

BBA 97 requires the Secretary to establish a demonstration project under which payments to Medicare+Choice organizations are determined by a competitive pricing methodology, in accord-

ance with the recommendations of the Competitive Pricing Advisory Committee (CPAC), the composition and responsibilities of which were also established under BBA 97.

H.R. 3075, as passed

Delays implementation of the project until January 1, 2002 or, if later, 6 months after CPAC submits reports on (a) incorporating original fee-for-service Medicare into the demonstration; (b) quality activities required by participating plans; (c) the viability of expanding the demonstration project to a rural site; and (d) the nature of the benefit structure required from plans that participate in the demonstration. The Secretary is also required, subject to recommendations by CPAC, to allow plans that make bids below the established government contribution rate, to offer beneficiaries rebates on their Part B premiums.

This provision is designed to give both CPAC and Congress more time to resolve some of the initial concerns that have been raised about the demonstration project, as it is currently designed. By delaying the start date an additional year, and by tasking CPAC to report back on the identified areas of concern, the parties to the agreement believe appropriate modifications to the project can be implemented before its inauguration so as to improve its chances of success. Similarly, the additional time provided by the delay will afford the Secretary, CPAC and the area advisory committees additional time to work with the communities designated under the project to resolve outstanding issues of concern.

S. 1788, as reported

No provision.

Agreement

The agreement includes the House provision.

SEC. 534. EXTENSION OF MEDICARE MUNICIPAL HEALTH SERVICES
DEMONSTRATION PROJECTS (MHSP)

Current law

The MHSP is a multi-site demonstration to improve access to primary care services. BBA 97 extended the project through Dec. 2000 to provide a transition to mainstream Medicare.

H.R. 3075, as passed

Extends the project through December 31, 2001.

S. 1788, as reported

No provision.

Agreement

The agreement includes the House provision, with an amendment to extend the project through December 31, 2002.

SEC. 535. MEDICARE COORDINATED CARE DEMONSTRATION PROJECT

Current law

BBA 97 provided for a coordinated care demonstration project in a cancer hospital. Funds would only be available as provided in any law making appropriations for the District of Columbia.

H.R. 3075, as passed

Specifies that the funding is to be made from Medicare trust funds in such amounts as are necessary to cover the costs of the project.

S. 1788, as reported

No provision.

Agreement

The agreement includes the House provision.

The parties to the agreement are concerned that the Secretary has not acted upon a previously expressed Congressional mandate contained in the Balanced Budget Act of 1997 with respect to best practices in the area of coordinated care. Specifically, the mandate contained in Subchapter D, Section 4016 of the law required the Secretary no later than two years after enactment to conduct nine demonstration projects, that among other things, would evaluate best practices in the management of chronic illness. The parties to the agreement are aware that a solicitation for such proposals in the areas of, but not limited to, congestive heart failure and diabetes mellitus contained in the Health Care Financing Administration Federal Register Notice of June 11, 1998, Vol. 63, No. 112 has not yet been acted upon by the Department, despite clear Congressional interest to evaluate and understand the potential benefits of these programs for better delivery of care to Medicare beneficiaries.

Therefore, the parties direct the Secretary to implement no later than 90 days after enactment of this law demonstrations enunciated in BBA 97, including a demonstration focused on the best practices available in chronic illness. Specifically, the parties also direct the Secretary no later than 90 days after enactment of this law to implement the case management demonstration focused on congestive heart failure and diabetes mellitus contained in the HCFA Federal Register solicitation of June 11, 1998.

SEC. 536. MEDIGAP PROTECTIONS FOR PACE PROGRAM ENROLLEES

Current law

The law guarantees issuance of specified Medigap policies to certain persons in terminating plans and, within their first twelve months of Medicare eligibility, to persons who enter directly into a M+C plan when becoming eligible for Medicare.

H.R. 3075, as passed

No provision.

S. 1788, as reported

Extends protections to PACE enrollees in similar circumstances.

Agreement

The agreement includes the Senate provision with a modification to limit application of the provision to persons 65 years of age and older. The agreement does not include an extension of the disenrollment window for involuntarily terminated enrollees.

SUBTITLE D—MEDICARE+CHOICE NURSING AND ALLIED HEALTH
PROFESSIONAL EDUCATION PAYMENTS

SEC. 541. MEDICARE+CHOICE NURSING AND ALLIED HEALTH
PROFESSIONAL EDUCATION PAYMENTS

Current law

Medicare's calculation of managed care rates incorporates the additional payments made to teaching hospitals that operate residency training programs. BBA 97 reduced these rates by carving out the costs attributable to graduate medical education payments for physicians. The payment reduction is phased in over 5 years. Teaching hospitals will receive additional payments depending upon the number of Medicare managed care beneficiaries they serve.

H.R. 3075, as passed

Authorizes hospitals that operate approved nursing and allied health professional training programs to receive additional payments to reflect utilization of Medicare+Choice enrollees. The relationship of allied health direct graduate medical education (DGME) payments for Medicare+Choice enrollees to physician DGME payments for Medicare+Choice enrollees shall be in the same proportion as total allied health DGME payments to total DGME payments. The allied health payments to different hospitals are proportional to the direct costs of each hospital for such programs. In no case can this payment exceed \$60 million. Physician DGME payment for Medicare+Choice utilization will be adjusted by the amount of additional payments that will be made for allied health professions under this provision.

S. 1788, as reported

No provision.

Agreement

The agreement includes the House provision with technical modifications. Hospitals that operate approved nursing and allied health professional training programs and receive Medicare reasonable cost reimbursement for these programs would receive additional payments to reflect utilization of Medicare+Choice enrollees for portions of the cost reporting periods occurring in a year beginning in 2000. As specified by the Secretary, the payment amount would be calculated based on the proportion of physician direct graduate medical education (DGME) payments for

Medicare+Choice enrollees to total physician DGME payments multiplied by the Secretary's estimate of total reasonable cost reimbursement for approved nursing and allied health professional training programs. In no case could this payment exceed \$60 million. Hospitals would receive these allied health payments in proportion to amount of Medicare reasonable cost reimbursement for nursing and allied health programs received in the cost reporting period in the second preceding fiscal year to the total paid to all hospitals for such cost reporting period. Physician DGME payment for Medicare+Choice utilization would be reduced by the amount of additional payments that would be made for nursing and allied health professions under this provision.

SUBTITLE E—STUDIES AND REPORTS

SEC. 551. REPORT ON ACCOUNTING FOR VA AND DOD EXPENDITURES FOR MEDICARE BENEFICIARIES

Current law

No provision.

H.R. 3075, as passed

Requires the Secretaries of HHS, DOD, and VA no later than a year from enactment to submit to Congress a report on the use of health services furnished by DOD and VA to Medicare beneficiaries including Medicare+Choice enrollees and Medicare fee-for-service beneficiaries.

S. 1788, as reported

No provision.

Agreement

The agreement includes the House provision with an amendment. The amendment requires the study to be conducted no later than April 1, 2001.

On a similar matter, the parties to the agreement are also concerned about the ability of Medicare beneficiaries who are also entitled to Veterans Administration health care services to obtain the full benefit of these separate entitlements. This issue is of particular concern in areas where VA health facilities are inadequate to fully meet the needs of these veteran beneficiaries. While beneficiaries in these areas are often able to readily obtain Medicare covered services from Medicare providers, the lack of Veterans Health Administration facilities often prevents them from obtaining more generous VA benefits for their health care needs. As a result, these beneficiaries often have to pay more in out-of-pocket health spending than similarly entitled veterans who reside near VA facilities.

To address this problem, the parties to the agreement encourage the Secretary to consult with the Secretary of the Department of Veterans Affairs and consider ways in which the two Secretaries could institute procedures that would allow for the greater coordination of benefits—and consequently greater access to needed care—for this special population.

SEC. 552. MEDICARE PAYMENT ADVISORY COMMISSION (MEDPAC)
STUDIES AND REPORTS

Current law

No provision.

H.R. 3075, as passed

Requires MedPAC to submit to Congress a report on specific legislative changes that would make MSA plans a viable option under the M+C program.

S. 1788, as reported

Requires MedPAC to conduct a study that evaluates the methodology used by the Secretary in developing risk adjustment factors for M+C capitation rates. Requires MedPAC to conduct a study on the development of a payment methodology under M+C for frail elderly beneficiaries enrolled in specialized programs.

Agreement

The agreement includes the House and Senate provisions.

SEC. 553. GAO STUDIES, AUDITS, AND REPORTS

Current law

No provision.

H.R. 3075, as passed

No provision.

S. 1788, as reported

Requires the GAO to conduct a study of Medigap policies. Requires the GAO to conduct annual audits of the Secretary's expenditures for providing M+C information to beneficiaries.

Agreement

The agreement includes the Senate provision.

TITLE VI—MEDICAID

SEC. 601. INCREASE IN DSH ALLOTMENT FOR CERTAIN STATES AND THE
DISTRICT OF COLUMBIA

Current law

The federal share of Medicaid disproportionate share payments is capped at amounts specified for each state.

H.R. 3075, as passed

Increases the ceiling on the federal share of DSH payments for the District of Columbia, from \$23 million to \$32 million for each of fiscal years 2000 through 2002; for Minnesota, from \$16 million to \$33 million for each of fiscal years 1999 through 2002; for New Mexico, from \$5 million to \$9 million for each of fiscal years 1998 through 2002; and for Wyoming, from 0 to \$.1 million for each of fiscal years 1999 through 2002.

S. 1788, as reported

Same as House provision.

Agreement

The agreement follows the House bill and the Senate bill.

SEC. 602. REMOVAL OF FISCAL YEAR LIMITATION ON CERTAIN
TRANSITIONAL ADMINISTRATIVE COSTS ASSISTANCE

Current law

The Personal Responsibility and Work Opportunity Reconciliation Act of 1996 replaced the Aid to Families with Dependent Children (AFDC) program and established the Temporary Assistance for Needy Families (TANF) program. Under the old program, people who qualified for AFDC were automatically eligible for Medicaid. Welfare reform de-linked Medicaid and TANF eligibility. Concerned that state Medicaid programs would face large new administrative costs for conducting Medicaid eligibility determinations that would otherwise not have occurred, Congress established a fund of \$500 million to assist with the transitional costs of the new eligibility activities. The funds are available at an increased federal match for states that can demonstrate to the satisfaction of the Secretary that such additional administrative costs were attributable to welfare reform. The increased matching funds are available for the period beginning with fiscal year 1997 and ending with fiscal year 2000 and must relate to costs incurred during the first 12 quarters following the welfare reform effective date.

H.R. 3075, as passed

No provision.

S. 1788, as reported

Extends the availability of the transitional increased federal matching funds beyond fiscal year 2000 and allows costs for which the increased matching funds are claimed to relate to costs incurred for the calendar quarters beyond the first 12 following the effective date of welfare reform.

Agreement

The agreement includes the Senate provision.

SEC. 603. TWO-YEAR MORATORIUM ON PHASE-OUT OF PAYMENT FOR
FEDERALLY-QUALIFIED HEALTH CENTER SERVICES AND RURAL
HEALTH CLINIC SERVICES BASED ON REASONABLE COSTS

Current law

States pay FQHCs and RHCs a percentage of the facilities' reasonable costs for providing services. This percentage decreases for specified fiscal years—100% of costs for services furnished during FY1998 and FY1999; 95% for FY2000; 90% for FY2001; 85% for FY2002; and 70% for FY2003. For services furnished on or after October 1, 2003, no required payment percentage will apply. Two special payment rules are applicable during FY1998–FY2002. In the case of a contract between an FQHC or RHC and a managed

care organization (MCO), the MCO must pay the FQHC or RHC at least as much as it would pay any other provider for similar services. States are required to make supplemental payments to the FQHCs and RHCs, equal to the difference between the contracted amounts and the cost-based amounts.

H.R. 3075, as passed

Creates a new Medicaid prospective payment system for FQHCs and RHCs beginning with FY2000. For the base year (defined as FY2000 for existing entities and the initial year of FQHC or RHC qualification for new entities established after FY1999), per visit payments are equal to 100% of the reasonable costs during the previous year for existing entities and the base year for new entities, adjusted for any increase in the scope of services furnished. For each fiscal year thereafter, per visit payments are equal to amounts for the preceding fiscal year increased by the percentage increase in the Medicare Economic Index applicable to primary care services for that fiscal year, and adjusted for any increase in the scope of services furnished during that fiscal year. In managed care contracts, States must make supplemental payments equal to the difference between contracted amounts and the cost-based amounts. Alternative payment methods are permitted only when payments are at least equal to amounts otherwise provided.

S. 1788, as reported

Retains the phase-out of cost-based reimbursement under Medicaid for FQHCs and RHCs as delineated in current law, and adds a new grant program. Beginning in FY2001, transitional grants outside the Medicaid program may be awarded to qualifying states to pay for services allowable under Medicaid when provided by FQHC and RHC to individuals who are not eligible for Medicaid. These grants will be made only to states that are paying 100% of reasonable costs to FQHCs and RHCs under Medicaid with one exception—states that have elected to pay FQHCs and RHCs 95% of reasonable costs in FY2000 and which revert to paying 100% of reasonable costs for FY2001 through FY2003 may also qualify for this new grant. For each of fiscal years 2001 through 2003, grant amounts are based on the ratio of the number of low-income persons in a state to the total number of such persons in all states. Counts of low-income persons equal the average number of such persons estimated using the 3 most recent March supplements of the CPS before the beginning of the calendar year in which the fiscal year begins. Annual grant amounts for any state will be no less than \$400,000, and the Secretary will make pro rata adjustments as needed to achieve this requirement. There are no matching fund requirements for states. Also, each state awarded a grant will have 3 years in which to spend the funds allotted for a given fiscal year. States must distribute funds among all FQHCs and RHCs using uniform criteria based on factors such as size of caseload and treatment costs. Up to 15% of grant amounts per fiscal year may be used by states for administrative costs associated with this program. Total annual appropriations are \$25 million for each of fiscal years 2001 through 2003. The GAO will conduct an annual study (due on November 1 of each year for 2000 through 2003) to deter-

mine the impact of the phase-out of cost-based reimbursement for FQHCs and RHCs and will report related recommendations for legislation.

Agreement

The agreement imposes a two-year moratorium on the phase-down of the cost-based reimbursement system set forth in the Balanced Budget Act of 1997. This will freeze the phase-down at 95 percent for fiscal years 2001 and 2002, and then the phase-down will resume at 90 percent in 2003, 85 percent in 2004. Cost-based reimbursement will be repealed in 2005. The General Accounting Office (GAO) will conduct an analysis of the impact of reducing or modifying payments based on the reasonable cost standard for federally qualified health centers and rural health clinics and the populations they serve. The GAO shall report back to Congress within 12 months with their findings and recommendations. This study shall evaluate a sampling of different payment approaches.

SEC. 604. PARITY IN REIMBURSEMENT FOR CERTAIN UTILIZATION AND QUALITY CONTROL SERVICES; ELIMINATION OF DUPLICATIVE REQUIREMENTS FOR EXTERNAL QUALITY REVIEW OF MEDICAID MANAGED CARE ORGANIZATIONS

- a. Parity in Reimbursement for Certain Utilization and Quality Control Services

Current law

Current Medicaid law provides that States will receive 75% federal financial participation (FFP) when contracting with a Peer Review Organization (PRO) for medical and utilization reviews and for quality reviews. In addition, states can receive 75% FFP when they contract with a PRO-like entity but only for external quality reviews of Medicaid managed care. For all other reviews and entities, the standard 50% FFP applies.

A PRO is an entity that has a Medicare contract to perform medical and utilization reviews. A PRO-like entity is one that is certified by the Secretary as meeting the requirements of Section 1152 which defines standards for PROs under Medicare.

H.R. 3075, as passed

States will receive 75% FFP when PRO-like entities conduct medical and utilization reviews for fee-for-service Medicaid, and quality reviews for Medicaid managed care.

S. 1788, as reported

No provision.

Agreement

The agreement includes the House provision.

b. Elimination of Duplicative Requirements for External Quality Review of Medicaid Managed Care Organizations

Current law

Medicaid managed care organizations are required to obtain annual independent, external reviews using either a utilization and quality control peer review organization, a PRO defined under section 1152, or a private accreditation body. The results must be made available to the State and upon request to the Secretary, the Inspector General of HHS and the Comptroller General. This requirement is contained in three different sections of Medicaid law.

H.R. 3075, as passed

No provision.

S. 1788, as reported

Deletes the external review requirements of Section 1902(a)(30)(C) and related parts of Sections 1902(d), 1903(a)(3)(C)(i) and 1903(m)(6)(B). Also requires the Secretary of HHS to certify to Congress that the external review requirement in Section 1932(c)(2) is fully implemented.

Agreement

The agreement includes the Senate provision.

SEC. 605. INAPPLICABILITY OF ENHANCED MATCH UNDER THE STATE CHILDREN'S HEALTH INSURANCE PROGRAM TO MEDICAID DSH PAYMENTS

Current law

States have a great deal of flexibility in determining the formula used to calculate DSH payments to individual hospitals within minimum and maximum federal criteria. Those payments are matched by the federal government at the federal medical assistance percentage (FMAP), the same percentage that the federal government matches most other Medicaid payments for benefits. On the other hand, Medicaid payments for children who are eligible for benefits on the basis of being a targeted low-income child under Title XXI are matched at an enhanced federal matching percentage which is considerably higher than the basic Medicaid FMAP.

H.R. 3075, as passed

No provision.

S. 1788, as reported

Clarifies that Medicaid DSH payments are matched at the FMAP and not at the enhanced federal matching percentage authorized under Title XXI.

Agreement

The agreement includes the Senate provision.

SEC. 606. OPTIONAL DEFERMENT OF THE EFFECTIVE DATE FOR
OUTPATIENT DRUG AGREEMENTS

Current law

Medicaid law requires that rebate agreements between the Secretary (or, if authorized by the Secretary, with the States) and drug manufacturers that were not in effect before March 1, 1991 become effective the first day of the calendar quarter that begins more than 60 days after the date the agreement is entered into.

H.R. 3075, as passed

No provision.

S. 1788, as reported

Allows rebate agreements entered into after the date of enactment of this act to become effective on the date on which the agreement is entered into, or at State option, any date before or after the date on which the agreement is entered into.

Agreement

The agreement includes the Senate provision.

SEC. 607. MAKING MEDICAID DSH TRANSITION RULE PERMANENT

Current law

Medicaid authorizes states to make special disproportionate share (DSH) payments to certain hospitals treating large numbers of low-income and Medicaid patients. States determine the formula used to calculate DSH payments to individual hospitals within minimum and maximum federal criteria. For the period July 1, 1997 through July 1, 1999, hospital-specific disproportionate share payments for the State of California may be as high as 175% of the cost of care provided to Medicaid recipients and individuals who have no health insurance or other third-party coverage for services during the year (net of non-disproportionate share Medicaid payments and other payments by uninsured individuals).

H.R. 3075, as passed

Removes the July 1, 1999, end date for increased hospital-specific disproportionate share payments for the State of California, extending the transition period indefinitely.

S. 1788, as reported

Same as House provision.

Agreement

The agreement follows the House bill and the Senate bill.

SEC. 608. MEDICAID TECHNICAL CORRECTIONS

Current law

No provision.

H.R. 3075, as passed

No provision.

S. 1788, as reported

Makes technical corrections to cross-references in Title XIX.

Agreement

The agreement includes the Senate provision.

TITLE VII—STATE CHILDREN’S HEALTH INSURANCE
PROGRAM (SCHIP)

SEC. 701. STABILIZING THE STATE CHILDREN’S HEALTH INSURANCE
PROGRAM ALLOTMENT FORMULA

Current law

States and the District of Columbia are allotted funds for SCHIP using a distribution formula based on the product of the “number of children” and a “state cost factor.” For FY1998 through FY2000, the number of children is equal to the 3-year average of uninsured children in families with income below 200% FPL, using the three most recent March supplements of the Current Population Survey. For subsequent fiscal years, the number of children is a combination of low-income uninsured children and low-income children (75/25 percent split for FY2001 and a 50/50 percent split for FY2002 and thereafter). The state cost factor for a fiscal year equals the sum of .85 multiplied by the ratio of the annual average wages per employee to the national average wages per employee and .15. The measure for the annual average wages per employee is based on the 3 most recent years for employees in the health services industry. SCHIP allotments are subject to a floor of \$2 million.

H.R. 3075, as passed

Accelerates the phase-in of the use of low-income children in calculating the “number of children” in the allotment distribution formula. Changes the data set to be used to estimate the number of children for a fiscal year from the three most recent March supplements of the CPS to the three most recent supplements available before the calendar year in which the fiscal year begins. Specifies new methods for determining floors and ceilings on allotments for the states and the District of Columbia for FY2000 and beyond. The floor remains \$2 million, stated as a proportion of the total amount available for allotments for a fiscal year. For each fiscal year, the floor will not be less than 90% of a state’s allotment proportion for the preceding year. The cumulative floor is set at 70% of the proportion for FY1999. The cumulative ceiling is capped at 145% of a state’s allotment proportion for FY1999. If these methods create a deficit in a given year, there will be a ceiling on the maximum increase permitted in that year to ensure budget neutrality; if these methods create a surplus in a given year, there will be a pro-rata increase for all states below the ceiling. These new methods do not apply to unspent allotments that are redistributed to states as specified in Section 2104(f) of Title XXI.

S. 1788, as reported

Same as House provision.

Agreement

The agreement follows the House bill and the Senate bill.

SEC. 702. INCREASED ALLOTMENTS FOR TERRITORIES UNDER THE
STATE CHILDREN'S HEALTH INSURANCE PROGRAM

Current law

Of the total amount available for allotment for the SCHIP program, commonwealths and territories are allotted .25%, to be divided among them based on specified percentages. In addition, for fiscal year 1999, commonwealths and territories were allotted \$32 million. This additional allotment amount was also divided among them based on the same specified percentages as the basic allotment.

H.R. 3075, as passed

Requires additional allotments for the commonwealths and territories of \$34.2 million for each of fiscal years 2000 and 2001, \$25.2 million for each of fiscal years 2002 through 2004, \$32.4 million for each of fiscal years 2005 and 2006, and \$40 million for fiscal year 2007.

S. 1788, as reported

Same as House provision.

Agreement

The agreement follows the House bill and the Senate bill.

SEC. 703. IMPROVED DATA COLLECTION AND EVALUATIONS OF THE
STATE CHILDREN'S HEALTH INSURANCE PROGRAM

a. Funding for Reliable Annual State-by-State Estimates on the Number of Children Who Do Not Have Health Insurance Coverage

Current law

No provision.

H.R. 3075, as passed

No provision.

S. 1788, as reported

Requires that the Secretary of Commerce make appropriate adjustments to the annual CPS to produce statistically reliable annual State-level data on the number of low-income children without health insurance. Data should be stratified by family income, age, and race or ethnicity. Appropriate adjustments to the CPS may include expanding sample size and/or sampling units within States, and appropriate verification methods. Requires that \$10 million be appropriated for FY-2000 and for each year thereafter. These changes to the CPS will improve critical data for evaluation purposes. They will also affect State-specific counts of number of low-income children and the number of such children who have no health insurance coverage that feed into the formula in existing law that determines annual State-specific allotments from federal SCHIP appropriations.

Agreement

The agreement includes the Senate provision.

b. Funding for Children's Health Care Access and Utilization State-by-State Data

Current law

No provision.

H.R. 3075, as passed

No provision.

S. 1788, as reported

Requires the Secretary of HHS, acting through the National Center for Health Statistics (NCHS), to collect data on children's health insurance through the State and Local Area Integrated Telephone Survey (SLAITS) for the 50 States and the District of Columbia. The data collected must provide reliable, annual State-by-State information on health care access and utilization by low-income children. Data must also allow for stratification by family income, age, and race or ethnicity. The Secretary must obtain input from appropriate sources, including States, in designing the survey and its content. Requires that \$9 million be appropriated for FY-2000 and for each year thereafter. At State request, the Secretary may also collect additional SLAITS data to assist with individual State SCHIP evaluations, for which the States must reimburse NCHS for such services.

Agreement

The Senate provision is not included.

c. Federal Evaluation of State Children's Health Insurance Programs

Current law

The Secretary is required to submit to Congress by December 31, 2001, a report based on the annual evaluations submitted by States, with conclusions and recommendations, as appropriate.

H.R. 3075, as passed

No provision.

S. 1788, as reported

Adds a new federal evaluation to current law. The Secretary of HHS, directly or through contracts or interagency agreements, would be required to conduct an independent evaluation of 10 States with approved SCHIP plans. The selected States must represent diverse approaches to providing child health assistance, a mix of geographic areas (including rural and urban areas), and a significant portion of uninsured children. The federal evaluation will include, but not be limited to: (1) a survey of the target population, (2) an assessment of effective and ineffective outreach and enrollment practices for both SCHIP and Medicaid, (3) an analysis of Medicaid eligibility rules and procedures that are a barrier to

enrollment in Medicaid, and how coordination between Medicaid and SCHIP has affected enrollment under both programs, (4) an assessment of the effects of cost-sharing policies on enrollment, utilization and retention, and (5) an analysis of disenrollment patterns and factors influencing this process. The Secretary must submit the results of the federal evaluation to Congress no later than December 31, 2001. Requires that \$10 million be appropriated for FY-2000. This appropriation shall remain available without fiscal year limitation.

TITLE VI—EMBASSY SECURITY AND COUNTERTERRORISM MEASURES

SEC. 601. SHORT TITLE.

This title may be cited as the “Secure Embassy Construction and Counterterrorism Act of 1999”.

SEC. 602. FINDINGS.

Congress makes the following findings:

- (1) On August 7, 1998, the United States embassies in Nairobi, Kenya, and in Dar es Salaam, Tanzania, were destroyed by simultaneously exploding bombs. The resulting explosions killed 220 persons and injured more than 4,000 others. Twelve Americans and 40 Kenyan and Tanzanian employees of the United States Foreign Service were killed in the attack.

(2) *The United States personnel in both Dar es Salaam and Nairobi showed leadership and personal courage in their response to the attacks. Despite the havoc wreaked upon the embassies, staff in both embassies provided rapid response in locating and rescuing victims, providing emergency assistance, and quickly restoring embassy operations during a crisis.*

(3) *The bombs are believed to have been set by individuals associated with Osama bin Laden, leader of a known transnational terrorist organization. In February 1998, bin Laden issued a directive to his followers that called for attacks against United States interests anywhere in the world.*

(4) *Threats continue to be made against United States diplomatic facilities.*

(5) *Accountability Review Boards were convened following the bombings, as required by Public Law 99-399, chaired by Admiral William J. Crowe, United States Navy (Ret.) (in this section referred to as the "Crowe panels").*

(6) *The conclusions of the Crowe panels were strikingly similar to those stated by the Commission chaired by Admiral Bobby Ray Inman, which issued an extensive embassy security report in 1985.*

(7) *The Crowe panels issued a report setting out many problems with security at United States diplomatic facilities, in particular the following:*

(A) *The United States Government has devoted inadequate resources to security against terrorist attacks.*

(B) *The United States Government places too low a priority on security concerns.*

(8) *The result has been a failure to take adequate steps to prevent tragedies such as the bombings in Kenya and Tanzania.*

(9) *The Crowe panels found that there was an institutional failure on the part of the Department of State to recognize threats posed by transnational terrorism and vehicular bombs.*

(10) *Responsibility for ensuring adequate resources for security programs is widely shared throughout the United States Government, including Congress. Unless the vulnerabilities identified by the Crowe panels are addressed in a sustained and financially realistic manner, the lives and safety of United States employees in diplomatic facilities will continue to be at risk from further terrorist attacks.*

(11) *Although service in the Foreign Service or other United States Government positions abroad can never be completely without risk, the United States Government must take all reasonable steps to minimize security risks.*

SEC. 603. UNITED STATES DIPLOMATIC FACILITY DEFINED.

In this title, the terms 'United States diplomatic facility' and 'diplomatic facility' mean any chancery, consulate, or other office notified to the host government as diplomatic or consular premises in accordance with the Vienna Conventions on Diplomatic and Consular Relations, or otherwise subject to a publicly available bilateral agreement with the host government (contained in the records of the United States Department of State) that recognizes the official sta-

Subtitle C—People’s Republic of China

SEC. 871. FINDINGS.

