CLERK'S NOTE

This committee print provides a compilation of the enacted text and applicable explanatory material for the Omnibus Appropriations Act, 2009 (H.R. 1105; P.L. 111–8).

This Act, which consists of the nine regular annual appropriations bills for fiscal year 2009 that were outstanding from the prior congress, as well as further provisions related to Homeland Security and other matters, is the product of negotiations between the House and Senate Appropriations Committees that took place before its introduction. The compromise measure was introduced as an original bill by Chairman Obey on February 23, 2009 and was passed by the House without amendment two days later.¹ The Senate began consideration on March 2, and passed the bill without amendment by voice vote on March 10.² The President signed the legislation on March 11, 2009 and it became Public Law 111–8.

Because the measure was pre-negotiated and the final product introduced as an original bill, there is no conference report and no “joint explanatory statement of the managers” for H.R. 1105. Instead, as directed by the House of Representatives,³ Chairman Obey submitted an Explanatory Statement in the Congressional Record of February 23, 2009.⁴ Section 4 of the Act provides that this Explanatory Statement “shall have the same effect with respect to the allocation of funds and implementation of this Act as if it were a joint explanatory statement of a committee of conference.” The text of the Explanatory Statement is reproduced in full in this committee print.

For the convenience of users, this print is organized according to the ten divisions of the Act, with the legislative text of each division paired with the applicable portion of the Explanatory Statement.

¹Vote on passage: 245 yeas–178 nays (Roll No. 86), February 25, 2009.

²Senate vote to invoke cloture on the bill: 62 yeas–35 nays (Record vote no. 96).

³H. Res. 92, section 2 (as amended by section 2 of H. Res. 108).

⁴The Statement appears on pages H1653–H2599 in the February 23 *Congressional Record*.

[CLERK'S NOTE: Reproduced below is the material relating to division F contained in the "Explanatory Statement Submitted by Mr. Obey, Chairman of the House Committee on Appropriations, Regarding H.R. 1105, Omnibus Appropriations Act, 2009"²]

DIVISION F—LABOR, HEALTH AND HUMAN SERVICES, AND
EDUCATION, AND RELATED AGENCIES APPROPRIATIONS,
2009

Following is an explanation of the effects of this division (hereafter referred to as the "bill"). Funds for the individual programs and activities within the accounts in this Act are displayed in the detailed table at the end of the explanatory statement for this Act. Funding levels that are not displayed in the detailed table are identified in this explanatory statement.

Section 516 sets forth the reprogramming requirements and limitations for the Departments and agencies funded through this Act, including the requirement to make a written request to the Committees on Appropriations of the House of Representatives and the Senate 15 days prior to reprogramming, or to the announcement of intent to reprogram, funds in excess of 10 percent, or \$500,000, whichever is less, between programs, projects and activities.

Departments and agencies funded in this bill shall submit statements on the effect of this Act to the Appropriations Committees within 45 days of enactment of this Act, pursuant to section 518. The Committees on Appropriations of the House of Representatives and the Senate expect that these statements will provide sufficient detail to show the allocation of funds among programs, projects and activities, particularly in accounts where the final appropriation is different than that of the budget request. Further, these statements shall also include the effect of the appropriation on any new activities or major initiatives discussed in the budget justifications accompanying the fiscal year 2009 budget.

TITLE I—DEPARTMENT OF LABOR

EMPLOYMENT AND TRAINING ADMINISTRATION

TRAINING AND EMPLOYMENT SERVICES

The bill includes \$3,626,448,000 for Training and Employment Services, which is \$50,180,000 above the fiscal year 2008 funding level and \$565,525,000 above the budget request.

The bill continues the funding for Community-Based Job Training grants within the Dislocated Worker Assistance National Re-

²This Explanatory Statement was submitted for printing in the *Congressional Record* on February 23, 2009, prior to House consideration of the bill and as directed by the House of Representatives in section 2 of H. Res. 92 (as amended by section 2 of H. Res. 108). The Statement appears in the February 23 *Congressional Record*, beginning on page H1653.

serve. Within the funds provided for the Community-Based Job Training Initiative (CBJTI), the Department of Labor (DOL) should provide priority consideration to worker training programs for the energy efficiency and renewable energy industries specified in the Green Jobs Act of 2007. A similar priority should be established in awarding competitive grants for high growth industries. Consultation with the Committees on Appropriations of the House of Representatives and the Senate prior to the issuance of CBJTI and high growth industry solicitations of grant applications is requested.

The amount provided for YouthBuild will allow for the selection of additional YouthBuild grantees. The Department is encouraged to incorporate a priority for use of green building techniques in its competitive selection of additional YouthBuild programs. The Department also should explore ways to expand assistance to YouthBuild programs to enhance their ability to teach green building techniques, to prepare youth for employment in green construction while increasing the energy efficiency of local housing. The Department should provide recommendations to the Committees on Appropriations of the House of Representatives and the Senate on how this type of assistance could be expanded beyond the current DOL grantees.

The bill includes new language that will allow YouthBuild grantees to use grant awards for program year 2009, as well as remaining funds available in program year 2008, to serve individuals who have dropped out of high school and reenrolled in an alternative school, if that reenrollment is part of a sequential service strategy. This is the same integrated approach used when the program was administered by the Department of Housing and Urban Development.

Within the amount provided for Pilots, Demonstrations and Research, the bill designates \$5,000,000 for the continuation of the program of competitive grants to address the employment and training needs of young parents.

Within the amount provided for Pilots, Demonstrations and Research, the bill includes \$41,324,000 for the following projects in the following amounts:

Within the amount provided for youthful offender activities, \$42,900,000 is available to continue a school mentoring initiative that began in program year 2006. These funds are intended to be used to implement mentoring strategies that integrate educational and employment interventions and prevent youth violence. Within this amount, \$7,900,000 shall be used to continue those mentoring grants made with program year 2008 funds, along with the technical assistance that supports these grantees. This amount represents a down payment for continuation costs of those grants made with 2008 funds. The balance of continuation costs associated with those 2008 grants will be provided in fiscal year 2010. Bill language requires \$35,000,000 under the school mentoring initiative to be used for additional grants, and associated technical assistance, to implement mentoring strategies in schools identified as persistently dangerous.

Also within the amount provided for youthful offender activities, \$45,600,000 is available for other activities to support the employment needs of youthful offenders so as to prevent them from re-entering the criminal justice system. Of this amount, \$20,000,000 is included for a program of new competitive awards for activities that prepare young ex-offenders and school dropouts for employment. This competition should address the needs of minority communities, and shall include opportunities for national and regional intermediaries with demonstrated capacity to serve young offenders to apply. Funds not used for this new competition are available for continuation funding for existing grantees.

FEDERAL UNEMPLOYMENT BENEFITS AND ALLOWANCES

It is expected that a portion of the funds provided will be used for technology-based overpayment prevention, detection, and collection infrastructure investments in support of these activities. The bill also contains new language allowing the Secretary of Labor, at the request of a State participating in a consortium, to reallocate funds under Title III of the Social Security Act to other consortium members to carry out activities that benefit the unemployment compensation law of the requesting State.

Within the total for Employment Service National Activities, \$18,520,000 is provided for the administration of the Work Opportunity Tax Credit. Funds for Foreign Labor Certification activities are now consolidated and separately identified in this account. Previously, funds were provided in this account and in the Employment and Training Administration Program Administration account. Due to concern about the Department's new requirement for State Workforce Agencies to assume the responsibility for employment verification in the H-2A agricultural workers program, the Secretary is directed to provide a report to the Committees on Appropriations of the House of Representatives and the Senate within 90 days of the enactment of this Act on the costs to States and legal basis for imposing this responsibility on a mandatory basis.

Also within the total, not less than \$2,500,000 is provided for competitive grants to State agencies to identify job openings and skill requirements for the energy efficiency and renewable energy industries and to refer workers to job openings and training programs as outlined in 171(e)(2)(C) of the Workforce Investment Act.

The Wage and Hour Division may use contracts with individuals or entities with the relevant experience to jump start the process. Funds not needed for this purpose, if authorizing legislation is not enacted, should be used for additional investigations as outlined in the budget request.

The bill includes a rescission of \$97,000,000 in unobligated funds collected pursuant to section 286(v) of the Immigration and Nationality Act. Sufficient funds will remain to ensure that the Department of Labor will be able to continue its enforcement activities under the current legislative authority.

The Department should use the increase above the fiscal year 2008 funding level to begin rebuilding OSHA's enforcement capacity and to increase the pace of standard setting. An important component of this mission is to enhance enforcement and oversight of injury and illness recordkeeping to ensure complete and accurate recording and reporting by employers. OSHA should use \$1,000,000 of the funds provided above the request for a recordkeeping enforcement initiative on injury and illness reporting, addressing the apparent lack of completeness of the OSHA Log of Work-related Injuries and Illnesses. The Department shall provide a letter report on OSHA's current and planned activities in this area to the Committees on Appropriations of the House of Representatives and the Senate not later than 90 days after enactment of this Act.

In each of these areas and others specifically required by the MINER Act, the Department shall submit an overall operating plan within 60 days of enactment of this Act, and quarterly progress reports thereafter, to the Committees on Appropriations of the House of Representatives and the Senate.

Within the funds provided, \$500,000 shall be used to expand a structured internship program for undergraduate college students with disabilities.

DEPARTMENTAL MANAGEMENT

Basic Grants	20,000,000	– 1,750,000	+20,000,000
Promotion of worker rights in countries with trade preference programs	6,500,000	+1,777,000	+6,500,000

ILAB shall ensure that these funds are spent effectively in the effort to reduce the worst forms of child labor.

The bill also provides \$20,000,000 to continue the program of basic education grants in countries where the growing number of children removed from abusive and exploitative child labor need access to basic education. The Department shall continue to work with the governments of host countries to eliminate school fees that create a barrier to education.

The bill also provides \$6,500,000 to continue support for the implementation of model programs designed to address worker rights in countries with which the United States has trade preference programs. Within this amount, \$2,500,000 is included to expand the existing cooperative agreement for the development of an effective system of monitoring and transparent public reporting on the adherence to, and enforcement of, worker rights in the Republic of Haiti. These additional funds will allow the implementation of an effective monitoring program in factories, including the training of labor inspectors, and reflect the support for a multi-year funding commitment to improve the working conditions in Haiti's garment industry and increase compliance with core international labor standards. Cost sharing from Haiti shall continue to support this effort.

Within the funds provided for research, policy, reporting and administration, sufficient funds are included to expand the competitively awarded contract for oversight of public and private initiatives to eliminate the worst forms of child labor in the cocoa sector in Cote d'Ivoire and Ghana. These funds are intended to support the assessment of the implementation of the child labor monitoring system by industry covering 100 percent of the cocoa growing areas in Cote d'Ivoire and Ghana and other objectives of the current contract where full assessment has not been possible due to the delay in the implementation of a transparent certification system. These funds will support continued annual reporting through 2010, which should include a programmatic review of industry and national government efforts to remediate the worst forms of child labor and adult forced labor in the cocoa supply chain. The review should also include recommendations for the frequency of data collection needed in the field to accurately report on the incidence of the worst

forms of child labor and adult forced labor in order to measure the decline over time of these abusive labor practices.

Also within research, policy, reporting and administration, not more than \$1,500,000 shall be available for research activities authorized by the William Wilberforce Trafficking Victims Protection Reauthorization Act of 2008, as proposed in the budget request.

Sufficient funding within research, policy, reporting and administration also is included for the effective oversight, monitoring, audit and evaluation of ILAB's project portfolio to ensure that taxpayer dollars are well spent in the effort to eliminate exploitive child labor, increase respect for and compliance with the fundamental rights of workers, and meet ILAB's other mandates and responsibilities. ILAB shall ensure that funding in this bill is spent effectively in carrying out its mission and achieving its performance goals and objectives.

Legal Services

The Office of the Solicitor shall support no less than an increase of five full-time equivalents for enforcement support for the Mine Safety and Health Administration.

Women's Bureau

Within the funds provided for the Women's Bureau are sufficient resources for the expansion of a competitive award designed to support local women's employment and training programs throughout the United States. These funds shall be used to continue to support technical assistance, online and toll-free referral services, and other activities that advance unemployed and underemployed women in the workforce.

Minority unemployment

The Secretary of Labor shall provide a report to the Committees on Appropriations of the House of Representatives and the Senate by July 1, 2009 detailing the actions that the Department will take under existing authorities to ensure that its programs and policies are oriented to reduce the disparities in unemployment rates across racial and ethnic groups.

Greenhouse gas emissions

The Secretary of Labor is directed to provide the Committees on Appropriations of the House of Representatives and the Senate a detailed inventory of the Department's greenhouse gas emissions, and a plan to reduce these emissions, by December 31, 2009.

OFFICE OF JOB CORPS

The bill provides \$1,683,938,000 for the Office of Job Corps, which is \$73,432,000 above the fiscal year 2008 funding level and \$119,239,000 above the budget request.

The funds provided for Job Corps Operations are intended to support the operations of the 122 current Job Corps centers, as well as allow two new centers, in Florida and Wisconsin, to begin operations, as scheduled, in program year 2009. The Department also should work to reverse the erosion in training offerings that has occurred over the past two years. In restoring career training

slots, priority should be given to matching training to labor market needs, including growth sectors, such as health care, and to prepare students for careers that respond to the growing demand for energy-efficient building techniques and other “green” jobs. Within the funds provided for Job Corps renovation and construction are sufficient funds to continue the development of three new Job Corps centers, with the intention that the timelines for accepting students at these new centers—New Hampshire in September 2010, Iowa in November 2010 and Wyoming in February 2011 will be met.

The Department shall conduct a capital assessment of the Harpers Ferry Job Corps Civilian Conservation Center in Harpers Ferry, West Virginia, and report the results of this assessment to the Committees on Appropriations of the House of Representatives and the Senate not later than March 31, 2009.

VETERANS EMPLOYMENT AND TRAINING

The bill includes \$239,439,000 for Veterans Employment and Training, which is \$11,343,000 above the fiscal year 2008 funding level and \$1,000,000 above the request.

The Department of Labor should work, in coordination with the Departments of Housing and Urban Development and Veterans Affairs, to address the needs of homeless veterans, including exploring new approaches for preventing additional veterans from becoming homeless.

OFFICE OF INSPECTOR GENERAL

The bill includes \$82,141,000 for the Office of Inspector General, which is \$7,751,000 above the fiscal year 2008 funding level and the same as the request.

GENERAL PROVISIONS

Sec. 101. The bill continues a provision that prohibits the use of funds for the Job Corps program to pay the salary of any individual, either as direct costs or any pro-rata as an indirect cost, at a rate in excess of Executive Level I.

(TRANSFER OF FUNDS)

Sec. 102. The bill continues a provision limiting the authority to transfer funds between a program, project, or activity for emergency needs and requiring a 15 day advance notification of any such request.

Sec. 103. The bill continues a prohibition on the purchase of goods that are, in whole or in part, produced by indentured children.

Sec. 104. The bill modifies a provision requiring the Secretary of Labor to issue a monthly transit subsidy at the full amount of \$115 for eligible employees in the National Capital Region.

Sec. 105. The bill continues a provision prohibiting the obligation of funds for demonstration, pilot, multiservice, research and multistate projects under section 171 of the Workforce Investment Act prior to the submission of a report on the planned use of such funds.

Sec. 106. The bill continues a provision authorizing such sums as may be necessary to the Denali Commission to conduct job training where Denali Commission projects will be constructed.

Sec. 107. The bill continues a provision that prohibits the use of the funds available to the Department under section 414(c) of the American Competitiveness and Workforce Improvement Act for new grants for purposes other than training in the occupations and industries for which employers are using the visas to hire foreign workers that generate these funds.

Sec. 108. The bill continues a provision prohibiting Community-Based Job Training grants and grants authorized under section 414(c) of the American Competitiveness and Workforce Improvement Act from being awarded on a non-competitive basis.

Sec. 109. The bill continues a provision requiring that the Secretary of Labor take no action to amend the definition established in 20 CFR 667.220 for functions and activities under title I of the Workforce Investment Act of 1998 or to modify the procedure for designation of local areas as specified in that Act until such time as legislation reauthorizing the Act is enacted.

