DEPARTMENT OF DEFENSE APPROPRIATIONS BILL, 2013

MAY 25, 2012.—Committed to the Committee of the Whole House on the State of the Union and ordered to be printed

Mr. YOUNG of Florida, from the Committee on Appropriations, submitted the following

R E P O R T

together with

ADDITIONAL VIEWS

[To accompany H.R. 5856]

The Committee on Appropriations submits the following report in explanation of the accompanying bill making appropriations for the Department of Defense, and for other purposes, for the fiscal year ending September 30, 2013.

BILL TOTALS

Appropriations for most military functions of the Department of Defense are provided for in the accompanying bill for the fiscal year 2013. This bill does not provide appropriations for military construction, military family housing, civil defense, and military nuclear warheads, for which requirements are considered in connection with other appropriations Acts.

The President's fiscal year 2013 budget request for activities funded in the Department of Defense Appropriations Act totals \$516,131,553,000 in new budget obligational authority for the base military bill.

COMMITTEE BUDGET REVIEW PROCESS

During its review of the fiscal year 2013 budget request and execution of appropriations for fiscal year 2012, the Subcommittee on Defense held a total of ten hearings and three formal Subcommittee briefings during the period from February 2012 to April 2012. Testimony received by the Subcommittee totaled 763 pages of transcript. Hearings were held in open session, except when the security classification of the material to be discussed presented no alternative but to conduct those hearings in executive or closed session.

INTRODUCTION

The Committee recommendation for the fiscal year 2013 Department of Defense base budget is \$519,219,373,000, which is \$3,087,820,000 above the request. The Committee recommendation for overseas contingency operations is \$88,479,906,000, which is \$1,839,000 below the request.

The increase in base allocation above the request provides the Committee with the resources to mitigate risks contained in the budget. Decreases in shipbuilding, unrealistic efficiencies, as well as Guard and reserve force structure decisions all carry an inherent level of risk. The Committee, where able, has attempted to mitigate these risks.

In addition, the Subcommittee has reviewed in detail the budget request and found areas and programs where reductions are possible without adversely impacting the warfighter or modernization and readiness efforts. Examples of such reductions include: programs which have been terminated or restructured since the budget was submitted; savings from favorable contract pricing adjustments; contract/schedule delays resulting in fiscal year 2013 savings; unjustified cost increases or funding requested ahead of need; anticipated/historical under execution; rescissions of unneeded prior year funds; and reductions that are authorized in the pending fiscal year 2013 National Defense Authorization Act.

FISCAL MANAGEMENT

In the past, the Committee has expressed considerable concern over an apparent erosion of the Department's fiscal discipline. That erosion is reflected in an ever increasing reliance on the reprogramming of funds rather than establishing its funding priorities during the budget formulation process. The Committee once again notes the extraordinary growth in the Department's requests for authority to reprogram previously appropriated funding and transfer it to other programs, often including "new start" programs which have not yet received congressional approval. Congress annually provides a significant amount of general and special transfer authority to move funding to previously approved, higher priority defense programs in order to adjust to budgetary changes and unanticipated program changes. However, the Department has established a startling trend of requesting multiple numbers of large-scale, omnibus-like reprogrammings each year, including an alarming number of requests for approval to start new programs without the required budgetary and program information.

The Committee is concerned that these trends appear to indicate a disturbing degradation of the Department of Defense Planning, Programming, and Budgeting System (PPBS) that was established over 40 years ago. As was noted in previous Committee Reports, beginning in 2003, the PPBS process has been significantly altered, splintering planning phases and requiring that the program and budget reviews occur simultaneously. The Committee continues to believe that these process changes were ill-conceived and have had significant and lasting adverse implications. There can be no doubt that the Department's financial officers have faced considerable challenges in managing both the war and base budgets, and the Committee appreciates the significant pressures the Department has been operating under while conducting two simultaneous combat operations in Iraq and Afghanistan, and the Committee has attempted to provide all the funding and flexibility necessary to support our forces in combat. However, the excessive reliance on authority to transfer funding previously appropriated for specifically requested programs, and use that funding for other programs is of great concern to the Committee.

During annual budget deliberations for the fiscal year 2008 defense budget request, the Committee expressed its concern over the apparent erosion of the Department's fiscal discipline, in part because the Department's annual amount of requests for reprogramming authority had more than doubled since the early 2000s. Despite the Committee's fiscal year 2008 expression of concern and direction to implement more discipline in its budget development, the Department has continued to request significantly increased amounts of reprogramming authority, well beyond those amounts objected to by the Committee in fiscal year 2008. In fact, in fiscal year 2011, the Department requested authority to reprogram over \$15,100,000,000, an almost 500 percent increase from the early 2000s.

Additionally, the Committee has clearly indicated its objection to the initiation of new start programs through reprogramming and specifically noted the lack of any supporting justification and explanatory documentation to aid the Committee in consideration of proposed new start programs. The Department's own regulation, DoD Financial Management, 7000.14R, Volume 3, Chapter 6, paragraph 060401E states: "Except for extraordinary situations, consideration will not be given to new start reprogramming requests for which the follow-on funding is not budgeted or programmed," and yet the Department routinely submits numerous reprogramming requests, including dozens of proposed new start programs, while often not providing any budgetary information at all concerning those new start programs.

The Committee continues to strongly discourage the use of reprogramming requests to initiate new start programs. However, in those cases where the Secretary of Defense determines that a reprogramming request is necessary in the interest of national security to rapidly respond to high priority requirements from combatant commanders, such requests should be supported with specific justification and supporting budgetary implications. Urgent requests should not be held and aggregated over a period of time nor included in large omnibus-like reprogrammings. Such requests should be submitted immediately to the congressional defense com-

mittees so that the Committee can expedite its consideration of these urgent warfighter requests.

The Committee strongly urges the Department to reinstitute rational and sequential planning and budgeting processes and procedures and significantly reduce its reliance on reprogramming of previously appropriated funding to fix problems. In order to assist the Department in returning to a more normal planning and budgeting process, the Committee has reduced the Department's request for general and special transfer reprogramming authority by \$3,000,000,000.

COMPETITION

The Committee understands that the Department of Defense, including the Military Services and related agencies, awards contracts through the use of competitive procedures in accordance with chapter 137 of title 10 U.S.C. and the Federal Acquisition Regulation and uses competitive procedures or a combination of competitive procedures as appropriate. The Committee directs the Secretary of Defense to use these and other duly established legislative and regulatory guidelines for the competitive acquisition of services and materials described in this bill and the accompanying report.

CONFERENCES

The Committee is concerned with recent reports that taxpayer funds have been misused to support inappropriate conferences and activities. The Committee directs that, not later than 30 days after enactment of this Act, the Inspector General of the Department of Defense shall report to the House and Senate Appropriations Committees the procedures that each Military Service and Defense Department Component has in place to ensure compliance with all applicable Federal laws and regulations on travel, conferences, and employee awards programs, and shall assess the effectiveness of these procedures.

Further, not later than 30 days after the end of fiscal year 2013, the Inspector General of the Department of Defense shall report to the House and Senate Appropriations Committees on appropriate department, agency, board, or commission conference spending and compliance with laws and regulations. At a minimum, the report shall include: the number of conferences held; the amount of funds obligated and expended by appropriation or other source of funding including budget accounts and subaccounts; and compliance with all applicable laws and regulations.

FUNDING INCREASES

The Committee directs that the funding increases outlined in the tables for each appropriation account shall be provided only for the specific purposes indicated in the tables.

COMMITTEE RECOMMENDATIONS BY MAJOR CATEGORY

ACTIVE, RESERVE, AND NATIONAL GUARD MILITARY PERSONNEL

In title I of the bill, the Committee recommends a total of \$128,462,794,000 for active, reserve, and National Guard military personnel, an increase of \$32,769,000 above the budget request,

and \$2,627,745,000 below the fiscal year 2012 enacted level. The recommendation supports the request to increase basic pay for all military personnel by 1.7 percent, effective January 1, 2013. The Committee also recommends full funding to support the authorized end strength levels for active duty and Selected Reserve personnel.

OPERATION AND MAINTENANCE

In title II of the bill, the Committee recommends a total of \$175,159,569,000 for operation and maintenance support to the military services and other Department of Defense entities, an increase of \$220,636,000 from the fiscal year 2013 budget request, and an increase of \$12,086,428,000 above the fiscal year 2012 enacted level. The recommended levels will robustly fund operational training programs in fiscal year 2013. Requests for unit and depot level maintenance; facility sustainment, restoration and modernization; and base operations support program funding are fully supported.

PROCUREMENT

In title III of the bill, the Committee recommends a total of \$102,496,191,000 for procurement.

Major initiatives and modifications include:

\$1,306,087,000 for the procurement of 69 UH-60 Blackhawk helicopters, an increase of \$199,000,000 and ten aircraft above the President's request.

\$1,076,036,000 for the procurement of 38 CH-47 Chinook helicopters, the same as the President's request.

\$518,088,000 for the procurement of 19 MQ-1 Unmanned Aerial Vehicles, the same as the President's request.

\$946,590,000 for the procurement of Patriot PAC-3 missiles and launchers, an increase of \$300,000,000 above the President's request.

\$255,433,000 for the procurement of M1A2 SEP upgraded Abrams tanks, an increase of \$181,000,000 above the President's request.

\$288,193,000 for the procurement of Bradley Fighting Vehicle Modernization, an increase of \$140,000,000 above the President's request.

\$169,909,000 for the procurement of 49 M88A2 Improved Recovery Vehicles, an increase of \$62,000,000 above the President's request.

\$100,000,000 for HMMWV modernization for the Army National Guard, an increase of \$100,000,000 above the President's request.

\$940,965,000 for the procurement of 12 EA-18G Growler electronic attack aircraft and \$45,000,000 for EA-18G advance procurement to preserve the option of buying additional aircraft in fiscal year 2014.

\$2,597,565,000 for the procurement of 37 F/A-18E/F Super Hornet tactical aircraft, an increase of \$562,434,000 and eleven aircraft above the President's request.

\$2,387,052,000 for the procurement of 13 P-8A Poseidon Multi-mission aircraft, a decrease of \$33,703,000 below the President's request.

\$759,945,000 for the procurement of 29 UH-1Y/AH-1Z Helicopters, an increase of \$39,012,000 and two aircraft above the President's request.

\$5,158,617,000 for the procurement of 29 F-35 Lightning Aircraft, six short take-off and vertical landing variants for the Marine Corps, four carrier variants for the Navy, and 19 conventional variants for the Air Force.

\$15,236,126,000 in Navy Shipbuilding and Conversion for the procurement of eleven Navy ships, one above the request, including one aircraft carrier, three DDG-51 guided missile destroyers, two SSN-774 attack submarines, four Littoral Combat Ships, and one Intra-theater Connector Ship.

\$1,209,421,000 for the procurement of 14 C/HC/MC/KC-130J aircraft, an increase of \$447,000,000 and seven aircraft above the President's request.

\$1,656,600,000 for the procurement of 18 MV-22 and four CV-22 Osprey aircraft, an increase of \$59,260,000 and one MV-22 aircraft above the President's request.

\$708,530,000 for the procurement of 36 MQ-9 Reaper unmanned aerial vehicles, an increase of \$155,000,000 and 12 aircraft above the President's request.

\$1,679,856,000 for the procurement of four Evolved Expendable Launch Vehicles, the same as the President's request.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION

In title IV of the bill, the Committee recommends a total of \$69,984,145,000 for research, development, test and evaluation.

Major initiatives and modifications include:

\$278,018,000 for the development of the Warfighter Information Network—Tactical, the same as the President's request.

\$639,874,000 for the development of the Manned Ground Vehicle Ground Combat Vehicle, the same as the President's request.

\$483,095,000 for the continuation of the development of the replacement for the Ohio class ballistic missile submarine, the same as the President's request.

\$119,065,000 for the continued development of the E-2D Advanced Hawkeye aircraft, the same as the President's request.

\$257,480,000 for the continued development of the Joint Tactical Radio System, a decrease of \$80,000,000 below the President's request.

\$2,682,674,000 for the continued development of the F-35 Lightning Joint Strike Fighter aircraft, a decrease of \$16,824,000 below the President's request.

\$436,102,000 for the continued development of the Multi-mission Maritime Aircraft, an increase of \$15,000,000 above the President's request.

\$291,742,000 for the development of a new penetrating bomber, the same as the President's request.

\$1,815,588,000 for the continued development of the Next Generation Aerial Refueling Aircraft, the same as the President's request.

\$516,594,000 for continued development of the Space Based Infrared Satellite (SBIRS) and associated ground support systems, an increase of \$68,000,000 above the President's request.

\$335,295,000, for the development of the Global Positioning System III operational control segment (OCX), a decrease of \$38,300,000 below the President's request.

\$2,827,176,000 for the Defense Advanced Research Projects Agency, an increase of \$10,000,000 above the President's request.

\$948,736,000 for the Israeli Cooperative Program, an increase of \$848,900,000 above the President's request.

SPECIAL OPERATIONS COMMAND CRITICAL NEEDS

The Committee recommends \$143,000,000 for United States Special Operations Command (USSOCOM) to address a critical capability shortfall identified by the Commander through the Combat Missions Needs process and approved by the Secretary of Defense. The recommendation funds the Commander's request to modify selected platforms with High Definition Full Motion Video which will provide a game changing Intelligence, Surveillance, and Reconnaissance capability.

DEFENSE HEALTH PROGRAM

The Committee recommends a total of \$32,862,234,000 for the Defense Health Program to support worldwide medical and dental services for active forces and other eligible beneficiaries, \$333,516,000 above the fiscal year 2013 budget request and \$380,175,000 above the amount appropriated for fiscal year 2012.

The Committee recommends funding to augment the request for enduring Traumatic Brain Injury and Psychological Health and Wounded, Ill, and Injured requirements. To address these challenges in the Defense Health Program, the Committee recommends the following:

Traumatic Brain Injury and Psychological Health Research	\$125,000,000
Peer-Reviewed Spinal Cord Research	\$15,000,000
Peer-Reviewed Orthopedic Research	\$30,000,000

OVERSEAS CONTINGENCY OPERATIONS

In title IX of the bill, the Committee recommends a total of \$88,479,906,000 for overseas contingency operations.

Major initiatives and modifications include:

Military Personnel: The Committee recommends a total of \$13,786,221,000 for military personnel in title IX of the bill.

Operation and Maintenance: The title IX operation and maintenance account fully funds key readiness programs critical to prepare forces for combat operations and other missions such as OPTEMPO flying hours and steaming days, depot maintenance, training, spare parts, and base operations.

Procurement: The title IX procurement account provides funds for items such as replacement aircraft for combat losses, aircraft upgrades and modifications, intelligence, surveillance, and reconnaissance equipment, and physical security improvements.

Defense Health Program: The Committee recommends a total of \$993,898,000 for the Defense Health Program in title IX of the bill.

CLASSIFIED PROGRAMS

As described elsewhere in this report, the Committee's budget reviews are published in a separate, detailed, and comprehensive

classified annex. Adjustments to the classified programs are addressed in the classified annex accompanying this report.

FORCES TO BE SUPPORTED

DEPARTMENT OF THE ARMY

The fiscal year 2013 budget request is designed to support current budget guidance and the Army's continuing transformation of its operating forces to meet defense strategy. Current budget guidance directs the Active Component (AC) end strength to reduce to 490,000 by the end of fiscal year 2017, Army National Guard (ARNG) end strength to reduce to 353,200 by the end of fiscal year 2017, and the United States Army Reserve (USAR) to maintain its end strength at 205,000.

By the end of fiscal year 2013, the AC will include six Army Service Component Command headquarters and one Army Component headquarters assigned to U.S. Forces Korea, three Corps headquarters, ten Division headquarters, 44 Brigade Combat Teams (BCTs), and 38 Multi-Functional Support Brigades. By the end of fiscal year 2013, the Army Force structure in the ARNG and the USAR will include eight ARNG division headquarters, 28 BCTs, and 60 multi-functional Support Brigades (48 ARNG and 12 USAR).

A summary of the major forces follows:

	Fiscal year		
	2011	2012	2013
Active Component Forces:			
Theater Army HQs	6	6	6
Corps HQs	4	4	3
Division HQs	10	10	10
Heavy Brigade Combat Team	17	17	16
Infantry Brigade Combat Team	20	20	20
Stryker Brigade Combat Team	6	8	8
Theater Aviation Brigade HQ	1	1	1
Combat Aviation Brigade	12	13	13
Sustainment Brigade HQ	13	13	13
Fires Brigade	6	7	7

Theater Aviation Brigade HQ	1	1	1
Sustainment Brigade HQ	9	9	9
Maneuver Enhancement Brigade HQ	3	3	3
Forces Total	13	13	13

DEPARTMENT OF THE NAVY

The fiscal year 2013 budget request supports battle forces totaling 293 ships at the end of fiscal year 2013, including 14 fleet ballistic missile submarines, 10 aircraft carriers, 24 support ships, eight reserve ships, 237 other battle forces ships, 1,688 Navy/Marine Corps tactical/ASW aircraft, 271 undergraduate training aircraft, 514 Fleet Air Training aircraft, 225 Fleet Air Support aircraft, 250 reserve aircraft, and 251 aircraft in the pipeline.

A summary of the major forces follows:

	Fiscal year		
	2011	2012	2013
Strategic Forces	14	14	14
Fleet Ballistic Missile Submarines	14	14	14
General Purpose	252	255	247

*FY 2011 includes 4,400 non-core IA requested for temporary IA OCO missions.