Congress makes the following findings:

(1) *Congress concurs in the conclusions of the Department of State, as set forth in the Country Reports on Human Rights Practices for 1998, on human rights in the People’s Republic of China in 1998 as follows:*

(A) *“The People’s Republic of China (PRC) is an authoritarian state in which the Chinese Communist Party (CCP) is the paramount source of power. . . . Citizens lack both the freedom peacefully to express opposition to the party-led political system and the right to change their national leaders or form of government.”*

(B) *“The Government continued to commit widespread and well-documented human rights abuses, in violation of internationally accepted norms. These abuses stemmed from the authorities’ very limited tolerance of public dissent aimed at the Government, fear of unrest, and the limited scope or inadequate implementation of laws protecting basic freedoms.”*

(C) *“Abuses included instances of extrajudicial killings, torture and mistreatment of prisoners, forced confessions, arbitrary arrest and detention, lengthy incommunicado detention, and denial of due process.”*

(D) *“Prison conditions at most facilities remained harsh. . . . The Government infringed on citizens’ privacy rights. The Government continued restrictions on freedom of speech and of the press, and tightened these toward the*

end of the year. The Government severely restricted freedom of assembly, and continued to restrict freedom of association, religion, and movement.”

(E) “Discrimination against women, minorities, and the disabled; violence against women, including coercive family planning practices—which sometimes include forced abortion and forced sterilization; prostitution, trafficking in women and children, and the abuse of children all are problems.”

(F) “The Government continued to restrict tightly work rights, and forced labor remains a problem.”

(G) “Serious human rights abuses persisted in minority areas, including Tibet and Xinjiang, where restrictions on religion and other fundamental freedoms intensified.”

(H) “Unapproved religious groups, including Protestant and Catholic groups, continued to experience varying degrees of official interference and repression.”

(I) “Although the Government denies that it holds political or religious prisoners, and argues that all those in prison are legitimately serving sentences for crimes under the law, an unknown number of persons, estimated at several thousand, are detained in violation of international human rights instruments for peacefully expressing their political, religious, or social views.”

(2) In addition to the State Department, credible press reports and human rights organizations have documented an intense crackdown on political activists by the Government of the People’s Republic of China, involving the harassment, detainment, arrest, and imprisonment of dozens of activists.

(3) The People’s Republic of China, as a member of the United Nations, is expected to abide by the provisions of the Universal Declaration of Human Rights.

(4) The People’s Republic of China is a party to numerous international human rights conventions, including the Convention Against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment, and is a signatory to the International Covenant on Civil and Political Rights and the Covenant on Economic, Social, and Cultural Rights.

CHAPTER 2—MATTERS RELATING TO THE CONTROL OF BIOLOGICAL WEAPONS

SEC. 1121. SHORT TITLE.

This chapter may be cited as the “National Security and Corporate Fairness under the Biological Weapons Convention Act”.

SEC. 1122. DEFINITIONS.

In this chapter:

(1) *BIOLOGICAL WEAPONS CONVENTION*.—The term “Biological Weapons Convention” means the 1972 Convention on the Prohibition of the Development, Production and Stockpiling of Bacteriological (Biological) and Toxin Weapons and on their Destruction.

(2) *COMPLIANCE PROTOCOL*.—The term “compliance protocol” means that segment of a bilateral or multilateral agreement that enables investigation of questions of compliance entailing written data or visits to facilities to monitor compliance.

(3) *INDUSTRY*.—The term “industry” means any corporate or private sector entity engaged in the research, development, production, import, and export of peaceful pharmaceuticals and biotechnological and related products.

SEC. 1123. FINDINGS.

Congress makes the following findings:

(1) The threat of biological weapons and their proliferation is one of the greatest national security threats facing the United States.

(2) *The threat of biological weapons and materials represents a serious and increasing danger to people around the world.*

(3) *Biological weapons are relatively inexpensive to produce, can be made with readily available expertise and equipment, do not require much space to make and can therefore be readily concealed, do not require unusual raw materials or materials not readily available for legitimate purposes, do not require the maintenance of stockpiles, or can be delivered with low-technology mechanisms, and can effect widespread casualties even in small quantities.*

(4) *Unlike other weapons of mass destruction, biological materials capable of use as weapons can occur naturally in the environment and are also used for medicinal or other beneficial purposes.*

(5) *Biological weapons are morally reprehensible, prompting the United States Government to halt its offensive biological weapons program in 1969, subsequently destroy its entire biological weapons arsenal, and maintain henceforth only a robust defensive capacity.*

(6) *The Senate gave its advice and consent to ratification of the Biological Weapons Convention in 1974.*

(7) *The Director of the Arms Control and Disarmament Agency explained, at the time of the Senate's consideration of the Biological Weapons Convention, that the treaty contained no verification provisions because verification would be "difficult".*

(8) *A compliance protocol has now been proposed to strengthen the 1972 Biological Weapons Convention.*

(9) *The resources needed to produce, stockpile, and store biological weapons are the same as those used in peaceful industry facilities to discover, develop, and produce medicines.*

(10) *The raw materials of biological agents are difficult to use as an indicator of an offensive military program because the same materials occur in nature or can be used to produce a wide variety of products.*

(11) *Some biological products are genetically manipulated to develop new commercial products, optimizing production and ensuring the integrity of the product, making it difficult to distinguish between legitimate commercial activities and offensive military activities.*

(12) *Only a small culture of a biological agent and some growth medium are needed to produce a large amount of biological agents with the potential for offensive purposes.*

(13) *The United States pharmaceutical and biotechnology industries are a national asset and resource that contribute to the health and well-being of the American public as well as citizens around the world.*

(14) *One bacterium strain can represent a large proportion of a company's investment in a pharmaceutical product and thus its potential loss during an arms control monitoring activity could conceivably be worth billions of dollars.*

(15) *Biological products contain proprietary genetic information.*

(16) *The proposed compliance regime for the Biological Weapons Convention entails new data reporting and investigation requirements for industry.*

(17) *A compliance regime which contributes to the control of biological weapons and materials must have a reasonable chance of success in reducing the risk of production, stockpiling, or use of biological weapons while protecting the reputations, intellectual property, and confidential business information of legitimate companies.*

SEC. 1124. TRIAL INVESTIGATIONS AND TRIAL VISITS.

(a) **NATIONAL SECURITY TRIAL INVESTIGATIONS AND TRIAL VISITS.**—*The President shall conduct a series of national security trial investigations and trial visits, both during and following negotiations to develop a compliance protocol to the Biological Weapons Convention, with the objective of ensuring that the compliance procedures of the protocol are effective and adequately protect the national security of the United States. These trial investigations and trial visits shall be conducted at such sites as United States Government facilities, installations, and national laboratories.*

(b) **UNITED STATES INDUSTRY TRIAL INVESTIGATIONS AND TRIAL VISITS.**—*The President shall take all appropriate steps to conduct or sponsor a series of United States industry trial investigations and trial visits, both during and following negotiations to develop a compliance protocol to the Biological Weapons Convention, with the objective of ensuring that the compliance procedures of the protocol are effective and adequately protect the national security and the concerns of affected United States industries and research institutions. These trial investigations and trial visits shall be conducted at such sites as academic institutions, vaccine production facilities, and pharmaceutical and biotechnology firms in the United States.*

(c) **PARTICIPATION BY DEFENSE DEPARTMENT AND OTHER APPROPRIATE PERSONNEL.**—*The Secretary of Defense and, as appropriate, the Director of the Federal Bureau of Investigation shall make available specialized personnel to participate—*

(1) *in each trial investigation or trial visit conducted pursuant to subsection (a); and*

(2) *in each trial investigation or trial visit conducted pursuant to subsection (b), except for any investigation or visit in which the host facility requests that such personnel not participate,*

for the purpose of assessing the information security implications of such investigation or visit. The Secretary of Defense, in coordination with the Director of the Federal Bureau of Investigation, shall add to the report required by subsection (d)(2) a classified annex containing an assessment of the risk to proprietary and classified information posed by any investigation or visit procedures in the compliance protocol.

(d) **STUDY.**—

(1) **IN GENERAL.**—*The President shall conduct a study on the need for investigations and visits under the compliance protocol to the Biological Weapons Convention, including—*

(A) *an assessment of risks to national security and United States industry and research institutions of such on-site activities; and*

(B) an assessment of the monitoring results that can be expected from such investigations and visits.

(2) *REPORT*.—Not later than the date on which a compliance protocol to the Biological Weapons Convention is submitted to the Senate for its advice and consent to ratification, the President shall submit to the Committee on Foreign Relations of the Senate a report, in both unclassified and classified form, setting forth—

(A) the findings of the study conducted pursuant to paragraph (1); and

(B) the results of trial investigations and trial visits conducted pursuant to subsections (a) and (b).

(1) *arrangements for the establishment of that facility will further United States nuclear nonproliferation objectives and will outweigh the proliferation risks inherent in the use of mixed oxide fuel elements;*

(2) *a guaranty has been given by Russia that no fuel elements produced, fabricated, reprocessed, or assembled at such facility, and no sensitive nuclear technology related to such facility, will be exported or supplied by Russia to any country in the event that the United States objects to such export or supply; and*

(3) *a guaranty has been given by Russia that the facility and all nuclear materials and equipment therein, and any fuel elements or special nuclear material produced, fabricated, reprocessed, or assembled at that facility, including fuel elements exported or supplied by Russia to a third party, will be subject to international monitoring and transparency sufficient to ensure that special nuclear material is not diverted.*

SEC. 1242. FINDINGS AND DECLARATION OF POLICY.

(a) *FINDINGS.*—Congress makes the following findings:

(1) *A fair business environment is necessary to advance international trade, economic stability, and development worldwide, is beneficial for American workers and businesses, and is in the United States national interest.*

(2) *In some cases, mandated offset requirements can cause economic distortions in international defense trade and undermine fairness and competitiveness, and may cause particular harm to small- and medium-sized businesses.*

(3) *The use of offsets may lead to increasing dependence on foreign suppliers for the production of United States weapons systems.*

(4) *The offset demands required by some purchasing countries, including some close allies of the United States, equal or exceed the value of the base contract they are intended to offset, mitigating much of the potential economic benefit of the exports.*

(5) *Offset demands often unduly distort the prices of defense contracts.*

(6) *In some cases, United States contractors are required to provide indirect offsets which can negatively impact nondefense industrial sectors.*

(7) *Unilateral efforts by the United States to prohibit offsets may be impractical in the current era of globalization and would severely hinder the competitiveness of the United States defense industry in the global market.*

(8) *The development of global standards to manage and restrict demands for offsets would enhance United States efforts to mitigate the negative impact of offsets.*

(b) *DECLARATION OF POLICY.*—It is the policy of the United States to monitor the use of offsets in international defense trade, to promote fairness in such trade, and to ensure that foreign participation in the production of United States weapons systems does not harm the economy of the United States.

dollar value and quantity of defense articles (including excess defense articles), defense services, and international military education and training activities authorized by the United States and of such articles, services, and activities provided by the United States, excluding any activity that is reportable under title V of the National Security Act of 1947, to each foreign country and international organization. The report shall specify, by category, whether such defense articles—

“(1) were furnished by grant under chapter 2 or chapter 5 of part II of this Act or under any other authority of law or by sale under chapter 2 of the Arms Export Control Act;

“(2) were furnished with the financial assistance of the United States Government, including through loans and guarantees; or

(2) *REQUIREMENTS.*—For proposed exports to those nations which meet the requirements of paragraph (1), the regime should include expedited processing of requests for export authorizations that—

(b) *CONTENTS.*—*The study should include the following:*

(2) A review of the current computer capabilities of the Department of State relevant to the processing of licenses and its capability to communicate electronically with other agencies and contractors, and what improvements could be made that would speed the process, including the cost for such improvements.

(3) An analysis of the work load and salary structure for export licensing officers of the Office of Defense Trade Controls of the Department of State as compared to comparable jobs at the Department of Commerce and the Department of Defense.

(4) Any suggestions of the Department of State relating to resources and regulations, and any relevant statutory changes that might expedite the licensing process while furthering the objectives of the Arms Export Control Act (22 U.S.C. 2751 et seq.).

SEC. 1311. REPORT CONCERNING PROLIFERATION OF SMALL ARMS.

(a) *IN GENERAL.*—Not later than 180 days after the date of the enactment of this Act, the Secretary of State shall submit to the appropriate committees of Congress a report containing—

(1) an assessment of whether the global trade in small arms poses any proliferation problems, including—

(A) estimates of the numbers and sources of licit and illicit small arms and light arms in circulation and their origins;

(B) the challenges associated with monitoring small arms; and

(C) the political, economic, and security dimensions of this issue, and the threats posed, if any, by these weapons to United States interests, including national security interests;

(3) a description and analysis of the adequacy of current Department of State activities to monitor and, to the extent possible, ensure adequate control of, both the licit and illicit manufacture, transfer, and proliferation of small arms and light weapons, including efforts to survey and assess this matter with respect to Africa and to survey and assess the scope and scale of the issue, including stockpile security and destruction of excess inventory, in NATO and Partnership for Peace countries;

(4) a description of the impact of the reorganization of the Department of State made by the Foreign Affairs Reform and Restructuring Act of 1998 on the transfer of functions relating to monitoring, licensing, analysis, and policy on small arms and light weapons, including—

(B) the functions of the Bureau of Arms Control, the Bureau of Nonproliferation, the Bureau of Political-Military Affairs, the Bureau of International Narcotics and Law Enforcement, regional bureaus, and any other relevant bureau or office of the Department of State, including the allocation of personnel and funds, as they pertain to small arms and light weapons;

(D) the functions of the Under Secretary of State for Arms Control and International Security pertaining to small arms and light weapons; and

(E) the functions of the scientific and policy advisory board on arms control, nonproliferation, and disarmament pertaining to small arms and light weapons; and

(5) an assessment of whether foreign governments are enforcing their own laws concerning small arms and light weapons import and sale, including commitments under the Inter-American Convention Against the Illicit Manufacturing of and Trafficking in Firearms, Ammunition, Explosives, and Other Related Materials or other relevant international agreements.

(b) *DEFINITION.*—In this section, the term “appropriate committees of Congress” means the Committee on Foreign Relations and the Select Committee on Intelligence of the Senate and the Committee on International Relations and the Permanent Select Committee on Intelligence of the House of Representatives.

SEC. 1312. CONFORMING AMENDMENT.

Subsection (d) of section 248 of the Strom Thurmond National Defense Authorization Act for Fiscal Year 1999 (Public Law 105–261; 112 Stat. 1958) is amended by inserting “, and to the Committee on Foreign Relations of the Senate and the Committee on International Relations of the House of Representatives,” after “congressional defense committees”.

Following is explanatory language on H.R. 3427, as introduced on November 17, 1999.

EXPLANATORY STATEMENT RELATED TO H.R. 3427

Embassy Security, Construction and Maintenance

Section 101 authorizes \$434,066,000 in appropriations under the heading "Security and Maintenance of U.S. Missions" for fiscal year 2000 and \$445,000,000 in fiscal year 2001. In addition, the Security and Maintenance account is renamed the "Embassy Security, Construction and Maintenance" account. (Funding for security related construction is in section 604.)

Representation Allowances

Section 101 authorizes \$5,850,000 in appropriations under the heading "Representation Allowances" for fiscal years 2000 and 2001.

Emergencies in the Diplomatic and Consular Service

Section 101 authorizes \$17,000,000 in appropriations under the heading "Emergencies in the Diplomatic and Consular Service" for fiscal years 2000 and 2001.

Office of the Inspector General

Section 101 authorizes \$30,054,000 in appropriations under the heading "Office of Inspector General" for fiscal years 2000 and 2001.

American Institute in Taiwan

Section 101 authorizes \$15,760,000 in appropriations under the heading "American Institute in Taiwan" for fiscal year 2000 and \$15,918,000 in fiscal year 2001.

Protection of Foreign Missions and Officials

Section 101 authorizes \$9,490,000 in appropriations under the heading "Protection of Foreign Missions and Officials" for fiscal years 2000 and 2001.

Repatriation Loans

Section 101 authorizes \$1,200,000 in appropriations under the heading "Repatriation Loans Program Account" for fiscal years 2000 and 2001.

INTERNATIONAL COMMISSIONS

Section 102 authorizes \$52,043,000 in appropriations under the heading "International Commissions" for fiscal years 2000 and 2001.

MIGRATION AND REFUGEE ASSISTANCE

Section 103 authorizes \$750,000,000 for each of fiscal years 2000–2001. Where local expertise is unavailable, the rape counseling provided for in this provision should be provided through international organizations, U.S.-based non-governmental organiza-

tions, nonprofit organizations, or health organizations and should be culturally appropriate and could be part of a comprehensive program of assistance aimed at reintegrating these women into their communities or resettling them elsewhere as appropriate.

UNITED STATES INFORMATIONAL, EDUCATIONAL, AND CULTURAL PROGRAMS

Section 104 authorizes \$112,000,000 in fiscal year 2000 and \$120,000,000 in fiscal year 2001 for Fulbright Exchanges, and \$98,329,000 in fiscal year 2000 and \$105,000,000 in fiscal year 2001 for other educational and cultural programs. In addition, the bill includes certain earmarks.

Arab-Israeli Peace Partners Program

This section includes an earmark for the Arab Israeli Peace Partners program. The program is intended to reach out to new groups of people who can influence and improve mutual understanding in the Middle East. The program is to include participants from Israel, the Palestinian Authority, Arab countries and the United States. The focus of the program is the promotion of mutual understanding and conflict resolution. The Arab-Israeli Peace Partners program should include college and graduate students, as well as leaders and public policy advocates in various professions. Professionals in the fields of primary and high school education, administration of justice, journalism, communications, government, health, environment, technology, law or other community leaders are of particular importance. These people have the ability to reach out to other networks of people who can benefit from their experience.

Grouping these exchanges by profession can stimulate like-minded individuals who have common ground for interaction to pursue other significant issues relevant to a more lasting peace process. The managers draw particular attention to the Seeds of Peace, an innovative and widely respected organization that helps Arab and Israeli teenagers overcome prejudice and build positive relationships. This has been a successful undertaking that focuses on future leaders. The Arab-Israeli program will provide those currently in the workforce or soon to enter with tools to establish the common ground for peaceful coexistence in the region.

Vietnam Fulbright Program

This section also authorizes \$4,000,000 for each of fiscal years 2000–2001 for the Vietnam Fulbright Program. The current lack of political and religious freedom in Vietnam raises concerns. However, exchange programs of this nature, which provide educational opportunities and exposure to American institutions and values, can be important tools in hastening the transition of countries like Vietnam into free and open societies. However, the Vietnamese Government does not select the participants in this program and any Vietnamese citizen can apply for admission to this program.

The State Department is expected to continue to ensure that opportunities to participate in the program are made available to all qualified applicants and to administer this program under the guidelines set out in section 102 of the Human Rights, Refugee,

and Other Foreign Provisions Act of 1996 (Public Law 104–319), as modified in this Act. The success of the Vietnam Fulbright Program and similar programs in like countries will be marked by the extent of progress toward freedom and democracy. The appropriate Congressional committees will continue to monitor this program to evaluate its impact on such progress.

GRANTS TO THE ASIA FOUNDATION

Section 105 authorizes \$15,000,000 in appropriations under the heading “The Asia Foundation” for fiscal years 2000 and 2001.

CONTRIBUTIONS TO INTERNATIONAL ORGANIZATIONS

Section 106 authorizes \$940,000,000 in appropriations for fiscal year 2000 and such sums as may be necessary for fiscal year 2001 under the heading “Contributions to International Organizations (CIO)”, and includes the following conditions:

No Growth Budget

Of the funds authorized, subsection (b) makes available \$80,000,000 on an annual basis only when the Secretary of State certifies to the Congress that no action has been taken by the United Nations to increase the United Nations 1998–99 budget of \$2,533,000,000 during that period without finding an offset elsewhere in the United Nations budget during that period.

Inspector General

Of the funds authorized, subsection (c) withholds 20 percent of the funds made available for the United Nations until the Secretary of State certifies that the Office of Internal Oversight Services (OIOS) continues to function as an independent inspector general. This section requires the Director of the OIOS to report directly to the Secretary General on the adequacy of his resources and a certification by the Secretary of State that the OIOS has the authority to audit, inspect, or investigate each program, project or activity funded by the United Nations, and each Executive Board created under the United Nations has been notified of that authority. With regard to the distribution of reports required by this provision, what is essential is that the United States (and other Member States) have access to all annual and other relevant reports without modification, except to the extent it is necessary to protect the privacy rights of individuals. When privacy rights are impacted, the reports may be redacted to protect individuals. However, it is not anticipated that wrongdoers cited in such reports would be entitled to privacy protections.

Prohibition on Certain U.N. Global Conferences

Of the funds authorized, subsection (d) prohibits U.S. funding of U.N. global conferences, except that it exempts conferences that were approved by the United Nations prior to October 1, 1998. The U.N. Global Conferences referred to in this section are those organized on a one-time basis with universal participation to address a single subject, such as the environment or population, outside of the normal course of regularly scheduled deliberations by existing U.N. bodies. For example, this section would have applied to the

Rio Earth Summit, the Beijing Women's Conference, or the Habitat Conference. Should the U.N. schedule a conference of this kind during the two fiscal years under this Act, the United States will not fund such a conference nor any arrears related to such a conference. This section does not include conferences directed to the achievement of a binding international agreement, or other legal instrument, on a particular matter (such as the negotiation on the control and elimination of anti-personnel land mines in the U.N. Conference on anti-personnel land mines in the U.N. Conference on Conventional Weapons and the U.N. Conference on Disarmament).

Prohibition on Funding Organizations Other Than the United Nations From the United Nations Regular Budget

Of the funds authorized, subsection (e) prohibits the U.S. contribution to the United Nations regular budget from being used to fund the operating cost of organizations that have been established through a framework treaty. Such organizations are those established under separate treaties of a framework nature, composed only of parties to the treaties, having their own secretariats. This term does not include U.N. human rights treaty bodies. Should any framework treaty organization be funded out of the regular budget, the provision will require that the U.S. withhold from it U.S. assessment to the U.N. budget the United States share of the amount budgeted for such organizations.

CONTRIBUTIONS FOR INTERNATIONAL PEACEKEEPING ACTIVITIES

Section 107 authorizes appropriation of \$500,000,000 in fiscal year 2000 and such sums as may be necessary for fiscal year 2001 for assessed contributions to international peacekeeping activities under United Nations auspices.

VOLUNTARY CONTRIBUTIONS TO INTERNATIONAL ORGANIZATIONS

Section 108 authorizes \$293,000,000 in fiscal year 2000 and such sums as may be necessary for fiscal year 2001 with certain limitations. Although the section does not include an earmark for a grant to UNICEF for fiscal year 2001, it is expected that such a grant should be made in the amount of at least \$110,000,000.

UNITED STATES INTERNATIONAL BROADCASTING ACTIVITIES

Section 121 authorizes \$385,900,000 in fiscal year 2000 and \$393,618,000 in fiscal year 2001 for international broadcasting activities; \$20,868,000 in fiscal year 2000 and \$20,868,000 for fiscal year 2001 broadcasting capital improvements; \$22,743,000 in fiscal year 2000 and \$22,743,000 in fiscal year 2001 for Broadcasting to Cuba, and \$24,000,000 in fiscal year 2000, and \$30,000,000 in fiscal year 2001 for Radio Free Asia. Although it does not contain a further limitation for Radio and TV Marti, some note that there is increasing evidence that the Cuban dictatorship has intensified its efforts at disrupting the broadcasts of Radio Marti and TV Marti and now is receiving additional assistance toward this end from Chinese military and technical experts. It is expected that all possible efforts will be taken by the Broadcasting Board of Governors and the Office of Cuba Broadcasting to overcome these attempts,

including the development and implementation of new technology and enhancement of current methods to strengthen and improve the transmission capabilities of Radio Marti and TV Marti.

In addition, the Broadcasting Board of Governors should provide an update of the status of all lawsuits brought against the Voice of America (VOA) regarding minorities and women, and VOA's efforts in the area of minority recruitment. A written description of these issues should be provided to the appropriate committees by February 1, 2000.

DEPARTMENT OF STATE AUTHORITIES AND ACTIVITIES
OFFICE OF CHILDREN'S ISSUES

Section 201 requires the State Department to make several changes with regard to its handling of international parental abduction and other children's issues. The section requires that: (1) the Director of the office is an individual of senior rank who can ensure long-term continuity to the office; (2) the staffing levels of the office include sufficient caseworkers so that the average case-load is 75; (3) each embassy designate a point of contact on parental abduction issues and the director of the office must regularly inform the contact of cases in that country and (4) parents are regularly informed of the status of pending cases. This office has been understaffed in the past, and more effort should be devoted to assisting parents to obtain the return of, or access to, their wrongfully abducted children. The issues of this office are not receiving adequate priority in diplomatic efforts by the United States—particularly in countries which have ratified the Hague Convention on the Civil Aspects of International Child Abduction (like Austria, Germany and Sweden) but are not implementing fully their commitments under the treaty. Those countries should be encouraged to establish organizations like the National Center for Missing and Exploited Children to assist with treaty implementation.

STRENGTHENING IMPLEMENTATION OF THE HAGUE CONVENTION ON
THE CIVIL ASPECTS OF INTERNATIONAL CHILD ABDUCTION

Section 202 extends and supplements existing reporting requirement for fiscal years 2000–2001. The report by the Secretary of State submitted in April 1999 pursuant to Section 2803(a) of the Foreign Affairs Reform and Restructuring Act of 1998 (as enacted by division G of the Omnibus Consolidated and Emergency Supplemental Appropriations Act, 1999; Public Law 105–277) on compliance with the Hague Convention on the Civil Aspects of International Child Abduction failed to provide information consistent with the intent of the Congress to have a full accounting of cases of violations of, and a listing of countries that are non-compliant with, the Convention. Specifically, the report's finding that there are only 58 cases unresolved after 18 months, which fails to mention the country involved, renders the report almost useless. While stipulating that this listing of unresolved cases does not include those cases considered closed by the U.S. government, the report fails to include the criteria by which the decision to close a case is made.

This provision extends the reporting requirement to fiscal years 2000 and 2001, and expands the scope of the report in order to elicit information that will adequately inform parents and judges involved in custody cases where there is a significant possibility that a child could be removed by a non-custodial parent to a country which contains a record of non-compliance with the Hague Convention. The new information that the Congress is requesting is intended to highlight the probability that an abducted, or wrongfully retained, child can be reasonably expected to be returned from a country that is a party to the Hague Convention based on its past record of compliance, and whether access to a child, either through the orders of that country's courts, or through U.S. court orders, has been enforced by the government concerned in the past.

REPORT CONCERNING ATTACK IN CAMBODIA

Section 203 requires reports by the Secretary in consultation with the Attorney General, regarding the investigation of the March 30, 1997 grenade attack in Cambodia.

INTERNATIONAL EXPOSITIONS

Section 204 does the following: (a) requires periodic reports to the Congress from the commissioners general of major United States pavilions or exhibits; (b) requires advance notification to the relevant committees before the Department of State obligates funds which may be made available by another agency of the United States to the Department of State for a major United States pavilion or exhibit; (c) clarifies that, absent express authorization and appropriation, the support that the Department of State may provide for major pavilions or exhibits under section 102(a)(3) of the Mutual Education and Cultural Exchange Act shall be for administrative purposes only (such as contract administration, legal and other advice, and similar support) and not for operating or capital expenses; (d) amends the general prohibition against the obligation of "any funds" by the State Department for non-expressly-authorized major United States pavilions or exhibits to apply only to funds appropriated to the State Department; and (e) makes certain other technical changes. The reprogramming procedures will apply to notifications under subsection (c) of this section.

The United States Exhibition in Hannover, Germany

Recent reports suggest that sufficient private funds have not been raised to construct or operate the United States pavilion at the forthcoming Hannover, Germany international exposition. A clear policy has been in effect for years that taxpayer funds should not be used for the construction and operation of such pavilions. Despite that policy, commitments have been made to construct an elaborate pavilion at Hannover, even though privately raised funds are insufficient and there has been no formal request for an authorization of appropriations. There is reason to be concerned that public funds may be informally requested to construct and operate a pavilion outside normal budgetary processes, as apparently occurred in the case of the Lisbon pavilion in 1998. The Administration should address these concerns in the immediate future in communications to the relevant committees.