Sec. 110. The bill continues a provision that prohibits the use of funds to finalize or implement regulations under the Workforce Investment Act of 1998 (WIA), the Wagner-Peyser Act of 1933, or the Trade Adjustment Assistance Reform Act of 2002 (TAA), until such time as the WIA or TAA legislation is reauthorized.

Sec. 111. The bill continues a provision that prohibits grantees from using funds appropriated for the Employment and Training Administration to pay the salary and bonuses of an individual at a rate in excess of Executive Level II.

TITLE II—DEPARTMENT OF HEALTH AND HUMAN SERVICES

HEALTH RESOURCES AND SERVICES ADMINISTRATION

HEALTH RESOURCES AND SERVICES

The bill includes \$7,259,436,000 for health resources and services, of which \$7,234,436,000 is provided as budget authority and \$25,000,000 is made available from the Public Health Service policy evaluation set-aside, which is \$378,245,000 above the fiscal year 2008 level and \$1,369,925,000 above the budget request.

The bill includes language identifying \$56,000,000 for base grant adjustments for existing community health centers.

The bill includes language designating \$44,055,000 for expenses associated with extending Federal Tort Claims Act protection to practitioners in community health centers.

The bill includes language providing \$1,886,873,000 for Parts A and B of the Ryan White HIV/AIDS Treatment Modernization Act, to be available through September 30, 2011.

The bill includes language similar to that contained in the fiscal year 2008 bill that limits 2008 program year reductions in Ryan White Part A grants for metropolitan areas to 6.3 percent and for transitional areas to 11.3 percent by providing \$10,853,000 for supplemental grants for fiscal year 2009.

The bill includes language setting aside \$92,551,000 for Special Projects of Regional and National Significance (SPRANS) and \$10,400,000 for Community Integrated Service Systems (CISS) within the Maternal and Child Health Block Grant. Allocations to State grants are increased by \$2,590,000 compared to fiscal year 2008. The bill assumes the following set-asides within SPRANS:

SPRANS Set-asides budget activity	FY 2009 Bill	FY 2009 Bill compared to—	
		FY 2008	FY 2009 Budget request
Oral health	\$4,859,000	+\$141,000	+\$4,859,000
Epilepsy	3,416,000	+585,000	+3,416,000
Sickle cell	3,774,000	0	+3,774,000
First-time motherhood	4,956,000	+43,000	+4,956,000

Subtotal	18,995,000	— 1,610,000	+18,995,000

Within this amount, Doula Grants shall be allocated evenly among urban and rural settings. Urban settings should be focused on supporting and expanding community-based activities. Rural settings should emphasize breastfeeding initiation and retention.

In addition to the SPRANS funding above for oral health activities, an additional \$10,000,000 is provided for Dental Health Improvement Act State Grants (authorized under section 340G of the Public Health Service Act) within Allied Health.

Funding for the Heritable Disorders Newborn Screening Program is provided under the authority of the Newborn Screening Saves Lives Act of 2008 rather than as a SPRANS set-aside, as in prior years. The funding total also includes \$5,031,000 for primary genetics and newborn screening activities that were previously supported in SPRANS base activities.

The bill includes language that identifies not less than \$5,000,000 for General Dentistry Programs, not less than \$5,000,000 for Pediatric Dentistry Programs, including loan repayment, and not less than \$29,025,000 for Family Medicine Programs.

The bill includes language permitting funds provided for National Health Service Corps recruitment activities and the Nurse Loan Repayment and Scholarship Program to be used to make prior year adjustments to awards in these programs.

The bill includes language permitting up to one percent of the amount for each project to be used for related agency administrative expenses.

The bill includes language providing \$19,642,000 as a direct lump sum payment to the Denali Commission.

The bill includes \$26,000,000 for the Delta Health Initiative and associated administrative expenses.

The bill includes language identifying \$9,201,000 for State Offices of Rural Health. The bill includes language specifying that, within the funding provided for Rural Hospital Flexibility Grants, \$15,000,000 is available for the Small Rural Hospital Improvement Grant Program for quality improvement and adoption of health information technology.

The Health Resources and Services Administration (HRSA) is encouraged to begin an initiative to expand community health center primary care services to low-income persons with serious mental illnesses.

HRSA is expected to continue to approve community health centers' proposed scope of project changes when necessary to ensure access to needed specialty services or to meet the comprehensive needs of special populations who may require care in other types of health care settings.

The bill provides \$14,200,000 for Native Hawaiian Health Care Activities within the Community Health Centers Program. Sufficient funding has been provided to permit the continuation of master's degree and certificate programs for Native Hawaiian health care administrators.

HRSA is directed to implement any new expansion initiative using the existing, and statutorily-required, proportionality for urban and rural communities, as well as migrant, homeless and public housing health centers.

HRSA is urged to confirm that the Federal Torts Claims Act covers clinicians employed or individually contracted by community health centers. HRSA is encouraged to work with the U.S. Department of Agriculture Rural Development Office to assist more community health centers in accessing these resources.

The bill includes \$75,000,000 for State Health Access Grants. Grants will be awarded competitively to States that demonstrate they have a program which will expand access to affordable health care coverage for the uninsured populations in that State. States will also be required to demonstrate that they have achieved the key State and local statutory or regulatory changes required to implement the new program within twelve months from the grant start date. States that have already developed a comprehensive health insurance access program would not be eligible to apply.

The types of activities that can be supported through this grant include: "three share" community coverage (employer, State or local government, and the individual); reinsurance plans that subsidize a certain share of carrier losses within a certain risk corridor; subsidized high risk insurance pools; health insurance premium assistance; creation of a state insurance "connector" authority to develop new, less expensive, portable benefit packages for small employers and part-time and seasonal workers; development of statewide or

automated enrollment systems for public assistance programs; and innovative strategies to insure low-income childless adults.

Two types of State grants will be available: target grants (\$2,000,000–\$4,000,000 annually per State) for States that choose to target particular populations such as uninsured children, small business employees, or uninsured seniors; or comprehensive grants (\$7,000,000–\$10,000,000 annually per State) for States that are planning extensive coverage initiatives. Each grant will be awarded based on a five-year grant period, subject to the availability of funds, with funding distributed each year based on attaining benchmarks that would be designated in the grant award. States shall be required to demonstrate their seriousness of intent by matching twenty percent of the Federal grant through non-Federal resources, which could be a combination of State, local, and private dollars from insurers, providers, and other private organizations. Waiver of the matching requirement shall be possible if financial hardship is demonstrated. States shall also be required to demonstrate their ability to sustain the program without Federal funding after the end of the five-year grant period. HRSA should consider geographic diversity in the allocation of these awards. HRSA shall brief the Committees on Appropriations of the House of Representatives and the Senate on the terms and conditions of its proposed request for application prior to its public release.

States shall be required to report to HRSA the impact and results of their demonstration project at the conclusion of the five-year grant period. HRSA is encouraged to convene grantees periodically throughout the period of their award to share information with each other about their program experiences and gain ideas for refinement of their programs. HRSA is directed to submit a comprehensive report to the Committees on Appropriations of the House of Representatives and Senate about the outcomes and lessons learned from each of the State demonstrations eighteen months after the five-year grant period ends.

HRSA should use National Health Service Corps recruitment funds only to support multi-year, rather than single year, commitments.

Of the funds provided for Allied Health Training Programs, \$10,000,000 is for grants to States authorized under section 340G of the Public Health Service Act to improve access to dental care; \$1,945,000 is allocated to the Chiropractic-Medical School Demonstration Grants; and \$1,945,000 is designated for the Psychology Training Program.

Within the funding provided for the Autism and Other Related Developmental Disorders, an increase of not less than \$2,000,000 is provided to expand the Leadership Education in Neurodevelopmental and Related Disabilities Program. In addition, an increase of not less than \$2,000,000 is provided for research on evidence-based practices for interventions for individuals with autism and other developmental disabilities, for development of guidelines for those interventions, and for information dissemination.

HRSA should support Traumatic Brain Injury Protection and Advocacy Services at no less than the fiscal year 2008 level.

The bill includes \$1,000,000 to establish the Congenital Disabilities Program, which will provide information and support services to families receiving a diagnosis for Down syndrome, spina bifida, dwarfism, or other pre-natally or post-natally diagnosed conditions. Competitive grants may be made to States and territories, localities, and non-governmental organizations with expertise in these conditions.

HRSA should allocate funds for the Minority AIDS Initiative within the Ryan White HIV Programs at least at the fiscal year 2008 level.

With the \$7,550,000 provided in the bill for the Telehealth Program, the Office of the Advancement of Telehealth is directed to facilitate cooperation among health licensing boards or various States to develop and implement policies that will reduce statutory and regulatory barriers to telehealth and telehomecare. Funding supports grants for resource centers, networks, pilots, and demonstrations.

HRSA's decision to shift resources from rural health grants that specialize in rapid response policy analysis to grants that sponsor more general research is concerning. As Congress discusses healthcare reform, it will be crucial to have an accurate analysis of how specific policy proposals impact the rural population. HRSA is urged to reconsider this decision.

Rural and Community Access to Emergency Devices funding should be divided equally between urban and rural communities.

The Department of Health and Human Services is instructed to distribute to the regional offices all of the funds available for Family Planning services no later than 60 days following enactment of this Act. Regional offices should retain the authority for the review, award and administration of Family Planning funds, in the same manner and timeframe as in fiscal year 2006. At least 90 percent of Family Planning funds should be used for clinical services authorized under section 1001 of the Public Health Service Act. The Office of Family Planning is expected to spend any remaining year-end funds in section 1001 activities.

Any amounts that have not been awarded by May 31, 2009 shall be awarded for other HIV testing programs.

CDC has convened a workgroup of CDC officials, outside tuberculosis (TB) professionals, and State and local public health officials to review and revise the TB funding distribution formula. The agency is directed to create a plan and submit such plan to the Committees on Appropriations of the House of Representatives and the Senate by no later than March 1, 2009 identifying the optimal proportion of TB funding that should be distributed under the new funding formula being considered. Such formula should ensure that

the funding distribution aligns with the epidemiological trends of the disease.

Within the total for Preparedness, Detection, and Control of Infectious Diseases, the bill includes \$10,100,000 for the National Healthcare Safety Network (NHSN), a surveillance tool used by healthcare facilities and State and local public health departments to understand and prevent healthcare-associated infections (HAIs). According to CDC, hospitals participating in the NHSN have decreased bloodstream infections by up to 50 percent over the last ten years. With this increased funding, CDC shall expand NHSN capacity to increase the number of hospitals and other healthcare facilities participating, increase the types of infections collected by each facility, and accelerate the transition from manual to electronic HAI reporting.

Also within the total for Preparedness, Detection, and Control of Infectious Diseases, the bill includes \$2,500,000 to be used to respond to outbreaks of disease caused in some part by the re-use of syringes in outpatient settings and to ensure that infection control measures are adhered to broadly, including provider education and patient awareness activities. CDC is encouraged to partner with industry and university researchers to identify the best interventions to reduce the possibility of disease transmission in the healthcare setting.

Further, the bill includes funding to support additional grants for State-based, culturally-appropriate, community demonstration projects for CKD detection.

Within the amount provided for colorectal cancer, \$25,000,000 is to launch a nationwide colorectal cancer screening program. These

funds should be made available for screening and diagnostic follow-up care.

The CDC is urged to collaborate with eating disorders researchers in order to better understand the disparity between outside studies and CDC reported morbidity and mortality, focusing on obtaining a clear picture of what might be barriers to the detection and reporting of eating disorders.

Within the total provided for Nutrition, Physical Activity, and Obesity, the bill includes \$500,000 for a study by the Institute of Medicine (IOM) that will examine and provide recommendations regarding front-of-package nutrition symbols. These should include, but not be limited to, a review of systems being used by manufacturers, supermarkets, health organizations, and governments in the United States and abroad and the overall merits of front-label nutrition icons, the advantages and disadvantages of various approaches, and the potential benefits of a single, standardized front-label food guidance system regulated by the Food and Drug Administration. Based upon its work, the IOM should recommend one or several of the systems, along with means of maximizing the use and effectiveness of front-label symbols, that it has identified as best at promoting consumers' health.

The bill provides funding to support CDC's new initiative for Healthy Communities, remodeled from the former Steps to a Healthier U.S. program. Within the total provided, \$4,000,000 is for a community-based grant program focusing on poor nutrition and physical inactivity. Within the total for Injury Prevention and Control, the bill includes funding for the injury control research centers (ICRCs) to support their core operations and to expand research to improve translation of effective interventions. Injury is the leading cause of death and disability among children and youth. CDC is encouraged to continue its support for all ICRCs to ensure that each ICRC is funded at a level commensurate with programmatic expectations, including the new injury control research center that will focus on research and prevention related to children and adolescents.

National Institute for Occupational Safety and Health

Within the program level total for the National Institute for Occupational Safety and Health (NIOSH), the bill includes the following amounts:

The total provided for NIOSH includes sufficient funding to maintain staffing levels at the Morgantown facility and to increase research funding at that facility.

The bill includes sufficient resources to fully fund the existing Healthier Workforce Centers and to expand this network dedicated to research, education, and translation programs to integrate health protection and health promotion in the workplace.

The bill includes \$250,000 for NIOSH to undertake follow-up studies on the National Hospital Ambulatory Medical Care Survey on the underreporting of worker injury data, particularly focusing on the self-employed population. As NIOSH develops research agendas, NIOSH should consider the disproportionate attention paid to acute injuries and illnesses over chronic injuries and illnesses contracted at work places in America. NIOSH shall continue to work with the Bureau of Labor Statistics to improve the statistics that direct Federal enforcement and compliance efforts aimed at preventing illness and injury at our Nation's workplaces. NIOSH shall provide a letter report on activities in this area to the Committees on Appropriations of the House of Representatives and the Senate not later than 90 days after enactment of this Act.

According to a report issued in 2008 by the Institute of Medicine of the National Academies, there is a critical need to better understand the airborne transmissibility of pandemic influenza and other pathogenic bioaerosols to protect healthcare workers and to gauge the efficacy of the currently recommended types of respirators. The bill includes \$3,000,000 within the total for Personal Protective Technology for NIOSH to research modes of transmission of influenza and to evaluate filtering face piece respirators, other types of respirators, and other personal protective technology equipment. Further, NIOSH is urged to design and promote the next generation of personal protective equipment for healthcare workers and first responders to address the unique challenges posed by the healthcare environment.

For the World Trade Center (WTC) Medical Monitoring and Treatment program, the fiscal year 2009 program level is \$182,000,00. Approximately \$112,00,00 in carryover balances from prior year appropriated funds are available in fiscal year 2009. Combined with the \$70,00,00 included in this bill, the total amount available for the WTC program is sufficient to continue to expand the program in the New York City area and around the country for first response emergency personnel, residents, students, and others whose health has been impacted from exposure to toxins in or around the WTC site.

Energy Employees Occupational Illness Compensation

In addition, the bill includes \$55,358,000 for CDC to administer the mandatory Energy Employees Occupational Illness Compensation program, which is the same funding level as in fiscal year 2008 and the budget request. In prior years, funding was appropriated within the Department of Labor.

Terrorism Preparedness and Response

Within the funds provided for Terrorism Preparedness and Response, the bill includes the following amounts:

Budget Activity	FY 2009 Bill	FY 2009 Bill compared to—	
		FY 2008	FY 2009 Budget Request

With the level of funding provided in the bill for the Public Health Emergency Preparedness Cooperative Agreements program, CDC is expected to issue a full year of grants rather than reducing the grant cycle to nine months and three weeks as proposed in the budget request.

The bill provides an increase of \$16,637,000 over the fiscal year 2008 funding level for the network of quarantine stations at ports of entry across the United States. This funding is provided to maintain the current capacity at the 20 existing domestic quarantine stations, to hire additional employees to begin to adequately staff and operate these stations, and provide centralized core support to the Quarantine and Migration Health System.

The Cities Readiness Initiative (CRI) provides resources to cities and metropolitan areas around the country to better distribute countermeasures during public health emergencies. Concerns have been raised about CDC's revised formula for the allocation of CRI funds. Several grantees are potentially facing reductions of up to 48 percent. Significantly reducing grant awards in a single fiscal year could have a damaging impact on a jurisdiction's readiness to disburse medical countermeasures. In this transition to a new formula, CDC should move gradually in implementation and limit grant award reductions in 2009. Further, before any final decision

is made on the allocation of fiscal year 2009 resources, CDC should review this formula again to address the concerns raised by grantees. Further, CDC shall submit a written report and provide a briefing to the Committees on Appropriations of the House of Representatives and the Senate justifying any changes to the CRI formula distribution used in fiscal year 2007 prior to issuing final guidance to grantees.