**FY 2012 includes 3,836 non-core IA requested for temporary IA OCO missions.

DEPARTMENT OF THE AIR FORCE
AIR FORCE REDUCTIONS IN FORCE STRUCTURE AND RESERVE
COMPONENT IMPACTS

The Air Force's fiscal year 2013 budget request proposes to retire or divest 286 current or in-production aircraft over the 2013–2017 future years defense program (FYDP), including a loss of 227 aircraft by the end of fiscal year 2013 alone. The proposed reduction in aircraft would have a disproportionate impact on the Air National Guard and Air Force Reserve. The Air National Guard would lose 163 aircraft over the FYDP, not including 17 C–27J Joint Cargo Aircraft for which funds have been appropriated but withheld from execution by the Air Force due to its decision to terminate the C–27J program. The Air Force Reserve would lose 82 aircraft. These losses would be accompanied by personnel reductions of 5,100 for the Air National Guard and 900 for the Air Force Reserve. The reserve component would absorb more than 85 percent of the aircraft reduction and approximately 60 percent of the total Air Force personnel reduction. As a consequence, the reserve component would suffer a loss of five airlift squadrons and five tactical fighter squadrons in fiscal year 2013. The Air Force additionally proposes to realign aircraft between components and installations and re-mission some units that otherwise would be adversely affected by the proposed reductions.

The Committee acknowledges the Air Force's need to find budget savings and its efforts to adjust force structure to the lowered expectations of the strategic review. Even with such reduced requirements, however, the Committee is concerned that the force structure reductions would add an unnecessary element of risk. The Committee is further concerned that the Air Force's proposal discounts the value that the reserve component adds to the total force and that the Air Force has not adequately considered homeland defense and disaster assistance requirements, especially with the proposal to transfer C–130 aircraft from the Gulf Coast region.

The scope and complexity of the Air Force's force reduction and realignment plan demand that the Committee consider it as a whole. The Committee does not concur with the Air Force's proposed force structure plan and includes bill language prohibiting the use of funds for the retirement, divestiture, realignment, or transfer of any aircraft and associated missions. The Committee acknowledges the Air Force's concerns that the restoration of force structure without the necessary resources would risk a "hollow force", and therefore the Committee's recommended funding levels include targeted increases to preserve existing force structure in fiscal year 2013.

The Committee is aware that the Council of Governors (COG), a Department of Defense advisory body established by the National Defense Authorization Act for Fiscal Year 2008, has proposed an alternative force restructuring plan. The Committee neither endorses nor disapproves of this plan, but encourages the Department and the Air Force to continue engagement with the COG and report on force structure alternatives resulting from such engagement to the congressional defense committees. Furthermore, the Committee expects the Air Force to refrain from taking any actions during fiscal years 2012 or 2013, including the reduction of any Air

National Guard or Air Force Reserve Units, that would prejudice or preempt final decisions on force structure pending the enactment of final authorization and appropriations legislation by Congress.

Finally, the Committee directs the Air Force to submit a report to the House Appropriations Committee at the earliest practicable date, but not later than October 1, 2012, providing a cost-benefit analysis for each set of aircraft retirements and realignments proposed with the fiscal year 2013 budget request. The Committee further directs the Government Accountability Office to review the Air Force's cost-benefit analyses and report its findings to the congressional defense committees not later than 180 days after the date of the Air Force's submission.

A summary of the major forces follows:

	2011	2012	2013	
Strategic Airlift Squadrons:				
Active	16	16	16	
Guard	6	6	6

TITLE I

MILITARY PERSONNEL

The fiscal year 2013 budget request for programs funded in title I of the Committee bill, Military Personnel, is \$128,430,025,000 in new budget authority. These appropriations finance basic, incentive, and special pays for active, reserve, and National Guard personnel, and Academy cadets; retired pay accrual; housing, subsistence and other allowances; recruitment and retention initiatives; permanent change of station (PCS) costs; and other military personnel costs such as survivor, unemployment, and education benefits. A summary of appropriations provided in title I, Military Personnel, follows:

(DOLLARS IN THOUSANDS)

	BUDGET REQUEST	COMMITTEE RECOMMENDED	CHANGE FROM REQUEST

RECAPITULATION			
MILITARY PERSONNEL, ARMY.....	40,777,844	40,730,014	-47,830
MILITARY PERSONNEL, NAVY.....	27,090,893	27,075,933	-14,960

	=====	=====	=====

MILITARY PERSONNEL OVERVIEW

The Committee recommendation provides \$128,462,794,000 for the Military Personnel accounts. Included is funding for military pay and allowances, recruitment and retention initiatives, and overall quality of life programs for active duty, reserve, and National Guard personnel. The recommendation fully supports the resource requirements needed to maintain the authorized end strength levels for fiscal year 2013. The recommendation also provides funding to increase basic pay for all military personnel by 1.7 percent, effective January 1, 2013. The Committee continues to support and encourage constructive evaluations of recruitment and retention programs, bonus and special pay incentives, and personnel benefit programs for military personnel for fiscal year 2013. The Committee remains supportive of programs intended to enhance the morale and quality of life of military personnel and their families.

SUMMARY OF END STRENGTH

The fiscal year 2013 budget request includes a decrease of 21,600 in total end strength for the active forces and a decrease of 9,700 in end strength for the Selected Reserve as compared to the fiscal year 2012 authorized levels. The following tables summarize the Committee recommendations for end strength levels, both in the aggregate and for each active and Selected Reserve component.

OVERALL ACTIVE END STRENGTH

Fiscal year 2012 authorized	1,422,600
Fiscal year 2013 budget request	1,401,000
Fiscal year 2013 recommendation	1,401,560
Compared with fiscal year 2012	- 21,040
Compared with fiscal year 2013 budget request	+560

OVERALL SELECTED RESERVE END STRENGTH

Fiscal year 2012 authorized	847,100
Fiscal year 2013 budget request	837,400
Fiscal year 2013 recommendation	843,400
Compared with fiscal year 2012	- 3,700
Compared with fiscal year 2013 budget request	+6,000

SUMMARY OF MILITARY PERSONNEL END STRENGTH

	Fiscal year 2012 author- ized	Fiscal year 2013			
		Budget request	Committee rec- ommenda- tion	Change from request	Change from fiscal year 2012
Active Forces (End Strength):					
Army *	562,000	552,100	552,100		- 9,900

SUMMARY OF MILITARY PERSONNEL END STRENGTH—Continued

	Fiscal year 2012 author- ized	Fiscal year 2013			Change from fiscal year 2012
		Budget request	Committee rec- ommenda- tion	Change from request	
Army National Guard	358,200	358,200	358,200		
Air National Guard	106,700	101,600	106,700	5,100	
Total, Selected Reserve	847,100	837,400	843,400	6,000	- 3,700
Total, Military Personnel	2,269,700	2,238,400	2,244,960	6,560	- 24,740

* For FY12, Army Active Forces end strength includes Temporary End Strength Increase of 14,600 troops

* For FY13, Army Active Forces end strength includes 49,700 Army end strength requested in the Overseas Contingency Operations budget, as well as 12,400 increase requested in the base budget for the Army's Temporary End strength Army Medical (TEAM) program associated with non-deployable soldiers in the Integrated Disability System

** For FY13, Marine Corps Active Forces end strength includes 15,200 Marine Corps end strength requested in the Overseas Contingency Operations budget

FULL-TIME SUPPORT STRENGTHS

There are four categories of full-time support in the Guard and reserve components: military technicians (dual status), Active Guard and Reserve (AGR), non-technician civilians, and active component personnel.

Full-time support personnel organize, recruit, train, maintain, and administer the reserve components. Military technicians (dual status) directly support units and are critical to helping units maintain readiness and meet the wartime mission of the Army and Air Force.

The following table summarizes Guard and reserve full-time support end strengths:

SUMMARY OF GUARD AND RESERVE FULL-TIME SUPPORT

	Fiscal year 2012 authorized	Fiscal year 2013			Change from Fiscal Year 2012
		Budget request	Com- mittee rec- ommen- dation	Change from request	
Army Reserve:

Technicians	68,891	68,209	70,111	1,902	1,220
Total, Full-Time Support	147,305	146,114	148,544	2,430	1,239

MILITARY PERSONNEL TRANSFER AUTHORITY

The fiscal year 2013 budget request proposes the inclusion of a new provision that extends the availability of up to two percent of amounts appropriated for Military Personnel under title I for two fiscal years, instead of the customary one fiscal year. Since 2001, the Department has had ten violations of the Anti-deficiency Act (ADA) in the Military Personnel accounts. This includes two violations in the Military Personnel, Army account from fiscal years 2005 and 2008 that remain under investigation. The Committee has repeatedly expressed its concern over the Department's failure to adequately budget for Military Personnel. The Inspector General of the Department of Defense and the Government Accountability Office have regularly reported deficiencies in the Services' military payroll processes and controls. Deficiencies include a lack of integration between military personnel, military pay, and accounting systems which can lead to potential errors, a lack of an efficient and effective system for providing documentation supporting payments for military payroll, and an inability to determine whether payroll accounts are valid or to verify the accuracy of payments and reported payrolls.

Furthermore, because the Services continue to manage the Military Personnel appropriation by relying on estimated obligations or bulk obligations until actual disbursement data is provided weeks or months later, they are unable to track disbursements in real time and cannot ensure that obligations do not exceed the appropriation if unanticipated events occur.

Notwithstanding the accounting deficiencies noted above, the Committee understands that the entitlement-based nature of the Military Personnel accounts and the sizable volume of obligations in the last quarter of the fiscal year create a unique budgeting challenge for the Department. The Committee recognizes the Department's efforts to improve its budgeting and oversight of the Military Personnel accounts by improving its cost models and obligation methods and by establishing formal management oversight of budget execution. While the Committee does not include the proposed general provision in its recommendation, it recognizes that the additional flexibility provided by such a proposal could enable the Department to better manage the Military Personnel appropriation and avoid further ADA violations. The Consolidated Appropriations Act, 2012 included a provision directing the Inspector General of the Department of Defense to conduct a review of ADA violations in the Military Personnel accounts and submit recommendations for the implementation of corrective actions. The Committee looks forward to reviewing the Inspector General's report and will reconsider the proposed provision based on the report's findings and recommendations.

In addition, the Committee remains extremely concerned over the length of time it takes the Department to complete investigations into potential ADA violations in the Military Personnel accounts, including an investigation still pending on a violation dating from fiscal year 2005. The Committee directs the Undersecretary of Defense (Comptroller) to report to the congressional defense committees not later than 120 days after enactment of this Act on

the actions being taken to complete ADA violation investigations in a timely manner.

REDUCTION OF TROOP END STRENGTH

The fiscal year 2013 budget request proposes a reduction of end strength in the active duty Army, Navy, Marine Corps, and Air Force, and the Navy Reserve, Air Force Reserve, Army National Guard, and Air National Guard components from fiscal year 2012 to fiscal year 2017. The budget proposes to reduce the size of the active duty Army and Marine Corps by 72,000 and 20,000 personnel respectively over this time period. While the changes proposed as part of the Air Force strategic guidance are addressed elsewhere in this report, the Committee remains concerned that the recommendation to reduce troop end strength across the Services is budget driven rather than based on military requirements.

In addition, the Committee understands that accomplishing the drawdown of end strength so quickly could prove difficult as all Services are currently operating at or near their authorized end strengths and continue to meet or exceed their recruiting and retention goals. The Committee believes that in this uncertain world, any changes in force structure must be tempered by the need to provide a strong, capable, and highly qualified force ready to meet current obligations and respond to any future potential military needs.

RETROACTIVE STOP LOSS SPECIAL PAY PROGRAM

The Retroactive Stop Loss Special Pay Program authorizes the Secretary of Defense to provide compensation to qualifying servicemembers who were involuntarily extended on active duty under Stop Loss authority from September 11, 2001 through September 30, 2009. The Consolidated Appropriations Act, 2012 extended the deadline for submission of a claim through October 21, 2012. According to the Defense Finance and Accounting Service, as of February 2012, more than 97,000 retroactive stop loss claims from servicemembers have been processed for payment. The Committee understands that the Department has pursued numerous methods to contact military personnel who would be eligible for compensation, including through direct mail, outreach through Veteran and Military Service Organizations, contemporary and social media, and the Public Affairs offices of the Secretary of Defense and Military Services. The Committee directs the Secretary of Defense to continue to use every means available to reach out to any remaining eligible personnel before the conclusion of the program.

SUICIDE PREVENTION TRAINING AND OUTREACH

Suicide remains an issue of ongoing concern among the Services, particularly in the National Guard and reserve components. Although the rate of suicides in the National Guard and reserve components has decreased somewhat from calendar year 2010 to calendar year 2011, it remains far too high. While servicemembers serving on active duty return from deployments to military bases which provide more structured support networks, returning guardsmen and reservists are frequently geographically isolated from

their units and may not have the regular interactions with their peers and chain of command that their active duty counterparts experience. The Committee is aware that suicide remains a problem among servicemembers who have never deployed as well as those who have deployed once or multiple times. The Committee acknowledges the steps the Services have taken to implement suicide prevention training and outreach efforts and to lower the rate of suicide among servicemembers. In addition, the Committee recognizes the important role that programs such as Yellow Ribbon serve in helping guardsmen and reservists transition to civilian life upon returning from deployments.

The Committee believes that more must be done to identify at-risk servicemembers and to improve prevention and outreach efforts. For example, recent National Guard pilot programs embedding mental health providers in geographically separated or high risk units to make them readily available during annual training and inactive duty training have shown some initial successes. The Committee understands that the National Guard Bureau Office of the Joint Surgeon, Psychological Health is working with states to identify high-risk units for embedded counselor placement and supports efforts to improve access to mental health providers for all servicemembers, especially those in the National Guard and reserve components. In addition, the Committee provides increased funding for suicide prevention as well as the Air National Guard Yellow Ribbon program, which was underfunded in the budget request, and urges the Secretary of Defense to ensure that future budget requests include adequate funding for these important programs. The Committee urges the Services to continue to make suicide prevention a key priority and to regularly update the Committee on actions being taken.

SEXUAL ASSAULT PREVENTION AND RESPONSE

Sexual assault remains a pervasive problem in the military. The Committee recognizes the measures that the Department of Defense has taken to reduce and prevent sexual assault, to prosecute perpetrators, and to respond to victims. The Secretary of Defense has implemented several new victim-focused policies, including providing additional legal assistance to victims, offering expedited transfers for victims of sexual assault, requiring Sexual Assault Response Coordinators and victim advocates to be credentialed, increasing funding for investigators and judge advocates to receive specialized training, and implementing enhanced sexual assault prevention and response training for commanders and senior non-commissioned officers. The Committee strongly supports Department and Service efforts to combat sexual assault and fully funds the President's request for Sexual Assault Prevention and Response programs at the Service level and at the Department of Defense Sexual Assault Prevention and Response Program Office.

HAZING IN THE ARMED FORCES

The Committee is extremely concerned by recent reports of hazing in the military. Hazing is inconsistent with the values of the military, and such behavior should not be tolerated within the military. The Committee understands that the Services are taking

steps to better report incidents of hazing and to discipline servicemembers involved in such incidents. The Committee directs the Secretary of Defense to provide a report to the congressional defense committees not later than 180 days after enactment of this Act on the rates of incidence of hazing, harassment, and mistreatment of servicemembers, as well as a review of the policies to prevent and respond to alleged hazing incidents. The report should also include recommendations for implementation of a consistent reporting system for the Services and recommendations to implement prevention and education programs related to hazing and its harmful effects.

MINORITY OUTREACH

Minorities are underrepresented in the officer ranks across the Services as well as in the officer and enlisted ranks of the Navy SEALs compared to personnel serving elsewhere in both the active and reserve components of the Navy and Marine Corps. To build a more diverse organization, disparities in representation need to be addressed by effective outreach that will expand the pool of well-qualified candidates to serve as military officers and as Navy SEALs. The Committee supports efforts to conduct effective outreach and recruiting programs in minority communities and encourages the Secretary of Defense and the Commander, Special Operations Command to support efforts to improve diversity in the military, including in the officer ranks and within the Special Operations Forces. The Committee directs the Commander, Special Operations Command to provide a report to the congressional defense committees not later than 90 days after enactment of this Act on the challenges of recruiting prospective Navy SEAL applicants from underrepresented communities and to provide recommendations to increase the competitiveness and to encourage recruitment of such candidates.

MILITARY PERSONNEL, ARMY

Fiscal year 2012 appropriation	\$43,298,409,000
Fiscal year 2013 budget request	40,777,844,000
Committee recommendation	40,730,014,000
Change from budget request	-47,830,000

The Committee recommends an appropriation of \$40,730,014,000 for Military Personnel, Army. The total amount recommended in the bill will provide the following program in fiscal year 2013:

(DOLLARS IN THOUSANDS)

	BUDGET REQUEST	COMMITTEE RECOMMENDED	CHANGE FROM REQUEST

ARMY MILITARY PERSONNEL FUNDING SHORTFALL

The Committee understands that the Army has a potential shortfall in the fiscal year 2013 Military Personnel, Army appropriation due to three primary factors: expected under execution of the Temporary End Strength Army Medical; a higher active component grade plate; and an expected increase in reserve component soldiers serving on active duty. While the existence of a shortfall could not be verified in time to address it in this Act, the Committee commends the Army for highlighting the situation in a timely manner. The Committee remains committed to work with the Army to address the situation.

MILITARY PERSONNEL, NAVY

Fiscal year 2012 appropriation	\$26,803,334,000
Fiscal year 2013 budget request	27,090,893,000
Committee recommendation	27,075,933,000
Change from budget request	- 14,960,000

The Committee recommends an appropriation of \$27,075,933,000 for Military Personnel, Navy. The total amount recommended in the bill will provide the following program in fiscal year 2013:

LITTORAL COMBAT SHIP MANNING

From its inception, the Littoral Combat Ship (LCS) was planned to be minimally manned by small, experienced crews and therefore contains limited berthing commensurate with the minimal manning requirement. It is the Committee's understanding that all crewmembers were to have experienced at least one deployment prior to joining the LCS crew and that no first tour junior officers or first term enlisted sailors would be eligible to join an LCS crew without having prior at-sea experience. Since the prototypical training opportunities are not available on the LCS and manning is limited, the entire crew must be capable of performing a variety of tasks. The Committee now understands that the Navy is assigning ensigns without prior sea duty to each LCS crew as part of a new pilot program. The Committee is concerned that the lack of training opportunities will pose a particular challenge for junior officers with no at-sea crew experience. In addition, the LCS will have to rely on the addition of an interim or temporary berthing module when fully manned to accommodate all of the personnel on-board due to an insufficient number of permanent berths.