RESPONSIBILITY OF THE AID INSPECTOR GENERAL FOR THE INTER-AMERICAN FOUNDATION AND THE AFRICAN DEVELOPMENT FOUNDATION

Section 205 gives to the Inspector General of the United States Agency for International Development (USAID) the responsibility for the supervision, direction, and control of all audits and investigative activities relating to the programs and operations of the Inter-American Foundation (IAF) and the African Development Foundation (ADF). In the interest of ensuring the independent operations of the Inspector General, and that audits and investigations not be dependent upon the availability of funds to the IAF and the ADF, it was decided not to include a provision mandating that the IAF and ADF reimburse the Inspector General for all costs incurred with regard to audits and investigations of programs and activities of those agencies. Nonetheless, any such costs shall be reimbursed to the IG at the IG's request.

REPORT ON CUBAN DRUG TRAFFICKING

Section 206 requires the Secretary of State to report on the extent of international narcotics traffic through Cuba, the extent of involvement by the Cuban Government, its agents and entities, and United States actions to investigate or prosecute such acts. The report may include an assessment of the credibility of the information, in which case it shall also include a statement of the reasons for such assessment. The section provides for a classified annex in order to ensure that the inclusion of information in the report will not compromise ongoing investigations. The exclusion from the unclassified report of "matters occurring before the grand jury" within the meaning of Federal Rule of Criminal Procedure 6(e) will be governed by the Rule to the same extent as the Rule would govern disclosure of such material to the public, and inclusion of such material in the classified annex shall be subject to the Rule to the same extent as the Rule would govern the sharing of such material among attorneys for the government. Information in the possession of the government which is subsequently given to a grand jury does not thereby automatically become grand jury material within the meaning of the Rule, although other considerations, such as protecting from disclosure the identities or testimony of witnesses, or information which would reveal the strategy or direction of an active investigation, is also protected by the Rule.

REVISION OF REPORTING REQUIREMENT

Section 207 reduces the frequency of a current reporting requirement regarding Iraq.

FOREIGN LANGUAGE PROFICIENCY

Section 208 requires an annual report to Congress containing data showing how many overseas positions are filled by language-qualified personnel. This reporting requirement replaces an analogous reporting provision in Section 304(c) of the Foreign Service Act of 1980.

CONTINUATION OF REPORTING REQUIREMENTS

Section 209 extends certain reports for fiscal years 2000–2001. In addition, the provision preserves certain reports that would otherwise be sunsetted by legislation enacted in 1995 repealing a number of reports government-wide.

JOINT FUNDS UNDER AGREEMENTS FOR COOPERATION IN ENVIRONMENTAL, SCIENTIFIC, CULTURAL AND RELATED AREAS

Section 210 allows the State Department to use the interest earned on funds held under bilateral agreements for scientific, cultural, and technical cooperation to pay the programmatic and administrative expenses of these programs.

REPORT ON INTERNATIONAL EXTRADITION

Section 211 requires a report by the Secretary of State 120 days after enactment regarding a review of all extradition treaties and agreements to which the U.S. is a party.

CONSULAR AUTHORITIES

MACHINE READABLE VISAS

Section 231 authorizes the collection and use of fees for up to \$316,715,000 for each of fiscal years 2000–2002; fees collected above that amount are subject to reprogramming procedures.

FEES RELATING TO AFFIDAVITS OF SUPPORT

Section 232 allows the Secretary of State to charge a fee for services provided by the State Department for assistance in the preparation and filing of an affidavit of support as required by section 213A of the Immigration and Nationality Act.

PASSPORT FEES

Section 233 repeals an anachronistic provision of the Passport Act of 1920 that provided for the discretionary refund of passport fees in the event that a traveler was not able to obtain a visa to the country of intended travel. That authority, which reflects long-outmoded passport practices, is no longer used. According to statistics provided by the Department of State, approximately twenty-eight percent of the passport fee refunds during fiscal year 1998 were to applicants determined to be non-citizens or otherwise ineligible to receive passports. Approximately ten percent were to persons who withdrew their applications, and about fifty percent of the refunds were to persons who may have been citizens but who were unable to provide acceptable documentation of their citizenship. Applicants in the latter category typically provided documents unacceptable to the Department, such as birth certificates provided by a hospital, and were deemed to have abandoned their cases after failing to respond to requests for supplementary documentation. The regulations described in this subsection will provide for the reinstatement or revival of applications without payment of an additional fee, where the application has been denied on the sole ground of inadequate documentation and such documentation is subsequently provided.

DEATHS AND ESTATES OF UNITED STATES CITIZENS ABROAD

Section 234 repeals section 1709 of the Revised Statutes (22 U.S.C. 4195) and replaces it with new provisions in the State Department Basic Authorities Act to provide a modified statutory basis for the traditional consular function of protection and conservation, and ultimately disposition, of the estates of Americans who die outside the United States in those cases where a legal representative is not appointed by the heirs or other beneficiaries within a reasonable time.

DUTIES OF CONSULAR OFFICERS REGARDING MAJOR DISASTERS AND INCIDENTS ABROAD AFFECTING UNITED STATES CITIZENS

Section 235 expands the definition of U.S. employees who may perform consular functions in connection with deaths and estates of U.S. citizens abroad.

ISSUANCE OF PASSPORTS FOR CHILDREN UNDER AGE 14

Section 236 requires the Secretary to issue regulations so that children under the age of 14 may be issued a passport only if both parents or the child's legal guardian execute the necessary documents, or a parent or guardian demonstrates sole custody or consent of the other parent or guardian. The Secretary may by regulation provide for exceptions to this requirement in the event of exigent or special family circumstances. These exceptions are not designed to become, in practice, gaping loopholes that would swallow the new rule created by this section. Rather, they are designed to provide flexibility to the Secretary in appropriate cases.

PROCESSING OF VISA APPLICATIONS

Section 237 states that it shall be the policy of the State Department: (a) to process visa applications of immediate relatives and fiances of U.S. citizens within 30 days of receiving all necessary documents; and (b) to process applications sponsored by someone other than an immediate relative within 60 days. It also directs the Department to report every six months on the extent to which it is meeting these standards, and to establish a joint task force with other Federal agencies to reduce the overall processing time for visa applications.

FEASIBILITY STUDY ON FURTHER PASSPORT RESTRICTIONS ON INDIVIDUALS IN ARREARS ON CHILD SUPPORT

Section 238 requires the Secretary report on the costs and benefits of a reduction to \$2,500 from \$5,000 the amount of arrears for child support that would trigger a denial of a passport under existing law (sec. 452(k) of the Social Security Act).

REFUGEES

UNITED STATES POLICY REGARDING THE INVOLUNTARY RETURN OF REFUGEES

Section 251 carries over and slightly expands a provision of the Fiscal Year 1998–99 Foreign Relations Authorization Act prohibiting the use of funds for the involuntary return of any person to

a country in which that person has a well-founded fear of persecution, and requiring notification to Congress when such funds are used for involuntary repatriation of persons deemed to be non-refugees.

HUMAN RIGHTS REPORTS

Section 252 is a technical amendment. Information in the annual Country Reports on Human Rights Practices on the extent to which countries extend protection to refugees is already required by the Human Rights, Refugee, and Other Foreign Relations Provisions Act of 1996 (P.L. 104-319). However, that statute only modified one of the two provisions in the Foreign Assistance Act dealing with the Country Reports. This section corrects that oversight by modifying the other section.

GUIDELINES FOR REFUGEE PROCESSING POSTS

Section 253 corrects two technical oversights in the refugee protection provisions of the International Religious Freedom Act of 1998 (P.L. 105-292). Although section 602(c) of the Act charged both the Attorney General and the Secretary of State to develop guidelines to address hostile biases in refugee processing, it referred only to biases of INS personnel. This section adds a reference to State Department personnel in the appropriate place. In addition, the Act prohibited the use of agents of persecuting governments to interpret conversations of persons seeking asylum in the United States. This section extends that prohibition to the overseas refugee adjudication process, and to agents of persecuting governments performing any function that could endanger the safety of the applicant or otherwise compromise the integrity of the process.

GENDER RELATED PERSECUTION TASK FORCE

Section 254 requires the Secretary to establish the task force in consultation with the Attorney General with the goal of determining eligibility guidelines for women seeking refugee status overseas due to gender-related persecution.

VIETNAMESE REFUGEES

An earlier House-passed provision regarding refugees was not included in this bill on the basis of assurances that U.S. refugee programs in Viet Nam will be conducted in accordance with most of the conditions set forth in section 274 of the House bill. Section 255, however, contains a provision designed to address one of the issues addressed by section 274. It extends through fiscal 2001 the McCain Amendment, which restores eligibility for U.S. refugee resettlement to certain sons and daughters of Vietnamese re-education camp survivors, and also provides such eligibility for sons and daughters who were denied the right to resettle in the United States because their government-issued residency documents did not prove "continuous coresidency" with their parents.

The Administration's decision that refugee programs in Viet Nam (as well as other closely related programs) will be directed by a Refugee Coordinator who will report directly to the Deputy Prin-

cial Officer at the Consulate General in Saigon and receive policy guidance from the Assistant Secretary for Population, Refugees, and Migration is appreciated. It is also important that these programs will use expatriate interpreters and case workers, so that refugee applicants will no longer be required to describe their persecution at the hands of the Vietnamese government in the presence of persons employed by or through that same government. The Administration's plan to send a special team of INS officers, similar in composition and training to the teams that adjudicated the ROVR cases, to interview former United States Government employees who have not yet been interviewed, and to use the results of these interviews in deciding whether to reopen the cases of former USG employees who may have been improperly denied is strongly supported.

It is encouraging that the Department of State intends to contract with a non-governmental organization with expertise in refugee resettlement for the retention of an "NGO Advisor" to assist the Refugee Coordinator and to help ensure transparency in our Vietnamese refugee programs. It remains a matter of deep concern that the Department decided to terminate its Joint Voluntary Agency (JVA) contract with the International Catholic Migration Commission, which was the most refugee-friendly component in the old ODP program. Members of Congress will continue to monitor carefully whether the new "Refugee Resettlement Unit" is an adequate substitute. If not, Members of Congress will urge the Department to reinstitute a JVA arrangement for our Vietnamese refugee programs. The Administration's position that U.S. refugee programs should focus primarily on identifying and rescuing persons who have recently been persecuted and/or who are at risk of future persecution rather than those who suffered persecution in the distant past is supported. The guidelines prepared by the Department and the INS for the new in-country refugee program in Viet Nam will be a solid basis for such a program provided they are generously interpreted and applied. Assurances were made that this program will not be limited to a few "high profile" cases, but will be implemented so as to identify and offer resettlement to any Vietnamese national who can show that he or she has experienced recent persecution or has a well-founded fear of future persecution on account of race, religion, nationality, political opinion, or membership in a particular social group.

There is strong support for the view that the focus on the new program cannot justify peremptory treatment of applicants who may have been wrongly denied under existing programs, or who may never have had genuine access to such programs. The new program is strongly supported on its merits, but it is also important for the United States to keep its promises, both express and implied. The Administration's assurance that Montagnard combat veterans who fulfill the requirements for the "HO" subprogram of the Orderly Departure Program (ODP)—which include at least three years of detention in "re-education camps"—will no longer be denied resettlement on the sole ground that in addition to their pre-1975 military service, they continued to fight the Communists after 1975 is encouraging. These applicants have been rejected on the ground that their subsequent punishment by the Communists

must have been solely on account of their post-1975 activities rather than for their wartime service alongside U.S. forces. The Administration's commitment to review the cases of Montagnards who were previously registered for consideration for refugee resettlement but found not qualified for interview because part or all of their reeducation time was judged not to be associated with pre-1975 U.S. government policies or practices is a positive development. The Administration has agreed to implement this review not only for Montagnards who applied on or before the ODP deadline and have not yet been interviewed, but also for any previously registered Montagnards who contact the State Department and request review of their cases during a specified period of time. It is understood and expected that the specified period of time will be approximately one year beginning on or about January 1, 2000.

Note has been taken of the Administration's agreement with respect to allied combat veterans whose detention began a few days prior to April 30, 1975 (the date of the fall of Saigon) because they were located in places such as Hue or Da Nang, which fell to the Communists before Saigon. These veterans have been wrongfully rejected on the ground that they were "prisoners of war" rather than re-education camp inmates. The Administration has agreed not to apply this rule against any applicants who applied on or before the ODP deadline and not yet interviewed. The Administration is urged to reconsider its decision not to review and reverse previous denials based on this hypertechnical rule.

The undertaking by the U.S. Immigration and Naturalization Service (INS) to promulgate written guidance with respect to requests for reconsideration and/or reopening of denied refugee applications is appreciated. It is understood that the INS will issue guidelines which will assure that each applicant understands why his or her case was denied, both in the initial adjudication and in the event of a denial of a request for reconsideration or reopening, and that will ensure transparent and fair adjudication of such requests. It is expected that these guidelines will resolve various cases in which reconsideration has been denied although the original denial was clearly contrary to the interest of justice. Examples of such cases include those in which the adjudicator found that a family relationship was not proved, but in which the relationship can now be established by DNA tests; in which the denial was based on doubts about the validity of a document and in which the applicant can subsequently provide extrinsic evidence of the validity of the document; and in which an applicant recounts instances of persecution which would establish a prima facie case for refugee status, but which he or she was unwilling or unable to recount in the presence of an interpreter whom the applicant reasonably believed to be an agent of the persecuting government.

Finally, many members of Congress strongly disagree with the Administration's refusal to reopen cases of applicants who missed the deadline for the ODP and ROVR programs due to circumstances beyond their control. According to refugee advocates, many of the people who missed the 1994 ODP deadline, including Montagnards in remote areas of the Central Highlands as well as re-education camp survivors who had been sentenced to internal exile in equally remote New Economic Zones, had no way of know-

ing about the deadline. Others were denied access to the program by brutal and/or corrupt local officials. Many of these people suffered terribly for their wartime associations with the United States. They then heeded our admonitions not to leave Viet Nam illegally by land or sea, choosing instead to wait patiently for their turn to resettle in the United States. The recent normalization of the U.S.-Viet Nam diplomatic relationship should have been used as an opportunity to get access to these people. Similarly, some Vietnamese asylum seekers appear to have been effectively prevented from signing up for ROVR because they were detained away from the registration sites. Others appear to have been misinformed about the ROVR criteria, or even denied the right to register, by host country officials who were themselves misinformed about the program. Some refugees in Thailand were even threatened with punishment upon return to Vietnam by an official Vietnamese delegation visiting their camp for the ostensible purpose of encouraging return under the ROVR program. Many members of Congress continue to believe that the Administration should consider on the merits all cases of eligible applicants who missed program deadlines for these and other compelling reasons.

ORGANIZATION AND PERSONNEL OF THE DEPARTMENT OF STATE

ORGANIZATION MATTERS

LEGISLATIVE LIAISON OFFICES OF THE DEPARTMENT OF STATE

Section 301 requires the Department of State to develop a plan for establishing legislative liaison offices for the Department that would be based on Capitol Hill.

STATE DEPARTMENT OFFICIAL FOR NORTHEASTERN EUROPE

Section 302 requires the designation of a senior official from within the State Department to coordinate U.S. policy with regard to Northeastern Europe.

SCIENCE AND TECHNOLOGY ADVISER TO SECRETARY OF STATE

Section 303 requires the Secretary to designate a science and technology adviser with relevant experience within the Department of State.

APPLICATION OF CERTAIN LAWS TO PUBLIC DIPLOMACY FUNDS

Section 304 rewrites section 1333(c) of the Foreign Affairs Reform and Restructuring Act of 1998, to ensure that statutory restrictions on the use of public diplomacy funds will continue to apply either if funds are specifically authorized, or if funds are notified in a Congressional Presentation Document or reprogrammed for public diplomacy purposes. As this division does not include a separate authorization for public diplomacy funds. The substitute also reiterates that these restrictions will not impede the integration of USIA into the Department of State.

Specifically, this section amends section 1333 so that the Smith-Mundt and Zorinsky provisions will apply to all funds identified as public diplomacy funds in the Department's Congressional Presentation Document (CPD) or in any reprogramming of funds

for public diplomacy purposes. The amendment also adds a new paragraph on construction of the provision. In particular, it provides that the provisions of section 1333(c) do not supersede existing reprogramming procedures. This provision is intended only to make clear that if, subsequent to the submission of the CPD, the Administration submits a reprogramming notification in accordance with the procedures that apply to a reprogramming of funds under section 34 of the State Department Basic Authorities Act, funds reprogrammed pursuant to such a notification for purposes other than public diplomacy will not be subject to the Smith-Mundt and Zorinsky restrictions on account of their previous identification as public diplomacy funds in a CPD.

DIPLOMATIC TELECOMMUNICATIONS SERVICE PROGRAM OFFICE

Section 305 authorizes \$18 million for enhancement of Diplomatic Telecommunications Service capabilities to be available until a comprehensive chargeback system is in place. In addition the provision requires the Diplomatic Telecommunications Service Program Office (DTS-PO) to: 1) ensure that enhancements of telecommunications capabilities be done with a priority on national security interests; 2) terminate leases for satellite systems located at posts in criteria countries be done not later than December 31, 1999, unless certain conditions are met; 3) institute a system of charges for utilization of bandwidth, and a chargeback system to recover the costs of telecommunications services provided to other federal agencies; 4) ensure that DTS-PO policies and procedures comply with those established by the Overseas Security Policy Board; and 5) maintain the allocation of the positions of Director and Deputy Director of DTS-PO as assigned as of June 1, 1999. Finally, it requires a report by the Director and Deputy Director of DTS-PO regarding the plan for improving specific communications capabilities.

PERSONNEL OF THE DEPARTMENT OF STATE

AWARDS OF FOREIGN SERVICE STARS

Section 321 modifies the State Department Basic Authorities Act of 1956 to create the Foreign Service Star award. The Foreign Service Star may be awarded by the President to any member of the Foreign Service or other federal employee who is wounded, injured, or contracts an illness while employed in an official capacity overseas. The Secretary of State will determine the procedures for awarding the Foreign Service Star, as well as selecting those to be recommended for the award. Flexibility is provided to the Secretary as to the date of the incident for which the award is being given.

UNITED STATES CITIZENS HIRED ABROAD

Section 322 deletes a statutory requirement that U.S. citizens hired locally by overseas posts be provided a total compensation package that has "the equivalent cost to that received by foreign national employees occupying the similar position at post."

LIMITATION ON PERCENTAGE OF SENIOR FOREIGN SERVICE ELIGIBLE
FOR PERFORMANCE PAY

Section 323 reduces the percentage of members of the senior Foreign Service who can receive performance pay in a fiscal year from 50 percent to 33 percent.

PLACEMENT OF SENIOR FOREIGN SERVICE PERSONNEL

Section 324 requires a regular report on the placement of Senior Foreign Service Officers.

REPORT ON MANAGEMENT TRAINING

Section 325 requires the Secretary of State to produce a report to the Congress regarding modifications to existing training programs so as to provide Department employees with "significant and comprehensive management training at all career grades for Foreign Service personnel."

WORKFORCE PLANNING FOR FOREIGN SERVICE PERSONNEL BY
FEDERAL AGENCIES

Section 326 requires the Secretary of State to submit a report to the Congress every four years that describes the workforce plan for the following 5-year period, and that outlines the steps taken to promote uniform policies among agencies utilizing the Foreign Service personnel system.

RECORDS OF DISCIPLINARY ACTIONS

Section 327 requires that any disciplinary action of a Foreign Service member requiring more than five-days suspension from the Foreign Service be included in the member's personnel file until tenured or next promoted.

LIMITATION ON SALARY AND BENEFITS FOR MEMBERS OF THE
FOREIGN SERVICE RECOMMENDED FOR SEPARATION FOR CAUSE

Section 328 requires the Secretary to place a Foreign Service Member on leave without pay if that individual is recommended for separation from the Service for cause.

TREATMENT OF GRIEVANCE RECORDS

Section 329 amends the Foreign Service Act of 1980 to ensure that proper documentation of disciplinary action is available to tenure and selection boards, by permitting the placement in the performance file of an employee who has been disciplined a notice that the discipline has been reviewed and sustained by the Foreign Service Grievance Board.

DEADLINES FOR FILING GRIEVANCES

Section 330 reduces from three years to two years the time for filing a grievance. It does provide flexibility of an additional year for members who are filing a grievance regarding an evaluation if the Foreign Service member is still supervised by the reviewer or rater of the evaluation.

REPORTS BY THE FOREIGN SERVICE GRIEVANCE BOARD

Section 331 requires the Foreign Service Grievance Board to compile information regarding its cases, and provide an annual report regarding the Board's activities during the previous year.

EXTENSION OF USE OF FOREIGN SERVICE PERSONNEL SYSTEM

Section 332 permits the State Department to allow non-State Department agencies to use the Foreign Service Act to appoint individuals abroad and to use the Foreign Service personnel system for those employees.

BORDER EQUALIZATION PAY ADJUSTMENT

Section 333 amends the Foreign Service Act of 1980 to provide for payment of a border equalization adjustment to an employee who regularly commutes from his or her home in the U.S. to an official duty station in Canada or Mexico. The adjustment is equal to the amount that the employee would receive as locality pay (under section 5304 of title 5, United States Code) if assigned to an official duty station within the United States locality pay area closest to the employee's official duty station. This provision was contained in the Fiscal Year 1999 Commerce, Justice, State Department Appropriations Act; this section would make the authority permanent.

TREATMENT OF CERTAIN PERSONS REEMPLOYED AFTER SERVICE WITH INTERNATIONAL ORGANIZATIONS

Section 334 provides the full scope of retirement benefits to Federal employees who transfer to international organizations under 5 U.S.C. 3582 by allowing such employees to participate in the Thrift Savings Plan ("TSP") for the period of their transfer to the international organization. This section amends the Thrift Savings provisions of Title 5 to allow persons who transfer to international organizations the ability to make up missed TSP contributions after they are re-employed in Federal service. The employee's make-up contributions are limited by the maximum annual employee contribution for the year in which the contributions would have been made. This section also provides that, with respect to persons covered under the 'new' retirement systems, the employing agency provides associated agency automatic contributions and retroactive matching contributions, as well as lost earnings on the agency contributions.

TRANSFER ALLOWANCE FOR FAMILIES OF DECEASED FOREIGN SERVICE PERSONNEL

Section 335 allows the Department to pay a "transfer allowance" (which covers certain costs associated with returning home to the United States) to surviving family members of overseas employees who are killed in the line of duty.

PARENTAL CHOICE IN EDUCATION

Section 336 allows certain overseas employees to elect to send their dependents to schools away from post at government expense,

so long as the cost does not exceed the cost to the government of sending those dependents to adequate schools at the post of the employee.

MEDICAL EMERGENCY ASSISTANCE

Section 337 permits an advance of up to 3 months' pay to an employee who must undergo certain types of medical treatment abroad.

REPORT CONCERNING FINANCIAL DISADVANTAGES FOR ADMINISTRATIVE AND TECHNICAL PERSONNEL

Section 338 requests that the Department prepare a report for the Congress on the financial disadvantages suffered by administrative and technical personnel posted to U.S. missions abroad as a result of their not having diplomatic status.

STATE DEPARTMENT INSPECTOR GENERAL AND PERSONNEL INVESTIGATIONS

Section 339 requires the State Department Inspector General when conducting criminal investigations to abide by professional standards applicable to all law enforcement agencies and to provide subjects of investigations an opportunity to provide exculpatory information. In addition the provision mandates that the Inspector General report to Congress the instances when persons named in a report were not provided an opportunity to refute allegations or assertions made about the person in a final report of investigations. This section clarifies that the Inspector General must provide an opportunity to comment on allegations of wrongdoing or assertions regarding a material fact when they are set out in a final report of investigation. In addition, this section makes clear that failure to comply with this section does not give rise to any private right of action. This section makes several additional changes.

The term "Final Report of Investigation" as used in the provision means the written document produced by the Office of the Inspector General at the conclusion of the investigative phase of a case which is thereafter transmitted to the Department of Justice or Bureau of Personnel for possible prosecutorial or administrative action. Initial referrals or summaries provided to the Department of Justice by the Inspector General do not constitute a "Final Report of Investigation" as used in this amendment. This section is not intended to impede the development of a criminal prosecution by the Department of Justice.

In addition the notification required by new subparagraph (F) of section 209(d)(2) of the Foreign Service Act may summarize briefly the cases where the Inspector General did not afford an opportunity to refute the allegation of wrong doing or assertion of material fact.

STUDY OF COMPENSATION FOR SURVIVORS OF TERRORIST ATTACKS OVERSEAS

Section 340 requires the President to examine and report on the current benefit structure of survivors of U.S. government employees who are killed while serving abroad. The purpose is to

evaluate whether the benefits are adequate, fair, and equitably distributed.

PRESERVATION OF DIVERSITY IN REORGANIZATION

Section 341 amends the Foreign Affairs Reform and Restructuring Act of 1998 to ensure women and minorities are not adversely affected by the reorganization while maintaining the flexibility to transfer all employees throughout the Department of State.

UNITED STATES INFORMATIONAL, EDUCATIONAL, AND CULTURAL PROGRAMS

EDUCATIONAL AND CULTURAL EXCHANGES AND SCHOLARSHIPS FOR TIBETANS AND BURMESE

Section 401 extends the authorization for the exchange and scholarship programs for Tibetan and Burmese exiles (contained in Public Law 104–319, the Human Rights, Refugee, and Other Foreign Relations Provisions Act of 1996) through fiscal years 2000 and 2001. It also renames the Tibetan exchange program after Ngawang Choephel, the Fulbright Scholar and ethno-musicologist who is now serving a fifteen-year prison sentence on false charges brought by the Chinese government.

CONDUCT OF CERTAIN EDUCATIONAL AND CULTURAL EXCHANGE PROGRAMS

Section 402 revises the Human Rights, Refugee, and Other Foreign Relations Provisions Act of 1996. Subsection (a) is intended to ensure that programs of exchange with countries whose people do not fully enjoy freedom and democracy shall afford opportunities for significant participation for human rights and democracy leaders in such countries as well as to other persons who are committed to advancing human rights and democratic values. The term “where appropriate” in this section is intended solely to make clear that the section does not mandate significant participation by such persons in exchanges whose subject matter does not lend itself to such participation. The section does not require significant participation by human rights and democracy advocates in every single exchange with a country described in the section, but only that the programs in each such country, viewed in the aggregate, afford the opportunity for significant participation for such persons.

It is particularly important to note that the term “where appropriate” is not intended to allow the denial of participation in U.S. exchanges to human rights and democracy advocates possessing the requisite academic or professional qualifications on the grounds that such participation would cause political or diplomatic difficulties for the Department or for an exchange grantee organization.

The inclusion of human rights and democracy leaders or persons committed to the advancement of human rights and democratic values in U.S. exchange programs may in some cases involve an element of risk for the participant. The Department should take all appropriate steps to ensure that the personal safety of the participant is not compromised by inclusion in such a program.

Subsection (b)(2) calls on the Department to consider, in selecting grantee organizations for such programs, the willingness and ability of the organization to ensure that the governments of the countries described in the section do not have "inappropriate influence" in the process of selecting participants. This provision requires, among other requirements, that grantee organizations not select individual participants who are so thoroughly committed to the suppression of human rights and democracy that their selection could create an impression that the United States condones such suppression.

Finally, this section amends section 102 of the Human Rights, Refugee, and Other Foreign Relations Provisions Act of 1996 to eliminate the illustrative list of countries whose people do not fully enjoy freedom and democracy. This list is unnecessary in light of the clear application to these and other countries of the generic description contained in the section. The elimination of the list is not intended to imply that the people of any of the listed countries now fully enjoy freedom and democracy.

NATIONAL SECURITY MEASURES

Section 403 requires the State Department to take appropriate steps to ensure that foreign espionage agents do not participate in U.S.-funded exchange programs.

SUNSET OF UNITED STATES ADVISORY COMMISSION ON PUBLIC DIPLOMACY

Section 404 provides the U.S. Advisory Commission on Public Diplomacy with an additional two years of operation prior to sunseting the authority. The Commission will operate at half the current staff and operating costs. The Commission will become a standard State Department advisory committee when its statutory authority sunsets at the end of fiscal year 2001.

ROYAL ULSTER CONSTABULARY

Section 405 addresses certain training programs. For the past several years, the Federal Bureau of Investigation has conducted training programs for members of the Royal Ulster Constabulary (RUC) at the National Academy training program in Quantico, Virginia. This section requires that before further FBI or other federal law enforcement training for RUC members takes place, the President must submit a report on the FBI training for RUC members over the past five fiscal years. The President also must certify that the training is necessary and includes a significant human rights component, and that vetting procedures have been established to ensure that RUC members who had substantial knowledge of human rights violations or harassment of defense attorneys but failed to act on this knowledge are not included in the training program.

