CLERK'S NOTE

This committee print provides a compilation of the enacted text and applicable explanatory material for the Consolidated Appropriations Act, 2016 (H.R. 2029; P.L. 114–113).

This Act consists of 12 divisions related to appropriations matters (divisions A through L). The Act also includes five additional divisions unrelated to appropriations (divisions M through Q). This compilation includes only the divisions related to appropriations matters. It also includes the front section of the Act, which contains provisions applicable to the entire Act.

The legislative text for this Act was submitted by Chairman Harold Rogers of the House Committee on Appropriations as a House amendment to the Senate amendment on H.R. 2029, the Military Construction and Veterans Affairs and Related Agencies Appropriations Act, 2016. Both the House and the Senate agreed to the measure on December 18, 2015.¹ The President signed the legislation on December 18, and it became Public Law 114–113.

Because an “amendments-between-the-House” process was used instead of a conference committee, there is no conference report and no “joint explanatory statement of the managers” for H.R. 2029. An Explanatory Statement relating to the House amendment to H.R. 2029 was filed by Chairman Rogers in the *Congressional Record* of December 17, 2015.² Section 4 of the Act provides that this Explanatory Statement “shall have the same effect with respect to the allocation of funds and implementation of divisions A through L of this Act as if it were a joint explanatory statement of a committee of conference.”

For the convenience of users of this Committee Print, the legislative text of each appropriations division is paired with the applicable section of the Explanatory Statement.

¹ The House agreed to the amendment by a vote of 316 yeas–113 nays (Roll no. 705). The Senate agreed to the amendment by a vote of 65 yeas–33 nays (Record Vote No. 339).

² The Explanatory Statement appears on pages H9693–H10471 in Books II and III of the December 17, 2015 *Congressional Record*.

[CLERK'S NOTE: Reproduced below is the material relating to division G contained in the Explanatory Statement regarding H.R. 2029, the Consolidated Appropriations Act, 2016.¹]

DIVISION G—DEPARTMENT OF THE INTERIOR, ENVIRONMENT, AND RELATED AGENCIES APPROPRIATIONS ACT, 2016

The following statement is an explanation of the effects of Division G, which makes appropriations for the Department of the Interior, the Environmental Protection Agency (EPA), the Forest Service, the Indian Health Service, and related agencies for fiscal year 2016. Report language contained in House Report 114–170 and Senate Report 114–70 providing specific guidance to agencies regarding the administration of appropriated funds and any corresponding reporting requirements carries the same emphasis as the language included in this explanatory statement and should be complied with unless specifically addressed to the contrary herein. This explanatory statement, while repeating some language for emphasis, is not intended to negate the language referred to above unless expressly provided herein.

In cases where the House report, Senate report, or this explanatory statement directs the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations. Where this explanatory statement refers to the Committees or the Committees on Appropriations, unless otherwise noted, this reference is to the House Subcommittee on Interior, Environment, and Related Agencies and the Senate Subcommittee on Interior, Environment, and Related Agencies.

The Committees direct each department and agency funded in this Act to follow the directions set forth in this Act and the accompanying statement, and not reallocate resources or reorganize activities except as provided herein or otherwise approved by the Committees through the reprogramming process as described in this explanatory statement. This explanatory statement addresses only those agencies and accounts for which there is a need for greater explanation than provided in the Act itself. Funding levels for appropriations by account, program, and activity, with comparisons to the fiscal year 2015 enacted level and the fiscal year 2016 budget request, can be found in the table at the end of this division.

Unless expressly stated otherwise, any reference to “this Act” or “at the end of this statement” shall be treated as referring only to the provisions of this division.

¹ The Explanatory Statement was submitted for printing in the Congressional Record on December 17, 2015 by Mr. Rogers of Kentucky, Chairman of the House Committee on Appropriations. The Statement appears on pages H9693–H10471 of Books II and III.

Drought, Forests and Wildfires.—Severe and prolonged drought can increase the rate at which trees die and devastating wildfires occur. In light of the number of dead and downed trees on public lands in the West, the Forest Service, National Park Service and Bureau of Land Management are directed to work with State and local governments in drought-stricken regions to facilitate the prompt removal of dead and downed trees on these lands and to prioritize funding to reduce the threat of devastating wildfire threats to communities, drinking water supplies, utilities, and groves of ancient trees.

Making Litigation Costs Transparent.—The Department of the Interior, EPA, and the Forest Service are directed to provide to the House and Senate Committees on Appropriations, and to make publicly available no later than 60 days after enactment of this Act, detailed Equal Access to Justice Act (EAJA) fee information as specified in the Consolidated and Further Continuing Appropriations Act, 2015.

State Wildlife Data.—The Department of the Interior and the Forest Service are expected to prioritize continued coordination with other Federal agencies and State fish and wildlife agencies to recognize and fully utilize State fish and wildlife data and analyses as a primary source to inform land use, planning, and related natural resource decisions. Federal agencies should not unnecessarily duplicate raw data, and when appropriate, should evaluate existing analysis of data prepared by the States, and reciprocally share data with State wildlife managers, to ensure that the most complete data set is available for decision support systems.

Land Grants, Acequias and Community Ditches.—The Secretaries of the Interior and Agriculture are urged to recognize the traditional use of State-recognized community land grants, acequias, and community ditches in the American Southwest during the land use planning process.

Multi-Agency Transparency.—In order to increase transparency, the Department of the Interior, Forest Service, and Environmental Protection Agency are encouraged to disclose costs associated with analyses required by the National Environmental Policy Act.

Greater Sage-Grouse.—The agreement provides a total of \$63,250,000 for sage-grouse conservation, including \$60,000,000 for the Bureau of Land Management and \$3,250,000 for the Fish and Wildlife Service. The agencies are directed to focus this funding toward on-the-ground conservation measures to improve and preserve sage-grouse habitat and the sagebrush ecosystem. The Bureau is reminded of the concerns outlined in the House and Senate reports as Congress continues to hear complaints about the effect of the sage-grouse land use plan amendments, which are not limited to activities within Bureau controlled sage-grouse habitat. In order for the sage-grouse, communities, and States to thrive, all partners must work in good faith. As such, the Bureau and the Forest Service are directed to closely work with each of the 11 States and the affected communities to address the issues unique to each State and seek to collaboratively resolve all issues. The Bureau is directed to provide guidance to its State offices and partners on how it will update sage-grouse habitat maps, adopt new

scientific information, as appropriate, and engage State, local, non-governmental, and private partners.

Land and Water Conservation Fund.—The agreement includes \$450,000,000 derived from the Land and Water Conservation Fund for programs consistent with chapter 2003 of title 54 of the United States Code, as identified in the table below. This one-time increase of \$143,859,000 above the fiscal year 2015 enacted level is intended for worthy projects at the local, State, and Federal levels. The Department of the Interior and the Forest Service are directed to include a table in future budget requests, separating State and local programs from Federal land acquisition, as displayed below.

	FY 2015 Enacted	Budget Request (Discretionary)	This Bill
Land and Water Conservation Fund	\$306,141,000	\$400,000,000	\$450,000,000
State and Local Programs	87,503,000	112,147,000	160,800,000
National Park Service State Assistance	48,117,000	53,161,000	110,000,000
Coop. Endangered Species Conservation Fund	27,400,000	50,000,000	30,800,000
American Battlefield Protection Act	8,986,000	8,986,000	10,000,000
Highlands Conservation Act	3,000,000	0	10,000,000
Forest Legacy Program	53,000,000	61,000,000	62,347,000
Federal Land Acquisition	165,638,000	226,853,000	226,853,000
Forest Service	47,500,000	63,000,000	63,435,000
Fish and Wildlife Service	44,535,000	58,500,000	58,500,000
National Park Service	41,857,000	55,353,000	53,670,000
Bureau of Land Management ...	19,746,000	38,000,000	38,630,000
Department of the Interior Valuation Services	12,000,000	12,000,000	12,618,000

Federal projects are funded in priority order by agency according to the budget request, with amounts adjusted downward as necessary due to updated project information and support. Many of the requested projects lacked sufficient information for the Committees to determine with a high degree of confidence that funds appropriated could be obligated in this fiscal year. Ideally, requested projects should have: identified properties, willing sellers, updated appraisals or market information, and the support of Federal, State, and local officials. Agencies should include the feasibility of phasing projects as well as a description of which parcels are being considered for conservation easements or fee simple acquisition in any supplemental information sent to the Committees. The agencies are also urged to increase the transparency of the project selection and prioritization processes in annual budget requests, particularly in regard to collaborative landscape projects.

The Department of the Interior did not consult the Committees on a decision to reprogram \$995,000 from one project to acquire a property in another project identified in the fiscal year 2016 budget request. Therefore, the agreement includes a new reprogramming limitation of not to exceed \$1,000,000 or 10 percent from any project, whichever amount is less, as detailed under the Reprogramming Guidelines heading later in this statement.

The Committees believe increasing access to public lands for hunting, fishing, and other recreational activities is important.

This agreement includes new funding for these activities for the National Park Service and Fish and Wildlife Service while increasing funds for the Bureau of Land Management and Forest Service. The Committees expect the agencies to report within 30 days of enactment of this Act on how this funding will be spent, and the agencies should include a description and explanation of the use of funds in future budget requests. The agencies are also directed to include in future budget requests a description and explanation on the use of funds within their inholdings line items.

Paper Reduction Efforts.—The Committees urge each agency funded by this Act to work with the Office of Management and Budget (OMB) to reduce printing and reproduction costs and direct each agency to report to the Committees within 60 days of enactment of this Act on what steps have been taken to achieve this goal. The report should specifically identify how much money each agency expects to save by implementing these measures.

Public Access.—The Department of the Interior and the Forest Service are directed to notify the House and Senate Committees on Appropriations in advance of any proposed project specifically intending to close an area to recreational shooting, hunting, or fishing on a non-emergency basis of more than 30 days.

National Ocean Policy.—The President's budget submission for fiscal year 2017 shall identify by agency and account all funding and associated actions proposed for the implementation of the coastal and marine spatial planning and ecosystem-based management components of the National Ocean Policy developed under Executive Order 13547.

REPROGRAMMING GUIDELINES

The following are the procedures governing reprogramming actions for programs and activities funded in the Department of the Interior, Environment, and Related Agencies Appropriations Act. The Committees remind the agencies funded in this Act that these reprogramming guidelines are in effect, and must be complied with, until such time as the Committees modify them through bill or report language.

Definitions.—"Reprogramming," as defined in these procedures, includes the reallocation of funds from one budget activity, budget line-item, or program area, to another within any appropriation funded in this Act. In cases where either the House or Senate Committee report displays an allocation of an appropriation below that level, that more detailed level shall be the basis for reprogramming.

For construction, land acquisition, and forest legacy accounts, a reprogramming constitutes the reallocation of funds, including unobligated balances, from one construction, land acquisition, or forest legacy project to another such project.

A reprogramming shall also consist of any significant departure from the program described in the agency's budget justifications. This includes proposed reorganizations, especially those of significant national or regional importance, even without a change in funding. Any change to the organization table presented in the budget justification shall be subject to this requirement.

General Guidelines for Reprogramming.—

(a) A reprogramming should be made only when an unforeseen situation arises, and then only if postponement of the project or the activity until the next appropriation year would result in actual loss or damage.

(b) Any project or activity, which may be deferred through reprogramming, shall not later be accomplished by means of further reprogramming, but instead, funds should again be sought for the deferred project or activity through the regular appropriations process.

(c) Except under the most urgent situations, reprogramming should not be employed to initiate new programs or increase allocations specifically denied or limited by Congress, or to decrease allocations specifically increased by the Congress.

(d) Reprogramming proposals submitted to the House and Senate Committees on Appropriations for approval shall be considered approved 30 calendar days after receipt if the Committees have posed no objection. However, agencies will be expected to extend the approval deadline if specifically requested by either Committee.

Criteria and Exceptions.—A reprogramming must be submitted to the Committees in writing prior to implementation if it exceeds \$1,000,000 annually or results in an increase or decrease of more than 10 percent annually in affected programs or projects, whichever amount is less, with the following exceptions:

(a) With regard to the tribal priority allocations of the Bureau of Indian Affairs and Bureau of Indian Education, there is no restriction on reprogrammings among these programs. However, the Bureaus shall report on all reprogrammings made during a given fiscal year no later than 60 days after the end of the fiscal year.

(b) With regard to the EPA, the Committees do not require reprogramming requests associated with the States and Tribes Partnership Grants, or up to a cumulative total of \$30,000,000 from carryover balances among the individual program areas delineated in the Environmental Programs and Management account. No funds, however, shall be reallocated from individual Geographic Programs.

Assessments.—“Assessment” as defined in these procedures shall refer to any charges, reserves, or holdbacks applied to a budget activity or budget line item for costs associated with general agency administrative costs, overhead costs, working capital expenses, or contingencies.

(a) No assessment shall be levied against any program, budget activity, subactivity, budget line item, or project funded by the Interior, Environment, and Related Agencies Appropriations Act unless such assessment and the basis therefor are presented to the Committees on Appropriations in the budget justifications and are subsequently approved by the Committees. The explanation for any assessment in the budget justification shall show the amount of the assessment, the activities assessed, and the purpose of the funds.

(b) Proposed changes to estimated assessments, as such estimates were presented in annual budget justifications, shall be submitted through the reprogramming process and shall be subject to the same dollar and reporting criteria as any other reprogramming.

(c) The Committees direct that each agency or bureau which utilizes assessments shall submit an annual report to the Committees

which provides details on the use of all funds assessed from any other budget activity, line item, subactivity, or project.

(d) In no case shall contingency funds or assessments be used to finance projects and activities disapproved or limited by Congress, or to finance programs or activities that could be foreseen and included in the normal budget review process.

(e) New programs requested in the budget should not be initiated before enactment of the bill without notification to, and the approval of, the Committees on Appropriations. This restriction applies to all such actions regardless of whether a formal reprogramming of funds is required to begin the program.

Quarterly Reports.—All reprogrammings between budget activities, budget line-items, program areas, or the more detailed activity levels shown in this agreement, including those below the monetary thresholds established above, shall be reported to the Committees within 60 days of the end of each quarter and shall include cumulative totals for each budget activity, budget line item, or construction, land acquisition, or forest legacy project.

Land Acquisitions, Easements, and Forest Legacy.—Lands shall not be acquired for more than the approved appraised value (as addressed in section 301(3) of Public Law 91–646), unless such acquisitions are submitted to the Committees on Appropriations for approval in compliance with these procedures.

Land Exchanges.—Land exchanges, wherein the estimated value of the Federal lands to be exchanged is greater than \$1,000,000, shall not be consummated until the Committees have had a 30-day period in which to examine the proposed exchange. In addition, the Committees shall be provided advance notification of exchanges valued between \$500,000 and \$1,000,000.

Budget Structure.—The budget activity or line item structure for any agency appropriation account shall not be altered without advance approval of the House and Senate Committees on Appropriations.

TITLE I—DEPARTMENT OF THE INTERIOR

BUREAU OF LAND MANAGEMENT

MANAGEMENT OF LANDS AND RESOURCES

The agreement provides \$1,072,675,000 for Management of Lands and Resources. In addition to the funding allocation table at the end of this explanatory statement, the agreement includes the following instructions:

Wild Horses and Burros.—The Bureau is encouraged to continue to implement the reforms recommended by the 2013 National Academy of Sciences' report, reduce the number of horses and burros in long-term holding, appropriately manage herds affected by drought, and address the effects of herds on rangeland, riparian areas, and sage-grouse habitat.

Rangeland Management.—The Bureau is directed, to the greatest extent practicable, to make vacant grazing allotments available to a holder of a grazing permit or lease when lands covered by the holder of the permit or lease are unusable because of drought or

wildfire. The Bureau also is directed to follow the directive herein for the Forest Service regarding bighorn sheep conservation.

Recreation Management.—The Bureau is encouraged to continue its collaborative efforts with non-Federal partners to teach outdoor ethics and stewardship to staff and visitors.

Law Enforcement.—The Bureau is encouraged to focus on visitor safety and archaeological resource protection and work with the Department of Justice and the Department of Homeland Security on other matters of Federal law not unique to Bureau lands or property. Within the funds provided, the Bureau is expected to increase its efforts regarding illegal marijuana cultivation on public lands.

Cooperative Efforts in Alaska.—The Bureau, as the largest Federal landowner in the State of Alaska's Arctic region, is directed to work cooperatively with local stakeholders to enhance economic opportunities for the people who live and work in the region. The Bureau also is reminded of the directions contained in the Senate report regarding Placer Mining Reclamation Activities, contaminated Alaska Native lands in need of remediation, and cooperation with the Alaska State Oil and Gas Conservation Commission and other stakeholders on measurement of production in the National Petroleum Reserve-Alaska.

UNITED STATES FISH AND WILDLIFE SERVICE

RESOURCE MANAGEMENT

The bill provides \$1,238,771,000 for Resource Management. In addition to the funding allocation table at the end of this explanatory statement, the agreement includes the following instructions and changes to the fiscal year 2015 enacted levels:

Reprogrammings.—The agreement does not include exceptions to the reprogramming guidelines contained in the House report. The Service is directed to comply with the reprogramming guidelines contained in the front of this explanatory statement.

Ecological Services.—The agreement includes the proposed new budget structure as modified in the House report. The Committees will monitor the budget structure and make changes in future years, if necessary, to ensure a continued high level of transparency. The Service must improve its ability to account for budget estimates and expenditures to implement specific laws by more closely aligning the presentation of authorizing statutes and budget subactivities in annual budget submissions, and by including cross-cut tables where necessary, such as for implementation of the Endangered Species Act. The Service is further directed to display in annual budget submissions an estimate of requested appropriations and prior year expenditures for listings versus delistings.

Listing.—The agreement includes legislative caps on processing petitions, listing international species, and designating critical habitat, as requested.

The agreement does not contain the directive in Senate Report 114–70 requiring advance notice when endangered species settlement agreements are finalized. In its place, the Service is directed to provide the Committees a report detailing: (1) the feasibility of providing notice to the Governor of each State where a species exists when the Service enters into multi-species settlement negotiations; (2) the feasibility of providing notice to the Governor of each state where a species exists at least 30 days prior to finalizing a settlement agreement; and (3) the feasibility of providing public notice when the Service enters into multi-species settlement negotiations so that other impacted stakeholders may take part in those negotiations.

Planning and Consultation.—The agreement includes \$81,094,000 for General Program Activities. The request to handle the Service's increased permitting workload in the Gulf as a result of the 2010 Deepwater Horizon oil spill is funded at \$1,000,000.

Conservation and Restoration.—The agreement includes \$3,250,000 for the sagebrush steppe ecosystem, which shall be used for working with States and private landowners to implement science-based, flexible approaches to conserve the sage-grouse.

Recovery.—The agreement includes \$1,373,000 for Cooperative Recovery; \$1,659,000 as requested for ecosystem restoration of the Bay Delta; \$1,000,000 to continue the wolf-livestock demonstration program as authorized by Public Law 111–11; \$2,000,000 to reduce the backlog of delistings and downlistings; and \$500,000 for multi-partner recovery actions. The Service is directed to prioritize the recovery of the California condor and northern aplomado falcon and provide the necessary funding to enable the longstanding public-private partnerships to continue to support the wild populations through captive propagation, releases, and management, as the Service and the States work to address the continued environmental threats to these species.

Within available resources, the Service is urged to develop recovery plans for all listed species as required by law; to include in each recovery plan measurable goals that the Service, the States, and their partners can strive for; and to report to the Congress on any species for which the Secretary finds that a recovery plan will not promote the conservation of the species, including the justification for such finding. The Service is urged to complete all status reviews within the five-year period required by law, and, for any determination on the basis of such review whether a species should be delisted, downlisted, or uplisted, promulgate an associated regulation prior to initiating the next status review for such species. The Service is directed to submit annually with its budget request a complete list of all species with completed 5-year reviews recommending a change in listing status upon which the Service has not acted.

National Wildlife Refuge System.—The agreement includes \$2,500,000 for urban wildlife conservation. It also includes \$2,092,000 for volunteer partnerships, an increase of \$500,000 over the fiscal year 2015 enacted level, for costs related to ensuring that

volunteers maintain a robust presence at wildlife refuges. No funds are provided for land protection planning. The agreement includes the requested increases for maintenance support and deferred maintenance.

The Fish and Wildlife Service and the Forest Service are expected to enter into a long-term memorandum of understanding, as contemplated in the Senate report, within 90 days of enactment of this Act, to continue the research activities conducted by the Forest Service on the Sharkey Restoration Research and Demonstration Site. The Committees understand the agencies are working toward that goal and the agencies are expected to ensure that not less than 950 acres of the total parcel acreage is available for research and not considered appropriate for future land swaps or exchanges.

Migratory Bird Management.—The agreement includes \$1,000,000 for aviation management in order to address critical safety issues, and \$250,000 to address bird-livestock conflicts.

Law Enforcement.—The agreement includes program increases of \$4,000,000 as requested to combat wildlife trafficking, and \$4,000,000 as requested for direct interdiction of illegal commercial exploitation by organized criminal elements, as authorized by the Lacey Act and other statutes.

The Fish and Wildlife Service is directed to conduct an analysis to determine whether it is appropriate to include Echinoderms in the exemption to clearance requirements for import and export of fishery products. The Service should provide the analysis to the Committees on Appropriations within 180 days of enactment of the Act. Additionally, the Service should provide reports to the Committees on Appropriations on a semiannual basis during fiscal years 2016 and 2017 that detail for each processor of echinoderms, the time and date an inspection request is made and the corresponding time and date that the Service conducts the inspection. The Service is expected to complete the inspections promptly so that product spoilage does not occur.

International Affairs.—As the Service works to finalize the rule published on July 29, 2015, the Service is encouraged to consider all feedback received during the public comment period, and to consider a final rule that includes a de minimis exemption, consideration for antiques and museums, and allowances for sport hunters.

Fish and Aquatic Conservation.—The agreement provides \$53,418,000 for National Fish Hatchery System Operations, including not less than \$400,000 for the Aquatic Animal Drug Approval Partnership, as requested. None of the funds may be used to terminate operations or to close any facility of the National Fish Hatchery System. None of the production programs listed in the March, 2013, National Fish Hatchery System Strategic Hatchery and Workforce Planning Report may be reduced or terminated without advance, informal consultation with affected States and Indian tribes.

The agreement includes the directive in the Senate report related to the continued operation of mitigation hatcheries. The agreement requires that future budget requests ensure Federal partners have committed to sufficiently reimbursing the Service for mitigation hatcheries before the Service proposes to eliminate funding for mitigation hatcheries.

The agreement includes \$19,920,000 as requested for maintenance. The Service is encouraged to re-evaluate its allocation methodology so that increases are fairly directed to facilities with the most severe health and safety deficiencies across the National Fish Hatchery System as a whole, rather than by region.

The agreement includes \$13,248,000 for the National Fish Passage Program. The Service is directed to determine whether unintentional barriers to fish passage are being installed faster than this program is removing them, and to determine whether program funding is more effective if focused on prevention instead of restoration.

The agreement includes \$3,000,000 for work related to implementation of the Klamath Basin Restoration Agreement and related settlement agreements, equal to the fiscal year 2015 enacted level; and \$7,900,000 to control invasive Asian carp, as requested. An additional \$1,000,000 is provided above the fiscal year 2015 enacted level for the implementation of State and inter-State invasive species plans.

Cooperative Landscape Conservation.—The agreement includes \$700,000 for Gulf Coast ecosystem restoration, as requested.

Science Support.—The agreement includes \$2,500,000 for white-nose syndrome research.

General Operations.—The agreement includes the proposed reductions for Service-wide bill paying; the proposed transfer of the tribal liaison office, which is funded at \$1,803,000; and a partial increase for annual maintenance of the National Conservation Training Center.

CONSTRUCTION

The bill provides \$23,687,000 for Construction. The detailed allocation of funding by activity is included in the table at the end of this statement. The Service is expected to follow the construction project priority list included in the President's fiscal year 2016 budget request, and as shown in the table below.

NATIONAL PARK SERVICE

OPERATION OF THE NATIONAL PARK SYSTEM

The agreement provides \$2,369,596,000 for the Operation of the National Park System. The detailed allocation of funding by program area and activity is included in the table at the end of this division.

Operation of the National Park System.—The agreement provides \$93,823,000 in new discretionary funding within the Operation of the National Park System (ONPS) account to support the Centennial Initiative and related efforts. Specifically, the agreement includes \$16,000,000 in new funds within the Park Support line item to support the Centennial, which fully funds the budget request to support new areas and critical responsibilities across the System including, but not limited to, operations at sites associated with the Civil Rights Movement; Flight 93 National Memorial; and the Manhattan Project National Historical Park. Funds are also provided to support new park units including the Pullman and Honouliuli units as well as critical operating needs as described in further detail below. An additional \$1,500,000 is provided to complete landscape restoration projects at newly established park units. The agreement also includes \$8,000,000 as requested to restore seasonal ranger staff and enhance education and interpretive services; \$6,000,000 as requested to support the Service's Civil Rights initiative; and \$2,000,000 as requested to support increased volunteer capacity through partner organizations. Lastly, the agreement provides new discretionary funding to address deferred maintenance needs including a \$17,500,000 increase for repair and rehabilitation projects and a \$17,500,000 increase to address cyclic maintenance needs. These funds are supplemented by \$15,000,000 provided within the Centennial Challenge matching grant program account dedicated to funding joint public-private investments in parks. The final allocation of funds supporting the Centennial Initiative, including the detailed allocation of new areas and critical responsibilities funding described above, shall be provided to the Committees as part of the Service's annual operating plan for the ONPS account not later than 60 days after enactment of this Act. Such plan shall be subject to the reprogramming guidelines contained in this explanatory statement.

Marijuana Eradication.—Within the amounts provided, the Committees expect the Service to continue its marijuana eradication programs at no less than the fiscal year 2015 enacted level.

Quagga and Zebra Mussel Control.—The Committees remain concerned about the spread of quagga and zebra mussels in the West and, consistent with fiscal year 2015, have provided \$2,000,000 for continued containment, prevention, and enforcement efforts. Further, the Committees direct the Service to provide, not later than 90 days after enactment of this Act, a progress report on steps taken in recent years to address this pervasive threat to western watersheds.

National Capital Area Performing Arts Program.—Within the amounts provided, the Service is directed to maintain funding for the National Capital Area Performing Arts Program, including the summer concert series staged on the U.S. Capitol grounds, at the fiscal year 2015 enacted level.

White-Nose Syndrome in Bats.—The Committees provide funds as requested to support monitoring and surveillance activities associated with white-nose syndrome in bats.

Mississippi National River and Recreation Area.—The Service is directed to undertake a study for the development of a permanent headquarters and visitor use facility at the Mississippi National River and Recreation Area in close proximity to the existing temporary headquarters and the river.

Eastern Legacy Study (Lewis and Clark Trail Study).—The Eastern Legacy Study, authorized to determine the feasibility of extending the Lewis and Clark National Historic Trail, is now two years overdue. The Committees direct the Service to complete the study expeditiously.

Ste. Genevieve Special Resource Study.—The Committees urge the Service to complete in a timely fashion the Ste. Genevieve Special Resource Study which has been ongoing since 2010.

Ozark National Scenic Riverways.—The Service is directed to work collaboratively with affected parties to ensure that implementation of the General Management Plan for the Ozark National Scenic Riverways addresses the concerns of affected stakeholders including, but not limited, to local communities and businesses.

National Mall and Memorial Parks Concessions.—The Committees reiterate their direction from the Consolidated and Further Continuing Appropriations Act, 2015, that the Service provide the report on National Mall and Memorial Parks Concessions to the House and Senate Committees on Appropriations not later than 30 days after enactment of this Act.

Sewall-Belmont House and Museum.—Within funds provided for new areas and critical responsibilities, the Service is directed to implement the recommendations of the Service's reconnaissance study on the Sewall-Belmont House and Museum. The Committees are pleased that the study affirmed the House is suitable for inclusion in the national park system, and expects the Service to use funds provided to assume additional management responsibilities until a long-term management solution for the House is reached.

Valles Caldera National Preserve.—The recommendation supports the requested transfer of the Valles Caldera National Preserve to the Service to reflect its status as a new park unit. The

Committees direct the Service to use funds for new areas and critical responsibilities to maintain funding for the Preserve at no less than the fiscal year 2015 program operating level.

Blackstone River Valley National Historical Park.—The recommendation also supports funding for the Blackstone River Valley National Historical Park as requested with the expectation that the Service will continue to make funds available to the local coordinating entity to maintain staffing and capacity to assist in management of the park, as authorized in Public Law 113–291. The Committees expect future budget requests to provide funding for operating and partnership needs.

Yosemite National Park.—The Committees direct the Service to work with its concessioners at Yosemite National Park to ensure there is no interruption to visitor and recreational services as the park implements the Merced River Plan.

Park Partnerships.—In recent years, the Committees have expressed support for ongoing public-private partnerships and strongly encouraged the Service to expand their use. The Committees encourage the Service to find ways to further engage partners to facilitate the accomplishment of park projects consistent with the applicable laws and regulations that govern use of Federal appropriations.

Roosevelt-Campobello International Park Commission.—Funding for Roosevelt-Campobello International Park Commission (The Commission) on the Maine-Canada border is jointly and equally supported by the U.S. and Canadian governments pursuant to the 1964 Agreement between the two nations, which was recognized and codified by Congress in 1964 (Public Law 88–363). While the Administration has a responsibility to consider priorities within overall budget constraints and submit an annual budget request to Congress, the Committees are concerned with recent requests for the Park from the Service. Congress observed in 1986 the following: “The managers agree that hereafter the Service should use its internal reprogramming authority so that there will be no diminution of the amount provided for the Roosevelt Campobello International Park Commission, unless reduced by the House or Senate in a report accompanying the appropriations bill.” (CR–H10497, October 15, 1986). Therefore, the Committees direct that the budget request prepared by the Roosevelt Campobello International Park Commission shall be submitted by the Administration directly to the House and Senate Committees on Appropriations without any changes. The Administration, in its National Park Service budget justification, may comment on the Commission’s budget request and make such additions and subtractions that it may propose. However, the amounts requested by the National Park Service shall be consistent with its obligations under international agreements. The Committees will consider the proposal from the Commission and the Administration will allocate the overall appropriation as specified in the report accompanying the Interior, Environment, and Related Agencies Appropriations Act.

Sales of Bottled Water at Park Units.—The Committees are aware of concerns raised about Director’s Policy Memorandum 11–03 relating to disposable plastic water bottle recycling and reduction, which provided park units the option to eliminate the sale of

bottled water on a park-by-park basis. The Committees understand that 19 parks have eliminated the sale of disposable water bottles as a result of this policy and direct the Service to provide, not later than 60 days after enactment of this Act, a report that details the data the Service reviewed and the justification for making the determination to ban bottled water at each affected park unit.

NATIONAL RECREATION AND PRESERVATION

The agreement provides \$62,632,000 for National Recreation and Preservation with the following specific directives:

Chesapeake Gateways and Trails Program.—As requested, the agreement includes \$2,014,000 for the Chesapeake Gateways and Trails Program.

Heritage Partnership Program.—The agreement provides \$19,821,000 for the Heritage Partnership Program. In order to provide stable funding sources for all areas, the agreement provides funding for longstanding areas at fiscal year 2015 funding levels; provides a total of \$300,000 to national heritage areas with recently approved management plans, known as tier 2 areas; and provides \$150,000 to each tier 1 area that has been authorized and is still in the process of having its management plan approved. The Committees direct the Service to submit a plan that provides alternatives to implement proposed funding allocation changes in future fiscal years that minimize impacts on existing heritage areas.