Preventive Health and Health Services Block Grant

As part of an HHS-wide initiative to reduce healthcare-associated infections (HAIs) coordinated by the HHS Office of the Secretary, the bill includes language that each State must certify that it will submit a plan by January 1, 2010 to the Secretary of Health and Human Services for reducing HAIs to be eligible for the full allotment in this Act under the Preventive Health and Health Services Block Grant. State plans shall be consistent with the Department of Health and Human Services national action plan for reducing such infections.

The bill also includes additional funding to provide States increased support for a wide range of public and preventive health activities. States are strongly encouraged to use these increased resources to invest in strategies to reduce HAIs through collaborations with public health departments and healthcare facilities and to begin to develop statewide plans.

Buildings and Facilities

Within the amount provided for Buildings and Facilities, the bill includes \$30,000,000 for nationwide repairs and improvements; \$71,300,000 for the completion of Building 24 on the Roybal Campus in Atlanta, Georgia; \$1,500,000 for facilities and equipment at the CDC laboratory in Ft. Collins, Colorado; and the remaining funds shall be used to begin planning and construction of Buildings 107 and 108 on the Chamblee Campus in Atlanta, Georgia.

Business Services and Support

The funds for Business Services and Support are intended for CDC to carry out its business functions, including, but not limited to, administrative services, financial management, security and emergency preparedness, and procurement and grants. Neither these funds nor any other funds provided to CDC are to be enhanced through the mechanism of program assessments or tapping at any level, including at the coordinating center level.

NATIONAL INSTITUTES OF HEALTH

The bill includes \$30,317,024,000 for the 26 accounts that comprise the National Institutes of Health (NIH) total appropriation, which is \$937,500,000 above the fiscal year 2008 level and \$1,087,500,000 above the budget request. In addition, the bill continues the allocation to NIH of \$8,200,000 in program evaluation set-aside funding, consistent with the budget request. Appropriation levels for individual institutes and centers are described in the table at the end of this explanatory statement. Guidance for specific institutes and centers is provided below.

NATIONAL CANCER INSTITUTE

The bill provides up to \$8,000,000 for facilities repairs and improvements at the National Cancer Institute (NCI)-Frederick Federally Funded Research and Development Center in Frederick, Maryland.

The NCI is directed to name a Fellowship in Surgical Pathology the "Alan S. Rabson Award" to provide lasting recognition to the

work of Alan S. Rabson, M.D., Deputy Director of NCI. As a pathologist, researcher, administrator, and clinical advisor, Dr. Rabson has demonstrated unequalled service in his 53 years at NIH. He is the author of more than 100 scientific journal articles and is credited with several discoveries in virology that paved the way for other important findings in this field. But, in particular, he has made his life passion helping cancer patients and their families come to grips with their cancer diagnosis and locating the medical treatment and provider that will help them most. He is joined in his dedication to NIH by his wife, Dr. Ruth Kirschstein, who served as the Acting Director of NIH and Director of several institutes. Naming a fellowship in honor of Dr. Rabson is a modest acknowledgement of how much the country is indebted to this unparalleled public servant.

NATIONAL CENTER FOR RESEARCH RESOURCES

The bill provides \$474,972,000 for clinical and translational science awards, divided between \$53,224,000 from the Common Fund and \$421,748,000 from the National Center for Research Resources. The bill provides \$224,043,000 for the Institutional Development Award (IDeA) Program.

The bill provides funding for a 2 percent increase in the average cost of new and competing as well as non-competing grants. The bill provides \$35,000,000 for Transformative Research Project Grants; \$80,000,000 through the Common Fund for New Innovators Awards; \$40,600,000 through the Common Fund for the Director's Pioneer Awards; \$24,000,000 for the rare and neglected diseases initiative; and \$96,711,000 within the Office of the Director for radiological, nuclear, and chemical countermeasure research.

SAMHSA is strongly urged to give preference to applicants with prior experience in the NCTSI, as well as extensive experience in the field of trauma-related mental disorders in children, youth and families, especially in the areas of child abuse and residential treatment settings. Program Management

Within the total for Program Management, the bill includes \$2,000,000 for the inclusion of questions related to the mental health of children in the National Health Interview Survey (NHIS) and to carry out studies necessary to ensure the validity and reliability of the NHIS data on children with serious emotional disturbance.

Within the total provided for Program Management, the bill includes \$1,000,000 for a module in the National Survey on Drug Use and Health to provide reliable and valid data on adults with serious mental illness.

AGENCY FOR HEALTHCARE RESEARCH AND QUALITY

HEALTHCARE RESEARCH AND QUALITY

The bill includes a program level of \$372,053,000 for the Agency for Healthcare Research and Quality (AHRQ), which is \$37,489,000 more than the fiscal year 2008 program level and \$46,389,000 more than the budget request. The bill makes these funds fully available through section 241 of the Public Health Service (PHS) Act.

The bill does not include funding for the Health Insurance Decision Tool.

The bill includes \$50,000,000 for comparative effectiveness research within the total for Research on Health Costs, Quality, and Outcomes. This amount is \$20,000,000 more than the fiscal year 2008 funding level and the budget request. The objective of the program is to research difference healthcare interventions to help consumers, healthcare providers, and others make informed choices among treatment options. This investment will improve healthcare quality.

The investigator-initiated research portfolio at AHRQ has languished even though many of the sentinel studies that have changed the face of health and health care in the U.S. are the result of researchers' ingenuity and creativity. To advance discovery and the free marketplace of ideas, the bill includes increased funding to expand investigator-initiated research within the total for Research on Health Costs, Quality, and Outcomes.

Within the total for Research on Health Costs, Quality, and Outcomes, the bill includes \$41,889,000 for Patient Safety Threats and Medical Errors. The bill includes increased funding to reduce healthcare-associated infections (HAIs) and expand the Methicillin-Resistant Staphylococcus Aureus (MRSA) program begun in fiscal year 2008.

The bill includes \$9,304,000 for the Comprehensive Unit Based Program (CUSP), a patient safety program to reduce central-line associated blood stream infections in intensive care units (ICUs). The CUSP is modeled after the Michigan Keystone Program, which was successfully used in more than 100 ICUs in Michigan and, within three months of implementation, helped reduce infection rates to zero in more than 50 percent of the participating hospitals. With fiscal year 2008 funding, the CUSP is being implemented by State-wide consortiums in 10 different States and includes members of State hospital associations, quality improvement organizations, and public health agencies. With the increased funding in fis-

cal year 2009, AHRQ will be able to increase the number of participating hospitals within each of the 10 States, as well as increase the number of participating States, to bring this important and successful initiative to additional communities and healthcare facilities. In addition, AHRQ is urged to initiate a similar approach to CUSP in addressing other HAIs, including urinary tract infections and surgical site infections, as well as expand its activities to include research on ways to reduce HAIs in other healthcare settings, including hospital locations outside the ICU, dialysis centers, nursing homes, and ambulatory care settings.

AHRQ received funding in fiscal year 2008 to identify and reduce the spread of MRSA and other HAIs. Due to concern about the prevalence of these preventable infections, the bill provides AHRQ with \$8,000,000 to continue its work in this area. Funding is included to increase AHRQ's investment in evidence-based research to help healthcare providers and others implement quality improvement strategies to reduce the incidence of MRSA and other HAIs. In this effort, AHRQ is encouraged to continue to develop partnerships with healthcare delivery networks to implement system-wide MRSA prevention programs.

PAYMENTS TO HEALTH CARE TRUST FUNDS

The bill provides \$195,383,000,000 for payments to health care trust funds, which is \$6,938,000,000 above the fiscal year 2008 level and \$75,000,000 above the budget request.

PROGRAM MANAGEMENT

The bill provides \$3,305,386,000 for program management, which is \$153,735,000 above the fiscal year 2008 level and \$1,958,000 below the budget request.

In conjunction with the Office of Management and Budget (OMB) and the Department of Homeland Security (DHS), the Department of Health and Human Services (HHS) is directed to submit a report to the House and Senate Committees on Appropriations (Committees) no later than March 1, 2009, recommending which agency is the most appropriate to fund the transportation of unaccompanied alien children (UAC) between DHS and HHS custody. This joint report shall focus on which agency can deliver these services in the most cost effective manner. In addition, starting no later than September 1, 2009, the ORR, in conjunction with Immigration and Customs Enforcement, should provide semi-annual briefings to the Committees on the implementation of the recommendations. For fiscal year 2009, the Consolidated Security, Disaster Assistance, and Continuing Appropriations Act, 2009, provides sufficient resources to DHS to pay for this transportation function.

With regard to the UAC program, ORR is directed to respond to the DHS initial call for placement by identifying the ORR placement facility to DHS within six hours, on average, of receiving the DHS call. In addition, ORR shall continue to work with DHS to expedite the transfer and placement of these special needs children in the most appropriate facility as quickly as possible.

Within funds for the UAC program, \$5,050,000 is provided to continue the pro bono legal services initiative to ensure legal representation of all UAC. These funds should be used to train attorneys to detect abuse, mistreatment, labor exploitation, and trafficking of these children. In addition, a portion of these funds should be used to train attorneys in methods that will ensure the appearance of children at all immigration court hearings. ORR is expected to use part of these funds to assess the overall impact of the pro bono legal services initiative, including the number and proportion of UAC provided pro bono legal representation.

The bill includes \$9,050,000 more than the budget request for the UAC program to ensure that sufficient funds are available for UAC medical and transportation services.

Within the amount provided in the bill for Child Abuse Discretionary Activities, \$13,500,000 is provided to expand the home visitation initiative. These funds shall support continuing and new competitive grants to States to encourage investment of existing funding streams into evidence-based home visitation models that have been shown to improve the health, well-being, and self-sufficiency of low-income, first-time parents and their children. As in fiscal year 2008, ACF shall ensure that these funds support models that have been shown in well-designed, randomized controlled trials to produce sizeable, sustained effects on important child outcomes such as reductions in abuse and neglect. Funds shall support activities to assist a range of home visitation programs to replicate the techniques that have met these high evidentiary standards. In carrying out this initiative, ACF is instructed to adhere closely to evidence-based models of home visitation. ACF shall not incorporate any additional initiatives that have not met these high evidentiary standards or might otherwise dilute the emphasis on home visitation.

Within the amount for Projects of National Significance, the bill provides \$2,000,000 for the purposes of providing and promoting leadership training by and for families with children with disabilities, as described in section 202(b)(2) of the Families of Children with Disabilities Support Act of 2000. Such training shall be designed to increase access to and availability of family support services and must address policy development, implementation and evaluation of family support services for families with children with disabilities. To maximize the sustainability of the outcomes of the leadership training supported by these funds, the Secretary shall distribute these funds as competitive grants to one or more national non-profit organizations with demonstrated capacity at the State and local level to foster and provide direct services to families with children with disabilities.

The bill provides a \$1,000,000 increase over the fiscal year 2008 level for the University Centers for Excellence in Developmental Disabilities, which may be used to provide a cost-of-living adjustment to existing centers and to establish new grants to work through partnerships with minority-serving institutions. These new grants, if awarded, will focus research, training and services on minority populations with disabilities.

The bill provides a \$1,500,000 increase over the fiscal year 2008 level for activities authorized under section 803C(b)(7)(A)-(C) of the Native American Programs Act (as added by the Esther Martinez Native American Languages Preservation Act of 2006).

With regard to the Community Services Block Grant (CSBG), ACF is directed to allocate \$500,000 of CSBG training and technical assistance funds for a national community economic development training and capacity development initiative. Successful implementation of community development programs requires significant investment in high-quality board and staff training and proven technical assistance. This funding will enable community action agency leaders to attain the professional skills needed to undertake projects to enhance their communities' future security through financing and implementing innovative housing, economic and community development partnerships.

The bill includes language clarifying Congressional intent regarding disposition of intangible assets—including loans and investments—acquired under the community economic development authority of the CSBG Act. The bill continues the policy in place since 1999 that establishes a regulatory period of up to 12 years after the end of the grant period. During that period, as the grantee receives repayments or program income from these loans or investments, the grantee is permitted to recycle these funds into other similar projects. After that time, the intangible assets and program income become the property of the grantee provided they are used in a manner consistent with the intent of the authorizing statute. The bill clarifies that recycled and repaid loan or investment funds or program income may be used in any low-income community for any eligible purpose under the law and is not restricted to the original target area, financing, or type of project for which the grantee was originally funded. The language applies not only to new grantees but also to grantees for whom the post-grant period has reached a point at which the disposition of intangible assets must be made.

Funds provided in the bill for the Rural Community Facilities program shall be used solely for the purpose of improving water and wastewater facilities in poor, rural communities. As in the past, these funds should be allocated to regional rural community assistance programs.

The ACF Office of Community Services is expected to remedy during fiscal year 2009 a failure (1) to report on progress made in remedying oversight deficiencies identified by the Government Accountability Office and (2) to comply with a fiscal year 2005 Congressional directive to implement a training and technical assistance needs assessment and delivery plan in consultation with CSBG State and local eligible entities.

The bill provides funds for Abstinence Education as defined in section 510(b)(2) of the Social Security Act and includes language precluding grantees who receive abstinence education funding from discussing with adolescents any other education regarding sexual conduct in the same setting as abstinence education. It also requires that information provided through abstinence education grants shall be scientifically accurate and comply with section 317P(c)(2) of the Public Health Service Act.

Further, the bill provides that up to \$10,000,000 may be used to carry out a national abstinence education campaign and \$4,455,000 shall be available from section 241 Public Health Service Act evaluation funds to carry out evaluations of adolescent pregnancy prevention approaches. Finally, up to 5 percent of funds may be set aside for technical assistance and capacity-building, which shall be used to ensure that programs are using evidence-based curricula that comply with statutory requirements.

Within Program Administration, the bill includes \$1,500,000 for the National Commission on Children and Disasters. The funds included in this bill may be used for personnel, travel, and any other necessary expenses of the Commission. The Commission is expected to build on the evaluations of other entities and avoid unnecessary duplication, by reviewing the findings, conclusions, and recommendations of various commissions, Federal, State, and local governments, and nongovernmental entities as to the needs of children as they relate to preparation for, response to, and recovery from all hazards, including major disasters and emergencies. ACF is requested to submit a report to the House and Senate Committees on Appropriations on the progress of the Commission within one year of its initial meeting. While Departmental funds will support the operations of the Commission, the Commission is expected to operate independently in order to provide unbiased recommendations to the President and the Congress.

PROMOTING SAFE AND STABLE FAMILIES

The bill includes \$345,000,000 in mandatory funds for the Promoting Safe and Stable Families program, which is the same as the fiscal year 2008 level and the budget request. The bill includes \$63,311,000 in discretionary funds for this program, which is the same as the fiscal year 2008 level and the budget request.

PAYMENTS TO STATES FOR FOSTER CARE AND ADOPTION ASSISTANCE

The bill includes \$5,050,000,000 for Payments to States for Foster Care and Adoption Assistance, which is \$17,000,000 below the fiscal year 2008 level and \$46,000,000 below the budget request. The amount provided varies from the President's request because of the enactment of the Fostering Connections to Success and Improving Adoptions Act of 2008 and reflects updated estimates provided by the Department.

ADMINISTRATION ON AGING

AGING SERVICES PROGRAMS

The bill includes \$1,491,343,000 for Aging Services Programs, which is \$77,908,000 above the fiscal year 2008 funding level and \$109,959,000 above the budget request.

Program Innovations

The bill includes \$18,172,000 for Program Innovations, which is \$3,517,000 more than the fiscal year 2008 funding level and \$14,746,000 less than the budget request. The Administration on Aging (AoA) is directed to include in the fiscal year 2010 and all future budget justifications a table of Program Innovations funding broken down by account, program, and activity, which includes actual funding or estimates for the previous, current, and future fiscal years.