The Committee is concerned that the current LCS manning model is unrealistic and that relying on temporary solutions such as berthing modules to accommodate additional crewmembers is both impractical and detrimental to the quality of life of the entire crew. The Committee understands that more berths could be added to future ships to provide sufficient permanent berthing for all crewmembers. The Committee directs the Secretary of the Navy to submit a report to the congressional defense committees not later than 120 days after enactment of this Act on future manning plans for the LCS. The report should include the Navy's plan for future manning requirements, including how additional crewmembers will be accommodated based on the outcome of the aforementioned pilot program, how training opportunities for junior crew members will be provided, a projected timeline for proposed manning changes, and a projected cost of ship modifications to accommodate additional crew members.

MILITARY PERSONNEL, MARINE CORPS

Fiscal year 2012 appropriation	\$13,635,136,000
Fiscal year 2013 budget request	12,481,050,000
Committee recommendation	12,560,999,000
Change from budget request	79,949,000

The Committee recommends an appropriation of \$12,560,999,000 for Military Personnel, Marine Corps. The total amount recommended in the bill will provide the following program in fiscal year 2013:

(DOLLARS IN THOUSANDS)

CREECH AIR FORCE BASE INCENTIVE PAY

In fiscal year 2008, the Air Force authorized Creech Assignment Incentive Pay (AIP) for personnel assigned to Creech Air Force Base, Nevada to support manning of the Remotely Piloted Aircraft mission. The Air Force described the pay as necessary because Creech Air Force Base was an austere location with limited infrastructure. In fiscal year 2012, the Secretary of Defense stated that Creech AIP would not be extended beyond December 31, 2011. The Consolidated Appropriations Act, 2012 reduced excess funding no longer required due to the discontinuation of Creech AIP in accordance with the Secretary's decision. General Provision 8005 of the same Act prohibited the Department of Defense from using the transfer authority provided in those cases "where the item for which funds are requested has been denied by the Congress." Additionally, in the DD Form 1414 Base for Reprogramming Actions, the Air Force identified Creech AIP as being specifically reduced by a congressional committee and it noted that Below Threshold Reprogramming (BTR) authority cannot be used to restore specific congressional reductions, including funding for Creech AIP.

The Committee is extremely disturbed to learn that the Department of the Air Force blatantly violated public law, disregarded congressional intent, and ignored its own budget guidance by continuing to fund Creech AIP without prior congressional approval as required. On March 30, 2012, the Secretary of the Air Force stated that Creech AIP will continue until September 30, 2012 and will not be extended beyond that deadline. The Committee understands that no funding has been requested for Creech AIP in fiscal year 2013 and the Committee provides no funding for Creech AIP in accordance with the Secretary's decision. Any funding provided for this purpose, including amounts within the Below Threshold Reprogramming limit, must first be approved by a prior approval reprogramming.

AIR FORCE BASE FAMILY HOUSING PRIVATIZATION

The Department of the Air Force is in the process of completing the Family Housing Privatization Initiative at all domestic bases. The Committee understands that three projects, the Western Group, the Northern Group, and the Continental Group, experienced unforeseen project delays, and thus the Air Force did not request funding in the Military Personnel appropriation for Basic Allowance for Housing for servicemembers living at those bases. The Committee also understands that the Air Force now expects those projects to close ahead of the revised schedule. The Western Group project closed in March 2012, while the Air Force's most recent estimates show that the Northern Group will close in September 2012, and the Continental Group will close sometime in fiscal year 2013, although its timing remains uncertain. The Committee provides funding to cover anticipated shortfalls related to the Western Group and Northern Group, but it does not include funding for possible shortfalls related to the Continental Group due to its continued schedule uncertainties. The Committee directs the Secretary of the Air Force to provide regular updates on the proposed timeline

for the Northern Group and Continental Group as they become available.

RESERVE PERSONNEL, ARMY

Fiscal year 2012 appropriation	\$4,289,407,000
Fiscal year 2013 budget request	4,513,753,000
Committee recommendation	4,456,823,000
Change from budget request	- 56,930,000

The Committee recommends an appropriation of \$4,456,823,000 for Reserve Personnel, Army. The total amount recommended in the bill will provide the following program in fiscal year 2013:

TITLE II

OPERATION AND MAINTENANCE

The fiscal year 2013 budget request for programs funded in title II of the Committee bill, Operation and Maintenance, is \$174,938,933,000 in new budget authority. These appropriations finance the costs of operating and maintaining the Armed Forces, including the reserve components and related support activities of the Department of Defense. Included is pay for civilians, services for maintenance of equipment, fuel, supplies, and spare parts for weapons and equipment. Financial requirements are influenced by many factors, including force levels such as the number of aircraft squadrons, Army and Marine Corps divisions, installations, military personnel strength and deployments, rates of operational activity, and the quantity, complexity, and age of equipment such as aircraft, ships, missiles, and tanks. The Committee does not provide funding for a proposed civilian pay raise in fiscal year 2013.

The table below summarizes the Committee's recommendations.

RESTORATION OF FUNDING FOR UNREALISTIC EFFICIENCY SAVINGS

The House Report 112–110, accompanying the Department of Defense Appropriations Bill for fiscal year 2012, included language expressing the Committee’s concern over many of the Department of Defense’s proposed efficiency savings. In particular, the report stated that “more troubling were instances in which underfunding valid requirements were claimed as efficiencies,” including the decision to underfund base facility sustainment requirements and claim this reduction as infrastructure savings. In fiscal year 2013, the Department once again requests reduced funding for facility sustainment requirements and claims the reduction as infrastructure savings rather than deferral of maintenance. The Committee restores funding for Facilities Sustainment, Restoration and Modernization programs for the individual Services, the reserve components, and for Services’ medical facilities, as well as for the Army Base Operations Support program.

OPERATION AND MAINTENANCE REPROGRAMMINGS

The Secretary of Defense is directed to submit the Base for Re-programming (DD Form 1414) for each of the fiscal year 2013 appropriation accounts not later than 60 days after enactment of this Act. The Secretary of Defense is prohibited from executing any re-programming or transfer of funds for any purpose other than originally appropriated until the aforementioned report is submitted to the House and Senate Appropriations Committees.

The Secretary of Defense is directed to use the normal prior approval reprogramming procedures to transfer funds in the Services’ operation and maintenance accounts between O–1 budget activities in excess of \$15,000,000. In addition, the Secretary of Defense should follow prior approval reprogramming procedures for transfers in excess of \$15,000,000 out of the following budget sub-activities:

Army:

- Maneuver units
- Modular support brigades
- Land forces operations support
- Force readiness operations support
- Land forces depot maintenance
- Base operations support
- Facilities Sustainment, Restoration, and Modernization

Navy:

- Aircraft depot maintenance
- Ship depot maintenance
- Facilities Sustainment, Restoration, and Modernization

Marine Corps:

- Depot maintenance
- Facilities Sustainment, Restoration, and Modernization

Air Force:

- Primary combat forces
- Combat enhancement forces
- Combat communications
- Facilities Sustainment, Restoration, and Modernization

Operating forces depot maintenance
 Mobilization depot maintenance
 Training and recruiting depot maintenance
 Administration and service-wide depot maintenance

Air Force Reserve:
 Depot maintenance

Air National Guard:
 Depot maintenance

Finally, the Secretary of Defense should follow prior approval reprogramming procedures for transfers in excess of \$15,000,000 into the following budget subactivity:

Operation and Maintenance, Army National Guard:
 Other personnel support/recruiting and advertising

With respect to Operation and Maintenance, Defense-Wide, proposed transfers of funds to or from the levels specified for defense agencies in excess of \$15,000,000 shall be subject to prior approval reprogramming procedures.

OPERATION AND MAINTENANCE BUDGET EXECUTION DATA

The Committee directs the Secretary of Defense to continue to provide the congressional defense committees with quarterly budget execution data. Such data should be provided not later than 45 days after the close of each quarter of the fiscal year, and should be provided for each O-1 budget activity, activity group, and subactivity group for each of the active, defense-wide, reserve, and National Guard components. For each O-1 budget activity, activity group, and subactivity group, these reports should include the budget request and actual obligation amount; the distribution of unallocated congressional adjustments to the budget request; all adjustments made by the Department in establishing the Base for Reprogramming (DD Form 1414) report, all adjustments resulting from below threshold reprogrammings; and all adjustments resulting from prior approval reprogramming requests.

MILITARY INFORMATION SUPPORT OPERATIONS

The budget request includes \$251,600,000 for fiscal year 2013 Department of Defense military information support operations programs. Of this amount, \$52,700,000 is requested as base funding and \$198,900,000 is requested as Overseas Contingency Operations funding. The Committee's recommendation reduces the total request by \$81,500,000. The allocation of funds by Combatant Command and funding levels for certain programs is specifically delineated in the classified annex to this report. The delineations shall be considered a congressional special interest item and any deviations from the allocations are subject to sections 8005, 8006, and 9002 of this Act.

The Committee has previously expressed its concern that some activities undertaken by the Department do not fulfill core military requirements and instead are more appropriately funded by other federal agencies which are statutorily authorized and traditionally charged with conducting such activities. The Committee appreciates the significant oversight and attention the Department has

given to these programs and believes that progress is being made to address the Committee's concerns. Therefore, the recommendation includes funding for activities requested as base funding for those items that represent enduring military activities while continuing to fund other activities as Overseas Contingency Operations that have not been adequately justified as an enduring or traditional military activity.

The Committee appreciates the Department's efforts to provide more detailed information regarding the budgets for these activities. However, the Committee believes this information should be provided as part of the official budget justification materials to enable proper analysis and oversight. Therefore, the Committee directs the Secretary of Defense to consult with the Committee to improve the official budget justification materials for fiscal year 2014. The Secretary of Defense is also directed to submit a report, not later than 30 days after enactment of this Act, to the House and Senate Appropriations Committees detailing the proposed execution of the funding provided for these programs. This report shall include the program name, activity, a description of service, target audience, goals/objectives, attribution, measures of effectiveness, prior year obligations and expenditures, and the estimated budget for the year of execution. This report, and the delineation of each program, project, and activity, shall serve as the basis for reprogramming in accordance with section 8006 of this Act.

STEM EDUCATION

The Committee is concerned about the future of the Nation's workforce, specifically in the science, technology, engineering, and math (STEM) disciplines. These skills are vitally needed within the Department of Defense to maintain United States military superiority. While these skills are underrepresented in the available workforce, minorities especially are underrepresented in these skill sets both in the current workforce and at university levels.

The Committee encourages the Department to support the development of STEM skill sets, especially in undergraduate and graduate programs, and to focus on increasing the participation and success of minority students through engaged mentoring, enriched research experiences, and opportunities to publish, present, and network. These factors, along with peer-to-peer mentoring, have been demonstrated to be a successful model for minority education.

BORDER SECURITY EQUIPMENT

The Committee supports the efforts of the Department of Defense, including the efforts of the Defense Logistics Agency and the Domestic Preparedness Support Initiative, to collaborate and coordinate with other agencies at the federal, state, and local levels, including the Department of Homeland Security and the Department of Justice, and to prioritize the distribution of equipment and technologies that will mitigate security threats and violence along the southwest border of the United States, including efforts to curb the crossing of illegal aliens and the trafficking of humans, firearms, chemical precursors, narcotics, and bulk cash.

STATE AND LOCAL PARTNERSHIPS

The Committee encourages the Secretary of Defense, in conjunction with the Services, to consider entering cooperative agreements with State and local governments for use of certain multi-use military facilities for public affairs activities that benefit local job creation, including commercial activities that promote American technology. The Committee expects any such agreements would be at no cost to the military and would not create an undue burden to accomplishing the inherent mission of the facility.

MIDDLE EAST SECURITY DIALOGUES

The Committee supports the Department of Defense's efforts to promote region-wide informal conferences and task forces on arms control, regional security, and related topics to the Middle East for Arab, Israeli, and other officials and experts engaged in security dialogues in the Middle East at U.S. institutions of higher education.

POW/MIA ACCOUNTABILITY EFFORTS

The Committee supports the Department of Defense's efforts to comply with the Prisoner Of War/Missing In Action accounting goals established in Section 1509(f)(2)(d)(2) of the fiscal year 2010 National Defense Authorization Act, as well as the Department's use of universities and non-profit entities qualified to support the fulfillment of the accounting goals.

CIVIL AFFAIRS CENTER AND SCHOOL

The civil-military interface is increasingly vital to U.S. national security goals, such as conflict prevention and Counterinsurgency Operations (COIN), with civil affairs forces acting as key participants in such strategies. The Committee supports the Army's commitment to improve the language and cultural training and education of the General Purpose Forces of both the active and reserve components and to establish a branch and force modernization proponent for Civil Affairs to support the Army's total force. The Committee supports the Civil Affairs program in the active and reserve components and encourages the leveraging of existing investment in language and cultural training.

OFFICIAL FLAG DISPLAYS

Currently, there is no uniform regulation governing the inclusion of the flags of the District of Columbia and the U.S. Territories. The Department of the Army is the only branch of the military that has taken steps to ensure a service-wide policy requiring the display of all flags. The Committee encourages the Secretary of Defense to adopt the Army's policy, which states that when the official flags of all 50 states are displayed by the Armed Forces, such displays shall also include the flags of the District of Columbia, the Commonwealth of Puerto Rico, the United States Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Marianas Islands.

OPERATION AND MAINTENANCE, ARMY

Fiscal year 2012 appropriation	\$31,072,902,000
Fiscal year 2013 budget request	36,608,592,000
Committee recommendation	36,422,738,000
Change from budget request	- 185,854,000

The Committee recommends an appropriation of \$36,422,738,000 for Operation and Maintenance, Army. The total amount recommended in the bill will provide the following program in fiscal year 2013:

(DOLLARS IN THOUSANDS)

	Finance foreign currency fluctuation from the Foreign Currency Account		-317	
	INVENTORY OF SPARE PARTS AND SECONDARY ITEMS		-100,000	-100,000

JUNIOR RESERVE OFFICER TRAINING CORPS SCHOOLS

The Committee notes that the Army's request for operation and maintenance includes an additional \$9,289,000 to increase the number of Junior Reserve Officer Training Corps (JROTC) schools by eleven during fiscal year 2013. However, the justification material supporting the fiscal year 2013 budget request for Military Personnel, Army states that no additional JROTC schools will be added in fiscal year 2013. The Committee directs that the Army increase JROTC schools by eleven in fiscal year 2013 consistent with the Army's operation and maintenance budget request. Further, the Committee directs the Secretary of the Army to provide a report to the congressional defense committees not later than 30 days after enactment of this Act that lists the eleven additional schools to be added in fiscal year 2013.

UNJUSTIFIED PROGRAM GROWTH

Included in the Army's request for fiscal year 2013 operation and maintenance funding is more than \$500,000,000 for which no valid justification is provided. The Army's justification material explains that program growth is due to additional funding. The justification material does not provide an explanation of how the funds will be used or why the funds are necessary. The Committee has adjusted the Army's budget request accordingly.

CEMETERIAL EXPENSES

The Committee does not support the budget request proposal to fund Arlington National Cemetery through three separate accounts contained in two different appropriations bills. The budget request proposes \$25,000,000 to be provided through Operation and Maintenance, Army, \$103,000,000 to be provided through Military Construction, Army, and \$45,800,000 to be provided through Cemeterial Expenses, Army for a total of \$173,800,000. The Committee recommends no funds be provided through Operation and Maintenance, Army.

OPERATION AND MAINTENANCE, NAVY

Fiscal year 2012 appropriation	\$38,120,821,000
Fiscal year 2013 budget request	41,606,943,000
Committee recommendation	41,463,773,000
Change from budget request	- 143,170,000

The Committee recommends an appropriation of \$41,463,773,000 for Operation and Maintenance, Navy. The total amount recommended in the bill will provide the following program in fiscal year 2013:

(DOLLARS IN THOUSANDS)

STRATEGIC DISPERSAL OF AIRCRAFT CARRIERS

The Committee understands that the Department of the Navy has delayed the strategic dispersal of the Nation's east coast aircraft carriers due to fiscal concerns. The Committee continues to support the Navy's policy of strategic dispersal of aircraft carriers on both the east and west coast and strongly encourages the Secretary of the Navy to provide funding to the projects in the out-years that will satisfy this requirement.

OPERATION AND MAINTENANCE, MARINE CORPS

Fiscal year 2012 appropriation	\$5,542,937,000
Fiscal year 2013 budget request	5,983,163,000
Committee recommendation	6,075,667,000
Change from budget request	92,504,000

The Committee recommends an appropriation of \$6,075,667,000 for Operation and Maintenance, Marine Corps. The total amount recommended in the bill will provide the following program in fiscal year 2013:

(DOLLARS IN THOUSANDS)

INVENTORY OF SPARE PARTS AND SECONDARY ITEMS		-400,000	-400,000
RETAIN AIR FORCE FORCE STRUCTURE		130,000	130,000

VISIBILITY OF DEPOT MAINTENANCE FUNDING FOR AIR FORCE
RESERVE AND AIR NATIONAL GUARD

The Air Force Reserve and Air National Guard have not properly justified \$104,111,000 and \$497,704,000, respectively, of depot maintenance funding contained in the fiscal year 2013 budget request by not correctly reflecting the requested funding for weapons system depot maintenance in the Depot Maintenance Subactivity Group. The Committee remains concerned that the lack of visibility of depot maintenance funding is an obstacle to effective management of a program which is critical to military readiness. The Consolidated Appropriations Act, 2012 consolidated all depot maintenance funding for the Air Force in the Depot Maintenance Subactivity Group. In fiscal year 2013, the Committee identifies and consolidates all depot maintenance funding contained in the Air Force Reserve and Air National Guard fiscal year 2013 budget requests in the respective Depot Maintenance Subactivity Groups. The Committee also directs the Secretary of the Air Force to display all depot maintenance funds requested in the fiscal year 2014 budget in the Depot Maintenance Subactivity Group.