HISTORIC PRESERVATION FUND

The agreement provides \$65,410,000 for the Historic Preservation Fund. Within this amount, \$46,925,000 is provided for grants to States and \$9,985,000 is provided to tribes, consistent with the request. The recommendation also includes \$8,500,000 for competitive grants of which \$500,000 is for grants to underserved communities and \$8,000,000 is for competitive grants to document, interpret, and preserve historical sites associated with the Civil Rights Movement. Prior to execution of these funds, the Service shall submit a spend plan to the Committees on Appropriations of the House and Senate.

CONSTRUCTION

The agreement provides \$192,937,000 for Construction with the following specific directive:

Line Item Construction.—The agreement provides \$116,276,000 for line item construction projects in the fiscal year 2016 budget request and as shown in the table below. Requests for reprogramming will be considered pursuant to the guidelines in the front of this explanatory statement.

LAND AND WATER CONSERVATION FUND

(RESCISSION)

The agreement includes a rescission of \$28,000,000 in annual contract authority. This authority has not been used in recent years and there are no plans to use this authority in fiscal year 2016.

LAND ACQUISITION AND STATE ASSISTANCE

The bill provides \$173,670,000 for Land Acquisition and State Assistance. The amounts recommended by this bill compared with the budget estimates by activity are shown in the table below, listed in priority order pursuant to the budget request for fiscal year 2016. Further instructions are contained under the Land and Water Conservation Fund heading in the front of this explanatory statement.

The Committees understand that P.L. 91–660, as amended, contains authority that would allow for the exchange of National Park Service lands for State owned uplands at Cat Island within the Gulf Islands National Seashore, and encourage the Service and State to continue this exchange effort.

CENTENNIAL CHALLENGE

The agreement provides \$15,000,000 for the Centennial Challenge matching grant program, a key component of the Service's Centennial Initiative. The program provides dedicated Federal funding to leverage partnerships for signature projects and programs for the national park system, including critical infrastructure investments. The amount provided for the Centennial Challenge is intended to complement funding for core operations provided in the Operation of the National Park System account to enhance the visitor experience and to protect cultural and natural resources at national park system units in anticipation of the Service's Centennial celebration. A one-to-one matching requirement is required for projects to qualify for these funds. The Service is urged to give preference to projects that demonstrate additional leveraging capacity from its partners.

UNITED STATES GEOLOGICAL SURVEY

SURVEYS, INVESTIGATIONS, AND RESEARCH

The agreement provides \$1,062,000,000 for Surveys, Investigations, and Research of the U.S. Geological Survey (USGS). In addition to the funding allocation table at the end of this explanatory statement, the agreement includes the following instructions:

Ecosystems.—The bill provides \$158,041,000, which includes an increase of \$500,000 to address white-nose syndrome in bats and \$500,000 for new and emerging species research. The Committees want to ensure that the Survey is taking a balanced approach towards its program areas and direct the Survey to report to the Committees within 180 days of enactment of this Act on what new

studies and projects over \$1,000,000 have been initiated within the last three fiscal years under the various program areas. The Committees also encourage the Survey to work with the Department to include a cross cut for high priority species and critical landscapes under the ecosystem mission in future budget submissions.

Climate and Land Use Change.—The bill provides \$139,975,000, which includes an increase of \$4,300,000 for Landsat science activities for Landsat 9 and no funding for the free flying thermal infrared instrument. The Survey is expected to focus on drought impacts and adaptive management with the funding provided within this activity.

Energy, Minerals, and Environmental Health.—The bill provides \$94,511,000, which includes the requested increase of \$2,440,000 for the critical minerals program. The proposed decrease of \$2,000,000 for mapping activities is rejected and the Committees expect the Survey to continue with geologic mapping activities in areas of the country where high quality mineral and energy resources remain unmapped at a useable scale.

Natural Hazards.—Funding for the Natural Hazards program includes \$60,503,000 for earthquake hazards, of which \$8,200,000 is provided to transition the earthquake early warning demonstration project into an operational capability for the West Coast. The Survey is directed to conduct a cost-benefit analysis and spending plan for the adoption of any remaining seismic stations, including any stations in final deployment, if included as part of the Survey's Advanced National Seismic System for research. The bill also provides \$26,121,000 for volcano hazards, including an additional \$1,000,000, for repairing and upgrading current systems with a focus on high-threat volcanoes. The Volcano Hazard Program is expected to continue to work on the deferred network maintenance of volcano hazard monitoring stations that are currently inoperable.

Water Resources.—The bill provides \$213,052,000 for Water Resources under a new requested budget structure. From within this new structure, the activities associated with the Cooperative Water Program will receive \$57,710,000, equal to the fiscal year 2015 enacted level. Further, the bill provides \$42,226,000 for Water Availability and Use Science programs, including an increase of \$301,000 for drought forecasting activities and \$2,000,000 for groundwater resource studies to assess transboundary aquifers as authorized by Public Law 109-488 and regions within the Mississippi River Alluvial Plain which are experiencing variability in groundwater systems; \$71,535,000 for Groundwater and Streamflow Information programs including increases of \$1,000,000 for the groundwater network and \$928,000 for streamgages; \$92,791,000 for National Water Quality Programs; and \$6,500,000 for the Water Resources Research Institutes.

Core Science Systems.—The bill provides \$111,550,000, which includes a \$3,000,000 increase for 3D Elevation: National Enhancement, and the requested increase of \$1,322,000 to fund the Alaska mapping program.

BUREAU OF OCEAN ENERGY MANAGEMENT

OCEAN ENERGY MANAGEMENT

The bill provides \$170,857,000 for Ocean Energy Management to be partially offset with the collection of rental receipts and cost recovery fees totaling \$96,622,000, for a net discretionary appropriation of \$74,235,000. The request did not include any funds for coastal marine spatial planning and accordingly the bill provides no funds for such activities. The agreement includes the following additional guidance:

Renewable Energy.—The Bureau should continue to work with the Department of Energy to identify and permit a national offshore wind test site that incorporates new technology related to the structural material of transitional depth and floating wind turbines. The Bureau is also expected to continue working with coastal States and other stakeholders to study new wind energy areas, including those in shallow, transitional, and deep (over 200 feet) waters.

Bill language.—The agreement does not continue the provision authorizing minimum rates of basic pay that was included in both the Senate and House bills. The Office of Personnel Management has approved special salary rate tables covering employees eligible under the provision and therefore it is no longer necessary.

BUREAU OF SAFETY AND ENVIRONMENTAL ENFORCEMENT

OFFSHORE SAFETY AND ENVIRONMENTAL ENFORCEMENT

The bill provides \$189,772,000 for Offshore Safety and Environmental Enforcement to be partially offset with the collection of rental receipts, cost recovery fees and inspection fees totaling \$116,207,000 for a net discretionary appropriation of \$73,565,000. While the Committees realigned general support service costs consistent with the budget request, concerns remain with respect to further budget consolidations. The Bureau should continue to provide greater clarity in its Congressional Justification for mission specific program areas within the budget line for Operations, Safety, and Regulation.

OIL SPILL RESEARCH

The bill provides \$14,899,000 for Oil Spill Research.

OFFICE OF SURFACE MINING RECLAMATION AND ENFORCEMENT

REGULATION AND TECHNOLOGY

The bill provides \$123,253,000 for Regulation and Technology. Within this amount, the bill funds regulatory grants at \$68,590,000, equal to the fiscal year 2015 enacted level. The Committees find that the budget proposal to reduce regulatory grants would undermine the State-based regulatory system. It is imperative that States continue to operate protective regulatory programs as delegation of authority to the States is the cornerstone of the surface mining regulatory program. Further, the agreement does not provide funds to expand and enhance Federal oversight activities of State programs.

Stream Buffer Zone Rule.—The Committees are concerned about the work at OSMRE on the Stream Buffer Zone rule and note that more than half of the States who agreed to work as participating agencies have withdrawn from the process. The Committees are concerned that OSMRE is not working with important State partners in an effective manner and believe that OSMRE should re-engage State partners in a meaningful manner before finalizing the Stream Buffer Zone rule. To achieve the best outcome possible, OSMRE is directed to provide the States with all technical reports, data, analyses, comments received, and drafts relative to the environmental reviews, draft and final environmental impact statements, and meet with any State with primacy during such process at the request of the State.

ABANDONED MINE RECLAMATION FUND

The bill provides \$117,303,000 for the Abandoned Mine Reclamation Fund. Of the funds provided, \$27,303,000 shall be derived from the Abandoned Mine Reclamation Fund and \$90,000,000 shall be derived from the General Fund. The agreement provides \$90,000,000 for grants to States for the reclamation of abandoned mine lands in conjunction with economic and community development and reuse goals. Such grants shall be distributed to States in accordance with the goals, intent and direction provided under this heading in House Report 114–170.

BUREAU OF INDIAN AFFAIRS AND BUREAU OF INDIAN EDUCATION

OPERATION OF INDIAN PROGRAMS

(INCLUDING TRANSFER OF FUNDS)

The bill provides \$2,267,924,000 for Operation of Indian Programs. Fixed costs and transfers are included along with additional details in the funding allocation table at the end of this explanatory statement. The agreement includes the following instructions and program changes to the fiscal year 2015 enacted level:

Contract Support.—The agreement moves Contract Support and the Indian Self-Determination Fund to a new account, as described in further detail below.

Social Services.—The agreement includes a \$4,000,000 program increase in Social Services for implementation of the Tiwahe initiative.

Trust.—Natural Resources Management.—The agreement provides \$191,846,000 for Trust—Natural Resources Management. Program increases include \$2,000,000 for rights protection implementation; and \$4,000,000 for forestry projects, of which \$2,000,000 is for forest thinning, and \$2,000,000 is for fire recovery.

Bureau of Indian Education.—The agreement provides \$852,367,000 for the Bureau of Indian Education. Program increases include \$10,881,000 to fully fund estimated tribal grant support costs; \$7,000,000 for facilities operations; \$7,000,000 for facilities maintenance; \$500,000 to restore juvenile detention education program grants; \$2,550,000 for education program management; and \$2,000,000 for information technology. Tribal Education Departments (TEDs) are fully funded at \$2,000,000 as requested.

Johnson O'Malley assistance grants are funded at \$14,778,000. The Committees remain concerned about the accuracy of student counts. The Bureau is directed to consult with tribes and Congress before proposing any changes in the distribution of future funds or in the frequency or method of future counts.

Education program enhancements are funded at the fiscal year 2015 enacted level. The Bureau should consider transferring this line item to education program management in the fiscal year 2017 budget request to more accurately account for personnel.

Within the funding provided for the Early Child and Family Development Program, the Bureau shall not reduce funding for currently operating Family and Child Education programs. The Bureau is directed to publish its report on the 2013–14 school year internal review of early child and family development programs in order to improve program direction and transparency.

The agreement continues bill language providing the Secretary with the authority to approve satellite locations of existing BIE schools consistent with the guidance contained in the explanatory statement accompanying the Consolidated and Further Continuing Appropriations Act, 2015.

Post-Secondary Program forward funding is increased by \$5,100,000 to forward fund tribal technical colleges. This one-time increase provides a transition to forward funding, consistent with funding practices for most other tribal colleges. The Bureau is encouraged to include a proposal in the fiscal year 2017 budget request to transition the remaining tribal colleges and universities to forward funding.

The Committees remain concerned about recent Government Accountability Office (GAO) reports detailing problems within the K–12 Indian education system at the Department of the Interior, in particular as they pertain to organizational structure, accountability, finance, health and safety, and ultimately student performance. As the Department takes steps to reform the system, the Secretary is reminded that future support from Congress will continue to be based in large part upon successful implementation of GAO report recommendations. In particular, consistent with GAO report 13–774, the Secretary is urged to reorganize Indian Affairs so that control and accountability of the BIE system is consolidated within the BIE, to present such reorganization proposal in the fiscal year 2017 budget request, and to submit to the Committees a corresponding updated workforce plan. Consistent with GAO testimonies 15–389T, 15–539T, 15–597T, and any subsequent reports, the Secretary is urged to personally oversee immediate actions necessary to ensure the continued health and safety of students and employees at BIE schools and facilities.

Public Safety and Justice.—The agreement provides \$377,423,000 for public safety and justice. Program increases include \$3,000,000 for criminal investigations and police services. The Committees encourage BIA to continue to look for opportunities to improve public safety resources, especially child foster care services, on Spirit Lake Reservation. Other program increases include \$3,000,000 in law enforcement special initiatives and \$5,000,000 for tribal courts for the Tiwahe initiative; \$11,000,000 for the Office of Tribal Justice Support, of which \$1,000,000 is to

help implement the Violence Against Women Reauthorization Act of 2013, and of which \$10,000,000 is to work with Indian tribes and tribal organizations to assess needs, consider options, and design, develop, and pilot tribal court systems for tribal communities including those communities subject to full or partial State jurisdiction under Public Law 83–280.

Community and Economic Development.—The agreement includes \$4,500,000 for the Indian Energy Service Center, as requested. Energy development holds much promise for Indian communities and it is the Committees' expectation that the new center will reduce much of the bureaucracy so that tribes may begin energy development without delay.

Tribal Recognition.—The Committees acknowledge concerns expressed by certain tribes, States, and bipartisan members of Congress regarding effects of recent changes in tribal recognition policy on standards that have been applied to new applicants since 1978. Federal acknowledgement of a tribe impacts the Federal budget, other tribes, State and local jurisdictions, and individual rights. The Committees expect the Administration to maintain rigorous recognition standards while implementing a more transparent, efficient, and workable process.

CONTRACT SUPPORT COSTS

The agreement includes new language establishing an indefinite appropriation for contract support costs estimated to be \$277,000,000, which is an increase of \$26,000,000 above the fiscal year 2015 level. The budget request proposed to fund these costs within the "Operation of Indian Programs" account through Contract Support and the Indian Self-Determination Fund budget lines. Under the new budget structure, the full amount tribes are entitled to will be paid and other programs will not be reduced in cases where the agency may have underestimated these payments when submitting its budget. Additional funds may be provided by the agency if its budget estimate proves to be lower than necessary to meet the legal obligation to pay the full amount due to tribes, but this account is solely for the purposes of paying contract support costs and no transfers from this account are permitted for other purposes. Similar to the President's request for calculating contract support costs, this provision also applies to new and expanded Indian Self-Determination and Education Assistance Act agreements funded through the Indian Self-Determination Fund activity.

CONSTRUCTION

(INCLUDING TRANSFER OF FUNDS)

The bill provides \$193,973,000 for Construction. In addition to the funding allocation table at the end of this explanatory statement, the agreement includes the following instructions:

Education.—This appropriation completes the 2004 replacement school construction list and provides \$8,000,000 towards planning and design of schools on the next list, as requested. The Committees encourage the Administration to continue to work with tribal

leaders in a transparent manner to complete the next list in time for fiscal year 2017 budget consideration.

This appropriation also restores the replacement facilities construction line item, as requested. Serious health and safety hazards exist at BIE facilities across the country, including the Bug-O-Nay-Ge-Shig School of the Leech Lake Band of Ojibwe. The Secretary is directed to develop a comprehensive plan to work with tribes to repair and replace all substandard educational facilities, especially facilities being used for purposes other than those for which they were built.

Combined, these appropriations begin to restore the education construction budget which has declined significantly in recent years. Regardless of whether tribes choose to exercise their self-determination rights to run schools in the BIE system, the Federal government retains ownership of the schools and the responsibility to ensure that the schools are properly maintained, repaired, improved, and ultimately replaced at the end of their lifespan, according to best practices across education systems nationwide. That is why the Committees are concerned about the current approach to construction, which focuses on a subset of schools in the worst condition and requires those schools to submit applications and compete for the funding. Going forward, the Committees believe that the Bureau should conduct comprehensive, long-term facilities planning and expect the Bureau to model its efforts on the process used by the Department of Defense (DOD) to produce its 2009 report to Congress on modernizing and improving all DOD schools.

The Committees strongly support efforts to identify innovative alternative financing options to accelerate the pace of repair and replacement for the Bureau of Indian Education schools, including the use of bonding authority. The Committees urge the Department to explore, in consultation with the Department of the Treasury, the best available approach to meet repayment obligations and to fund the construction, rehabilitation, and repair of Bureau of Indian Education schools.

The agreement includes a one-time funding amount of \$5,000,000 above the President's request for BIE facilities and improvement repair projects that can be completed promptly and to address the backlog of critical deferred maintenance projects.

INDIAN LAND AND WATER CLAIMS SETTLEMENTS AND MISCELLANEOUS PAYMENTS TO INDIANS

The bill provides \$49,475,000 for Indian Land and Water Claims Settlements and Miscellaneous Payments to Indians. The Committees appreciate the importance of settling the numerous land and water settlements, and direct the Department to submit a spending plan to the Committees within 90 days of enactment of this Act for how it plans to allocate the funds provided by this bill for the specific settlements.

INDIAN GUARANTEED LOAN PROGRAM ACCOUNT

The bill provides \$7,748,000 for the Indian Guaranteed Loan Program Account.

DEPARTMENTAL OFFICES

OFFICE OF THE SECRETARY

DEPARTMENTAL OPERATIONS

The detailed allocation of funding by program area and activity is included in the table at the end of the statement. The agreement provides \$12,618,000 for the Office of Valuation Services.

Increases above the fiscal year 2015 enacted level include \$1,288,000 to support the Office of Natural Resources Revenue (ONRR) Onshore Production Verification pilot and \$2,600,000 as requested for ONRR to help with certain Trust responsibilities for the Osage Nation consistent with the services ONRR already provides to every other tribe. The agreement also includes \$452,000,000 to fully fund the Payments in Lieu of Taxes (PILT) program for fiscal year 2016. The agreement does not provide requested funds for the Coastal Resilience Fund.

The Secretary is reminded that Congress supports the use of Federal land for energy corridors where appropriate, and that nothing in P.L. 113–135 limits or otherwise alters the Secretary's authority to issue and administer right-of-way grants or right-of-use authorizations for transmission lines within the Section 368 West-Wide Energy Corridor 39–231 on the Federal land described in P.L. 113–135.

Experienced Services Program.—The agreement does not include language authorizing the establishment of the Department of the Interior Experienced Services Program as proposed by the Senate. While the Committees support the Department's goal of utilizing the skills of older workers to help it accomplish its mission, the Committees urge the Department to work closely with the authorizing committees of jurisdiction in the House and Senate to achieve this goal within the context of reauthorizing the Older Americans Act.

National Monument Designations.—The Department is directed to collaboratively work with interested parties, including Congress, States, local communities, tribal governments, and others, before making national monument designations.

Royalty Rate Study.—The Committees request a Government Accountability Office (GAO) study of the relationship between increasing royalty rates on oil, gas, and coal production on Federal lands and the relative competitiveness of Federal lands for exploration and production versus State and private lands, as well as any resulting effect on the Federal treasury. GAO shall report the results to the Committees no later than one year after enactment of this Act.

INSULAR AFFAIRS

ASSISTANCE TO TERRITORIES

The agreement provides \$86,976,000 for Assistance to Territories. In addition to the funding allocation table at the end of this

explanatory statement, the agreement includes the following instructions:

The agreement recognizes that the Office of Insular Affairs' most impactful spending is through the Technical Assistance Program to fund projects to improve drinking water, sanitation, health, safety, and economic opportunity and sustainability. The agreement directs these funds to be awarded accordingly and does not provide funding for new initiatives proposed in the budget request. Additionally, the Office of Insular Affairs is directed to continue to award non-competitive technical assistance funds to support investments in civic education programs for Insular Area students.

Of the funds provided, \$291,673,000 is for suppression operations, which combined with \$177,000,000 in the FLAME Wildfire Suppression Reserve Fund, provides a total of \$468,673,000 for Department of the Interior fire suppression activities. This amount exceeds the ten-year average for suppression by \$85,000,000 to provide additional resources, as requested, based upon up-to-date forecasting models. The detailed allocation of fund-

ing for these accounts is included in the table at the end of this explanatory statement.

TITLE II—ENVIRONMENTAL PROTECTION AGENCY

The bill provides \$8,139,887,000 for the Environmental Protection Agency (EPA).

Congressional Budget Justification.—The Agency is directed to continue to include the information requested in House Report 112–331 and any proposals to change State allocation formulas that affect the distribution of appropriated funds in future budget justifications.

Reprogramming.—The Agency is held to the reprogramming limitation of \$1,000,000 and should continue to follow the reprogram-

ming directives as provided in the front of this explanatory statement. Further, the Agency may not use any amount of deobligated funds to initiate a new program, office, or initiative, without the prior approval of the Committees.

Within 30 days of enactment of this Act, the Agency is directed to submit to the House and Senate Committees on Appropriations its annual operating plan for fiscal year 2016, which shall detail how the Agency plans to allocate funds at the program project level.

SCIENCE AND TECHNOLOGY

The bill provides \$734,648,000 for Science and Technology programs and transfers \$18,850,000 from the Hazardous Substance Superfund account to this account. The bill provides the following specific funding levels and direction:

Because these grants are independent of the STAR grant program, the Agency should strive to award grants in as large an amount as is possible to achieve the most scientifically significant research. Funds shall be awarded competitively with priority given to partners proposing research of national scope and who provide a 25 percent match. The Agency is directed to allocate funds to grantees within 180 days of enactment of this Act. Further, the bill provides \$3,000,000 as directed in House Report 114–170. In addition, the bill provides \$7,000,000 for certification and compliance activities related to vehicle and engine emissions, of which the Agency is directed to provide at least \$5,000,000 in extramural resources.

Research: Safe and Sustainable Water Resources.—The agreement includes \$107,434,000 and the Agency shall follow the direction under this heading in Senate Report 114–70.

Additional Guidance.—The agreement includes the following additional guidance:

Validation of Scientifically Significant Studies.—The Agency shall follow the direction under this heading in Senate Report 114–70.

ENVIRONMENTAL PROGRAMS AND MANAGEMENT

The bill provides \$2,613,679,000 for Environmental Programs and Management and includes the following specific funding levels and direction:

Clean Air and Climate.—The Agency shall allocate funds consistent with fiscal year 2015.

Environmental Protection: National Priorities.—The bill provides \$12,700,000 for a competitive grant program to provide technical assistance for improved water quality or safe drinking water to

rural and urban communities or individual private well owners. The Agency is directed to provide \$11,000,000 for grants to qualified not-for-profit organizations, on a national or multi-State regional basis, for the sole purpose of providing on-site training and technical assistance for water systems in rural or urban communities. The Agency is also directed to provide \$1,700,000 for grants to qualified not-for-profit organizations for technical assistance for individual private well owners, with priority given to organizations that currently provide technical and educational assistance to individual private well owners. The Agency shall require each grantee to provide a minimum 10 percent match, including in-kind contributions. The Agency is directed to allocate funds to grantees within 180 days of enactment of this Act.

Geographic Programs.—The bill provides \$427,737,000, as distributed in the table at the end of this division, and includes the following direction:

In addition, the Committees direct EPA to use the funds provided to accelerate the processing of mining permits with the Corps of Engineers. Further, the Committees direct EPA, in consultation with the Corps of Engineers, to continue to report monthly on the number of Section 404 permits under EPA's review, consistent with the direction under this heading in House Report 114–170. Additionally, the Agency is directed to provide \$600,000 to each National Estuary Program (NEP) funded under Section 320 of the Clean Water Act.

Water: Human Health Protection.—The agreement includes \$98,507,000. The proposed elimination of the beach program has been rejected and funding is maintained at the fiscal year 2015 level.

Water Quality Protection.—The agreement includes \$210,417,000 and the Agency shall allocate funds consistent with fiscal year 2015.

Additional Guidance.—The agreement includes the following additional guidance:

Combined Sewer Overflows.—The agreement includes bill language related to sewage discharges into the Great Lakes and no

further directives. The Committees urge the Agency to expeditiously complete the study required by P.L. 113–235.

Conflicts of Interest.—The Agency has not yet resolved longstanding questions regarding conflicts of interest that have spanned multiple Administrations. For fiscal year 2016, the Administrator shall develop a policy statement on science quality and integrity that shall be adhered to by the Science Advisory Board (SAB) and all Board members. Such policy statement shall be consistent with the Federal Advisory Committee Act, the Ethics in Government Act, and all other applicable Federal laws and regulations. EPA’s policy statement should include goals on increasing membership from States and tribes who are often underrepresented, as noted in the May 2014 National Academy of Sciences review of EPA’s IRIS program. Should the Administrator decide that financial-related metrics are appropriate to identify conflicts-of-interest or bias, then EPA’s policy shall also include an evaluation of potential bias based on a variety of factors including receipt of former and current Federal grants or public statements or positions as well as other appropriate safeguards to ensure balance amongst SAB and other advisory board experts. In addition, the policy statement shall include direction on the treatment of public comments and responses to such comments.

When complete, the Committees direct EPA to submit the draft policy statement to the U.S. Government Accountability Office (GAO) for review of the updated conflict of interest policy, policy for committee composition and balance, and eligibility requirements for service on the SAB that will ensure fairness and objectivity. GAO shall determine if the updated policies meet the intent of the directives above and, if so, shall certify to the Committees on Appropriations that EPA’s conflict of interest policies offer a balanced framework. The Agency is directed to submit these required documents to GAO for review no later than 90 days from the date of enactment of this Act.

Gold King Mine.—The Committees are concerned about the impacts following the Gold King Mine Spill on August 5, 2015 and believe long-term monitoring efforts are an important need following this event. Further, the Committees are concerned that EPA’s monitoring plan does not have the full support from impacted States and tribes. Therefore, EPA is directed to coordinate with impacted States and tribes on development of a robust, long-term plan for independent monitoring. With existing funds, the Agency is directed to continue to seek ways to provide States and tribes with support for their contribution to monitoring efforts.

HAZARDOUS WASTE ELECTRONIC MANIFEST SYSTEM FUND

The bill provides \$3,674,000 for the Hazardous Waste Electronic Manifest System Fund. The Committees continue to support the expeditious development of a system that would allow for the electronic tracking of hazardous waste shipments pursuant to P.L. 112–195. As anticipated costs continue to exceed authorized levels, the Committees direct EPA to work with appropriate Committees to extend the authorization for appropriations beyond fiscal year 2015 and provide estimates of costs to operate the system once built.

OFFICE OF INSPECTOR GENERAL

The bill provides \$41,489,000 for the Office of Inspector General.

BUILDINGS AND FACILITIES

The bill provides \$42,317,000 for Buildings and Facilities.

HAZARDOUS SUBSTANCE SUPERFUND

(INCLUDING TRANSFERS OF FUNDS)

The bill provides \$1,088,769,000 for the Hazardous Substance Superfund account and includes bill language to transfer \$9,939,000 to the Office of Inspector General account and \$18,850,000 to the Science and Technology account. The bill provides the following additional direction:

Superfund Cleanup.—The Committees understand the funding is insufficient to eliminate the backlog of unfunded new starts but the Committees expect the Agency will use funds provided to initiate remediation at highly contaminated, orphan sites and support remedial pipeline activities that are critical prior to construction.

Financial Assurance.—Prior to proposing any rule pursuant to section 108(b) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9608(b)), the Administrator is directed to collect and analyze information from the commercial insurance and financial industries regarding the use and availability of necessary instruments (including surety bonds, letters of credit and insurance) for meeting any new financial responsibility requirements and to make that analysis available to the House and Senate Committees on Appropriations and to the general public on the Agency website 90 days prior to a proposed rulemaking. In addition, the analysis shall include the Agency's plan to avoid requiring financial assurances that are duplicative of those already required by other Federal agencies.

Lead at Superfund Sites.—The agreement includes the directive in the House and Senate Reports that the Agency contract with the National Academy of Sciences to conduct a study of lead at Superfund sites. The agreement narrows the scope of the study to Superfund sites within, adjacent or proximal to the nation's largest lead mining districts. The Agency's authority shall not be impacted during the pendency of the study.

LEAKING UNDERGROUND STORAGE TANK TRUST FUND PROGRAM

The bill provides \$91,941,000 for the Leaking Underground Storage Tank Trust Fund Program.

INLAND OIL SPILL PROGRAMS

The bill provides \$18,209,000 for Inland Oil Spill Programs.

STATE AND TRIBAL ASSISTANCE GRANTS

The bill provides \$3,518,161,000 for the State and Tribal Assistance Grants (STAG) program and includes the following specific funding levels and direction:

Diesel Emissions Reductions Grants (DERA).—The bill provides \$50,000,000 for DERA grants. The Agency shall continue to make

at least 70 percent of DERA grants available to improve air quality in non-attainment areas. The Committees encourage EPA to provide a third report to Congress prior to January 1, 2016, that includes the analysis requested in Public Law 111-364.

Targeted Airshed Grants.—The bill provides \$20,000,000 for targeted airshed grants to reduce air pollution in non-attainment areas. These grants shall be distributed on a competitive basis to non-attainment areas that EPA determines are ranked as the top five most polluted areas relative to annual ozone or particulate matter 2.5 standards as well as the top five areas based on the 24-hour particulate matter 2.5 standard where the design values exceed the 35 $\mu\text{g}/\text{m}^3$ standard. To determine these areas, the Agency shall use the most recent design values calculated from validated air quality data. The Committees note that these funds are available for emission reduction activities deemed necessary for compliance with national ambient air quality standards and included in a State Implementation Plan submitted to EPA. Not later than the end of fiscal year 2016, EPA should provide a report to the Committees on Appropriations that includes a table showing how fiscal year 2015 and 2016 funds were allocated. The table should also include grant recipients and metrics for anticipated or actual results.

Categorical Grants.—The bill provides \$1,081,041,000 for Categorical Grants and funding levels are specified in the table at the end of this division. The Agency shall allocate radon grants in fiscal year 2016 following the direction in House Report 114-170. The amount also includes \$228,219,000 for the State and Local Air Quality Management grant program, and the Agency is directed to allocate funds following the direction for this program in Senate Report 114-70.

Multipurpose Grants to States and Tribes.—The bill provides \$21,000,000 for grants to States and tribes to assist with the implementation of environmental programs. Funds allow States and tribes to have the flexibility to direct resources for the implementation of high priority activities, including the processing of permits, which complement programs under established environmental statutes. EPA is directed to allocate these funds by formula to States and tribes no later than 180 days from the date of enactment of this Act.

Use of Iron and Steel.—The bill includes language in Title IV General Provisions that stipulates requirements for the use of iron and steel in State Revolving Fund projects. The agreement includes only the following guidance. The Committees acknowledge that EPA may issue a waiver of said requirements for *de minimis* amounts of iron and steel building materials. The Committees emphasize that any coating processes that are applied to the external surface of iron and steel components that otherwise qualify under the procurement preference shall not render such products ineligible for the procurement preference regardless of where the coating processes occur, provided that final assembly of the products occurs in the United States.

ADMINISTRATIVE PROVISIONS—ENVIRONMENTAL PROTECTION AGENCY
(INCLUDING TRANSFERS AND RESCISSION OF FUNDS)

The bill includes language that addresses the collection and expenditure of pesticide fees, allows cooperative agreements to tribes, allows transfer of funds for the Great Lakes Restoration Initiative, and authorizes amounts for one-time facility repairs.

Cybersecurity.—The bill provides \$27,000,000 to be used to meet Federal requirements for cybersecurity implementation.

Rescission.—The bill rescinds \$40,000,000 of unobligated balances from the State and Tribal Assistance Grants account. The Agency is directed to rescind \$8,000,000 in unobligated balances from prior year administrative set asides and \$32,000,000 shall be derived from new obligational authority provided in the State and Tribal Assistance Grants appropriation account. The Agency shall calculate the requisite percent reduction necessary to rescind \$32,000,000 of new obligational authority and apply it across program areas by formula. Thirty days prior to executing the rescission, the Agency shall submit a report to the Committees on Appropriations detailing the amount of rescission by program project.