Within the total for Program Innovations, funding is provided at no less than the fiscal year 2008 levels for national programs scheduled to be refunded in fiscal year 2009. Within these funds, the bill includes \$2,000,000 for the Senior Legal Hotlines/Hotlines, which will provide an increase in the number of States in which these services are available for older Americans. The bill also includes \$1,000,000 to continue a 24-hour call center to provide Alzheimer's family caregivers with professional care consultation and crisis intervention.

In addition, within Program Innovations the bill includes \$5,000,000 for the Community Innovations for Aging in Place program, created by the Older Americans Act reauthorization in 2006. This funding will provide grants to community-based organizations to coordinate and deliver services to elderly residents living in naturally occurring retirement communities and other model aging in place initiatives. AoA is encouraged to ensure that these initiatives are coordinated with existing programming included in the Older Americans Act, including Aging and Disability Resource Centers, Nursing Home Diversion, and Evidence-Based Prevention activities.

AoA has worked to further civic engagement among older Americans, particularly through a Memorandum of Understanding with

the Corporation for National and Community Service. AoA is urged to continue to advance the field of civic engagement, as authorized under section 417 of the Older Americans Act, by entering into additional partnerships with organizations that offer innovative and proven programs to enable older Americans to effectively meet critical social needs.

Aging Network Support Activities

The bill recommends \$41,694,000 for Aging Network Support Activities, which is \$10,105,000 more than the fiscal year 2008 funding level and \$28,561,000 more than the budget request. AoA is directed to include in the fiscal year 2010 and all future budget justifications a table of Aging Network Support Activities funding broken down by account, program, and activity, which includes actual funding or estimates for the previous, current, and future fiscal years. Within the funds provided, the bill includes \$1,719,000 for the Pension Counseling and Information Program, to increase training and technical support for the counseling projects and to maintain the number of regional counseling projects at six.

The bill also includes \$28,000,000 to continue national implementation of the Choices for Independence program. Funding is provided for this program in Aging Network Support Activities, as reflected in the reauthorized Older Americans Act, and is intended to build on national implementation activities already in place. In contrast, the Administration requested these funds within the Program Innovations account and limited this program to narrow trials in only a few States. The Choices for Independence program seeks to establish long-term care options for seniors so they can live independently in their own communities. The program will continue and expand existing AoA programs that focus on Nursing Home Diversion, Aging and Disability Resource Centers and Evidence-Based Disease Prevention activities. In implementing these activities, AoA is encouraged to continue its close partnership efforts with the Centers for Medicare and Medicaid Services, the National Institute on Aging, the Centers for Disease Control and Prevention, and other agencies.

AoA shall report to the Committees on Appropriations of the House of Representatives and the Senate by no later than March 1, 2009 on the establishment of national standards that will be used to evaluate the Choices for Independence Program, including the performance measures and indicators States must use to track and report on the outputs and outcomes they achieve. AoA should include in future Congressional budget submissions, the number of people served by these programs, funding breakdowns for each component of the program, and on the progress States are making in implementing these activities.

The bill does not provide funding for the National Center on Senior Benefits Outreach and Enrollment. Section 119 of P.L. 110–275, the Medicare Improvements for Patients and Providers Act of 2008 provided \$17,500,000 to the AoA for Medicare enrollment assistance, including \$5,000,000 specifically to inform seniors about benefits available under existing Federal and State programs. Bill language has been included to allow the AoA to administer these funds.

OFFICE OF THE SECRETARY
GENERAL DEPARTMENTAL MANAGEMENT
(INCLUDING TRANSFER OF FUNDS)

The bill includes \$395,776,000 for General Departmental Management, including \$5,851,000 from Medicare trust funds. This total is \$41,762,000 above the fiscal year 2008 level and \$15,912,000 above the budget request. In addition, \$46,756,000 in program evaluation funding is provided. The bill also provides that \$1,000,000 shall be transferred, not later than 30 days after enactment of this Act, to the National Institute of Mental Health to administer the Interagency Autism Coordinating Committee (IACC), which will support the IACC's work authorized under the Combating Autism Act of 2006.

Office of the Secretary

The bill includes sufficient funds to continue the Area and National Poverty Centers at no less than the fiscal year 2008 level.

The Department of Health and Human Services (HHS) is expected to maintain support for the U.S.-Mexico Border Health Commission at the same level as in fiscal year 2008.

The HHS Secretary is directed to provide a detailed inventory of the Department's greenhouse gas emissions and a plan to reduce these emissions by December 31, 2009 to the Committees on Appropriations of the House of Representatives and the Senate.

According to the Centers for Disease Control and Prevention (CDC), healthcare-associated infections (HAIs) are one of the top ten leading causes of death in the United States, accounting for an estimated 99,000 associated deaths and \$20 billion in excess healthcare costs annually. HAIs are largely preventable. HHS is commended for its work in developing a national action plan with five year targets for reducing HAIs. The Department is directed to continue the HHS Steering Committee for the Prevention of HAIs, and associated workgroups, that it has established to coordinate prevention and implementation, research, information systems and technology, compliance and oversight, and public and provider outreach activities across the operating divisions of the Department.

To accelerate progress on preventing HAIs and to begin implementation of the national action plan, the bill includes nearly \$22,000,000 in additional funding over the fiscal year 2008 funding level for HAI-related initiatives within the Department. These increases include \$5,000,000 within the Office of the Secretary, \$7,500,000 within CDC and \$9,304,000 within the Agency for Healthcare Research and Quality (AHRQ). The Office of the Secretary shall use the additional \$5,000,000 to develop and implement a national campaign to empower consumers to be active participants in preventing HAIs; perform a comprehensive inventory of HAI data and databases; enhance prevention, surveillance, and research activities; improve integration of data across HHS systems; expand measures in CMS' Hospital Compare and improve regulatory oversight of hospitals and the hospital accreditation program; provide management support to the HHS Steering Committee for the Prevention of HAIs; and conduct other priority ac-

tivities related to reducing HAIs. A description of how the funds provided to CDC and AHRQ shall be used is included in the explanatory statement under those operating divisions.

To ensure that greater attention to this problem also occurs at the State level, the bill includes language within CDC requiring States to certify to the HHS Secretary that they will submit plans for reducing HAIs by January 1, 2010 to be eligible to receive a full allotment in this Act under the Preventive Health and Health Services Block Grant. The bill also directs HHS to conduct a review of these State plans and report to the Committees on Appropriations of the House of Representatives and the Senate not later than June 1, 2010 regarding the adequacy of such plans for achieving State and national goals for reducing HAIs.

It is noted that although 27 years have passed since HIV/AIDS was first identified in the U.S., there has never been a national plan to guide the coordination of prevention, care, and treatment programs. Further, the U.S. currently requires foreign countries receiving assistance to combat HIV/AIDS to develop and implement a single coordinated national AIDS strategy. HHS is encouraged to develop and implement a single national AIDS strategy to promote coordination among Federal agencies and State and local governments, set clear goals and benchmarks, and provide a basis for ensuring accountability.

Approximately 36 States have prescription drug repository programs, also known as prescription drug redistribution programs. These programs, often volunteer-driven, may save the health care system millions of dollars every year by allowing unused, unopened medications to be re-dispensed to patients who meet certain need-based criteria. Due to the potential for substantial savings that these programs have shown, HHS is directed to conduct a study of State drug repository programs, with recommendations for how the Federal government can assist States in implementing and expanding these programs. This study also should include an estimate of potential cost savings and identify best practices, including ways to maintain patient safety. HHS shall submit this report to the House and Senate Committees on Appropriations no later than January 1, 2010.

Due to the growing demand for, and lack of well-trained, social workers to serve a variety of needs for individuals, families, and communities throughout the nation, HHS is directed to provide a report to the Committees on Appropriations of the House of Representatives and the Senate within one year of enactment of this Act. This report shall analyze current workforce trends and gaps in incentives, and provide recommendations for the recruitment and retention of professional social workers.

The bill includes \$1,000,000 for the Interagency Working Group on Youth Programs, chaired by HHS. These funds shall be used to solicit input from young people, State children's cabinet directors, and non-profit organizations on youth programs and policies; develop an overarching strategic plan for Federal youth policy; and prepare recommendations to improve the coordination, effectiveness, and efficiency of programs affecting youth.

The bill provides \$7,000,000 for a Health Diplomacy Initiative in the Department of Health and Human Services. This health initia-

tive will focus on training health care workers and providing other services in, but not limited to, Central and South America. This health diplomacy initiative will help control diseases such as HIV/AIDS, tuberculosis, and malaria by giving local residents the training they need to provide basic health care in Latin America and other underserved communities.

Trauma is the most important cause of morbidity and mortality among children and adolescents, accounting for nearly 16,000 deaths, 250,000 hospital admissions and 9 million emergency department visits annually. While the goal is to deliver optimal care to injured children so that they attain the best possible outcomes after serious trauma, many questions about what constitutes optimal care remain unanswered. This gives rise to the tremendous variations in care and settings we see today. The HHS Secretary is directed to conduct a national prospective study on the variation in trauma care for children and adolescents in order to understand how the organization and processes of treatment affect outcomes and submit a report to the Committees on Appropriations of the House of Representatives and the Senate within six months of enactment of this Act that outlines how the Secretary will conduct this study.

The Assistant Secretary of Planning and Evaluation (ASPE) shall review the fiscal year 2008 awards under the home visitation initiative administered by the Administration for Children and Families and shall assess, in consultation with the Office of Management and Budget and independent experts if necessary, whether these awards met the evidentiary standards for this initiative specified in the explanatory statement for the Consolidated Appropriations Act, 2008. In addition, ASPE shall review any request for proposals for fiscal year 2009 awards for adherence to the evidentiary standards in this explanatory statement. ASPE shall report its findings to the Committees on Appropriations of the House of Representatives and the Senate by September 30, 2009.

The bill includes \$2,854,000 for the following projects in the following amounts:

OMH is encouraged to involve a wide array of public health, community, academic, medical, and industry organizations, including those working to improve medical curricula. OMH shall provide a report by May 1, 2009 on lupus, associated health disparities, and impact of the disease on the population to the Committees on Appropriations of the House of Representatives and the Senate.

Office of Women's Health (OWH)

The bill includes \$1,500,000 to expand the OWH violence against women prevention initiative. The additional funds above the budget request shall be used to enhance health care providers' understanding of domestic and dating violence, and to develop a coordinated public health response regarding the domestic violence issues.

The bill includes \$1,000,000 to continue the national lupus education campaign, in conjunction with the OMH and the Surgeon General, directed toward the general public and health professionals who diagnose and treat people with lupus.

Minority HIV/AIDS

The Office of the Secretary is expected to support activities that are targeted to address the growing HIV/AIDS epidemic and its disproportionate impact upon communities of color, including African Americans, Latinos, Native Americans, Asian Americans, Native Hawaiians, and Pacific Islanders, at no less than last year's funding level.

Embryo donation and adoption

Increasing public awareness of embryo donation and adoption remains an important goal. The bill provides \$4,200,000 for HHS's embryo donation and adoption awareness activities. The costs associated with embryo adoption may be hindering people from participating in embryo adoption. The medical procedures involved can be expensive and are not always successful. To address those challenges, the bill includes language allowing funds appropriated for embryo donation and adoption activities to be available to pay medical and administrative costs deemed necessary to facilitate embryo donations and adoptions. It is intended that funds in the bill be used for embryo donation for family building and/or embryo adoption and that eligibility not be limited based on the terminology used to describe the transfer of the embryo.

OFFICE OF MEDICARE HEARINGS AND APPEALS

The bill includes \$64,604,000 for the Office of Medicare Hearings and Appeals, which is \$740,000 above the fiscal year 2008 level and \$740,000 below the budget request.

OFFICE OF THE NATIONAL COORDINATOR FOR HEALTH INFORMATION TECHNOLOGY

The bill includes \$61,231,000 for this activity, of which \$43,552,000 is provided in budget authority and \$17,679,000 is made available through the Public Health Service program evaluation tap. This level is \$670,000 above the fiscal year 2008 level and \$4,920,000 below the budget request.

OFFICE OF INSPECTOR GENERAL (OIG)

The bill includes \$45,279,000 for the Office of Inspector General, which is \$2,048,000 above the fiscal year 2008 level and \$779,000 below the budget request. Bill language is included requiring that at least forty percent of the funds provided be used only for investigations, audits, and evaluations pertaining to the discretionary programs funded in the Labor-HHS-Education Appropriations Act. The OIG should submit a report to the Committees on Appropriations of the House of Representatives and the Senate by March 1, 2009 describing the OIG workplan development process, the assessment of relative Federal risk in the discretionary programs funded in the Labor-HHS-Education Appropriations Act, and the process used to rank for action program requests from various executive and legislative branch offices. The OIG is directed to continue its investigation of contracting procedures at the Centers for Disease Control and Prevention and the agency's use of contract employees and report to the Committees on Appropriations of the House of Representatives and the Senate by June 1, 2009.

OFFICE FOR CIVIL RIGHTS

The bill includes \$40,099,000 for the Office for Civil Rights, of which \$3,314,000 is made available from the Federal Hospital Insurance Trust Fund and the Federal Supplementary Medical Insurance Trust Fund. This level is \$5,800,000 above the fiscal year 2008 level and the same as the budget request.

RETIREMENT PAY AND MEDICAL BENEFITS FOR COMMISSIONED OFFICERS

The bill includes \$434,694,000 for retirement pay and medical benefits for commissioned officers, which is \$37,516,000 above the fiscal year 2008 level and the same as the budget request.

PUBLIC HEALTH AND SOCIAL SERVICES EMERGENCY FUND

(INCLUDING TRANSFER OF FUNDS)

The bill includes \$1,397,795,000 for the Public Health and Social Services Emergency Fund (PHSSEF), which is \$668,536,000 more than the fiscal year 2008 funding level and \$903,036,000 less than the budget request.

In order to accelerate progress in the procurement of medical countermeasures through Project BioShield and for pandemic influenza preparedness, the bill includes language transferring \$412,000,000 from the Project BioShield advance appropriations provided in the Department of Homeland Security Appropriations Act, 2004. Of this amount, \$275,000,000 is to fund the Biomedical Advanced Research and Development Authority (BARDA) and \$137,000,000 is for pandemic influenza preparedness and response activities.

Currently, there are large carryover balances in Project BioShield; approximately \$3,575,000,000 remains available in fiscal year 2009 from funds provided in fiscal year 2004. A significant reason for this carryover is that there are insufficient chemical, biological, radiological, or nuclear countermeasures ready for acquisition by Project BioShield into the Strategic National Stockpile. The funds provided in this bill are included to spur the development of these countermeasures from early discovery phases through the advanced clinical trials necessary for FDA approval. Without a greater investment in advanced research and development of these countermeasures, Project BioShield will not succeed.

The Secretary of Health and Human Services is directed to provide the Committees on Appropriations of the House of Representatives and the Senate monthly reports updating the status of actions taken and funds obligated in this and previous appropriations bills for the Pandemic Influenza Preparedness activities; the Biomedical Advanced Research and Development Authority; and Project BioShield. These reports should be provided by no later than 15 days after the end of each month.

In addition, the Secretary of Health and Human Services, together with the Director of the Centers for Disease Control and Prevention, is directed to provide a report to the Committees on Appropriations of the House of Representatives and the Senate within 180 days of enactment of this Act on the Department's current supply chain management strategies. This report shall include information on how supply chain management strategies can be improved in order to enhance both State and local preparedness in a complex, multi-tiered response.

DIVISION G—LEGISLATIVE BRANCH APPROPRIATIONS ACT,
2009

TITLE I

Diversity in Hiring and Advancement.—While many Legislative Branch agencies have achieved reasonable diversity at the lower wage tiers, diversity levels are sharply lower among managers and executives. More can be done to maximize diversity in the workplace, especially in the executive ranks. All Legislative Branch agencies who have not done so are directed to adopt by May 31, 2009 a formal written policy, in accordance with all applicable Federal laws, to develop and institute an affirmative action plan with specific goals and objectives to further the ability of women, minorities, and individuals with disabilities to achieve balanced representation within the Legislative Branch workforce and management.

SENATE

The bill includes \$895,030,000 for Senate operations. This amount is \$63,334,000 above the current level and is \$45,867,000 below the budget request.

HOUSE OF REPRESENTATIVES

The bill includes \$1,301,267,000 for House operations. This amount is \$118,432,000 above the current level and is \$32,594,000 below the budget request.