Such training should be conducted in a manner that supports the implementation of the September 1999 report issued by the Independent Commission on Policing for Northern Ireland. The report set forth 175 recommendations for the establishment of a new police service in Northern Ireland in the context of a peaceful reso-

lution of the “Troubles” in Northern Ireland. One of the recommendations was a suggestion that “[i]nternational training exchanges should be further developed, focusing in particular on matters where the police in Northern Ireland need overseas police cooperation and on best practice developments in policing worldwide.” (Recommendation 169).

RUSSIAN AND UKRANIAN BUSINESS MANAGEMENT EDUCATION

Sections 421–426 authorize \$10,000,000 to provide training programs in Russia and Ukraine for their nationals to obtain skills in business administration, accounting, and marketing, with special emphasis on instruction in business ethics and in the basic terminology, techniques, and practices of those disciplines in order to achieve international standards of quality, transparency, and competitiveness.

UNITED STATES INTERNATIONAL BROADCASTING ACTIVITIES

REAUTHORIZATION OF RADIO FREE ASIA

Section 501 extends the sunset of Radio Free Asia for 10 years and provides for a cap of \$30 million for fiscal years 2000 and 2001 to operate Radio Free Asia.

NOMINATION REQUIREMENTS FOR THE CHAIRMAN OF THE BROADCASTING BOARD OF GOVERNORS

Section 502 modifies the provision of law creating the Broadcasting Board of Governors, which oversees all U.S. government-sponsored international broadcasting. The section subjects the designation of the position of Chairman of the Broadcasting Board of Governors to Senate advice and consent. Current law provides that all members are subject to Senate confirmation, but the President may designate any of these members as chairman at any time. Given that the Board became an independent entity in October, pursuant to the Foreign Affairs Reform and Restructuring Act of 1998, the Committee believes the appointment of the Chairman of the Board should be subject to Senate confirmation.

PRESERVATION OF RFE/RL (RADIO FREE EUROPE/RADIO LIBERTY)

Section 503 repeals a 1994 “sense of Congress” provision that RFE/RL should receive no U.S. government support after fiscal year 1999 and replaces it with a provision that would support RFE/RL broadcasting so long as certain specified conditions do not occur.

IMMUNITY FROM CIVIL LIABILITY FOR BROADCASTING BOARD OF GOVERNORS

Section 504 provides the same immunity to the Broadcasting Board of Governors when acting with regard to RFE/RL and Radio Free Asia (RFA) matters as they would have when acting as the Broadcasting Board of Governors.

EMBASSY SECURITY AND COUNTERTERRORISM MEASURES

SHORT TITLE

Section 601 states that this title may be cited as the “Secure Embassy Construction and Counterterrorism Act of 1999”.

FINDINGS

Section 602 sets forth findings regarding the bombing of the U.S. Embassies in Dar es Salaam, Tanzania, and Nairobi, Kenya in August 1998, and the subsequent investigation by the State Department Accountability Review Boards, which were chaired by Admiral William Crowe, USN (ret.).

UNITED STATES DIPLOMATIC FACILITY DEFINED

Section 603 defines the term “United States diplomatic facility” to track with those used to notify foreign governments of U.S. diplomatic presence. This definition extends to other agencies that have a bilateral agreement with the host government so long as the records are contained in the State Department records. It is expected that the State Department will ensure it retains a record of all such agreements in its files so that this provision will have the broad application to U.S. agencies that is intended.

AUTHORIZATIONS OF APPROPRIATIONS

Section 604 authorizes \$900 million in each of fiscal years 2000, 2001, 2002, 2003, and 2004 for Embassy Security, Construction and Maintenance. It also provides that any amounts which are authorized in a particular fiscal year, but for which the full amount is not appropriated in that fiscal year, carry forward and remain available in subsequent fiscal years until such amounts are appropriated.

OBLIGATIONS AND EXPENDITURES

Section 605 contains several provisions designed to ensure that funds appropriated to the Embassy Security, Construction and Maintenance Account are used only for (1) the intended purpose and (2) high priority projects.

Subsection (a) provides that funds be made available only for new construction or major security enhancements needed to bring U.S. diplomatic facilities into compliance with security standards. The Secretary of State is required to submit an annual report on the facilities that are a priority for replacement because of their vulnerability to terrorist attack. The report must list such facilities in groups of 20. The groups of 20 must then be ranked in order of most to least vulnerable. Funds made available in the account may only be used for those facilities in the first four groups—that is, the 80 most vulnerable facilities.

However, there are some exceptions: (1) The substitute provides an exception to the requirement that funds be used only for the first 80 facilities or posts on the list of facilities that are a priority for replacement. The amendment provides that the list required by subsection (a) may contain either diplomatic facilities or diplomatic and consular posts. This change is intended to allow the

Department to identify either a single facility, or a city where a number of facilities are located, as occupying a single place on the list. (2) In addition, funds may be used for facilities beyond that list in two circumstances. First, if Congress authorizes or appropriates for a specific diplomatic facility, the Department may proceed with acquisition of such a facility even if it is not on the list. This exception recognizes that the President and the Secretary of State may request funds for acquisition of a new facility in the budget request. If Congress approves funds for that aspect of the budget request in a future authorization or appropriations bill, either specifically or in a lump sum authorization or appropriation, the Department may move forward with acquisition of the facility. Second, the exception applies if the Secretary notifies the appropriate congressional committees that the Department intends to use funds for such a facility in accordance with the procedures applicable to a reprogramming of funds under section 34 of the State Department Basic Authorities Act.

Subsection (b) prohibits the transfer of funds from this account.

Subsection (c) requires semiannual reports on obligations and expenditures from the account, projected obligations and expenditures, and the status of ongoing projects.

SECURITY REQUIREMENTS FOR UNITED STATES DIPLOMATIC FACILITIES

Section 606 identifies new security requirements with respect to United States diplomatic facilities. These new requirements, which are based on recommendations of the Accountability Review Board, are specifically focused on the threat of large vehicular bombs.

The section requires: (1) the Emergency Action Plan of each United States mission to address the threat of large explosive attacks vehicles and the safety of employees during such an attack; (2) that the State Department Security Environment Threat List contain a section that addresses potential acts of international terrorism against United States diplomatic facilities based on threat identification criteria that emphasize the threat of transnational terrorism, host government support and other relevant factors; (3) the State Department, in selecting sites for diplomatic facilities, to adhere to its existing security standard (set forth in 12 Foreign Affairs Handbook-5) requiring that all U.S. government offices and activities subject to the authority of the Chief of Mission be located in the same chancery buildings or on the same compound. Exceptions can be granted if the Secretary of State certifies to Congress that it is in the national interest of the United States to do so. This authority cannot be delegated by the Secretary of State; (4) each newly acquired or constructed U.S. diplomatic facility to be situated not less than 100 feet from the perimeter of the property on which the facility is situated. An exception can be granted if the Secretary of State certifies to Congress that it is in the national interest of the United States to do so. In addition to this primary threat, more attention should be given to providing integrated, real-time chemical and biological agent detection and identification, which is critical to protecting diplomatic facilities. The State Department should also evaluate the possibility of integrating a detec-

tion capability for chemical and biological weapons, and immediate action response to such a detection, in the physical security procedures of diplomatic facilities overseas; (5) the State Department to conduct crisis management training for State Department Headquarters personnel, as well as personnel serving in facilities overseas; (6) the State Department to provide sufficient support to the Foreign Emergency Support Team (FEST) to identify personnel to serve on the FEST as a collateral duty, conduct routine training exercises, and provide any additional support that may be necessary to make the FEST more effective in a post-crisis environment; (7) the President to develop a plan to replace on a priority basis the current FEST aircraft funded by the Department of Defense with a reliable replacement and backup aircraft. Not later than 60 days after the enactment of this act, the President shall submit to Congress a report describing the aircraft selected pursuant to this provision; (8) the Secretary of State to enter into a memorandum of understanding with the Secretary of Defense to better coordinate the requirements for a more effective rapid response procedure in times of emergency with respect to US diplomatic facilities; (9) all United States diplomatic facilities to maintain emergency equipment and records required stored at an offsite facility in case of an emergency situation; and (10) fitness standards be implemented for diplomatic security agents.

This section clarifies that waivers required for collocation and setback may not be delegated in the case of chancery and consulate buildings. All other cases may be delegated, but those decisions will still be made by senior State Department officials. This flexibility was added with the expectation that waivers used by the Secretary would be infrequent and therefore considered more seriously in the instances such a waiver is exercised. The grant of authority to delegate has been provided to the State Department only and has not been provided to other federal agencies for decisions regarding collocation. In this context, "chancery and consulate buildings" means a building solely or substantially occupied by the U.S. Government that is newly constructed or otherwise acquired where the main business of the U.S. Government is performed in that city. For example, the American Presence Posts are regarded as "consulates" but do not perform the same tasks and are intended to operate with one or two American employees.

AUTHORITY TO LEASE AIRCRAFT TO RESPOND TO A TERRORIST ATTACK ABROAD

Section 606(a)(7) provides the FBI with the authority for indemnification in the event of leasing aircraft pursuant to the authority provided for in the Commerce-State-Justice and the Judiciary Appropriation Act for fiscal year 2000.

REPORT ON OVERSEAS PRESENCE

Section 607 requires the Secretary of State to review the report of the Overseas Presence Advisory Panel, which, according to its Charter, was charged with preparing a report recommending the criteria by which the Department, working with Chiefs of Mission, might determine the location, size, and composition of overseas posts in the coming decade. The Panel was also tasked with pro-

posing a multi-year funding program for the Department to achieve the appropriate U.S. presence overseas.

The Panel issued its report on November 5, 1999. After reviewing the work of the Panel, the Secretary is required by this section to submit to Congress a report responding to that review and specified items, regardless of whether these are addressed by the Overseas Presence Panel. The Secretary's report will determine whether any U.S. diplomatic facility should be closed due to high vulnerability to terrorist threat and if adequate security enhancements cannot be provided to that facility. It will contain an analysis of the concept of regional facilities and recommend whether such a concept should be implemented at appropriate diplomatic facilities.

ACCOUNTABILITY REVIEW BOARDS

Section 608 modifies Section 301 of the Omnibus Diplomatic Security and Antiterrorism Act of 1986, which requires the convening of Accountability Review Boards to examine an instance of serious injury, loss of life, or significant destruction of property at or related to a U.S. government mission abroad, or in case of serious breach of security involving intelligence activities of a foreign government. Under current law, there is no deadline for the convening of a board following such an event. This provision requires the Secretary of State to convene a board within 60 days of the event, and allows two 30-day extensions of this deadline. This provision does not apply to breaches of security involving intelligence activities.

INCREASED ANTITERRORISM TRAINING IN AFRICA

Section 609 requires a report by the Secretary on the establishment of an International Law Enforcement Academy in Africa.

INTERNATIONAL COMMISSIONS AND ORGANIZATIONS OTHER THAN THE UNITED NATIONS

INTERPARLIAMENTARY GROUPS

Section 701 provides technical changes to the name of the Transatlantic Legislators' Dialogue and the North Atlantic Assembly.

AUTHORITY OF THE INTERNATIONAL BOUNDARY AND WATER COMMISSION TO ASSIST STATE AND LOCAL GOVERNMENTS

Section 702 permits the U.S. Section of the International Boundary and Water Commission to provide tests, surveys, and other services on a reimbursable basis to state or local governments that request them. Reimbursements will be credited to the appropriation from which the cost of providing the services is paid.

INTERNATIONAL BOUNDARY AND WATER COMMISSION

Section 703 authorizes the International Boundary and Water Commission (IBWC) to use contributions from binational organizations for projects along the U.S.-Mexico border. It would also allow the U.S. section of the IBWC to apply a user fee toward operations

and maintenance of the bridge between El Paso, Texas, and Juarez, Mexico.

SEMIANNUAL REPORTS ON UNITED STATES SUPPORT FOR MEMBERSHIP
OR PARTICIPATION OF TAIWAN IN INTERNATIONAL ORGANIZATIONS

Section 704 requires semiannual reports, with a classified annex, from the Secretary of State on the United States government's efforts to boost efforts toward Taiwan's appropriate membership or participation in international organizations.

RESTRICTION RELATING TO UNITED STATES ACCESSION TO THE
INTERNATIONAL CRIMINAL COURT

Section 705 prohibits funding for use by, or in support of the International Criminal Court, without Senate advice and consent to the treaty establishing the Court. On July 17, 1998 a majority of nations at the U.N. Diplomatic Conference in Rome, Italy, on the Establishment of an International Criminal Court voted 120-7, with 21 abstentions, in favor of a treaty that would establish an international criminal court. The court is empowered to investigate and prosecute war crimes, crimes against humanity, genocide and aggression. The United States voted against the treaty.

PROHIBITION ON EXTRADITION OR TRANSFER OF UNITED STATES
CITIZENS TO THE INTERNATIONAL CRIMINAL COURT

Section 706 prohibits the use of funds to extradite any U.S. citizen to a foreign country that is under an obligation to surrender individuals to the International Criminal Court unless that country provides direct assurances to the United States that applicable prohibitions in existing extradition treaties apply to such surrender or gives other satisfactory assurances to the United States that it will not transfer that individual to the International Criminal Court (ICC). This section also bars the United States from providing consent to the transfer of such individual to a third country under an obligation to surrender persons to the ICC unless that third country confirms to the United States that applicable prohibitions on reextradition apply or gives other satisfactory assurances to the United States that it will not transfer that individual to the ICC.

REPORTS REGARDING FOREIGN TRAVEL

Section 707 extends the reporting requirement to fiscal years 2000-2001 and changes the reporting dates to January 31 and July 31 of each year with regard to travel by the Executive Branch for purposes of diplomatic conferences.

UNITED STATES REPRESENTATION AT THE INTERNATIONAL ATOMIC
ENERGY AGENCY

Section 708 eliminates the Washington-based representative to the International Atomic Energy Agency (IAEA) and shifts those duties to the existing post of U.S. Representative to U.N. agencies based in Vienna.

UNITED NATIONS ACTIVITIES

UNITED NATIONS POLICY ON ISRAEL AND THE PALESTINIANS

Section 721 supports United States policy of seeking to end the inequity that Israel be denied participation in a regional bloc at the United Nations and therefore the opportunity of a rotating seat on the Security Council of the United Nations.

This section also supports a United States policy seeking to abolish certain groups within the United Nations, such as the Committee on the Exercise of the Inalienable Rights of the Palestinian People which reflects an anti-Israel bias.

Annual reports and consultations with the Congress on actions to accomplish the stated policies are also a requirement.

DATA ON COSTS INCURRED IN SUPPORT OF UNITED NATIONS
PEACEKEEPING OPERATIONS

Section 722 requires the United States to report annually to the United Nations on the total costs of United States Department of Defense activities in support of Security Council resolutions—including assessed, voluntary and incremental costs. The section also requires the United States to request that the United Nations prepare and publish a report that compiles similar information for other United Nations member states. This comprehensive reporting will quantify all costs to the United States for peacekeeping activities, and enable the Congress to consider those costs in relation to the proposed operation or expansion of an operation prior to action by the United Nations Security Council.

REIMBURSEMENT FOR GOODS AND SERVICES PROVIDED BY THE
UNITED STATES TO THE UNITED NATIONS

Section 723 is intended to ensure that the U.S. Government is reimbursed by the United Nations in a timely manner for military assistance it provides in support of the United Nations or U.N. peacekeeping operations, whether this assistance is provided to the United Nations or to another country participating in such an operation. The section is not intended to apply to civilian police monitors, which are funded individually by the nation contributing monitors. As drafted, this section does not impede the President in his ability to use any constitutional authority to provide assistance at any time. This section exempts the deployment of United States troops by the President from the requirement of reprogramming procedures under section 634A of the Foreign Assistance Act of 1961. As written, this section does not affect the President's constitutional authority as Commander-in-Chief. Nothing in this section shall be construed as an authorization of the use of force.

CODIFICATION OF REQUIRED NOTICE OF PROPOSED UNITED NATIONS
PEACEKEEPING OPERATIONS

Section 724 consolidates many current reporting requirements regarding international peacekeeping activities.

MISCELLANEOUS PROVISIONS

DENIAL OF ENTRY INTO UNITED STATES OF FOREIGN NATIONALS ENGAGED IN ESTABLISHMENT OR ENFORCEMENT OF FORCED ABORTION OR STERILIZATION POLICY

Section 801 requires the Secretary of State to deny a visa to any foreign national who the Secretary of State finds to have been directly involved in the establishment or enforcement of coercive population control policies. Drafted with flexibility for the executive branch in mind, this provision allows the Secretary of State to determine which officials meet this definition, contains exceptions for heads of state, heads of government and cabinet level officials, and also contains a national interest waiver. In addition, it provides the Secretary some flexibility in cases where a foreign national has discontinued support for or involvement with such coercive population policies.

TECHNICAL CORRECTIONS

Section 802 makes several technical corrections to the Foreign Affairs Reform and Restructuring Act.

REPORTS WITH RESPECT TO A REFERENDUM ON WESTERN SAHARA

Section 803 requires reporting on the efforts of the Government of Morocco and the Popular Front for the Liberation of Seguia el Hamra, and Rio de Oro (POLISARIO) to bring about a referendum regarding the status of the Western Sahara.

REPORTING REQUIREMENTS UNDER PLO COMMITMENTS COMPLIANCE ACT OF 1989

Section 804 requires reporting regarding aid to the Palestinian Authority and democratic reforms.

REPORT ON TERRORIST ACTIVITY IN WHICH UNITED STATES CITIZENS WERE KILLED AND RELATED MATTERS

Section 805 requires reporting requirements regarding terrorist attacks in the territory of Israel or territories administered by Israel or the Palestinian Authority in which U.S. citizens were killed or injured.

ANNUAL REPORTING ON WAR CRIMES, CRIMES AGAINST HUMANITY AND GENOCIDE

Section 806 requires that the annual human rights report contain information regarding commission of war crimes, crimes against humanity and genocide.

RESTRICTIONS ON NUCLEAR COOPERATION WITH NORTH KOREA

Subtitle B of Title VIII addresses issues of nuclear cooperation with North Korea. Under the 1994 Agreed Framework between the United States and North Korea, President Clinton committed the United States to arrange the construction in North Korea of two 1000 megawatt(e) light water nuclear reactors. Inasmuch as these reactors are to be of U.S. design, it will be necessary under the Atomic Energy Act of 1954 for the United States and North Korea

to enter a bilateral agreement for cooperation in the field of nuclear energy before key components of the reactors can be transferred to North Korea. In recognition of this requirement under existing U.S. law, both countries explicitly committed themselves in the Agreed Framework to conclude such an agreement.

The Agreed Framework contemplates that the bilateral agreement for nuclear cooperation will come into effect when a significant portion of the reactor project is completed. This coincides with the time under the Agreed Framework when North Korea is obligated to come into full compliance with its safeguards agreement with the International Atomic Energy Agency (IAEA) and permit the IAEA full access to all sites and information in North Korea that the IAEA deems necessary to verify the accuracy and completeness of its initial report to the IAEA.

This section requires that no agreement for nuclear cooperation with North Korea may become effective, no licenses may be issued for export directly or indirectly to North Korea of any nuclear material, facilities, components, or other goods, services or technology, and no approval may be given for the transfer or re-transfer directly or indirectly to North Korea of any nuclear material, facilities, components, or other goods, services or technology, until the President makes a determination and report to specified committees of Congress.

The determination requirement has seven elements. The basic thrust of the required determinations is that North Korea is in full compliance with its obligations under the Agreed Framework. Actions that would undermine the object and purpose of the Agreed Framework that are addressed in specific elements of the determination requirement include having a uranium enrichment facility or a nuclear reprocessing facility elsewhere than at the facilities frozen pursuant to the Agreed Framework, making significant progress toward acquiring or developing such facilities, and either having nuclear weapons or making significant efforts to acquire, develop, test, produce, or deploy such weapons.

These requirements apply in addition to all other applicable procedures, requirements and restrictions contained in the Atomic Energy Act of 1954 and other laws.

PEOPLE'S REPUBLIC OF CHINA

FINDINGS

Section 871 contains the findings that are largely a restatement and concurrence with the findings of the State Department in its Country Reports on Human Rights Practices, which noted that serious human rights abuses persisted and, in some cases, intensified in China in 1998.

FUNDING FOR ADDITIONAL PERSONNEL AT DIPLOMATIC POSTS TO REPORT ON POLITICAL, ECONOMIC, AND HUMAN RIGHTS MATTERS IN THE PEOPLE'S REPUBLIC OF CHINA

Section 872 provides \$2,200,000 for each of fiscal years 2000 and 2001 for additional personnel at the United States embassies in China and Nepal, and U.S. consulates in China, for the moni-

toring of political and social conditions with particular emphasis and respect for human rights.

PRISONER INFORMATION REGISTRY FOR THE PEOPLE'S REPUBLIC OF
CHINA

Section 873 requires the establishment of a registry to list and provide information on all known political prisoners in China. According to the State Department, there are thought to be thousands of such prisoners in China, but to date, no comprehensive list of all known prisoners exists. The provisions allow the State Department to make funds available to non-government organizations to assist in establishing and maintaining the registry.

ARREARS PAYMENTS AND REFORM

GENERAL PROVISIONS

This subtitle (sections 901 and 902) outlines the short title and key definitions regarding this title.

ARREARAGES TO THE UNITED NATIONS

AUTHORIZATION OF APPROPRIATIONS

Section 911 authorizes \$100,000,000 in fiscal year 1998, \$475 million in fiscal year 1999, and \$244 million in fiscal year 2000 for the repayment of arrears to the United Nations, United Nations peacekeeping activities, United Nations specialized agencies, and other international organizations. Funds are authorized to remain available until expended. The funds for fiscal years 1998 and 1999 are already appropriated.

OBLIGATION AND EXPENDITURE OF FUNDS

Section 912 outlines the manner in which disbursements will be made, and requires that certification of specified reforms be completed prior to any disbursement of funds by the United States. The Secretary of State must notify the Congress 30 days prior to the disbursement of any funds. This section also provides the Secretary with the authority to waive two required certifications in order to disburse the funds authorized by this bill. Specifically, with respect to the funds authorized for fiscal year 1999, the Secretary may waive the certification that the United Nations has established a "contested arrears" account for disputed arrears if there is substantial progress in meeting this condition. A waiver of this condition shall require the Secretary to notify the United Nations that the United States Congress does not consider the United States obligated to pay these amounts. With respect to fiscal year 2000 funds the Secretary may waive the requirement that the United Nations and specialized agencies cap at 20 percent the U.S. share of the regular budget.

FORGIVENESS OF AMOUNTS OWED BY THE UNITED NATIONS TO THE
UNITED STATES

Section 913 permits the President to forgive the United Nations up to \$107 million in debt currently owed to the United States. In order to forgive this debt the United Nations must re-

duce its record of U.S. arrears to the United Nations by the amount of the debt forgiven by the United States.

UNITED STATES SOVEREIGNTY

CERTIFICATION REQUIREMENTS

Supremacy of the U.S. Constitution

Section 921 requires that the Secretary of State certify that no action has been taken by the United Nations or any of its agencies cause the United States to violate the Constitution.

No United Nations Sovereignty

Section 921 requires that the Secretary of State certify that neither the United Nations nor its specialized agencies have exercised authority over the United States or taken steps to require that the U.S. cede sovereignty.

No United Nations Taxation

Section 921 requires the Secretary of State to certify that U.S. law does not give the United Nations any legal authority to tax the American people; no taxes or comparable fees have in fact been imposed; and there has been no effort sanctioned by the United Nations to develop, advocate or promote such a taxation proposal. The exception for fees charged by the World Intellectual Property Organization is not intended to limit the scope of the exception for "fees for publications or other kinds of fees that are not tantamount to a tax on United States citizens", thus fees such as those charged by the International Telecommunications Union may be viewed as falling under the broader exception.

No United Nations Standing Army

Section 921 requires that the Secretary of State certify that the United Nations has not taken formal steps to create or develop a standing army under Article 43 of the United Nations Charter.

No Interest Fees

Section 921 requires that the Secretary of State must certify that interest fees have not been levied on the United States for any arrears owed to the United Nations.

No United Nations Real Property Rights

Section 921 provides that the Secretary of State must certify that neither the United Nations nor its specialized agencies have exercised any authority or control over public or private property in the United States. It is agreed that this section should not be construed to override obligations of the International Organization Immunities Act, the Agreement Regarding the Headquarters of the United Nations, supplemental agreements to the Agreement, the Convention on the Privileges and Immunities of the United Nations, or under any other agreement with the United States according the United Nations or its specialized agencies, privileges and immunities, or which are otherwise provided for under United States law, or apply to property occupied or utilized under lease, sublease, or contract with private or government owners.

Termination of Borrowing Authority

Section 921 provides that the Secretary of State must certify that the United Nations has not engaged in external borrowing, nor have the financial regulations of the United Nations or any of its specialized agencies been amended to permit borrowing, nor has the United States paid any interest for any loans incurred through external borrowing by the United Nations or its specialized agencies.

REFORM OF ASSESSMENTS AND UNITED NATIONS PEACEKEEPING
OPERATIONS

CERTIFICATION REQUIREMENTS

Section 931 requires that the Secretary shall not make her 1999 certification if she determines the 1998 certifications are no longer valid, and prior to payment of authorized arrears in fiscal year 1999, certify that the certification requirements set out below have been met.

Contested Arrears Account

Section 931 provides that the Secretary of State must certify a contested arrears account or some other appropriate mechanism has been created for the United States. This account represents the difference between what the United Nations says is owed by the United States and the amount recognized by the United States Congress. Thus, the sum of the obligations that the Congress is authorizing in this legislation is the total that the Congress will authorize to be appropriated to the United Nations for its arrears under the regular and peacekeeping budgets. Agreement must be reached with the United Nations that any monies identified in this account will not affect the voting rights of the United States as contained in Article 19 of the United Nations charter.

Limitation on Assessed Share of Budget for Peace Operations

Section 931 provides that the Secretary of State must certify that the share of the total peacekeeping budget for each United Nations assessed peace operation does not exceed 25 percent for any member.

Limitation on Share of Regular Budget

Section 931 provides that the Secretary of State must certify that the share of the total regular budget assessment for the United Nations does not exceed 22 percent for any member.

BUDGET AND PERSONNEL REFORM

CERTIFICATION REQUIREMENTS

Section 941 requires that the Secretary shall not make her fiscal year 2000 certification if she determines the fiscal year 1998 and 1999 certifications are no longer valid, and prior to payment of authorized arrears in fiscal year 2000, certify that the certification requirements set out below have been met.

Limitation on Assessed Share of Regular Budget

Section 941 provides that the Secretary of State must certify that the share of the total regular budget assessment for the United Nations and its specialized agencies does not exceed 20 percent for any member.

Inspector General for Certain Organizations

Section 941 provides that the Secretary of State must certify that the three largest U.N. specialized agencies—the International Labor Organization, the Food and Agriculture Organization, and the World Health Organization—have each established an internal inspector general office comparable to the Office of Internal Oversight Services established in the United Nations following a similar certification requirement in the Foreign Relations Authorization Act, Fiscal Year 1994–95 (section 401 of Public Law 103–236).

With regard to subsection (B), the approval of the member states of those organizations need not be expressed in a formal voting procedure, but may be expressed by means of ascertaining and taking into account the view of the member states. If such means is used in lieu of a formal vote, the views of the United States must be taken into account. With regard to the distribution of reports in subsection (F) of this requirement, what is essential is that the United States (and other Member States) have access to all annual and other relevant reports without modification, except to the extent it is necessary to protect the privacy rights of individuals. When privacy rights are impacted, reports may be redacted to protect individuals. However, it is not anticipated that wrongdoer cited in such reports are entitled to privacy protections.

New Budget Procedures for the United Nations

Section 941 provides that the Secretary of State must certify that the United Nations is implementing budget procedures that require the budget agreed to at the start of a budgetary cycle to be maintained, and the system-wide identification of expenditures by functional categories. For purposes of this section, system-wide identification of expenditures by functional categories means an object class distribution of resources. The object class distribution should accompany the initial regular assessed budget estimates for both the United Nations and its specialized agencies.