Restrictions on Certain Communications.—The agreement does not include revised language contained in Section 401 of the Senate bill regarding the use of appropriations by agencies for publicity or propaganda in support or opposition to proposed regulations or administrative actions. On December 14, 2015, the Government Accountability Office (GAO) concluded that the Environmental Protection Agency (EPA), in association with its Waters of the United States rulemaking, violated existing prohibitions against publicity or propaganda and grassroots lobbying contained in prior appropriations acts. Because EPA expended funds in violation of these prohibitions, the GAO further concluded that EPA violated the Antideficiency Act. In addition to the reporting requirements that are required as a result of this Antideficiency Act violation, EPA is directed to coordinate with the Office of Management and Budget to ensure that GAO's findings are disseminated to communications offices throughout the government.

TITLE III—RELATED AGENCIES

DEPARTMENT OF AGRICULTURE

FOREST SERVICE

Forest Service Directives.—The Forest Service is reminded of the importance of the directives included in House Report 114–170 and Senate Report 114–70 not addressed herein, as well as the new directives in this statement, including the Front Matter.

FOREST AND RANGELAND RESEARCH

The agreement provides \$291,000,000 for Forest and Rangeland Research. This includes \$75,000,000 for Forest Inventory and Analysis (FIA), which is sufficient to expand FIA to interior Alaska.

The Service is directed to continue to prioritize research on white-nose syndrome in bats. The Service also is directed to provide a report, such as is prepared each year by the Agricultural Re-

search Service, to the House and Senate Committees on Appropriations in conjunction with the transmission of the fiscal year 2017 budget request, that describes its research program in detail. The report should include information on each research laboratory, including their relationship to the research stations, their goals and purpose, the funding provided for each of the previous five fiscal years, the funding proposed to be provided in fiscal year 2017, the allocation of funding between research and administrative costs, the allocation of funding and projects between in-house and extramural research, the number of scientists and support staff, and major accomplishments. The report also should include similar information for each research station.

STATE AND PRIVATE FORESTRY

The agreement provides \$237,023,000 for State and Private Forestry. The following directions are also provided:

Forest Legacy.—The bill provides \$62,347,000 for the Forest Legacy program. This includes \$6,400,000 for program administration and \$55,947,000 for projects. The Service should fund projects in priority order according to the competitively selected national priority list submitted by the Forest Service as part of its fiscal year 2016 budget request.

NATIONAL FOREST SYSTEM

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$1,509,364,000 for the National Forest System. The following directions are also provided:

Integrated Resource Restoration (IRR).—The agreement continues the IRR pilot in Regions 1, 3, and 4. As previously noted in the House and Senate reports, there remains concern about the lack of tangible accomplishments produced by IRR projects to date, and as such, the agreement rejects the proposal to expand IRR to the entire Forest Service. Absent tangible accomplishments, an expansion of the IRR program is unlikely to be accepted in the future.

Rangeland Management.—The Service is directed, to the greatest extent practicable, to make vacant grazing allotments available to a holder of a grazing permit or lease when lands covered by the holder of the permit or lease are unusable because of drought or wildfire.

Recreation, Heritage and Wilderness.—The agreement provides \$261,719,000 for recreation, heritage and wilderness.

Vegetation and Watershed Management.—The agreement provides \$184,716,000 for vegetation and watershed management activities, of which no less than \$5,400,000 is to implement authorities granted by section 8204 of the Agricultural Act of 2014.

Law Enforcement Operations.—The Service is expected to increase its efforts regarding illegal marijuana cultivation on public lands within the funds provided.

Bighorn Sheep Conservation.—In order to ensure the Nation does not lose its domestic sheep industry or bighorn sheep conservation legacy, the Service and the Bureau of Land Management shall implement a variety of solutions, including the following directives: The agencies are directed to complete risk of contact analyses using

appropriate data sources, such as from the Western Association of Fish and Wildlife Agencies, and to share the findings with the public. The Service is expected to engage the Agricultural Research Service to ensure the best scientific understanding of where disease transmission occurs and the degree of that risk and to assist the Forest Service with identifying all allotments that are suitable for sheep grazing. The Service and Bureau of Land Management also are directed to identify and implement actions to resolve issues on allotments with a high risk of disease transmission, including, if agreeable to the directly affected stakeholders, the relocation of domestic sheep to allotments with a low risk, pending any site-specific environmental analysis. Together, the agencies are encouraged to convene a meeting of stakeholders interested in collaborating on strategies and solutions to address the risk of disease transmission and to report to the Committees on implementation of these directives within 60 days of enactment of this Act.

The Service is reminded of the guidance provided in Senate Report 114-70 regarding the Mark Twain National Forest, the Collaborative Forest Landscape Restoration Fund, and the Tongass National Forest young growth inventory and other Region 10 activities.

CAPITAL IMPROVEMENT AND MAINTENANCE

(INCLUDING TRANSFER OF FUNDS)

The agreement provides \$364,164,000 for Capital Improvement and Maintenance programs offset by a \$16,000,000 scoring credit related to the road and trail fund.

LAND ACQUISITION

The agreement provides \$63,435,000 for Land Acquisition. The amounts recommended by this bill compared with the budget estimates by activity are shown in the table below, listed in priority order pursuant to the budget request for fiscal year 2016. Prior to proceeding with any Pacific Crest National Scenic Trail acquisitions, the Service is directed to submit to the Committees a list of specific parcels for Committee approval. The Service is expected to use the Critical Inholdings/Wilderness account to acquire high priority lands, such as wilderness and lands of significant value in designated conservation units, to consolidate Federal ownership. Further instructions are contained under the Land and Water Conservation Fund heading in the front of this explanatory statement.

WILDLAND FIRE MANAGEMENT

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$2,386,329,000 for Forest Service Wildland Fire Management, which is \$53,031,000 above the fiscal year 2015 enacted level. Of the funds provided, \$811,000,000 is for suppression operations, which combined with \$823,000,000 in the FLAME Wildfire Suppression Reserve Fund provides a total of \$1,634,000,000 for Forest Service fire suppression activities. This amount exceeds the ten-year average by \$508,000,000 to provide additional resources, as requested, based on up-to-date forecasting models.

Hazardous Fuels Management.—The agreement provides \$375,000,000 for hazardous fuels management activities, which is \$13,251,000 above the fiscal year 2015 enacted level. Within this amount, \$15,000,000 is for biomass utilization grants, which the Service is expected to use for the development of products that will expand commercial markets for low-value wood to facilitate increased removal of biomass beyond traditional fuel treatments.

Fire Suppression Aviation.—The Service is directed to evaluate and provide the House and Senate Committees on Appropriations evidence of the cost savings expected to result from the acquisition of Federal aircraft. The evaluation should include costs charged to the Forest Service as well as those charged to other Federal agencies so that the Committees have an accurate accounting of the actual cost of Federal ownership compared with the utilization of private contractors.

FLAME WILDFIRE SUPPRESSION RESERVE FUND

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$823,000,000 for the FLAME Wildfire Suppression Reserve Fund.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

INDIAN HEALTH SERVICE

INDIAN HEALTH SERVICES

The agreement provides \$3,566,387,000 for Indian Health Services. In addition to the table at the end of this explanatory statement, the agreement includes the following instructions:

The agreement includes a \$12,916,000 increase for the staffing of newly opened health facilities. This includes full funding of the Southern California Youth Treatment Center and the Choctaw Alternative Rural Healthcare Center (JV) as requested. Funds for the staffing of new facilities are limited to facilities funded through the Health Care Facilities Construction Priority System or the Joint Venture Construction Program that have opened in fiscal year 2015 or will open in fiscal year 2016. None of these funds may be allocated to a facility until such facility has achieved beneficial occupancy status.

The agreement includes requested pay costs along with a \$10,000,000 program increase for the alcohol and substance abuse program to focus on tribal youth, a \$1,400,000 program increase for

Dental Health, and \$2,000,000 for operating shortfalls at community health clinics.

The agreement includes a \$1,137,000 program increase for Urban Indian Health. The agency is directed to include current services estimates for Urban Indian Health in future budget requests. The Committees note the agency's failure to report the results of the needs assessment directed by House Report 111-180. Therefore, the recommendation includes bill language requiring a program strategic plan developed in consultation with urban Indians and the National Academy of Public Administration.

The Committees are concerned about loss and potential loss of CMS accreditation status at multiple IHS-operated facilities. These facilities are all located within the same Service Area, suggesting that the problems are systemic. Whatever the causes, the Committees consider the loss of accreditation to be an emergency. The agreement therefore includes \$2,000,000 in new, flexible funding so that the Director may take actions necessary to ensure that CMS accreditation status is reinstated and retained, and, once accreditation has been reinstated, to restore third-party insurance reimbursement shortfalls.

CONTRACT SUPPORT COSTS

The agreement provides an indefinite appropriation for contract support costs estimated to be \$717,970,000, which is an increase of \$55,000,000 above the fiscal year 2015 enacted level. The budget request proposed to fund this program within the "Indian Health Services" account. Under this heading the Committees have provided the full amount of the request for contract support costs. By virtue of the indefinite appropriation, additional funds may be provided by the agency if its budget estimate proves to be lower than necessary to meet the legal obligation to pay the full amount due to tribes. This account is solely for the purposes of paying contract support costs and no transfers from this account are permitted for other purposes.

INDIAN HEALTH FACILITIES

The agreement provides \$523,232,000 for Indian Health Facilities. In addition to the table at the end of this explanatory statement, the agreement includes the following instructions:

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

NATIONAL ENDOWMENT FOR THE ARTS

GRANTS AND ADMINISTRATION

The agreement provides \$147,949,000 for the National Endowment for the Arts (NEA). Within funds provided, the Committees urge the NEA to support programs presently funded including arts therapy and engagement treatment programs for service members. The Committees commend the NEA for its work through its Healing Arts Partnership program with Walter Reed National Military Medical Center and Fort Belvoir Community Hospital to incorporate arts therapy into the treatment of active-duty military patients and their families. The Committees urge State arts agencies, which have a longstanding collaborative relationship with the NEA, to explore providing arts therapy programs to service members and their families at the local level. The Committees direct that priority be given to providing services and grant funding for projects, productions, or programs that encourage public knowledge, education, understanding, and appreciation of the arts. The Committees maintain support for the 40 percent allocation for State arts agencies as proposed in the NEA's budget. Any reduction in support to the States for arts education should be no more than proportional to other funding decreases taken in other NEA programs.

NATIONAL ENDOWMENT FOR THE HUMANITIES

GRANTS AND ADMINISTRATION

The agreement provides \$147,942,000 for the National Endowment for the Humanities (NEH). The Committees commend the NEH for its support of grant programs to benefit Wounded Warriors and to ensure educational opportunities for American heroes transitioning to civilian life. The Committees commend the NEH Federal/State partnership for its ongoing, successful collaboration with State humanities councils in each of the 50 States as well as Washington, DC, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, the Commonwealth of the Northern Mariana Islands, and American Samoa. DWIGHT D. EISENHOWER MEMORIAL COMMISSION

SALARIES AND EXPENSES

The agreement provides \$1,000,000 for the Salaries and Expenses account, with only the following guidance: The Committees strongly support the construction of a permanent memorial to Dwight D. Eisenhower. The Committees recognize the memorial has obtained the required approvals for the design and construction; however, concerns raised by Congress and the Eisenhower family regarding the memorial design still remain. The Committees believe expeditious resolution of these issues between interested stakeholders to achieve consensus on the memorial design is critical. No funds have been appropriated to the Capital Construction account for fiscal year 2016. The agreement includes in Section 419 of Title IV General Provisions bill language contained in the Continuing Appropriations Act, 2016 (P.L. 114–53). This language extends the memorial’s site authority and prevents commencement of memorial construction until all necessary construction funds have been appropriated.

DIVISION H—DEPARTMENTS OF LABOR, HEALTH AND HUMAN SERVICES, AND EDUCATION, AND RELATED AGENCIES APPROPRIATIONS ACT, 2016

In implementing this agreement, the Departments and agencies should be guided by the language and instructions set forth in House Report 114–195 accompanying the House bill, H.R. 3020, and Senate Report 114–74 accompanying the Senate bill, S. 1695.

Where the explanatory statement speaks to an issue that was addressed in the House or Senate reports, the explanatory statement should supersede the language in the House or Senate reports. In cases where the House Report and the Senate Report address a particular issue not specifically cited in the explanatory statement, the House Report and the Senate Report should be complied with and carry the same emphasis as the language included in the explanatory statement.

Each department and agency funded in this Act shall follow the directions set forth in this Act and the accompanying statement, and shall not reallocate resources or reorganize activities except as provided herein. Funds for individual programs and activities are displayed in the detailed table at the end of the explanatory statement for this division. Funding levels that are not displayed in the detailed table are identified within this explanatory statement. Any action to eliminate or consolidate programs, projects, and activities should be pursued through a proposal in the President's Budget so it can be considered by the Committees on Appropriations of the House of Representatives and the Senate.

Congressional Reports.—Each Department and agency is directed to provide the Committee on Appropriations of the House of Representatives and the Senate, within 30 days of enactment of this Act and quarterly thereafter, a summary describing each requested report to the Committees on Appropriations along with its status.

TITLE I—DEPARTMENT OF LABOR

EMPLOYMENT AND TRAINING ADMINISTRATION

TRAINING AND EMPLOYMENT SERVICES

State Grants.—Governors are expected to utilize the reserve for innovative, cost-effective programs consistent with the Workforce Innovation and Opportunity Act (WIOA) to meet unique or pressing

¹ The Explanatory Statement was submitted for printing in the Congressional Record on December 17, 2015 by Mr. Rogers of Kentucky, Chairman of the House Committee on Appropriations. The Statement appears on pages H9693–H10471 of Books II and III.

workforce needs in their states, to foster constructive partnerships to the benefit of job-seekers and employers, to effectively respond to unforeseen dislocations or local shortfalls, and to improve overall program performance as measured by the new uniform performance measurement system established by WIOA.

Dislocated Worker National Reserve.—The funding provided may be used for National Dislocated Worker Grants, technical assistance, demonstrations, and other activities as authorized by WIOA. The agreement provides \$19,000,000 requested in the fiscal year 2016 budget for grants under the authority of WIOA to provide job training and services for workers dislocated from the coal industry.

Reintegration of Ex-Offenders.—Within funds to provide services for young ex-offenders and school dropouts in high-poverty communities with high crime rates, the Department is also directed to consider the needs of communities that have recently experienced significant unrest.

Apprenticeship.—The agreement includes \$90,000,000 for Registered Apprenticeship grants and capacity building as requested in the fiscal year 2016 budget.

JOB CORPS

In light of recent events, significant concerns remain regarding the safety of students on Job Corps campuses. Efforts on the part of the Employment and Training Administration (ETA) to review and address these concerns are appreciated. ETA is directed to work with center operators and other appropriate entities to identify and implement improvements across the Job Corps system to improve the safety of students and maintain safe and effective learning environments.

STATE UNEMPLOYMENT INSURANCE AND EMPLOYMENT SERVICE OPERATIONS

The agreement includes \$67,653,000 for the One-Stop Career Centers and Labor Market Information activity, including \$7,500,000 for the new occupational licensing State consortium initiative as described in Senate Report 114–74.

OFFICE OF LABOR MANAGEMENT STANDARDS

The agreement does not provide funding for the proposed Electronic Labor Organization Reporting System Modernization project.

OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION

Significant concerns remain about the Occupational Safety and Health Administration's (OSHA) use of guidance documents to change longstanding OSHA policy. In June and July of 2015, OSHA issued three guidance documents related to Executive Order 13650, "Improving Chemical Facility Safety and Security." They are Process Safety Management of Highly Hazardous Chemicals and Covered Concentrations of Listed Appendix A Chemicals, RAGAGEP in Safety Process Management Enforcement, and PSM Retail Exemption Interim Enforcement Policy. These along with other OSHA "letters of interpretation" attempt to change prevailing

agency policies without proposing regulatory changes under the requirements of the Administrative Procedures Act (5 U.S.C. 551 et. seq.). OSHA has issued letters of interpretation on substantive policy matters that leave the agency open to liability that can be avoided by going through the proper rulemaking process, including notice and period of public comment. OSHA is expected to implement agency policy changes through the formal regulatory process. As such, the agreement directs that the revised enforcement policy relating to the exemption of retail facilities from coverage of the Process Safety Management of Highly Hazardous Chemicals standard (29 CFR 191 0.119(a)(2)(i)) issued by the Occupational Safety and Health Administration on July 22, 2015, shall not be enforced nor deemed by the Department of Labor to be in effect in fiscal year 2016 until: the Bureau of the Census establishes a new North American Industry Classification System code under Sector 44–45 Retail Trade for Farm Supply Retailers, and the Secretary of Labor, acting through the Assistant Secretary of Labor for Occupational Safety and Health, has carried out all notice and comment rulemaking procedures and invited meaningful public participation in the rulemaking.

OSHA is directed to continue to provide notification to the Committees on Appropriations of the House of Representatives and the Senate 10 days prior to the announcement of any new National, Regional or Local Emphasis Program including the circumstances and data used to determine the need for the launch of a new Program.

MINE SAFETY AND HEALTH ADMINISTRATION

The Mine Safety and Health Administration (MSHA) is directed to provide assistance and data necessary for the National Academy of Sciences study provided in the Centers for Disease Control and Prevention, National Institute of Occupational Safety and Health account. MSHA is directed to report to the Committees on Appropriations of the House of Representatives and the Senate and authorizing committees of jurisdiction within 72 hours of determining that compliance rates under the new sampling protocols taking effect in 2016 fall below 95 percent, and to provide such committees with quarterly reports on actual compliance rates under the new coal dust rule.

BUREAU OF LABOR STATISTICS

The Bureau of Labor Statistics shall submit a report to Congress within one year of enactment of this Act on the Bureau's efforts to account for and report on all forms of employment in the current economy, including those working in small businesses, part-time or temporary workers, those with fluctuating schedules, and the self-employed.

OFFICE OF DISABILITY EMPLOYMENT POLICY

The agreement does not incorporate the Office of Disability Employment Policy (ODEP) into its partner agency, the Employment and Training Administration. The Department is directed to evaluate and report to the Committees on Appropriations of the House

of Representatives and the Senate within 150 days of enactment of this Act on the capacity of ETA to continue providing leadership, effective policy development and grant programs, and subject matter expertise in carrying out the mission of ODEP as proposed in the Senate bill. The report should also consider the potential synergies, efficiencies, and other benefits of unifying ODEP into the direct leadership of ETA along with the broader workforce training system it oversees. Any potential organizational challenges, programmatic concerns, or other issues such as integration might create should also be discussed. Finally, the report should discuss the Department's current utilization of the specialized policy development and analysis resources available from the National Council on Disability.

DEPARTMENTAL MANAGEMENT

For the Office of the Chief Evaluation Officer, the agreement includes a direct appropriation of \$8,040,000. The agreement contains language, as proposed by the Administration, allowing the Office of the Chief Evaluation Officer to administer grants for the purposes of conducting evaluations. The authority will allow pre-eminent research institutions to qualify and apply for contracts to conduct rigorous and scientific evaluations of the Department's programs, projects, and activities. It is hoped that these evaluations will inform decision-making and lead to improved program performance and taxpayer value. Language is also included ensuring that grant competitions for evaluation contracts are fair and open. Finally, the transfer authority for the Office of the Chief Evaluation Officer is increased from 0.5 percent to 0.75 percent.

The administration requested \$2,620,000 and 15 full time staff to initiate an Office of Labor Compliance. This request is denied by the agreement; no funds in the bill have been provided for this purpose.

IT MODERNIZATION

The agreement includes significant new resources for information technology (IT) modernization, including a total of \$24,880,000 for IT infrastructure modernization and \$4,898,000 for Departmental Support Systems. The new Digital Government Integration Platform Initiative is not funded.

GENERAL PROVISIONS

Funds requested for a temporary surge capacity to clear the backlog of permanent labor certification program applications are available through authority to utilize H-1B fees as proposed by the Senate. Although funds are available through September 30, 2017, to accommodate a potential contract performance period extending beyond the end of fiscal year 2016, ETA is directed to obligate the funds as expeditiously as practicable to resolve the backlog.

The bill includes a new provision related to the competitive award of contracts to operate a Jobs Corps Civilian Conservation Center.

The agreement includes a new provision related to seasonal employees offering recreational services on federal lands.

The agreement includes new provisions related to the H-2B program.

TITLE II—DEPARTMENT OF HEALTH AND HUMAN SERVICES

The Department is directed to include in its fiscal year 2017 congressional budget justification the amount of expired unobligated balances available for transfer to the Nonrecurring Expenses Fund (NEF) and the amount of any such balances transferred to the NEF. This should include actual or estimated amounts for the prior, current, and budget years. The Health Resources and Services Administration (HRSA) is directed to publish a new funding opportunity and then award grants in fiscal year 2016 from the funding provided.

Geriatric Education.—The agreement provides \$38,737,000 for Geriatric Education programs. In fiscal year 2015, HRSA combined the Geriatrics Education Centers program, Geriatric Training for Physicians, Dentists, and Behavioral/Mental Health Professionals program, and the Geriatric Academic Career Awards programs authorized under the Public Health Service (PHS) Act section 753 with the Comprehensive Geriatric Education Program authorized under PHS Act section 865 into one competition, the Geriatric Workforce Enhancement Program. HRSA stated the combined competition would, “improve health outcomes for older adults by integrating geriatrics with primary care, maximizing patient and family engagement, and transforming the healthcare system.” Therefore, the agreement has consolidated the PHS Act Title VII Geriatric Program with the PHS Act Title VIII Comprehensive Geriatric Education program.

Rural Health Outreach.—The agreement provides \$63,500,000 for the Rural Health Outreach program, an increase of \$4,500,000 above the fiscal year 2015 level. This program supports projects that demonstrate new and innovative modes of outreach in rural areas, such as integration and coordination of health services. Opioid Prescription Drug Overdose (PDO) Prevention Activity.—The agreement commends CDC for its leadership in expanding efforts combatting prescription and opioid drug overdoses. The agreement directs the CDC Director to implement these activities based on population-adjusted burden of disease criteria, including mortality data (age adjusted rate), as significant criteria when distributing funds for the State PDO Prevention activities. The CDC is

expected to adhere to the conditions identified in the fiscal year 2015 Appropriations Act and explanatory statement as CDC expands beyond prescription drugs and into the broader category of opioids. The agreement assumes these funds will be distributed via a competitive mechanism and not merely a mathematical formula or standard allocation to each State.

Surveillance of Heroin.—The agreement directs CDC to expand surveillance of heroin-related deaths beyond CDC’s current work in HHS’s Region 1 and to require applicants for the PDO Prevention for States Programs to collaborate with the State’s substance abuse agency or agency managing the State’s Prescription Drug Monitoring Program.

Violence Data Collection.—The agreement notes that CDC should continue its current National Vital Statistics System and National Violent Death Reporting System (NVDRS) data collections activities and ensure the activities continue to comply with funding restrictions. The agreement provides an increase for NVDRS to support States not previously funded.

Specifically the NAS effort should examine and describe: current monitoring and sampling protocols and requirements to understand miners’ occupational exposure to respirable coal mine dust in the United States and other industrialized countries; coal mine dust composition and application procedures, including the impact of new rock dust mixtures and regulatory requirements; monitoring and sampling technologies, and sampling protocols and frequency; and the efficacy of those technologies and protocols in aiding decisions regarding the control of respirable coal mine dust and mine worker exposure. The NAS study will develop science-based conclusions regarding optimal monitoring and sampling strategies that support mine operational decision making as it relates to reducing miner respirable coal mine dust exposure. It is expected the report will be completed within 12 months after enactment of this Act.

Total Worker Health.—The agreement provides funding in the Other Occupational Safety and Health Research line to continue to

support the Total Worker Health program at no less than the fiscal year 2015 level.

ENERGY EMPLOYEES OCCUPATIONAL ILLNESS COMPENSATION PROGRAM

The agreement includes \$55,358,000 in mandatory funding for CDC's responsibilities with respect to the Energy Employee Occupational Illness Compensation Program.

GLOBAL HEALTH

The agreement includes \$427,121,000 for Global Health activities. Within this total, the agreement includes the following amounts:

The agreement requests a report, within 90 days after enactment of this Act, for all international activities funded through this CDC activity to the Committees on Appropriations of the House of Representatives and the Senate.

PUBLIC HEALTH PREPAREDNESS AND RESPONSE

The agreement includes \$1,405,000,000 for public health preparedness and response activities. Within the total for Public Health Preparedness and Response, the agreement includes the following amounts:

Select Agent Program.—The agreement provides a \$5,000,000 increase for CDC's Select Agent Program and expects a report within

120 days after enactment of this Act providing an update on these efforts.

Strategic National Stockpile (SNS) Replenishment of Medical Countermeasures.—The agreement notes certain assets in the SNS will begin to expire soon. The agreement directs the CDC Director to conduct a review of the current SNS antivirals supply. The review should include: the current stockpile; product expiration and/or extension of dating; cost of replenishment; contract requirements; manufacturing capability (including capacity and lead production time), and distribution methods. The CDC is to provide the report within 120 days after the date of enactment of this Act to the Committees on Appropriations of the House of Representatives and the Senate. Further, the agreement requests the inclusion of additional detail pertaining to SNS data in its annual budget request beginning in fiscal year 2017, including the total projected costs of expired or expiring SNS assets. Specifically, the request should identify the projected percentage allocation of the current and budget request resources expected to support expiring asset replacement, new asset purchases, and other operational costs.

BUILDINGS AND FACILITIES

The agreement includes \$10,000,000 for Buildings and Facilities. In addition, the agreement directs unobligated funds in the Individual Learning Accounts from prior employees' closed accounts to be used to support the replacement of the underground and surface coal mine safety and health research capacity facility.

Demolition.—The agreement provides demolition authority for fiscal year 2016 to allow CDC to eliminate structures that are no longer used and have gone beyond their intended lifespan, such as small modular trailers and storage facilities. Due to the age and condition of some of the structures, they pose a significant danger if left in their current state. By eliminating these structures, the Federal government will save almost \$90,000 per year in maintenance costs. If this authority is necessary beyond fiscal year 2016, CDC shall request such authority as part of their annual congressional justification.

CDC-WIDE ACTIVITIES

The agreement includes \$273,570,000 for CDC-wide activities, which includes \$113,570,000 in discretionary appropriations and \$160,000,000 made available through the PPH Fund. Within this total, the agreement includes the following amounts:

Budget Activity	FY 2016 Agreement
Preventative Health and Health Services Block Grant	\$160,000,000
Public Health Leadership and Support	113,570,000

Burden of Disease Review.—The agreement urges CDC and Center Directors to explore ways to review its programs and public health activities, where population adjusted burden of disease is not already being used as a significant factor to award funds, in order to determine how the programs can use or increase the use

of burden of disease as significant criteria for awarding, tracking, and evaluating CDC supported activities.

CDC Budget Policy.—The agreement expects that, unless provided for differently through this agreement, CDC will provide advance notification to the Committees on Appropriations of the House of Representatives and the Senate if it does not follow the policy, funding source, and levels described in its budget request.

CDC Director's Discretionary Fund.—The CDC Director shall provide timely semi-annual reports on all obligations made with the CDC Director's Discretionary Fund to the Committees on Appropriations of the House of Representatives and the Senate and post the end of the year report online within 30 days after it is submitted to such Committees.

CDC Laboratory Safety and Training.—The agreement notes that CDC established a Laboratory Safety Review Board (LSRB) to conduct safety reviews of laboratory protocols for work in biosafety level 3 (BSL-3) and biosafety level 4 (BSL-4) laboratories. CDC is directed to provide an annual report beginning in April 2016 that identifies the total number of CDC laboratories operated or maintained by CDC with a breakout for all labs, BSL-3 labs, and BSL-4 labs. For each category, it should identify the number of employees in each category of laboratory, the number of Standard Operating Procedures (SOPs), the number of employees who attended the new biological risk assessments training in the past year, and the number of SOPs reviewed annually by the LSRB. In addition, the fiscal year 2017 budget request shall provide a detailed update on activities that enhance and support CDC laboratory safety and training.

Cross-cutting Coordination with NIH.—CDC is expected to provide an update in the fiscal year 2017 budget request on how CDC's programs coordinate with NIH Institutes and Centers to share scientific gaps related to activities supported in NIH research portfolios, reduce duplication of effort, and prevent overlapping core mission focus area.

Individual Learning Accounts (ILA).—The agreement directs CDC to allow current employees to continue to expend the remainder of their ILA balances for employee training. In addition, the agreement directs each program to use available resources to provide employee training for all employees, in lieu of the previously congressionally directed ILA program. The CDC Director shall provide an annual report, no later than 60 days after the end of the fiscal year, on the cumulative dollar amount spent on CDC employee training activities for the recently closed fiscal year and prior three fiscal years.

Laboratories.—The CDC is directed to provide a specific CDC-wide consolidated laboratory funding table in the fiscal year 2017 budget and future budget requests. The single consolidated table shall (at a minimum) identify for each Center and its specific program activities that fund laboratory activity, funding levels provided to State, Regional, and other laboratory activity requested, for the current, and prior three budget years. It should include a narrative section describing CDC's process to coordinate the various laboratory funding activities across the Centers to support laboratory capabilities, upgrades, and other related initiatives that are

linked to measurable laboratory goals and objectives across CDC. The agreement urges CDC to work with its State and Regional laboratory partners to explore ways to consolidate, streamline, and improve the ability for laboratories to most effectively utilize CDC provided funds.

Respirator Certification Program.—CDC has been operating the Respirator Certification Program since 1972. Under Federal law, this program must be self-sustaining, and CDC must recover the entire costs of services provided for the examination, inspection, and testing of respirators. The agreement includes language allowing CDC to have an additional fiscal year to spend user fees collected late in the year through the Respirator Certification program.

Reoccurring Reports.—The agreement notes the scope of the reoccurring reports language in Senate Report 114–74 is limited to free standing reports requested prior to fiscal year 2012 but not information requested for inclusion in the annual budget request.

Sodium Consumption.—The agreement notes that a growing body of evidence suggests low sodium consumption can lead to health problems in healthy individuals. The U.S. and Canadian governments each established Federal Dietary Reference Intake (DRI) Committees that work to identify DRI needs and coordinate government sponsorship of DRI reviews. The DRI's reflect nutrient reference values, and are based on significant, new, and relevant data. In August 2014, four nutrient areas for updated DRIs were selected, including sodium. The agreement requests an update in the fiscal year 2017 budget request on the timeline and plan for the update of the DRI for sodium.

Public Health Leadership and Supporting Details.—The agreement reiterates the request from last year and directs the CDC Director to include in the fiscal year 2017 and future budget requests specific details of each budget activity supported with these funds, including functions, mission, full time employees, bonus, travel costs, and other typical object class data and information for each separate activity supported through the Public Health Leadership and Support funding line.

NATIONAL INSTITUTES OF HEALTH

The agreement provides \$32,084,000,000 for NIH activities within the jurisdiction of this bill, an increase of \$2,000,000,000. The agreement also includes the budget request of \$200,000,000 for the new Precision Medicine Initiative (PMI); an increase of \$350,000,000 for Alzheimer's disease research; an increase of \$85,000,000 for the Brain Research through Application of Innovative Neurotechnologies (BRAIN) Initiative; an increase of \$100,000,000 for research to combat Antimicrobial Resistance; and an increase to every Institute and Center (IC) to continue investments in innovative research that will advance fundamental knowledge and speed the development of new therapies, diagnostics, and preventive measures to improve the health of all Americans.

The agreement expects NIH to support the number of Ruth L. Kirschstein National Research Service Awards and other training grants in proportion to at least the general IC level funding increase. The agreement expects NIH to provide a stipend level and

inflationary increases to grantees that is at least consistent with any fiscal year 2016 Federal employee pay raise.

The agreement continues to support the Clinical and Translational Science Awards program, the Institutional Development Award program, and the follow-on to the National Children's Study in bill language.

The Common Fund is supported as a set-aside within the Office of the Director at \$675,639,000, which includes \$130,000,000 for PMI and \$12,600,000 to support pediatric research as authorized by the Gabriella Miller Kids First Research Act.