Electronic Access to Hearing Documents.—To reduce costs and reduce the carbon footprint of the operations of the House of Representatives and expand public access to congressional information, committees of the House are encouraged to post their hearings online on the Government Printing Office web site, GPO Access. Online posting of hearings can help reduce the need for printing and storage of paper copies of hearing records and facilitate accessibility for congressional staff and the general public.

Expanded Hours for the House Fitness Center.—The physical and mental health of House staff is important. The Chief Administrative Officer of the House is asked to review the “extended hours” pilot program and if appropriate explore the possibilities of further extending the hours of operation of the fitness facility.

Expanded Hours for the Child Care Center.—Expanded hours of operation at the House Child Care Center need to be considered to accommodate employees who must work late hours. The Chief Administrative Officer of the House is asked to study the feasibility and costs associated with extending the hours of operation beyond the standard work day. This study should be completed and provided to the House Committee on Appropriations no later than June 30, 2009.

Child Care Center Playground.—The current playground at the House Child Care Center frequently overheats in the summer, uses space inefficiently, and lacks many child development tools that would benefit children at the Center. The Architect of the Capitol (AOC) and the Office of the Chief Administrative Officer (CAO) of the House should make the project a priority and develop a plan to ensure that the playground is ready by summer 2009. Accordingly, AOC and the CAO are asked to submit a report to the House Committee on Appropriations on the status of the playground within 30 days of enactment of this Act. The report should include a detailed work plan with specific dates of when the planning, design, and construction of the playground will be complete as well as the actions being taken to ensure that the playground is open by summer 2009.

Congressional Technology Coordination.—The House of Representatives needs a strategic and coordinated plan that will prepare for the future technology needs of the institution. A 2006 report commissioned by the Chief Administrative Officer and the Committee on House Administration, entitled Strategic Technology Road Map for the Ten Year Vision of Technology in the House of Representatives, provided a suggested structure for Information Technology evaluation and decision making. The Chief Administrative Officer, the Clerk, and the Sergeant at Arms are asked to prepare a report by June 30, 2009 on their efforts or plans to develop House-wide data-sharing standards; implement standard legislative document formats; address the increasing resource challenges of Member offices; and identify disparate systems throughout the institution that prevent it from taking advantage of economies of scale.

JOINT ITEMS

JOINT ECONOMIC COMMITTEE

The bill provides \$4,626,000 for the Joint Economic Committee. This amount is \$228,000 above the current level and is the same as the budget request.

JOINT COMMITTEE ON TAXATION

The bill provides \$10,719,000 for the Joint Committee on Taxation. This amount is \$1,522,000 above the current level and is \$420,000 below the budget request.

OFFICE OF THE ATTENDING PHYSICIAN

The bill provides \$3,105,000 for the Office of the Attending Physician. This amount is \$314,000 above the current level and is \$7,000 above the budget request. The amount above the budget request provides an allowance for a Senior Medical Officer.

OFFICE OF CONGRESSIONAL ACCESSIBILITY SERVICES

The bill provides \$800,000 for the Office of Congressional Accessibility Services. This is a successor office to the Special Services Office following enactment of the Capitol Visitor Center Act of 2008.

CAPITOL GUIDE SERVICE AND SPECIAL SERVICES OFFICE

The bill provides \$9,940,000 for the Capitol Guide Service. This amount is available for the Architect of the Capitol to use as part of the Capitol Visitor Center appropriation due to the transfer of the Capitol Guide Service to the Architect of the Capitol following enactment of the Capitol Visitor Center Act of 2008.

STATEMENTS OF APPROPRIATIONS

The bill provides \$30,000 for Statements of Appropriations. This amount is the same as the current level and is also the same as the budget request.

CAPITOL POLICE

Salaries

The bill provides \$248,000,000 for salaries and benefits of the Capitol Police. This amount is \$15,782,000 above the current level and is \$21,223,000 below the budget request. The Capitol Police are expected to proceed with filling vacancies on the basis of management-determined priorities, and to provide the Committees on Appropriations notification of such determinations on a regular basis.

This level of funding will support the current staffing level of 1702 sworn and 414 civilian FTEs. In addition, increases in FTEs have been provided which are associated with the Library of Congress Police Merger for fiscal year 2009: 73 sworn, 24 sworn attrition, and 4 civilian support staff. An additional 10 sworn FTE have been funded related to maintaining the operations in the Cannon and Russell tunnels with the opening of the Capitol Visitor Center. The total authorized FTEs for fiscal year 2009 are 1799 sworn and 418 civilian.

It is noted that there is confusion and inconsistency concerning whether Capitol Police staffing authorization and utilization are reported as positions or FTEs. It is expected that budget submissions and agency reports use FTEs consistent with the OMB definition.

General Expenses

The bill provides \$57,750,000 for general expenses of the Capitol Police. This amount is \$8,972,000 above the current level and is \$6,681,000 below the budget request. It includes \$2,750,000 for the Capitol Police to begin migrating accounting services to the Library of Congress as part of an effort to move towards financial management cross-servicing for as many Legislative Branch agencies as practicable in order to achieve cost savings through the elimination of duplicative systems.

Vehicle Fleet.—There is concern about the size of the Capitol Police's overall vehicle fleet. The Capitol Police shall submit a vehicle analysis by April 30, 2009 justifying the overall size of its fleet, including motorcycles, and showing a detailed five year plan to manage the fleet. This plan should include an analysis of Home-To-Work vehicles, including justifications for this use, and an update on the Department's effort to utilize more energy efficient vehicles.

The Department shall refrain from purchasing, leasing or acquiring vehicles without notifying the Committees on Appropriations until the Committees have reviewed the detailed five year plan.

ADMINISTRATIVE PROVISION

(INCLUDING TRANSFER OF FUNDS)

Section 1001 authorizes transfers between the Salaries and General Expenses accounts upon the approval of the Committees on Appropriations.

OFFICE OF COMPLIANCE

SALARIES AND EXPENSES

The bill provides \$4,072,000 for salaries and expenses of the Office of Compliance. This amount is \$730,000 above the current level and is \$236,000 below the budget request. It provides for 21 FTEs.

The Office of Compliance (OOC) should operate in a consistent, well-documented manner when dealing with regulated agencies, balancing compliance assistance with enforcement responsibilities. However, the OOC has not established clear documentation of the processes and criteria for issuing findings or citations, or for accepting agencies' proposed abatement plans. Furthermore, OOC has failed to establish a process for dispute resolution mechanisms for citations or technical disagreements. It is expected that the Office will act to establish documented procedures and continue to work to improve its communication with the regulated community. A report to the Committees on Appropriations is due within 60 days of enactment of this Act.

CONGRESSIONAL BUDGET OFFICE

SALARIES AND EXPENSES

The bill provides \$44,082,000 for salaries and expenses of the Congressional Budget Office. This amount is \$6,776,000 above the current level and is \$1,342,000 above the budget request. It will fund an additional 15 FTEs required for health care analysis and other congressional priorities as well as fund the Congressional Budget Office's new responsibilities under the Emergency Economic Stabilization Act of 2008.

It is expected that the Architect of the Capitol will be part of the cross-servicing approach being developed within the Legislative Branch. The Architect of the Capitol is directed to suspend efforts to pursue an independent effort.

The total amount is \$11,546,000 above the current level and is \$4,320,000 below the budget request.

In addition, funds included under the Capitol Guide Service account are available to the Architect of the Capitol for the Capitol Visitor Center due to the transfer of the Capitol Guide Service to the Architect of the Capitol as part of the Capitol Visitor Center Act of 2008.

It is expected that any reprogramming of funds from the program, project and activity levels agreed to within this account by the Committees on Appropriations shall be subject to the normal reprogramming requirements.

Staff Tour Training.—Concerns have been raised about the quality and consistency of the training program for staff-led tours, known as the Congressional Historical Interpretive Training Program (CHIP). It is expected that improvements will be made to ensure this program is meeting expectations to enhance staff-led tours. The Chief Executive Officer for Visitor Services is directed to present within 30 days of enactment of this Act proposals for improving the program, without an increase in budgetary resources.

Hispanic and Asian American Exhibits.—There is continuing concern about the lack of representation of Hispanic and Asian American groups in the CVC, as well as African Americans, women, and Pacific Islanders. The Architect of the Capitol and the Chief Executive Officer for Visitor Services are directed to prepare a report within 90 days after enactment of this Act on the options and costs associated to remedy these omissions.

ADMINISTRATIVE PROVISIONS

Section 1101 provides for proceeds from certain recycling programs being applied to other environmentally friendly efforts. Sec-

tion 1102 provides for the leasing of space for the Library of Congress by the Architect of the Capitol.

LIBRARY OF CONGRESS

SALARIES AND EXPENSES

The bill includes \$412,680,000 for salaries and expenses of the Library of Congress, plus \$6,350,000 in offsetting receipts. This amount is \$24,219,000 above the current level and is \$932,000 above the budget request. The bill includes specific amounts for designated purposes and provides \$7,511,000 in support of the National Digital Information and Infrastructure Preservation Program (NDIIPP).

The Inspectors General of the Legislative Branch participating in a financial system cross-servicing agreement with the Library's Office of the Chief Financial Officer are directed to select a single independent auditing firm to conduct the annual financial statement audits for the participating agencies. The Inspectors General of these agencies shall form a committee, chaired by the Library's Inspector General or their appointee, to facilitate the effort to select a common auditor.

Asian American and Pacific Islander Collection.—It is encouraging that the Library of Congress has committed to establish an Asian American and Pacific Islander (AAPI) Collection within the Asian Division. The goal of the AAPI collection would not only be to finally collect and catalogue the numerous materials already within the Library, but also to expand to a nationally coordinated effort to catalogue and build upon the resources from other collections. The AAPI Collection will be a valuable national resource to libraries, museums, archives, organizations and studies programs interested in the histories and cultures of the AAPI communities. Since the AAPI Collection is in its infancy, there are concerns about its future growth. The Library of Congress is directed to provide to the Committees on Appropriations of the House and Senate, no later than April 30, 2009, a detailed strategy for the development of the AAPI Collection, including expected timelines and funding proposals.

Child Care Center.—There is interest in ensuring access for low-income families to the Library's child care center. The Library of Congress is requested to work with the Library of Congress Child Care Association to review whether revenues and costs are aligned to provide for the lowest possible tuition operationally feasible. This review and a report should be provided to the Committees on Appropriations of the House and Senate by May 31, 2009.

Franklin Collection.—There continues to be support for the goal of bringing the Library's extensive 3,000 text collection of American books that were translated into Arabic, Persian, Pashtu, and Indonesian online in a digital format. To further the availability and use of this collection, the Library of Congress, Library Services is directed to devote the required resources to obtain copyright permission and bring this collection online in a digital format.

American Folklife Center.—The work of the American Folklife Center (AFC) of the Library of Congress is to preserve and present the cultural legacy of the nation. Central to this mission is its role

in safekeeping major collections such as the Alan Lomax Collection. No less precious are other private collections recently acquired by the AFC that, taking up where Lomax left off, document America's folk, tribal and ethnic musical traditions from the 1960s forward to the present. A half century from now, such collections will be considered as important, and be as cherished by a new generation of Americans, as the Lomax recordings are today. The AFC is currently working to complete the preservation and digital conversion of these newer collections, which are essential to providing the nation with a complete and unbroken record of America's cultural and musical heritage. These efforts will provide American citizens with access to major cornerstones of twentieth century American folk music documentation that collectively define the essence of America's cultural legacy to the world. Once the digital conversions are completed, the AFC will showcase these new collections and their accessibility to the nation through a series of activities including scholarly symposium focused on the new collections and on the history and legacy of the folk arts organizations that created them; musical performances by great folk artists documented in the collections; the creation of a traveling exhibit; and audio/video website enhancements to showcase portions of the new collections and publicize their arrival at the AFC. It is anticipated that the cost of this effort will be \$350,000.

COPYRIGHT OFFICE

SALARIES AND EXPENSES

The bill includes \$18,277,000, and an additional \$33,315,000 made available from receipts, for salaries and expenses of the Copyright Office. This amount is \$12,956,000 above the current level and is the same as the budget request.

Pre-1972 Sound Recordings.—The Register of Copyrights is directed to conduct a study on the desirability of and means for bringing sound recordings fixed before February 15, 1972, under federal jurisdiction. The study is to cover the effect of federal coverage on the preservation of such sound recordings, the effect on public access to those recordings, and the economic impact of federal coverage on rights holders. The study is also to examine the means for accomplishing such coverage. As part of this effort, the Register of Copyrights should publish notice of the study and provide a period during which interested persons may submit comments. The Register of Copyrights is to submit a report on the results of this study to the Committees on Appropriations of the House and Senate no later than two years after the enactment of this Act. The report should include any recommendations that the Register considers appropriate.

CONGRESSIONAL RESEARCH SERVICE

SALARIES AND EXPENSES

The bill includes \$107,323,000 for salaries and expenses of the Congressional Research Service within the Library of Congress. This is \$4,979,000 above the current level and is the same as the budget request.

Public Access to Legislative Data.—There is support for enhancing public access to legislative documents, bill status, summary information, and other legislative data through more direct methods such as bulk data downloads and other means of no-charge digital access to legislative databases. The Library of Congress, Congressional Research Service, and Government Printing Office and the appropriate entities of the House of Representatives are directed to prepare a report on the feasibility of providing advanced search capabilities. This report is to be provided to the Committees on Appropriations of the House and Senate within 120 days of the release of Legislative Information System 2.0.

BOOKS FOR THE BLIND AND PHYSICALLY HANDICAPPED

SALARIES AND EXPENSES

The bill includes \$68,816,000 for the salaries and expenses of the National Library Service for the Blind and Physically Handicapped. This amount is \$1,893,000 above the current level and is the same as the budget request. It is noted that the contract award for Digital Talking Books came back at a significantly lower cost than anticipated while still allowing the project to move forward on its expected timeline and providing more players and titles than originally planned.

ADMINISTRATIVE PROVISIONS

Section 1201 provides for expenses related to official representation for the incentive awards program. Section 1202 provides obligation authority for various Library programs. Section 1203 provides authority to transfer funds between Library accounts. Section 1204 provides authority for members of the Abraham Lincoln Bicentennial Commission to serve through the life of the Commission.

GOVERNMENT PRINTING OFFICE

CONGRESSIONAL PRINTING AND BINDING

(INCLUDING TRANSFER OF FUNDS)

The bill includes \$96,828,000 for printing and binding of congressional documents at the Government Printing Office. This amount is \$7,053,000 above the current level and is \$1,100,000 below the budget request. It will provide the funding required to pay the FY 2007 and FY 2008 shortfall as well as fund the FY 2009 revised estimate for congressional printing.

OFFICE OF SUPERINTENDENT OF DOCUMENTS

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The bill includes \$38,744,000 for the salaries and expenses of the Superintendent of Documents. This amount is \$3,831,000 above the current level and is \$4,682,000 below the budget request.

GOVERNMENT PRINTING OFFICE REVOLVING FUND

The bill provides \$4,995,000 for the Government Printing Office Revolving Fund. This is \$4,995,000 above the current level and is \$28,005,000 below the budget request.

GOVERNMENT ACCOUNTABILITY OFFICE

SALARIES AND EXPENSES

The bill includes \$531,000,000 in direct appropriations for the Government Accountability Office (GAO), plus \$7,635,000 in offsetting collections derived from reimbursements for conducting financial audits of government corporations and rental of space in the GAO building. This amount is \$31,252,000 above the current level and is \$7,152,000 below the budget request.

Technology Assessment Studies.—Funding continues to be provided for GAO to conduct technology assessment studies that provide early indications of the probable beneficial and adverse impacts of the application of technology and develop other related information that may assist the Congress during deliberations on pending legislation. GAO is reminded that for the assessments to be of benefit to the Congress, GAO must reach out and work with both bodies of Congress regarding these studies.

Comptroller General Annuity.—The lifetime salary annuity provided to the Comptroller General after completion of a 15-year term is extravagant, particularly in the current economic climate. GAO is directed to contract with the National Academy of Public Administration for the latter to conduct an independent review of the structure and compensation of the position and determine whether the existing lifetime salary annuity is necessary to preserve the Comptroller General's independence. The review should include a comparison of the Comptroller General annuity to the retirement benefits offered for other federal positions of a similar character where independence is a key concern, and explain whether the Comptroller General's position truly requires a full-salary annuity benefit to preserve independence if other positions of a similar character do not. The results of this review are to be provided to the Committees on Appropriations no later than July 31, 2009.