The Committee is also concerned that the Department of the Air Force significantly underfunded Depot Maintenance for both the Air Force Reserve and Air National Guard. The Committee believes that failing to provide adequate funding for weapons system depot maintenance will impact readiness and cause aircraft to be grounded due to failure to meet maintenance requirements. The Committee restores funding for depot maintenance and expects that future budget requests to contain sufficient funding for the reserve component depot maintenance programs.

NATIONAL SECURITY REQUIREMENTS FOR NASA FACILITIES

For NASA property that has a national security purpose, the Committee directs that the Department of Defense provide to the House Committee on Appropriations a report, concurrent with any report submitted by NASA for such property under 51 U.S.C. 20117 and consistent with the procedures established under 51 U.S.C. 20117, describing how continued access to such property will remain viable.

OPERATION AND MAINTENANCE, DEFENSE-WIDE

Fiscal year 2012 appropriation	\$30,152,008,000
Fiscal year 2013 budget request	31,993,013,000
Committee recommendation	31,780,813,000
Change from budget request	-212,200,000

The Committee recommends an appropriation of \$31,780,813,000, for Operation and Maintenance, Defense-Wide. The total amount recommended in the bill will provide the following program in fiscal year 2013:

NATIONAL GUARD STATE PARTNERSHIP PROGRAM

The National Guard State Partnership Program (SPP) is an innovative program that partners individual National Guards with allied nations to exchange military skills and experience, share defense knowledge, enhance partnership capacity, and further mutual security cooperation. For twenty years, the SPP has played a critical role in extending U.S. military capabilities, enhancing bilateral relations, and supporting the missions of U.S. ambassadors and combatant commanders abroad by creating sustainable cooperative partnerships between the state and territorial National Guards and foreign partner nations. By promoting better understanding of one another's military needs and security concerns, the SPP helps lay the foundation for more effective teamwork and a more cooperative security environment among friendly and allied nations. The Committee fully funds the President's request for the SPP and supports the continued efforts of this program.

NATIONAL GUARD CIVIL SUPPORT TEAMS

The Deputy's Management Action Group (DMAG), created by the Deputy Secretary of Defense to eliminate wasteful spending, has chosen to eliminate two National Guard Weapons of Mass Destruction/Civil Support Teams (WMD/CSTs)—one each in New York and Florida.

WMD/CSTs were established to rapidly assist a local incident commander in determining the nature and extent of an attack or incident by identifying agents and substances, assessing current and projected consequences, advising on response measures, and assisting with requests for additional military support. Teams provide expert technical advice on WMD response operations and help identify and support the arrival of follow-on state and federal military response assets. They are joint units and, as such, might consist of both Army National Guard and Air National Guard personnel.

Currently there are 57 WMD/CSTs—one in each state, plus one in the District of Columbia, Guam, Puerto Rico, and the U.S. Virgin Islands, and two each in the states of California, New York, and Florida, due to the geographic separation and concentrations of populations in these three states.

The Committee believes that the DMAG's recommendation to eliminate WMD/CSTs from New York and Florida is an imprudent decision, especially given that the additional teams in New York and Florida were recently certified.

The personnel and operation and maintenance costs for each team averages less than \$5,000,000 annually.

Given the geographic disparity and high population concentrations of these two states, the Committee directs that the Secretary of Defense review the DMAG's recommendations regarding this reduction and not later than 90 days after enactment of this Act provide a report to the congressional defense committees outlining in detail the savings expected by this reduction, and how these savings outweigh the benefit of providing WMD/CST coverage at these two important locations. Additionally, the Committee expects the

Department of Defense to fully fund the two teams in New York and Florida in the fiscal year 2014 request.

OPERATION AND MAINTENANCE, AIR NATIONAL GUARD

Fiscal year 2012 appropriation	\$6,098,780,000
Fiscal year 2013 budget request	6,015,455,000

Fiscal year 2012 appropriation	\$508,219,000
Fiscal year 2013 budget request	519,111,000
Committee recommendation	519,111,000
Change from budget request	---

The Committee recommends an appropriation of \$519,111,000 for the Cooperative Threat Reduction Account.

DEPARTMENT OF DEFENSE ACQUISITION WORKFORCE DEVELOPMENT FUND

Fiscal year 2012 appropriation	\$105,501,000
Fiscal year 2013 budget request	274,198,000
Committee recommendation	50,198,000
Change from budget request	-224,000,000

The Committee recommends an appropriation of \$50,198,000 for the Department of Defense Acquisition Workforce Development Fund for fiscal year 2013.

DEFENSE ACQUISITION WORKFORCE DEVELOPMENT FUND

The purpose of the Defense Acquisition Workforce Development Fund is to ensure the Department has the capacity in both personnel and skills needed to perform its acquisition mission, provide appropriate oversight of contractor performance, and ensure that the Department receives the best possible value for its use of the taxpayer's precious resources. The fund accomplishes this purpose through the use of directly appropriated funds as well as using funding transferred from other efforts. In fiscal year 2013, the budget request proposes \$274,198,000 to meet the Department's statutory level of \$944,000,000 for the year. Department representatives have stated that this level of funding will not be required to achieve the goals of the fund in fiscal year 2013. Accordingly, the Committee recommends funding of \$50,198,000, which represents a reduction of \$224,000,000 below the request and maintains the fund at the fiscal year 2012 level.

TITLE III
PROCUREMENT

ESTIMATES AND APPROPRIATIONS SUMMARY

The fiscal year 2013 Department of Defense procurement budget request totals \$97,194,677,000, with advanced appropriations of \$4,426,700,000, for a total of \$101,621,377,000. The table below summarizes the budget estimates and the Committee's recommendations.

ADVANCED MEDIUM RANGE AIR-TO-AIR MISSILE

The Committee recommends \$304,327,000 for procurement of the Advanced Medium Range Air-to-Air Missile (AMRAAM) in the Weapons Procurement, Navy and Missile Procurement, Air Force accounts, a decrease of \$27,993,000 below the request. The decrease is due to lower than expected missile costs based upon the contract award of the Lot 26 (fiscal year 2012) contract. The recommendation fully funds the requested quantity of 180 missiles and also rescinds a total of \$40,572,000 from prior year appropriations to the same accounts due to the fiscal year 2012 contract savings.

The Committee is concerned with the level of diminishing manufacturing sources (DMS) costs within the AMRAAM program. The fiscal year 2013 request for AMRAAM DMS is \$64,496,000, or 19.4 percent of the total request, and program officials have reported that DMS costs are projected to increase to \$100,000,000 annually, an amount that appears to be far higher than that of any other missile program. The Committee therefore directs the Secretary of the Air Force to submit a report to the congressional defense committees on the management of DMS within the AMRAAM program. This report shall include, at a minimum: identification of the cost drivers for DMS within the AMRAAM program; a comparison of AMRAAM DMS costs with other Department of Defense tactical missile programs; a discussion of the AMRAAM program's approach to DMS and its conformity with departmental guidance and best practices; and an economic analysis demonstrating the costs and benefits, including the break-even point, of the AMRAAM DMS program. This report shall be submitted not later than 90 days after enactment of this Act.

GLOBAL HAWK BLOCK 30

The Air Force's fiscal year 2013 budget request proposes terminating the Global Hawk Block 30 program and retiring the 18 aircraft that have been delivered or are currently in production. The Air Force also intends not to execute funds provided for three additional Block 30 aircraft, which the Air Force requested in fiscal year 2012. The Block 30 aircraft and sensor suite previously was designated by the Air Force as the platform to replace the U-2 aircraft for high altitude intelligence, surveillance, and reconnaissance (ISR) by 2016.

On June 14, 2011, the Under Secretary of Defense for Acquisition, Technology and Logistics certified the Global Hawk Block 30 program as essential to national security per the Nunn-McCurdy Act. The certification further stated that the U-2 would cost \$220,000,000 per year more than the Global Hawk in the context of the Block 30 mission requirement. The Air Force's dramatic reversal of position on the respective merits of the Block 30 and the U-2 appears to be based on three major factors: a reduced requirement for high altitude ISR pursuant to the Department of Defense's strategic review; an assessment by the Department that the sensors on the U-2 perform at a level equal or superior to those on the Block 30; and that cost considerations favor the U-2.

The Committee does not concur with the Air Force's proposal to retire the Global Hawk Block 30. First, the abrupt reversal of the Department's position on the relative merits of the Global Hawk Block 30 and the U-2 is highly dependent on the assumptions and findings of the strategic review, and the Committee believes that the rationale and implications of this new strategy require further examination.

Second, the Air Force's contention that the U-2 is more cost-effective than the Global Hawk is open to question. Air Force data indicates that the operation and sustainment cost per flight hour of the Global Hawk Block 30, approximately \$32,000, is roughly equal to that of the U-2. The new high altitude ISR requirement appears to negate the Block 30's range advantage, allowing the Air Force to perform the mission with the existing U-2 fleet. However, since the Global Hawk's endurance advantage should allow for fewer aircraft to execute high altitude ISR orbits under the new requirement approved by the Joint Requirements Oversight Council (JROC), the cost comparison between the Global Hawk and the U-2 at the level of mission execution is unclear. The Air Force has also stated that achieving sensor "parity" between the U-2 and Global Hawk would require additional funding up to \$808,000,000, but it has not justified this estimate or indicated alternatives, such as adapting U-2 sensors for use on the Global Hawk.

Third, the Air Force has not presented the Committee with the full range of options and associated costs for divesting its Global Hawk Block 30 fleet. The ramifications of Block 30 termination include potential cost and schedule impacts to the Navy's Broad Area Maritime Surveillance (BAMS) program and the NATO Alliance Ground Surveillance (AGS) program.

The Committee directs the Secretary of the Air Force to submit a report to the congressional defense committees that includes the cost and feasibility of converting Global Hawk Block 30 aircraft for the purposes of the Navy's Broad Area Maritime Surveillance (BAMS) program; a detailed cost estimate for achieving sensor "parity" between the U-2 and Global Hawk and the assumptions behind such estimate, as well as an estimate of the cost and feasibility of adapting U-2 sensors for use on the Global Hawk Block 30 airframe; a comparison between the Global Hawk and the U-2 of the number of aircraft and cost required to execute a high altitude ISR orbit at the range required by the JROC; and the estimated cost and schedule impacts of Block 30 termination to both the BAMS and the NATO AGS program. The sections of the report relating to BAMS shall be developed in consultation with the Secretary of the Navy. This report shall be provided not later than March 1, 2013.

Finally, the Committee directs the Air Force to fully execute funding provided in fiscal year 2012 for the procurement of three additional Global Hawk Block 30 aircraft and includes bill language to this effect.

C-27J SPARTAN, C-23 SHERPA, AND DIRECT SUPPORT

The Air Force's fiscal year 2013 budget request proposed terminating the C-27J Spartan, also known as the Joint Cargo Aircraft. The C-27J fleet is assigned to the Air National Guard and provides

time sensitive/mission critical cargo delivery to ground forces in austere environments. Congress has fully funded the Air Force's program of record for 38 aircraft, of which twelve had been delivered and nine were in production as of February 2012.

The C-27J currently is operational in Afghanistan, and the Committee has been presented with no evidence that the aircraft is deficient in performance or otherwise fails to satisfy mission requirements. The Air Force's proposal is based on the contention that the C-27J's "niche" mission can be performed equally well by the C-130 fleet at less cost. Even if such considerations are valid, they were not made known to the Committee when the Air Force requested funds for the procurement of additional C-27J aircraft as recently as last year. The Committee is concerned both by the impact that termination of the C-27J would have on the Air National Guard and the wastefulness of disowning an investment of \$1,040,000,000 in a brand new aircraft recently considered by the Air Force and Army as vital to the direct support of forward deployed troops. When combined with the Army's proposal to phase out the Army National Guard's C-23 Sherpa fleet by 2015, the termination of the C-27 indicates flagging commitment to ensuring the direct support mission within the Department of Defense, and the devaluation of the role that aircraft such as the C-23 and C-27 play in homeland defense and disaster response support to the States. The Committee therefore does not concur with the Air Force's proposal to terminate the C-27J program.

The Committee directs the Secretary of the Air Force to execute the existing funds provided by Congress in fiscal years 2011 and 2012 to procure up to 17 additional aircraft and includes bill language to this effect. The Committee recommends additional funds in this bill for the purchase of spares, interim contractor support, and other costs required to continue the C-27J program. Finally, the Committee includes bill language prohibiting the further retirement of C-23 Sherpa aircraft and includes funds to maintain the current fleet of 34 aircraft.

SPECIAL INTEREST ITEMS

Items for which additional funds have been provided as shown in the project level tables or in paragraphs using the phrase "only for" or "only to" in this report are congressional interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount specifically addressed in the committee report. These items remain special interest items whether or not they are repeated in a subsequent conference report.

REPROGRAMMING GUIDANCE FOR ACQUISITION ACCOUNTS

It is the intent of the Congress that the program baseline for reprogramming funds reflects all approved adjustment actions: the initial appropriation as well as any rescissions, supplemental appropriations, and approved Department of Defense Form 1415 reprogrammings. The Secretary of Defense is directed to ensure that financial management regulations incorporate approved reprogramming actions as an adjustment to the base for reprogramming value.

The Committee directs the Secretary of Defense to continue to follow the reprogramming guidance specified in the report accompanying the House version of the Department of Defense Appropriations Act, 2006 (H.R. 109–119). Specifically, the dollar threshold for reprogramming funds will remain at \$20,000,000 for procurement and \$10,000,000 for research, development, test and evaluation. The Secretary shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. The percentage change limitation applies to both program increases and decreases. Additionally, this percentage change applies to the program base value at the time the below threshold movement of funds is executed. These thresholds are cumulative from the base for reprogramming value as modified by any adjustment action. Therefore, if the combined value of transfers into or out of a procurement (P–1) or research, development, test and evaluation (R–1) line exceeds the identified threshold, the Secretary of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this report.

REPROGRAMMING REPORTING REQUIREMENTS

The Committee directs the Under Secretary of Defense (Comptroller) to continue to provide the congressional defense committees quarterly, spreadsheet-based DD Form 1416 reports for service and defense-wide accounts in titles III and IV of this Act as required in the explanatory statement accompanying the Department of Defense Appropriations Act, 2006.

FUNDING INCREASES

The Committee directs that the funding increases outlined in these tables shall be provided only for the specific purposes indicated in the tables.

CLASSIFIED ANNEX

Adjustments to the classified programs are addressed in a classified annex accompanying this report.

AIRCRAFT PROCUREMENT, ARMY

Fiscal year 2012 appropriation	\$5,360,334,000
Fiscal year 2013 budget request	5,853,729,000
Committee recommendation	6,115,226,000
Change from budget request	261,497,000

This appropriation provides funds for the acquisition of tactical and utility airplanes and helicopters, including associated electronics, electronic warfare equipment for in-service aircraft, ground support equipment, components, and parts such as spare engines, transmission gear boxes, and sensor equipment. It also funds related training devices such as combat flight simulators and production base support.

The total amount recommended in the bill will provide the following program in fiscal year 2013:

Program Increase - only for the Army National Guard		199,000	
23 CH-47 CARGO HELICOPTER MODS	39,135	57,635	18,500
Cargo On/Off Loading System with ballistic protection		18,500	
26 UTILITY HELICOPTER MODS	73,804	93,804	20,000
UH-60 A to L conversion - only for the Army National Guard		20,000	

UH-72A LAKOTA LIGHT UTILITY HELICOPTERS

The budget request proposes \$271,983,000 to procure 34 UH-72A Lakota Light Utility Helicopters. The Committee is aware of the excellent performance of UH-72A helicopters in both active and reserve component Army units. The Committee recommendation provides the full amount requested for UH-72A Light Utility Helicopters. Additionally, the Committee recognizes the increased capability the UH-72A provides to the Army National Guard for homeland security, civil search and rescue, support to training centers including medical evacuation, and counter-drug operations. Accordingly, the Committee includes an additional \$23,997,000 above the budget request for a total of \$295,980,000. The additional funds are only for the procurement of three Lakota helicopters for the Army National Guard, including one to replace an aircraft lost in a training accident.

UH-60 BLACKHAWK HELICOPTERS

The budget request proposes \$1,107,087,000 to purchase 59 UH-60M helicopters. All of the aircraft are intended for the active duty Army. However, the Committee is aware that the Army National Guard operates a fleet of more than 815 Blackhawk helicopters. Many of the Army National Guard aircraft date back to the 1970s. The age of the National Guard fleet combined with the high operating tempo experienced over a decade of war argue for a combination of upgrades and new purchases to help maintain an acceptable state of readiness. However, at the current rate of upgrading the oldest UH-60s, the A models, the work will not be completed until 2027. The Committee finds this to be an unacceptable readiness risk. Accordingly, the Committee recommendation includes an additional \$199,000,000 above the budget request only for ten new UH-60M helicopters for the Army National Guard. The total provided for new UH-60s is \$1,306,087,000.

Additionally, the Committee recommendation includes \$20,000,000 above the budget request of \$73,804,000 for a total of \$93,804,000 for conversion of Army National Guard UH-60A model aircraft to UH-60L model aircraft.

MISSILE PROCUREMENT, ARMY

Fiscal year 2012 appropriation	\$1,461,223,000
Fiscal year 2013 budget request	1,302,689,000
Committee recommendation	1,602,689,000
Change from budget request	300,000,000

This appropriation provides funds for the acquisition of surface-to-air, surface-to-surface, air-to-surface, and anti-tank/assault missile systems. Also included are major components, modifications, targets, test equipment, and production base support.