Sunset Policy for Certain United Nations Programs

Section 941 provides that the Secretary of State must certify that the United Nations and the International Labor Organization, the Food and Agriculture Organization, and the World Health Organization have each established an evaluation system that requires a determination as to the relevance and effectiveness of each program. The United States is required to seek a “sunset” date for each program unless the program demonstrates relevance and effectiveness. There is strong objection to the incorporation of funding for terminated programs into the baseline of the U.N. budget for the next biennium. Funding for programs which have ceased and one-time expenditures should not be carried over into the next budget cycle. The sunset of programs should result in financial savings for the member states.

United Nations Advisory Committee on Administrative and Budgetary Questions

Section 941 provides that the Secretary of State must certify that the United States has a seat on the United Nations Committee on Administrative and Budgetary Questions (ACABQ). Until 1997, the United States served on this committee since the creation of the United Nations. The ACABQ is key to the budgetary decisions at the United Nations and the United States, as the largest contributing nation, should have a seat on that Committee.

National Audits

Section 941 provides that the Secretary of State must certify that the General Accounting Office (GAO) contains access to United Nations financial data so that the GAO may perform nationally mandated reviews of all United Nations operations. Financial data means data pertaining to the financial transactions of the United Nations as well as data relating to its organization and activities. It is contemplated that as a result of this provision GAO will have access to the data it needs to conduct reviews of all U.N. operations.

Personnel

Section 941 provides that the Secretary of State must certify that the United Nations is enforcing a personnel system based on merit and is enforcing a worldwide availability of its international civil servants; a code of conduct is being implemented that requires, among other standards, financial disclosure statements by senior United Nations officials; a personnel evaluation system is being implemented; periodic assessments are being completed by the United Nations to determine total staffing levels and reporting of those assessments; and the United States has completed a review of the United Nations allowance system, including recommendations for reductions in allowances.

Reduction in Budget Authorities

Section 941 provides that the Secretary of State must certify that the International Labor Organization, the Food and Agriculture Organization, and the World Health Organization have each approved a budget that is a no-growth budget in the 2000–2001 biennium as compared to levels agreed to for the 1998–1999 budgets.

New Budget Procedures and Financial Regulations for Specialized Agencies

Section 941 provides that the Secretary of State must certify that the International Labor Organization, the Food and Agriculture Organization, and the World Health Organization have each established procedures that require the budget agreed to at the start of a budgetary cycle to be maintained; the system-wide identification of expenditures by functional categories; and approval of supplemental budget requests to the Secretariat in advance of appropriations for those requests.

Limitation on Share of Regular Budget for Specialized Agencies

Section 941 provides that the Secretary of State must certify that the share of the total regular budget assessment for the International Labor Organization, the Food and Agriculture Organization, and the World Health Organization does not exceed 22 percent for any member.

MISCELLANEOUS PROVISIONS

STATUTORY CONSTRUCTION ON RELATION TO EXISTING LAWS

Section 951 makes clear that this bill will not change or reverse any previous provision of law regarding restriction on funding to international organizations.

PROHIBITION ON PAYMENTS RELATING TO UNIDO AND OTHER INTERNATIONAL ORGANIZATIONS FROM WHICH THE UNITED STATES CONTAINS WITHDRAWN OR RESCINDED FUNDING

Section 952 prohibits payment to organizations from which the United States has withdrawn or from which Congress has rescinded funding because the United States no longer participates in the organization, including the United Nations Industrial Organization and the World Tourism Organization.

DIVISION B—ARMS CONTROL, NONPROLIFERATION, AND SECURITY ASSISTANCE

ARMS CONTROL AND NONPROLIFERATION

ARMS CONTROL

KEY VERIFICATION ASSETS FUND

Section 1111 gives an important new funding flexibility to the Department of State. The Senate proposal has been modified to authorize up to \$5,000,000 to be made available, for fiscal years 2000 and 2001, to a “Key Verification Assets Fund.” This fund is expected to be used for the research, development, and acquisition of verification technologies. However, because only a limited amount of funds is available, the Fund is directed to be generally used only as “seed money” for the Department to capitalize upon projects undertaken by other agencies.

Funds made available also may be used to retain verification assets. The Fund therefore can serve as a tool of the policy community in those instances when policy objectives diverge from intelligence community priorities. Again, because resources are limited, this Fund should not be used for the long-term retention of assets, but rather as an emergency, “stop-gap” funding source to keep critical verification assets afloat until a more appropriate source of funds can be identified.

In light of recent events, the Secretary of State needs to have discretionary funds available to prevent verification technologies and programs from falling by the wayside. The experience with the WC-135 aircraft (which is used to collect debris from nuclear tests) is a case in point. This plane is one of a kind, yet the Air Force tried to cancel this irreplaceable asset. Cancellation was narrowly

avoided, and sufficient resources were scraped together to keep the plane flying for the near term, although longer-term commitment to the program by both the executive branch and Congress is still very much in doubt.

Had resources been available under this account, the Secretary of State could have applied funds to keep the plane operating temporarily. Indeed, resources under the account may yet be needed. The Executive is urged to ensure that the Cobra Dane radar is retained.

Finally, while the authority to transfer funds made available to the "Key Verification Assets Fund" resides with the Secretary, it is intended that the Assistant Secretary of State for Verification and Compliance assume responsibility for the identification of technologies or programs to be funded and manage those programs once State Department funds are applied. Funds, if appropriated, may not be reprogrammed from this account.

ASSISTANT SECRETARY OF STATE FOR VERIFICATION AND COMPLIANCE

Section 1112 establishes a bureau within the Department of State to be headed by an Assistant Secretary of State for Verification and Compliance, as proposed by the Senate. The Department of State has not provided for such a Bureau as a successor to the Arms Control and Disarmament Agency's Bureau for Intelligence, Verification, and Information Support (IVI), despite the fact that this Bureau was the only entity within the United States Government in which the principal function was the verification and enforcement of arms control treaties and commitments.

The reorganization plan implemented by the Department of State to accomplish the merger with ACDA scattered IVI's staff, leaving in its stead a Special Assistant to the Under Secretary for Arms Control and International Security and a Deputy Assistant Secretary within a larger bureau, neither of whom is confirmed by the Senate. This is a demotion of verification and compliance functions, as the principal advocate for arms control verification now has a position of far less stature than his counterparts within the State Department regional bureaus, and elsewhere in the executive branch.

It is essential that the verification and compliance aspects of arms control and nonproliferation agreements are given a voice at the most senior policy-making levels. A true commitment to vigorous enforcement of arms control and nonproliferation agreements and sanctions cannot be maintained by submerging compliance analysis within other bureaus.

The need for an Assistant Secretary—and a Bureau—for Verification and Compliance is supported by former ACDA Directors Ron Lehman and Eugene Rostow, as well as several other key Reagan, Bush, and former Clinton Administration officials. In addition, the Chairman and Vice Chairman of the Senate Intelligence Committee have expressed support for such a step.

Accordingly, this division establishes the position of Assistant Secretary of State for Verification and Compliance (V&C) and identifies the principal authorities and responsibilities of the position. Specifically, section 1112 provides that the Assistant Secretary for

V&C has primary responsibility for all verification and compliance issues associated with arms control, nonproliferation, and disarmament agreements or commitments. As such, it is intended that the Assistant Secretary to have overall oversight of policy and resources relating to verification and compliance regarding not only various treaties, but also executive agreements and commitments, including those falling within the purview of regional bureaus (when such agreements or commitments pertain to arms control, nonproliferation, or disarmament).

Section 1112 ensures that—with some specific exceptions—the Assistant Secretary shall serve as the principal State Department participant in all executive branch interagency groups, including intelligence groups, concerned with verification or compliance matters. Further, this section stipulates that the Assistant Secretary for V&C, rather than any other official within the Department of State or elsewhere, shall be considered the principal liaison to the intelligence community on verification and compliance issues.

Finally, section 1112 identifies those reports, or portions thereof, for which the Assistant Secretary for V&C is to have primary responsibility. There is an inevitable tension between the enforcement of arms control, nonproliferation, and disarmament agreements and the implications that such enforcement has for various countries—and therefore the implications that the policies pursued by the Assistant Secretary for V&C will have for the policies pursued by other Bureaus. Therefore, these reports should be submitted to Congress as prepared by the Assistant Secretary to the maximum extent possible, with any concerns of other Bureaus or State Department officials presented in annexes to such reports.

ENHANCED ANNUAL (“PELL”) REPORT

Section 1113 expands the reporting requirement contained in section 403 of the Arms Control and Disarmament Act to include an assessment of the adherence of other nations to commitments such as the Missile Technology Control Regime (MTCR). Compliance with commitments such as the MTCR (which is central to U.S. nonproliferation efforts) is no less important than compliance with arms control measures, and should be assessed in the same report, according to the same standards.

Section 1113 further amends section 403 of the Arms Control and Disarmament Act by requiring that each report specifically identify, to the maximum extent practicable in unclassified form, each and every compliance question that arises. Although the need to protect sensitive intelligence information and information on diplomatic initiatives is understood, the argument that the confidentiality clause of the START Treaty, in and of itself, bars public identification of violations of that treaty is rejected by most Members. Previous reports included specific unclassified discussions of compliance.

Additionally, section 1113 requires that compliance questions be carried in each successive report until the situation of concern has been resolved and the conclusion reported to the Congress. In this way, violations will not be allowed to go unresolved or be forgotten.

REPORT ON START AND START II TREATIES MONITORING ISSUES

Section 1114 requires an assessment of the capabilities of the intelligence community to monitor compliance with the START and START II Treaties. Specifically, the report requires an assessment of all monitoring activities, the intelligence community assets and capabilities that the Senate was informed would be necessary to accomplish those activities, and the status of those assets. In addition, the report must contain an assessment of all Russian activities relating to the START Treaty which have an impact on the United States' ability to monitor Russian compliance with that Treaty. This section also allows the Director of Central Intelligence to provide exceptionally sensitive, compartmented information separately to the Intelligence Committees. The Intelligence Committees, in turn, have an obligation to make the committees of jurisdiction aware of the pertinent aspects of such information.

STANDARDS FOR VERIFICATION

Section 1115 amends section 306(a) of the Arms Export Control Act to provide the chairman and ranking minority member of the Foreign Relations Committee of the Senate and International Relations Committee of the House of Representatives with the ability to request verifiability assessments of proposals made to, and by, the United States. The Assistant Secretary of State for Verification and Compliance is intended to be responsible for such assessments in accordance with the authorities under section 1112.

CONTRIBUTION TO THE ADVANCEMENT OF SEISMOLOGY

Section 1116 relates to seismic monitoring of underground events such as nuclear tests and earthquakes. The scientists who work in the field of seismology provide an invaluable service around the world. Their close monitoring of data helps mankind to anticipate earthquakes, tsunamis and other natural disasters. The field of seismology also is critical to United States monitoring of the nuclear weapons test programs of foreign nations. Section 1116 ensures that the non-governmental U.S. seismological community is given immediate access to all unclassified seismological data provided to the United States Government by any international organization in which the United States participates that is directly responsible for seismological monitoring. If the United States is going to invest funds in such organizations, it should ensure that its participation benefits the nation's universities, science centers, and seismological community. Section 1116 is not intended to require, however, that the United States make public seismological data that a country might submit to an international organization, but that is not part of a network managed or sponsored by such organization.

PROTECTION OF UNITED STATES COMPANIES

Section 1117 provides up to \$2,000,000 in funds to be reimbursed by the Department of State to the Federal Bureau of Investigation, at the request of the FBI Director, for the Bureau's assistance in monitoring the activities of foreign nationals who must be given access to United States companies under the Chemical Weap-

ons Convention (CWC). When the Senate gave its advice and consent to the CWC, an issue of great concern was the right of international inspectors to conduct intrusive visits of any company in the United States. To guard against the potential for economic espionage, the Congress required that a special agent of the Federal Bureau of Investigation accompany every inspection team. This imposes a financial burden on the FBI.

Although this authority has been provided for the next two years, upon expiration of the two year period, it is expected that the FBI will assume all financial responsibility for continued implementation of the Bureau's obligation under the CWC Implementation Act. Section 1117 requires a report from the FBI no later than a year and half from the date of enactment. The purpose of this report is to provide Congress with assurance that the Bureau has taken the necessary steps to assume full responsibility for all aspects of its legal obligations under the Chemical Weapons Convention Implementation Act of 1998.

REQUIREMENT FOR TRANSMITTAL OF SUMMARIES

Section 1118 requires that the committees of jurisdiction receive the various arms control summaries that are routinely prepared by United States delegations overseas. Such summaries are expected to be transmitted promptly to the committees.

MATTERS RELATING TO THE CONTROL OF BIOLOGICAL WEAPONS

Chapter 2 of Subtitle A of Title XI (sections 1121–1124) requires the conduct of national trial visits and investigations at United States government facilities and, if at all possible, at private locations such as pharmaceutical plants and biotechnology companies. It further stipulates that personnel specializing in protecting national security and proprietary information participate in these trials to ensure that the risks associated with such measures are fully understood and minimized. A presidential study and report are required regarding the need for investigations and visits, the benefits to be expected, and the risk to national security and commercial industry of such investigations and visits under a Biological Weapons Convention (BWC) compliance protocol now under negotiation.

It is noted that the threat of biological weapons attack is one of the greatest national security threats facing the United States. For a variety of reasons, the production and stockpiling of these weapons can be readily concealed. The executive branch has yet to articulate how various compliance measures being considered for addition to the existing Biological Weapons Convention will assist in the enforcement of that treaty. At the same time, United States companies that would be required to comply with compliance measures fear significant harm due to loss of proprietary information or unfounded allegations of BWC violations. Accordingly, Chapter 2 requires the executive branch to engage in the same approach to the BWC as was taken in the case of the Chemical Weapons Convention—namely, the conduct of national trial visits and investigations.

NUCLEAR NONPROLIFERATION, SAFETY, AND RELATED MATTERS
CONGRESSIONAL NOTIFICATION OF NONPROLIFERATION ACTIVITIES

Section 1131 revises and expands the obligation of executive branch agencies to keep the Committee “fully and currently” informed of nonproliferation issues. Several agencies have had this obligation for decades, including the Departments of Commerce, Energy, Defense, and State. However, it is a matter of concern that few have been fulfilling their obligations in a timely manner.

Section 1131 extends part of the reporting obligation contained in section 602 of the Nuclear Nonproliferation Act of 1978 to the Director of Central Intelligence, makes clear that all proliferation matters are to be covered, and requires disclosure of sensitive matters relating to proliferation activities of foreign nations to the Foreign Relations Committee of the Senate and International Relations Committee of the House within 60 days of the executive branch agency in question becoming aware of such activity.

EFFECTIVE USE OF RESOURCES FOR NONPROLIFERATION PROGRAMS

Section 1132 the allocation of any United States Government funds to any individual who is involved in offensive chemical or biological warfare programs. Such activities would violate the Chemical Weapons Convention or the Biological Weapons Convention. This prohibition does not extend to those individuals working on legitimate chemical or biological defense programs.

DISPOSITION OF WEAPONS-GRADE MATERIAL

Section 1133 requires the Secretary of Energy, with the concurrence of the Secretary of Defense, to identify for Congress the number of nuclear weapons pits of each type that it intends to dismantle pursuant to an excess plutonium disposition agreement with Russia. It is not clear to the Executive branch has identified the sources for a self-declared fifty metric tons of “excess” plutonium. Nor are the implications clear of such a program for maintenance of the Stockpile Stewardship Program of the Department of Energy.

Additionally, section 1133 seeks advance notice from the executive branch that when the agreement to establish a mixed oxide fuel fabrication or production facility in Russia is submitted to the Congress under section 123 of the Atomic Energy Act, the Secretary of State will be expected to certify that the proposed establishment of a mixed oxide (MOX) fuel plant in Russia will not become a major proliferation concern for future Administrations. Section 1133 seeks to guard against such nonproliferation concerns by insisting that clear guarantees be given to the United States by Russia that it will not supply fuel assemblies containing weapons-grade plutonium or sensitive technology related to the MOX facility to any country of concern to the United States. This is essential given the nuclear-supply relationship that Russia has with countries such as Iran and India. Further, section 1133 expects Russia to agree that the MOX facility will be subject to a sufficient level of international safeguards to ensure that special nuclear material (e.g. weapons-grade plutonium) is not diverted.

PROVISION OF CERTAIN INFORMATION TO CONGRESS

Section 1134 makes clear that no executive branch agency may legally withhold information that it is required to submit pursuant to section 602 of the Nuclear Nonproliferation Act. It also requires the issuance of directives by these agencies to ensure that all required information, including information contained in Special Access Programs, is provided to the Foreign Relations Committee of the Senate and International Relations Committee of the House of Representatives in a timely fashion, as required by law.

AMENDED NUCLEAR EXPORT REPORTING REQUIREMENT

Section 1135 clarifies the type of information that the appropriate committees expect to receive in connection with Congressional notifications of nuclear-related exports for commercial power generation. This provision is not intended in any way to establish an arms sale or reprogramming notification process. It is expected, however, that the Executive branch begin fulfilling its legal obligation to make the requisite nuclear export notifications to the Foreign Relations Committee of the Senate and the International Relations Committee of the House.

ADHERENCE TO THE MISSILE TECHNOLOGY CONTROL REGIME

Section 1136 amends section 74 of the Arms Export Control Act (AECA), relating to the Missile Technology Control Regime (MTCR), to clarify the meaning of several terms and to revise the report that is required to Congress under this section of the AECA. Most notably, section 1136 makes clear that a country will enjoy substantial protection from the MTCR sanctions law only if it specifically agrees not to transfer any missile-related equipment or technology that would be subject to U.S. jurisdiction under the AECA (if it were U.S.-origin equipment or technology). Any country that has not agreed to take this step—perhaps having only agreed to control production equipment, for instance—should be aware that it still may be sanctioned under the AECA even if it concludes a bilateral understanding with the United States.

Section 1136 also requires the Director of Central Intelligence to submit a detailed itemization of all credible information indicating that a country which has just concluded an MTCR-agreement with the United States has transferred, or conspired to transfer, equipment or technology in violation of the MTCR sanctions law in the previous two years.

AUTHORITY RELATING TO MTCR ADHERENTS

Section 1137 is a conforming amendment necessitated by the provisions of section 1136(a). It provides the President with the authority to invoke MTCR sanctions against a proliferating entity if such person has not concluded a comprehensive agreement with the United States as defined by section 74(b)(1) of the Arms Export Control Act.

TRANSFER OF FUNDING FOR SCIENCE AND TECHNOLOGY CENTERS IN
THE FORMER SOVIET UNION

Section 1138 authorizes the use of funds made available under the “Nonproliferation, Antiterrorism, Demining, and Related Programs” accounts, beginning in fiscal year 2001, for science and technology centers in the former Soviet Union. It was decided that the application of this authority would be delayed until 2001 in order to provide the Department of State sufficient time to adjust its foreign operations budget to incorporate this programmatic transfer. The NADR account is more appropriate for science and technology center programs since those activities are, in essence, nonproliferation programs.

RESEARCH AND EXCHANGE ACTIVITIES BY SCIENCE AND TECHNOLOGY
CENTERS

Section 1139 clarifies that section 503(a)(5) of the FREEDOM Support Act of 1992 authorizes the use of funds to support research activity involving the participation of civilian scientists and engineers, provided that the participation of former Soviet weapons scientists predominates. Section 1139 also makes clear that funding of international exchanges is permitted in order to facilitate the commercial exposure of former weapons scientists. This new flexibility is important to enable the science and technology centers to continue performing their important defense conversion and nonproliferation functions.

SECURITY ASSISTANCE

TRANSFERS OF EXCESS DEFENSE ARTICLES

EXCESS DEFENSE ARTICLES FOR CENTRAL AND SOUTHERN EUROPEAN
COUNTRIES

Section 1211 allows the Department of Defense during fiscal years 2000 and 2001 to reduce excess or obsolete stocks of defense articles by offering equipment to eligible foreign governments for enhancement of their defense capabilities. These equipment transfers are an important element of United States foreign policy. The reauthorization through fiscal year 2004 of the authority to transfer excess defense articles to Greece and Turkey, in accordance with the established ratio, will benefit the security of the United States and bolster the military capabilities of these two important NATO allies.

EXCESS DEFENSE ARTICLES FOR CERTAIN OTHER COUNTRIES

Section 1212 gives the Department of Defense the authority to use funds appropriated for the national defense of the United States to pay for packing, crating, handling, and transportation of excess defense articles (EDA) to specific countries. Several countries operate under severe budget constraints, and could not afford the costs of packing, crating, handling, and transportation, even if the EDA itself were provided at no cost. Thus, utilization of this authority is recommended in such cases.

There is concern with the potential impact of section 1212 upon the Department of Defense. Accordingly, no funds shall be expended for the crating, packing, handling, or transportation of excess defense articles under this section until the Foreign Relations Committee of the Senate and the International Relations Committee of the House are notified of the amount proposed to be so expended. Through this notification procedure the committees of jurisdiction will minimize the impact upon the defense budget of the non-defense spending authorized under section 1212.

INCREASE IN ANNUAL LIMITATION ON TRANSFER OF EXCESS DEFENSE
ARTICLES

Section 1213 increases the dollar value of excess equipment that may be given away for free by the Department of Defense on a yearly basis. The increase is substantial, from \$350,000,000 to \$425,000,000. This is needed because the United States Armed Forces have determined that it has stocks of obsolete equipment and munitions well in excess of the current ceiling. The military is unwilling to retain large quantities of obsolete material and will destroy or demilitarize useful equipment if it cannot be provided to another party in a timely manner.

FOREIGN MILITARY SALES AUTHORITIES

TERMINATION OF FOREIGN MILITARY FINANCED TRAINING

Section 1221 provides the United States Government with the ability to terminate training or study programs with foreign nations in a more orderly fashion by allowing funds to be expended, under certain circumstances, to complete training or study programs already underway at the time of termination.

SALES OF EXCESS COAST GUARD PROPERTY

Section 1222 authorizes the United States Government to provide excess Coast Guard equipment on a sales basis, in addition to the extant grant authority. On occasion, the United States Coast Guard determines that some of its smaller vessels are excess. These vessels are suitable for various countries which may not possess a "blue water" navy but are in need of equipment for coastal and riverine defense, and for Search-and-Rescue Operations.

Currently, section 516(i) of the Foreign Assistance Authorization Act of 1961 authorizes the grant transfer of excess Coast Guard equipment to eligible foreign countries for their defense capabilities. Current law, under section 21 of the AECA, does not authorize the sale of excess Coast Guard equipment. Section 1222 remedies this situation.

The sale of excess Coast Guard equipment to foreign countries is preferable to donation under a grant authority. This will generate funds for the United States Treasury miscellaneous receipts account. To the maximum extent possible, Coast Guard vessels will be transferred pursuant to this sale authority rather than grant authority.

COMPETITIVE PRICING FOR SALES OF DEFENSE ARTICLES

Section 1223 permanently amends current law to include a provision contained in annual appropriations legislation since fiscal year 1996. Section 1223 allows direct costs associated with meeting additional or unique requirements for foreign customers to be paid with foreign military financing (FMF) grants. Loadings associated with such costs must be at the same rates as those applicable to the Defense Department. Under this provision the costs of defense goods and services are reduced to FMF grant recipients, thereby stretching scarce security assistance resources.

NOTIFICATION OF UPGRADES TO DIRECT COMMERCIAL SALES

Section 1224 amends the Arms Export Control Act to ensure that the committees of jurisdiction are notified of any upgrades or enhancements to the technology or capability of a defense article or service which already has been notified to the Committee pursuant to section 36(c) of the Arms Export Control Act (which relates to commercial arms sales).

UNAUTHORIZED USE OF DEFENSE ARTICLES

Section 1225 amends section 3 of the Arms Export Control Act to require formal agreement between the United States and recipient nations that the United States retains the right to verify credible reports that United States Munitions List articles have been used for unauthorized purposes. Section 4 of the AECA enumerates the purposes for which defense articles may be furnished, including internal security and legitimate self-defense. Therefore, although it may prove difficult, the executive branch must ensure that defense articles are used only for these or other permitted activities, and not for non-authorized actions (such as torture and the violation of human rights).

STOCKPILING OF DEFENSE ARTICLES FOR FOREIGN COUNTRIES

ADDITIONS TO UNITED STATES WAR RESERVE STOCKPILES FOR ALLIES

Pursuant to section 514 of the Foreign Assistance Act of 1961, the Department of Defense can only make additions to War Reserve Stockpiles for Allies as specifically provided for in legislation. Section 1231, proposed by the House, authorizes the President to make \$40,000,000 in additions to stockpiles in Korea and \$20,000,000 in Thailand for fiscal year 2000.

The War Reserve Stockpiles for Allies programs in both Korea and Thailand directly support the United States strategy of forward engagement in the Pacific theater. Both the Republic of Korea and the Government of Thailand assume the cost of storage, maintenance and security of these stockpiles, thereby saving the United States significant operating expenses. These stocks directly support the U.S. plans for the defense of Korea. They also help to ensure continued access to staging facilities in Thailand (which have become all the more important with the loss of base rights in the Philippines).

Stockpiles enable equipment and supplies to be pre-positioned in key parts of the world to enhance U.S. and host country defense

readiness. While items in the stockpiles remain the property of the United States Government, they can be set aside for use by host nation forces in accordance with section 514(a) of the FAA. Since 1972 the United States has maintained a war stockpile in the Republic of Korea, placing obsolete or excess munitions in storage as military requirements determined. The stockpile in Thailand has been maintained since 1987.

Section 1231 will enable the United States to avoid the maintenance, storage, transportation, and demilitarization costs of excess munitions by transferring these items to Korea. By agreement with the Government of Korea, United States payment of the storage of assets designated as war reserve stockpiles is deferred until the United States uses or sells the munitions to another country, although the assets remain under U.S. title at all times.

While excess and obsolete munitions could be disposed of through either foreign military sales or demilitarization, neither option is optimal. Foreign military sales to other countries are limited due to the extra cost incurred by the buyer to transport the munitions from the Korean peninsula. Demilitarization is a very slow and expensive process. The cost to the United States Army to retrograde to the United States and demilitarize the munitions covered by section 1231 would also prove significant. Transfer of excess and obsolete munitions to the Korean War Reserve Stockpile, however, will result in the avoidance of those costs, increase storage space for U.S. Forces Korea, and improve the warfighting readiness of the Republic of Korea and the Combined Forces Command.

The additional \$20,000,000 authorization for Thailand is required to fulfill expected U.S. obligations under the Memorandum of Understanding establishing the Thai War Reserve Stockpiles program. It is expected that the U.S. contribution will be matched dollar-for-dollar by the Government of Thailand.

TRANSFER OF CERTAIN OBSOLETE OR SURPLUS DEFENSE ARTICLES IN THE WAR RESERVES STOCKPILE FOR ALLIES

Section 1232 provides authority to the United States Armed Forces to transfer obsolete or surplus stocks out of the War Reserve Stockpiles in Korea and Thailand. In exchange for providing these stocks to Korea and Thailand, the United States will negotiate concessions in the form of cash compensation, services, waiver of charges otherwise payable by the U.S. Government, and other items of value. During 1995 and 1996, the U.S. Government traded \$66,620,000 in obsolete and surplus equipment to the Republic of Korea for a like sum in concessions. These concessions included reclamation of equipment that was deemed surplus or obsolete but for which a need subsequently arose, minus the costs associated with storing the items by the Republic of Korea. Additionally, the Republic of Korea demilitarized equipment at no cost to the United States and accepted older equipment such as the M48A5 tanks and the M-110A2 Howitzer from the stockpiles which were missing spares and no longer supportable.

Section 1232 requires fair market value compensation to the United States for surplus and obsolete munitions. It also will relieve the U.S. Government of financial indebtedness for back storage costs and other stockpile maintenance costs, and save millions

in cost avoidance to demilitarize, destroy, or retrograde the munitions and equipment back to the United States.

Section 1232 requires the Department of Defense to submit a report to the Foreign Relations Committee of the Senate and the International Relations Committee of the House of Representatives at least 30 days prior to any transfer by the Department of Defense to the Republic of Korea or the Government of Thailand, detailing such transfer and the negotiated concessions for excess or obsolete equipment. A more comprehensive accounting of such concessions is expected than was previously provided pursuant to authority contained in the Fiscal Year 1994–95 Foreign Relations Authorization Act (Public Law 103–236).

DEFENSE OFFSETS DISCLOSURE

DEFENSE OFFSETS DISCLOSURE ACT OF 1999

Subtitle D of Title XII (sections 1241–1248) establishes United States policy on economic offsets, revises executive branch reporting requirements to Congress on such matters, expands the existing prohibition within the Arms Export Control Act relating to incentive payments, and establishes a National Commission on the Use of Offsets in Defense Trade to assess all aspects of the issue.