ADMINISTRATIVE PROVISIONS

Section 1301 repeals a number of outmoded Congressional mandates for GAO audits.

OPEN WORLD LEADERSHIP CENTER TRUST FUND

The bill includes \$13,900,000 for payment to the Open World Leadership Center Trust Fund. This is \$4,922,000 above the current level and is the same as the budget request.

Open World Funding.—A large portion of the Open World program is devoted to judicial issues, issues of interest to the State Department, and issues related to the legislative process. The strain on Legislative Branch resources from continuing to fund this program is difficult to sustain. Since significant emphasis is being placed on judicial issues and on issues of interest to the State De-

partment, a shared funding for this program would be appropriate. Therefore, the Open World Leadership Center Board of Trustees is directed to work with the Department of State and the Judiciary to assess the feasibility of shared funding for this program. The Board of Trustees is expected to pursue this avenue of potential shared funding and report back to the Committees on Appropriations of the House and Senate no later than May 30, 2009.

JOHN C. STENNIS CENTER FOR PUBLIC SERVICE TRAINING AND DEVELOPMENT

The bill includes \$430,000 for the John C. Stennis Center for Public Service Training and Development. This amount is \$1,000 more than the current level and is the same as the budget request.

TITLE II—GENERAL PROVISIONS

The bill includes nine general provisions carried in prior fiscal years. Section 210 prohibits Inspectors General of the Library of Congress and the Architect of the Capitol from using appropriated funds to purchase, maintain, or carry firearms.

DISCLOSURE OF EARMARKS AND CONGRESSIONALLY DIRECTED SPENDING ITEMS

Following is a list of congressional earmarks and congressionally directed spending items (as defined in clause 9 of rule XXI of the Rules of the House of Representatives and rule XLIV of the Standing Rules of the Senate, respectively) included in the bill or this explanatory statement, along with the name of each Senator, House Member, Delegate, or Resident Commissioner who submitted a request to the Committee of jurisdiction for each item so identified. Neither the bill nor the explanatory statement contains any limited tax benefits or limited tariff benefits as defined in the applicable House and Senate rules.

(b) Any individual on the list compiled under subsection (a) shall be ineligible for admission to the United States.

(c) The Secretary may waive the application of subsection (b) if the Secretary determines that admission to the United States is necessary to attend the United Nations or to further United States law enforcement objectives, or that the circumstances which caused the individual to be included on the list have changed sufficiently to justify the removal of the individual from the list.

(2) the Government of Sri Lanka is providing access to humanitarian organizations and journalists throughout the country consistent with international humanitarian law; and

DIVISION H

DEPARTMENT OF STATE, FOREIGN OPERATIONS, AND
RELATED PROGRAMS APPROPRIATIONS ACT, 2009

TITLE I

DEPARTMENT OF STATE AND RELATED AGENCY

DEPARTMENT OF STATE

ADMINISTRATION OF FOREIGN AFFAIRS

DIPLOMATIC AND CONSULAR PROGRAMS

(INCLUDING TRANSFER OF FUNDS)

The bill provides \$5,360,318,000 for Diplomatic and Consular Programs, which is \$819,231,000 above the fiscal year 2008 level, excluding emergency appropriations, and \$3,951,000 below the request. Of these funds, \$4,243,318,000 is for ongoing operations, including public diplomacy activities, and \$1,117,000,000 is for Worldwide Security Protection. The bill separates the functions funded under this heading to provide more transparency. The Department of State may reprogram funds as required, subject to consultation with, and notification of, the Committees on Appropriations. The functions are allocated as follows:

Human resources.—\$2,118,598,000 for all American salaries at overseas and domestic United States diplomatic missions.

Overseas programs.—\$1,548,617,000 for the operational programs of regional bureaus of the Department of State, which are responsible for managing United States foreign policy through bilateral and multilateral relationships. Funds made available for fiscal year 2009 will support 267 United States embassies, consulates, and other diplomatic posts worldwide.

Diplomatic policy and support.—\$585,078,000 for the operational programs of the functional bureaus of the Department of State to provide overall policy direction, coordination and program management among United States missions abroad.

Security programs.—\$1,108,025,000 for the operation of security programs, including for Worldwide Security Protection (WSP) and

⁴This Explanatory Statement was submitted for printing the *Congressional Record* on February 23, 2009, prior to House consideration of the bill and as directed by the House of Representatives in section 2 of H. Res. 92 (as amended by section 2 of H. Res. 108). The Statement appears in the February 23 *Congressional Record*, beginning on page H1653.

the Bureau of Diplomatic Security, to protect diplomatic personnel, overseas diplomatic missions, residences, domestic facilities and information. In addition to WSP programs, \$134,927,000 is included within the Human Resources function, equal to the request, for salaries to make up the total amount in the bill for security protection worldwide.

In addition, the bill includes authority to collect \$8,110,150 from certain authorized fees and payments. The Department of State also projects that \$2,124,458,000 will become available in fiscal year 2009 from authorized fee revenues for the Border Security Program of the Department of State, including an increase of \$64,396,000 to continue to improve passport processing operations.

The bill includes authority for the Secretary of State to transfer up to \$10,000,000 of the funds available under this heading to funds available under the "Emergencies in the Diplomatic and Consular Service" heading for emergency evacuations and rewards payments, as authorized.

Enhancing Diplomatic Staffing and Readiness

Increasing the Department of State personnel capacity and capabilities is a priority in this bill. Diplomatic staffing increases resulting from the Diplomatic Readiness Initiative undertaken by the Department of State and the Committees on Appropriations between fiscal years 2002 through 2004 were depleted due to the Department's decision to move more positions to Iraq and Afghanistan. This has led to vacancies at many posts overseas and has inhibited necessary training of diplomatic personnel in critical languages. The bill provides funding to fill vacant positions, expand critical language training and place more diplomats in countries where there is a growing United States strategic interest. Within the funds made available in this Act, and in Public Law 110-252, the Secretary of State should have sufficient resources to hire the 500 positions proposed in the fiscal year 2009 request. In this process, the Secretary is urged to further reduce domestic positions to bolster areas critical to United States interests around the world, such as public diplomacy and consular services.

There has been a longstanding concern with the disparity in pay between rank and file Foreign Service Officers (FSOs) and senior FSOs, whose pay is tied to the locality paid in the District of Columbia. This disparity has damaged morale, caused attrition in the Foreign Service and made it difficult to attract new hires. The bill provides \$41,000,000, as requested, to eliminate this disparity by paying eligible members of the Foreign Service up to the amount of the locality-based comparability payment that would be payable as if their official duty station were in the District of Columbia. The relevant authorizing committees are urged to pass legislation expeditiously authorizing the use of these funds.

Worldwide Security Protection

The bill provides \$1,117,000,000 for Worldwide Security Protection.

Security training.—The fiscal year 2009 budget request included \$17,551,000 to develop a consolidated training center for the Bureau of Diplomatic Security to provide expanded hard and soft

skills security training to foreign affairs community members serving in increasingly dangerous environments overseas. The Secretary of State shall consult with the Committees on Appropriations in advance of funds being made available for this purpose and shall provide the Committees with regular updates on the status of the project.

Visa and passport security plan.—The Department of State’s ongoing work to both detect and disrupt terrorist travel continues to be supported in this bill and funds are included to support additional investigative agents and support staff personnel to enhance visa and passport security.

Funding Directives

Cultural heritage.—The Department of State is directed to provide \$6,500,000 to preserve cultural heritage through Department of State programs and activities, of which \$5,500,000 shall be for the Ambassador’s Fund for Cultural Preservation including for at least two large projects of approximately \$500,000 each, and \$1,000,000 shall be for the Cultural Antiquities Task Force. The Department of State should consult with the Committees on Appropriations prior to the obligation of funds.

Human rights monitoring.—The Secretary of State is directed to increase the number of human rights officers assigned to Beijing, People’s Republic of China, and submit a report to the Committees on Appropriations not later than 90 days after enactment of this Act on these efforts.

Intelligence and research.—The bill includes sufficient funding to support the fiscal year 2009 request for the Bureau of Intelligence and Research. In addition, section 7034(l) makes available \$5,000,000, from funds appropriated under the “Economic Support Fund” heading to continue the Program for Research and Training on Eastern Europe and the Independent States of the Former Soviet Union (title VIII).

Iraq diplomatic operations.—The Department of State is strongly urged to regularize the planning and budgeting for diplomatic operations in Iraq, to include rightsizing of personnel, and the fiscal year 2010 budget request should include funding for ongoing functions.

IT security and coordination.—The Department of State is directed to provide sufficient funds for IT security programs, and, through a consultative process, to improve coordination of IT and cybersecurity programs with other United States Government agencies, particularly the United States Agency for International Development (USAID) and the Department of Defense.

Monitoring of military training and equipment.—While considerable effort is made by the Department of State to vet candidates for United States military training, effectiveness varies significantly among embassies and there have been gaps and weaknesses. In addition, little is done to track the uses of equipment, including weapons and ammunition, which is provided to foreign forces. The bill provides \$2,000,000 above the request to the Bureau of Democracy, Human Rights, and Labor for these purposes, which continues an initiative begun in fiscal year 2008. These funds are subject to prior consultation with the Committees on Appropriations.

Public diplomacy.—The bill includes a total of \$394,806,000 for public diplomacy, including \$264,169,000 for programs and \$130,637,000 for salaries under this heading, and an additional \$11,000,000 is available in fee revenue generated by the Border Security Program, equal to the request.

Soft targets.—The Department of State shall provide \$25,500,000 for security enhancements to soft targets such as overseas schools and residential compounds. Additional funds should be used in countries and regions impacted by political instability.

Special representative and policy coordinator for Burma.—The Department of State shall provide necessary administrative expenses, including salary and travel, for the Policy Coordinator for Burma, as authorized by section 7 of the Tom Lantos Block Burmese JADE (Junta's Anti-Democratic Efforts) Act of 2008 (Public Law 110–286).

Tibet.—The Secretary of State should ensure that the Department of State, the USAID, and the Broadcasting Board of Governors (BBG) allocate funds provided in this bill for Tibetan programs in a manner that reflects the commitment of the United States Government to the Tibetan people in the areas of democracy promotion, refugee assistance, scholarships, exchange programs, and radio broadcasts in Tibet.

The Department of State shall provide up to \$1,000,000 to establish a Tibet Section within the United States Embassy in Beijing, People's Republic of China for the purposes of following political, economic, and social developments inside Tibet, including Tibetan areas of Qinghai, Sichuan, Gansu, and Yunnan provinces, until such time as a United States Consulate in Tibet is established. This section shall have the primary responsibility for reporting on human rights issues in Tibet, shall work in close cooperation with the Office of the Special Coordinator for Tibetan Issues, and the Tibet Section Chief should be of senior rank. In addition, \$1,000,000 is recommended to support the Special Coordinator for Tibetan Issues.

Trafficking in persons.—Sufficient funding is provided to increase the number of personnel in the Office to Monitor and Combat Trafficking in Persons to respond to the growing worldwide problem of human trafficking.

Other Issues and Directives

Adoption task force.—The Governments of Vietnam and Guatemala have recently restricted adoptions of orphans by families in the United States until new regulations can be developed, and thousands of adoptions already in process are being required to undergo further investigation or have been halted altogether. The Department of State and the Department of Homeland Security are directed to establish a temporary task force similar to the one employed in Cambodia in 2001 to accommodate the increased workload and assist in the resolution of outstanding issues. The Secretary of State shall report to the Committees on Appropriations not later than June 1, 2009, on actions taken and overall progress in negotiating new bilateral agreements.

Consular affairs reform.—The bill includes a provision, section 7006, requiring that all Inspector General recommendations re-

garding the Department of State's Passport Information Electronic Records System are implemented. In addition, the Department of State should examine best practices to maintain a high standard of personal privacy for all information shared with other agencies.

Consular services demonstration.—The Department of State should report on the implementation of a demonstration program to expand access to consular services through the use of alternative interview techniques such as videoconferencing or mobile consular units as authorized by section 565 of Public Law 110–161.

Disability coordinator.—In order to ensure the integration of people with disabilities in policies, programs, activities, outreach and staff opportunities, the Department of State should establish a dedicated, full-time Disability Coordinator and consult with the Committees on Appropriations not later than 90 days after enactment of this Act on efforts to address this issue.

Foreign Service Institute.—The Director of the Foreign Service Institute is urged to develop a program that educates United States diplomats and foreign service officers on the major world religions and provides training in techniques of interfaith dialogue and conflict resolution.

Interagency task force.—The bill includes funds to continue the operation of a United States Government Interagency task force to continue the monitoring of the United Nations headquarters renovation project.

Management.—With the consolidation of oversight for Department of State operations and foreign assistance programs under the jurisdiction of one appropriations subcommittee, the lack of coordination within the Department between budget, policy and planning related to assistance programs and operations has come into focus. As additional resources are requested to expand diplomatic staff and training, the Department of State should seek to more effectively synchronize operational and foreign assistance funding and programs.

The Department of State's top priority must be to meet the personnel requirements of its traditional diplomacy functions. The Administration is encouraged to improve existing frameworks, procedures and regulations, including those at the National Security Council, which will bolster the Department of State and USAID's responsibility and oversight of United States diplomacy and foreign assistance.

Minority recruitment.—The bill includes funds requested to continue the educational partnerships focused on recruiting and preparing students from various institutions with large minority populations for positions in the Foreign Service. These programs assist the ongoing efforts to increase minority hiring and diversity by facilitating the preparation of non-traditional and minority students for careers in the Foreign Service and the Department of State.

Office of Defense Trade Controls Licensing.—The Secretary of State should ensure that the Office of Defense Trade Controls Licensing has the necessary budgetary resources and staff to fulfill its responsibilities in a timely and effective manner.

Saudi Arabia.—The Secretary of State is directed to monitor the implementation of the Government of Saudi Arabia's policies relating to religious practice and tolerance, announced in July 2006, and

make these issues a regular part of the United States-Saudi Arabia Strategic Dialogue. The Secretary of State is further directed to provide a report to the Committees on Appropriations not later than 120 days after enactment of this Act on the progress and issues raised through this dialogue.

Science programs.—The Department of State is encouraged to sustain support for the variety of science fellowship programs and to increase the science and technology capacity within the Department of State.

Western Hemisphere Travel Initiative (WHTI).—The Secretary of State is directed to continue to monitor implementation of the WHTI according to the statutory deadline of no earlier than June 1, 2009, and, as needed, to increase temporary staffing to quickly respond to increases in demand for passports or passport cards. The Department of Homeland Security and the Department of State are directed to provide quarterly briefings to the Committees on Appropriations on progress being made in meeting these requirements.

CIVILIAN STABILIZATION INITIATIVE

The bill provides \$45,000,000 under this heading for the Civilian Stabilization Initiative (CSI). In addition, \$30,000,000 is provided under title II, for a total of \$75,000,000 in this bill to stand-up, equip and deploy a coordinated civilian response capacity at the Department of State and USAID. These funds are in addition to \$65,000,000 provided in Public Law 110–252.

Funds made available for CSI in fiscal year 2009 are to be allocated only for the active and standby response corps and to support the operations of the Office of the Coordinator for Reconstruction and Stabilization. In total, \$140,000,000 is available for this initiative in fiscal year 2009, which is \$108,631,000 below the request.

Within the funds made available for CSI in fiscal year 2009, including supplemental funds, up to \$23,014,000 may support the administrative expenses for the Office of the Coordinator for Reconstruction and Stabilization.

The bill includes a proviso requiring the Secretary of State and the USAID Administrator to submit a coordinated joint spending plan and integrated implementation strategy for funds made available in fiscal years 2008 and 2009 for the CSI not later than 60 days after enactment of this Act.

The President may exercise existing transfer authority provided in the Foreign Assistance Act of 1961 and this Act only to support an actively deployed civilian response corps and not for the regular operations of this initiative, after consulting with and notifying the Committees on Appropriations. The President should be judicious in the use of this authority.