NATIONAL CANCER INSTITUTE (NCI)

Kidney Cancer.—The agreement encourages support of meritorious scientific research on kidney cancer, specifically early detection of the disease. The agreement encourages the NCI to support a Specialized Program of Research Excellence in kidney cancer and other research programs for subtypes of kidney cancer, such as papillary and chromophobe. NCI should provide an update on these efforts in the fiscal year 2017 budget request.

NATIONAL INSTITUTE OF NEUROLOGICAL DISORDERS AND STROKE (NINDS)

Alternating Hemiplegia of Childhood (AHC).—The agreement notes AHC is a rare neurodevelopmental disorder characterized by repeated episodes of weakness or paralysis that may affect one side of the body or the other. It is one of several diseases caused by mutations in the gene ATP1A3. Recently NIH participated in the 4th Symposium on ATP1A3 in Disease. The agreement encourages NINDS to support promising research on AHC and the gene mutation ATP1A3 and to provide a summary of the recent symposium and associated recommendations in the fiscal year 2017 budget request.

Hydrocephalus Research.—In June 2014, NINDS held a conference “Hydrocephalus: Myths, New Facts, Clear Directions” that in part updated the 2005 state of the science on hydrocephalus research. The agreement requests NINDS provide a summary of the conference workshop and associated recommendations in the fiscal year 2017 budget request.

NATIONAL INSTITUTE OF ALLERGY AND INFECTIOUS DISEASES (NIAID)

Antimicrobial Resistance (AMR).—The agreement provides the requested increase of \$100,000,000 for AMR research. The NIAID is directed to work with the Biomedical Advanced Research and Development Authority (BARDA) to develop a joint plan to address the serious threat of antimicrobial resistance. NIAID is also directed to work with the Assistant Secretary for Preparedness and Response on the five-year spending plan for the medical countermeasure (MCM) enterprise, which should provide additional detail on NIAID's biodefense activities, including priorities for MCM candidates in its portfolio and efforts to transition these projects to advanced research at BARDA. The agreement also directs the Department of Health and Human Services to work with the Departments of Defense, Agriculture, Veterans Affairs, and the Food and Drug

Administration to both track and store AMR genes and the mobile genetic elements from AMR bacteria. The Secretary is directed to include an update in the fiscal year 2017 budget request on the Administration's progress in implementing the National Strategy for Combating Antibiotic Resistant Bacteria.

NATIONAL INSTITUTE OF GENERAL MEDICAL SCIENCES (NIGMS)

Institutional Development Award (IDeA).—The agreement provides a significant increase to the IDeA program in recognition of its success. The agreement anticipates NIH will maintain at least this percentage in subsequent budget requests. It also reflects the disappointment of the Committees on Appropriations of the House of Representatives and the Senate that NIH ignored Congressional language in last year's explanatory statement to provide a legislative plan to update eligibility criteria for the IDeA program. The agreement restates the direction in last year's explanatory statement to report to the Committees on Appropriations of the House of Representatives and the Senate within 60 days after enactment of this Act legislative language to update eligibility criteria that specifically incorporates the Experimental Program to Stimulate Competitive Research qualifying States into IDeA's criteria.

NATIONAL INSTITUTE ON AGING (NIA)

Alzheimer's Disease.—The agreement includes \$936,000,000, an increase of \$350,000,000 above fiscal year 2015, for high quality research on Alzheimer's disease, subject to the scientific opportunity presented in the peer review process. In 2012, the National Plan to Address Alzheimer's Disease was released to address the major challenges Alzheimer's disease will pose by 2025. Since then, although Alzheimer's research has received annual increases for federally funded research, it is still funded significantly below the annual level needed to accomplish the goal of the National Plan. NIA is encouraged to continue addressing the research goals set forth in the National Plan to Address Alzheimer's Disease, as well as the recommendations from the Alzheimer's Disease Research Summit in 2015.

NATIONAL INSTITUTE ON MINORITY HEALTH AND HEALTH DISPARITIES (NIMHD)

Research Centers in Minority Institutions (RCMIs).—The agreement continues to support RCMIs and expects the RCMIs to receive no less than \$56,758,601, which is the fiscal year 2015 level plus the proportional share of the general increase provided to NIMHD.

NATIONAL CENTER FOR ADVANCING TRANSLATIONAL SCIENCES (NCATS)

Clinical and Translational Science Awards (CTSA).—The agreement provides \$500,000,000 for the CTSA program, an increase of \$25,254,000 above fiscal year 2015, to implement the recommendations from the 2013 Institute of Medicine report on CTSA. In particular, the agreement supports the goal of using CTSA to build networking capacity and support for innovative collaborative projects. Additional funding is included to allow the program to re-

tain its merit-based CTSA funding to institutions while expanding the network capacity to conduct multi-site clinical studies and collaborative projects.

OFFICE OF THE DIRECTOR (OD)

The agreement provides, to the extent practicable, to all the offices and functions within the OD an increase equal to the general increase provided to the ICs of approximately 4 percent. The agreement maintains the NIH Director's Discretionary Fund, Challenge Fund and NIH Foundation level at the fiscal year 2015 levels.

Gabriella Miller Kids First Research Act.—The agreement continues bill language for specific funds authorized by the Gabriella Miller Kids First Research Act within the Common Fund to support the second year of the 10-year Pediatric Research Initiative. The agreement encourages NIH to prioritize research relating to childhood cancer within the program and requests an update in the fiscal year 2017 budget request on the 10-year program, planned activities, and on-going research.

Capstone Awards.—NIH is exploring the establishment of new grants, called Capstone Awards that could promote partnership between a senior and junior investigator or provide opportunities for acquiring skills needed for transitioning to a new role. The agreement requests an update in the fiscal year 2017 budget request on these efforts, including NIH's consultations with internal and external constituencies with a stake in this potential endeavor.

Common Fund.—The agreement notes continued support for the Common Fund High Risk High Reward (HRHR) programs, such as the Pioneer, New Innovator, and the Transformative R01 awards. The HRHR awards have shown great success over the years. The agreement requests an update in the fiscal year 2017 budget request on how HRHR awards are supported through the Common Fund and across the NIH ICs.

Director's Discretionary Fund (DDF).—The NIH Director shall provide timely semi-annual reports on all obligations made with the NIH DDF to the Committees on Appropriations of the House of Representatives and the Senate and post the end of the year report online within 30 days after it is submitted to such Committees.

Multi-institute Research Issues

Anhydramnios.—To augment knowledge about anhydramnios and related conditions, the Eunice Kennedy Shriver National Institute for Child Health and Human Development (NICHD) is planning a science workshop on the biology, pathophysiology, and clinical aspects of amniotic fluid abnormalities. It is expected to focus on mechanisms of production and regulation of amniotic fluid, possible causes of anhydramnios, neonatal outcomes, and early diagnostic and treatment approaches, identifying knowledge gaps for future research. The agreement requests an update in the fiscal year 2017 budget request on the timeline for the workshop and its relationship to Human Placenta Project.

BRAIN Initiative.—The agreement continues to strongly support the BRAIN Initiative. The bill provides \$150,000,000, an increase

of \$85,000,000 above fiscal year 2015, to be pooled from various ICs.

Coordination with CDC.—NIH is expected to provide an update in the fiscal year 2017 budget request on how NIH's ICs and programs coordinate with the CDC Centers and programs on cross-cutting initiatives, ensuring they avoid duplication of effort.

Basic Biomedical Research.—The agreement urges the NIH Director to continue the traditional focus on basic biomedical research. The purpose of NIH basic research is to discover the nature and mechanics of disease, and identify potential therapeutic avenues likely to lead to its prevention and treatment. Without this early scientific investigation, future development of treatments and cures would be impossible. Basic biomedical research must remain a key component of both the intramural and extramural research portfolio at the NIH. The agreement requests NIH provide an update in the fiscal year 2017 budget request on steps NIH plans to take to ensure the traditional focus on basic science is preserved.

Child Abuse and Neglect.—The agreement commends the NIH and NICHD Pediatric Trauma and Critical Illness Branch's new initiative to form CAPSTONE Centers for Multidisciplinary Research and Training in Child Abuse and Neglect. The agreement encourages all relevant ICs to ensure reviewers with knowledge and expertise of the subject are included on appropriate peer review committees.

Enhanced NIH Reporting on Research Spending by Disease and Affected Populations.—The agreement reiterates the direction identified in the fiscal year 2015 explanatory statement for NIH to make public, on an annual basis, enhanced Research, Condition, and Disease Categorization (RCDC) spending data with the number of Americans affected by each category of disease according to CDC or other federally-sourced data. The agreement directs NIH to include this data as a column for each category row on the RCDC table page that is available online and not in a separate file linked to the web page. The agreement expects available data to be uploaded within 60 days after enactment of this Act. In the rare circumstance, if data is not readily available, NIH shall provide a plan to the Committees on Appropriations of the House of Representatives and the Senate within 60 days of enactment of this Act to populate the category before the end of fiscal year 2016. Further, the agreement encourages NIH to add pediatric cardiomyopathy as a RCDC category.

Grant Review.—The fiscal year 2017 budget request shall provide an update on NIH policies and procedures to ensure appropriate review and approval for grants awarded through the ICs.

National Center for Biotechnology Information (NCBI).—The agreement includes funding directly to the National Library of Medicine (NLM) for NCBI to meet the challenge of collecting, organizing, analyzing, and disseminating the increasing amounts of data related to research in molecular biology and genomics and to support the deposit of manuscripts in PubMed Central under the NIH Public Access Policy. Providing the increase specifically to NLM, as opposed to previous years where NLM received funding from individual ICs for these activities, should improve funding transparency and enhance NCBI's ability to provide an integrated,

genomic resource for biomedical researchers at NIH and around the globe.

National Children's Study Follow-on.—The agreement commends the efforts of NIH to work with the community to begin to address concerns related to the follow-on to the National Children's Study. The agreement provides funding in the OD and expects NIH to continue to move forward based on the directions provided by the Committees on Appropriations of the House of Representatives and the Senate.

New Initiatives.—The agreement requests NIH provide a table in the fiscal year 2017 and future budget requests reflecting the current year plus five-year planned funding levels for each of the following initiatives: Building Infrastructure Leading to Diversity, BRAIN, Big Data, PMI, CTSA, AMR, Accelerating Medicines Partnership, Human Microbiome, HRHR, Cures Acceleration Network, Biomedical Workforce, and new initiatives proposed in fiscal year 2017. For each initiative, the table should identify, at a minimum, the planned budget level; a list of participating ICs; linkage to the NIH-wide strategic plan, and percentage of the funds focused on basic science.

Precision Medicine Initiative (PMI).—The agreement supports the new PMI and provides \$70,000,000 to NCI and \$130,000,000 in the Common Fund to fund activities in fiscal year 2016.

Prioritization of Funding.—The agreement expects NIH to consider burden of disease when setting priorities and developing strategic plans across its ICs to address conditions (such as Alzheimer's disease, diabetes, heart disease, and cancer) with significant opportunity to improve the current or future health of the American population by targeting funding toward cures and better treatments. Further, the agreement expects NIH to prioritize funds on medical research discovery over outreach and education. The agreement expects NIH to continue policies to distribute funding based on the merit of researchers' ideas and productivity, and to ensure consistent application of scientific policies between extramural and intramural researchers. The agreement requests NIH provide an update in the fiscal year 2017 budget request on how it plans to use the NIH 5-year scientific strategic plan as part of its resource allocation process to improve the health of the American population.

Reproducibility of Scientific Methods.—The agreement notes that the gold standard of science is the ability to reproduce a method and finding. There continues to be concern with reports that some published biomedical research cannot be easily reproduced. The agreement expects NIH to continue to stress the importance of experimental rigor and transparency of reporting of research findings to enhance the ability of others to replicate them. To the extent practicable, the agreement requests an update in the fiscal year 2017 budget request on how NIH is measuring the effectiveness of each step NIH has taken to develop and implement best practice guidelines to better facilitate the conduct of replicable research and research transparency in the reporting of methods and findings.

Science Education.—The Science Education Partnership Awards (SEPA) fosters important connections between biomedical researchers and K–12 teachers and their students. These connections establish an education pipeline to careers in biomedical sciences, which

is one of the most important areas of workforce development for the U.S. economy. Therefore, NIH is directed to continue funding the SEPA program at no less than last year's level.

Trisomy.—The agreement encourages the NIH to explore the molecular, cellular, and physiological mechanisms that predestine individuals born with a third copy of human chromosome 21 (trisomy 21) to either live with—or be protected from—a range of diseases that cause nearly 60 percent of deaths today in the U.S. The agreement requests that NIH submit a report within one year of enactment of this Act to the Committees on Appropriations of the House of Representatives and the Senate on the feasibility of a multi-year study of children and adults with trisomy 21.

Undiagnosed Disease Program (UDP).—The agreement continues support for the Undiagnosed Disease Network within the UDP, and requests an update in the fiscal year 2017 budget request on steps NIH has taken to accelerate discovery and innovation in the way we diagnose and treat patients with previously undiagnosed diseases, including its efforts to support data collection and sharing within the research community. Further, NIH is encouraged to explore public/private partnership opportunities and other ways to expand the impact of the program.

SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES ADMINISTRATION

The agreement continues bill language directing the Administrator of the Substance Abuse and Mental Health Services Administration (SAMHSA) to exempt the Mental Health Block Grant and the Substance Abuse Prevention and Treatment (SAPT) Block Grant from being used as a source for the PHS evaluation set-aside in fiscal year 2016, as was done prior to fiscal year 2012.

Mental Health Programs.—SAMHSA is directed to work with the Government Accountability Office (GAO) in implementing the recommendations provided in GAO report GAO–15–113 and GAO–15–405 issued in February and May of 2015, respectively. The agreement directs SAMHSA to provide a detailed update and timeline on the progress of these recommendations 90 days after enactment of this Act. Furthermore, the agreement directs SAMHSA to develop a grants compliance plan that will ensure that SAMHSA’s grants process is in accordance with the Department’s grants manual. The compliance plan shall include periodic, and random, internal audits of grant files to confirm all the necessary documentation is accounted for and that the compliance plan is meeting its objectives. SAMHSA shall provide any additional grants training necessary to prevent these issues from arising in the future.

Mental Health Block Grants.—The agreement includes a \$50,000,000 increase over fiscal year 2015 for the Mental Health Block Grant program and increases the set-aside to 10 percent for evidence-based programs that address the needs of individuals with early serious mental illness, including psychotic disorders. The increase to the set-aside for serious mental illness is fully offset by the additional funds provided to the Mental Health Block Grant program. Furthermore, after taking into account the offset funds for serious mental illness activities, the balance of the increase to the block grants will provide over \$20,000,000 in additional funds to States and territories through their traditional formula grants. The agreement directs SAMHSA to continue its collaboration with NIMH to ensure that funds from the set-aside are only used for programs showing strong evidence of effectiveness and targets the first episode of psychosis. SAMHSA shall not expand the use of the set-aside to programs outside of those that address first episode psychosis. Within six months after enactment of this Act, the agreement directs SAMHSA to provide a detailed table showing at a minimum each State’s allotment, name of the program being implemented, and a short description of the program.

Project AWARE.—The agreement supports the continuation of Project AWARE which increases awareness of mental health issues and connects young people with behavioral health issues and their families with needed services. Of the amount provided for Project AWARE, the agreement provides an additional \$10,000,000 for discretionary grants to communities that have recently faced civil unrest. These grants should focus on high risk youth and family populations in these communities and surrounding areas that have experienced significant exposure to trauma and can benefit from ad-

ditional evidence-based violence prevention and community youth engagement programs as well as linkages to trauma-informed behavioral health services. SAMHSA should prioritize funding grants from communities that have formed partnerships between key stakeholders including State and local governments (including multiple cities and counties if impacted); public or private universities and colleges; and non-profit community- and faith-based organizations. The agreement includes related funding in the Department of Education. The Department of Education and SAMHSA should coordinate extensively in the administration of these resources.

Childhood Trauma.—The agreement appreciates SAMHSA’s ongoing support of the National Child Traumatic Stress Network. A recent report, *Childhood Adversity Narratives*, makes clear that childhood trauma is an all-encompassing and costly national public health problem contributing directly to serious mental and medical conditions. The agreement encourages SAMHSA to more broadly disseminate information regarding evidence-based interventions for the prevention and treatment of childhood trauma so more children can benefit from proven practices.

Assisted Outpatient Treatment.—The agreement includes \$15,000,000 to implement section 224 of the Protecting Access to Medicare Act of 2014 (Public Law 113–93), the Assisted Outpatient Treatment Grant Program for Individuals with Serious Mental Illness (AOT). The agreement recognizes that nearly half of individuals with schizophrenia or bipolar disorder do not recognize they have a mental illness, making it exceedingly difficult for them to follow through on a treatment regimen. The AOT program will work with families and courts to allow these individuals to obtain treatment while continuing to live in their communities and homes. AOT has been proven to reduce the imprisonment, homelessness and emergency room visit rate among this population by 70 percent. The agreement requests a report in the fiscal year 2017 budget request on the planned uses of this \$15,000,000.

Targeted Capacity Expansion.—The agreement provides \$36,303,000 for Targeted Capacity Expansion activities. The agreement provides \$25,000,000, an increase of \$13,000,000, to expand services that address prescription drug abuse and heroin use in high-risk communities. The funding provided will increase the number of States that receive funding from 11 to 22, and SAMHSA should target States with the highest rates of admissions and that have demonstrated a dramatic increase in admissions for the treatment of opioid use disorders. The United States has seen a 500 percent increase in admissions for treatment for prescription drug abuse since 2000. Moreover, according to a recent study, 28 States saw an increase in admissions for treatment for heroin dependence during the past two years. The Center for Substance Abuse Treatment is directed to include as an allowable use medication-assisted treatment and other clinically appropriate services to achieve and maintain abstinence from all opioids and heroin and prioritize treatment regimens that are less susceptible to diversion for illicit purposes.

Since the passage of the Drug Addiction Treatment Act of 2000, SAMHSA has led the nation in educating physicians, patients and treatment systems on the use of medication-assisted treatment. To keep pace with advancements in science and research, the agreement directs SAMHSA to update all of its public-facing information and treatment locators such that all evidence-based innovations in counseling, recovery support, and abstinence-based relapse prevention medication-assisted treatments are fully incorporated.

Criminal Justice Activities.—The agreement provides \$78,000,000 for Criminal Justice Activities and directs that no less than \$60,000,000 will be used exclusively for Drug Court activities. SAMHSA is directed to ensure that all Drug Treatment Court funding is allocated to serve people diagnosed with a substance use disorder as their primary condition. SAMHSA is further directed to ensure that all drug treatment court grant recipients work directly with the corresponding State substance abuse agency in the planning, implementation, and evaluation of the grant. SAMHSA is further directed to expand training and technical assistance to drug treatment court grant recipients to ensure evidence-based practices are fully implemented.

The agreement directs that all of the funding appropriated explicitly for substance abuse prevention purposes both in the Center for Substance Abuse Prevention's PRNS lines as well as the funding from the 20 percent prevention set-aside in the SAPT Block Grant be used only for bona fide substance abuse prevention programs and not for any other purpose.

Combating Opioid Abuse.—The agreement provides \$12,000,000 for discretionary grants to States to prevent opioid overdose-related deaths. This program will help States equip and train first responders with the use of devices that rapidly reverse the effects of opioids. SAMHSA is directed to ensure applicants outline how proposed activities in the grant would work with treatment and recovery communities in addition to first responders. Furthermore, the agreement provides \$10,000,000 for the Strategic Prevention Framework Rx program to increase awareness of opioid abuse and misuse in communities. SAMHSA shall collaborate with CDC to implement the most effective outreach strategy and to reduce duplication of activities.

Overdose Fatality Prevention.—The agreement reflects strong concerns about the increasing number of unintentional overdose deaths attributable to prescription and nonprescription opioids. SAMHSA is urged to take steps to encourage and support the use of Substance Abuse and Prevention Block Grant funds for opioid safety education and training, including initiatives that improve access for licensed healthcare professionals, including paramedics, to emergency devices used to rapidly reverse the effects of opioid overdoses. Such initiatives should incorporate robust evidence-based intervention training, and facilitate linkage to treatment and recovery services.

HEALTH SURVEILLANCE AND PROGRAM SUPPORT

Within the total provided for health surveillance and program support, the agreement includes the following amounts:

Budget Activity	FY 2016 Agreement
Health Surveillance	\$16,830,000
PHS Evaluation Fund	30,428,000

Behavioral Health Workforce Education and Training.—Eligible entities for this program shall include accredited programs that train Master's level social workers, psychologists, counselors, marriage and family therapists, psychology doctoral interns, as well as

behavioral health paraprofessionals. The agreement directs SAMHSA to share information concerning pending grant opportunity announcements with State licensing organizations and all the relevant professional associations. Furthermore, SAMHSA is directed to ensure that funding is distributed relatively equally among the participating health professions and to consider strategies such as issuing separate funding opportunity announcements for each participating health profession. In addition, the agreement directs SAMHSA to include doctoral psychology schools in the funding opportunities to support doctoral level students completing their practicums, which are necessary to move on to internships. Awards shall be given to meritorious applications for doctoral psychology interns first, before doctoral psychology schools applying to support practicums.

AGENCY FOR HEALTHCARE RESEARCH AND QUALITY

HEALTHCARE RESEARCH AND QUALITY

The agreement provides \$334,000,000 for the Agency for Healthcare Research and Quality (AHRQ). Within the total for Health Costs, Quality, and Outcomes, the agreement includes the following amounts:

Budget Activity	FY 2016 Agreement
Patient-Centered Health Research	\$0
Prevention/Care Management	11,649,000
Health Information Technology (IT)	21,500,000
<i>Health IT to Improve Quality</i>	19,000,000
Patient Safety Research	74,253,000
<i>Healthcare-Associated Infections (HAI) Prevention</i>	37,253,000
<i>Combating Antibiotic-Resistant Bacteria</i>	10,000,000
<i>Healthcare Delivery Systems</i>	10,000,000
Crosscutting Activities Related to Quality, Effectiveness and Efficiency Research	89,398,000
<i>Health Services Contract/IAA Research</i>	14,000,000
<i>Health Services Research Grants (Non Investigator-Initiated)</i>	6,000,000
<i>Investigator-Initiated Research Grants</i>	47,398,000
Medical Expenditure Panel Survey	66,000,000
Program Management	71,200,000

The agreement expects AHRQ to focus its research on its traditional mission, such as improving patient safety and preventing healthcare associated infections.

Combating Antibiotic-Resistant Bacteria (CARB).—The agreement recognizes the importance of developing scientific based approaches related to CARB. The AHRQ is directed to work closely with BARDA, CDC, and NIAID and coordinate with other government-wide agencies like the Departments of Defense, Agriculture, and Veterans Affairs, to leverage resources toward this end. These activities should have coordinated goals and measurable objectives to best leverage the funds provided. The agreement requests an update in the fiscal year 2017 budget request on the planned activity.

Investigator-Initiated Research.—The agreement provides increased support for investigator-initiated research. Investigator-initiated research should not be targeted to any specific area of health services research so as to generate the best unsolicited ideas from the research community about a wide variety of topics.

Medication Assisted Treatment (MAT).—The agreement requests an update in the fiscal year 2017 budget request on activity AHRQ supports related to MAT.

CENTERS FOR MEDICARE AND MEDICAID SERVICES

PROGRAM MANAGEMENT

The agreement includes \$3,669,744,000 for the Program Management account to support a broad range of activities including claims processing and program safeguard activities performed by Medicare contractors.

Critical Access Hospitals (CAH).—The agreement continues to note concerns about the proposal to eliminate CAH status from facilities located less than 10 miles from another hospital and reducing the reimbursement rate from 101 to 100 percent on the hospitals to properly provide care to local residents. The agreement directs the Centers for Medicare & Medicaid Services (CMS) to engage with CAH facilities to assess the impact of the proposed reimbursement reduction and provide a report within 180 days of enactment of this Act to the appropriate Committees of the House of Representatives and the Senate on the impact of the proposed rate reduction from the perspective of the CAH ability to fully operate if the reduction is implemented.

Health Insurance Exchange Transparency.—The agreement continues to include bill language in section 223 that requires CMS to provide cost information for the following categories: Federal Payroll and Other Administrative Costs; Exchange-related Information Technology (IT); Non-IT Program Costs, including Health Plan Benefit and Rate Review, Exchange Oversight, Payment and Financial Management, Eligibility and Enrollment; Consumer Information and Outreach, including the Call Center, Navigator Grants and Consumer Education and Outreach; Exchange Quality Review; Small Business Health Options Program and Employer Activities; and Other Exchange Activities. Cost information should be provided for each fiscal year since the enactment of the Patient Protection and Affordable Care Act (Public Law 111–148). CMS is also required to include the estimated costs for fiscal year 2017.

Medicare Advantage in the Territories.—The agreement is concerned with the lack of availability of data to accurately calculate Medicare Advantage payments in the territories. The Secretary is directed to examine the unique costs associated with delivering care in the territories and submit a report to the Committees on Appropriations of the House of Representatives and the Senate within 120 days on availability of data for determining Medicare Advantage payments in the territories.

Prescription Drug Report.—The agreement directs the Secretary of HHS in consultation with the Secretary of the Department of Veterans Affairs, to submit a report to the Committee on Appropriations of the House of Representatives and the Senate, using data only available under current law that is not proprietary, not later than 180 days after the date of the enactment of this Act to which this explanatory statement pertains regarding the following topics, as described further below: price changes of prescription drugs (net of rebates) since 2003; access to prescription drugs by

patients in the four programs listed below; health outcomes and patient satisfaction with care in the four programs listed below; and an analysis of the current cost and length of time necessary to bring new drugs to market.

The report should include prescription drug prices (net of rebates) paid by Federal programs for the 10 most frequently prescribed drugs and the 10 highest-cost drugs under the following programs:

1. The Medicare program under part B of title XVIII of the Social Security Act.
2. The Medicare prescription drug program under part D of title XVIII of the Social Security Act.
3. The Medicaid program under title XIX of the Social Security Act.
4. The Department of Veterans Affairs.

In addition, the report should include total annual prescription drug costs (net of rebates) to the Medicare program under part B of title XVIII of the Social Security Act, the Medicare prescription drug program under part D of title XVIII of such Act, the Medicaid program under title XIX of such Act, and the Department of Veterans Affairs as a percentage of total health care program expenditures. The report shall make note that the total annual prescription drugs costs do not adjust for biomedical inflation. The Secretary of HHS shall review how the Federal Government has achieved cost reductions for drugs since 2001.

The report should also include an evaluation of access to prescription drugs by the four programs listed above, measured consistently across each program using one or more metrics that are generally accepted by healthcare professionals and health policy experts as reliable and appropriate measures of patient access to prescription drugs. The evaluation of patient access shall take into account the extent to which each program uses: formularies (including the breadth and adequacy of such formularies); utilization management techniques; and the average interval between the time a patient attempts to fill a prescription and receipt of the prescription drug, as applicable.

The report should also include an evaluation of patient satisfaction with care (based on a survey with statistically significant results) and of patient outcomes in the four programs listed above, measured consistently across these programs using one or more metrics that are generally accepted by healthcare professionals and health policy experts as reliable and appropriate measures of patient health outcomes and patient satisfaction with care, respectively.

Finally, the report should include an analysis of the current cost and length of time necessary to bring new drugs to market including the impact of biomedical inflation.

Recovery Audit Contractors (RACs).—The agreement reiterates the fiscal year 2015 explanatory statement language directing HHS to take steps to improve consistency, transparency, and processing of appeals. CMS is encouraged, within the existing authorities, to use offsetting collections it maintains from the RAC program to further educate health care providers on how to reduce errors and take other actions aimed at reducing the backlog of appeals at the

Office of Medicare Hearings and Appeals. The agreement expects audits to be conducted in a manner that is valid and statistically sound and requests CMS to continue to monitor the return on investment for compensating auditors on a contingency fee basis, review contractor audit practices, and provide an update on actions related to these items in the fiscal year 2017 budget request. The agreement reiterates its request for CMS's actuarial data to be included in the annual budget request as noted in the fiscal year 2015 explanatory statement. Finally, CMS is expected to provide the Committees on Appropriations of the House of Representatives and the Senate a quarterly update from the inter-agency working group actions taken or planned to address the various issues related to the RAC process.

Risk Corridor Program.—The agreement continues bill language to prevent the CMS Program Management appropriation account from being used to support risk corridor payments. The agreement directs CMS to provide a report starting with plan year 2014 and continuing through the duration of the program to the Committees on Appropriations of the House of Representatives and the Senate detailing the receipts and transfer of payments for the Risk Corridor Program.

State-Based Exchanges (SBEs).—CMS shall ensure that SBEs are not using section 1311 funds for operational expenses which is specifically prohibited by law. SBEs were expected to be self-sustaining by 2015 and were specifically prohibited from using these funds for operational costs after January 1, 2015. The agreement directs CMS to implement the recommendations put forth by the HHS Office of Inspector General (OIG) in their Early Alert Memorandum (A-01-14-02509) issued on April 27, 2015, and expects a detailed report providing an update on these efforts 120 days after enactment of this Act. CMS and the OIG shall immediately notify the Committees on Appropriations of the House of Representatives and the Senate of any unauthorized use of section 1311 funds along with a detailed report, which shall include how CMS plans to recoup those funds from the State.

Third Party Premium Assistance.—The agreement is concerned about the CMS Interim Final Rule: Patient Protection and Affordable Care Act; Third Party Payment of Qualified Health Plan Premiums, which allows marketplace insurance plans to prohibit the acceptance of health insurance premium assistance from non-profit organizations. CMS is directed to submit a report to the Committees on Appropriations of the House of Representatives and the Senate within 90 days explaining the rationale for excluding non-profit organizations.

HEALTH CARE FRAUD AND ABUSE CONTROL ACCOUNT

The agreement includes \$681,000,000, to be transferred from the Medicare trust funds, for Health Care Fraud and Abuse Control activities. This includes a base amount of \$311,000,000 and an additional \$370,000,000 through a budget cap adjustment authorized by section 251(b) of the Balanced Budget and Emergency Deficit Control Act of 1985.

Senior Medicare Patrol Program.—The bill includes language to fully fund the Senior Medicare Patrol Program administered

through the Administration for Community Living from the level provided in this account.

ADMINISTRATION FOR CHILDREN AND FAMILIES

REFUGEE AND ENTRANT ASSISTANCE

Victims of Trafficking.—The agreement includes \$13,000,000 for services for foreign national victims, and \$5,755,000 to improve services available for U.S. citizens and legal permanent residents. Within the total for Victims of Trafficking, the Department is directed to increase funding for the national human trafficking hotline to help respond to increased call volume and overall need for services.

CHILDREN AND FAMILIES SERVICES PROGRAMS

Head Start.—The agreement includes an increase of \$294,000,000 in quality improvement funds to support grantees in expanding to full-school-day and full-school-year services. While early childhood research shows that expanded services are associated with better cognitive outcomes, the agreement notes that communities will face logistical and financial challenges moving toward this model. Since the recommendation is less than the amount requested to move all programs to full day/full year services, the Department is expected to prioritize grantees that volunteer for this expansion and can do so in a way that limits disruption to existing programs and services. The Department is directed to provide technical assistance to grantees and carefully monitor issues that arise as grantees implement the expanded service model.

Early Head Start Expansion/Child Care Partnerships.—The agreement includes a \$135,000,000 increase for expanding Early Head Start (EHS), including through EHS-Child Care Partnerships. The agreement reflects support for EHS-Child Care Partnerships, which is a promising model that significantly expands on what many high-quality providers were already doing in their communities. However, EHS-Child Care Partnerships will not be viable in every community. Prioritizing this one model will limit the pool of competitive applicants, particularly in rural communities, and discourage the expansion of Early Head Start programs designed to meet the needs of their local communities. This new fiscal year 2016 funding, whether for expansion, conversion, or partnerships, should give equal priority to each model and be awarded based on how effectively the model design fits the needs of the local community.