The total amount recommended in the bill will provide the following program in fiscal year 2013:

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS
[In thousands of dollars]

P-1	Budget Request	Committee Recommended	Change from Request
1 PATRIOT SYSTEM SUMMARY Program increase	646,590	946,590 300,000	300,000

PATRIOT MISSILES

The budget request proposes \$646,590,000 for Patriot missile systems, including 84 missiles and 38 Enhanced Launcher Electronic Systems. The Committee is aware of the importance of the Patriot Advanced Capability 3 (PAC-3) missile to the combatant commanders. The Committee is also aware of the threat facing forward deployed units and the challenges of integrating the capabilities of the various Patriot series missiles. The Committee expects that advances achieved in the soon to be fielded Missile Segment Enhancement Missile and technology developed in the Medium Extended Air Defense System proof of concept will enhance the coverage and lethality of our missile defenses. In the near term; however, the Patriot PAC-3 provides accurate and reliable surveillance, detection, and engagement capability against tactical ballistic missiles, cruise missiles, and air breathing threats. The Committee recommendation fully supports the budget request of \$646,590,000 for additional Patriot systems. The recommendation provides \$300,000,000 above the budget request to provide additional PAC-3 missiles and launcher systems in support of the combatant commanders. The total funding provided is \$946,590,000.

PROCUREMENT OF WEAPONS AND TRACKED COMBAT VEHICLES, ARMY

Fiscal year 2012 appropriation	\$2,070,405,000
Fiscal year 2013 budget request	1,501,706,000
Committee recommendation	1,884,706,000
Change from budget request	383,000,000

This appropriation provides funds for the acquisition of tanks, personnel and cargo carriers, fighting vehicles, tracked recovery vehicles, self-propelled and towed howitzers, machine guns, mortars, modification of in-service equipment, initial spares, and production base support.

The total amount recommended in the bill will provide the following program in fiscal year 2013:

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS
[In thousands of dollars]

P-1	Budget Request	Committee Recommended	Change from Request
5 BRADLEY PROGRAM (MOD) Program increase	148,193	288,193 140,000	140,000
8 IMPROVED RECOVERY VEHICLE (M88A2 HERCULES) Program increase	107,909	169,909 62,000	62,000
12 ABRAMS UPGRADE PROGRAM Program increase	74,433	255,433 181,000	181,000

BRADLEY FIGHTING VEHICLE

The budget request proposes \$148,193,000 for the Bradley Fighting Vehicle upgrade program. The Committee recommendation fully funds the budget request and provides an additional \$140,000,000 for a total of \$288,193,000. The Bradley Fighting Vehicle has performed well in the wars in Iraq and Afghanistan. The high priority placed on the Ground Combat Vehicle program—Infantry Fighting Vehicle that will succeed the Bradley is a testament to the importance of the armored-troop-carrying and direct-engagement fighting vehicle with its multiple functional configurations. From Operation Desert Storm to the present, as the threat has adapted, the Army has upgraded the Bradley with improved lethality, armor, fire controls, communications, and situational awareness. The Committee is aware that the budget request provides funding for Engineering Change Proposal 1 (ECP-1) upgrades to the track and suspension and funding for Second Generation Forward Looking Infrared. The Committee provides the additional \$140,000,000 to support ECP-2, which improves the power train and electrical system in order to better support the technology advances of the Joint Tactical Radio System, Battle Command System, Warfighter Information Network-Tactical, and Second Generation Forward Looking Infrared. The Committee directs the Secretary of the Army to provide a report to the congressional defense committees, not later than 90 days after enactment of this Act, which describes the plan to use the additional funds to keep the Bradley production base operating.

M1 ABRAMS TANK UPGRADE PROGRAM

The budget request includes \$74,433,000 for the Abrams Tank Upgrade Program. The requested funding is intended to provide System Technical Support, Total Package Fielding for tanks that have been produced, and New Equipment Training. The recommendation provides \$255,433,000 for the M1 Abrams Tank Upgrade Program, which is \$181,000,000 above the request, to continue production of the latest model M1A2 SEP tank. The Committee understands that the Secretary of the Army has taken action using the additional funds provided by Congress in the Consolidated Appropriations Act, 2012, that will mitigate risk to the industrial base. The additional funds recommended in this Act will support a continuation of that effort. The additional tanks that will be produced will bring the tank fleet closer to a “pure fleet” situation for training, operations, and logistics. The Committee directs the Secretary of the Army to provide a report to the congressional defense committees, not later than 90 days after enactment of this Act, that describes the plan to use the additional funds to sustain the tank production base.

M88A2 HERCULES IMPROVED RECOVERY VEHICLE

The budget request includes \$107,909,000 to procure 31 M88A2 Heavy Equipment Recovery Combat Utility Lift and Evacuation Systems (HERCULES) Improved Recovery Vehicles. The Committee recommendation fully funds the request and provides an additional \$62,000,000 for a total of \$169,909,000. The additional

funding increases the number of M88A2s purchased by 18 to a total of 49 vehicles. The M88A2 is the only vehicle that is capable of single vehicle recovery of the 70 ton M1A2 tank. Without the availability of an M88A2, Army units must use two vehicles to recover an Abrams tank, with the second vehicle serving as a braking vehicle. Using two lighter vehicles to tow an M1A2 Abrams tank is difficult and dangerous. The Committee understands that heavy brigade combat teams are equipped with a mix of recovery vehicles, typically 15 M88A2s and 11 M88A1s. The Committee encourages the Army to accelerate the replacement of the A1 models with M88A2 Hercules vehicles.

SURVIVABILITY ENHANCEMENTS FOR COMBAT AND TACTICAL VEHICLES

The Committee is aware that in order to protect our troops from injuries and deaths due to fires, survivability enhancements have been applied to ground platforms, specifically to the Army's Bradley Fighting Vehicle. The Committee applauds this initiative and notes that mature technologies exist that can improve occupant safety and the chances for vehicle survivability. Accordingly, the Committee looks forward to the Army's and other Services' continued application of such mature, non-developmental approaches to other ground combat and non-combat vehicles including, but not limited to, Mine Resistant Ambush Protected vehicles and Strykers.

PROCUREMENT OF AMMUNITION, ARMY

Fiscal year 2012 appropriation	\$1,884,424,000
Fiscal year 2013 budget request	1,739,706,000
Committee recommendation	1,576,768,000
Change from budget request	- 162,938,000

This appropriation provides funds for the acquisition of ammunition, modification of in-service stock, and related production base support including the maintenance, expansion, and modernization of industrial facilities and equipment.

The total amount recommended in the bill will provide the following program in fiscal year 2013:

(DOLLARS IN THOUSANDS)

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS
[in thousands of dollars]

P-1	Budget Request	Committee Recommended	Change from Request
1 CTG, 5.56MM, ALL TYPES Excess to requirement	158,313	123,513 -34,800	-34,800
7 CTG, 30MM, ALL TYPES Excess to requirement	72,154	54,154 -18,000	-18,000
8 CTG, 40MM, ALL TYPES Excess to requirement	60,138	0 -60,138	-60,138
15 PROJ 155MM EXTENDED RANGE XM982 Contract award delays	110,329	60,329 -50,000	-50,000

EXCALIBUR M982

The M982 Extended Range 155mm artillery projectile has proven to be a reliable, accurate, and lethal weapon. The Army is able to achieve the necessary effect with fewer rounds fired and with reduced collateral damage. The budget request proposes \$110,329,000 in the base budget to procure 2,046 projectiles, and \$12,300,000 in Overseas Contingency Operations funding for 241 projectiles. The Committee recommendation fully funds the Overseas Contingency Operations request. The Committee notes that the base program has experienced a delay of about six months as a result of a Nunn-McCurdy review and recertification. The first production award for Increment 1b is scheduled to take place in the second quarter of fiscal year 2013 using fiscal year 2012 carryover funding. The second production award is scheduled to occur in the fourth quarter of fiscal year 2013. Further delays would likely delay that award until the first fiscal quarter of 2014. The Committee recommendation includes \$60,329,000 for Excalibur projectiles, a reduction of \$50,000,000 from the request.

OTHER PROCUREMENT, ARMY

Fiscal year 2012 appropriation	\$7,924,214,000
Fiscal year 2013 budget request	6,326,245,000
Committee recommendation	6,488,045,000
Change from budget request	161,800,000

This appropriation provides funds for the acquisition of tactical and commercial vehicles, including trucks, semi-trailers, and trailers of all types to provide mobility and utility support to field forces and the worldwide logistical system; communications and electronic equipment of all types to provide fixed, semi-fixed, and mobile strategic and tactical communications; other support equipment, generators and power units, material handling equipment, medical support equipment, special equipment for user testing, and non-system training devices. In each of these activities, funds are also included for the modification of in-service equipment, investment spares and repair parts, and production base support,

The total amount recommended in the bill will provide the following program in fiscal year 2013:

CONTAINER HANDLING EQUIPMENT

Congress has provided funding for various types of container handling equipment including devices to be used with the Palletized Load System and Heavy Expanded Mobile Tactical Truck. Container Roll-in/out Platform (CROPs)/Flatracks, Enhanced Container Handling Units (ECHU), and Container Transfer Enhancements (CTE) have facilitated the transfer of heavy cargo in forward tactical areas in Iraq and Afghanistan. The budget request for fiscal year 2012 includes \$35,833,000 for 2,095 CROPs/Flatracks to fill requirements described as urgent for Stryker and Modular Brigade Combat Teams. The budget request also includes \$23,105,000 for urgent requirements for 548 Container Handling Units. However, obligation of the fiscal year 2012 funding for these items has lagged. Significant amounts also remain available from fiscal year 2011, and additional funds are included in the fiscal year 2013 request. The Army indicates that currently, the Container Handling Unit is preferred in use over CROPs/Flatracks and the slow budget execution is a result of changing requirements in the combat theater. The Committee appreciates actions taken by the Army to avoid spending funds on unneeded equipment. However, the abrupt change in requirements from one year to the next calls into question the accuracy and diligence of the Army's budget formulation process. The Committee understands that the Army expects to acquire no additional CROPs/Flatracks for the next three years. The Committee notes that after a three year break, substantial costs could be incurred to reestablish a production line and certify a producer. The Committee believes that better forecasting and inter-service coordination would assist both the industrial base and the armed services to ensure the availability of the required equipment. The Committee directs the Comptroller General to provide a report to the congressional defense committees not later than 90 days after enactment of this Act on the acquisition plan, requirement, and inventory for container handling equipment in the Army including CROPs/Flatracks, ECHU, CTE, and similar equipment in use by the Army. Additionally, the Committee directs that none of the funds in this Act or any other appropriations act for fiscal year 2013 or any previous fiscal year may be used to make payments for the procurement of container handling equipment for the Army including CROPs/Flatracks, ECHU, CTE, and similar equipment in use by the Army, until 30 days after receipt of the report by the Comptroller General.

AIRCRAFT PROCUREMENT, NAVY

Fiscal year 2012 appropriation	\$17,675,734,000
Fiscal year 2013 budget request	17,129,296,000
Committee recommendation	17,518,324,000
Change from budget request	389,028,000

This appropriation provides funds for the procurement of aircraft and related support equipment and programs; flight simulators; equipment to modify in-service aircraft to extend their service life, eliminate safety hazards and improve aircraft operational effectiveness; and spare parts and ground support equipment for all end items procured by this appropriation.

The total amount recommended in this bill will provide the following program in fiscal year 2013:

F/A-18E/F TACTICAL AIRCRAFT

The Committee believes a strong tactical aircraft fleet is vital to the Nation's security. The F/A-18E/F Super Hornet aircraft, which is nearing the end of its production run, is the Navy's current strike fighter workhorse. The future of Navy tactical aviation will be the F-35C Lightning II aircraft, which will bring a fifth generation strike fighter to the decks of the Nation's aircraft carriers. As a result of several variables, not the least of which has been the increased flight hours flown by the Navy's tactical aircraft fleet in support of conflicts around the world, the Navy has been faced with a strike fighter shortfall. To partially offset the severity of this shortfall, the Navy has begun a service life extension program for 150 of the legacy F-18 Hornet aircraft. While still in its infancy, this effort is expected to gain approximately 1,400 flight hours per aircraft at a cost of approximately \$25,000,000 per aircraft. The Committee notes that a new Super Hornet aircraft has a cost of approximately \$55,000,000 and an expected service life of 9,000 flight hours. When comparing the two options, a new aircraft would provide six times the service life at just twice the cost. While it is not reasonable to close the entire strike fighter shortfall gap with new aircraft, a small quantity of new aircraft is an attractive alternative, especially considering the additional flight hours gained. Accordingly, the recommendation provides \$605,000,000 for the procurement of an additional eleven Super Hornet aircraft above the request.

EA-18G ELECTRONIC ATTACK AIRCRAFT

The Department of the Navy has accomplished the Nation's airborne electronic attack (AEA) mission for the Department of Defense for several years. This mission has largely been performed with the EA-6B Prowler aircraft flown by the Navy and Marine Corps. The mission is currently transitioning to the EA-18G Growler aircraft (a variant of the F/A-18 aircraft) as the Prowler aircraft age and are retired. There are currently 19 airborne electronic attack squadrons in the Department of the Navy, however, only 15 Growler squadrons are planned. This is due to the fact that the Marine Corps will not fly the Growler aircraft but intends to move away from dedicated airborne electronic attack squadrons and shift to an organic capability using electronic warfare payloads such as Intrepid Tiger and the inherent capabilities within the F-35 aircraft. Although this approach is envisioned to satisfy the requirements of the Marine Corps, the Committee is concerned about the reduced AEA capability for the Nation at large. The Prowler aircraft (and the compatible AEA mission) has been a high demand, low density platform since the days of Desert Storm and is expected to continue as such. Accordingly, the recommendation provides \$45,000,000 above the request for the advance procurement of materials for the construction of 15 additional EA-18G aircraft in fiscal year 2014 to preserve the option of increasing the quantity of this vital aircraft.

WEAPONS PROCUREMENT, NAVY

Fiscal year 2012 appropriation	\$3,224,432,000
Fiscal year 2013 budget request	3,117,578,000
Committee recommendation	3,072,112,000
Change from budget request	-45,466,000

This appropriation provides funds for the procurement of strategic and tactical missiles, target drones, torpedoes, guns, associated support equipment, and modification of in-service missiles, torpedoes, and guns.

The total amount recommended in the bill will provide the following program in fiscal year 2013:

PROCUREMENT OF AMMUNITION, NAVY AND MARINE
CORPS

Fiscal year 2012 appropriation	\$626,848,000
Fiscal year 2013 budget request	759,539,000
Committee recommendation	677,243,000
Change from budget request	-82,296,000

This appropriation provides funds for the acquisition of ammunition, ammunition modernization, and ammunition-related material for the Navy and Marine Corps.

The total amount recommended in the bill will provide the following program in fiscal year 2013:

SHIPBUILDING

The Navy's shipbuilding program is the centerpiece of the Navy's budget request. The Nation's fleet creates our forward presence, projects power, and maintains open sea lanes. The Committee is well aware that the sight of a U.S. Navy ship on the horizon makes a powerful strategic statement in any theater. The Committee strongly supports all actions to maintain the standing of the United States Navy as the world's preeminent sea power and a global good neighbor when humanitarian relief is required. The Committee is therefore puzzled by the Navy's priorities in its shipbuilding plan.

As part of its new strategy, the Department of Defense has rebalanced toward the Asia-Pacific and Middle East regions of the world. Despite these regions having a significantly larger area of the world's oceans, the Navy plans to accelerate the decommissioning of seven guided missile cruisers, has reduced the shipbuilding budget by nearly eleven percent relative to the fiscal year 2012 appropriated level, and is reducing the total number of ships required to fulfill its requirements under this new strategy. The required fleet size has been reduced from 313 ships to approximately 300 ships in the long term, but the Navy will maintain 285 ships in the near term. The Navy has also deferred the procurement of an attack submarine and a guided missile destroyer, the backbone of the Navy's combatant fleet, from fiscal year 2014 to future years and, in their place has inserted a vessel known as the Afloat Forward Staging Base. This vessel would fill a very long standing (but never fulfilled) mission need. The Committee applauds the Navy for finally fulfilling such a long standing need but is confused by the timing of this action in an era of decreasing budgets and also by the fact that a submarine and destroyer are not being procured in fiscal year 2014 in part to make funding available for this new vessel.

The decision to defer the procurement of a submarine and a destroyer is both confusing and concerning, especially the submarine. Since its inception in 1998, the Virginia Class Submarine program always intended to build two submarines per year. Although the second submarine repeatedly appeared in outyear budget projections, it was continually deferred by the Navy. The program finally reached a rate of two submarines per year in fiscal year 2011, largely due to the efforts of this Committee. Now, after only three years at this rate (2011 through 2013), the Navy is again reducing the production rate. The Committee believes this decision will increase the cost of the submarines, result in production inefficiencies, and exacerbate the Navy's own predicted attack submarine shortfall. Additionally, with the impending addition of the SSBN replacement submarine to the shipbuilding budget, an event which will "suck the air out of the Navy's shipbuilding budget" according to a former Secretary of Defense, funding in the outyears will not be any easier to come by.

The Committee believes the Navy recognizes the need to fund another destroyer and submarine in fiscal year 2014 since the Navy has approached the Committee with various plans and schemes to attempt to restore these ships to fiscal year 2014. One of these plans revolves around the incremental funding concept despite the

fact that the Department’s own financial management regulations and policies prohibit incremental funding of large end items such as ships, except under certain circumstances, none of which apply in this case. The Committee strongly supports these regulations and policies because fully funded end items do not commit future Congresses to obligations they may or may not agree with and also because they provide the ability to conduct much more complete, transparent, and rigorous program oversight. Incremental funding is certainly comparable to buying items on credit by deferring payments to the outyears.

The Committee understands the constraints of the fiscal year 2014 budget, but to give up two highly prized combatants, and fund instead a vessel for a mission that can be (and has been) satisfied with existing ships, then attempt to restore those combatants through funding gimmicks in violation of the Department’s own financial regulations is deeply troubling. The Committee firmly believes that a strong Navy shipbuilding program is absolutely essential for the Nation’s security but will not mortgage the Nation’s future to accomplish it. Accordingly, the recommendation provides an additional \$1,000,000,000 above the request for the procurement of an additional DDG–51 guided missile destroyer. The Secretary of the Navy is directed to use this funding as part of the DDG–51 multiyear procurement planned for fiscal years 2013 through 2017 in order to achieve a lower cost and provide a more stable production base for the duration of the DDG–51 multiyear procurement. Finally, the recommendation provides an additional \$723,000,000 above the request for advance procurement for the Virginia Class Submarine program. The Secretary of the Navy is directed to fully fund an additional submarine in fiscal year 2014 to achieve a lower cost and stable production base through the course of the program’s planned multiyear procurement.