The Department of State, in consultation with USAID, is directed to submit in writing to the Committees on Appropriations not later than 180 days after enactment of this Act, a clarification of the relationship between the CSI and: (1) existing international disaster response capabilities of the United States Government and funding sources (including under the “International Disaster Assistance” and “Transition Initiatives” headings), and (2) the De-

partment of Defense disaster response capabilities, assets and authorities.

CAPITAL INVESTMENT FUND

The bill provides \$71,000,000 for the Capital Investment Fund, which is \$11,425,000 above the fiscal year 2008 level and the same as the request.

OFFICE OF INSPECTOR GENERAL

The bill provides \$37,000,000 for the Office of Inspector General, which is \$3,267,000 above the fiscal year 2008 level, excluding emergency appropriations, and \$1,492,000 above the request. The bill includes a proviso, carried in prior years, that waives the statutory requirement that every post be inspected every five years, in order to provide flexibility to the Inspector General to direct the funds provided to the areas of highest need.

EDUCATIONAL AND CULTURAL EXCHANGE PROGRAMS

The bill provides \$538,000,000 for Educational and Cultural Exchange Programs, which is \$36,653,000 above the fiscal year 2008 level, excluding emergency appropriations, and \$15,556,000 above the request. Funds are allocated in the following table, subject to the requirements of section 7019 of this Act:

Every program for which funding is enumerated in the previous table is established pursuant to an act of Congress; is a program for which funding is authorized by an act of Congress; or is included in the budget request for fiscal year 2009.

Funding is included above the prior year level in the Fulbright Program, Gilman International Scholarship Program, English Language Programs, and Educational Advising and Student Services to expand opportunities for United States students to study abroad. Additional resources should be used to increase direct grants to students, replicate existing capacity in targeted regions at quality overseas educational institutions, especially in developing countries, and engage United States educational institutions to reduce barriers to study abroad.

Taking into account current programs that support these goals and proposed legislation, the Department of State should develop a coordinated strategy to expand exchange programs to reach a greater number of Americans and foreigners from non-traditional backgrounds, particularly low income and minority populations. This strategy should inform the Administration's planning and budgeting in the near and long-term to expand exchanges and to better focus on interrelated advantages of existing programs which will ultimately benefit United States public diplomacy goals.

The Department of State should continue support for several ongoing international exchange programs with Eurasia and Eastern Europe, and the Muskie Graduate Fellowship program. In addition, the Department of State is expected to continue funding for the Future Leaders Exchange programs; the American-Serbia and Montenegro Youth Leadership Exchange; the Junior Faculty Development Program; the Language, Technology, Math and Science Exchange; citizen exchange activities of Sister Cities International; cultural exchange programs in music and the arts; and increased exchanges with Africa and countries with significant Muslim populations.

Women and exchanges.—The Department of State is urged to fund professional exchanges for women in areas relating to business development, trade, leadership, and private and public sector management to enhance the economic development of participants and their countries.

Youth Exchange and Study Program.—The bill provides \$23,000,000 to support the goals of this program and encourages its growth in countries with significant Muslim populations, where the perception of the United States faces the greatest challenges. In commemoration of the fifth anniversary of the program and in recognition of the impact of the program in promoting dialogue, increasing understanding and enhancing cultural diplomacy between the United States and foreign countries, it is recommended that the program be named in honor of its originators, subject to prior consultation with the Committees on Appropriations.

One-time International Exchange Grant Program.—The bill provides \$6,000,000 for one-time competitive grants for international exchanges. Grants shall address issues of mutual interest to the United States and other countries, consistent with the program criteria established in Public Law 110–161. Programs shall support the actual exchange of people and should benefit a population that is not being addressed through existing authorized exchanges. The Department of State shall submit a report of those organizations that are eligible for a grant and, not later than September 1, 2009, submit a report to the Committees on Appropriations describing the grant recipients and intended use of funds.

Programs which received funding under this one-time grant program in fiscal year 2008, or which were listed in the explanatory statement but did not apply, are not listed for consideration in fiscal year 2009. Programs listed in the fiscal year 2008 explanatory statement that applied, but did not receive funding, also are not listed but should be considered eligible for the fiscal year 2009 program. The Department of State is encouraged to consider new proposals for one-time funding from previously funded grantees within discretionary funding if they meet appropriate guidelines. The comparable level for fiscal year 2008 includes \$75,000,000 appropriated under the "Capital Investment Fund of the United States Agency for International Development" heading.

The bill provides funding for USAID's overseas facility construction program under this heading, rather than under USAID's "Capital Investment Fund" heading, as requested and as provided in fiscal year 2009. The Department of State and USAID are directed to work in concert to manage overseas facilities to more effectively and efficiently meet United States foreign affairs objectives. Coordination should include worldwide facilities assessments, planning, requests for funding, and implementation of facilities construction and maintenance activities.

The Secretary of State is directed to submit an annual plan on the joint requirements of the Department of State and USAID, including planned facilities upgrades and new construction for each fiscal year. The Secretary of State also is directed to report to the

The Office of Management and Budget is directed to request sufficient funds to pay annual assessed dues and any accumulated arrears to international organizations, and the Department of State is encouraged to evaluate the benefit of United States membership on an annual basis.

The decision to incorporate the United Nations (UN) Procurement Task Force (PTF) into the Office of Internal Oversight Services (OIOS) must not result in a diminished commitment by the UN to continue effective fraud and corruption investigations. Over the past three years, the PTF has been effective by identifying more than 20 significant fraud and corruption schemes in cases with an aggregate contract value in excess of \$630,000,000. The results of the PTF (and the Oil for Food investigations and prosecutions) underscore the need for the UN to be vigilant in protecting the integrity of donor funds. Eighty-five percent of UN procurement supports peacekeeping operations, and according to GAO, peacekeeping field procurement has not been effectively reformed and remains a high-risk area for fraud and abuse.

The UN should affirm its commitment to a strong oversight body, which is independent and resistant to retaliation by UN employees and their respective governments. The Department of State is directed to make procurement reform a top priority at the UN and to ensure that sufficient resources are made available for vigorous procurement oversight and investigation capabilities.

The Department of State is directed to report to the Committees on Appropriations not later than 120 days after enactment of this Act on the voting practices of UN member states for the current and past three years on matters regarding Iran, Israel, Sudan, and Zimbabwe, as well as on the reform efforts of the UN.

This amount is in addition to \$150,500,000 provided in Public Law 110-252. The bill includes language (section 7051), as requested by the President, to adjust the authorized level of United States assessments for peacekeeping activities for calendar year 2009 and prior years from 25 percent to 27.1 percent, consistent with the level set in fiscal year 2008 (Public Law 110-161).

The Department of State is directed to provide full funding for the United States assessed contribution to the UN/African Union Hybrid operation in Darfur (UNAMID). The Department shall work with members of the Security Council and countries contributing troops, police, personnel, and equipment to UNAMID, in addition to interested non-governmental organizations, to ensure full and

swift deployment. The Department of State should also ensure that UNAMID personnel receive training on prevention of, and response to, violence against women.

The Department of State is directed to support oversight of peacekeeping missions by the UN's OIOS to identify waste, fraud and abuse, including sexual abuse within every UN peacekeeping mission, and submit to the Committees on Appropriations a performance report on the progress of these efforts.

INTERNATIONAL COMMISSIONS

The bill provides funding to fully meet United States treaty obligations to international commissions in fiscal year 2009 and recognizes that funds are requested under the Department of State as a result of international treaties. However, the Secretary of State is encouraged to examine efficiencies in operations and equipment that could be achieved with other United States Government agencies.

¹ Budget requested funding as a separate account.

The bill includes sufficient funding, including funds provided in Public Law 110–252, and funds provided in Public Law 110–329, in fiscal year 2009 to maintain broadcasting in languages services at the fiscal year 2008 program levels which the BBG proposed to reduce or eliminate in the fiscal year 2009 request. It is recognized that international broadcasting conditions and costs are variable and that estimates for maintaining language services may escalate over the course of a fiscal year due to exchange rate losses or other circumstances. The BBG is directed to notify the Committees on Appropriations of any such modifications to language service levels recommended in the table above for fiscal year 2009.

Sufficient funds are available in fiscal year 2009 to continue VOA and RFA Tibetan broadcasts at the fiscal year 2008 surge levels. Section 7071(c)(3) of the bill directs not less than \$8,000,000 for broadcasting into North Korea through RFA Korea Service and VOA Korea Service.

The BBG is encouraged to continue its ongoing efforts to improve audience reach by utilizing the most effective means of transmission. However, going silent in many critical languages and regions is not supported. In addition, there is concern with the dismantling of shortwave capacity. The BBG should re-examine the capabilities of shortwave radio and continue to deploy it where it is determined to be most effective, particularly to countries where there is limited or no access to independent media.

The BBG is encouraged to explore the potential of digital short-wave technology as a means of delivering high-quality transmissions at low cost to millions of listeners. The BBG also is encouraged to consider whether existing English language broadcast programming can be used by VOA, if authorized standards are met.

The bill includes a provision, section 7041, intended to strengthen transparency, integrity and accountability concerning the content of broadcasts to the Middle East. Programs supported under this heading are intended to reach countries where fair and unbiased local media is limited and therefore broadcasting a variety of views is required. The BBG should continue to pursue free and fair broadcasting, and in particular provide many points of view to maintain balanced reporting. The Board is directed, in conjunction with the MBN, VOA, and RFE/RL, to make public English transcripts on a case by case basis if requested by the Committees on Appropriations. Sufficient funds are included to continue the transparency directives begun in fiscal year 2008 regarding Alhurra.

The Peace Corps' strategy guiding its geographic distribution of volunteers should be examined in light of shifting strategic interests, increasing costs of programs, and limited resources. The Peace Corps did not respond adequately to the report required in the explanatory statement accompanying the Consolidated Appropriations Act, 2008 (Public Law 110-161). In addition to the annual budget justification, the Peace Corps shall submit the required report, not later than 90 days after enactment of this Act, which shall include a detailed description of the criteria used to assign volunteers on a country-by-country basis.

MILLENNIUM CHALLENGE CORPORATION

(INCLUDING TRANSFER OF FUNDS)

The bill provides \$875,000,000 for the MCC, which is \$669,388,000 below the fiscal year 2008 level and \$1,350,000,000 below the request.

Allocation of funding.—The bill includes \$875,000,000 for the MCC in support of its goals to reduce poverty and promote sustainable economic growth and democracy through country compacts. There is concern with the trend of significantly larger country compacts since the MCC's inception. The average size of compacts signed in 2005 was \$181,000,000. By 2008, the average had almost tripled to \$494,666,667.

Between fiscal years 2004-2008, Congress appropriated \$7,500,000,000 for the MCC for 18 country compacts. Of this amount, only \$353,602,831 had been disbursed by the end of fiscal year 2008. In an effort to ensure that the MCC does not become overextended, that existing compacts are meeting their goals, and future compacts are of a manageable size, the MCC is urged to limit compact size to not more than \$350,000,000 in fiscal year 2009. There is also a concern that threshold programs are not meeting their targets, and that a review of the efficacy of these programs is needed before additional threshold programs are begun. The MCC shall consult with the Committees on Appropriations prior to implementing new threshold programs.

Compact implementation.—Several compacts are scheduled to be completed in 2010. Due to delays in implementation, several of them may not complete their programs within the five-year compact time limit. The MCC shall consult with the Committees on Appropriations on the status of the compacts on a regular basis. The MCC shall notify the Committees on Appropriations imme-

diately if the compact program will not be completed, in order to allow for consideration by Congress of an extension of the five-year time limit.

Contracting and procurement.—The MCC is directed to provide a report to the Committees on Appropriations not later than 120 days after enactment of this Act on actions taken to ensure that United States small, minority-owned, and disadvantaged business enterprises are able to fully participate in the provision of goods and services that are financed with funds made available to the MCC.

Indicators.—The MCC Board of Directors is urged to consider the establishment of an indicator to take into consideration the votes and positions of countries in international and multilateral institutions with respect to internationally recognized human rights, including religious freedom.

Report.—The MCC is directed to submit a report to the Committees on Appropriations not later than 180 days after enactment of this Act describing the MCC's post-compact country transition plan, including how the investment in each compact will be utilized, continued and/or maintained by each country in the future.

The provision is similar to section 649 of the fiscal year 2008 Act except that the provision provides that any changes shall be subject to the regular notification procedures; withholds 30 percent of the assistance for the Colombian military due to human rights concerns; and applies the conditions not only to individuals who have aided or abetted paramilitaries or successor armed groups, but also to those who have benefitted financially, politically, or otherwise, from such links. Similar language is included regarding the denial of visas. The bill moves the lan-

Controller Staffing and Training.—The bill requires FAA to transmit an annual update to the controller workforce plan by March 31, 2009, and reduces the appropriation by \$100,000 per day each day the report is late. The FAA is directed to include facility-by-facility data as well as a new benchmark for each facility for evaluating the proportion of certified controllers to controllers-in-training and developmental controllers. The agency is also expected to promptly implement strategies from the 2004 controller workforce plan and directs that the 2009 workforce plan include an update on the agency's progress. Funding under this heading also includes \$15,000,000 for controller training activities including additional contract trainers; for expenses needed to retain experienced controllers and to attract controllers at needed locations; and to accelerate the hiring pace of new controllers. The FAA is directed to provide a report to the House and Senate Committees on Appropriations within 30 days of enactment that describes the agency's use of the controller training funds.

Contract tower program.—The bill includes \$110,000,000 for the contract tower base program and \$9,000,000 for the contract tower cost-sharing program. In addition, the FAA is permitted to use unsubscribed funds from the contract tower base line program to avoid elimination of communities from the cost share towers pro-

gram, but only after all base line tower obligations have been fulfilled.

Technical staffing requirements.—The FAA is directed to carefully monitor the size and capability of its technical workforce and to maintain agreed upon staffing levels. The FAA is directed to provide semi-annual updates to the House and Senate Committees on Appropriations as to the agency's technical staffing levels.

RNAV/RNP procedures.—Within the amounts provided for the air traffic organization, \$39,200,000 is included for RNAV/RNP procedures. FAA is directed to include a dedicated section for the FAA's performance based navigation program in future budget submissions and to provide semi-annual reports to the House and Senate Committees on Appropriations on the number of procedures developed, average cost and steps taken to streamline the procedure approval process.

TRACON security staffing.—The FAA is directed to evaluate the security staffing needs at the TRACON in Seattle, Washington and then allocate the appropriate level of staff to address any shortfall.

Aviation safety (AVS).—The bill provides \$1,164,597,000 for aviation safety, which is an increase of \$33,670,000 over the budget request and \$82,995,000 over the fiscal year 2008 enacted level. This amount includes \$16,900,000 to annualize safety personnel in AFS and AIR that are currently on-board. The bill includes no less than \$10,000,000 to increase aviation safety staff of which \$8,000,000 is directed for additional flight standards inspectors and \$2,000,000 is directed for aircraft certification inspectors and related staff.

The Secretary is directed to continue to provide an annual report on aviation safety employment data which delineates inspector losses and gains from the beginning of fiscal year 2009 until March 31, 2009. The report is due to the House and Senate Appropriations Committees by April 10, 2009. In addition, the FAA is expected to include the fully annualized cost of the additional inspectors in the fiscal year 2010 budget. If the FAA chooses not to fund these inspectors, the agency is directed to display changes to the aviation safety base program and how many inspector positions would be affected.

Additionally, the FAA is directed to establish a working group, including safety inspectors, to develop a benchmark to measure how much time inspectors spend in the field and to include that benchmark in the next inspector workforce plan. FAA is directed to provide semi-annual reports to the House and Senate Appropriations Committees on all overdue safety attribute inspections and element performance inspections including a target completion date.

Air transportation oversight system (ATOS).—The Department of Transportation Office of Inspector General (OIG) is directed to submit a report to the House and Senate Committees on Appropriations within six months of enactment which verifies the ATOS field data that is sent to FAA headquarters; describes the agency's analysis of that data; and, evaluates the effectiveness of FAA's use of the data.

Inspector staffing model.—The FAA is directed to notify the House and Senate Committees on Appropriations if the agency is

30 days delinquent on any of the milestones related to the safety inspector staffing model.

Medallion program.—Within the funds provided for aviation safety, \$2,375,000 is included to continue the Medallion program, a cooperative program to improve rural air safety in Alaska.