Runaway and Homeless Youth Program.—The agreement does not include funding for the “Prevalence, Needs and Characteristics of Homeless Youth” study.

Child Abuse and Neglect.—The agreement is aware of the recommendations contained within the Institute of Medicine’s (IOM) New Directions in Child Abuse and Neglect Research report as well as other federally supported research. The agreement encourages the Administration for Children and Families (ACF), in conjunction with other relevant agencies in HHS, such as NIH or SAMHSA, to synthesize research done by IOM and other federal partners to

identify gaps in this area and to develop a peer reviewed approach to address research gaps related to child abuse and neglect.

Child Welfare Research, Training and Demonstration.—The agreement includes funding within this program to continue the National Survey of Child and Adolescent Well-Being.

Social Services and Income Maintenance Research.—The agreement includes \$750,000 for the Secretary to enter into an agreement with the National Academy of Sciences to provide an evidence-based, non-partisan analysis of the macroeconomic, health, and crime/social costs of child poverty, to study current efforts aimed at reducing poverty, and to propose recommendations with the goal of reducing the number of children living in poverty in the United States by half in 10 years.

Native American Programs.—The agreement includes \$3,000,000 for the Generation Indigenous initiative focused on improving Native American language instruction across the education continuum.

Domestic Violence Hotline.—The agreement includes an increase of \$3,750,000 for the Hotline. These funds shall be used to develop a tribal hotline, provide additional phone advocates to ensure the Hotline can answer all contacts, and help make the Love Is Respect website a complete resource for teens and youth seeking to prevent and end abusive relationships.

Faith-Based Center.—The agreement transfers the Center for Faith-Based and Neighborhood Partnerships to the General Departmental Management account under the Office of the Secretary.

ADMINISTRATION FOR COMMUNITY LIVING

AGING AND DISABILITY SERVICES PROGRAMS

Aging Network Support Activities.—The agreement provides \$9,961,000 for Aging Network Support Activities. The agreement includes \$2,500,000 to help provide supportive services for aging Holocaust survivors living in the United States.

Senior Medicare Patrol Program.—The agreement includes bill language fully funding the Senior Medicare Patrol Program from the Health Care Fraud and Abuse Control Account in the Centers for Medicare & Medicaid Services.

Elder Rights Support Activities.—The agreement includes \$11,874,000 for Elder Rights Support Activities, of which \$8,000,000 is included for the Elder Justice and Adult Protective Services program to provide competitive grants to States to test and evaluate innovative approaches to preventing and responding to elder abuse.

Traumatic Brain Injury.—The agreement includes bill language transferring the Traumatic Brain Injury program from HRSA to ACL.

Developmental Disabilities Projects of National Significance.—The agreement includes \$643,000 for technical assistance and training for the State Councils on Developmental Disabilities and \$1,000,000 to fund transportation assistance activities for older adults and persons with disabilities. The transportation activities should focus on the most cost-effective and sustainable strategies that can be replicated to other communities.

University Centers for Excellence in Developmental Disabilities.—Within the amount appropriated for the University Centers for Excellence in Developmental Disabilities (UCEDD), the agreement provides no less than the fiscal year 2015 level for technical assistance for the UCEDD network.

Medicaid-Licensed Intermediate Care Facilities.—There is a nationwide trend towards deinstitutionalization of patients with intellectual or developmental disabilities in favor of community-based settings. The Department is strongly urged to continue to factor the needs and desire of patients, their families, caregivers, and other stakeholders, as well as the need to provide proper settings for care, into its enforcement of the Developmental Disabilities Act. The agreement includes bill language requiring notification of affected individuals of their legal rights in this regard.

Independent Living.—The agreement provides \$101,183,000 for the Independent Living program, of which \$22,878,000 is for the Independent Living State Grants program and \$78,305,000 is for the Centers for Independent Living program.

Assistive Technology.—The agreement includes \$2,000,000 for competitive grants as specified in House Report 114–195 to accompany H.R. 3020.

OFFICE OF THE SECRETARY

GENERAL DEPARTMENTAL MANAGEMENT

Breast Cancer Patient Education Campaign.—The agreement directs the Secretary to plan and implement the breast cancer patient education campaign and the annual update in the congressional justification as described in the Senate fiscal year 2016 report (114–74) accompanying S. 1695.

Center for Faith-Based and Neighborhood Partnerships.—To complete the realignment of the Center for Faith-Based and Neighborhood Partnerships from ACF to the Secretary's Office of Intergovernmental and External Affairs, the agreement transfers the Center for Faith-Based and Neighborhood Partnerships' budget of \$1,299,000 from ACF to the General Departmental Management account as requested in the Administration's budget.

Healthcare and Education Costs of Illegal Immigration.—The agreement directs the Department of Health and Human Services to provide a report to the Committees on Appropriations of the House of Representatives and the Senate on available information regarding the costs borne by State and local governments for providing services to individuals without legal immigration status, including the federal resources from the Department of Health and Human Services that are being used to assist States in fiscal year 2016 to cover these expenses.

Seafood Sustainability.—The agreement prohibits the Department from using or recommending third party, nongovernmental certification for seafood sustainability.

Severe Wounds.—The agreement directs the Secretary to conduct the study on the treatment needs of individuals requiring specialized wound care as described in the Senate fiscal year 2016 report (114–74) accompanying S. 1695.

Lupus Initiative.—The agreement continues to provide \$2,000,000 for Lupus activities at the Office of Minority Health (OMH). Within this funding, the agreement includes \$1,000,000 to complete the implementation of the health education program in fiscal year 2016 to transition to another priority in the Lupus community. Clinical trial education and successful recruitment of minorities into trials is a significant challenge in the drug development for Lupus. Therefore, OMH shall initiate a program to develop a clinical trial education action plan for Lupus and begin preliminary steps towards implementation of the action plan. OMH shall work with the relevant Lupus stakeholders in this effort. The agreement includes the remaining \$1,000,000 for this new initiative, and it should focus on developing public-private and community partnerships, evaluate current minority clinical trial education and participation programs, and development of a research plan for creating new clinical trial education models in lupus. OMH shall provide an update to the Committees on Appropriations of the House of Representatives and the Senate on the progress of this new initiative 120 days after enactment of this Act.

Office of Women's Health.—The agreement includes \$3,100,000 to continue the State partnership initiative to reduce violence against women, which provides funding to State-level public and private health programs to improve healthcare providers' ability to help victims of violence and improve prevention programs.

Idea lab and Digital Services.—The agreement does not include funding for either the proposed "Idea lab" or the Digital Services team.

Overhead costs.—The agreement continues to direct the Department to include the amount and percentage of administrative and overhead costs spent by the Department for every program, project and activity in the fiscal year 2017 justification and each year thereafter.

Health Reform Oversight.—The agreement directs GAO to conduct a comprehensive review of the process and coordination between HHS and the Department of the Treasury functions with respect to health care subsidies and to make recommendations to prevent improper payments, as outlined in House Report 114–195 to accompany H.R. 3020.

Quick Health Data.—The agreement directs the Secretary to continue the operation of the Quick Health Data Online system. The Secretary is directed to submit a report to the Committees on Appropriations of the House of Representatives and the Senate on the feasibility of moving the online system to another HHS agency.

Children with Disabilities.—The agreement recognizes the importance of accurate, complete, confidential, and transportable health records, especially for those children most in need of care, such as children with disabilities. The agreement urges the Office of the Assistant Secretary for Health to support a demonstration project to test new and improved methods of providing a patient-centered electronic medical record that is complete and interoperable, secure, and cost effective for children with disabilities.

OFFICE OF MEDICARE HEARINGS AND APPEALS

Appeals Backlog.—The substantial backlog in the number of cases pending before the administrative law judges at the Office of Medicare Hearings and Appeals (OMHA) is a serious concern. Specifically, the number of appeals related to RACs has risen dramatically in the past years. The agreement directs OMHA to use the additional funds provided to address the current backlog and requests a spend plan within 45 days after enactment of this Act. OMHA should focus on reducing the backlog of appeals without undermining the accuracy and quality of their decisions. Furthermore, in collaboration with the intra-agency working group focusing on RACs, OMHA shall provide semi-annual updates to the Committees on Appropriations of the House of Representatives and the Senate reflecting the total number of appeals filed, appeals pending, and appeals disposed of for all four levels of the appeal process.

OFFICE OF THE NATIONAL COORDINATOR FOR HEALTH INFORMATION TECHNOLOGY

Precision Medicine.—The agreement encourages the coordination and development of data standards necessary to advance the Precision Medicine Initiative.

OFFICE OF INSPECTOR GENERAL

The agreement includes \$75,000,000 for the HHS Office of Inspector General (OIG) account. The agreement expects the OIG to continue to improve its annual budget request with more details and performance measures related to discretionary oversight.

PUBLIC HEALTH AND SOCIAL SERVICES EMERGENCY FUND

The agreement provides \$1,532,958,000 for the Public Health and Social Services Emergency Fund to support a comprehensive program to prepare for and respond to the health and medical consequences of all public health emergencies, including bioterrorism, and support the cybersecurity efforts of HHS.

Biomedical Advanced Research and Development Authority (BARDA).—The agreement increases funding for BARDA to support its work on combatting antibiotic resistance (CARB) and other priorities that address chemical, biological, radiological, and nuclear threats. BARDA is directed to work closely with CDC, AHRQ, and NIAID on CARB and coordinate with other government agencies such as the Departments of Defense, Agriculture, and Veterans Affairs, to leverage resources to develop therapeutics. The agreement provides increased support to NIAID and CDC and directs these organizations to jointly work with BARDA on coordinated goals, measurable objectives, and funding plans that will spur research and development on CARB and build laboratory capacity in States. The agreement requests an update in the fiscal year 2017 budget request on the joint BARDA, NIAID, and CDC goals and measurable objectives to ensure the best leveraging of the funds provided.

Centers for Innovation in Advanced Development and Manufacturing (ADM).—The agreement notes BARDA has partnered with

private sector entities in recent years to develop centers to improve access to ADM capabilities. To further enhance the Nation's preparedness and response capabilities, BARDA is encouraged to review the ADM network's current access to advanced technological platforms. The review should determine if the existing network includes the necessary mix of technological capabilities to address potential gaps in the medical countermeasure enterprise and to ensure rapid deployment of medical countermeasures.

Drug Delivery Devices.—The agreement commends the Department's efforts to develop and procure additional medical countermeasures (MCM) on top of the twelve MCMs procured since 2004. However, these MCM's require readily available drug delivery devices. The Department is urged, as practicable, to secure enough injection devices necessary to ensure that these MCMs that require such devices can be delivered to patients in real time.

Pandemic Influenza Response Activities.—The agreement directs the Department to use available no-year carry over funding along with the resources provided to support the fiscal year 2016 budget request level of requirements to support pandemic influenza activity.

Treatment Capacity.—There is concern about the sustainability of the highly-pathogenic infectious disease treatment capacity supported by the FY 2015 Ebola emergency appropriations. Without affecting funding set aside for Project BioShield, the Assistant Secretary for Preparedness and Response should allocate a portion of the unobligated emergency funds to partially reimburse facilities for renovation and alteration undertaken in preparation for, or in response to, the need to improve preparedness and response capability at the State and local level—as authorized by the FY 2015 Ebola emergency appropriations—to help ensure that such treatment capacity is maintained.

TITLE III—DEPARTMENT OF EDUCATION

EDUCATION FOR THE DISADVANTAGED

Striving Readers.—Not later than 30 days prior to the announcement or publication of any notice of proposed priorities or inviting applications for the Comprehensive Striving Readers Literacy program, the Department shall brief the Committees on Appropriations of the House of Representatives and the Senate, Committee on Education and the Workforce of the House of Representatives, and Committee on Health, Education, Labor and Pensions of the Senate on its plans for this grant competition and related evaluation and technical assistance.

SCHOOL IMPROVEMENT PROGRAMS

Supporting Effective Educator Development (SEED) Grants.—The agreement includes funding within the SEED set-aside for competitive grants to non-profit organizations with demonstrated effectiveness in the development and implementation of civic learning programs. Priority should be given to applicants that demonstrate innovation, scalability, and a focus on underserved populations, including rural schools and students. The agreement also includes funding within the SEED set-aside for non-profit organizations with effective programs to enhance primary source utilization in the classroom.

Expanded Learning Time.—The agreement prohibits funds made available for 21st Century Community Learning Centers from being used to support expanded learning time unless those activities are consistent with the requirements in section 4204(a)(2) of the Elementary and Secondary Education Act (ESEA), as amended by the Every Student Succeeds Act (ESSA).

Alaska Native Educational Equity.—In awarding funds under the Alaska Native Educational Equity program, the Department shall: ensure the maximum participation of Alaska Native organizations

and other required Alaska Native partners, guarantee that all grantees have meaningful plans for consultation with Alaska Native leaders, and make every effort to ensure that Alaska Natives and Alaskans represent a significant proportion of peer reviewers for grant applications.

Comprehensive Centers.—The agreement includes \$1,500,000 to establish a new comprehensive center on students at risk of not attaining full literacy skills due to a disability, in accordance with section 2244 of the ESEA, as reauthorized by the ESSA.

INDIAN EDUCATION

Native Youth Community Projects.—Within the total for Special Programs for Indian Children, the agreement includes \$22,890,000 for Native Youth Community Projects. This program makes competitive awards to support culturally-relevant coordinated strategies to improve the college- and career-readiness of Native American youth.

INNOVATION AND IMPROVEMENT

Javits Gifted and Talented.—Within the funds provided for the Javits Gifted and Talented Students Education program, the Department is directed to continue supporting a National Research Center on the Gifted and Talented.

Arts in Education.—The agreement includes an increase in the Arts in Education program to support new competitive awards to national non-profit organizations engaged in arts education, professional development activities and model arts education programs that address the arts access gap.

Innovative Approaches to Literacy.—The agreement includes \$27,000,000 for Innovative Approaches to Literacy competitive awards to national non-profit organizations or school libraries for providing books and childhood literacy activities to children and families living in high-need communities.

Fund for the Improvement of Education (FIE).—Within FIE, the agreement includes funding for the following activities in the following amounts:

Budget Activity	FY 2016 Agreement
Arts in Education	\$27,000,000
Non-Cognitive Skills Initiative	3,000,000
Full Service Community Schools	10,000,000
Preschool Development Grants	250,000,000
Innovative Approaches to Literacy	27,000,000
Javits Gifted and Talented Students Education Program	12,000,000
Presidential and Congressional History Teaching Academies	1,815,000
Total	330,815,000

SAFE SCHOOLS AND CITIZENSHIP EDUCATION

Safe and Drug-Free Schools and Communities National Activities.—The agreement includes \$5,000,000 for competitive grants to eligible entities, including community-based organizations, Local Educational Agencies, and partnerships thereof, in communities

that have experienced significant episodes of civil unrest. This funding is to support establishing school-based programs in such communities to address, including through counseling services, the comprehensive educational, behavioral, and mental health needs of youth who have experienced significant trauma related to recent events in their communities. The agreement includes related funding in the Substance Abuse and Mental Health Services Administration (SAMHSA). The Department of Education and SAMHSA should coordinate extensively in the administration of these resources.

Elementary and Secondary School Counseling Program.—The agreement includes \$49,561,000 for the Elementary and Secondary School Counseling program. School counselors help to create a safe school environment. However, too few students have access to these benefits. This program recognizes the importance of addressing student mental health issues and the critical role that school counselors play in this area.

Carol M. White Physical Education Program.—The agreement includes \$47,000,000 for the Carol M. White Physical Education program to pay the Federal share of the costs of initiating, expanding and improving school-based physical education programs. According to the CDC, the prevalence of unhealthy body weights among children has more than doubled over the past 30 years. This program underscores the importance of supporting students' access to physical education.

SPECIAL EDUCATION

The Department should consider ways to support paperwork reduction and administrative streamlining under the Individuals with Disabilities Education Act.

Within Technical Assistance and Dissemination, the agreement includes \$10,083,000 for education activities authorized under Public Law 108-406.

Education Technology, Media, and Materials Program.—Progress has been made with tools and services provided under the Education Technology, Media and Materials program that have allowed more than 320,000 students free access to more than 280,000 books in multiple digitally accessible formats. Understanding the obligation to serve all K-12 students, the agreement includes an additional \$2,000,000 for the purpose of expanding the program's reach to 120,000 K-12 students with a focus in underserved areas.

SPECIAL INSTITUTIONS FOR PERSONS WITH DISABILITIES

American Printing House for the Blind (APH).—The agreement continues to recognize that students who are blind or have a vision loss must have equal access to the same education content and should receive that information at the same time as their sighted peers if they are to achieve academically. Accordingly, the agreement continues to support implementation of APH's Resources with Enhanced Accessibility for Learning (REAL) plan, and includes no less than \$475,000 for such activities. The REAL plan supports new advances in software and hardware technology to ensure that students with vision loss receive high-quality educational material

in a timely manner and in the appropriate formats required to meet individual student learning needs.

National Technical Institute for the Deaf (NTID).—The agreement includes \$2,000,000 to establish a formal regional partnership, via subcontract, with at least one organization to expand the geographic reach of activities and services supported by NTID, consistent with its mission and strategic plan. The partnership activities should include a focus on promoting training and postsecondary participation in STEM fields; working with NTID faculty to develop postsecondary preparation for students; providing professional development for teachers and developing partnerships with business and industry to promote employment opportunities.

STUDENT FINANCIAL ASSISTANCE

Work Colleges.—The agreement includes \$8,390,000 for the Work Colleges program authorized under section 448 of the Higher Education Act from the Federal Work Study appropriation.

STUDENT AID ADMINISTRATION

Federal Student Loan Servicing.—The first goal of the Federal student loan servicing process should be ensuring high-quality servicing to borrowers and safeguarding taxpayer dollars. The Department recently established a common set of performance metrics by which to measure all student loan servicers to ensure consistency and accountability toward that goal. However, in allocating new student loan volume, the Department does not apply these metrics among all servicers but only within defined subsets of servicers, contradicting the intention of common metrics. The agreement includes new bill language requiring the Department to allocate new student loan accounts based on performance compared against all servicers. The Department shall adjust allocations based on the capacity of servicers to handle all new and current volume, provided that information about servicer capacity is made publicly available. Further, in developing the framework for a new student loan servicing process, with contracts expected to be awarded in 2016, the Department should ensure the participation of a sufficient number of servicers, including in servicing consolidated student loans, to help promote high quality customer service for student loan borrowers. The agreement does not intend in any way to constrain the Department from pursuing efforts to improve the servicing process to best serve the interests of student loan borrowers and taxpayers.

The Department shall brief the Committees on Appropriations of the House of Representatives and the Senate, Committee on Education and the Workforce of the House of Representatives, and Committee on Health, Education, Labor and Pensions of the Senate within 30 days of enactment of this Act on how it plans to carry out these directives. Further, the Secretary shall, no later than March 1, 2016, publish a common policies and procedures manual for servicing that applies to all Direct Loan servicers.

HIGHER EDUCATION

TRIO.—The agreement provides funding for a new competition for the Talent Search and Educational Opportunity Centers programs as well as an increase in funding for existing grantees. The Department is strongly encouraged to publish the notice inviting applications as soon as possible and issue award notices for these programs no later than July 31, 2016. The agreement does not include funding requested in the budget for a new TRIO Demonstration Initiative.

There is concern that the draft competitive preference priorities proposed by the Department for the Talent Search competition could exclude proven successful grantees, particularly those at under-resourced institutions and small community agencies, by awarding additional points for certain activities with varying levels of methodological rigor.

The agreement strongly urges the Secretary to give fair consideration to prior experience when making awards under the Talent Search and Educational Opportunity Center competitions.

INSTITUTE OF EDUCATION SCIENCES

Teachers-in-Training.—The National Center for Education Statistics shall submit a report by December 31, 2016 to the Committees on Appropriations of the House of Representatives and the Senate, Committee on Education and the Workforce of the House of Representatives, and Committee on Health, Education, Labor and Pensions of the Senate, using and reporting data from the most recent school year by State and each local educational agency, regarding the extent at the school-level to which students in the following categories are taught by teachers who have not yet obtained full State certification: students with disabilities, English Learners, students in rural areas, students from low-income families, and minority students. “Full State certification” means that a teacher has met all teacher preparation requirements applicable to their years of experience; that the teacher is not authorized to teach on an emergency, temporary, provisional or waiver basis; that certification may be obtained through traditional or alternative routes; and, except that when used with respect to any teacher teaching in a public charter school, the term means that the teacher meets the requirements set forth in the State’s public charter school law.

Applied Research on Infant and Toddler Education.—The foundation for success begins early in a child’s life. Research shows that the achievement gap begins to emerge among children as young as nine months of age. However, there are few funding sources available to support applied research related to infant and toddler care and education. Given the demand for high-quality and enriching infant and toddler care by families at all income levels, expanded research would help inform best practices and improve the quality of care and education for infants and toddlers. The Institute is encouraged to make grant funding available for research on typically-developing infants and toddlers, as well as infants and toddlers with special needs, to help fill the existing gaps in the literature and answer the questions posed by program developers and policy

makers. The Institute should collaborate with the Department of Health and Human Services in identifying research gaps and the needs of program developers and practitioners as it develops future funding opportunities in this area.

Geographic Disparities in Education Research.—The Department is encouraged to evaluate the geographic distribution of Institute of Education Sciences-funded research, and pursue efforts to expand, in particular, research on early learning programs and policies in rural and other parts of the country facing unique challenges where there is a shortage of current research.

DEPARTMENTAL MANAGEMENT

College Ratings System.—There is concern about the Department's proposal to develop a College Ratings System, as described in the framework published for public comment on December 19, 2014. The Department has since significantly changed its plan for a College Rating System and the agreement supports the Department moving away from its originally proposed plan.

Education Costs of Illegal Immigration.—The agreement directs the Department to provide a report to the Committees on Appropriations of the House of Representatives and the Senate on available information regarding the costs borne by State and local governments for providing services to individuals without legal immigration status, including the Federal resources from the Department that are being used to assist States in fiscal year 2016 to cover these expenses.

GENERAL PROVISIONS

The agreement includes bill language extending authorization of the National Advisory Committee on Institutional Quality and Integrity through 2016.

The agreement includes a new general provision extending authority through 2016 to provide account maintenance fees to guaranty agencies for Federal student loans.

The agreement includes a new general provision requiring the Department to provide reinsurance at 100 percent of the defaulted loan claim amount for guaranty agencies.

The agreement directs the Department to submit a report to the Committees on Appropriations of the House of Representatives and the Senate, Committee on Education and the Workforce of the House of Representatives, and Committee on Health, Education, Labor and Pensions of the Senate, within 180 days of enactment of this Act on a plan to assist guaranty agencies, lenders and borrowers in the wind down of the Federal Family Education Loan (FFEL) program as the outstanding loan portfolio continues to decline. That plan shall specifically address guaranty agencies and their subsidies, the current status of the wind down, the financial stability of guaranty agencies, and an assessment of any authority necessary for purposes of the wind down. The agreement also directs the Department to conduct outreach to current FFEL borrowers who may be eligible for income-driven repayment plans and other repayment options.

The agreement includes a general provision clarifying that funds provided in this Act for ESEA formula grant programs for academic year 2016–2017 are to be administered under the provisions of the ESEA in effect prior to the reauthorization of the ESEA by the ESSA. The transition provisions in ESSA generally call for implementation of the new law starting with the 2017–2018 school year. The general provision and the funding levels and directives included in this agreement are consistent with that intent.

The agreement includes a new general provision modifying the changes made in division G of Public Law 113–235 concerning career pathways programs.

CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

AmeriCorps Grants.—The agreement includes an increase in funding for both AmeriCorps formula and competitive grant programs, to be allocated consistent with the National and Community Service Act of 1990, as amended.

Training and Technical Assistance.—The agreement modifies bill language to allow the Corporation for National and Community Service (Corporation) to use existing set-asides in statute to provide training and technical assistance to AmeriCorps and other national and community service programs. The Corporation is expected to use this authority to provide additional resources directly to State

Commissions to help build the capacity of State Commissions and local AmeriCorps programs in their States.

Communities Experiencing Civil Unrest.—AmeriCorps programs are uniquely situated to respond to sudden crises and episodes of civil unrest in communities, and address the longer-term challenges underlying them. The Corporation is expected to continue to support AmeriCorps program in such communities.

Professional Corps Operating Expenses.—The Corporation is directed to provide guidance on what specifically Professional Corps programs must demonstrate to receive operating funds as part of their AmeriCorps grant. The Corporation should provide programs flexibility in demonstrating this need to ensure the viability of such programs in all communities.

CORPORATION FOR PUBLIC BROADCASTING

The agreement includes an additional \$40,000,000 in fiscal year 2016 funds for the replacement of the public broadcasting interconnection system. The satellite leases for the current public television interconnection system expire in 2016, and the public radio interconnection satellite leases expire in 2018. Improved technology may enable the public television and radio stations to share certain elements of the planned interconnection system, leading to greater efficiencies.

FEDERAL MEDIATION AND CONCILIATION SERVICE

The agreement provides \$48,748,000 for the Federal Mediation and Conciliation Service. The increase of \$3,082,000 is intended to be a one-time provision for necessary relocation costs to be incurred in fiscal year 2016.

LIMITATION ON ADMINISTRATIVE EXPENSES

Continuing Disability Reviews and Supplemental Security Income Redeterminations of Eligibility.—The agreement includes a total of \$1,542,000,000 for SSA to conduct Continuing Disability Reviews (CDRs) under the Disability Insurance and Supplemental Security Income (SSI) programs, and redeterminations of eligibility under the SSI program. This includes \$1,426,000,000 specified for the base and cap adjustment amounts included in the Budget Control Act of 2011, and \$116,000,000 in additional funding provided under SSA's Limitation on Administrative Expenses (LAE) account. The Commissioner may allocate more or less than \$116,000,000 from SSA's regular LAE account for CDRs and redeterminations but only for reconciling estimated and actual unit costs for conducting such activities, and after notifying the Committees on Appropriations of the House of Representatives and the Senate at least 15 days prior to any such reallocation. Reprogramming Guidelines.—It is expected that all agencies notify the Committees on Appropriations of the House and the Senate of any significant departures from budget plans presented to the Committees in any agency's budget justifications. collection stewardship program, and \$8,231,000 for the digital collections and education curricula program.

Library Procurement.—In the fiscal year 2013 House Report 112–511 the Committee expressed its concern with the findings in a recently issued Office of Inspector General (OIG) report concerning the Library Wide Acquisition Function. The OIG report contained many findings, some that were reported either in previous OIG audits or memoranda, as far back as ten years, that needed immediate Library management attention. There are concerns about continued weaknesses within the Library’s procurement process, as demonstrated when the Committee received a reprogramming request on the next to the last day of fiscal year 2015. These weaknesses threaten the ability of the Library to make timely purchases of necessary goods and services, provide the best value for the taxpayer, and preserve funds for other mission-critical activities.

The Library is directed to follow the recommendations of the Library’s OIG and federal agency best practices related to procurement, tracking and prioritizing unobligated balances throughout the fiscal year. Furthermore, the Library is directed to develop and submit any reprogramming requests of such unobligated balances no later than August 1st of each fiscal year.

COPYRIGHT OFFICE

SALARIES AND EXPENSES

The agreement includes \$23,098,000 in direct appropriations to the Copyright Office. An additional \$35,777,000 is made available from receipts for salaries and expenses.

The resources provided are in recognition that the current Copyright system is not serving creators and industry to the standard necessary to promote creative and commercial exchange. With the limited resources available in the Legislative Branch, it is imperative that these additional resources provided in this agreement and in fiscal year 2015 are used in a manner that achieves the universal goal of improving the Nation’s Copyright system. In fiscal year 2015, the Committee required an expenditure plan for the use of funds and received two plans for use of funds within two months. The multiple submissions have raised concerns that there is not a comprehensive plan in which to bring the Copyright system into the modern age. House Report 114–110 requires the Register of Copyrights to submit a detailed plan on necessary IT upgrades, a cost estimate for the full modernization effort, and a funding strategy with a time frame for completion. The expectation is that the requirements set forth in House Report 114–110 will formalize a plan that all stakeholders can work from to ensure that funds are being used effectively.

In addition, the appropriated dollars above fiscal year 2015, \$2,300,000, is not available for obligation until the Committees receive the IT plans and cost estimates required in House Report 114–110. After submission of the IT plan and cost estimate, the Register is directed to provide quarterly reports on its expenditure of funds and milestones achieved to implement the IT upgrades to modernize the Copyright system.

ADMINISTRATIVE PROVISION

The agreement authorizes details of personnel to the Government Accountability Office.

OPEN WORLD LEADERSHIP CENTER TRUST FUND

The agreement includes \$5,600,000 for payment to the Open World Leadership Center Trust Fund.

The Congress appreciates the role that the Open World Leadership Center has played in linking Members of the House and Sen-

ate to rising legislative and civic leaders in countries critical to American interest. However, the Congress believes that the Centers' mission and role should be directly relevant to the role of the legislative branch of Congress. As such, the Center's board of trustees is directed to provide the relevant authorization and appropriations committees with a report on how the Center can serve the Congress in a more effective and relevant manner.

This report shall: (1) provide a strategic plan for the Center's efforts to enhance engagement and cooperation between the Congress and legislatures abroad; (2) provide an analysis on how the Center could support and collaborate with other legislative branch agencies such as the House Office of Inter-parliamentary Affairs and the House Democracy Partnership; and (3) propose any statutory changes required for the Center to focus its mission on supporting Congressional engagement with legislatures in emerging democracies abroad. The report is to be provided to the relevant committees no later than March 31, 2016.

DIVISION J—MILITARY CONSTRUCTION AND VETERANS AFFAIRS, AND RELATED AGENCIES APPROPRIATIONS ACT, 2016

The following is an explanation of the effects of Division J, which makes appropriations for Military Construction, Veterans Affairs, and Related Agencies for fiscal year 2016. Unless otherwise noted, reference to the House and Senate reports are to House Report 114–92 and Senate Report 114–57. The language set forth in House Report 114–92 and Senate Report 114–57 should be complied with and carry the same emphasis as the language included in the explanatory statement, unless specifically addressed to the contrary in this explanatory statement. While repeating some report language for emphasis, this explanatory statement does not intend to negate the language referred to above unless expressly provided herein. In cases in which the House or the Senate has directed the submission of a report, such report is to be submitted to both Houses of Congress. House or Senate reporting requirements with deadlines prior to, or within 15 days after, enactment of this Act shall be submitted not later than 60 days after enactment of this Act. All other reporting deadlines not specifically directed by this explanatory statement are to be met.

Construction Contracting Outreach.—Department of Defense (DOD) and Department of Veterans Affairs (VA) construction projects funded in this Act are, in general, executed by the U.S. Army Corps of Engineers, the Naval Facilities Command, and the VA Office of Construction. Effective communication between Federal procurement officials and the construction industry is essential to improve opportunities for local contractors to compete for local DOD and VA construction projects. But despite the efforts of the Office of Federal Procurement Policy to increase communication between procurement officers and industry, local contractors continue to report that they often do not know about nor have the opportunity to compete for contracts for federally funded construction projects. Therefore, the Secretaries of the Army and the Navy, and the Secretary of Veterans Affairs are directed to ensure that their respective regional/district offices responsible for construction projects inform and engage local construction industry contractors, especially small businesses, minority-owned businesses, and women-owned businesses, about Federal procurement opportunities and the bidding process. Each Secretary is further directed to pro-

vide to the Committees on Appropriations of both Houses of Congress (“the Committees”) not later than 90 days after enactment of this Act a comprehensive outreach plan for regional and district offices that includes targeted outreach, Web-based technologies, social media and other proactive strategies to reach a broader group of local contractors.