OTHER PROCUREMENT, NAVY

Fiscal year 2012 appropriation	\$6,013,385,000
Fiscal year 2013 budget request	6,169,378,000
Committee recommendation	6,364,191,000
Change from budget request	194,813,000

This appropriation provides funds for the procurement of major equipment and weapons other than ships, aircraft, missiles, and torpedoes. Such equipment ranges from the latest electronic sensors for updates of naval forces, to trucks, training equipment, and spare parts.

The total amount recommended in the bill will provide the following program in fiscal year 2013:

PROCUREMENT, MARINE CORPS

Fiscal year 2012 appropriation	\$1,422,570,000
Fiscal year 2013 budget request	1,622,955,000
Committee recommendation	1,482,081,000
Change from budget request	- 140,874,000

This appropriation provides funds for the procurement, production, and modification of equipment, supplies, materials, and spare parts.

The total amount recommended in the bill will provide the following program in fiscal year 2013:

(DOLLARS IN THOUSANDS)

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS
[in thousands of dollars]

P-1	Budget Request	Committee Recommended	Change from Request
2 LAV PIP Marine Corps requirement change	186,216	45,342 -140,874	-140,874

LIGHT ARMORED VEHICLE

The budget request proposes \$186,216,000 for the Light Armored Vehicle (LAV) Product Improvement Program. The Committee recommendation provides \$45,342,000, which is \$140,874,000 below the request. The reduction is due to a change in the authorized acquisition objective for the LAV based on a planned end strength reduction and related elimination of three Light Armored Reconnaissance companies. The acquisition objective decreased from 1,005 to 930 vehicles.

AIRCRAFT PROCUREMENT, AIR FORCE

Fiscal year 2012 appropriation	\$12,950,000,000
Fiscal year 2013 budget request	11,002,999,000
Committee recommendation	11,304,899,000
Change from budget request	301,900,000

This appropriation provides for the procurement of aircraft, and for modification of in-service aircraft to improve safety and enhance operational effectiveness. It also provides for initial spares and other support equipment to include aerospace ground equipment and industrial facilities. In addition, funds are provided for the procurement of flight training simulators to increase combat readiness and to provide for more economical training.

The total amount recommended in the bill will provide the following program in fiscal year 2013:

F-22 BACKUP OXYGEN SYSTEM

The Committee is concerned by the continuing problems with hypoxia-type events involving the F-22 and the Air Force's inability to determine a remediable root cause for this problem. As the military's only operational fifth generation fighter, the F-22 is critical to the implementation of the National Defense Strategy. Due to the small size of the F-22 fleet, and the utmost importance of preserving the safety and readiness of F-22 pilots, the Committee strongly supports Air Force efforts to address this problem. The Committee understands that the Air Force is in the final stages of selecting a design for an automated backup oxygen system as a mitigation measure. The Committee's recommendation therefore includes \$50,000,000 only for the procurement and installation of a backup oxygen system for the F-22. The Committee further directs the Air Force to provide regular updates to the Committee on physiological events involving F-22 pilots, impacts on flight operations, and the progress of efforts to discover and implement solutions.

C-130 AVIONICS MODERNIZATION PROGRAM

The Air Force's fiscal year 2013 budget request proposes to terminate the C-130 Avionics Modernization Program (AMP). The C-130 AMP effort modernizes and standardizes the avionics and cockpit configurations on legacy C-130H aircraft, increasing the efficiency of the fleet and satisfying Communication, Navigation, and Surveillance/Air Traffic Management (CNS/ATM) mandates. In lieu of AMP, the Air Force proposes to initiate a new start program to satisfy CNS/ATM mandates only. The Committee does not concur with the Air Force's proposal to terminate C-130 AMP. The Committee is not satisfied that the Air Force has performed adequate cost-benefit analysis on AMP termination. Even though previous Air Force budget documents have stated that AMP will lower total ownership costs for the C-130 fleet, the Air Force has failed to provide the Committee with a life-cycle cost analysis that would allow the Committee to weigh the immediate budgetary benefits of AMP termination against the long term costs of maintaining a heterogeneous C-130H fleet and retaining the navigator position. At the same time, the Committee acknowledges the Air Force's need to lower the upfront costs of the program. The Committee recommends increases of \$10,000,000 each to the Aircraft Procurement, Air Force and Research, Development, Test and Evaluation, Air Force accounts to continue the current AMP program with the provision that the Secretary of the Air Force and the prime contractor should engage in efforts to reduce the average procurement unit cost of AMP modifications to less than \$10,000,000 in base year dollars.

B-52 COMBAT NETWORK COMMUNICATIONS TECHNOLOGY

The Air Force's fiscal year 2013 budget request proposes a restructuring of the B-52 Combat Network Communications Technology (CONNECT) effort. CONNECT provides multiple hardware upgrades to the B-52 to enhance communications and increase situational awareness, allowing for timely re-tasking and weapons re-targeting capability that greatly improves the mission flexibility of

the B-52. The Air Force’s proposed restructuring would reduce program content to replacement of the aircraft’s visual displays and reliance on the temporary, laptop-based Evolutionary Data Link modification as the permanent solution, which would provide significantly less capability. The Committee discerns no rationale for this restructuring other than a short-term need to meet budget constraints. The Committee directs the Secretary of the Air Force to continue with the B-52 CONECT effort using funds previously appropriated for this program. The Committee also recommends a reduction of \$34,700,000 from the fiscal year 2013 request for research, development, test and evaluation, eliminating funds requested to develop the restructured program and de-modify a B-52 test aircraft previously modified for CONECT.

C-130J

The Air Force’s future years defense program for fiscal years 2012-2016 projected a requirement for twelve additional C-130J aircraft in fiscal year 2013. Congress authorized and appropriated \$120,000,000 in fiscal year 2012 for advance procurement of these 12 aircraft. The Air Force’s fiscal year 2013 budget request includes only seven aircraft. The Committee’s recommendation includes additional funds to restore procurement of one C-130J, two HC-130J, and two MC-130J aircraft. The Committee directs the Secretary of the Air Force to use fiscal year 2012 C-130J advance procurement funds for the purposes for which such funds were originally appropriated.

WAR READINESS ENGINE SHORTFALL

The Committee understands that the Air Force faces a shortfall of useable F-100-229 engines for the F-15 and F-16 fleets as compared to the War Readiness Engine (WRE) objective. Given that the Air Force will continue to rely on the F-15 and F-16 well into the foreseeable future, and that service life extension requirements for these aircraft continue to grow, maintaining the fleets at the highest feasible state of readiness is imperative. The Committee urges the Secretary of the Air Force to budget for the full WRE objective for the F-100-299 and all other engines that have similar shortfalls.

MISSILE PROCUREMENT, AIR FORCE

Fiscal year 2012 appropriation	\$6,080,877,000
Fiscal year 2013 budget request	5,491,846,000
Committee recommendation	5,449,146,000
Change from budget request	-42,700,000

This appropriation provides funds for the procurement, installation, and checkout of strategic ballistic and other missiles, modification of in-service missiles, and initial spares for missile systems. It also provides for operational space systems, boosters, payloads, drones, associated ground equipment, non-recurring maintenance of industrial facilities, machine tool modernization, and special program support.

The total amount recommended in the bill will provide the following program in fiscal year 2013:

22 GLOBAL POSITIONING (SPACE)	58,147	48,147	-10,000
GPS Space and Control technical support - excess to need		-10,000	

SPACE LAUNCH

The Committee supports the Air Force’s initiative to achieve competition in the space launch enterprise. While the Evolved Expendable Launch Vehicle (EELV) program has achieved considerable progress with 49 successful launches to date, the costs for this program have been difficult to justify and have been a source of concern. The Committee is pleased that the EELV program will be reviewed as part of the Nunn-McCurdy recertification process and is eager to see the results. The Committee also supports the New Entrant Certification initiative that should enable competition and lead to additional cost savings.

SPACE BASED INFRARED SYSTEM AND ADVANCED EXTREMELY HIGH FREQUENCY SATELLITE SYSTEM PROCUREMENT

The Committee has supported an incremental funding approach for Advanced Extremely High Frequency (AEHF) satellites numbers five and six and supports the same approach for Space Based Infrared System (SBIRS) satellites numbers five and six. However, the cost estimate for these satellites appears to be extremely conservative. Based on past development histories, this would seem prudent; however, since these are production satellites with little non-recurring engineering required, the excess funding is not required. Therefore, the Committee directs that the Secretary of the Air Force, in conjunction with the Office of the Secretary of Defense, Cost Assessment and Program Evaluation, shall provide to the congressional defense committees not later than 30 days after enactment of this Act a report that shows the should-cost estimate, the costs for robust sparing, and the unit and total costs for buying three satellites rather than the current quantity of two for both the AEHF and SBIRS systems. If the approved acquisition strategy does not support the most economical procurement of these vehicles, the report should explain such differences.

PROCUREMENT OF AMMUNITION, AIR FORCE

Fiscal year 2012 appropriation	\$499,185,000
Fiscal year 2013 budget request	599,194,000
Committee recommendation	599,194,000
Change from budget request	---

This appropriation provides funds for the acquisition of ammunition, modifications, spares, weapons, and other ammunition-related items for the Air Force.

The total amount recommended in the bill will provide the following program in fiscal year 2013:

(DOLLARS IN THOUSANDS)

Fiscal year 2012 appropriation	\$17,403,564,000
Fiscal year 2013 budget request	16,720,848,000
Committee recommendation	16,632,575,000
Change from budget request	- 88,273,000

This appropriation provides funds for the procurement of weapon systems and equipment other than aircraft and missiles. Included are vehicles, electronic and telecommunications systems for command and control of operational forces, and ground support equipment for weapon systems and supporting structure.

The total amount recommended in the bill will provide the following program in fiscal year 2013:

SPECIAL OPERATIONS COMMAND AVIATION FOREIGN INTERNAL
DEFENSE PROGRAM

The budget request contains \$97,700,000 in the Non-Standard Aviation Program for procurement of aircraft for the Aviation Foreign Internal Defense (AvFID) program, and \$7,500,000 for the U-28 program. The Committee is aware that the Special Operations Command has changed its strategy regarding the AvFID and U-28 programs subsequent to submission of the fiscal year 2013 budget request. The Committee recommendation reflects implementation of the revised strategy by transferring funds requested for AvFID procurement to the U-28 program.

The Committee understands that the revised strategy will combine the Non-Standard Aviation (NSAV) light program and the AvFID program with resulting efficiencies in training, maintaining, and supporting of forward deployed combined units. The Committee believes that this decision to combine the two programs will create efficiencies through reduced acquisition and operational costs and leverage the existing logistical and operational expertise experiences of the Air Force Special Operations Active and reserve components. The Committee notes that the overall program realignment of assets will result in an estimated reduction of contractor logistics support costs by approximately \$53,000,000 between fiscal years 2013 and 2017.

The Committee encourages the Commander, U.S. Special Operations Command and the Commander, Air Force Special Operations Command (AFSOC) to continually and comprehensively validate geographic combatant commander requirements for AvFID and NSAV and to prioritize in a way that will ensure a globally persistent and effective presence that contributes to security force assistance and national security objectives. The Committee also encourages the Commander, AFSOC to refine global site selection to optimize operational an logistical support and to continue efforts to reduce contracted logistics support across the Future Years Defense Program.

NATIONAL GUARD AND RESERVE EQUIPMENT

The National Guard and reserve forces regularly receive less than a proportionate share of funding to resource their dual-use equipment needs. However, the role of the reserve components in providing fully equipped, trained, and ready forces in the Services' force generation models is essential. The readiness of the National Guard and reserve units is imperative.

The Committee recommendation for the National Guard and Reserve Equipment Account (NGREA) is \$2,000,000,000. Of that amount, \$650,000,000 is for the Army National Guard; \$650,000,000 for the Air National Guard; \$300,000,000 for the Army Reserve; \$140,000,000 for the Navy Reserve; \$120,000,000 for the Marine Corps Reserve; and \$140,000,000 for the Air Force Reserve to meet urgent equipment needs that may arise in fiscal year 2013.

This funding will allow the Guard and reserve components to procure high priority equipment that may be used by these components for both their combat missions and their missions in support of state governors. This funding will allow the National Guard and reserve components to procure items such as: Generation 4 Advanced targeting pods, internal and external auxiliary fuel tank systems for Apaches and Chinooks, Green Laser Interdiction Systems, propeller balancing systems, ultra-light tactical vehicles, handheld laser trackers, tactical radios, tactical trailers, and field engineering, logistics, and maintenance equipment.

The use of simulation training systems has yielded a military that is better trained, more capable, and more confident as compared to units that do not have access to modern simulation training devices. Simulation training is a cost effective means by which reserve units can improve tactical decision-making skills and ultimately save lives. It is anticipated that a portion of this funding will be used to procure a variety of simulation training systems. To ensure the most efficient and effective training program, these systems should be a combination of both government owned and operated simulators and simulation support from a dedicated commercial activity capable of providing frequent hardware and software updates.

Additionally, the Committee recognizes that adding capability and modernizing equipment unique to the reserve component or legacy systems with limited active component investment may require design, integration, test, and software efforts prior to procurement. Therefore, for fiscal year 2013, on a one year trial basis, bill language is included that will allow the use of up to three percent of the respective reserve component's NGREA appropriation, as needed, for research, development, test and evaluation for federal and domestic operations requirements as they relate to equipping the reserve components.

DEFENSE PRODUCTION ACT PURCHASES

Fiscal year 2012 appropriation	\$169,964,000
Fiscal year 2013 budget request	89,189,000

TOTAL, DEFENSE PRODUCTION ACT	89,189	63,531	- 25,658

ADVANCED DROP-IN BIOFUEL PRODUCTION

The request includes \$70,000,000 for the construction or retrofit of domestic commercial (or pre-commercial) scale advanced drop-in biofuel plants and refineries. The Committee understands that the Department has allocated \$100,000,000 of the \$150,000,000 program addition to the fiscal year 2012 Defense Production Act account for this effort and that \$70,000,000 of this funding likely will not execute until well into fiscal year 2013 or even into fiscal year 2014. While the Committee is supportive of alternative energy development, in these times of decreasing budgets, it does not seem prudent to stockpile funds so far ahead of need. Accordingly the recommendation provides no funding for this effort in fiscal year 2013. The Committee urges the Secretary of Defense to request this funding in future years when it can execute in a timely manner.

TITLE IV

RESEARCH, DEVELOPMENT, TEST AND EVALUATION

The fiscal year 2013 Department of Defense research, development, test and evaluation budget request totals \$69,407,767,000. The accompanying bill recommends \$69,984,145,000. The total amount recommended is an increase of \$576,378,000 above the fiscal year 2013 budget request and is \$2,436,530,000 below the total provided in fiscal year 2012. The table below summarizes the budget estimate and the Committee's recommendations.

(DOLLARS IN THOUSANDS)

	=====	=====	=====

SYSTEMS ENGINEERING

The Committee recognizes the importance of a strong systems engineering workforce for the success of acquisition programs within the Department of Defense. Studies indicate that early and sustained investment in systems engineering reduces the likelihood of cost and schedule overruns in acquisition programs.

The Committee is concerned that the Department exhibits inconsistency in its approach to systems engineering. The Defense Acquisition Guidebook defines systems engineering as “an interdisciplinary approach encompassing the entire technical effort to evolve and verify an integrated and total life cycle balanced set of system, people, and process solutions that satisfy customer needs, and the integrating mechanism across all technical efforts related to the development, manufacturing, verification, deployment, operations, support, disposal of, and user training for systems and their life cycle processes.” This definition is consistent with many others that distinguish systems engineering, a multidisciplinary and integrative effort, from other engineering disciplines.

By contrast, the Department’s approach to its systems engineering workforce does not distinguish between the limited cadre of government engineers with the education, experience, and record of past performance that qualifies them as true systems engineers, and the rest of its engineering workforce. Given the challenges the Department faces in recruiting and retaining these highly sought-after individuals, the Committee views the Department’s inability to track the level of real systems engineering expertise in its workforce as a key deficiency that must be addressed. The current lack of visibility clouds the Department’s knowledge of this vital element of its workforce, with implications for staffing, succession planning, and ultimately, program performance. Of particular concern is the fact that pending personnel reductions may result in the loss of hard-to-replace senior systems engineering talent and promising future systems engineers.

The Department conducts a wide range of Science, Technology, Engineering, and Mathematics (STEM) outreach programs aimed at all education levels to encourage students to pursue careers in these fields. Recruiting personnel with STEM backgrounds would logically help improve the quality of the systems engineering workforce.

The Committee urges the Secretary of Defense to establish a mechanism for identifying and tracking personnel within the Department’s organic acquisition workforce whom the Department recognizes as being qualified in the discipline of systems engineering, on the basis of education, experience, and such other factors as it may identify (such as prior performance). Additionally, the Committee believes it would benefit the Department to track the effectiveness of its many STEM outreach programs in an effort to determine if these programs are actually resulting in an improved STEM (including systems engineers) workforce within the Department.

DEPARTMENT OF DEFENSE AND SERVICE CYBER ACTIVITIES

The Committee acknowledges the threat to and from the cyber realm and believes it has been well documented; however, the resources being expended against the threat have not. In order to better evaluate the planning and resourcing for Department of Defense cyber activities, the Committee directs the Commander, United States Cyber Command, in coordination with the Secretary of Defense and each of the Service Secretaries, to provide the congressional defense committees separate budget justification material, in the form of budget documents as defined in the Department's financial management regulation, that details the year-to-year budgets, schedule, and milestone goals over the Future Years Defense Program for the individual programs that support the goals of cyber initiatives. The programs detailed must include cyberspace operations, computer network operations, information assurance, and full spectrum cyber operations for the Department of Defense and the Services. Further, the Committee suggests that the Department continue to refine what activities, budget lines, and programs should be considered cyber in order to better coordinate and track these budgets.