Professional aerial application support system.—The recommendation includes \$47,500 for the National Agricultural Aviation Research and Education Foundation’s Professional Aerial Application Support System. This program is designed to assist with agricultural pilot safety, operational security and the safe and accurate delivery of crop protection products.

Commercial space transportation.—The FAA is directed to provide semi-annual updates to the House and Senate Committees on Appropriations on commercial airspace test flight activities.

Workforce diversity plans for controllers and safety staff.—The FAA is directed to provide a further update to the workforce diversity plan required in fiscal year 2008 in order to measure the progress and specific efforts that the agency has made to eliminate barriers for underrepresented populations in the FAA’s controller and safety workforce. The submittal date for the plan is April 1, 2009.

FACILITIES AND EQUIPMENT

(AIRPORT AND AIRWAY TRUST FUND)

The bill includes \$2,742,095,000 for FAA facilities and equipment which is \$18,585,000 above the budget request and \$228,484,000 above the fiscal year 2008 enacted level. Of the total amount available, \$460,500,000 is available until September 30, 2009, and \$2,281,595,000 is available until September 30, 2010. The bill includes language directing FAA to transmit a detailed five-year capital investment plan to Congress with its fiscal year 2010 budget submission. Additionally, the bill requires FAA to conduct an analysis of the current air traffic control system compared to the planned NextGen system and to transmit with the fiscal year 2010 budget a list of capabilities to be achieved by 2017 and their estimated costs.

ADMINISTRATIVE PROVISIONS—FEDERAL AVIATION ADMINISTRATION

Section 110 allows no more than 600 technical staff-years at the Center for Advanced Aviation Systems Development.

Section 111 prohibits funds for adopting guidelines or regulations requiring airport sponsors to provide FAA “without cost” building construction or space.

Section 112 allows the FAA to be reimbursed for amounts made available for 49 U.S.C. 41742(a)(1) as fees are collected and credited under 49 U.S.C. 45303.

Section 113 allows reimbursement of funds for providing technical assistance to foreign aviation authorities to be credited to the operations account.

Section 114 prohibits funds from being used to change weight restrictions or prior permission rules at Teterboro Airport in New Jersey.

Section 115 prohibits funds from being used to promulgate regulations that allow the Secretary of Transportation to auction air slots, impose congestion pricing at an airport, exact an air slot from a carrier, charge a fee for the right to use a specified portion of airspace, or establish policies that would encourage an airport to undertake such actions.

Section 116 prohibits funds limited in this Act for the Airport Improvement Program to be provided to an airport that refuses a request from the Secretary of Transportation to use public space at the airport for the purpose of conducting outreach on air passenger rights.

Section 117 requires the FAA Administrator to respond to the Committees on Appropriations and Commerce, Science and Transportation in writing within 60 days of the publication of any Government Accountability Office report on airspace redesign over the New York, New Jersey and Philadelphia region on the actions the agency intends to take in order to address any concerns or recommendations contained in the GAO report.

Section 118 allows all airports experiencing the required level of boardings through charter and scheduled air service to be eligible for funds under 49 U.S.C. 47114(c).

FEDERAL HIGHWAY ADMINISTRATION

LIMITATION ON ADMINISTRATIVE EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The bill limits obligations for administrative expenses of the Federal Highway Administration (FHWA) to \$390,000,000, which is \$4,880,000 less than the budget request and \$12,444,000 more than the fiscal year 2008 enacted level. The bill also includes language to make \$3,524,000 in contract authority above this limitation available to the Office of Inspector General (OIG) to conduct audits and investigations related to the FHWA and \$300,000 in contract authority above this limitation for the OIG’s annual audit

of the FHWA’s financial statements. In addition, \$3,124,000 in contract authority above this limitation is made available for the administrative expenses of the Appalachian Regional Commission in accordance with section 104 of title 23, United States Code.

(LIMITATION ON OBLIGATIONS)
(HIGHWAY TRUST FUND)

The bill limits obligations for the federal-aid highways program to \$40,700,000,000 in fiscal year 2009, which is \$1,301,271,774 more than the budget request and \$483,948,641 more than the fiscal year 2008 enacted level for the regular federal-aid highways program.

The bill also includes language which allows the Secretary to charge and collect fees from the applicant for a direct loan, guaranteed loan, or line of credit to cover the cost of the financial and legal analyses performed on behalf of the Department as authorized under section 605(b) of title 23, United States Code. The fees so collected are not subject to any obligation limitation or the limitation on administrative expenses set for the infrastructure finance program under section 608 of title 23, United States Code.

Bridges.—The FHWA is directed to complete its initiatives to use a more risk-based, data-driven approach to its bridge oversight, take steps to address holes in the bridge oversight process, and achieve results from its efforts. Furthermore, the FHWA is directed to move forward with this process expeditiously and to provide semi-annual updates to the House and Senate Committees on Appropriations on the agency’s progress toward improving its oversight of bridge safety.

Interstate cost estimate.—The FHWA is directed to work with the appropriate State and local parties to expeditiously award funds that still remain available to Milwaukee, Wisconsin, for an Interstate substitution project authorized by section 1045 of Public Law 102–240, as amended, and for which a resolution regarding the disposition of these funds has been proposed allotting forty percent of the funds for Milwaukee County to purchase energy efficient buses and sixty percent for the downtown Milwaukee fixed rail circulator.

(LIQUIDATION OF CONTRACT AUTHORIZATION)

(HIGHWAY TRUST FUND)

The bill provides a liquidating cash appropriation of \$41,439,000,000, which is available until expended, to pay the outstanding obligations of the various highway programs at the levels provided in this Act and prior appropriations Acts, instead of \$39,500,000,000 as proposed in the budget request.

The bill rescinds \$3,150,000,000 of the unobligated balances of funds apportioned to the States under chapter 1 of title 23, United States Code, as proposed by the President's budget. The bill also excludes safety programs and funds set aside within the State for population areas from this rescission and includes a provision that provides States with flexibility in how this rescission is applied.

APPALACHIAN DEVELOPMENT HIGHWAY SYSTEM

The bill provides \$9,500,000 for the Appalachian Development Highway System to be allocated for West Virginia Corridor H, which is \$9,500,000 more than the request and \$6,180,000 below the fiscal year 2008 enacted level.

FEDERAL MOTOR CARRIER SAFETY ADMINISTRATION

MOTOR CARRIER SAFETY OPERATIONS AND PROGRAMS

(LIQUIDATION OF CONTRACT AUTHORIZATION)

(LIMITATION ON OBLIGATIONS)

(HIGHWAY TRUST FUND)

(INCLUDING RESCISSION)

The bill includes a liquidation of contract authorization and a limitation on obligations of \$234,000,000 for the operating expenses of and motor carrier safety research by the Federal Motor Carrier Safety Administration (FMCSA). Of this limitation, \$8,500,000 is to remain available for obligation until September 30, 2011. The bill rescinds \$4,839,259 in unobligated balances from motor carrier safety operations. The bill provides funding in the following manner:

Program	Funding
Operating expenses	\$177,500,000
Research and technology	8,500,000
Information management	34,445,000
Regulatory development	9,680,000
Outreach and education	2,875,000
Commercial motor vehicle operators grants	1,000,000

The bill prohibits any funds relating to outreach and education from being transferred to another agency. Of the funds provided for information management, at least \$12,849,000 is directed solely for the COMPASS initiative. Funds provided for regulatory development shall only be used for the development of regulations, standards, and guidance.

High risk carriers.—FMCSA is directed to spend an additional \$500,000 to increase the number of compliance reviews on high risk carriers. The agency should achieve this increase by reducing other low priority expenses within its operations budget outside of the areas of inspection and enforcement. The bill directs FMCSA to provide semiannual reports to Congress on the agency's progress in meeting the high risk carrier requirements contained in SAFETEA-LU. The reports are due March 30, 2009, and September 30, 2009.

Americans with Disabilities Act compliance.—In July 2008, the Over-the-Road Bus Transportation Accessibility Act of 2007 was signed into law. This law makes clear FMCSA's responsibility to enforce ADA regulations related to motorcoach accessibility. Under this law, FMCSA must deny or revoke operating authority to any over-the-road bus operator violating DOT's ADA requirements. FMCSA is directed to include information in its fiscal year 2010 budget submissions on how it has used this authority, providing detailed information on the number of enforcement actions and operation authority revocations or denials that have resulted from this law.

Reports.—In past years FMCSA has submitted reports to the Committees on Appropriations woefully past the report's deadline. To underscore the importance of these reports, if the pattern of lateness continues in fiscal year 2009 the Committees will consider including language reducing the amount of the agency's appropriation by \$100,000 for each day any report is late. Any reduction levied will be taken from the Office of the Administrator.

FMCSA is directed to submit a letter report to the Committees on Appropriations by April 1, 2009, providing a detailed timeline for the implementation of a national database of positive and refusal-to-test drug and alcohol test results.

Research and technology funding report.—FMCSA is directed to submit a report to the Committees on Appropriations by May 1, 2009, that outlines how all of its research and technology funding will be utilized. It is expected that the FMCSA research and technology program will focus on bringing low cost, effective safety technologies to commercial motor vehicle carriers, such as braking and lane departure warning systems.

Spend plan.—FMCSA is directed to submit a spend plan to the Committees on Appropriations which details the timeline, cost, and capability of CSA 2010 through full deployment within 90 days of enactment of this act.

COMPASS funding.—FMCSA is directed to submit a report to the Committees on Appropriations by April 15, 2009, that describes in detail how COMPASS funding will be utilized in fiscal year 2009 and what functions this funding will provide to the agency and its users.

The bill includes a provision carried since fiscal year 1996 that prohibits NHTSA from obligating or expending funds to plan, finalize, or implement any rulemakings that would add requirements pertaining to tire grading standards that are not related to safety performance.

OPERATIONS AND RESEARCH
 (LIQUIDATION OF CONTRACT AUTHORIZATION)
 (LIMITATION ON OBLIGATIONS)
 (HIGHWAY TRUST FUND)

The bill provides an appropriation for liquidating cash of contract authorization of \$105,500,000 from the highway trust fund for payment of obligations incurred in carrying out the provisions of the highway safety research and development program as authorized by section 403 of title 23, United States Code, and specifies that the funds are available until expended.

The bill limits obligations from the highway trust fund to \$105,500,000 for authorized activities associated with the highway safety research and development program, as proposed by the budget request. Of this limitation, a total of \$26,908,000 shall remain available until September 30, 2010, and shall be in addition to any limitation imposed on obligations in future fiscal years.

The following table summarizes the total funding level provided in the bill for operations and research (general fund and highway trust fund combined) by budget activity. The funds provided from the highway trust fund are to be used consistent with the budget request.

NATIONAL RAILROAD PASSENGER CORPORATION (AMTRAK)

The bill provides a total of \$1,490,000,000 for the operations, capital improvements and debt service to the National Railroad Passenger Corporation (Amtrak).

Budget Request.—Beginning in fiscal year 2010 and thereafter, Amtrak shall submit to the Appropriations Committees a budget request in similar format and substance to those submitted by other executive agencies of the federal government. Specifically, Amtrak shall provide detailed information on its capital programs; normalized and deferred maintenance; a capital backlog estimate by major project, program, activity or category; a state of good repair estimate for the Northeast Corridor; and, all reform initiatives.

OPERATING GRANTS TO THE NATIONAL RAILROAD PASSENGER CORPORATION

The bill provides \$550,000,000 in operating grants to Amtrak; however, it stipulates that the Secretary shall withhold such sums as shall be necessary for the costs associated with the second retroactive wage payment as recommended by Presidential Emergency Board number 232 and shall withhold such funding until at such time as said payments are due. Of the total sum, the bill provides at least \$18,500,000 for Amtrak's office of inspector general.

Unlawful food and beverage sales.—The Inspector General of the Department of Transportation is directed to report to the Committees on Appropriations 180 days after enactment of this Act on the suspected practice of Amtrak employees bringing food and off-sale beverages on board trains to sell to passengers.

On time performance.—The Federal Railroad Administration is directed to fully comply with section 154 of this Act which requires the Administrator to submit quarterly reports to the Committees on Appropriations detailing the Administrator's efforts at improving on time performance. As required by law each report "shall compare the most recent actual on-time performance goals that the Administrator shall set for each rail service, identified by route."

It is expected that the Administrator will show measureable results in the near future.

Access fees.—The Department of Transportation’s Office of Inspector General is directed to report to the Committees on Appropriations not later than 180 days upon enactment of this Act detailing any and all user fees paid by Amtrak to freight railroads, irrespective of funding source, for access to the right of way and any incentive payments paid related to on time performance.

It is also expected that Amtrak will continue efforts to reduce losses from its food and beverage service while simultaneously working to improve customer satisfaction.

CAPITAL AND DEBT SERVICE GRANTS TO THE NATIONAL RAILROAD
PASSENGER CORPORATION

The bill provides \$940,000,000 for capital and debt service payment grants to Amtrak. Within the funds provided, the bill includes \$285,000,000 for Amtrak’s debt service payment.

EFFICIENCY INCENTIVE GRANTS TO THE NATIONAL RAILROAD
PASSENGER CORPORATION

(RESCISSION)

The bill rescinds all remaining balances.

ADMINISTRATIVE PROVISIONS—FEDERAL RAILROAD ADMINISTRATION

Section 151 retains a provision that permits FRA to purchase promotional items for Operation Lifesaver.

Section 152 retains a provision that ceases the availability of Amtrak funds if the railroad contracts for services outside the United States for any service performed by a full-time or part-time Amtrak employee as of July 1, 2006.

Section 153 retains a provision which allows FRA to receive and use cash or spare parts to repair and replace damaged track inspection cars.

Section 154 retains a provision requiring the FRA Administrator to submit quarterly reports to the Committees on Appropriations on Amtrak on-time performance.

FEDERAL TRANSIT ADMINISTRATION

ADMINISTRATIVE EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The bill provides \$94,413,000 for the administrative expenses of the Federal Transit Administration which is the same as the budget request and \$5,113,000 above the fiscal year 2008 enacted level. The bill specifies that no more than \$23,322,000 shall be provided for the central account and no more than \$1,800,000 shall be provided for travel. The FTA is directed to provide a letter report to the House and Senate Committees on Appropriations by March 31, 2009 which summarizes the agency’s travel activities, including a breakdown of travel conducted by FTA headquarters and field staff.

The bill directs FTA to submit for approval any proposal to transfer funds from the Central Account; prohibits funds for a per-

manent office of transit security; requires the submission of the annual new starts report; and, directs FTA to reimburse up to \$2,000,000 to the Office of the Inspector General (OIG). It is assumed that the OIG will continue its oversight of the new starts program and overall FTA activities.

FTA should provide the same level of detail in the fiscal year 2010 congressional budget justification that was required in fiscal year 2009 as directed in H. Rept. 110–446. FTA is further directed to follow the operating plan requirements contained in H. Rept. 110–238.

Transit security.—The FTA is directed to continue to follow report language included in H. Rept. 108–671 regarding transit security.

Project oversight.—The bill does not include a provision requested in the budget which establishes a one percent administrative takedown for the Job Access and Reverse Commute program, the New Freedom program, and the FTA research program.

Transit facility green building plan.—FTA should be a more active partner and proactively work with grantees to explore green building options for transit facilities. FTA is directed to submit a transit facility green building action plan to the House and Senate Committees on Appropriations within 90 days of enactment. The plan should include: an overview of certified green building transit projects; an analysis of green rating systems that would be suitable for transit projects; planned FTA actions, timelines and resources to encourage green building in FTA programs; and, an inventory of relevant assistance that could be provided to transit authorities.

FORMULA AND BUS GRANTS

(LIQUIDATION OF CONTRACT AUTHORITY)

(LIMITATION ON OBLIGATIONS)

(HIGHWAY TRUST FUND)

The bill limits obligations from the Mass Transit Account for the formula and bus grant program to \$8,260,565,000 which is \$100,000,000 below the level proposed in the budget request and \$492,678,000 above the fiscal year 2008 enacted level. The bill includes a liquidating cash appropriation of \$8,670,000,000.

Within the funds provided, \$2,109,000 shall fund 11 additional personnel in the most critical safety areas of highways, pipelines, railroads, research and engineering, and aviation. None of the addi-