TITLE I

DEPARTMENT OF DEFENSE

Bid Savings.—It has been ascertained from cost variation notices required by 10 U.S.C. 2853 that the Department of Defense continues to have bid savings on previously appropriated military construction projects. Therefore, the agreement includes rescissions to the Army, Air Force, and Defense-Wide construction accounts. The Secretary of Defense is directed to continue to submit 1002 reports on military construction bid savings at the end of each fiscal quarter to the Committees.

The Secretary of Defense is further directed to assess the backlog of projects identified by the services and the defense agencies and report the expected costs and timeline for completion of the backlog to the congressional defense committees not later than 90 days after enactment of this Act.

Pacific Realignment.—U.S. economic and security interests are inextricably linked to developments in the arc extending from the Western Pacific and East Asia into the Indian Ocean and South Asia, creating a mix of evolving challenges and opportunities. The Department of Defense has stated that it would tailor its global presence and posture by rebalancing toward the Asia-Pacific region, emphasizing existing alliances and expanding networks of cooperation with emerging partners throughout the region to ensure collective capability and capacity for securing common interests. As part of this rebalance, the U.S. Pacific Command currently has programmed \$775,000,000 over the next five years for military construction in the region.

Approximately 39,000 U.S. military personnel, 43,000 dependents, and 5,000 DOD civilian employees are currently stationed on Japan, and the majority of this presence resides in Okinawa. Okinawa hosts over 25 percent of the U.S. bases in Japan, and Okinawa’s bases house approximately 8,000 Air Force personnel and up to 19,000 Marine Corps personnel on any given day. Attempts to realign, consolidate, and increase the sustainability of this presence have been ongoing for nearly two decades. Early plans were to move approximately 8,000 Marines and 9,000 dependents from Okinawa to Guam; however, in 2012 representatives from the U.S. and Japanese governments announced a revised plan that would relocate over 9,000 Marines from Okinawa and realign Marine forces throughout the Pacific: 4,800 to Guam, 2,700 to Hawaii, and 2,500 rotational troops to Australia.

The U.S. Government Accountability Office (GAO) has been reporting on Asia Posture plans and costs since 2011. Based on GAO’s reports, it is not clear if sufficient existing military infrastructure is available in any of the receiving locations to support the relocation or if DOD has developed adequate cost estimates of

infrastructure development that will be needed to ensure mission capability. In addition, the U.S. Government is still negotiating certain Host Nation and land use agreements that are key to executing the construction plan.

As a result, The Comptroller General of the United States is directed to conduct a study and report the results of the study to the congressional defense committees by February 1, 2017. At a minimum, The Comptroller General's study should address the status of progress being made on the various realignment initiatives, the costs associated with these plans, whether any alternatives to this plan are being considered, and should answer the following questions:

(1) What is the status of the realignment initiatives, have alternatives been considered, and to what extent has DOD identified a plan that lays out the appropriate sequencing of projects supporting the realignment of Marines and the interdependent projects on Okinawa, including associated time frames and costs for the projects?

(2) Can the Okinawa realignment timeframe be accelerated?

(3) What is the status of development of DOD's master plan to support the relocation of Marines to Guam?

(4) To what extent does sufficient, usable excess capacity exist on bases in Hawaii to support the Marines' relocation there?

(5) To what extent do sufficient facilities in Australia exist to support the planned force rotations there?

(6) What estimated costs has DOD identified it will need to develop new, or redevelop existing, infrastructure in Guam, Hawaii, Australia, or other locations it may be considering for the realignment?

(7) What is the status of relevant Host Nation and land use agreements required to execute the plan? Which agreements are most likely to be challenged in court and result in further delays to the plan?

(8) Are there any suitable locations other than the Futenma Relocation Facility on or near the island of Okinawa to host Marine Corps aviation assets? If so, would there be any efficiencies or cost savings associated with a different location?

Missile Defense.—Rapid implementation of the European Phased Adaptive Approach remains a high priority. The first Aegis Ashore missile defense site in Deveselu, Romania, is expected to be fully operational by the end of 2015. Construction in Romania has not been without difficulty, including delays and additional costs associated with the high-altitude electromagnetic pulse shields. This agreement fully funds the request to build the second Aegis Ashore site in Redzikowo, Poland, and the Missile Defense Agency (MDA) is expected to apply the lessons learned from construction in Romania to expedite the project in Poland. As Iranian ballistic missiles become increasingly advanced, the activation of the Aegis Ashore sites is essential to the protection of U.S. and allied interests in Eastern and Central Europe. The European Reassurance Initiative has increased the number of U.S. and NATO rotational forces in Europe, and the MDA is directed to accelerate activation of the Aegis Ashore systems wherever possible.

Expansion of U.S. Africa Command Operations in Africa.—Increased activity by violent extremist groups in Africa, including the November 20, 2015, terrorist attack in Mali which claimed the lives of 20 victims, including one American, underscores the growing importance of the anti-terrorism mission of the U.S. Africa Command (AFRICOM) on the continent. As a result, AFRICOM has steadily increased its intelligence, surveillance, and reconnaissance operations and its network of contingency and Cooperative Security Locations (CSLs) for the temporary staging of crisis response forces. These contingency locations include an airbase in Niger, for which \$50,000,000 is provided in this Act for infrastructure and airfield improvements, and an expeditionary post in Cameroon to accommodate the recently announced deployment of up to 300 U.S. military personnel to aid in the fight against Boko Haram and other terrorist organizations in West Africa. U.S. forces generally rely on existing Host Nation infrastructure to support their operations, but as with the Niger base, Department of Defense funding may be required for infrastructure improvements to accommodate U.S. personnel and operations. CSLs and expeditionary bases represent an expedient and cost-effective means for U.S. forces to support African national efforts to combat terrorism and to protect U.S. security interests, but it is important for the Department to ensure that any required infrastructure improvements at these locations are undertaken within appropriate congressional funding authorities. The Department is therefore directed to provide to the Committees quarterly reports, beginning after the first quarter of fiscal year 2016, on any infrastructure investment required to support U.S. forces and operations at CSLs or other expeditionary bases in Africa, the funding source for these investments, and the justification for using Operation and Maintenance or other DOD funding sources versus Military Construction authorities to fund these investments. These reports shall be provided in the appropriate classified and unclassified formats.

MILITARY CONSTRUCTION, ARMY

The agreement provides \$663,245,000 for Military Construction, Army. Within this amount, the agreement provides \$109,245,000 for study, planning, design, architect and engineer services, and host nation support.

Instruction Building.—The agreement does not include funding for the Instruction Building located at Joint Base Myer-Henderson Hall. There is concern that the initial design of this facility failed to incorporate the Fife and Drum Corps needs. As a result, formal design on this project did not start due to concerns regarding the scope of this project. While concerns remain, the replacement facility is necessary due to the current condition of the existing facility. Therefore, the Secretary of the Army is directed to take the necessary steps to create a concept plan that meets the needs of both the Army Band and the Fife and Drum Corps at one site. This plan shall be submitted to the congressional defense committees not later than 120 days after enactment of this Act.

MILITARY CONSTRUCTION, NAVY AND MARINE CORPS

The agreement provides \$1,669,239,000 for Military Construction, Navy and Marine Corps. Within this amount, the agreement provides \$91,649,000 for study, planning, design, architect and engineer services.

Live-Fire Training Range Complex (NW Field).—The agreement fully supports the efforts of the Marine Corps to establish the appropriate training ranges on Guam in support of the movement of Marines from Okinawa. However, there is concern that the projected cost of the supporting facilities for the live-fire training ranges, in general, tend to be considerably higher in cost than the range itself. Therefore, the Secretary of the Navy is directed to submit a report to the congressional defense committees not later than 90 days after enactment of this Act detailing how support facilities are determined for each range.

Townsend Bombing Range.—The agreement includes full funding for the construction of the Townsend Bombing Range Expansion, Phase 2. However, there are concerns that the Navy has failed to consider the impact that the range expansion would have on the local timber economy and therefore funding of this project is fenced until an agreement between all stakeholders can be met.

MILITARY CONSTRUCTION, AIR FORCE

The agreement provides \$1,389,185,000 for Military Construction, Air Force. Within this amount, the agreement provides \$89,164,000 for study, planning, design, architect and engineer services.

Lajes Field, Azores.—The agreement does not contain House section 130 due to the inclusion of Section 2310 of P.L. 114–92, the National Defense Authorization Act for Fiscal Year 2016 which addresses potential operations at Lajes Field as well as the Joint Intelligence Analysis Center. Section 2310 requires the Secretary of Defense to submit a determination of the operational viability of use for Lajes Field by March 1, 2016. Additionally, Section 2310 prohibits obligation of the fiscal year 2016 funds for the Joint Intelligence Analysis Center, phase II pending a certification by the Secretary of Defense of the optimal location for the Joint Intelligence Analysis Center to the congressional defense committees.

MILITARY CONSTRUCTION, DEFENSE-WIDE

(INCLUDING TRANSFER OF FUNDS)

The agreement provides \$2,242,867,000 for Military Construction, Defense-Wide. Within this amount, the agreement provides \$175,404,000 for study, planning, design, architect and engineer services. Within this amount, an additional \$15,000,000 is provided for the Missile Defense Agency planning and design account. The additional funding is to expedite the construction and deployment of urgently needed missile defense assets in various locations within the Continental United States, including Alaska and Hawaii.

MILITARY CONSTRUCTION, ARMY NATIONAL GUARD

The agreement provides \$197,237,000 for Military Construction, Army National Guard. Within this amount, the agreement provides \$20,337,000 for study, planning, design, architect and engineer services.

MILITARY CONSTRUCTION, AIR NATIONAL GUARD

The agreement provides \$138,738,000 for Military Construction, Air National Guard. Within this amount, the agreement provides \$5,104,000 for study, planning, design, architect and engineer services.

MILITARY CONSTRUCTION, ARMY RESERVE

The agreement provides \$113,595,000 for Military Construction, Army Reserve. Within this amount, the agreement provides \$9,318,000 for study, planning, design, architect and engineer services.

MILITARY CONSTRUCTION, NAVY RESERVE

MILITARY CONSTRUCTION, AIR FORCE RESERVE

The agreement provides \$65,021,000 for Military Construction, Air Force Reserve. Within this amount, the agreement provides \$13,400,000 for study, planning, design, architect and engineer services.

NORTH ATLANTIC TREATY ORGANIZATION SECURITY INVESTMENT PROGRAM

The agreement provides \$135,000,000 for the North Atlantic Treaty Organization Security Investment Program which is \$15,000,000 above the budget request. The additional funding will support responses to the challenges posed by Russia and to the risks and threats emanating from the Middle East and North Africa.

FAMILY HOUSING OVERVIEW

Homeowners Assistance Program—Delayed Expression or Delayed Identification of Injured Beneficiaries.—As the Executive Agent for the Homeowners Assistance Program (HAP) across the Department of Defense, the Army mistakenly administered approximately 76 applicants whose injuries were incurred during a military deployment, while they owned a home, and experienced delayed expression or delayed identification of the injury. The applicants were paid in good faith and in accordance with guidance from Congress and the Department of Defense to err in favor of wounded, ill, and injured HAP applicants. If these beneficiaries had suffered from an obvious physical injury—which the HAP statute envisioned—their

injury would have been clearly documented at the time they owned their home, and they would have qualified for HAP benefits. Therefore, no funds from this Act shall be used to collect overpayments for any wounded, ill, or injured HAP beneficiary with delayed expression or delayed identification, or send notice letters, while the Department further develops permanent legislative solutions with Congress.

FAMILY HOUSING CONSTRUCTION, ARMY

The agreement provides \$108,695,000 for Family Housing Construction, Army. This is an increase of \$9,000,000 above the budget request.

Army Family Housing Construction Increase.—The agreement includes a \$9,000,000 increase to the family housing construction project located at Rock Island Arsenal, at the request of the Army. The increase is required because bids the Army received for a corresponding fiscal year 2015 project were 139 percent of the programmed amount, and the Army subsequently revised its cost estimate for the fiscal year 2016 project to reflect this bid climate. The source of the additional funding is from a rebalancing of the Army Family Housing, Operation and Maintenance account to reflect updated estimates. Both the construction project cost increase, and the corresponding rebalancing of the Army Family Housing, Operation and Maintenance account are consistent with the National Defense Authorization Act for Fiscal Year 2016.

FAMILY HOUSING OPERATION AND MAINTENANCE, ARMY

The agreement provides \$375,611,000 for Family Housing Operation and Maintenance, Army. This is a decrease of \$17,900,000 below the budget request and reflects the Army's updated estimates for this account.

FAMILY HOUSING CONSTRUCTION, NAVY AND MARINE CORPS

The agreement provides \$16,541,000 for Family Housing Construction, Navy and Marine Corps.

FAMILY HOUSING OPERATION AND MAINTENANCE, NAVY AND MARINE CORPS

The agreement provides \$353,036,000 for Family Housing Operation and Maintenance, Navy and Marine Corps.

FAMILY HOUSING CONSTRUCTION, AIR FORCE

The agreement provides \$160,498,000 for Family Housing Construction, Air Force.

FAMILY HOUSING OPERATION AND MAINTENANCE, AIR FORCE

The agreement provides \$331,232,000 for Family Housing Operation and Maintenance, Air Force.

FAMILY HOUSING OPERATION AND MAINTENANCE, DEFENSE-WIDE

The agreement provides \$58,668,000 for Family Housing Operation and Maintenance, Defense-Wide.

DEPARTMENT OF DEFENSE BASE CLOSURE ACCOUNT

The agreement provides \$266,334,000 for the Department of Defense Base Closure Account, which is \$15,000,000 above the request. The additional funding is for the Army and the Navy to accelerate environmental remediation at installations closed under previous Base Closure and Realignment rounds.

Infrastructure Inventory and Assessment of Infrastructure Necessary to Support Ongoing Defense Activities.—Language in House Report 114–92 requiring the Secretary of Defense to conduct an inventory and assessment of infrastructure necessary to support ongoing Defense activities is modified to conform to a similar requirement in Sec. 2815 of P.L. 114–92, the National Defense Authorization Act for Fiscal Year 2016.

TITLE II

DEPARTMENT OF VETERANS AFFAIRS
VETERANS BENEFITS ADMINISTRATION

COMPENSATION AND PENSIONS

(INCLUDING TRANSFER OF FUNDS)

The agreement provides \$76,865,545,000 for Compensation and Pensions for fiscal year 2016, reflecting new estimates provided in the Administration's mid-session review. Of the amount provided, not more than \$15,562,000 is to be transferred to General Operating Expenses, Veterans Benefits Administration (VBA) and Information Technology Systems for reimbursement of necessary expenses in implementing provisions of title 38. The agreement also provides in advance \$86,083,128,000 for Compensation and Pensions for fiscal year 2017, of which not to exceed \$16,021,000 shall be transferred to the two accounts listed above. This is the first year advance appropriations have been authorized and provided for this account.

READJUSTMENT BENEFITS

The agreement provides \$14,313,357,000 for Readjustment Benefits, reflecting new estimates provided in the Administration's mid-session review. In addition, \$16,340,828,000 is provided in advance for Readjustment Benefits in fiscal year 2017. This is the first year advance appropriations have been authorized and provided for this account.

VETERANS INSURANCE AND INDEMNITIES

The agreement provides \$77,160,000 for Veterans Insurance and Indemnities for fiscal year 2016, as well as advance appropriations for fiscal year 2017 totaling \$91,920,000. This is the first year advance appropriations have been authorized and provided for this account.

VETERANS HOUSING BENEFIT PROGRAM FUND

The agreement provides such sums as may be necessary for costs associated with direct and guaranteed loans for the Veterans Housing Benefit Program Fund. The agreement limits obligations for direct loans to not more than \$500,000 and provides that \$164,558,000 shall be available for administrative expenses.

VOCATIONAL REHABILITATION LOANS PROGRAM ACCOUNT

The agreement provides \$31,000 for the cost of direct loans from the Vocational Rehabilitation Loans Program Account, plus \$367,000 to be paid to the appropriation for General Operating Expenses, Veterans Benefits Administration. The agreement provides for a direct loan limitation of \$2,952,000.

NATIVE AMERICAN VETERAN HOUSING LOAN PROGRAM ACCOUNT

The agreement provides \$1,134,000 for administrative expenses of the Native American Veteran Housing Loan Program Account.

VETERANS HEALTH ADMINISTRATION

MEDICAL SERVICES

The agreement provides \$51,673,000,000 in advance for fiscal year 2017 for Medical Services and makes \$1,400,000,000 of the advance available through fiscal year 2018. The agreement also provides \$2,369,158,000 for fiscal year 2016 in addition to the advance appropriation provided last year.

Choice Program.—The Choice program, created in the Veterans Access, Choice, and Accountability Act (VACAA) of 2014, was designed to provide needed care outside the VA system for veterans who lived far from VA medical facilities or who were unable to receive an appointment within a reasonable time period at a VA clinic or hospital. VACAA included \$15,000,000,000 in emergency, mandatory funding to finance the new program as well as investments in building VA capacity. The first year of the program was fraught with uncertainty. Usage of the Choice program was well below expectations. Yet, the information about the existence of the program generated demand for the existing VA program that was well beyond projections or capacity. The resulting strain on care provided through VA appropriated funds reached a crisis level last August when Congress was forced to transfer Choice program funding to the discretionary accounts to keep VA hospitals operating. That crisis generated the requirement from Congress that VA develop a comprehensive plan to restructure the Choice program and consolidate it with the myriad other non-VA care programs operated by the Department. As this new plan is developed and implemented by Congress, great uncertainty still exists about the demand for traditional VA care versus care provided by outside entities but funded by VA. The funding provided through VACAA will be exhausted sometime in fiscal year 2016 or 2017, creating unprecedented demands on the discretionary account. The Department is directed to provide to the Committees its cost projections for Medical Care for fiscal year 2016 and 2017 not later than 60 days after enactment of this Act and every subsequent quarter thereafter. In the absence of reasonable projections of usage of VA care, the agreement provides a total of nearly \$2,500,000,000 for fiscal year 2016 Medical Care in addition to the \$58,662,202,000 provided in advance last year. The bill provides the original advance funding request for fiscal year 2017 of \$63,271,000,000, with the expectation that the Department will submit a request for additional funding in the 2017 budget.

Given that there may be significant unfunded liabilities created by VACAA, the agreement includes bill language permitting the transfer of funding from multiple VA appropriations accounts to Medical Services to address unfunded needs.

Expansions of the Choice Program.—Subsequent eligibility expansions of the Choice program by VA and by legislation have been

welcome developments. These expansions, particularly those regarding environmental factors, have opened the aperture for the Choice program and will allow more veterans to utilize non-VA care options. The Department is encouraged to implement these eligibility changes to the Choice program in an expedited manner and to consider including travel time and total distance to a VA medical facility, which can address the veteran's specific healthcare needs, when determining eligibility for the Choice program.

Evaluation of the Implementation of the Choice Act.—GAO is directed to submit to the Committees a report evaluating the implementation by the Department of section 101 of VACAA, as described in Senate bill section 250.

Interim Results Regarding Changes to Access to Care for Veterans.—VA is directed to submit a report to the Committees not later than February 1, 2016, detailing the changes in the delivery of care to Alaskan veterans subsequent to passage of the Choice Act, as described in the Senate bill section 251.

Impact of the Choice Program on Rural Areas.—The Department is instructed to submit a report to the Committees not later than 180 days after enactment of this Act on the implementation of the Choice Act in rural areas, as described in Senate bill section 254.

Oversight of VA Patient Access to Care.—To ensure that the Veterans Health Administration's Veterans Integrated Service Networks (VISNs) are complying with all legal and policy standards with respect to veterans' timely access to medical care, the agreement directs GAO to conduct a random audit of at least three VISNs, and, to the extent practical, three individual medical facilities within those VISNs. The audit should assess whether the VISNs and facilities have assurance programs in place to confirm compliance with all standards imposed under law or any policy guidance issued by the Department regarding access to hospital care, or other healthcare provided by the Veterans Health Administration, or provided through a contractual agreement with a non-VA provider.

Despite the Department's efforts to decrease patient wait times, progress is uneven, and distressing reports abound from certain areas of the country about veterans' inability to get timely care. To better understand why these geographic services gaps exist, the Department is directed to submit a report to the Committees not later than 90 days after enactment of this Act, with respect to the South Texas Veterans Health Care System, the Central Alabama Veterans Health Care System, the North Florida/South Georgia Veterans Health System, the Gulf Coast Veterans Health Care System, and the VA Montana Health Care System, including: (1) a description of the current baseline and the nature and scope of any foreseeable increase in wait times for medical appointments; (2) an assessment of whether a shortage of healthcare providers is the primary cause of any such increase in wait times; (3) an identification of any other causes of an increase in wait times; (4) a description of any action taken by the Department to correct any such increase in wait times; (5) an assessment of any issues relating to access to care; and (6) a plan for how the Secretary will remedy any such increase in wait times, including a detailed description of steps to be taken and a timeline for completion.

Curing Hepatitis C within the Veteran Population.—The Department is to be commended for robustly treating veterans with Hepatitis C (HCV), which is a particular concern because the veteran population is twice as likely to have the virus as the general population. VA has developed a Hepatitis C projection model, which is able to project both the prevalence of HCV infections within the enrolled veteran population and the number of treatments needed from 2014 through 2023. Available HCV drugs have a cure rate of 96 percent, and early, preventative treatments avoid tens of thousands of dollars in future spending on transplants and chemotherapy. To that end, the agreement includes bill language funding the treatment of Hepatitis C within the VA system at no less than \$1,500,000,000 in fiscal year 2016, which is \$810,000,000 above the President's request.

To assist in congressional oversight, VA is directed to report to the Committees in quarterly briefings the number of veterans treated to date, the number of veterans treated each week, the number of veterans pronounced cured to date, the projected number of new cases, and the estimate of veterans likely to be cured during the next quarter. In addition, VA should indicate in a report sent to the Committees not later than 90 days after enactment of this Act the Department's volume capacity for treatment and the Department's strategic plan for addressing the veteran Hepatitis C caseload over the next five years. VA is also directed to report quarterly to the Committees obligations for funding Hepatitis C treatments as part of the larger crosscutting VA quarterly financial report required in section 219.

Caregivers.—The agreement provides \$605,000,000 for the Caregiver Program, which is \$50,000,000 above the budget request. The funding will support stipends paid directly to family caregivers of post-9/11 veterans seriously injured in the line of duty, as well as the national caregiver support line and increased support for caregiver support coordinators.

Vet Centers.—The agreement provides \$258,000,000 for readjustment counseling at Vet Centers, which is \$15,000,000 above the budget request. The increased funds are to be used for Vet Centers, including mobile Vet Centers, to address the unmet mental health needs of veterans in rural and highly rural areas.

Rural Healthcare.—The agreement includes \$270,000,000 for the Office of Rural Health. This funding continues the Rural Health Initiative established by Congress in fiscal year 2009 to ensure that VA dedicates sufficient resources to reach veterans residing in rural and highly rural areas who do not have immediate access to a veterans medical center or community-based outpatient clinic. VA is strongly encouraged to continue to improve the accessibility, efficiency, and effectiveness of care for rural veterans. Section 211 of the bill permits the transfer of up to \$20,000,000 from the Office of Rural Health to the Grants to States for Construction of Extended Care Facilities in order to ensure the needs of rural and highly rural areas are taken into account in the allocation of these construction funds.

Ending Veteran Homelessness.—The most recent "Point in Time Count" prepared by the Department of Housing and Urban Development estimates the overall national number of homeless veterans

in January 2015 was 47,725, down 35 percent since 2009. It is expected that this reduction will continue and will be reflected in next year's "Point in Time Count". Congress has provided more than \$7,200,000,000 for homeless program activities during this time period to support the Department's efforts. The Department is to be commended for the continued reduction in homelessness among veterans, but there is concern that its Agency Priority Goal of ending homelessness in 2015 may not be realized. The goal is important, and the Department is directed to continue prioritizing resources and efforts to end veterans homelessness. Therefore, the agreement provides the full fiscal year 2016 and 2017 budget requests for VA homelessness assistance programs and homeless veteran treatment costs. The agreement directs the Department to fund the Supportive Services for Veteran Families and the Grant and Per Diem Program at the fully authorized level.

Concern remains about the Department's efforts to combat homelessness among female veterans and female veterans with minor children. The agreement directs VA to report the actions it is taking to reduce homelessness among this population, as directed in the House report.

The Secretary is directed to assess the feasibility and advisability of conducting a pilot program to award grants to veterans service agencies, Veteran Service Organizations (VSOs), and nongovernmental organizations to provide furniture, household items, and other assistance to formerly homeless veterans who have transitioned to permanent housing.

Mental Health.—The agreement provides the full budget request for all VA mental health services and programs, which totals \$7,455,017,000 in fiscal year 2016 and \$7,715,357,000 in fiscal year 2017. Within these amounts, the agreement emphasizes the importance of investing in programs addressing post-traumatic stress, traumatic brain injury, and suicide prevention.

The Department is encouraged to seek out public-private partnerships, particularly with research universities, those with and without medical schools, to expand its efforts related to suicide prevention, post-traumatic stress disorder, traumatic brain injury, and substance abuse disorders.

The Department is urged to implement a program that would designate a VA liaison to work with local law enforcement to ensure that the subsequent needs of veterans who are considered an immediate threat to themselves and others are addressed.

The Department is urged to strengthen its relationships with the VSOs that are working closely with veterans suffering mental health issues.

VA must be better poised to identify veterans suffering from combat-related mental health issues and pinpoint those at risk of committing suicide. In an effort to assist this effort, the Department is encouraged, after consultation with the Secretary of Defense, to enter into a contract with an independent third party to carry out a study on the impact combat service has had on suicide rates and serious mental health issues among veterans. To the extent practical, the study should compare the rate and method of suicides among those veterans who have sought and received care from the Veterans Health Administration, and those who have not. The Sec-

retary should report to the Committees not later than 30 days after enactment of this Act regarding the feasibility of such a study.

There is concern that the Department is reluctant to permit the hiring of mental health counselors and marriage and family therapists who meet all educational, licensing, and examination requirements to practice in their States, but whose degree is from an institution not accredited by the particular organizations VA recognizes. The Department is urged to pilot the hiring of therapists who meet all the requirements to practice in their States and report to the Committees not later than 180 days after enactment of this Act about its hiring plans for this group of practitioners.

The agreement includes \$19,000,000 for the National Centers for Post-Traumatic Stress Disorder, as outlined in the budget request.

Women Veterans.—VA must make better progress in addressing the needs of women veterans. Toward this end, the agreement fully funds gender-specific healthcare for both fiscal year 2016 and fiscal year 2017. Access to, and utilization of, VA benefits and services by women veterans remain low, with women often encountering cultural roadblocks in a system that was largely designed to meet the needs of male veterans. Therefore, the Department is directed to ensure that providers within VA who interact with women veterans in a clinical setting are trained to treat and address the unique health issues facing women veterans. Moreover, the agreement directs the Secretary to conduct an internal analysis to ensure that each VISN is integrating the unique needs of female veterans into each component of the healthcare system. VA is directed to submit this analysis to the Committees not later than 180 days after enactment of this Act.

In an effort to leverage VA's existing local community partnerships, VA should establish support networks for women veterans to assist in accessing healthcare, employment services, financial counseling, and housing. Furthermore, the Department is directed to maximize the availability of mental health services available to veterans who were victims of military sexual trauma and shall report to the Committees semi-annually on these efforts. The agreement also directs VA to continue the Women Veterans Call Center.

Opioid Safety.—To respond to the urgency of the opioid overdose epidemic, the Department is directed to follow the guidance from the Senate report in the following areas: (1) adoption of the safe opioid prescribing practices for chronic, non-cancer pain in outpatient settings developed by the Centers for Disease Control and Prevention; (2) development of mechanisms for including real-time patient information on existing opioid prescriptions within VA as well as information in the State Prescription Drug Monitoring Program; (3) establishment, in consultation with DOD, within the DOD-VA Joint Executive Council of a working group focused on patient pain management and opioid therapy; and (4) provision of the necessary equipment and supplies to make certain that all VA medical facilities are equipped with approved opioid receptor antagonists. Additionally, the Department is directed to report to the Committees not later than 90 days after enactment of this Act on alternative treatments to prescribing opioids, which may include an evidence-based analysis as to which complementary and integrative health therapies may be effective for the treatment of pain, as well

as how VA can better facilitate the use of safe and effective complementary and integrative health therapies for pain management. VA is also instructed to comply with the Executive Memorandum issued by the President on October 21, 2015, requiring Federal agencies to provide training on prescribing opioids to Federal healthcare professionals who prescribe controlled substances as part of their Federal responsibilities. The Department should report to the Committees not later than 90 days after enactment of this Act the type of training it intends to provide, the number and position of recipients of the training, and the time frame for providing the training. Lastly, GAO, as directed in the Senate report, should report to the Committees on the effectiveness of the VA Opioid Safety Initiative.

Consolidated Mail Order Pharmacy.—VA Consolidated Mail Order Pharmacy (CMOP) ranked highest among mail order pharmacies for customer satisfaction in J.D. Power and Associates 2014 National Pharmacy Study. This marked the fifth consecutive year CMOP scored highest in this survey. Notwithstanding past success, the program, which has been recompeted, is now the subject of an Office of Inspector General (OIG) audit. OIG is directed to keep the Committees apprised of the ongoing and final results of the audit. The Department is directed to submit a report to the Committees not later than 30 days after the OIG audit results are published detailing a timeline for implementation of any recommendations which may arise as a result of the OIG audit.

Recruitment and Retention of Healthcare Providers.—GAO is directed to submit to the Committees a report on the recruitment and retention of healthcare providers by the Department, as described in Senate bill section 253.

Locum Tenens Physicians.—The Committees had expressed concern earlier this year about Drug Enforcement Administration (DEA) regulations that denied VA locum tenens physicians prescribing privileges unless they had a license in the State of practice, even though VA policy permits them to practice in any VA facility as long as they have a license in at least one State. It is understood that the DEA has modified its policies and has granted waivers to VA locum tenens physicians, alleviating a problem that would have created physician shortages in some VA facilities.

Medical Residency Positions.—VACAA directed the Department to increase the number of graduate medical education residency positions by 1,500 over a five year period. On September 17, 2014, VA's Office of Academic Affiliations issued a Request for Proposals to VA healthcare facilities and received significant interest in the residency positions. As a result, the Interim Under Secretary for Health approved the allocation of 200 residency positions. By July 2015, 163 of the allocated positions had been filled. VA's residency program depends on close coordination with program sponsors and coordination with the Department of Health and Human Services (HHS) Centers for Medicare and Medicaid Services. To better understand limitations within the program and to better leverage VA's graduate medical education residency program, the agreement directs the Secretary, in consultation with the Secretary of HHS, to provide a report to the Committees not later than 90 days after enactment of this Act, which details current coordination with the

Direct Graduate Medical Education Program, limitations that may restrict VA's program and ability to expand to underserved areas, and a plan to more effectively carry out VA's graduate medical education program within constraints that exist in the Direct Graduate Medical Education program.

Antimicrobial Resistance.—The Department is directed to carry out antimicrobial stewardship programs in accordance with VHA Directive 1031, as described in the House and Senate reports.

Pain Management Boards.—The Department is directed to report on the feasibility of establishing Pain Management Boards within each VISN, as described in the Senate report.