ADVANCED HYPERSONIC WEAPON

The Committee is aware that the United States Army Space and Missile Defense Command/Army Forces Strategic Command conducted the first test flight of the Advanced Hypersonic Weapon (AHW) concept on November 17, 2011. The AHW is designed to fly within the earth's atmosphere at hypersonic speed and long range. In the test, a three-stage booster system launched the AHW glide vehicle and deployed it on the desired flight trajectory. The vehicle flew a non-ballistic glide trajectory at hypersonic speed to the planned impact location. The Committee will follow the program as it advances. The Committee directs the Secretary of Defense to provide a report to the congressional defense committees not later than 60 days after enactment of this Act on plans for future development and testing of the Advanced Hypersonic Weapon. The report shall include the program plan and funding allocation for fiscal year 2012, fiscal year 2013, and the Future Years Defense Program through 2017, for Prompt Global Strike and the Navy Strategic Systems Project Office.

SPECIAL INTEREST ITEMS

Items for which additional funds have been provided as shown in the project level tables or in paragraphs using the phrase "only for" or "only to" in this report are congressional interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount specifically addressed in the committee report. These items remain special interest items whether or not they are repeated in a subsequent conference report.

REPROGRAMMING GUIDANCE FOR ACQUISITION ACCOUNTS

It is the intent of the Congress that the program baseline for reprogramming funds reflects all approved adjustment actions: the

initial appropriation as well as any rescissions, supplemental appropriations, and approved Department of Defense Form 1415 reprogrammings. The Secretary of Defense is directed to ensure that financial management regulations incorporate approved reprogramming actions as an adjustment to the base for reprogramming value.

The Committee directs the Secretary of Defense to continue to follow the reprogramming guidance specified in the report accompanying the House version of the Department of Defense Appropriations Act, 2006 (H.R. 109–119). Specifically, the dollar threshold for reprogramming funds will remain at \$20,000,000 for procurement and \$10,000,000 for research, development, test and evaluation. The Secretary of Defense shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. The percentage change limitation applies to both program increases and decreases. Additionally, this percentage change applies to the program base value at the time the below threshold movement of funds is executed. These thresholds are cumulative from the base for reprogramming value as modified by any adjustment action. Therefore, if the combined value of transfers into or out of a procurement (P–1) or research, development, test and evaluation (R–1) line exceeds the identified threshold, the Secretary of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this report.

REPROGRAMMING REPORTING REQUIREMENTS

The Committee directs the Under Secretary of Defense (Comptroller) to continue to provide the congressional defense committees quarterly, spreadsheet-based DD Form 1416 reports for service and defense-wide accounts in titles III and IV of this Act as required in the explanatory statement accompanying the Department of Defense Appropriations Act, 2006.

FUNDING INCREASES

The Committee directs that the funding increases outlined in these tables shall be provided only for the specific purposes indicated in the tables.

CLASSIFIED ANNEX

Adjustments to the classified programs are addressed in a classified annex accompanying this report.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, ARMY

Fiscal year 2012 appropriation	\$8,745,492,000
Fiscal year 2013 budget request	8,929,415,000
Committee recommendation	8,593,055,000
Change from budget request	–336,360,000

This appropriation provides funds for the research, development, test and evaluation activities of the Department of the Army. The

210

total amount recommended in the bill will provide the following
program in fiscal year 2013:

(DOLLARS IN THOUSANDS)

Improved Turbine Engine Program - ahead of need		-54,100	

MEDIUM EXTENDED AIR DEFENSE

The budget request for fiscal year 2013 proposes to provide \$400,861,000 for the final year of funding for the Medium Extended Air Defense (MEADS) proof of concept. While the Committee recognizes that some additional benefit might be realized by additional funding, the expected benefits do not justify the cost. The Committee recommendation includes no funding for MEADS.

ROBOTIC DEVELOPMENT

Recognizing the increased need to use unmanned systems as a means to maintain U.S. military capabilities in the face of likely reductions in manpower, the Committee encourages the Secretary of the Army to accelerate efforts to develop and deploy operational, prototype ground robotics systems utilizing both traditional and non-traditional suppliers.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, NAVY

Fiscal year 2012 appropriation	\$17,753,940,000
Fiscal year 2013 budget request	16,882,877,000
Committee recommendation	16,987,768,000
Change from budget request	104,891,000

This appropriation provides funds for the research, development, test and evaluation activities of the Department of the Navy, which includes the Marine Corps. The total amount recommended in the bill will provide the following program in fiscal year 2013:

(DOLLARS IN THOUSANDS)

	BUDGET REQUEST	COMMITTEE RECOMMENDED	CHANGE FROM REQUEST	
RESEARCH, DEVELOPMENT, TEST & EVAL, NAVY				
BASIC RESEARCH				
1	UNIVERSITY RESEARCH INITIATIVES.....	113,690	133,690	+20,000
2	IN-HOUSE LABORATORY INDEPENDENT RESEARCH.....	18,261	18,261	---

FIRES-COUT

The MQ-8 Firescout vertical take-off and landing unmanned aerial vehicle will provide intelligence, surveillance, and reconnaissance data to users without the use of manned aircraft or reliance on national assets. The Navy's original plan for this platform was for use in the mission packages onboard the Littoral Combat Ships. With the delay in construction and fielding of these ships, the aircraft has migrated to other roles and missions, which has disrupted the testing and development schedule, resulting in a concurrent development, testing, and production schedule. The current state of this program is not unlike the Joint Strike Fighter program, although both programs have arrived at their current state via different paths. Concurrency in an acquisition program is undesirable in that end items are being procured despite the development and testing being incomplete. This condition typically results in the need to modify, at some cost, these end items as problems are discovered and resolved. Recent examples of issues in the Firescout program include one aircraft that was unable to be recovered on its host ship and ultimately crashed into the water, and another aircraft that lost communications with its control station and was lost while conducting operations. These incidents have resulted in the Firescout fleet being grounded from routine operations. Additionally, the Firescout program is in the midst of a transition from the MQ-8B variant to the MQ-8C variant, which will possess much greater endurance relative to the MQ-8B. However, this transition has been delayed as not all components of the MQ-8C variant are ready for production. The result of the delay in transitioning variants in this program has been the stockpiling of development funding. The program essentially has two years of development funding to expend in fiscal year 2012 and undoubtedly a large portion of that will carry over to fiscal year 2013. Therefore the recommendation provides \$33,600,000 for the development of the Firescout program, a reduction of \$66,000,000.

The Committee recognizes the parallels between this program and the Joint Strike Fighter program. The F-35B variant of the Joint Strike Fighter was placed on probation as a result of some of the technical challenges it faced. Although probation was never specifically defined for the Committee, the Department recently removed the F-35B from probation, an indication that the strategy achieved its objectives. The Committee urges the Secretary of the Navy to use a similar strategy on the Firescout program and report to the congressional defense committees not later than 90 days after enactment of this Act on the strategy and its planned objectives.

BONE MARROW REGISTRY

The bill includes \$31,500,000 for the Department of the Navy to be administered by the Bone Marrow Registry, also known as and referred to within the Naval Medical Research Center as the C.W. Bill Young Marrow Donor Recruitment and Research Program. Funds appropriated for the Bone Marrow Registry shall remain available only for the purposes for which they were appropriated and may only be obligated for the Bone Marrow Registry. This De-

partment of Defense donor center has recruited more than 700,000 Department of Defense volunteers and provides more marrow donors per week than any other donor center in the nation. More than 18,000 servicemembers and other Department volunteers from this donor center have provided marrow to save the lives of patients. The success of this national and international life-saving program for military and civilian patients, which now includes more than 10,000,000 potential volunteer donors, is admirable. Further, the agencies involved in contingency planning are encouraged to continue to include the Bone Marrow Registry in the development and testing of their contingency plans. The Department of Defense form (DD Form 1414) shall show this as a congressional interest item. The Department is further directed to release all of the funds appropriated for this purpose to the Bone Marrow Registry not later than 60 days after enactment of this Act.

ELECTRONIC EQUIPMENT MAINTENANCE

The Committee is aware that the Navy has included low cost electronic system maintenance and distance support tools as part of the Aegis cruiser and destroyer modernization programs, resulting in improved readiness for Aegis ships. The Committee urges the Navy to develop these tools and practices for other platforms, including the Littoral Combat Ship.

AUTOMATED TEST AND RE-TEST

The Committee is aware that the Navy’s automated test and retest (ATRT) project has reduced labor requirements for testing, improved system performance, and reduced cost for systems where the tool has been applied. The Committee believes with the advent of software intensive systems that the potential savings through the use of ATRT has only begun to be realized and encourages the Secretary of the Navy to expand the use of ATRT to other programs and systems and to expedite the execution of funding allocated towards this resource.

STRATEGIC SUBMARINE REPLACEMENT

The Committee is concerned with the national security and programmatic risks associated with the Department’s decision to delay the Ohio class ballistic missile submarine replacement program. The Committee expects the Secretary of the Navy to conduct close and frequent oversight of this program to ensure that these risks are minimized.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, AIR FORCE

Fiscal year 2012 appropriation	\$26,535,996,000
Fiscal year 2013 budget request	25,428,046,000
Committee recommendation	25,117,692,000
Change from budget request	- 310,354,000

This appropriation provides funds for the research, development, test and evaluation activities of the Department of the Air Force. The total amount recommended in the bill will provide the following program in fiscal year 2013:

SPACE SYSTEM ACQUISITION AND SYSTEM MODERNIZATION INITIATIVES

The Committee is concerned that, in a time of declining budgets, the Air Force and the Department of Defense may resort to silver-bullet acquisition concepts in an attempt to save money and accelerate immature concepts and technologies. As the past two decades have proven, acquisition of space systems requires components with high technology readiness levels, as well as program managers, engineers, and organizations that have long histories of developing the system concepts to the point that many of the inevitable problems have been recognized and resolved. Quick-fix substitutes for years of hard-won experience are attractive but illusory. The Committee supports the concept of evolutionary modifications but believes that complete utilization of the systems that have been in development and production for the past two decades should be given priority. The Committee recommends that the Air Force reevaluate the choices of capabilities being pursued in the System Modernization Initiative effort and prioritize full utilization of fielded capabilities through ground and terminal enhancements, rather than future sensor enhancements.

SPACE BASED INFRARED SYSTEM GROUND ENHANCEMENTS

The Committee recommends \$50,000,000 for acceleration of the Space Based Infrared System (SBIRS) ground segment automated sensor tasking, which will allow the scanning sensor and the staring sensor to cue off each other and provide more accurate track for missile warning and tracking. Further, based on the current launch schedule of the various SBIRS system components, the Committee is concerned that the ground segment needs enhancement to command and control the projected constellation. The Committee also recommends \$50,000,000 for ground enhancement that will support the growth of command and control capability beyond the originally approved constellation.

MOVING TARGET INDICATOR

The Committee understands that the Air Force and the Department of Defense will soon complete the Synthetic Aperture Radar/Moving Target Indicator and Joint STARS mission area analysis of alternatives (AoA). The Committee is concerned by the extended length of time that has been required to complete the AoA and the uncertainty regarding the Air Force's future budget requirements for this vital mission. The Committee understands that the Department's final determination on the AoA will inform a Material Development Decision to achieve a solution for future requirements. The Committee has therefore included an increase of \$10,000,000 to Battle Management, Command and Control Sensor Development to initiate any new programs required as a result of the AoA.

KC-46A

The Committee directs the Secretary of the Air Force to continue to submit quarterly reports on any KC-46A contract modifications with a cost greater than or equal to \$5,000,000, as directed by the explanatory statement accompanying the Consolidated Appropriations Act, 2012.

JOINT STRIKE FIGHTER DECONTAMINATION

The Committee notes that, since 2001, Congress has appropriated funds to develop new technologies and techniques to decontaminate complex weapons systems and related equipment to protect against the threat of contamination by chemical or biological agents. Although system components have been developed to deliver decontamination technologies in a variety of environmental and field conditions, the Committee is concerned that no funding was requested for fiscal year 2013 to further Joint Strike Fighter (JSF) decontamination system development, begin system integration, and complete system validation. As a mission critical system, the F-35 is required by Department of Defense policy to be survivable in chemical, biological, radiological, and nuclear (CBRN) environments. Accordingly, the Committee directs the Air Force to make as a high priority investments in technologies that will ensure the safety of pilots in potentially contaminated environments, and to ensure that funding for such investments is adequately phased to support CBRN survivability requirements for the JSF and other mission critical systems.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION,
DEFENSE-WIDE

Fiscal year 2012 appropriation	\$19,193,955,000
Fiscal year 2013 budget request	17,982,161,000
Committee recommendation	19,100,362,000
Change from budget request	1,118,201,000

This appropriation provides funds for the research, development, test and evaluation activities of the Department of Defense for defense-wide activities. The total amount recommended in the bill will provide the following program in fiscal year 2013:

(DOLLARS IN THOUSANDS)

HISTORICALLY BLACK COLLEGES AND UNIVERSITIES AND MINORITY INSTITUTIONS

The Committee noted with concern in fiscal year 2012 that the Department transferred the Historically Black Colleges and Universities and Minority Institutions (HBCU/MI) program from the Office of the Secretary of Defense to the Department of the Army, thus dramatically diminishing the effectiveness and scope of the program.

At the request of the Department, after the budget submission, the Committee has transferred funding from the Army, thus returning the program's execution to the Office of the Secretary of Defense. The Committee encourages the Department to maintain this account in this budget line in future budget submissions.

SCIENCE, TECHNOLOGY, ENGINEERING, AND MATHEMATICS EDUCATION

The Committee notes with increasing concern the underperformance of students in science and math, and recognizes efforts being made at the Department to remedy these concerns. The Committee recommends that the Department explore the expansion of programs in science, technology, engineering and mathematics for grades K through 12 that are comprehensive in nature, provide curriculum for in-school and after-school programs, and promote an overall appreciation for the subject matter.

EXPANDING UNDERREPRESENTED MINORITY PARTICIPATION

Consistent with the National Academy of Sciences report "Expanding Underrepresented Minority Participation: America's Science and Technology Talent at the Crossroads", the Committee recognizes the importance of ensuring that there is a strong pipeline of underrepresented minorities pursuing engineering, science, and technology careers. The Committee commends public-private partnerships that have come together to ensure scholarship support, innovative ideas like Academies of Engineering in high schools, and corporate partnership and sponsorship of district, urban, and rural areas to build a minority pipeline in key fields like engineering, which are needed for both national security and national economic reasons and by virtually every federal science and technology agency. The Committee encourages the Secretary of Defense to provide resources for scholarships for minorities in engineering and to promote the collection of research information on the status of minorities in engineering education and employment.

SPECIAL OPERATIONS COMMAND UNDERSEA MOBILITY PROGRAM

The Committee is concerned that frequent program and strategy changes to the Undersea Mobility Program have delayed the introduction of advanced capabilities for both wet combat submersible replacement and dry combat submersible development. The current program schedule for dry combat submersibles will not field an operational evaluation platform until early 2015 with extended integrated testing not taking place until 2016. Given current dry combat submersible capability gaps and a potential shift in strategic emphasis to the Asia-Pacific and other regions that present anti-access and area-denial challenges, the Committee believes suc-

cessful development and fielding of undersea mobility capabilities are critical to meeting combatant commanders' needs. Additionally, the Committee is concerned that the highly perishable and technical operational expertise for wet and dry combat submersibles resident within the Naval Special Warfare community have not been fully exercised and utilized in recent years, thereby increasing capability gaps and risks to the overall program.

The Committee recommends \$35,000,000 above the request for the Undersea Mobility Program for the dry combat submersible program to enable the program to undertake risk reduction activities, thereby increasing the likelihood of delivery of a technically satisfactory system that meets the warfighter's requirements.

DEFENSE PERSONNEL SECURITY RESEARCH CENTER

It is essential that the Department of Defense conducts proper background investigations for employees in a prompt and efficient manner. Workplace efficiency and morale decline when an employee is unable to work due to a delay in security clearance processing. The Committee is concerned that the Department is not investing enough in automated tools necessary to expedite the investigation and reinvestigation process for security clearances. The Committee encourages the Secretary of Defense to invest in automated tools capable of performing queries across government and commercial databases to streamline the time-consuming process for top level security clearances.

ADVANCED REMOTE SENSOR TECHNOLOGY

The Committee recommendation includes \$33,742,000 for the Advanced Remote Sensor Technology (ARST) program of the Missile Defense Agency. The focus of ARST is to develop and mature emerging sensor technologies capable of three-dimensional missile imaging and tracking to discriminate threats from a single platform. The Committee expects funding will enable the Missile Defense Agency to demonstrate a baseline sensor capability with instantaneous, three-dimensional imagery and precision track data on every frame at video rates. The Committee sees strong potential for utilizing this capability not only on space-based assets, but from remotely-piloted aircraft as a risk reduction for space-based platforms. However, the Committee notes that although this program is a follow-on effort from the Airborne Infrared system, it is considered a new start, and thus the Committee recommendation aligns funding with the request levels throughout the Future Years Defense Program.

STANDARD MISSILE-3 RISK REDUCTION FOR THE MISSILE DEFENSE AGENCY

The Committee is concerned that there are certain components for missile defense systems that only have one or two suppliers in the area of design and production. This is especially true for the producers of the Standard Missile-3 (SM-3) interceptor's Divert and Attitude Control System which guides the kill vehicle during the final phase of its intercept operations. The Committee encourages the Director, Missile Defense Agency to fund risk reduction activi-

ties for the continued development of components essential to the production of SM-3 interceptors.