The term “offsets” refers to the practice by foreign countries of demanding economic concessions as incentives to buy U.S. defense products. Notably, the demand by foreign nations for “offsets” in defense trade costs jobs and hurts the United States economy.

However, it is also noted that, in this highly-competitive era, offsets may prove necessary. As long as foreign competitors are willing to offer economic concessions and incentives, U.S. companies risk losing important sales if they refuse to do likewise. The Defense Offsets Disclosure Act of 1999 adopts a prudent, business-friendly approach to a matter that is of extreme sensitivity to United States companies. While the long-term objective of Subtitle D is to curtail the use of offsets in defense trade, as a practical matter the Act simply establishes a process whereby the President should seek multilateral agreement on standards for the use of offsets and may, if he concurs with the findings of a commission of experts, commence negotiation of a treaty to address the issue.

AUTOMATED EXPORT SYSTEM RELATING TO EXPORT INFORMATION

PROLIFERATION PREVENTION ENHANCEMENT ACT OF 1999

Subtitle E of Title XII (sections 1251–1256) creates an electronic filing system for shippers export declarations made to the U.S. Customs Service. Specifically, the Act mandates use of an automated export system that has been in existence since 1995, but which is only used by roughly 10 percent of the U.S. shipping community. Creation of an internet-based electronic system will enable the United States Government to track sophisticated efforts by nations to acquire sensitive technology. Currently, the United States is hampered in its efforts to track foreign acquisition efforts because the current export declaration process is paper-intensive, and because foreign nations seldom engage in “one stop shopping.” Indeed, many nations engage in diffuse procurement schemes to ac-

quire components and materials from a wide array of sources. It is very difficult for those agencies within the executive branch tasked with monitoring foreign weapons programs to cull through mountains of paper to discover important patterns and linkages.

The establishment of an internet system will assist in this effort. It also will, in the long-run, prove more "business friendly" than the current system. Section 1252 ensures that "on-line" help is given to those who must use the system, which must be secure and capable of handling the expected volume of information, and allows for printed hard copies of documents for business records. The Department of Commerce is expected to keep the Foreign Relations Committee of the Senate and the International Relations Committee of the House completely informed on the system's electronic architecture, and section 1254 requires the Department of Commerce to consult with other relevant agencies and submit a report on how the system can be optimized for law enforcement and nonproliferation purposes, consistent with the need to ensure the confidentiality of business information.

Section 1255 also addresses concerns of the U.S. business community by eliminating current salary limitations for the Office of Defense Trade Controls of the Department of State. These limitations, imposed by the Office of Personnel Management, have severely impaired the ability of ODTC to recruit and retain licensing officers and other individuals. It is anticipated that the flexibility provided under section 1255, together with the additional resources made available to ODTC under section 1310, will enable the Department of State to improve the efficiency of ODTC.

INTERNATIONAL ARMS SALES CODE OF CONDUCT ACT OF 1999

Subtitle F of Title XII (sections 1261 and 1262) directs the President to pursue negotiations to establish an international regime to promote global transparency with respect to arms transfers, and to limit, restrict, or prohibit arms transfers to countries that do not observe certain fundamentals of human liberty, peace, and international stability. While the President is given discretion in preparing a United States negotiating position, section 1262(b) enumerates criteria which should factor prominently.

In order to maintain momentum for negotiation of an international code of conduct, section 1612(c) requires frequent reports detailing the progress made, if any, throughout such negotiations. Further, this section directs that the annual human rights report prepared pursuant to the Foreign Assistance Act describe the extent to which foreign nations meet the criteria established under section 1262(b).

TRANSFER OF NAVAL VESSELS TO CERTAIN FOREIGN COUNTRIES

AUTHORITY TO TRANSFER NAVAL VESSELS

Section 1271 makes technical and conforming amendments to existing law relating to the transfer of naval vessels to foreign nations. Transfers of naval vessels, like the transfer of all military equipment, are subject to the jurisdiction of the Committee on Foreign Relations of the Senate and International Relations of the House of Representatives. However, for budgetary scoring reasons,

the Congressional defense committees authorized a series of ship transfers under section 1018 of the National Defense Authorization Act for Fiscal Year 2000. That section authorizes the Secretary of the Navy to transfer naval vessels when, in fact, the authority should be given to the President in order to remain consistent with the requirements of the Foreign Assistance Act and the Arms Export Control Act. Section 1271 makes this minor technical amendment; it also transfers the authority to exempt naval vessel transfers from excess defense article limitations from the defense bill to the foreign affairs bill, which is the appropriate legislative vehicle for such an authority.

MISCELLANEOUS PROVISIONS

PUBLICATION OF ARMS SALES CERTIFICATIONS

Section 1301 amends section 36 of the Arms Export Control Act to ensure that the full unclassified text of all certifications of arms sales, including foreign military sales, commercial sales, and the provision of defense services, is published in the Federal Register in a timely fashion. This section also requires that if portions of such certifications are classified, pursuant to section 36(b) and (c), the classified information be accompanied by a description of the damage to the national security that could be expected to result from public disclosure of the information.

NOTIFICATION REQUIREMENTS FOR COMMERCIAL EXPORT OF ITEMS ON UNITED STATES MUNITIONS LIST

Section 1302 requires U.S. commercial defense exporters to submit information to the Department of State which will help to improve arms export shipment data. This provision is necessary to address the long-standing problem of incomplete commercial arms delivery data.

ENFORCEMENT OF ARMS EXPORT CONTROL ACT

Section 1303 strengthens enforcement of civil violations of the Arms Export Control Act. The Department of State relies on the Department of Justice to prosecute criminal violations of the AECA, but lacks resources to pursue administrative proceedings relating to civil violations as vigorously as would be desired.

In order to streamline the procedures in a manner that would continue to ensure a fair opportunity for persons and firms to represent their views, while simultaneously encouraging the viable and vigorous enforcement that is critical to protecting U.S. national security, the Secretary of State is provided with authority similar to that used to enforce other statutes, including the International Emergency Economic Powers Act, to assess civil penalties directly in accordance with regulations. It is expected that the Department of State will still be required to commence a civil action in order to recover such any such disputed penalties, thereby continuing to afford parties an opportunity to contest the assessment in court. It is further expected that the Department will provide draft regulations proposed to implement this section to the Committees on International Relations and Foreign Relations for review, thereby affording defense exporters the ability to provide input. Such regu-

lations should permit the parties to explain their actions and make known their views fully through written submissions and provide ample opportunity for settlement.

This provision is not intended to erode due process for defense exporters, and such exporters, under regulations promulgated to implement this section, will be provided a fair and transparent process to understand and address any charges being asserted against them.

VIOLATIONS RELATING TO MATERIAL SUPPORT TO TERRORISTS

Section 1304 modifies section 38 of the Arms Export Control Act to ensure that the Office of Defense Trade Controls within the Department of State, which issues commercial defense export licenses, is fully informed of any person that is subject to an indictment or has been convicted of a violation of law regarding providing material support to terrorists.

AUTHORITY TO CONSENT TO THIRD PARTY TRANSFER OF EX-U.S.S. BOWMAN COUNTY TO USS LST SHIP MEMORIAL, INC.

Section 1305 enables a nonprofit veterans association to bring back to the United States from Greece a World War II Tank Landing Ship—the ex-U.S.S. *Bowman County*. This vessel will have its guns demilitarized prior to re-transfer and will be transformed into a movable museum that will dock at predetermined locations to teach children, and adults, about the crucial role played by tank landing ships and their crews during the Second World War. There is no more fitting a war memorial than a museum that is owned and operated by a group of its own veterans who are willing to dedicate their time to educating the citizens of the United States.

ANNUAL MILITARY ASSISTANCE REPORT

Section 1306 expands and clarifies the information relating to military assistance and military exports that the President is required to transmit to Congress each February 1, pursuant to section 655 of the Foreign Assistance Act of 1961. Currently, this report includes information about the International Military Education and Training (IMET) program, but not about other military education and training activities that the United States conducts with foreign countries. It is intended that future reports include information about activities under Title 10 of the U.S. Code, such as the Military-to-Military Contacts Program (MMCP) and the Joint Combined Exchange Training (JCET) program. This provision is not intended, however, to cover joint military exercises or NATO operations.

Section 1306 also requires separate identification of defense articles furnished with the financial assistance of the U.S. government, such as Foreign Military Financing loans and U.S. government-backed loan guarantees. These items are currently grouped together with commercial sales. Finally, the provision requires that the report be published in unclassified form on the internet through the State Department.

ANNUAL FOREIGN MILITARY TRAINING REPORT

Section 1307 creates a new report to be jointly prepared by the Departments of State and Defense. The report is to cover all military training provided to foreign military personnel by the Departments of Defense and State. The provision also requires that the report be published in unclassified form on the State Department's internet website.

SECURITY ASSISTANCE FOR THE PHILIPPINES

Section 1308 establishes United States policy for the transfer of excess defense articles to the Philippines and authorizes \$5,000,000 in foreign military financing for each of fiscal years 2000 and 2001. The section encourages the President to transfer to the Philippines, on a grant basis, UH-1H helicopters, A-4 aircraft, amphibious landing craft, and other naval vessels that become available under the excess defense articles program. Section 1309 is viewed as a way of expressing Congressional support for reinvigorating our security relationship with the Philippines.

EFFECTIVE REGULATION OF SATELLITE EXPORT ACTIVITIES

Section 1309 establishes a requirement for the Department of State to expedite the export of commercial communications satellites (and related equipment) to NATO and major non-NATO allies when appropriate. It is intended that the determination of appropriateness reside with the Department of State. Section 1309 establishes four criteria that should denote a satellite or satellite-related license as eligible for expedited consideration. However, section 1309 makes clear that U.S. national security considerations and U.S. obligations under the Missile Technology Control Regime are given priority in the evaluation of any license, regardless of its end-user or time-sensitive nature. Further, the provision makes clear that the Department of State is, at all times, to provide such time as is necessary for U.S. national security agencies to fully review a license.

Section 1309 also seeks to expedite the licensing of United States Munitions List items across the board by applying additional resources to the Office of Defense Trade Controls within the Department of State. The provision authorizes \$9,000,000 for ODTC for each of fiscal years 2000 and 2001. Additional resources are intended to be used to hire licensing officers and enforcement personnel, and to update ODTC's computer systems. Frequent, periodic briefings on ODTC plans and expenditures are expected and there is interest in progress toward implementing an internet-based filing and review system for Munitions List items.

STUDY ON LICENSING PROCESS UNDER THE ARMS EXPORT CONTROL ACT

Section 1310 requests that the Department of State undertake a highly-technical, highly-detailed analysis of the defense trade licensed by the Department of State. The broad scope of the information sought under section 1310 is intended to provide the Congress with information that will assist the committees of jurisdiction in

working with the Department of State to improve the licensing process.

REPORT CONCERNING PROLIFERATION OF SMALL ARMS

Section 1311 requires the Department of State to complete an analysis of the global trade in small arms. The illicit transfer of small and light arms constitutes a source of global instability, but recognize that the monitoring of such trafficking is difficult. It is expected that Assistant Secretary for Verification and Compliance to be responsible for preparing portions of this report, including that relating to United States monitoring of the compliance of foreign governments with their commitments under international agreements.

CONFORMING AMENDMENT

Section 1312 is a conforming amendment to the Fiscal Year 1999 Defense Authorization Act. Specifically, section 1312 ensures that the Foreign Relations Committee of the Senate and the International Relations Committee of the House will be notified of developments in the pursuit of alternatives to anti-personnel land mines.

SENSE OF CONGRESS LANGUAGE

Sense of Senate or Sense of the Congress provisions approved in previous authorization bills were not included in the final bill. The House and Senate provisions, as passed, reflect the views of each of the respective houses of Congress.

The conference agreement would enact the provisions of H.R. 3428, as introduced on November 17, 1999. The text of that bill follows:

A BILL To provide for the modification and implementation of the final rule for the consolidation and reform of Federal milk marketing orders, and for other purposes

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. USE OF OPTION 1A AS PRICE STRUCTURE FOR CLASS I MILK UNDER CONSOLIDATED FEDERAL MILK MARKETING ORDERS.

(a) *FINAL RULE DEFINED.*—*In this section, the term “final rule” means the final rule for the consolidation and reform of Federal milk marketing orders that was published in the Federal Register on September 1, 1999 (64 Fed. Reg. 47897–48021), to comply with section 143 of the Federal Agriculture Improvement and Reform Act of 1996 (7 U.S.C. 7253).*

(b) *IMPLEMENTATION OF FINAL RULE FOR MILK ORDER REFORM.*—*Subject to subsection (c), the final rule shall take effect, and be implemented by the Secretary of Agriculture, on the first day of the first month beginning at least 30 days after the date of the enactment of this Act.*

(c) *USE OF OPTION 1A FOR PRICING CLASS I MILK.*—*In lieu of the Class I price differentials specified in the final rule, the Secretary of Agriculture shall price fluid or Class I milk under the Federal milk marketing orders using the Class I price differentials identified as Option 1A “Location-Specific Differentials Analysis” in*

the proposed rule published in the Federal Register on January 30, 1998 (63 Fed. Reg. 4802, 4809), except that the Secretary shall include the corrections and modifications to such Class I differentials made by the Secretary through April 2, 1999.

(d) **EFFECT OF PRIOR ANNOUNCEMENT OF MINIMUM PRICES.**—If the Secretary of Agriculture announces minimum prices for milk under Federal milk marketing orders pursuant to section 1000.50 of title 7, Code of Federal Regulations, before the effective date specified in subsection (b), the minimum prices so announced before that date shall be the only applicable minimum prices under Federal milk marketing orders for the month or months for which the prices have been announced.

(e) **IMPLEMENTATION OF REQUIREMENT.**—The implementation of the final rule, as modified by subsection (c), shall not be subject to any of the following:

(1) The notice and hearing requirements of section 8c(3) of the Agricultural Adjustment Act (7 U.S.C. 608c(3)), reenacted with amendments by the Agricultural Marketing Agreement Act of 1937, or the notice and comment provisions of section 553 of title 5, United States Code.

(2) A referendum conducted by the Secretary of Agriculture pursuant to subsections (17) or (19) of section 8c of the Agricultural Adjustment Act (7 U.S.C. 608c), reenacted with amendments by the Agricultural Marketing Agreement Act of 1937.

(3) The Statement of Policy of the Secretary of Agriculture effective July 24, 1971 (36 Fed. Reg. 13804), relating to notices of proposed rulemaking and public participation in rulemaking.

(4) Chapter 35 of title 44, United States Code (commonly known as the Paperwork Reduction Act).

(5) Any decision, restraining order, or injunction issued by a United States court before the date of the enactment of this Act.

SEC. 2. FURTHER RULEMAKING TO DEVELOP PRICING METHODS FOR CLASS III AND CLASS IV MILK UNDER MARKETING ORDERS.

(a) **CONGRESSIONAL FINDING.**—The Class III and Class IV milk pricing formulas included in the final decision for the consolidation and reform of Federal milk marketing orders, as published in the Federal Register on April 2, 1999 (64 Fed. Reg. 16025), do not adequately reflect public comment on the original proposed rule published in the Federal Register on January 30, 1998 (63 Fed. Reg. 4802), and are sufficiently different from the proposed rule and any comments submitted with regard to the proposed rule that further emergency rulemaking is merited.

(b) **RULEMAKING REQUIRED.**—The Secretary of Agriculture shall conduct rulemaking, on the record after an opportunity for an agency hearing, to reconsider the Class III and Class IV milk pricing formulas included in the final rule for the consolidation and reform of Federal milk marketing orders that was published in the Federal Register on September 1, 1999 (64 Fed. Reg. 47897–48021).

(c) **TIME PERIOD FOR RULEMAKING.**—On December 1, 2000, the Secretary of Agriculture shall publish in the Federal Register a final decision on the Class III and Class IV milk pricing formulas.

The resulting formulas shall take effect, and be implemented by the Secretary, on January 1, 2001.

(d) *EFFECT OF COURT ORDER.*—The actions authorized by subsections (b) and (c) are intended to ensure the timely publication and implementation of new pricing formulas for Class III and Class IV milk. In the event that the Secretary of Agriculture is enjoined or otherwise restrained by a court order from implementing a final decision within the time period specified in subsection (c), the length of time for which that injunction or other restraining order is effective shall be added to the time limitations specified in subsection (c) thereby extending those time limitations by a period of time equal to the period of time for which the injunction or other restraining order is effective.

(e) *FAILURE TO TIMELY COMPLETE RULEMAKING.*—If the Secretary of Agriculture fails to implement new Class III and Class IV milk pricing formulas within the time period required under subsection (c) (plus any additional period provided under subsection (d)), the Secretary may not assess or collect assessments from milk producers or handlers under section 8c of the Agricultural Adjustment Act (7 U.S.C. 608c), reenacted with amendments by the Agricultural Marketing Agreement Act of 1937, for marketing order administration and services provided under such section after the end of that period until the pricing formulas are implemented. The Secretary may not reduce the level of services provided under that section on account of the prohibition against assessments, but shall rather cover the cost of marketing order administration and services through funds available for the Agricultural Marketing Service of the Department.

(f) *IMPLEMENTATION OF REQUIREMENT.*—The implementation of the final decision on new Class III and Class IV milk pricing formulas shall not be subject to congressional review under chapter 8 of title 5, United States Code.

SEC. 3. DAIRY FORWARD PRICING PROGRAM.

The Agricultural Adjustment Act (7 U.S.C. 601 et seq.), reenacted with amendments by the Agricultural Marketing Agreement Act of 1937, is amended by adding at the end the following new section:

“SEC. 23. DAIRY FORWARD PRICING PILOT PROGRAM.

“(a) *PILOT PROGRAM REQUIRED.*—Not later than 90 days after the date of the enactment of this section, the Secretary of Agriculture shall establish a temporary pilot program under which milk producers and cooperatives are authorized to voluntarily enter into forward price contracts with milk handlers.

“(b) *MINIMUM MILK PRICE REQUIREMENTS.*—Payments made by milk handlers to milk producers and cooperatives, and prices received by milk producers and cooperatives, under the forward contracts shall be deemed to satisfy—

“(1) all regulated minimum milk price requirements of paragraphs (B) and (F) of subsection (5) of section 8c; and

“(2) the requirement of paragraph (C) of such subsection regarding total payments by each handler.

“(c) *MILK COVERED BY PILOT PROGRAM.*—

“(1) COVERED MILK.—The pilot program shall apply only with respect to the marketing of federally regulated milk that—

“(A) is not classified as Class I milk or otherwise intended for fluid use; and

“(B) is in the current of interstate or foreign commerce or directly burdens, obstructs, or affects interstate or foreign commerce in federally regulated milk.

“(2) RELATION TO CLASS I MILK.—To assist milk handlers in complying with the limitation in paragraph (1)(A) without having to segregate or otherwise individually track the source and disposition of milk, a milk handler may allocate milk receipts from producers, cooperatives, and other sources that are not subject to a forward contract to satisfy the handler’s obligations with regard to Class I milk usage.

“(d) DURATION.—The authority of the Secretary of Agriculture to carry out the pilot program shall terminate on December 31, 2004. No forward price contract entered into under the program may extend beyond that date.

“(e) STUDY AND REPORT ON EFFECT OF PILOT PROGRAM.—

“(1) STUDY.—The Secretary of Agriculture shall conduct a study on forward contracting between milk producers and cooperatives and milk handlers to determine the impact on milk prices paid to producers in the United States. To obtain information for the study, the Secretary may use the authorities available to the Secretary under section 8d, subject to the confidentiality requirements of subsection (2) of such section.

“(2) REPORT.—Not later than April 30, 2002, the Secretary shall submit to the Committee on Agriculture, Nutrition and Forestry of the Senate and the Committee on Agriculture of the House of Representatives a report containing the results of the study.”.

SEC. 4. CONTINUATION OF CONGRESSIONAL CONSENT FOR NORTH-EAST INTERSTATE DAIRY COMPACT.

Section 147(3) of the Agricultural Market Transition Act (7 U.S.C. 7256(3)) is amended by striking “concurrent with” and all that follows through the period at the end and inserting “on September 30, 2001.”.

TITLE I—SATELLITE HOME VIEWER IMPROVEMENT**SEC. 1001. SHORT TITLE.**

This title may be cited as the “Satellite Home Viewer Improvement Act of 1999”.

SEC. 1002. LIMITATIONS ON EXCLUSIVE RIGHTS; SECONDARY TRANSMISSIONS BY SATELLITE CARRIERS WITHIN LOCAL MARKETS.

(a) IN GENERAL.—Chapter 1 of title 17, United States Code, is amended by adding after section 121 the following new section:

“§ 122. Limitations on exclusive rights; secondary transmissions by satellite carriers within local markets

“(a) SECONDARY TRANSMISSIONS OF TELEVISION BROADCAST STATIONS BY SATELLITE CARRIERS.—A secondary transmission of a performance or display of a work embodied in a primary transmission of a television broadcast station into the station’s local market shall be subject to statutory licensing under this section if—

“(1) the secondary transmission is made by a satellite carrier to the public;

“(2) with regard to secondary transmissions, the satellite carrier is in compliance with the rules, regulations, or authorizations of the Federal Communications Commission governing the carriage of television broadcast station signals; and

“(3) the satellite carrier makes a direct or indirect charge for the secondary transmission to—

“(A) each subscriber receiving the secondary transmission; or

“(B) a distributor that has contracted with the satellite carrier for direct or indirect delivery of the secondary transmission to the public.

“(b) REPORTING REQUIREMENTS.—

“(1) INITIAL LISTS.—A satellite carrier that makes secondary transmissions of a primary transmission made by a network station under subsection (a) shall, within 90 days after commencing such secondary transmissions, submit to the network that owns or is affiliated with the network station a list identifying (by name in alphabetical order and street address, including county and zip code) all subscribers to which the satellite carrier makes secondary transmissions of that primary transmission under subsection (a).

“(2) SUBSEQUENT LISTS.—After the list is submitted under paragraph (1), the satellite carrier shall, on the 15th of each month, submit to the network a list identifying (by name in alphabetical order and street address, including county and zip code) any subscribers who have been added or dropped as subscribers since the last submission under this subsection.

“(3) USE OF SUBSCRIBER INFORMATION.—Subscriber information submitted by a satellite carrier under this subsection may be used only for the purposes of monitoring compliance by the satellite carrier with this section.

“(4) REQUIREMENTS OF NETWORKS.—The submission requirements of this subsection shall apply to a satellite carrier only if the network to which the submissions are to be made places on file with the Register of Copyrights a document identifying the name and address of the person to whom such submissions are to be made. The Register of Copyrights shall maintain for public inspection a file of all such documents.

“(c) NO ROYALTY FEE REQUIRED.—A satellite carrier whose secondary transmissions are subject to statutory licensing under subsection (a) shall have no royalty obligation for such secondary transmissions.

“(d) NONCOMPLIANCE WITH REPORTING AND REGULATORY REQUIREMENTS.—Notwithstanding subsection (a), the willful or repeated secondary transmission to the public by a satellite carrier into the local market of a television broadcast station of a primary transmission embodying a performance or display of a work made by that television broadcast station is actionable as an act of infringement under section 501, and is fully subject to the remedies provided under sections 502 through 506 and 509, if the satellite carrier has not complied with the reporting requirements of subsection (b) or with the rules, regulations, and authorizations of the Federal Communications Commission concerning the carriage of television broadcast signals.

“(e) WILLFUL ALTERATIONS.—Notwithstanding subsection (a), the secondary transmission to the public by a satellite carrier into the local market of a television broadcast station of a performance or display of a work embodied in a primary transmission made by that television broadcast station is actionable as an act of infringement under section 501, and is fully subject to the remedies provided by sections 502 through 506 and sections 509 and 510, if the content of the particular program in which the performance or display is embodied, or any commercial advertising or station announcement transmitted by the primary transmitter during, or immediately before or after, the transmission of such program, is in any way willfully altered by the satellite carrier through changes, deletions, or additions, or is combined with programming from any other broadcast signal.

“(f) VIOLATION OF TERRITORIAL RESTRICTIONS ON STATUTORY LICENSE FOR TELEVISION BROADCAST STATIONS.—

“(1) INDIVIDUAL VIOLATIONS.—The willful or repeated secondary transmission to the public by a satellite carrier of a primary transmission embodying a performance or display of a work made by a television broadcast station to a subscriber who does not reside in that station’s local market, and is not subject to statutory licensing under section 119 or a private licensing agreement, is actionable as an act of infringement under section 501 and is fully subject to the remedies provided by sections 502 through 506 and 509, except that—

“(A) no damages shall be awarded for such act of infringement if the satellite carrier took corrective action by promptly withdrawing service from the ineligible subscriber; and

“(B) any statutory damages shall not exceed \$5 for such subscriber for each month during which the violation occurred.

“(2) *PATTERN OF VIOLATIONS.*—If a satellite carrier engages in a willful or repeated pattern or practice of secondarily transmitting to the public a primary transmission embodying a performance or display of a work made by a television broadcast station to subscribers who do not reside in that station’s local market, and are not subject to statutory licensing under section 119 or a private licensing agreement, then in addition to the remedies under paragraph (1)—

“(A) if the pattern or practice has been carried out on a substantially nationwide basis, the court—

“(i) shall order a permanent injunction barring the secondary transmission by the satellite carrier of the primary transmissions of that television broadcast station (and if such television broadcast station is a network station, all other television broadcast stations affiliated with such network); and

“(ii) may order statutory damages not exceeding \$250,000 for each 6-month period during which the pattern or practice was carried out; and

“(B) if the pattern or practice has been carried out on a local or regional basis with respect to more than one television broadcast station, the court—

“(i) shall order a permanent injunction barring the secondary transmission in that locality or region by the satellite carrier of the primary transmissions of any television broadcast station; and

“(ii) may order statutory damages not exceeding \$250,000 for each 6-month period during which the pattern or practice was carried out.

“(g) *BURDEN OF PROOF.*—In any action brought under subsection (f), the satellite carrier shall have the burden of proving that its secondary transmission of a primary transmission by a television broadcast station is made only to subscribers located within that station’s local market or subscribers being served in compliance with section 119 or a private licensing agreement.

“(h) *GEOGRAPHIC LIMITATIONS ON SECONDARY TRANSMISSIONS.*—The statutory license created by this section shall apply to secondary transmissions to locations in the United States.

“(i) *EXCLUSIVITY WITH RESPECT TO SECONDARY TRANSMISSIONS OF BROADCAST STATIONS BY SATELLITE TO MEMBERS OF THE PUBLIC.*—No provision of section 111 or any other law (other than this section and section 119) shall be construed to contain any authorization, exemption, or license through which secondary transmissions by satellite carriers of programming contained in a primary transmission made by a television broadcast station may be made without obtaining the consent of the copyright owner.

“(j) *DEFINITIONS.*—In this section—

“(1) *DISTRIBUTOR.*—The term ‘distributor’ means an entity which contracts to distribute secondary transmissions from a satellite carrier and, either as a single channel or in a package with other programming, provides the secondary transmission

either directly to individual subscribers or indirectly through other program distribution entities.

“(2) LOCAL MARKET.—

“(A) IN GENERAL.—The term ‘local market’, in the case of both commercial and noncommercial television broadcast stations, means the designated market area in which a station is located, and—

“(i) in the case of a commercial television broadcast station, all commercial television broadcast stations licensed to a community within the same designated market area are within the same local market; and

“(ii) in the case of a noncommercial educational television broadcast station, the market includes any station that is licensed to a community within the same designated market area as the noncommercial educational television broadcast station.

“(B) COUNTY OF LICENSE.—In addition to the area described in subparagraph (A), a station’s local market includes the county in which the station’s community of license is located.

“(5) TELEVISION BROADCAST STATION.—The term ‘television broadcast station’—

“(A) means an over-the-air, commercial or noncommercial television broadcast station licensed by the Federal Communications Commission under subpart E of part 73 of title 47, Code of Federal Regulations, except that such term does not include a low-power or translator television station; and

“(B) includes a television broadcast station licensed by an appropriate governmental authority of Canada or Mexico if the station broadcasts primarily in the English language and is a network station as defined in section 119(d)(2)(A).”.