Transportation Pilot Program.—To take advantage of innovations in on-demand transportation made possible through mobile application technology, the Department is encouraged to conduct a pilot program of this method as a means for transporting veterans to VA facilities and private providers. The pilot program would use transportation network companies to transport veterans for medical care in at least three metropolitan areas in three different VISNs. The pilot would take advantage of existing flexibility in current Federal procurement law, including 41 U.S.C. 1902, to enable transportation network companies to fully participate in the pilot program in a manner consistent with their standard business model. Each trip would be considered a unique transaction for the purposes of compliance with micro-purchase procedures. The Secretary shall evaluate the effectiveness of the pilot and determine: (1) how transportation network companies can meet gaps in transportation services; (2) the extent to which veterans' transportation needs are being met in a cost-effective manner; and (3) satisfaction from veterans with the quality of the transportation service and ease of use.

Nurse Call Center.—The Secretary is directed to assess the feasibility and advisability of implementing a nurse advice line, including in rural areas and highly rural areas with a large percentage of veterans, to furnish to veterans medical advice, appointment and cancellation services, and information on the availability of benefits from VA. The pilot should be based on and improve upon the nurse advice line implemented by DOD for beneficiaries under the TRICARE program.

MEDICAL SUPPORT AND COMPLIANCE

The agreement provides \$6,524,000,000 in advance for fiscal year 2017 for Medical Support and Compliance and makes \$100,000,000 of the advance funding available through fiscal year 2018.

MEDICAL FACILITIES

The agreement provides \$5,074,000,000 in advance for fiscal year 2017 for Medical Facilities, as well as \$105,132,000 in fiscal year 2016 funding, which is in addition to the advance funding provided last year. Of the advance funding, \$250,000,000 is made available through fiscal year 2018.

Joint Healthcare Facilities.—The Department and DOD have developed an innovative approach to delivering healthcare by developing a combined VA/DOD clinic, from the ground-up with compatibility and integration by design. The agreement encourages the

further development and utilization of innovative ideas that combine duplicative efforts and restrain redundant costs while also better serving active duty personnel, their families, retirees, and the veteran community. The agreement recognizes the need for such integrated facilities and supports the underlying mission of these joint ventures. As noted, both Departments consider these collaborations to be the future in providing medical services for both communities. Understanding the subsequent complications that may arise during integration efforts between these Departments, the agreement encourages both VA and DOD to provide innovative solutions to overcome these challenges. The agreement further recognizes that in the instance of clinics currently under construction, there are possible cost and schedule overruns due to interagency funding disputes. Therefore, the Department and DOD are directed to resolve these issues to preserve the existing delivery timeline of these clinics and report to the Committees any outstanding issues related to joint VA/DOD clinics not later than 30 days after enactment of this Act.

Community-Based Outpatient Clinic Site Selection and Construction.—Concerns continue to be raised about the Department's oversight and management of the community-based outpatient clinic (CBOC) site selection and construction process. The current VA process does not always provide due consideration of the interests of the patients who are to be served by these facilities, as evidenced by sites which are selected that are located outside areas where the majority of local veterans live or sites without proximity to public transportation. Additionally, there is concern regarding VA's use of multi-phase construction, which can result in unnecessary delays and added construction costs, in addition to separate facilities for services that could be delivered more effectively at one site. Several planned CBOCs, such as facilities in Lorain, Ohio; Columbus, Georgia; and Rochester, New York, face these problems. VA must dramatically improve its long term planning for CBOC site selection and construction to avoid costly mistakes and ensure veterans' needs are fully considered and are made a priority in the overall process. The Department is directed to review the current CBOC planning process, particularly project design, site selection, and cost effectiveness evaluations, and to develop a plan to improve veteran access. VA should report on the status of each planned CBOC nationwide not later than 30 days after enactment of this Act.

MEDICAL AND PROSTHETIC RESEARCH

The agreement provides \$630,735,000 for Medical and Prosthetic Research, available until September 30, 2017. Bill language is included to ensure that the Secretary allocates adequate funding for research on gender appropriate prosthetics and toxic exposures.

Colorectal Cancer.—Given that colorectal cancer is the second leading cause of cancer death in the U.S. and VA will incur substantial costs associated with its treatment, the Department is encouraged to support research and development in diagnostic tests, including a less costly blood test and stool-based screening tests.

NATIONAL CEMETERY ADMINISTRATION

The agreement provides \$271,220,000 for the National Cemetery Administration (NCA). Of the amount provided, \$26,600,000 is available until September 30, 2017.

NCA Oversight Data.—NCA is instructed to provide the following performance data to the Committees on a quarterly basis: the percentage of graves marked within 60 days; the percentage of veterans served within 75 miles of residence; and the percentage of headstone and marker applications processed within 20 days of request. The report should also include the following workload measures, comparing planned versus actual for each: the number of interments; the number of graves maintained; and the applications processed.

DEPARTMENTAL ADMINISTRATION

GENERAL ADMINISTRATION

(INCLUDING TRANSFER OF FUNDS)

The agreement provides \$336,659,000 for General Administration. Of the amount provided, \$10,000,000 is available for obligation until September 30, 2017. The agreement continues to include language permitting the transfer of funds from this account to General Operating Expenses, Veterans Benefits Administration.

The agreement includes the following funding levels:

(In thousands of dollars)

Office	2015	Agreement
Office of the Secretary	10,022	10,498
Office of General Counsel	80,243	92,178
Office of Management	44,052	44,535
Office of Human Resources and Administration	61,939	63,555
Office of Policy and Planning	24,990	24,743
Office of Operations, Security and Preparedness	17,884	18,907
Office of Public Affairs	20,253	21,026
Office of Intergovernmental Affairs	2,011	1,927
Office of Congressional and Legislative Affairs	5,962	5,962
Office of Acquisition, Logistics and Construction	53,789	53,328
Total	\$321,145	\$336,659

The agreement recognizes the particular importance of the mission of the Office of Accountability Review, the security and safety activities of the Office of Operations, Security, and Preparedness to protect VA facilities, and the National Veterans Sports Programs, and supports these programs at the budget request level.

Whistleblower Protection.—It is unacceptable that retaliation continues against whistleblowers within the Department. While VA continues to assert it is doing all within its power to protect whistleblowers and encourage VA employees to report cases of wrongdoing, there continue to be reports that in multiple cases when whistleblowers do bring problems to light, the whistleblowers themselves are attacked in official and unofficial ways. Such actions are reprehensible, and the Department is directed to send a clear and unequivocal message throughout the VA system that retaliation against whistleblowers will not stand, and that those in

leadership who condone or ignore such retaliation will be held accountable. The Department is directed to ensure that all VA employees understand the rights and protections afforded to them under the law. Further direction on this topic is included in the Senate report.

Third Party Fee Collection.—The Committees have urged VA for several years to improve its systems for collection of third party payments that are owed to VA for non-service-connected care for veterans at both VA and non-VA facilities. With exponential increases in non-VA care, it is all the more important for VA to increase collections of payments it is rightfully owed. The Department is instructed to conduct a pilot similar to the one described in the Senate report. Emphasis should be placed on automated solutions, as recommended in the September Independent Assessment, but also on the use of private sector revenue cycle management techniques and small balance recovery and appeals processes. The pilot should test these approaches with claims resulting from both VA and non-VA facility care.

Financial Management Systems.—The Department has had an abysmal record over the past decade attempting to install a modern financial management system. After investing hundreds of millions of dollars, VA has pulled the plug on two different systems development efforts. Rather than trying to move forward with another modernization plan, VA has hobbled along with an antiquated system dating back to the 1980s. The consequences of this misjudgment became clear earlier this year when VA was unaware that medical care obligations were outstripping resources so fast that hospitals were in danger of closing in August. The Department has asserted that acquiring a modern financial system does not compete well against other IT requirements, and therefore, continues to fall low on the Department's priority list. After the accounting crisis the Department experienced this summer that explanation is inexcusable. VA is directed to make the development of a financial management system, whether acquired or created, a top priority for 2016.

Equitable Relief.—It is understood that VA is working to implement new systems and protocols to eliminate instances of administrative error. However, as VA enacts system-wide reforms, ending equitable relief for veterans who were deemed eligible for benefits in error would place an unfair burden on veterans and their families. The Secretary is directed to continue to grant or extend equitable relief to eligible veterans initially deemed eligible in instances of administrative error. Not later than April 1, 2016, the Secretary shall submit to the Committees a report containing a statement as to the disposition of each case recommended to the Secretary for equitable relief under 38 U.S.C. 503 during the preceding calendar year.

Reduction in VA Use of Social Security Numbers.—There has long been concern about the overuse of Social Security numbers by VA as primary identifiers for veterans. To better understand the steps being taken by VA to reduce the use of Social Security numbers as the Department's primary identifier, the agreement directs the Secretary to submit not later than 120 days after enactment of

this Act a comprehensive strategic plan to reduce the unnecessary use of Social Security numbers and VA's reliance on them.

Department Unresponsiveness.—The Department's lack of timely responses to congressionally directed reporting requirements is extremely frustrating and directly affects the ability of the Committees to conduct oversight. All too often the Department fails to meet the deadlines set forth by the Committees. As one example of this intransigence, a report requested in Title II of the fiscal year 2015 House Report 113–416 titled “Alternative Financing”, which was due on September 30, 2014, has yet to be received by the Committees. In addition, there are currently 25 outstanding Committee reports the Department has failed to submit on time. Furthermore, even if the deadlines are met, the material provided by the Department often lacks substance and is of little use to the Committees. This frequently forces the Committees to act on incomplete information and to request the report again in subsequent Committee reports. The Secretary is urged to address this issue, extending the priority given to providing prompt and accurate services for veterans to other important partners in this effort.

Tribal Officer Certification.—The Department is urged to revise its current regulations to permit the certification of Tribal Veterans Service Officers in the same manner as State and Regional Veterans Officers.

VA Response to Oversight Reports.—The Department is directed, as indicated in the Senate report, to provide quarterly progress reports on VA's actions to address outstanding GAO findings and recommendations, with each report to be submitted not later than 30 days after the end of the quarter.

Quarterly Report.—In section 219 of the agreement, VA is directed to provide on a quarterly basis, not later than 30 days after the end of each quarter, a quarterly financial status report to include, at a minimum, the information identified in this paragraph. Such information shall include:

1. VHA obligations and collections for the three Medical Care accounts, Nonrecurring Maintenance [as a non-add], Medical Research, the VA-DOD Facility Demonstration Fund, and MCCF collections—actual to date versus plan;

2. Updated ‘VA Medical Care Obligations by Program’ chart displayed in the fiscal year 2016 budget justification;

3. Choice Act obligations for sections 801 and 802—actual to date versus plan;

4. Hepatitis C obligations, amounts funded through appropriations versus Choice Act, both sources actual to date versus plan;

5. Cumulative tracking of each transfer within the Medical Care appropriations accounts and between all VA appropriations accounts;

6. General Administration obligations—personal services versus all other—actual to date versus plan;

7. Board of Veterans Appeals obligations—personal services versus all other—actual to date versus plan;

8. VBA, GOE obligations—personal services versus all other—actual to date versus plan;

9. Compensation and Pensions, Readjustment Benefits, and Veterans Insurance and Indemnities—obligations year-to-date versus plan;

10. NCA obligations—personal services versus all other—actual to date versus plan;

11. Information Technology Systems obligations—personal services versus all other—actual to date versus plan;

12. Major and Minor Construction obligations—actual to date versus plan;

13. Obligations to date for each Major Construction project, broken into design versus construction; and

14. Status of VA full-time equivalent employment—by Administration/IT and revolving funds—by quarter, actual versus plan.

Response to Security Threats.—Given the increasing threats of violence in the U.S., as well as worldwide, the VA Office of Security and Law Enforcement is directed to provide to the Committees not later than 90 days after enactment of this Act a report assessing the physical security at VA hospitals nationwide, with its recommendations to improve the safety of patients and staff who use these facilities. Among other issues, the report should assess how intelligent policing solutions could enhance the security of the hospital facilities.

Travel Restrictions.—While it is understood that VA is working to reduce costs associated with travel in an effort to perform more efficiently, the Secretary is directed to ensure that any reduction in travel does not impact clinical training or training in the field necessary to provide veterans with access to healthcare and benefits.

Gender-specific Data.—Last year, the Department was directed through the Women's Health Service and the Center for Women Veterans to begin to collect and analyze gender-specific data and to develop programs and funding recommendations based on this data. VA was also encouraged, in consultation with the DOD, to establish a women's working group within the VA/DOD Joint Executive Committee. The Department is directed to report to the Committees not later than 60 days after enactment of this Act on the status of these efforts.

BOARD OF VETERANS APPEALS

The agreement provides \$109,884,000 for the Board of Veterans Appeals, of which not to exceed \$10,788,000 shall remain available until September 30, 2017. Bill language is included in section 235 permitting VA to transfer funding between this account and the General Operating Expenses, Veterans Benefits Administration account if needed to align funding with the appropriate account to hire staff to address the appeals backlog.

GENERAL OPERATING EXPENSES, VETERANS BENEFITS ADMINISTRATION

The agreement provides \$2,707,734,000 for General Operating Expenses, Veterans Benefits Administration and makes available not to exceed \$160,000,000 of this funding until the end of fiscal year 2017. The agreement provides funding to support the 770 ad-

ditional full-time equivalent staff requested in the budget—200 new appeals processors, 320 non-rating claims processors, 85 fiduciary field examiners, and 165 support personnel. The full request for the Veterans Benefits Management System is provided in the agreement, which includes \$36,800,000 from this account and \$253,000,000 from the Information Technology Systems account. The agreement also includes the full budget request of \$26,300,000 for the centralized mail initiative and \$140,800,000 for the Veteran Claim Intake Program (VCIP).

Disability Claims Processing.—Members of Congress have been deeply concerned over the years as the backlog of veterans compensation claims for service-connected disabilities reached a peak, and hundreds of thousands of veterans waited months or years to receive their benefits. Using the resources Congress has provided, VA has chipped away at the backlog and is now on a course within months to clear the backlog. While encouraged by this progress, Congress will remain vigilant to ensure that VA has put the necessary processes and manpower in place to avoid slipping back into a backlog. In addition, the resolution of increasing numbers of claims has produced a significant increase in appeals of claims, which creates increased workload at both the regional offices and at the Board of Veterans Appeals. In expectation of this second wave of an appeals backlog, the agreement provides funding above the budget request for both the Veterans Benefits Administration and the Board of Veterans Appeals. The Department is instructed not later than 90 days after enactment of this Act to provide an integrated master plan for the appeals process modernization, including plans to ensure interoperability with the Veterans Benefits Management System.

To continue the oversight instituted by the Committees in response to the backlog, the agreement:

—Continues the requirement to provide rigorous, publicly available Web-based monthly reports to the Committees on performance measures for each regional office, including the number of backlogged claims, the average number of days to complete a claim, and error rates.

—Continues the requirement to submit quarterly reports that include the number of claims personnel in each regional office, corrective action taken to remedy any problems at poorly performing offices, training programs undertaken by regional offices, and quality review team audits performed during the quarter.

—Requires VA to submit a report not later than 90 days after enactment of this Act on current and future staffing levels for each regional office.

Military OneSource.—The Military OneSource program provides important services during service members' careers, offering information, referrals, non-medical counseling, specialty consultations, educational materials, and many other services and support worldwide 24 hours a day, seven days a week, at no cost to the user. Transition out of active service is a period of great flux for service members and their families, and Military OneSource is of great benefit to them during this turbulent time.

VA also provides extensive services for exiting service members through training, employment services, post-secondary education

and health services. To be certain the services of the Military OneSource program and VA are not duplicative, the Secretary is directed, in consultation with the Secretary of Defense, to submit a report to the Committees not later than 120 days after enactment of this Act detailing the services provided by both programs and identifying areas where the Departments need to coordinate or reprioritize.

Fast Letter Guidance.—The Department issued Fast Letter 13–10, *Guidance on Date of Claim Issues*, on May 20, 2013, and subsequently terminated the guidance effective June 27, 2014. The Department is directed not to reissue such guidance during fiscal year 2016.

Post-9/11 GI Bill Overpayments.—The October, 2015 GAO report that identified over \$400,000,000 in post-9/11 GI bill overpayments—funding that must be collected from both students and higher education institutions—is of great concern to the Committees. VA is urged to adopt the recommendations that GAO identified, particularly updating the methods by which VA notifies students and institutions of debts owed (to include e-mail notification) and developing a system to identify students' enrollment status each month. VA is also encouraged to pursue the delayed disbursement system used by the Department of Education in order to reduce the amount of benefits that must be collected if a student's enrollment status changes. The Department is also encouraged to conduct targeted outreach and training to those schools with a record of repeated benefit processing errors, and to post on its website all of its policy directives, guidance, and training on processing student post-9/11 GI bill benefits. The Department is directed to report to the Committees not later than 90 days after enactment of this Act on its response to the GAO recommendations and its consideration of delayed disbursement.

Plan to Improve Vocational Rehabilitation and Education.—The Department is directed to develop and publish an action plan not later than 270 days after enactment of this Act regarding ways to improve services and assistance provided under chapter 31 of title 38, United States Code, as described in Senate bill section 260.

INFORMATION TECHNOLOGY SYSTEMS

(INCLUDING TRANSFER OF FUNDS)

The agreement provides \$4,133,363,000 for Information Technology (IT) Systems. The agreement identifies separately in bill language the funding available for pay (\$1,115,757,000); operations and maintenance (\$2,512,863,000); and systems development, modernization, and enhancement (\$504,743,000). The agreement makes \$34,800,000 of pay funding available until the end of fiscal year 2017; \$175,000,000 of operations and maintenance funding available until the end of fiscal year 2017; and all IT systems development, modernization and enhancement funding available until the end of fiscal year 2017.

The agreement includes \$182,600,000 for VistA Evolution, the modernization of the interoperable electronic health record (EHR); \$50,000,000 for interoperability and Virtual Lifetime Electronic Record (VLER) Health; \$253,000,000 in information technology

funding for the Veterans Benefits Management System which processes disability claims; \$19,100,000 for the claims appeals modernization effort; \$15,000,000 for Section 508 compliance efforts; \$17,000,000 for the Medical Care Collection Fund Electronic Data Exchange for providers; and \$10,000,000 for the Electronic Data Exchange for payers.

As with the fiscal year 2013, 2014, and 2015 appropriations Acts, the fiscal year 2016 agreement includes a prohibition on obligation or expenditure of more than 25 percent of fiscal year 2016 funds provided for development, modernization, and enhancement of VistA EHR until the Department meets reporting and accountability requirements contained in the agreement.

The agreement includes language prohibiting the obligation of IT development, modernization, and enhancement funding until VA submits a certification of the amounts to be obligated, in part or in full, for each development project.

The agreement includes language permitting funding to be transferred among the three IT subaccounts, subject to approval from the Committees.

The agreement includes language providing that funding may be transferred among development projects or to new projects subject to the Committees' approval.

The agreement provides funding for IT development, modernization, and enhancement for the projects and in the amounts specified in the following table:

INFORMATION TECHNOLOGY DEVELOPMENT PROJECTS

(in thousands of dollars)

Project	Agreement
Access to Healthcare	\$28,970
Healthcare Efficiency IT Development	6,660
Electronic Health Record Interoperability/VLER Health	25,000
Vista Evolution	81,900
New Models of Care	25,430
Veterans Benefits Management System (VBMS)	86,000
Virtual Lifetime Electronic Record (VLER)	10,000
Veterans Relationship Management (VRM)	73,333
VHA Research IT Support Development	12,250
Other IT Systems Development	155,200
Total, All Development	\$504,743

This table is intended to serve as the Department's approved list of development projects; any requested changes are subject to re-programming requirements.

Interoperability.—Within the VistA modernization plan, interoperability of electronic health records between DOD and VA remains a paramount concern. Although DOD's recently awarded EHR acquisition contract and VA's VistA Evolution program will result in two separate and distinct electronic health records, the Departments are directed to ensure that the two systems are interoperable with each other and with the necessary entities outside their own health systems. To this end, VA is directed to make progress in achieving the recommendations from the GAO Report (GAO-15-530) for establishing outcome-oriented metrics and goals to achieving interoperability with DOD.

Appointment Scheduling Software.—In 2014, now substantiated reports began to emerge of the long delays that many veterans faced when trying to schedule medical appointments. Rightfully, much of the focus over the past year and a half has been on reforming the system to ensure that deliberate manipulation of wait time data is not tolerated and that better access is created for veterans seeking care. To that end, Congress passed VACAA, which among other things, provides funding for additional healthcare providers and infrastructure improvements, and made reforms to ensure accountability at the highest levels within VA. While these efforts are critical to reforming VA, it is noted that VA continues to struggle with modernizing its antiquated scheduling system. For more than a decade, VA has spent millions in an attempt to replace its current automated scheduling system, yet the Department has little to show for the effort. In several hearings over the past year and a half, testimony has been provided that highlights the critical need to develop and update the system, yet the Department has not provided a clear path forward with regard to this endeavor. In fact, it is disheartening that while wait times continue to plague VHA, the plan put forward to replace the system continues to change and decisions continue to be put off. Therefore, the agreement directs the Secretary to submit to the Committees not later than 30 days after enactment of this Act a report that clearly defines the plan of the Department to replace or modernize the legacy scheduling system, including the cost and schedule of the effort.

Expenditure Plan.—The agreement directs the Department to continue to provide an IT expenditure plan to the Committees not later than 30 days after enactment of this Act and on a monthly basis thereafter, as indicated in both the House and Senate reports. This plan should be in the same format as the table entitled “Information Technology Development Projects”.

Periodic Briefings.—The agreement requires VA to provide quarterly briefings to the Committees regarding schedule, milestones, obligations for VistA Evolution, and the six-month Project Management Accountability System delivery schedule, as directed in the Senate report. It also requires quarterly briefings from the DOD/VA Interagency Program Office on the EHR interoperability project and monthly updates to the Federal Chief Information Officer of the United States, as directed in the Senate report.

Data Dictionary.—The agreement directs the two Departments to make rapid progress on the congressionally-mandated requirement to use a data dictionary (unless or until a national standard exists) and commit funds from available resources to support the implementation of such a system.

Information Technology Procurement.—Concerns remain over VA’s lack of response to previous expressions of interest and concern regarding the pending Transformation Twenty-One Total Technology Next Generation (T4NG) procurement vehicle. As Committee reports have previously stated, this contract is of critical importance to VA’s mission, especially as VA moves to implement new initiatives provided in VACAA. Therefore, VA is urged to increase the number of contract awards on T4NG to a minimum of 24, distributed equally between small and large vendors.

Personal Identity Verification (PIV) Cards.—The Department is encouraged to participate in the government-wide effort to enhance security, including cybersecurity, through increasing the use of PIV cards by its employees. Funding is available in the Information Technology Systems account for this effort.

OFFICE OF INSPECTOR GENERAL

The agreement provides \$136,766,000 for the Office of Inspector General (OIG). Of the amount provided, not to exceed \$12,676,000 is available for obligation until September 30, 2017. The agreement includes section 239 which requires the OIG to provide work products to requesting Members and congressional committees and to post all final work products not later than three days after they are presented to the Secretary.

VA Antimicrobial Stewardship.—The OIG is directed to conduct a review not later than September 30, 2016, of efforts to implement Antimicrobial Stewardship Programs at VHA facilities, as described in the Senate report.

CONSTRUCTION, MAJOR PROJECTS

The agreement provides \$1,243,800,000 for Construction, Major Projects, which is \$100,000,000 above the budget request. The agreement makes this funding available for five years, except that \$80,000,000 is made available until expended.

Outside Project Management.—To ensure the Department will never again mishandle public funds on a construction project in the manner and to the degree the Denver VA Medical Center in Aurora, CO, was mismanaged, the agreement directs that \$649,000,000 for Veterans Health Administration major construction projects shall not be available until the Department enters into an agreement with a non-Department of Veterans Affairs Federal entity to serve as the design and/or construction agent for each major construction project with a total estimated cost of \$100,000,000 or above. The agreement makes the funding available for obligation for each project only after VA certifies that the agreement with the non-Department Federal entity is in effect for that project. The seven VHA projects affected by the fencing provision are in Alameda, CA; American Lake, WA; Livermore, CA; Long Beach, CA; Louisville, KY; San Francisco, CA; and West Los Angeles, CA.

The requirement to contract with an outside agent for major construction projects was also mandated in Section 502 of the Department of Veterans Affairs Expiring Authorities Act of 2015 (Public Law 114–58), enacted on September 30, 2015. The law contemplates that the non-Department Federal entity will provide management over all or part of the project design, acquisition, construction, and appropriate contract changes, and the Department will reimburse the entity for all appropriate costs associated with the provision of such services. Given the timing of the fiscal year 2016 budget request, the Department did not have the opportunity to request the necessary resources to support these costs. Recognizing that the Department does not have the resources for the cost of an outside manager of its large projects, the agreement includes

a line item of \$100,000,000 in order to make this expert outside oversight possible. For future budgets, VA is directed to establish a line item in the Major Construction account for such costs for all impacted projects.

The agreement funds the following items as requested in the budget submission:

Major Construction total	\$1,243,800

Budget Justification Documents.—With the involvement of an outside non-VA government entity managing VA's large-scale construction projects, there is an opportunity to develop improved information for the Committees about future projects. To further enhance the ability to conduct proper oversight of VA's major construction efforts, the Department is instructed to include additional information in its future budget requests. The format for this information should be developed with the input of the future managing agent, but it should resemble the format of the DOD Form 1391 and include all information from that form that is relevant to a VA project. Among the budget items that should be included are: total cost and a detailed description of any incremental funding or phasing of the project, including any severability; complete schedule of budget authority already received and needed in future years; detailed justification for any change between the prior year and current budget submission for the project; description of design versus construction costs for the project and identification of primary facil-

ity versus supporting facilities in the project; and the schedule for start of design, the point at which the design is 35 percent complete, the date that design is fully complete, and the date for start of construction.

Defense Health Agency Construction.—The Defense Health Agency (DHA) employs a comprehensive approach to hospital construction, working closely with the military services and monitoring the process as military hospitals are planned, built, maintained, and replaced. Military hospital construction projects are managed by the United States Army Corps of Engineers (USACE) or the Naval Facilities Engineering Command (NAVFAC), both of which have extensive experience and expertise in managing large construction projects. DHA consults with USACE and NAVFAC throughout the planning, design, and construction phases of a project to help manage project execution and change orders. Notably, DHA also accepts input from clinicians early on in the design process, but maintains control of the project after that point, which serves as a limiting factor on costly and time-consuming change orders. The close coordination among DHA, USACE, and NAVFAC enables DHA to more efficiently manage the design and construction of large-scale medical facilities, while containing cost and schedule overruns. Given the massive cost overruns and lengthy delays in recent VA hospital construction projects, the Department is directed to consult with DHA on best practices in hospital design and construction. Further, VA is directed to submit a report to the Committees not later than 180 days after enactment of this Act regarding steps taken to fulfill this directive.

Alternative Sources of Construction Funding.—For two years, the Committees have directed VA to work collaboratively with other executive branch agencies that have substantial construction portfolios, private sector contractors, and other non-governmental experts to explore the feasibility of new funding mechanisms for VA construction, such as private development lease-backs, and report to the Committees on these alternative mechanisms. The executive branch clearance process has apparently prevented the submission of this report. Therefore, the Department is directed to provide directly to the Committees not later than 10 days after enactment of this Act the draft report submitted to the Office of Management and Budget.

Medical Facilities Realignment.—Concern remains that VA medical care realignments are being approached in an ad hoc manner by each individual VISN rather than on a comprehensive basis by VA Central Office. Moreover, such an approach may lead to inequitable and inefficient distribution of medical resources throughout the nation. Before VA makes any decision to relocate, close, or diminish services at an existing facility, or proceeds with any such realignment already underway, consideration must be given to the impact such action would have on veterans, especially tribal veterans or veterans in rural or highly rural areas, Post-traumatic Stress Disorder Treatment Programs, and other Residential Rehabilitation Treatment Programs. VA must adhere to a clear and transparent process that engages all parties from the onset and is consistent with a national realignment strategy. In title II of division I of the Consolidated and Further Continuing Appropriations

Act, 2015 (P.L. 113–235), the Committees suspended the proposed realignment of services in VISN 23 until such a report with a national strategy was transmitted to the Committees. To date, that report has not been received. The Department is again directed to comply with the request for the report on the VISN 23 proposed realignment.

CONSTRUCTION, MINOR PROJECTS

The agreement provides \$406,200,000 for Construction, Minor Projects. The agreement makes this funding available for five years.

Expenditure Plan.—The agreement includes the directive for the Department to provide an expenditure plan not later than 30 days after enactment of this Act, as provided in the Senate report. This expenditure plan shall include a complete list of minor construction projects to be supported in fiscal year 2016. The plan shall be updated six months and twelve months after enactment.

Mobile Surgical Units.—The Department is directed to launch a pilot project to test the cost efficiency of leasing or purchasing mobile surgical units, as described in the Senate report.

GRANTS FOR CONSTRUCTION OF STATE EXTENDED CARE FACILITIES

The agreement provides \$120,000,000 for Grants for Construction of State Extended Care Facilities, to remain available until expended. In addition, section 211 permits the transfer of up to \$20,000,000 from Medical Services to this account for the purposes described in the Senate report.

The Department is urged to calculate the maximum bed numbers necessary to support peak veteran populations and develop contingency plans to address spikes and declines over the next ten years. The Department is also directed to keep the Committees apprised of its timeline to revise the regulation setting the maximum bed number for State homes in each State. The Office of Rural Health is directed to partner with State agencies to study the need for long-term care for veterans in rural or highly rural areas.

GRANTS FOR CONSTRUCTION OF VETERANS CEMETERIES

The agreement provides \$46,000,000 for Grants for Construction of Veterans Cemeteries, to remain available until expended.

AMERICAN BATTLE MONUMENTS COMMISSION

SALARIES AND EXPENSES

The agreement includes \$105,100,000 for Salaries and Expenses of the American Battle Monuments Commission (ABMC). The agreement provides an additional \$30,000,000 above the budget request to support large, planned projects such as the Manila Visitor Center, significant repairs and refurbishing at the Normandy American Cemetery and other locations, and interpretive work supporting the World War I centennial. In addition, the funds are to be used to provide ABMC sites with adequate and appropriate security, including, but not limited to, safe havens, gates, lighting, and closed-circuit cameras with remote access. Such projects should be subject to a risk-based analysis, and meet or exceed the requirements set by the Regional Security Office in each country. The funds provided over the budget request are not intended for regular operations and maintenance needs. Not later than 30 days after the date of enactment of this Act, the Secretary shall submit a spend plan detailing the use of these funds to the Committees.

SALARIES AND EXPENSES

The agreement provides \$79,516,000 for Salaries and Expenses, including an additional \$8,716,000 over the request to address deferred maintenance and infrastructure repairs at Arlington National Cemetery. Not later than 30 days after the date of enactment of this Act, the Executive Director shall submit a spend plan detailing the use of these funds to the Committees.

ARMED FORCES RETIREMENT HOME

TRUST FUND

The agreement includes \$64,300,000 for the Armed Forces Retirement Home (AFRH). The Trust Fund was established to support the operations and expenses of the AFRH, and is replenished from a variety of sources, including fines and forfeitures and Active

Duty Withholding. However, the largest source of funds, which is derived from fines and forfeitures, is diminishing. Annual outlays for the Fund have exceeded revenues since 2011, and in November 2015 DOD informed the Committees that, counter to the assumptions in the fiscal year 2016 budget request, the Trust Fund balances are not sufficient to support the expenses of AFRH; therefore, the Fund was projected to be insolvent by April 2016. As an emergency measure to assure solvency for AFRH, the agreement directs that, of the \$64,300,000 total, \$44,300,000 is to be derived from the Trust Fund and \$20,000,000 provided from the General Fund. However, the use of the General Fund is a not a long-term solution, and AFRH is directed to work with DOD to develop an approach that will replenish the Trust Fund in a sustainable, reliable manner and to present that approach to the Committees in the fiscal year 2017 budget request along with legislative proposals. In addition, AFRH is directed to regularly report to the Committees on efforts to stabilize the Trust Fund and to lease property at the Washington, D.C. facility.

AFRH Operations Improvements.—With the removal of the Administrator and the Chief of Healthcare Services at the Armed Forces Retirement Home in Gulfport, Mississippi (AFRH-G), it is expected replacements for these positions will be chosen thoughtfully and expeditiously, and the Committees will continue to monitor DOD's actions to remedy the problems that led to the removal of these individuals. Therefore, the Chief Operating Officer of the AFRH is directed to submit to the Committees not later than 90 days after enactment of this Act a report detailing the improvements made to AFRH-G operations to address these problems, to include, but not be limited to, actions taken to enhance healthcare staffing at the facility through improved human resources management and staff performance oversight.

ADMINISTRATIVE PROVISIONS

The agreement includes section 301 permitting funds to be provided to Arlington County, Virginia, for the relocation of a water main located on the Arlington National Cemetery property.

The agreement includes section 302 allowing Arlington National Cemetery to deposit and use funds derived from concessions.

The agreement includes section 410 prohibiting the use of funds in this Act for any contract where the contractor has not complied with E-Verify requirements.

In cases in which the House and Senate reports provide contradictory directives or instructions that are not addressed in this explanatory statement, such directives or instructions are negated. In lieu of the tables contained in the House and Senate reports, the tables contained in this explanatory statement shall guide departments, agencies, commissions, and other entities when allocating funds.

Section 7019 also includes limited authority to deviate from such specified amounts. In addition, the Act modifies section 7015 of the House and Senate bills to clarify reprogramming and notification requirements for funds made available by this Act. Proposed deviations from tables in title I of this explanatory statement are subject to section 7015.

The Department of State has an existing contract with a professional services firm to perform a cost-benefit analysis (CBA) of three different locations as options for locating the Foreign Affairs Security Training Center (FASTC). Completion and submission of the ongoing CBA would meet the requirement in paragraph (6)(E)(i).

The notification required by paragraph (6)(E)(ii) under this heading shall include a justification for any decision made by the Department of State to obligate funds for FASTC, including a plan for maintaining training at existing sites until FASTC becomes operational. Such justification shall also contain the reason for the site selected, including how the selected location is expected to improve training capacity and effectiveness commensurate with the estimated cost of constructing, operating, maintaining, and sustaining FASTC at such location, the projected cost of construction, and the timeline for completion. The Secretary of State, in coordination with other Department and agency heads, as appropriate, is directed to pursue options to reduce the impact of any job losses that may result at existing training sites when FASTC becomes operational.

The agreement does not include the funds requested in the fiscal year 2016 CBJ for new non-security positions, unless specifically noted herein.

As the current chair of the Arctic Council, the United States will serve as the host for the 2017 Arctic Ministerial Meeting. The Secretary of State is directed to ensure that such meeting is held as close to the United States Arctic region as possible and shall consult with the Congress on the selection of an appropriate location. The Act continues the authority in section 504 of Public Law 95-426 related to the Arctic region and supports the participation of American indigenous communities in the Arctic Council, as recommended in the Senate report.

The agreement includes \$12,000,000 for the Office to Monitor and Combat Trafficking in Persons for support of activities and di-

The agreement includes sufficient funds for an additional two positions for the Bureau of Intelligence and Research above the fiscal year 2015 enacted level, if authorized in fiscal year 2016.

The Secretary of State is directed to include projected funding levels for public diplomacy in the operating plan required by section 7076(a) of this Act.

Section 7034(k)(1) of this Act extends for one year the Western Hemisphere Travel Initiative surcharge authority, which is the same extension of authority included in prior years.

Section 7034(k)(7) of this Act continues the Foreign Service overseas pay comparability authority, but, as in prior years, prohibits implementation of the third phase of the authority.

Section 7034(l) of this Act provides limitations on the uses of the Department of State Working Capital Fund. The Secretary of State is directed to continue to include information on the Working Capital Fund in the operating plan required by section 7076(a) of this Act and reprogramming notifications for funds made available under this heading.

The Act includes a provision to allow support by the Export-Import Bank of the United States and OPIC for coal-fired and other power generation projects in International Development Association (IDA) and IDA-blend eligible countries. This provision is expected to increase affordable electricity, especially to those without current access to electricity, as well as to support increased exports from the United States and prevent the loss of United States jobs.

The following general provisions are new or substantively modified from the fiscal year 2015 Act (division J of Public Law 113–235):

Sec. 7004. Diplomatic Facilities (Modified)

The Act does not include the limitation and reporting requirement regarding the relocation project for the United States Embassy to the Holy See that was included in the House bill. The project met the conditions in prior Acts and was completed at the end of fiscal year 2015. Not later than 45 days after enactment of this Act, the Secretary of State is directed to submit to the Com-

mittees on Appropriations a final report on the project, including the cost, security improvements, and current staffing levels.

Sec. 7006. Local Guard Contracts (Modified)

The Act modifies the expanded one-year authority in the Senate bill to require notification of the appropriate congressional committees each time the Secretary of State exercises the authority for a United States diplomatic facility not deemed high threat and high risk. The notification required by this section shall include a justification for covered awards, an explanation of why the use of Lowest Price Technically Acceptable (LPTA) basis award is not appropriate, and an estimated cost comparison between awarding such contract on a best value basis as determined by a cost-technical tradeoff analysis instead of on the basis of LPTA.

Sec. 7009. Transfer Authority (Modified)

Sec. 7015. Notification Requirements (Modified)

The Act modifies subsection (a) to require notification when specified changes occur in programs, projects, and activities. Paragraph (4) applies to domestic and overseas bureaus, centers, and offices, and paragraph (5) is not intended to require a notification for duties performed by personal services contractors. The term "previously notified" includes changes that have been specifically noted in a CBJ.

Subsection (b) is modified to require notification of any reprogramming of funds that results from changes specified in this subsection.

Subsection (c) is modified by deleting the reference to Conflict Stabilization Operations, which is subject to the notification requirements in subsection (a) and (b), and by including Assistance for Europe, Eurasia and Central Asia.

Sec. 7019. Allocations (Modified)

The agreement modifies language in section 7019 of the House and Senate bills. Amounts specifically designated in tables in this explanatory statement for funds appropriated in titles III through V that are applicable to the 653(a) report shall be included in such report. The revised section 7019 also provides that funds appropriated in the Act under titles III through V shall be made available to meet specifically designated amounts in such tables and may only be deviated from by 5 percent. Deviations from specifically designated amounts in excess of 5 percent are only authorized for specific circumstances enumerated in the Act and are subject to prior consultation and notification.

For specifically designated amounts in tables that are also included in the 653(a) report, any deviation from such specifically designated amounts are not authorized until submission of such report. For example, a specifically designated amount of \$4,500,000 in the Economic Support Fund table in this explanatory statement for assistance for a country must be contained in the 653(a) report. However, after submission of such report, a deviation of up to 5 percent from \$4,500,000 is authorized. A deviation in excess of 5 percent may only take place to respond to specific circumstances enumerated in the Act and is subject to prior consultation and notification. For a specifically designated amount, such as \$7,000,000 for a program in the Development Assistance table, which would not be reflected in the 653(a) report, deviations authorized by sub-

section (b) may take place prior to submission of such report. Nothing in the revised section 7019 may be construed to authorize a deviation from a designated funding level in the Act containing a "shall".

Sec. 7028. Local Competition (Modified)

Sec. 7029. International Financial Institutions (Modified)

Sec. 7031. Financial Management and Budget Transparency (Modified)

Subsection (d) does not include the reference contained in the Senate bill to section 1504 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (Public Law 111–203; 124 Stat. 2220) because the Securities and Exchange Commission has not yet published final regulations under such law.

Sec. 7032. Democracy Programs (Modified)

The Act provides \$2,308,517,000 for democracy programs, of which \$312,963,000 is directed for Africa. The Act modifies language proposed in the Senate bill regarding appropriate mechanisms for democracy promotion.

To clarify and standardize the use of such mechanisms, subsection (f)(1) requires the development of guidelines for the use of contracts versus grants and cooperative agreements for the unique objectives of democracy programs. The Secretary of State and the USAID Administrator are directed to consider funds appropriated for democracy programs under the following headings: Development Assistance; Transition Initiatives; Complex Crises Fund; Economic Support Fund; Democracy Fund; Assistance for Europe, Eurasia and Central Asia; and International Narcotics Control and Law Enforcement. This subsection excludes NED and its core institutes.

The development of such guidelines is intended to assist democracy officers worldwide with designing programs that properly reflect the objectives of democracy programs and the purposes to be achieved, as well as assist contracting and agreement officers in selecting the most appropriate mechanism for democracy programs, consistent with sections 6303 through 6305 of title 31, United States Code. In preparing such guidelines, the Department of State and USAID should consider the roles and responsibilities of each agency in promoting democracy abroad, in accordance with the explanatory statement accompanying division J of Public Law 113–235.

Subsection (f)(2) requires USAID to continue to implement programs that recognize the unique benefits of using grants and cooperative agreements in the civil society and political competition and consensus building sectors, which include the following subsectors: civic participation; media freedom and information; political parties; consensus building processes; and election and political processes.

The Secretary of State is directed to submit the report required by subsection (g)(2) of the Senate bill (regarding training) in the manner described.

Not less than 30 days after enactment of this Act, the Secretary of State is directed to submit the report required under the explanatory statement accompanying division J of Public Law 113–235, regarding the coordination of democracy programs.

The agreement endorses the directive in the Senate report that NED, Department of State, and USAID regularly consult with one another regarding their democracy and human rights activities.

Sec. 7033. International Religious Freedom (New)

The agreement endorses language in the Senate report regarding programs to combat anti-Semitism abroad.

Sec. 7034. Special Provisions (Modified)

The Secretary of State is directed to include the appropriate congressional committees in the consultation requirement incorporated by reference in subsection (b)(3).

Subsection (b)(4) includes funding directives for forensic assistance. Not later than 90 days after enactment of this Act, the Secretary of State is directed to consult with the Committees on Appropriations on the use of such funds.

For the purposes of the report required by subsection (b)(7), the Secretary of State is directed to include the specific countries and military services that received assistance and the amounts and purposes of such assistance.

Subsection (d)(6) includes new, limited authority for the provision of innovation incentive awards, similar to that proposed in the Senate bill. The USAID Administrator is directed to report to the Committees on Appropriations every six months on the use of such authority.

In carrying out the PVS pilot program required by subsection (e), the Department of State and USAID are directed to include a direct vetting option that does not require prime awardees to collect, verify, or submit sub-awardee data. The Department of State and USAID should ensure that all individuals vetted through such pilot are able to obtain information on how data is used by the United States Government. The report following the completion of the PVS pilot program shall include recommendations for standardizing and streamlining vetting processes; consideration of exemptions for humanitarian and democracy assistance; analysis of privacy and data protection concerns; a description of consultations with governmental and nongovernmental stakeholders affected by the pilot program; and responses to concerns raised during such consultations. Prior to the completion of the evaluation and consultation with the Committees on Appropriations, USAID and the Department of State are directed to refrain from implementing similar vetting systems in countries outside the designated PVS pilot program unless required to respond to existing security threats. The Committees on Appropriations shall be consulted prior to beginning new vetting programs or implementing changes to the existing vetting programs.

Subsection (q) provides \$45,000,000 for the Small Grants Program and makes certain modifications to such program, including providing authority for additional administrative and oversight costs that may include increases in the number of Locally Employed Staff. The USAID Administrator is directed to continue the consultation and reporting requirements for the Small Grants Program in section 7080 of division J of Public Law 113–235 for fiscal year 2016.

Subsection (r) does not include the definition proposed in the Senate bill for the term “best practices” for the protection of whis-

tleblowers. For purposes of sections 7029, 7048, and 7058 of this Act, such term shall mean practices that are implemented consistent with terms specified in international conventions or adopted by international organizations such as the Organization for Economic Cooperation and Development and the Organization of American States.

Sec. 7041. Middle East and North Africa (Modified)

Colombia is continuing to dismantle illegal armed groups, taking effective steps to protect the rights of human rights defenders, journalists, trade unionists, and other social activists, and respecting the rights and territory of indigenous and Afro-Colombian communities.

The Secretary of State, in coordination with the Attorney General, is expected to continue to work with the Government of Colombia to extradite fugitives wanted by the United States, in accordance with applicable agreements between the two countries.

Such funds shall be made available on a cost-matching basis to the maximum extent practicable in order to sustain the commitment of the Government of Colombia to counternarcotics programs and are subject to the regular notification procedures of the Committees on Appropriations.

Haiti.—The agreement does not include language in the Senate bill regarding assistance provided to the Haitian National Police. (a) Notwithstanding any other provision of law, subject to the conditions listed under this section, for fiscal years 2016 and 2017, the Secretary of Housing and Urban Development may authorize the transfer of some or all project-based assistance, debt held or insured by the Secretary and statutorily required low-income and very low-income use restrictions if any, associated with one or more multifamily housing project or projects to another multifamily housing project or projects.

(b) PHASED TRANSFERS.—Transfers of project-based assistance under this section may be done in phases to accommodate the financing and other requirements related to rehabilitating or constructing the project or projects to which the assistance is transferred, to ensure that such project or projects meet the standards under subsection (c).

(c) The transfer authorized in subsection (a) is subject to the following conditions:

(1) NUMBER AND BEDROOM SIZE OF UNITS.—

(A) For occupied units in the transferring project: The number of low-income and very low-income units and the configuration (i.e., bedroom size) provided by the transferring project shall be no less than when transferred to the receiving project or projects and the net dollar amount of Federal assistance provided to the transferring project shall remain the same in the receiving project or projects.

(7) If either the transferring project or the receiving project or projects meets the condition specified in subsection (d)(2)(A), any lien on the receiving project resulting from additional financing obtained by the owner shall be subordinate to any FHA-insured mortgage lien transferred to, or placed on, such project by the Secretary, except that the Secretary may waive this requirement upon determination that such a waiver is necessary to facilitate the financing of acquisition, construction, and/or rehabilitation of the receiving project or projects.

(8) If the transferring project meets the requirements of subsection (d)(2), the owner or mortgagor of the receiving project or projects shall execute and record either a continuation of the existing use agreement or a new use agreement for the project where, in either case, any use restrictions in such agreement are of no lesser duration than the existing use restrictions.

(9) The transfer does not increase the cost (as defined in section 502 of the Congressional Budget Act of 1974, as amended) of any FHA-insured mortgage, except to the extent that appropriations are provided in advance for the amount of any such increased cost.

(D) seek judicial appointment of a receiver to manage the property and cure all project deficiencies or seek a judicial order of specific performance requiring the owner to cure all project deficiencies.

(c) The Secretary shall also take appropriate steps to ensure that project-based contracts remain in effect, subject to the exercise of contractual abatement remedies to assist relocation of tenants for imminent major threats to health and safety after written notice to and informed consent of the affected tenants and use of other remedies set forth above. To the extent the Secretary determines, in consultation with the tenants and the local government, that the property is not feasible for continued rental assistance payments under such section 8 or other programs, based on consideration of (1) the costs of rehabilitating and operating the property and all available Federal, State, and local resources, including rent adjustments under section 524 of the Multifamily Assisted Housing Reform and Affordability Act of 1997 ("MAHRAA") and (2) environmental conditions that cannot be remedied in a cost-effective fashion, the Secretary may, in consultation with the tenants of that property, contract for project-based rental assistance payments with an owner or owners of other existing housing properties, or provide other rental assistance. The Secretary shall report semi-annually on all properties covered by this section that are assessed through the Real Estate Assessment Center and have physical inspection scores of less than 30 or have consecutive physical inspection scores of less than 60. The report shall include:

The Secretary of Housing and Urban Development shall increase, pursuant to this section, the number of Moving to Work agencies authorized under section 204, title II, of the Departments of Veterans Affairs and Housing and Urban Development and Independent Agencies Appropriations Act, 1996 (Public Law 104–134; 110 Stat. 1321) by adding to the program 100 public housing agencies that are designated as high performing agencies under the Public Housing Assessment System (PHAS) or the Section Eight Management Assessment Program (SEMAP). No public housing agency shall be granted this designation through this section that administers in excess of 27,000 aggregate housing vouchers and public housing units. Of the agencies selected under this section, no less than 50 shall administer 1,000 or fewer aggregate housing voucher and public housing units, no less than 47 shall administer 1,001–6,000 aggregate housing voucher and public housing units, and no more than 3 shall administer 6,001–27,000 aggregate housing voucher and public housing units. Of the 100 agencies selected under this section, five shall be agencies with portfolio awards under the Rental Assistance Demonstration that meet the other requirements of this section, including current designations as high performing agencies or such designations held immediately prior to such portfolio awards. Selection of agencies under this section shall be based on ensuring the geographic diversity of Moving to Work agencies. In addition to the preceding selection criteria, agencies shall be designated by the Secretary over a 7-year period. The Secretary shall establish a research advisory committee which shall advise the Secretary with respect to specific policy proposals and methods of research and evaluation for the demonstration. The advisory committee shall include program and research experts from the Department, a fair representation of agencies with a Moving to Work designation, and independent subject matter experts in housing policy research. All agencies designated under this section shall be evaluated through rigorous research as determined by the Secretary, and shall provide information requested by the Secretary to support such oversight and evaluation, including the targeted policy changes. Research and evaluation shall be coordinated under the direction of the Secretary, and in consultation with the advisory committee, and findings shall be shared broadly. The Secretary shall consult the advisory committee with respect to policy changes that have proven successful and can be applied more broadly to all public housing agencies, and propose any necessary statutory changes. A regional Moving to Work agency may administer the assistance under sections 8 and 9 of the United States Housing Act of 1937 (42 U.S.C. 1437f and g) for the participating agencies within its region pursuant to the terms of its Moving to Work agreement with the Secretary. The Secretary may agree to extend the term of the agreement and to make any necessary changes to accommodate regionalization. A Moving to Work agency may be selected as a regional agency if the Secretary determines that unified administration of assistance under sections 8 and 9 by that agency across multiple jurisdictions will lead to efficiencies and to greater housing choice for low-income persons in the region. For purposes of this expansion, in addition to the provisions of the Act retained in section 204, section 8(r)(1) of the Act shall continue to apply unless the Secretary determines that waiver of this section is necessary to implement comprehensive rent reform and occupancy policies subject to evaluation by the Secretary, and the waiver contains, at a minimum, exceptions for requests to port due to employment, education, health and safety. No public housing agency granted this designation through this section shall receive more funding under sections 8 or 9 of the United States Housing Act of 1937 than it otherwise would have received absent this designation. The Secretary shall extend the current Moving to Work agreements of previously designated participating agencies until the end of each such agency's fiscal year 2028 under the same terms and conditions of such current agreements, except for any changes to such terms or conditions otherwise mutually agreed upon by the Secretary and any such agency and such extension agreements shall prohibit any statutory offset of any reserve balances equal to 4 months of operating expenses. Any such reserve balances that exceed such amount shall remain available to any such agency for all permissible purposes under such agreement unless subject to a statutory offset. In addition to other reporting requirements, all Moving to Work agencies shall report financial data to the Department of Housing and Urban Development as specified by the Secretary, so that the effect of Moving to Work policy changes can be measured.

SEC. 240. (a) **AUTHORITY.**—Subject to the conditions in subsection (d), the Secretary of Housing and Urban Development may author-

(4) the owner of the transferring housing shall consult with the disabled residents in the transferring housing about any proposed transfer under this section and shall notify the residents of the transferring housing who are eligible for assistance to be provided in the receiving housing that they shall not be required to vacate the transferring housing until the receiving housing is available for occupancy;

(5) the receiving housing shall meet or exceed applicable physical standards established or adopted by the Secretary; and

(6) if the receiving housing has a mortgage insured under title II of the National Housing Act, any lien on the receiving housing resulting from additional financing shall be subordinate to any federally insured mortgage lien transferred to, or placed on, such housing, except that the Secretary may waive this requirement upon determination that such a waiver is necessary to facilitate the financing of acquisition, construction, or rehabilitation of the receiving housing.

(1) The Neighborhood Reinvestment Corporation (NRC) shall make grants to counseling intermediaries approved by the Department of Housing and Urban Development (HUD) (with match to be determined by NRC based on affordability and the economic conditions of an area; a match also may be waived by NRC based on the aforementioned conditions) to provide mortgage foreclosure mitigation assistance primarily to States and areas with high rates of defaults and foreclosures to help eliminate the default and foreclosure of mortgages of owner-occupied single-family homes that are at risk of such foreclosure. Other than areas with high rates of defaults and foreclosures, grants may also be provided to approved counseling intermediaries based on a geographic analysis of the Nation by NRC which determines where there is a prevalence of mortgages that are risky and likely to fail, including any trends for mortgages that are likely to default and face foreclosure. A State Housing Finance Agency may also be eligible where the State Housing Finance Agency meets all the requirements under this paragraph. A HUD-approved counseling intermediary shall meet certain mortgage foreclosure mitigation assistance counseling requirements, as determined by NRC, and shall be approved by HUD or NRC as meeting these requirements.

(2) Mortgage foreclosure mitigation assistance shall only be made available to homeowners of owner-occupied homes with

No funds made available under this paragraph may be provided directly to lenders or homeowners to discharge outstanding mortgage balances or for any other direct debt reduction payments.

(3) The use of mortgage foreclosure mitigation assistance by approved counseling intermediaries and State Housing Finance Agencies shall involve a reasonable analysis of the borrower's financial situation, an evaluation of the current value of the property that is subject to the mortgage, counseling regarding the assumption of the mortgage by another non-Federal party, counseling regarding the possible purchase of the mortgage by a non-Federal third party, counseling and advice of all likely restructuring and refinancing strategies or the approval of a work-out strategy by all interested parties.

(4) NRC may provide up to 15 percent of the total funds under this paragraph to its own charter members with expertise in foreclosure prevention counseling, subject to a certification by NRC that the procedures for selection do not consist of any procedures or activities that could be construed as a conflict of interest or have the appearance of impropriety.

(5) HUD-approved counseling entities and State Housing Finance Agencies receiving funds under this paragraph shall have demonstrated experience in successfully working with financial institutions as well as borrowers facing default, delinquency and foreclosure as well as documented counseling capacity, outreach capacity, past successful performance and positive outcomes with documented counseling plans (including post mortgage foreclosure mitigation counseling), loan workout agreements and loan modification agreements. NRC may use other criteria to demonstrate capacity in underserved areas.

(6) Of the total amount made available under this paragraph, up to \$2,000,000 may be made available to build the mortgage foreclosure and default mitigation counseling capacity of counseling intermediaries through NRC training courses with HUD-approved counseling intermediaries and their partners, except that private financial institutions that participate in NRC training shall pay market rates for such training.

(7) Of the total amount made available under this paragraph, up to 5 percent may be used for associated administrative expenses for NRC to carry out activities provided under this section.

(8) Mortgage foreclosure mitigation assistance grants may include a budget for outreach and advertising, and training, as determined by NRC.

SEC. 408. None of the funds made available in this Act may be transferred to any department, agency, or instrumentality of the United States Government, except pursuant to a transfer made by, or transfer authority provided in, this Act or any other appropriations Act.

DIVISION L—TRANSPORTATION, HOUSING AND URBAN DEVELOPMENT, AND RELATED AGENCIES APPROPRIATIONS ACT, 2016

CONGRESSIONAL DIRECTIVES

The language and allocations set forth in the House report (House Report 114–129) and the Senate report (Senate Report 114–75) should be complied with unless specifically addressed to the contrary in this division or explanatory statement. Report language included by the House, which is not changed by this explanatory statement, and the Senate report language, which is not changed by this explanatory statement, is a result of the 2016 appropriations agreement. The explanatory statement, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein. In cases where the House or the Senate has directed the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations. The Department of Transportation and the Department of Housing and Urban Development are directed to notify the House and Senate Committees on Appropriations seven days prior to the announcement of a new program or authority. Any reprogramming requests must be submitted to the House and Senate Committees on Appropriations no later than June 30, 2016.

TITLE I—DEPARTMENT OF TRANSPORTATION

OFFICE OF THE SECRETARY

SALARIES AND EXPENSES

The agreement provides \$108,750,000 for the salaries and expenses of the Office of the Secretary. The agreement includes funding by office as specified below, and offices are to manage staffing levels within the amounts provided. Funds are available for transfer between all offices under certain conditions.

Immediate Office of the Secretary	\$2,734,000
Immediate Office of the Deputy Secretary	1,025,000
Office of the General Counsel	20,609,000
Office of the Under Secretary for Transportation Policy	9,941,000
Office of the Assistant Secretary for Budget and Programs	13,697,000
Office of the Assistant Secretary for Government Affairs	2,546,000
Office of the Assistant Secretary for Administration	25,925,000

¹ The Explanatory Statement was submitted for printing in the Congressional Record on December 17, 2015 by Mr. Rogers of Kentucky, Chairman of the House Committee on Appropriations. The Statement appears on pages H9693–H10471 of Books II and III.

Office of the Assistant Secretary for Public Affairs	2,029,000
Office of the Executive Secretariat	1,737,000
Office of Small and Disadvantaged Business Utilization	1,434,000
Office of Intelligence, Security, and Emergency Response	10,793,000
Office of the Chief Information Officer	16,280,000

Comprehensive truck size and weight limits study.—The agreement includes a provision that requires the Secretary to transmit to Congress the final Comprehensive Truck Size and Weight Limits Study, as mandated by MAP–21, within 60 days of enactment of this Act. The Department of Transportation released a Technical Report in June which examined six alternate truck configurations. The Transportation Research Board (TRB) has acknowledged that the Department’s efforts to conduct the study are hampered by data limitations; however, according to the TRB peer-review committee, the technical report lacks a consistent and complete quantitative summary of the evaluations of the alternative configuration scenarios and presents impact estimates using inconsistent units of measure which prevents the reader from weighing costs, benefits, and trade-offs. The TRB committee notes possible instances of bias, assumptions, and possible misinterpretation of data in the report. The Committees view the Technical Report, particularly the Department’s misrepresentation of the data limitations, as an unsatisfactory document that makes no progress on meeting the Department’s responsibilities under the MAP–21 mandate.

RESEARCH AND TECHNOLOGY

The agreement provides \$13,000,000 for the Office of the Assistant Secretary for Research and Technology.

NATIONAL INFRASTRUCTURE INVESTMENTS

The agreement provides \$500,000,000 for capital investments in surface transportation infrastructure, commonly known as the “TIGER” program. Funds are available for highway and bridge projects; transit projects; passenger and freight rail projects; and port, inland port, and land ports of entry projects. The Secretary is reminded to consider worthy transportation projects in suburban areas when meeting geographical requirements. The agreement does not include funds for planning activities.

FINANCIAL MANAGEMENT CAPITAL

The agreement provides \$5,000,000 for the financial management capital program.

CYBER SECURITY INITIATIVES

The agreement provides \$8,000,000 for departmental cyber security initiatives.

OFFICE OF CIVIL RIGHTS

The agreement provides \$9,678,000 for the Office of Civil Rights.

TRANSPORTATION PLANNING, RESEARCH AND DEVELOPMENT

The agreement provides \$8,500,000 for planning, research and development activities, of which \$2,500,000 is for the establishment of an Interagency Infrastructure Permitting Improvement Center

(IIPIC). Bill language is included to allow for the transfer of funds to this account from other Federal agencies utilizing the services of the IIPIC.

WORKING CAPITAL FUND

The agreement limits expenditures for working capital fund activities to \$190,039,000.

MINORITY BUSINESS RESOURCE CENTER PROGRAM

The agreement provides a total appropriation of \$933,000 for the minority business center program: \$336,000 for the cost of guaranteed loans and \$597,000 for the administrative expenses of the program. The bill limits loans to \$18,367,000.

MINORITY BUSINESS OUTREACH

The agreement provides \$3,084,000 for minority business outreach.

PAYMENTS TO AIR CARRIERS

(AIRPORT AND AIRWAY TRUST FUND)

The agreement provides \$175,000,000 for payments to air carriers. In addition to these funds, the program will receive approximately \$108,000,000 in overflight fees pursuant to the FAA Modernization and Reform Act of 2012.

The agreement includes a provision that allows amounts authorized for the essential air service program to be immediately available from resources of the Federal Aviation Administration and allows such resources to be reimbursed from collected overflight fees.

ADMINISTRATIVE PROVISIONS—OFFICE OF THE SECRETARY OF TRANSPORTATION

Section 101 prohibits funds available to the Department of Transportation from being obligated for the Office of the Secretary of Transportation to approve assessments or reimbursable agreements pertaining to funds appropriated to the modal administrations, except for activities underway on the date of enactment of his Act, unless such assessments or agreements have completed the normal reprogramming process for Congressional notification.

Section 102 allows the Department of Transportation Working Capital Fund to provide payments in advance to vendors for the Federal transit pass fringe benefit program.

Section 103 requires the Secretary of Transportation to post on the Web a schedule of all Credit Council meetings, agendas, and meeting minutes.

Section 104 allows the Department of Transportation Working Capital Fund to provide full or partial payments in advance and accept reimbursements from Federal agencies for transit benefit distribution services.

FEDERAL AVIATION ADMINISTRATION
OPERATIONS
(AIRPORT AND AIRWAY TRUST FUND)

The agreement includes \$9,909,724,000 for the operations of the Federal Aviation Administration (FAA). Of the total amount provided, \$7,922,000,000 is to be derived from the airport and airway trust fund. Funds are distributed in the bill by budget activity.

The following table compares the agreement to the levels proposed in the budget request by activity:

	Budget Request	Agreement
Air Traffic Organization	\$7,505,293,000	\$7,505,293,000
Aviation Safety	1,258,411,000	1,258,411,000
Commercial Space Transportation	18,144,000	17,800,000
Finance and management	764,621,000	760,500,000
NextGen and operations planning	60,582,000	60,089,000
Staff offices	207,099,000	206,751,000
Security and Hazardous Materials Safety	100,880,000	100,880,000
Total	\$9,915,000,000	\$9,909,724,000

Operations funding.—The agreement includes the full budget request for the air traffic organization, aviation safety, and security and hazardous materials safety. The agreement includes reductions of less than two percent from commercial space activities, and less than one percent from finance and management, NextGen planning, and staff offices. These reductions are taken without prejudice. The agreement funds overall FAA operations at 99.95 percent of the budget request to ensure the highest possible level of air traffic services, for both general and commercial aviation. The agreement also fully supports FAA's efforts to hire over 1,500 controllers in fiscal year 2016, and the FAA is directed to make the investments necessary to enhance its controller hiring capabilities to meet its fiscal year 2016 hiring goals.

Contract towers.—The agreement provides \$154,400,000 for the contract tower program.

Aviation noise impacts.—During floor consideration of H.R. 2577, a variety of amendments were offered in both chambers related to FAA air traffic procedures and, in particular, the noise that those procedures create in neighborhood communities. FAA must take a more proactive role in engaging communities that are impacted by these new departure and arrival procedures, especially when the agency chooses to utilize a categorical exclusion as part of the environmental review process. The agreement does not include provisions related to specific communities, but rather includes broad language requiring FAA to update its community involvement manual and implementation plan. Improved community outreach is one part of the solution. Investments in new technologies that will reduce noise and other environmental impacts caused by aircraft are equally important. In that regard, the agreement continues to include robust funding for the Continuous Lower Energy, Emissions and Noise (CLEEN) program.

Organization delegation authorization.—The FAA is directed to continue its efforts to more fully utilize organization designation

authorization (ODA) for aircraft certification processes, while improving ODA risk-based oversight and workforce training. FAA is directed to provide a progress report on its improvements to ODA processes no later than 180 days after enactment.

Pathfinder program/commercial airports.—The agreement supports FAA’s Pathfinder program and encourages the FAA to expand the program to include a commercial airport, in conjunction with the UAS center for excellence as evaluator. A letter report is requested on findings related to such expansion no later than 180 days after enactment.