(b) INFRINGEMENT OF COPYRIGHT.—Section 501 of title 17, United States Code, is amended by adding at the end the following new subsection:

“(f)(1) With respect to any secondary transmission that is made by a satellite carrier of a performance or display of a work em-

bodied in a primary transmission and is actionable as an act of infringement under section 122, a television broadcast station holding a copyright or other license to transmit or perform the same version of that work shall, for purposes of subsection (b) of this section, be treated as a legal or beneficial owner if such secondary transmission occurs within the local market of that station.

“(2) A television broadcast station may file a civil action against any satellite carrier that has refused to carry television broadcast signals, as required under section 122(a)(2), to enforce that television broadcast station’s rights under section 338(a) of the Communications Act of 1934.”

SEC. 1008. RULES FOR SATELLITE CARRIERS RETRANSMITTING TELEVISION BROADCAST SIGNALS.

(a) **AMENDMENTS TO COMMUNICATIONS ACT OF 1934.**—Title III of the Communications Act of 1934 is amended by inserting after section 337 (47 U.S.C. 337) the following new sections:

“SEC. 338. CARRIAGE OF LOCAL TELEVISION SIGNALS BY SATELLITE CARRIERS.

“(a) **CARRIAGE OBLIGATIONS.**—

“(1) **IN GENERAL.**—Subject to the limitations of paragraph (2), each satellite carrier providing, under section 122 of title 17, United States Code, secondary transmissions to subscribers located within the local market of a television broadcast station of a primary transmission made by that station shall carry upon request the signals of all television broadcast stations located within that local market, subject to section 325(b).

“(2) **REMEDIES FOR FAILURE TO CARRY.**—The remedies for any failure to meet the obligations under this subsection shall be available exclusively under section 501(f) of title 17, United States Code.

“(3) **EFFECTIVE DATE.**—No satellite carrier shall be required to carry local television broadcast stations under paragraph (1) until January 1, 2002.

“(b) **GOOD SIGNAL REQUIRED.**—

“(1) **COSTS.**—A television broadcast station asserting its right to carriage under subsection (a) shall be required to bear the costs associated with delivering a good quality signal to the designated local receive facility of the satellite carrier or to another facility that is acceptable to at least one-half the stations asserting the right to carriage in the local market.

“(2) **REGULATIONS.**—The regulations issued under subsection (g) shall set forth the obligations necessary to carry out this subsection.

“(c) **DUPLICATION NOT REQUIRED.**—

“(1) **COMMERCIAL STATIONS.**—Notwithstanding subsection (a), a satellite carrier shall not be required to carry upon request the signal of any local commercial television broadcast station that substantially duplicates the signal of another local commercial television broadcast station which is secondarily transmitted by the satellite carrier within the same local market, or to carry upon request the signals of more than one local commercial television broadcast station in a single local market that is affiliated with a particular television network unless such stations are licensed to communities in different States.

“(2) **NONCOMMERCIAL STATIONS.**—The Commission shall prescribe regulations limiting the carriage requirements under subsection (a) of satellite carriers with respect to the carriage of multiple local noncommercial television broadcast stations. To the extent possible, such regulations shall provide the same degree of carriage by satellite carriers of such multiple stations as is provided by cable systems under section 615.

“(d) **CHANNEL POSITIONING.**—No satellite carrier shall be required to provide the signal of a local television broadcast station to subscribers in that station’s local market on any particular channel number or to provide the signals in any particular order, except

that the satellite carrier shall retransmit the signal of the local television broadcast stations to subscribers in the stations' local market on contiguous channels and provide access to such station's signals at a nondiscriminatory price and in a nondiscriminatory manner on any navigational device, on-screen program guide, or menu.

“(e) COMPENSATION FOR CARRIAGE.—A satellite carrier shall not accept or request monetary payment or other valuable consideration in exchange either for carriage of local television broadcast stations in fulfillment of the requirements of this section or for channel positioning rights provided to such stations under this section, except that any such station may be required to bear the costs associated with delivering a good quality signal to the local receive facility of the satellite carrier.

“(f) REMEDIES.—

“(1) COMPLAINTS BY BROADCAST STATIONS.—Whenever a local television broadcast station believes that a satellite carrier has failed to meet its obligations under subsections (b) through (e) of this section, such station shall notify the carrier, in writing, of the alleged failure and identify its reasons for believing that the satellite carrier failed to comply with such obligations. The satellite carrier shall, within 30 days after such written notification, respond in writing to such notification and comply with such obligations or state its reasons for believing that it is in compliance with such obligations. A local television broadcast station that disputes a response by a satellite carrier that it is in compliance with such obligations may obtain review of such denial or response by filing a complaint with the Commission. Such complaint shall allege the manner in which such satellite carrier has failed to meet its obligations and the basis for such allegations.

“(2) OPPORTUNITY TO RESPOND.—The Commission shall afford the satellite carrier against which a complaint is filed under paragraph (1) an opportunity to present data and arguments to establish that there has been no failure to meet its obligations under this section.

“(3) REMEDIAL ACTIONS; DISMISSAL.—Within 120 days after the date a complaint is filed under paragraph (1), the Commission shall determine whether the satellite carrier has met its obligations under subsections (b) through (e). If the Commission determines that the satellite carrier has failed to meet such obligations, the Commission shall order the satellite carrier to take appropriate remedial action. If the Commission determines that the satellite carrier has fully met the requirements of such subsections, the Commission shall dismiss the complaint.

“(g) REGULATIONS BY COMMISSION.—Within 1 year after the date of the enactment of this section, the Commission shall issue regulations implementing this section following a rulemaking proceeding. The regulations prescribed under this section shall include requirements on satellite carriers that are comparable to the requirements on cable operators under sections 614(b)(3) and (4) and 615(g)(1) and (2).

“(h) DEFINITIONS.—As used in this section:

“(1) DISTRIBUTOR.—The term ‘distributor’ means an entity which contracts to distribute secondary transmissions from a

satellite carrier and, either as a single channel or in a package with other programming, provides the secondary transmission either directly to individual subscribers or indirectly through other program distribution entities.

“(2) LOCAL RECEIVE FACILITY.—The term ‘local receive facility’ means the reception point in each local market which a satellite carrier designates for delivery of the signal of the station for purposes of retransmission.

“(3) LOCAL MARKET.—The term ‘local market’ has the meaning given that term under section 122(j) of title 17, United States Code.

“(4) SATELLITE CARRIER.—The term ‘satellite carrier’ has the meaning given such term under section 119(d) of title 17, United States Code.

“(5) SECONDARY TRANSMISSION.—The term ‘secondary transmission’ has the meaning given such term in section 119(d) of title 17, United States Code.

“(7) TELEVISION BROADCAST STATION.—The term ‘television broadcast station’ has the meaning given such term in section 325(b)(7).

“SEC. 339. CARRIAGE OF DISTANT TELEVISION STATIONS BY SATELLITE CARRIERS.

“(a) PROVISIONS RELATING TO CARRIAGE OF DISTANT SIGNALS.—

“(1) CARRIAGE PERMITTED.—

“(A) IN GENERAL.—Subject to section 119 of title 17, United States Code, any satellite carrier shall be permitted to provide the signals of no more than two network stations in a single day for each television network to any household not located within the local markets of those network stations.

“(B) ADDITIONAL SERVICE.—In addition to signals provided under subparagraph (A), any satellite carrier may also provide service under the statutory license of section 122 of title 17, United States Code, to the local market within which such household is located. The service provided under section 122 of such title may be in addition to the two signals provided under section 119 of such title.

“(2) PENALTY FOR VIOLATION.—Any satellite carrier that knowingly and willfully provides the signals of television stations to subscribers in violation of this subsection shall be liable for a forfeiture penalty under section 503 in the amount of \$50,000 for each violation or each day of a continuing violation.

“(b) EXTENSION OF NETWORK NONDUPLICATION, SYNDICATED EXCLUSIVITY, AND SPORTS BLACKOUT TO SATELLITE RETRANSMISSION.—

“(1) EXTENSION OF PROTECTIONS.—Within 45 days after the date of the enactment of the Satellite Home Viewer Improvement Act of 1999, the Commission shall commence a single rulemaking proceeding to establish regulations that—

“(A) apply network nonduplication protection (47 CFR 76.92) syndicated exclusivity protection (47 CFR 76.151), and sports blackout protection (47 CFR 76.67) to the retransmission of the signals of nationally distributed superstations by satellite carriers to subscribers; and

“(B) to the extent technically feasible and not economically prohibitive, apply sports blackout protection (47 CFR 76.67) to the retransmission of the signals of network stations by satellite carriers to subscribers.

“(2) DEADLINE FOR ACTION.—The Commission shall complete all actions necessary to prescribe regulations required by this section so that the regulations shall become effective within 1 year after such date of enactment.

“(c) ELIGIBILITY FOR RETRANSMISSION.—

“(1) SIGNAL STANDARD FOR SATELLITE CARRIER PURPOSES.—For the purposes of identifying an unserved household under section 119(d)(10) of title 17, United States Code, within 1 year after the date of the enactment of the Satellite Home Viewer Improvement Act of 1999, the Commission shall conclude an inquiry to evaluate all possible standards and factors for determining eligibility for retransmissions of the signals of network stations, and, if appropriate—

“(A) recommend modifications to the Grade B intensity standard for analog signals set forth in section 73.683(a) of its regulations (47 CFR 73.683(a)), or recommend alternative standards or factors for purposes of determining such eligibility; and

“(B) make a further recommendation relating to an appropriate standard for digital signals.

“(2) WAIVERS.—A subscriber who is denied the retransmission of a signal of a network station under section 119 of title 17, United States Code, may request a waiver from such denial by submitting a request, through such subscriber’s satellite carrier, to the network station asserting that the retransmission is prohibited. The network station shall accept or reject a subscriber’s request for a waiver within 30 days after receipt of the request. The subscriber shall be permitted to receive such retransmission under section 119(d)(10)(B) of title 17, United States Code, if such station agrees to the waiver request and files with the satellite carrier a written waiver with respect to that subscriber allowing the subscriber to receive such retransmission. If a television network station fails to accept or reject a subscriber’s request for a waiver within the 30-day period after receipt of the request, that station shall be deemed to agree to the waiver request and have filed such written waiver.

“(3) ESTABLISHMENT OF IMPROVED PREDICTIVE MODEL REQUIRED.—Within 180 days after the date of the enactment of the Satellite Home Viewer Improvement Act of 1999, the Commission shall take all actions necessary, including any reconsideration, to develop and prescribe by rule a point-to-point predictive model for reliably and presumptively determining the ability of individual locations to receive signals in accordance with the signal intensity standard in effect under section 119(d)(10)(A) of title 17, United States Code. In prescribing

such model, the Commission shall rely on the Individual Location Longley-Rice model set forth by the Federal Communications Commission in Docket No. 98-201 and ensure that such model takes into account terrain, building structures, and other land cover variations. The Commission shall establish procedures for the continued refinement in the application of the model by the use of additional data as it becomes available.

“(4) OBJECTIVE VERIFICATION.—

“(A) IN GENERAL.—If a subscriber’s request for a waiver under paragraph (2) is rejected and the subscriber submits to the subscriber’s satellite carrier a request for a test verifying the subscriber’s inability to receive a signal that meets the signal intensity standard in effect under section 119(d)(10)(A) of title 17, United States Code, the satellite carrier and the network station or stations asserting that the retransmission is prohibited with respect to that subscriber shall select a qualified and independent person to conduct a test in accordance with section 73.686(d) of its regulations (47 CFR 73.686(d)), or any successor regulation. Such test shall be conducted within 30 days after the date the subscriber submits a request for the test. If the written findings and conclusions of a test conducted in accordance with such section (or any successor regulation) demonstrate that the subscriber does not receive a signal that meets or exceeds the signal intensity standard in effect under section 119(d)(10)(A) of title 17, United States Code, the subscriber shall not be denied the retransmission of a signal of a network station under section 119 of title 17, United States Code.

“(B) DESIGNATION OF TESTER AND ALLOCATION OF COSTS.—If the satellite carrier and the network station or stations asserting that the retransmission is prohibited are unable to agree on such a person to conduct the test, the person shall be designated by an independent and neutral entity designated by the Commission by rule. Unless the satellite carrier and the network station or stations otherwise agree, the costs of conducting the test under this paragraph shall be borne by the satellite carrier, if the station’s signal meets or exceeds the signal intensity standard in effect under section 119(d)(10)(A) of title 17, United States Code, or by the network station, if its signal fails to meet or exceed such standard.

“(C) AVOIDANCE OF UNDUE BURDEN.— Commission regulations prescribed under this paragraph shall seek to avoid any undue burden on any party.

“(d) DEFINITIONS.—For the purposes of this section:

“(1) LOCAL MARKET.—The term ‘local market’ has the meaning given that term under section 122(j) of title 17, United States Code.

“(2) NATIONALLY DISTRIBUTED SUPERSTATION.—The term ‘nationally distributed superstation’ means a television broadcast station, licensed by the Commission, that—

“(A) is not owned or operated by or affiliated with a television network that, as of January 1, 1995, offered

interconnected program service on a regular basis for 15 or more hours per week to at least 25 affiliated television licensees in 10 or more States;

“(B) on May 1, 1991, was retransmitted by a satellite carrier and was not a network station at that time; and

“(C) was, as of July 1, 1998, retransmitted by a satellite carrier under the statutory license of section 119 of title 17, United States Code.

“(3) NETWORK STATION.—The term ‘network station’ has the meaning given such term under section 119(d) of title 17, United States Code.

“(4) SATELLITE CARRIER.—The term ‘satellite carrier’ has the meaning given such term under section 119(d) of title 17, United States Code.

“(5) TELEVISION NETWORK.—The term ‘television network’ means a television network in the United States which offers an interconnected program service on a regular basis for 15 or more hours per week to at least 25 affiliated broadcast stations in 10 or more States.”.

(b) NETWORK STATION DEFINITION.—Section 119(d)(2) of title 17, United States Code, is amended—

(1) in subparagraph (B) by striking the period and inserting a semicolon; and

(2) by adding after subparagraph (B) the following: “except that the term does not include the signal of the Alaska Rural Communications Service, or any successor entity to that service.”.

SEC. 1009. RETRANSMISSION CONSENT.

(a) IN GENERAL.—Section 325(b) of the Communications Act of 1934 (47 U.S.C. 325(b)) is amended—

(1) by amending paragraphs (1) and (2) to read as follows: “(b)(1) No cable system or other multichannel video programming distributor shall retransmit the signal of a broadcasting station, or any part thereof, except—

“(A) with the express authority of the originating station;

“(B) under section 614, in the case of a station electing, in accordance with this subsection, to assert the right to carriage under such section; or

“(C) under section 338, in the case of a station electing, in accordance with this subsection, to assert the right to carriage under such section.

“(2) This subsection shall not apply—

“(A) to retransmission of the signal of a noncommercial television broadcast station;

“(B) to retransmission of the signal of a television broadcast station outside the station’s local market by a satellite carrier directly to its subscribers, if—

“(i) such station was a superstation on May 1, 1991;

“(ii) as of July 1, 1998, such station was retransmitted by a satellite carrier under the statutory license of section 119 of title 17, United States Code; and

“(iii) the satellite carrier complies with any network nonduplication, syndicated exclusivity, and sports blackout rules adopted by the Commission under section 339(b) of this Act;

“(C) until December 31, 2004, to retransmission of the signals of network stations directly to a home satellite antenna, if the subscriber receiving the signal—

“(i) is located in an area outside the local market of such stations; and

“(ii) resides in an unserved household;

“(D) to retransmission by a cable operator or other multichannel video provider, other than a satellite carrier, of the signal of a television broadcast station outside the station’s local market if such signal was obtained from a satellite carrier and—

“(i) the originating station was a superstation on May 1, 1991; and

“(ii) as of July 1, 1998, such station was retransmitted by a satellite carrier under the statutory license of section 119 of title 17, United States Code; or

“(E) during the 6-month period beginning on the date of the enactment of the Satellite Home Viewer Improvement Act of 1999, to the retransmission of the signal of a television broadcast station within the station’s local market by a satellite carrier directly to its subscribers under the statutory license of section 122 of title 17, United States Code.

For purposes of this paragraph, the terms ‘satellite carrier’ and ‘superstation’ have the meanings given those terms, respectively, in section 119(d) of title 17, United States Code, as in effect on the date of the enactment of the Cable Television Consumer Protection and Competition Act of 1992, the term ‘unserved household’ has the meaning given that term under section 119(d) of such title, and the term ‘local market’ has the meaning given that term in section 122(j) of such title.”;

(2) by adding at the end of paragraph (3) the following new subparagraph:

“(C) Within 45 days after the date of the enactment of the Satellite Home Viewer Improvement Act of 1999, the Commission shall commence a rulemaking proceeding to revise the regulations governing the exercise by television broadcast stations of the right to grant retransmission consent under this subsection, and such other regulations as are necessary to administer the limitations contained in paragraph (2). The Commission shall complete all actions necessary to prescribe such regulations within 1 year after such date of enactment. Such regulations shall—

“(i) establish election time periods that correspond with those regulations adopted under subparagraph (B) of this paragraph; and

“(ii) until January 1, 2006, prohibit a television broadcast station that provides retransmission consent from engaging in exclusive contracts for carriage or failing to negotiate in good faith, and it shall not be a failure to negotiate in good faith if the television broadcast station enters into retransmission consent agreements containing different terms and conditions, including price terms, with different multichannel video programming distributors if such different terms and conditions are based on competitive marketplace considerations.”;

(3) in paragraph (4), by adding at the end the following new sentence: "If an originating television station elects under paragraph (3)(C) to exercise its right to grant retransmission consent under this subsection with respect to a satellite carrier, section 338 shall not apply to the carriage of the signal of such station by such satellite carrier.";

(4) in paragraph (5), by striking "614 or 615" and inserting "338, 614, or 615"; and

(5) by adding at the end the following new paragraph:

"(7) For purposes of this subsection, the term—

"(A) 'network station' has the meaning given such term under section 119(d) of title 17, United States Code; and

"(B) 'television broadcast station' means an over-the-air commercial or noncommercial television broadcast station licensed by the Commission under subpart E of part 73 of title 47, Code of Federal Regulations, except that such term does not include a low-power or translator television station."

(b) ENFORCEMENT PROVISIONS FOR CONSENT FOR RETRANSMISSIONS.—Section 325 of the Communications Act of 1934 (47 U.S.C. 325) is amended by adding at the end the following new subsection:

"(e) ENFORCEMENT PROCEEDINGS AGAINST SATELLITE CARRIERS CONCERNING RETRANSMISSIONS OF TELEVISION BROADCAST STATIONS IN THE RESPECTIVE LOCAL MARKETS OF SUCH CARRIERS.—

"(1) COMPLAINTS BY TELEVISION BROADCAST STATIONS.—If after the expiration of the 6-month period described under subsection (b)(2)(E) a television broadcast station believes that a satellite carrier has retransmitted its signal to any person in the local market of such station in violation of subsection (b)(1), the station may file with the Commission a complaint providing—

"(A) the name, address, and call letters of the station;

"(B) the name and address of the satellite carrier;

"(C) the dates on which the alleged retransmission occurred;

"(D) the street address of at least one person in the local market of the station to whom the alleged retransmission was made;

"(E) a statement that the retransmission was not expressly authorized by the television broadcast station; and

"(F) the name and address of counsel for the station.

"(2) SERVICE OF COMPLAINTS ON SATELLITE CARRIERS.—For purposes of any proceeding under this subsection, any satellite carrier that retransmits the signal of any broadcast station shall be deemed to designate the Secretary of the Commission as its agent for service of process. A television broadcast station may serve a satellite carrier with a complaint concerning an alleged violation of subsection (b)(1) through retransmission of a station within the local market of such station by filing the original and two copies of the complaint with the Secretary of the Commission and serving a copy of the complaint on the satellite carrier by means of two commonly used overnight delivery services, each addressed to the chief executive officer of the sat-

ellite carrier at its principal place of business, and each marked 'URGENT LITIGATION MATTER' on the outer packaging. Service shall be deemed complete one business day after a copy of the complaint is provided to the delivery services for overnight delivery. On receipt of a complaint filed by a television broadcast station under this subsection, the Secretary of the Commission shall send the original complaint by United States mail, postage prepaid, receipt requested, addressed to the chief executive officer of the satellite carrier at its principal place of business.

“(3) ANSWERS BY SATELLITE CARRIERS.—Within five business days after the date of service, the satellite carrier shall file an answer with the Commission and shall serve the answer by a commonly used overnight delivery service and by United States mail, on the counsel designated in the complaint at the address listed for such counsel in the complaint.

“(4) DEFENSES.—

“(A) EXCLUSIVE DEFENSES.—The defenses under this paragraph are the exclusive defenses available to a satellite carrier against which a complaint under this subsection is filed.

“(B) DEFENSES.—The defenses referred to under subparagraph (A) are the defenses that—

“(i) the satellite carrier did not retransmit the television broadcast station to any person in the local market of the station during the time period specified in the complaint;

“(ii) the television broadcast station had, in a writing signed by an officer of the television broadcast station, expressly authorized the retransmission of the station by the satellite carrier to each person in the local market of the television broadcast station to which the satellite carrier made such retransmissions for the entire time period during which it is alleged that a violation of subsection (b)(1) has occurred;

“(iii) the retransmission was made after January 1, 2002, and the television broadcast station had elected to assert the right to carriage under section 338 as against the satellite carrier for the relevant period; or

“(iv) the station being retransmitted is a non-commercial television broadcast station.

“(5) COUNTING OF VIOLATIONS.—The retransmission without consent of a particular television broadcast station on a particular day to one or more persons in the local market of the station shall be considered a separate violation of subsection (b)(1).

“(6) BURDEN OF PROOF.—With respect to each alleged violation, the burden of proof shall be on a television broadcast station to establish that the satellite carrier retransmitted the station to at least one person in the local market of the station on the day in question. The burden of proof shall be on the satellite carrier with respect to all defenses other than the defense under paragraph (4)(B)(i).

“(7) PROCEDURES.—

“(A) REGULATIONS.—Within 60 days after the date of the enactment of the Satellite Home Viewer Improvement Act of 1999, the Commission shall issue procedural regulations implementing this subsection which shall supersede procedures under section 312.

“(B) DETERMINATIONS.—

“(i) IN GENERAL.—Within 45 days after the filing of a complaint, the Commission shall issue a final determination in any proceeding brought under this subsection. The Commission’s final determination shall specify the number of violations committed by the satellite carrier. The Commission shall hear witnesses only if it clearly appears, based on written filings by the parties, that there is a genuine dispute about material facts. Except as provided in the preceding sentence, the Commission may issue a final ruling based on written filings by the parties.

“(ii) DISCOVERY.—The Commission may direct the parties to exchange pertinent documents, and if necessary to take prehearing depositions, on such schedule as the Commission may approve, but only if the Commission first determines that such discovery is necessary to resolve a genuine dispute about material facts, consistent with the obligation to make a final determination within 45 days.

“(8) RELIEF.—If the Commission determines that a satellite carrier has retransmitted the television broadcast station to at least one person in the local market of such station and has failed to meet its burden of proving one of the defenses under paragraph (4) with respect to such retransmission, the Commission shall be required to—

“(A) make a finding that the satellite carrier violated subsection (b)(1) with respect to that station; and

“(B) issue an order, within 45 days after the filing of the complaint, containing—

“(i) a cease-and-desist order directing the satellite carrier immediately to stop making any further retransmissions of the television broadcast station to any person within the local market of such station until such time as the Commission determines that the satellite carrier is in compliance with subsection (b)(1) with respect to such station;

“(ii) if the satellite carrier is found to have violated subsection (b)(1) with respect to more than two television broadcast stations, a cease-and-desist order directing the satellite carrier to stop making any further retransmission of any television broadcast station to any person within the local market of such station, until such time as the Commission, after giving notice to the station, that the satellite carrier is in compliance with subsection (b)(1) with respect to such stations; and

“(iii) an award to the complainant of that complainant’s costs and reasonable attorney’s fees.

“(9) COURT PROCEEDINGS ON ENFORCEMENT OF COMMISSION ORDER.—

“(A) IN GENERAL.—On entry by the Commission of a final order granting relief under this subsection—

“(i) a television broadcast station may apply within 30 days after such entry to the United States District Court for the Eastern District of Virginia for a final judgment enforcing all relief granted by the Commission; and

“(ii) the satellite carrier may apply within 30 days after such entry to the United States District Court for the Eastern District of Virginia for a judgment reversing the Commission’s order.

“(B) APPEAL.—The procedure for an appeal under this paragraph by the satellite carrier shall supersede any other appeal rights under Federal or State law. A United States district court shall be deemed to have personal jurisdiction over the satellite carrier if the carrier, or a company under common control with the satellite carrier, has delivered television programming by satellite to more than 30 customers in that district during the preceding 4-year period. If the United States District Court for the Eastern District of Virginia does not have personal jurisdiction over the satellite carrier, an enforcement action or appeal shall be brought in the United States District Court for the District of Columbia, which may find personal jurisdiction based on the satellite carrier’s ownership of licenses issued by the Commission. An application by a television broadcast station for an order enforcing any cease-and-desist relief granted by the Commission shall be resolved on a highly expedited schedule. No discovery may be conducted by the parties in any such proceeding. The district court shall enforce the Commission order unless the Commission record reflects manifest error and an abuse of discretion by the Commission.

“(10) CIVIL ACTION FOR STATUTORY DAMAGES.—Within 6 months after issuance of an order by the Commission under this subsection, a television broadcast station may file a civil action in any United States district court that has personal jurisdiction over the satellite carrier for an award of statutory damages for any violation that the Commission has determined to have been committed by a satellite carrier under this subsection. Such action shall not be subject to transfer under section 1404(a) of title 28, United States Code. On finding that the satellite carrier has committed one or more violations of subsection (b), the District Court shall be required to award the television broadcast station statutory damages of \$25,000 per violation, in accordance with paragraph (5), and the costs and attorney’s fees incurred by the station. Such statutory damages shall be awarded only if the television broadcast station has filed a binding stipulation with the court that such station will donate the full amount in excess of \$1,000 of any statutory damage award to the United States Treasury for public purposes. Notwithstanding any other provision of law, a station shall incur no tax liability of any kind with respect to any amounts so do-

nated. Discovery may be conducted by the parties in any proceeding under this paragraph only if and to the extent necessary to resolve a genuinely disputed issue of fact concerning one of the defenses under paragraph (4). In any such action, the defenses under paragraph (4) shall be exclusive, and the burden of proof shall be on the satellite carrier with respect to all defenses other than the defense under paragraph (4)(B)(i). A judgment under this paragraph may be enforced in any manner permissible under Federal or State law.

“(11) APPEALS.—

“(A) IN GENERAL.—The nonprevailing party before a United States district court may appeal a decision under this subsection to the United States Court of Appeals with jurisdiction over that district court. The Court of Appeals shall not issue any stay of the effectiveness of any decision granting relief against a satellite carrier unless the carrier presents clear and convincing evidence that it is highly likely to prevail on appeal and only after posting a bond for the full amount of any monetary award assessed against it and for such further amount as the Court of Appeals may believe appropriate.

“(B) APPEAL.—If the Commission denies relief in response to a complaint filed by a television broadcast station under this subsection, the television broadcast station filing the complaint may file an appeal with the United States Court of Appeals for the District of Columbia Circuit.

“(12) SUNSET.—No complaint or civil action may be filed under this subsection after December 31, 2001. This subsection shall continue to apply to any complaint or civil action filed on or before such date.”.

(a) DEFENSE.—Chapter 28 of title 35, United States Code, is amended by adding at the end the following new section:

“§273. Defense to infringement based on earlier inventor

“(a) DEFINITIONS.—For purposes of this section—

“(1) the terms ‘commercially used’ and ‘commercial use’ mean use of a method in the United States, so long as such use is in connection with an internal commercial use or an actual arm’s-length sale or other arm’s-length commercial transfer of a useful end result, whether or not the subject matter at issue is accessible to or otherwise known to the public, except that the subject matter for which commercial marketing or use is subject to a premarketing regulatory review period during which the safety or efficacy of the subject matter is established, including any period specified in section 156(g), shall be deemed ‘commercially used’ and in ‘commercial use’ during such regulatory review period;

“(2) in the case of activities performed by a nonprofit research laboratory, or nonprofit entity such as a university, research center, or hospital, a use for which the public is the intended beneficiary shall be considered to be a use described in paragraph (1), except that the use—

“(A) may be asserted as a defense under this section only for continued use by and in the laboratory or nonprofit entity; and

“(B) may not be asserted as a defense with respect to any subsequent commercialization or use outside such laboratory or nonprofit entity;

“(3) the term ‘method’ means a method of doing or conducting business; and

“(4) the ‘effective filing date’ of a patent is the earlier of the actual filing date of the application for the patent or the filing date of any earlier United States, foreign, or international application to which the subject matter at issue is entitled under section 119, 120, or 365 of this title.

“(b) DEFENSE TO INFRINGEMENT.—

“(1) IN GENERAL.—It shall be a defense to an action for infringement under section 271 of this title with respect to any subject matter that would otherwise infringe one or more claims for a method in the patent being asserted against a person, if such person had, acting in good faith, actually reduced the subject matter to practice at least 1 year before the effective filing date of such patent, and commercially used the subject matter before the effective filing date of such patent.

“(2) EXHAUSTION OF RIGHT.—The sale or other disposition of a useful end product produced by a patented method, by a person entitled to assert a defense under this section with re-

spect to that useful end result shall exhaust the patent owner's rights under the patent to the extent such rights would have been exhausted had such sale or other disposition been made by the patent owner.

“(3) *LIMITATIONS AND QUALIFICATIONS OF DEFENSE.*—The defense to infringement under this section is subject to the following:

“(A) *PATENT.*—A person may not assert the defense under this section unless the invention for which the defense is asserted is for a method.

“(B) *DERIVATION.*—A person may not assert the defense under this section if the subject matter on which the defense is based was derived from the patentee or persons in privity with the patentee.

“(C) *NOT A GENERAL LICENSE.*—The defense asserted by a person under this section is not a general license under all claims of the patent at issue, but extends only to the specific subject matter claimed in the patent with respect to which the person can assert a defense under this chapter, except that the defense shall also extend to variations in the quantity or volume of use of the claimed subject matter, and to improvements in the claimed subject matter that do not infringe additional specifically claimed subject matter of the patent.

“(4) *BURDEN OF PROOF.*—A person asserting the defense under this section shall have the burden of establishing the defense by clear and convincing evidence.

“(5) *ABANDONMENT OF USE.*—A person who has abandoned commercial use of subject matter may not rely on activities performed before the date of such abandonment in establishing a defense under this section with respect to actions taken after the date of such abandonment.

“(6) *PERSONAL DEFENSE.*—The defense under this section may be asserted only by the person who performed the acts necessary to establish the defense and, except for any transfer to the patent owner, the right to assert the defense shall not be licensed or assigned or transferred to another person except as an ancillary and subordinate part of a good faith assignment or transfer for other reasons of the entire enterprise or line of business to which the defense relates.

“(7) *LIMITATION ON SITES.*—A defense under this section, when acquired as part of a good faith assignment or transfer of an entire enterprise or line of business to which the defense relates, may only be asserted for uses at sites where the subject matter that would otherwise infringe one or more of the claims is in use before the later of the effective filing date of the patent or the date of the assignment or transfer of such enterprise or line of business.

“(8) *UNSUCCESSFUL ASSERTION OF DEFENSE.*—If the defense under this section is pleaded by a person who is found to infringe the patent and who subsequently fails to demonstrate a reasonable basis for asserting the defense, the court shall find the case exceptional for the purpose of awarding attorney fees under section 285 of this title.

“(9) *INVALIDITY*.—A patent shall not be deemed to be invalid under section 102 or 103 of this title solely because a defense is raised or established under this section.”.

“273. Defense to infringement based on earlier inventor.”.

“(b) *PUBLICATION.*—

“(1) *IN GENERAL.*—(A) Subject to paragraph (2), each application for a patent shall be published, in accordance with procedures determined by the Director, promptly after the expiration of a period of 18 months from the earliest filing date for which a benefit is sought under this title. At the request of the applicant, an application may be published earlier than the end of such 18-month period.

“(B) No information concerning published patent applications shall be made available to the public except as the Director determines.

“(C) Notwithstanding any other provision of law, a determination by the Director to release or not to release information concerning a published patent application shall be final and nonreviewable.

A failure of the applicant to provide such notice within the prescribed period shall result in the application being regarded as aban-

“§ 311. Request for inter partes reexamination

“(a) IN GENERAL.—Any person at any time may file a request for inter partes reexamination by the Office of a patent on the basis of any prior art cited under the provisions of section 301.

“(c) COPY.—Unless the requesting person is the owner of the patent, the Director promptly shall send a copy of the request to the owner of record of the patent.

“§ 312. Determination of issue by Director

“(a) *REEXAMINATION.*—Not later than 3 months after the filing of a request for inter partes reexamination under section 311, the Director shall determine whether a substantial new question of patentability affecting any claim of the patent concerned is raised by the request, with or without consideration of other patents or printed publications. On the Director’s initiative, and at any time, the Director may determine whether a substantial new question of patentability is raised by patents and publications.

“(b) *RECORD.*—A record of the Director’s determination under subsection (a) shall be placed in the official file of the patent, and a copy shall be promptly given or mailed to the owner of record of the patent and to the third-party requester, if any.

“(c) *FINAL DECISION.*—A determination by the Director under subsection (a) shall be final and non-appealable. Upon a determination that no substantial new question of patentability has been raised, the Director may refund a portion of the inter partes reexamination fee required under section 311.

“§ 313. Inter partes reexamination order by Director

“If, in a determination made under section 312(a), the Director finds that a substantial new question of patentability affecting a claim of a patent is raised, the determination shall include an order for inter partes reexamination of the patent for resolution of the question. The order may be accompanied by the initial action of the Patent and Trademark Office on the merits of the inter partes reexamination conducted in accordance with section 314.

“§ 314. Conduct of inter partes reexamination proceedings

“(a) *IN GENERAL.*—Except as otherwise provided in this section, reexamination shall be conducted according to the procedures established for initial examination under the provisions of sections 132 and 133. In any inter partes reexamination proceeding under this chapter, the patent owner shall be permitted to propose any amendment to the patent and a new claim or claims, except that no proposed amended or new claim enlarging the scope of the claims of the patent shall be permitted.

“(b) *RESPONSE.*—(1) This subsection shall apply to any inter partes reexamination proceeding in which the order for inter partes reexamination is based upon a request by a third-party requester.

“(2) With the exception of the inter partes reexamination request, any document filed by either the patent owner or the third-party requester shall be served on the other party. In addition, the third-party requester shall receive a copy of any communication sent by the Office to the patent owner concerning the patent subject to the inter partes reexamination proceeding.

“(3) Each time that the patent owner files a response to an action on the merits from the Patent and Trademark Office, the third-party requester shall have one opportunity to file written comments addressing issues raised by the action of the Office or the patent owner’s response thereto, if those written comments are received by the Office within 30 days after the date of service of the patent owner’s response.

“§ 315. Appeal

“(a) *PATENT OWNER.*—The patent owner involved in an inter partes reexamination proceeding under this chapter—

“(1) may appeal under the provisions of section 134 and may appeal under the provisions of sections 141 through 144, with respect to any decision adverse to the patentability of any original or proposed amended or new claim of the patent; and

“(b) *THIRD-PARTY REQUESTER.*—A third-party requester may—

“(1) appeal under the provisions of section 134 with respect to any final decision favorable to the patentability of any original or proposed amended or new claim of the patent; or

“(2) be a party to any appeal taken by the patent owner under the provisions of section 134, subject to subsection (c).

“(c) *CIVIL ACTION.*—A third-party requester whose request for an inter partes reexamination results in an order under section 313 is estopped from asserting at a later time, in any civil action arising in whole or in part under section 1338 of title 28, United States Code, the invalidity of any claim finally determined to be valid and patentable on any ground which the third-party requester raised or could have raised during the inter partes reexamination proceedings. This subsection does not prevent the assertion of invalidity based on newly discovered prior art unavailable to the third-party requester and the Patent and Trademark Office at the time of the inter partes reexamination proceedings.

“§ 316. Certificate of patentability, unpatentability, and claim cancellation

“(a) *IN GENERAL.*—In an inter partes reexamination proceeding under this chapter, when the time for appeal has expired or any appeal proceeding has terminated, the Director shall issue and publish a certificate canceling any claim of the patent finally determined to be unpatentable, confirming any claim of the patent determined to be patentable, and incorporating in the patent any proposed amended or new claim determined to be patentable.

“(b) *AMENDED OR NEW CLAIM.*—Any proposed amended or new claim determined to be patentable and incorporated into a patent following an inter partes reexamination proceeding shall have the same effect as that specified in section 252 of this title for reissued patents on the right of any person who made, purchased, or used within the United States, or imported into the United States, anything patented by such proposed amended or new claim, or who made substantial preparation therefor, prior to issuance of a certificate under the provisions of subsection (a) of this section.

“§ 317. Inter partes reexamination prohibited

“(a) *ORDER FOR REEXAMINATION.*—Notwithstanding any provision of this chapter, once an order for inter partes reexamination of a patent has been issued under section 313, neither the patent owner nor the third-party requester, if any, nor privies of either, may file a subsequent request for inter partes reexamination of the patent until an inter partes reexamination certificate is issued and published under section 316, unless authorized by the Director.

“(b) *FINAL DECISION.*—Once a final decision has been entered against a party in a civil action arising in whole or in part under section 1338 of title 28, United States Code, that the party has not sustained its burden of proving the invalidity of any patent claim in suit or if a final decision in an inter partes reexamination proceeding instituted by a third-party requester is favorable to the patentability of any original or proposed amended or new claim of the patent, then neither that party nor its privies may thereafter request an inter partes reexamination of any such patent claim on the basis of issues which that party or its privies raised or could have raised in such civil action or inter partes reexamination proceeding, and an inter partes reexamination requested by that party or its privies on the basis of such issues may not thereafter be maintained by the Office, notwithstanding any other provision of this chapter. This subsection does not prevent the assertion of invalidity based on newly discovered prior art unavailable to the third-party requester and the Patent and Trademark Office at the time of the inter partes reexamination proceedings.

“§ 318. Stay of litigation

“Once an order for inter partes reexamination of a patent has been issued under section 313, the patent owner may obtain a stay of any pending litigation which involves an issue of patentability of any claims of the patent which are the subject of the inter partes reexamination order, unless the court before which such litigation is pending determines that a stay would not serve the interests of justice.”

“30. Prior Art Citations to Office and Ex Parte Reexamination of Patents	301

SEC. 5008. LOW-POWER TELEVISION.

(a) SHORT TITLE.—This section may be cited as the “Community Broadcasters Protection Act of 1999”.

(b) FINDINGS.—Congress finds the following:

(1) Since the creation of low-power television licenses by the Federal Communications Commission, a small number of license holders have operated their stations in a manner beneficial to the public good providing broadcasting to their communities that would not otherwise be available.

(2) These low-power broadcasters have operated their stations in a manner consistent with the programming objectives and hours of operation of full-power broadcasters providing worthwhile services to their respective communities while under severe license limitations compared to their full-power counterparts.

(3) License limitations, particularly the temporary nature of the license, have blocked many low-power broadcasters from having access to capital, and have severely hampered their ability to continue to provide quality broadcasting, programming, or improvements.

(4) *The passage of the Telecommunications Act of 1996 has added to the uncertainty of the future status of these stations by the lack of specific provisions regarding the permanency of their licenses, or their treatment during the transition to high definition, digital television.*

(5) *It is in the public interest to promote diversity in television programming such as that currently provided by low-power television stations to foreign-language communities.*

(c) **PRESERVATION OF LOW-POWER COMMUNITY TELEVISION BROADCASTING.**—*Section 336 of the Communications Act of 1934 (47 U.S.C. 336) is amended—*

(1) *by redesignating subsections (f) and (g) as subsections (g) and (h), respectively; and*

(2) *by inserting after subsection (e) the following new subsection:*

“(f) **PRESERVATION OF LOW-POWER COMMUNITY TELEVISION BROADCASTING.**—

“(1) **CREATION OF CLASS A LICENSES.**—

“(A) **RULEMAKING REQUIRED.**—*Within 120 days after the date of the enactment of the Community Broadcasters Protection Act of 1999, the Commission shall prescribe regulations to establish a class A television license to be available to licensees of qualifying low-power television stations. Such regulations shall provide that—*

“(i) *the license shall be subject to the same license terms and renewal standards as the licenses for full-power television stations except as provided in this subsection; and*

“(ii) *each such class A licensee shall be accorded primary status as a television broadcaster as long as the station continues to meet the requirements for a qualifying low-power station in paragraph (2).*

“(B) **NOTICE TO AND CERTIFICATION BY LICENSEES.**—*Within 30 days after the date of the enactment of the Community Broadcasters Protection Act of 1999, the Commission shall send a notice to the licensees of all low-power television licenses that describes the requirements for class A designation. Within 60 days after such date of enactment, licensees intending to seek class A designation shall submit to the Commission a certification of eligibility based on the qualification requirements of this subsection. Absent a material deficiency, the Commission shall grant certification of eligibility to apply for class A status.*

“(C) **APPLICATION FOR AND AWARD OF LICENSES.**—*Consistent with the requirements set forth in paragraph (2)(A) of this subsection, a licensee may submit an application for class A designation under this paragraph within 30 days after final regulations are adopted under subparagraph (A) of this paragraph. Except as provided in paragraphs (6) and (7), the Commission shall, within 30 days after receipt of an application of a licensee of a qualifying low-power television station that is acceptable for filing, award such a class A television station license to such licensee.*

“(D) RESOLUTION OF TECHNICAL PROBLEMS.—The Commission shall act to preserve the service areas of low-power television licensees pending the final resolution of a class A application. If, after granting certification of eligibility for a class A license, technical problems arise requiring an engineering solution to a full-power station’s allotted parameters or channel assignment in the digital television Table of Allotments, the Commission shall make such modifications as necessary—

“(i) to ensure replication of the full-power digital television applicant’s service area, as provided for in sections 73.622 and 73.623 of the Commission’s regulations (47 CFR 73.622, 73.623); and

“(ii) to permit maximization of a full-power digital television applicant’s service area consistent with such sections 73.622 and 73.623,

if such applicant has filed an application for maximization or a notice of its intent to seek such maximization by December 31, 1999, and filed a bona fide application for maximization by May 1, 2000. Any such applicant shall comply with all applicable Commission rules regarding the construction of digital television facilities.

“(E) CHANGE APPLICATIONS.—If a station that is awarded a construction permit to maximize or significantly enhance its digital television service area, later files a change application to reduce its digital television service area, the protected contour of that station shall be reduced in accordance with such change modification.

“(2) QUALIFYING LOW-POWER TELEVISION STATIONS.—For purposes of this subsection, a station is a qualifying low-power television station if—

“(A)(i) during the 90 days preceding the date of the enactment of the Community Broadcasters Protection Act of 1999—

“(I) such station broadcast a minimum of 18 hours per day;

“(II) such station broadcast an average of at least 3 hours per week of programming that was produced within the market area served by such station, or the market area served by a group of commonly controlled low-power stations that carry common local programming produced within the market area served by such group; and

“(III) such station was in compliance with the Commission’s requirements applicable to low-power television stations; and

“(ii) from and after the date of its application for a class A license, the station is in compliance with the Commission’s operating rules for full-power television stations; or

“(B) the Commission determines that the public interest, convenience, and necessity would be served by treating the station as a qualifying low-power television station for

purposes of this section, or for other reasons determined by the Commission.

“(3) COMMON OWNERSHIP.—No low-power television station authorized as of the date of the enactment of the Community Broadcasters Protection Act of 1999 shall be disqualified for a class A license based on common ownership with any other medium of mass communication.

“(4) ISSUANCE OF LICENSES FOR ADVANCED TELEVISION SERVICES TO TELEVISION TRANSLATOR STATIONS AND QUALIFYING LOW-POWER TELEVISION STATIONS.—The Commission is not required to issue any additional license for advanced television services to the licensee of a class A television station under this subsection, or to any licensee of any television translator station, but shall accept a license application for such services proposing facilities that will not cause interference to the service area of any other broadcast facility applied for, protected, permitted, or authorized on the date of filing of the advanced television application. Such new license or the original license of the applicant shall be forfeited after the end of the digital television service transition period, as determined by the Commission. A licensee of a low-power television station or television translator station may, at the option of licensee, elect to convert to the provision of advanced television services on its analog channel, but shall not be required to convert to digital operation until the end of such transition period.

“(5) NO PREEMPTION OF SECTION 337.—Nothing in this subsection preempts or otherwise affects section 337 of this Act.

“(6) INTERIM QUALIFICATION.—

“(A) STATIONS OPERATING WITHIN CERTAIN BANDWIDTH.—The Commission may not grant a class A license to a low-power television station for operation between 698 and 806 megahertz, but the Commission shall provide to low-power television stations assigned to and temporarily operating in that bandwidth the opportunity to meet the qualification requirements for a class A license. If such a qualified applicant for a class A license is assigned a channel within the core spectrum (as such term is defined in MM Docket No. 87–286, February 17, 1998), the Commission shall issue a class A license simultaneously with the assignment of such channel.

“(B) CERTAIN CHANNELS OFF-LIMITS.—The Commission may not grant under this subsection a class A license to a low-power television station operating on a channel within the core spectrum that includes any of the 175 additional channels referenced in paragraph 45 of its February 23, 1998, Memorandum Opinion and Order on Reconsideration of the Sixth Report and Order (MM Docket No. 87–268). Within 18 months after the date of the enactment of the Community Broadcasters Protection Act of 1999, the Commission shall identify by channel, location, and applicable technical parameters those 175 channels.

“(7) NO INTERFERENCE REQUIREMENT.—The Commission may not grant a class A license, nor approve a modification of

a class A license, unless the applicant or licensee shows that the class A station for which the license or modification is sought will not cause—

“(A) interference within—

“(i) the predicted Grade B contour (as of the date of the enactment of the Community Broadcasters Protection Act of 1999, or November 1, 1999, whichever is later, or as proposed in a change application filed on or before such date) of any television station transmitting in analog format; or

“(ii)(I) the digital television service areas provided in the DTV Table of Allotments; (II) the areas protected in the Commission’s digital television regulations (47 CFR 73.622(e) and (f)); (III) the digital television service areas of stations subsequently granted by the Commission prior to the filing of a class A application; and (IV) stations seeking to maximize power under the Commission’s rules, if such station has complied with the notification requirements in paragraph (1)(D);

“(B) interference within the protected contour of any low-power television station or low-power television translator station that—

“(i) was licensed prior to the date on which the application for a class A license, or for the modification of such a license, was filed;

“(ii) was authorized by construction permit prior to such date; or

“(iii) had a pending application that was submitted prior to such date; or

“(C) interference within the protected contour of 80 miles from the geographic center of the areas listed in section 22.625(b)(1) or 90.303 of the Commission’s regulations (47 CFR 22.625(b)(1) and 90.303) for frequencies in—

“(i) the 470–512 megahertz band identified in section 22.621 or 90.303 of such regulations; or

“(ii) the 482–488 megahertz band in New York.

“(8) PRIORITY FOR DISPLACED LOW-POWER STATIONS.—Low-power stations that are displaced by an application filed under this section shall have priority over other low-power stations in the assignment of available channels.”.

TITLE VI—SUPERFUND RECYCLING EQUITY

SEC. 6001. SUPERFUND RECYCLING EQUITY.

(a) PURPOSES.—The purposes of this section are—

(1) to promote the reuse and recycling of scrap material in furtherance of the goals of waste minimization and natural resource conservation while protecting human health and the environment;

(2) to create greater equity in the statutory treatment of recycled versus virgin materials; and

(3) to remove the disincentives and impediments to recycling created as an unintended consequence of the 1980 Superfund liability provisions.

(b) CLARIFICATION OF LIABILITY UNDER CERCLA FOR RECYCLING TRANSACTIONS.—

(1) CLARIFICATION.—Title I of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9601 et seq.) is amended by adding at the end the following new section:

“SEC. 127. RECYCLING TRANSACTIONS.

“(a) LIABILITY CLARIFICATION.—

“(1) As provided in subsections (b), (c), (d), and (e), a person who arranged for recycling of recyclable material shall not be liable under sections 107(a)(3) and 107(a)(4) with respect to such material.

“(2) A determination whether or not any person shall be liable under section 107(a)(3) or section 107(a)(4) for any material that is not a recyclable material as that term is used in subsections (b) and (c), (d), or (e) of this section shall be made, without regard to subsections (b), (c), (d), or (e) of this section.

“(b) RECYCLABLE MATERIAL DEFINED.—*For purposes of this section, the term ‘recyclable material’ means scrap paper, scrap plastic, scrap glass, scrap textiles, scrap rubber (other than whole tires), scrap metal, or spent lead-acid, spent nickel-cadmium, and other spent batteries, as well as minor amounts of material incident to or adhering to the scrap material as a result of its normal and customary use prior to becoming scrap; except that such term shall not include—*

“(1) shipping containers of a capacity from 30 liters to 3,000 liters, whether intact or not, having any hazardous substance (but not metal bits and pieces or hazardous substance that form an integral part of the container) contained in or adhering thereto; or

“(2) any item of material that contained polychlorinated biphenyls at a concentration in excess of 50 parts per million or any new standard promulgated pursuant to applicable Federal laws.

“(c) TRANSACTIONS INVOLVING SCRAP PAPER, PLASTIC, GLASS, TEXTILES, OR RUBBER.—*Transactions involving scrap paper, scrap plastic, scrap glass, scrap textiles, or scrap rubber (other than whole tires) shall be deemed to be arranging for recycling if the person who arranged for the transaction (by selling recyclable material or otherwise arranging for the recycling of recyclable material) can demonstrate by a preponderance of the evidence that all of the following criteria were met at the time of the transaction:*

“(1) The recyclable material met a commercial specification grade.

“(2) A market existed for the recyclable material.

“(3) A substantial portion of the recyclable material was made available for use as feedstock for the manufacture of a new saleable product.

“(4) The recyclable material could have been a replacement or substitute for a virgin raw material, or the product to be made from the recyclable material could have been a replacement or substitute for a product made, in whole or in part, from a virgin raw material.

“(5) For transactions occurring 90 days or more after the date of enactment of this section, the person exercised reasonable care to determine that the facility where the recyclable material was handled, processed, reclaimed, or otherwise managed by another person (hereinafter in this section referred to as a ‘consuming facility’) was in compliance with substantive (not procedural or administrative) provisions of any Federal, State, or local environmental law or regulation, or compliance order or decree issued pursuant thereto, applicable to the handling, processing, reclamation, storage, or other management activities associated with recyclable material.

“(6) For purposes of this subsection, ‘reasonable care’ shall be determined using criteria that include (but are not limited to)—

“(A) the price paid in the recycling transaction;

“(B) the ability of the person to detect the nature of the consuming facility’s operations concerning its handling, processing, reclamation, or other management activities associated with recyclable material; and

“(C) the result of inquiries made to the appropriate Federal, State, or local environmental agency (or agencies) regarding the consuming facility’s past and current compliance with substantive (not procedural or administrative) provisions of any Federal, State, or local environmental law or regulation, or compliance order or decree issued pursuant thereto, applicable to the handling, processing, reclamation, storage, or other management activities associated with the recyclable material. For the purposes of this paragraph, a requirement to obtain a permit applicable to the handling, processing, reclamation, or other management activity associated with the recyclable materials shall be deemed to be a substantive provision.

“(d) TRANSACTIONS INVOLVING SCRAP METAL.—

“(1) Transactions involving scrap metal shall be deemed to be arranging for recycling if the person who arranged for the transaction (by selling recyclable material or otherwise arranging for the recycling of recyclable material) can demonstrate by a preponderance of the evidence that at the time of the transaction—

“(A) the person met the criteria set forth in subsection (c) with respect to the scrap metal;

“(B) the person was in compliance with any applicable regulations or standards regarding the storage, transport, management, or other activities associated with the recycling of scrap metal that the Administrator promulgates under the Solid Waste Disposal Act subsequent to the enactment of this section and with regard to transactions occurring after the effective date of such regulations or standards; and

“(C) the person did not melt the scrap metal prior to the transaction.

“(2) For purposes of paragraph (1)(C), melting of scrap metal does not include the thermal separation of 2 or more ma-

materials due to differences in their melting points (referred to as 'sweating').

"(3) For purposes of this subsection, the term 'scrap metal' means bits and pieces of metal parts (e.g., bars, turnings, rods, sheets, wire) or metal pieces that may be combined together with bolts or soldering (e.g., radiators, scrap automobiles, railroad box cars), which when worn or superfluous can be recycled, except for scrap metals that the Administrator excludes from this definition by regulation.

"(e) TRANSACTIONS INVOLVING BATTERIES.—Transactions involving spent lead-acid batteries, spent nickel-cadmium batteries, or other spent batteries shall be deemed to be arranging for recycling if the person who arranged for the transaction (by selling recyclable material or otherwise arranging for the recycling of recyclable material) can demonstrate by a preponderance of the evidence that at the time of the transaction—

"(1) the person met the criteria set forth in subsection (c) with respect to the spent lead-acid batteries, spent nickel-cadmium batteries, or other spent batteries, but the person did not recover the valuable components of such batteries; and

"(2)(A) with respect to transactions involving lead-acid batteries, the person was in compliance with applicable Federal environmental regulations or standards, and any amendments thereto, regarding the storage, transport, management, or other activities associated with the recycling of spent lead-acid batteries;

"(B) with respect to transactions involving nickel-cadmium batteries, Federal environmental regulations or standards are in effect regarding the storage, transport, management, or other activities associated with the recycling of spent nickel-cadmium batteries, and the person was in compliance with applicable regulations or standards or any amendments thereto; or

"(C) with respect to transactions involving other spent batteries, Federal environmental regulations or standards are in effect regarding the storage, transport, management, or other activities associated with the recycling of such batteries, and the person was in compliance with applicable regulations or standards or any amendments thereto.

"(f) EXCLUSIONS.—

"(1) The exemptions set forth in subsections (c), (d), and (e) shall not apply if—

"(A) the person had an objectively reasonable basis to believe at the time of the recycling transaction—

"(i) that the recyclable material would not be recycled;

"(ii) that the recyclable material would be burned as fuel, or for energy recovery or incineration; or

"(iii) for transactions occurring before 90 days after the date of the enactment of this section, that the consuming facility was not in compliance with a substantive (not procedural or administrative) provision of any Federal, State, or local environmental law or regulation, or compliance order or decree issued pursuant thereto, applicable to the handling, processing, rec-

clamation, or other management activities associated with the recyclable material;

“(B) the person had reason to believe that hazardous substances had been added to the recyclable material for purposes other than processing for recycling; or

“(C) the person failed to exercise reasonable care with respect to the management and handling of the recyclable material (including adhering to customary industry practices current at the time of the recycling transaction designed to minimize, through source control, contamination of the recyclable material by hazardous substances).

“(2) For purposes of this subsection, an objectively reasonable basis for belief shall be determined using criteria that include (but are not limited to) the size of the person’s business, customary industry practices (including customary industry practices current at the time of the recycling transaction designed to minimize, through source control, contamination of the recyclable material by hazardous substances), the price paid in the recycling transaction, and the ability of the person to detect the nature of the consuming facility’s operations concerning its handling, processing, reclamation, or other management activities associated with the recyclable material.

“(3) For purposes of this subsection, a requirement to obtain a permit applicable to the handling, processing, reclamation, or other management activities associated with recyclable material shall be deemed to be a substantive provision.

“(g) EFFECT ON OTHER LIABILITY.—Nothing in this section shall be deemed to affect the liability of a person under paragraph (1) or (2) of section 107(a).

“(h) REGULATIONS.—The Administrator has the authority, under section 115, to promulgate additional regulations concerning this section.

“(i) EFFECT ON PENDING OR CONCLUDED ACTIONS.—The exemptions provided in this section shall not affect any concluded judicial or administrative action or any pending judicial action initiated by the United States prior to enactment of this section.

“(k) RELATIONSHIP TO LIABILITY UNDER OTHER LAWS.—Nothing in this section shall affect—

“(1) liability under any other Federal, State, or local statute or regulation promulgated pursuant to any such statute, including any requirements promulgated by the Administrator under the Solid Waste Disposal Act; or

“(2) the ability of the Administrator to promulgate regulations under any other statute, including the Solid Waste Disposal Act.

“(l) LIMITATION ON STATUTORY CONSTRUCTION.—Nothing in this section shall be construed to—

“(1) affect any defenses or liabilities of any person to whom subsection (a)(1) does not apply; or

“(2) create any presumption of liability against any person to whom subsection (a)(1) does not apply.”