SEMICONDUCTOR INDUSTRY

The Committee is concerned about the ability of the United States to maintain its global leadership in the production of semiconductor manufacturing equipment. In order to ensure U.S. dominance in this critical technology sector and that the Department of Defense has long-term, reliable domestic access to the most advanced technologies to manufacture and service next generation semiconductor fabrication technology, the Committee directs the Department of Defense to submit a report to the congressional defense committees, not later than 90 days after enactment of this Act, on its plans to ensure leadership in the next generation of 450mm semiconductor fabrication equipment manufacturing technology in the United States.

OPERATIONAL TEST AND EVALUATION, DEFENSE

Fiscal year 2012 appropriation	\$191,292,000
Fiscal year 2013 budget request	185,268,000
Committee recommendation	185,268,000
Change from budget request	---

This appropriation provides funds for the research, development, test and evaluation activities of the Department of Defense for defense-wide activities. The total amount recommended in the bill will provide the following program in fiscal year 2013:

(DOLLARS IN THOUSANDS)

TITLE V
 REVOLVING AND MANAGEMENT FUNDS
 DEFENSE WORKING CAPITAL FUNDS

Fiscal year 2012 appropriation	\$1,575,010,000
Fiscal year 2013 budget request	1,516,184,000
Committee recommendation	1,516,184,000
Change from budget request	---

This appropriation finances, through the receipt of funded reimbursable orders, the operation of industrial, commercial and support-type activities such as depot maintenance, supply operations, distribution depots, transportation services, Navy research, finance and accounting services, information systems and telecommunication services. Working capital fund accounts use cost accounting and business management techniques to provide managers with information that can be used to monitor, control, and minimize costs of operations.

NATIONAL DEFENSE SEALIFT FUND

Fiscal year 2012 appropriation	\$1,100,519,000
Fiscal year 2013 budget request	608,136,000
Committee recommendation	564,636,000
Change from budget request	-43,500,000

This appropriation provides funds for the lease, operation, and supply of pre-positioning ships, operation of the Ready Reserve Force, and acquisition of ships for the Military Sealift Command, the Ready Reserve Force, and the Marine Corps.

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS
 (in thousands of dollars)

	Budget request	Committee recommended	Change from request
STRATEGIC SEALIFT ACQUISITION	77,386	39,386	-38,000
Afloat forward staging base		-38,000	
DoD MOBILIZATION ASSETS	184,616	184,616	
SEALIFT RESEARCH AND DEVELOPMENT	42,811	37,311	-5,500
Afloat forward staging base		-5,500	
READY RESERVE FORCE OPERATIONS AND MAINTENANCE	303,323	303,323	
Total NDSF	608,136	564,636	-43,500

AFLOAT FORWARD STAGING BASE

The request includes \$38,000,000 for the advance procurement of items for the Afloat Forward Staging Base (AFSB). The AFSB is envisioned by the Navy to act as a mobile at-sea platform that will provide flexible mission support and sustainment. This platform will fulfill a very longstanding (at least 20 years) but never fulfilled

mission need for sea-based support for a variety of missions. In the past, this mission need has been filled by a variety of ad-hoc methods to include the use of available surface combatants or amphibious ships. The closest dedicated platform to fulfilling a similar mission need was the conversion of the Navy's amphibious assault ship, USS *Inchon*, to a mine countermeasure command and support ship in 1995. This was done at a time when the Navy was shifting the fleet from an organic mine warfare capability embedded on surface combatants to a more dedicated mine warfare capability of mine hunting ships and aircraft. Similarly, the Navy plans to fill this mission need in the very near term with the conversion of the USS *Ponce* in fiscal year 2012.

Further, the Committee notes that the AFSB is planned for construction in the National Defense Sealift Fund, whose purpose in ship construction is for strategic sealift acquisition. The Committee is struggling with placing the mission of the AFSB into a strategic sealift area and directs the Secretary of the Navy to accomplish any AFSB tasks in the traditional Navy appropriation accounts.

The Committee applauds the Navy for finally attempting to satisfy such a longstanding need, but it is confused as to the timing of satisfying this need in an era of decreasing budgets and when two combatants were pulled out of the fiscal year 2014 shipbuilding program. The Committee believes this mission need can continue to be satisfied as it has been satisfied to date. The Committee directs the Navy to apply the fiscal year 2014 funding currently projected for the construction of an AFSB toward fully funding an additional submarine to help achieve cost savings and industrial base stability in that program. Accordingly, the recommendation provides no funding for the AFSB.

TITLE VI
OTHER DEPARTMENT OF DEFENSE PROGRAMS
DEFENSE HEALTH PROGRAM

Fiscal year 2012 appropriation	\$32,482,059,000
Fiscal year 2013 budget request	32,528,718,000
Committee recommendation	32,862,234,000
Change from the budget request	333,516,000

This appropriation provides funds for the Defense Health Program of the Department of Defense. The total amount recommended in the bill will provide the following program in fiscal year 2013:

(DOLLARS IN THOUSANDS)

	BUDGET REQUEST	COMMITTEE RECOMMENDED	CHANGE FROM REQUEST

DEFENSE HEALTH PROGRAM REPROGRAMMING PROCEDURES

The Committee remains concerned over the transfer of funds from Direct (or In-house) Care to pay for contractor-provided medical care. To limit such transfers and continue oversight within the Defense Health Program operation and maintenance account, the Committee includes bill language to cap the funds available for Private Sector Care under the TRICARE program subject to prior approval reprogramming procedures. The bill language and accompanying report language included by the Committee should not be interpreted by the Department of Defense as limiting the amount of funds that may be transferred to the Direct Care System from other budget activities within the Defense Health Program. In addition, the Committee continues to designate the funding for the Direct Care System as a special interest item. Any transfer of funds from the Direct (or In-house) Care budget activity into the Private Sector Care budget activity or any other budget activity will require the Department of Defense to follow prior approval reprogramming procedures.

The Department also shall provide written notification to the House and Senate Appropriations Committees of cumulative transfers in excess of \$15,000,000 out of the Private Sector Care budget activity. The Committee further directs the Assistant Secretary of Defense (Health Affairs) to provide quarterly reports to the House and Senate Appropriations Committees on budget execution data for all of the Defense Health Program accounts and to adequately reflect changes to the budget activities requested by the Services in future budget submissions.

CARRYOVER

For fiscal year 2013, the Committee recommends one percent carryover authority for the operation and maintenance account of the Defense Health Program. The Committee directs the Assistant Secretary of Defense (Health Affairs) to submit a detailed spending plan for any fiscal year 2012 designated carryover funds to the congressional defense committees not fewer than 30 days prior to executing the carryover funds.

TRICARE FEE INCREASES

The recommendation includes the assumed savings generated from proposed TRICARE fee changes. However, the Committee will continue to evaluate the proposed TRICARE changes, pending the passage of the fiscal year 2013 National Defense Authorization Act.

PEER-REVIEWED CANCER RESEARCH PROGRAM

The Committee recommendation includes \$15,000,000 for a Peer-Reviewed Cancer Research Program that would research cancers not addressed in the breast, prostate, ovarian, and lung cancer research programs currently executed by the Department of Defense, and specifically by the U.S. Army Medical Research and Materiel Command.

The funds provided are directed to be used to conduct research in the following areas: melanoma and other skin cancers, pediatric brain tumors, genetic cancer research, pancreatic cancer, kidney

cancer, blood cancer, colorectal cancer, mesothelioma, and listeria vaccine for infectious disease and cancer.

The funds provided under the Peer-Reviewed Cancer Research Program shall be used only for the purposes listed above. The Assistant Secretary of Defense (Health Affairs) is directed to provide a report not later than 60 days after enactment of this Act to the congressional defense committees on the status of the Peer-Reviewed Cancer Research Program. For each research area, the report should include the funding amount awarded, the progress of the research, and the relevance of the research to servicemembers and their families.

JOINT WARFIGHTER MEDICAL RESEARCH PROGRAM

The Committee recommendation includes \$50,000,000 for the continuation of the Joint Warfighter Medical Research Program.

Funds shall be used to augment and accelerate high priority Department of Defense and Service medical requirements and to continue prior year initiatives that are close to achieving their objectives and yielding a benefit to military medicine. The funds shall not be used for new projects or for basic research. The funding shall be awarded at the Department's discretion following a review of medical research and development gaps as well as unfinanced medical requirements of the Services. Further, the Committee directs the Assistant Secretary of Defense (Health Affairs) to provide a report not later than 180 days after enactment of this Act to the congressional defense committees, which lists the projects that receive funding. The report should include the amount of funding provided to each project and a thorough description of each project's research.

CONGRESSIONALLY DIRECTED MEDICAL RESEARCH PROGRAM

The Committee continues to be a strong proponent of military medical research and includes adequate funds in its fiscal year 2013 recommendation for the Congressionally Directed Medical Research Program (CDMRP). However, the Committee has become concerned with some aspects of the way the CDMRP has been administered. In particular, the Committee is concerned that too many basic research projects are funded, rather than more advanced research and translational research projects, which will potentially yield medical breakthroughs more quickly. The Committee encourages the CDMRP to fund projects in mature medical research areas that are at more advanced stages of research and development. The Committee understands that for some diseases, research is less mature than for other diseases, and fully expects that most funding in immature research areas will be used for basic research. In addition, the Committee directs the Assistant Secretary of Defense (Health Affairs) to submit a report to the House and Senate Appropriations Committees not later than 120 days after enactment of this Act on how the Department of Defense's peer review process for the CDMRP can be strengthened.

TRAUMATIC BRAIN INJURY/PSYCHOLOGICAL HEALTH FUNDING

The Committee recommendation includes \$125,000,000 above the fiscal year 2013 budget request for Traumatic Brain Injury (TBI) and Psychological Health (PH) funding.

For the last several fiscal years, the Committee has provided ample resources above the requested amounts for TBI and PH research. However, a recent report from the Government Accountability Office (GAO) found that the Department of Defense could not adequately track expenditures and that obligation data reported to Congress has been unreliable. The GAO report states that “the Office of the Assistant Secretary of Defense for Health Affairs has not developed quality control mechanisms to help ensure that data on PH and TBI activities are complete and accurate. Further, although the Department listed patient care among reported costs, it did not specify what those costs included, making it difficult for decisionmakers and Congress to fully understand the costs.” The GAO recommended that “the Department direct the Assistant Secretary of Defense (Health Affairs) to include expenditure data in annual reports to Congress, as required; establish quality control mechanisms on PH and TBI data; if patient care costs are provided in future annual reports, specify what they include; and revisit the role of the Defense Center of Excellence for PH and TBI (DCOE) as the Department’s coordinating authority for issues concerning PH and TBI, as stated in DCOE’s campaign plan, and determine whether DCOE or another organization should perform this function.”

The Committee is dismayed at the GAO’s recent findings and encourages the Assistant Secretary of Defense (Health Affairs) to follow the GAO’s recommendations and to provide accurate expenditure and obligation data for PH and TBI funding to the congressional defense committees.

Additionally, the Committee encourages the Assistant Secretary of Defense (Health Affairs) to collaborate with universities to develop the next generation of mental health professionals and to address psychological health diagnoses through innovative new methods and technologies.

PEER-REVIEWED PROSTATE CANCER RESEARCH PROGRAM

The Committee recommendation includes \$80,000,000 for the Peer-Reviewed Prostate Cancer Research Program. The Committee is aware that there still are not reliable diagnostic tools for guiding early detection and treatment of prostate cancer. Therefore, the Committee encourages the Secretary of Defense to fund research for the advancement of prostate imaging technologies.

JOINT TASK FORCE NATIONAL CAPITAL REGION MEDICAL

The military medical treatment facilities provide our wounded warriors and their families world class health care. Nowhere is that more true than at the Walter Reed National Military Medical Center (WRNMMC). However, the Committee remains concerned that distinction is in jeopardy under the current governance structure for the National Capital Region (NCR).

The Joint Task Force National Capital Region Medical (JTF CAPMED) was created for the sole purpose of ensuring a smooth and successful consolidation of major military medical hospitals in the NCR as directed by the Base Realignment and Closure Act of 2005. That purpose has been fulfilled. In September 2011, a Task Force established by the former Deputy Secretary of Defense to review the governance of the Military Health System (MHS) as a whole and the governance of the National Capital Region military health care in particular, recommended the disestablishment of JTF CAPMED. Further, the Task Force recommended the transition to an enhanced multi-service market similar to other military health markets throughout the country. The Task Force determined that the National Capital Region does not need to have unique headquarters for its military health care. However, the final decision announced by the Secretary of Defense included the endurance of JTF CAPMED with some slight changes.

The Committee believes the continued presence of JTF CAPMED only serves to confuse the command and control at WRNMMC and adds a layer of bureaucracy that does not exist in any other multi-service market area. It is also evident that friction exists at the command level between JTF CAPMED and the Service Surgeons General. While that friction has not yet jeopardized the world class medical treatment our troops receive, the Committee remains fearful that it will begin to permeate down the ranks and could threaten the day-to-day operations of the hospital.

The military health care in the NCR is exemplary and should continue to be world class for our men and women in uniform and their families. The Committee understands the necessity of following the guidance recently issued by the Secretary of Defense but will continue to closely monitor the situation at JTF CAPMED.

PRESCRIPTION DRUG ABUSE

The Committee remains concerned with pain management prescription medication dependency among servicemembers. It is imperative that the tracking of pain management prescription drugs is handled consistently at military medical treatment facilities, particularly in theater, as well as at retail and mail order pharmacies. It is also important that the proper steps are taken to prevent overmedication and that treatment options are available for those facing possible addiction. The Committee encourages the Secretary of Defense to make curtailing prescription drug abuse a priority.

OVERSEAS MEDICAL LABORATORIES

The Committee recognizes the critical contribution that the Department of Defense research and development portfolio makes in protecting U.S. servicemembers from infectious diseases they may encounter on missions around the world. While focusing on troop readiness and protection, the Department's research has also contributed to the production of new global health technologies. The Committee encourages the Secretary of Defense to continue to robustly fund infectious disease research and the Army and Navy Overseas Medical Research Laboratories.

INFORMATION TECHNOLOGY DISCHARGE SOLUTIONS

The Committee is aware that many non-Department of Defense acute care facilities utilize automated referral and discharge processes known as Information Technology Discharge Solutions (ITDS). The ITDS provide seamless discharges from acute care facilities in a cost effective and expeditious manner. The Committee encourages the Assistant Secretary of Defense (Health Affairs) to determine whether ITDS could be utilized in Department of Defense facilities to improve coordinated care, hospital administration processes, transitions between levels of care, security of health information, length of stay, and cost savings for acute care.

COOPERATION BETWEEN MILITARY MEDICAL FACILITIES, CIVILIAN HEALTHCARE FACILITIES, AND UNIVERSITIES

The Committee recognizes the importance of cooperation between military medical facilities, universities, hospitals, and other civilian partners to integrate civilian and military domestic disaster medical and public health emergency preparedness and response activities and to provide trauma training to sustain the education of military medical providers.

The Committee encourages the Assistant Secretary of Defense (Health Affairs) to continue the Department of Defense's support of such vital cooperative activities for the active, National Guard, and reserve components. The Committee also encourages the Assistant Secretary of Defense (Health Affairs) to expand these partnerships in order to fully capitalize on the expertise in non-Department of Defense medical centers and universities that can lead to increased medical readiness and resiliency in the military.

PROSTHETIC RESEARCH

The Committee encourages the Assistant Secretary of Defense (Health Affairs) to provide resources for research to support advances in technology at the interface between the nervous system and intelligent prosthetics to provide sensation to amputees.

MULTI-DISCIPLINARY BRAIN RESEARCH

The Committee encourages the Secretary of Defense to support multi-disciplinary research toward translational medicine that may provide better diagnostic tools and treatment outcomes for servicemembers who suffer from traumatic brain injury, post-traumatic stress disorder, and other neurotrauma. The Committee encourages the Secretary of Defense to provide the capabilities necessary for researchers, scientists, surgeons, physicians, healthcare professionals, and patients to effectively communicate their findings and outcomes. With proper support, translational research outcomes would be augmented through real-time access to information and its integration between researchers, physicians, hospitals, and patients. The Committee directs the Secretary of Defense to provide a report not later than 90 days after enactment of this Act on possible implementation of this program.

FEDERAL NEUROSCIENCE WORKING GROUP

The Committee is aware that the Office of Science and Technology Policy, within the Executive Office of the President, is establishing an interagency working group under the auspices of the National Science and Technology Council (NSTC) to coordinate investments in neuroscience research across the Federal Government and leverage the potential for significant, transformative advances in our fundamental understanding of learning, brain development, and brain health and recovery. The goal of the working group is to help coordinate, focus, and enhance Federal efforts related to neuroscience, including efforts to develop future clinical treatments for traumatic and acquired brain injuries; increase our understanding of cognition and apply that knowledge to the improvement of education and learning; and improve our understanding of, and develop better therapies for, neurodegenerative diseases, childhood developmental disorders, and other neurological conditions. The Committee supports the activities of the NSTC Neuroscience Working Group and urges the Department of Defense to play an active role in it.

CHEMICAL AGENTS AND MUNITIONS DESTRUCTION,
DEFENSE

Fiscal year 2012 appropriation	\$1,554,422,000
Fiscal year 2013 budget request	1,301,786,000
Committee recommendation	1,301,786,000
Change from budget request	---

This appropriation provides funds for the Chemical Agents and Munitions Destruction activities of the Department of Defense.

The Committee recommends an appropriation of \$1,301,786,000 for the Chemical Agents and Munitions Destruction, Defense program.

The total amount recommended in the bill will provide the following program in fiscal year 2013:

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS
[in thousands of dollars]

	Budget request	Committee recommendation	Change from request
OPERATION AND MAINTENANCE	635,843	635,843	-
PROCUREMENT	18,592	18,592	-
RESEARCH, DEVELOPMENT, TEST AND EVALUATION	647,351	647,351	-
TOTAL, CHEMICAL AGENTS AND MUNITIONS DESTRUCTION, DEFENSE	1,301,786	1,301,786	-

DRUG INTERDICTION AND COUNTER-DRUG ACTIVITIES,
DEFENSE

Fiscal year 2012 appropriation	\$1,209,620,000
Fiscal year 2013 budget request	999,363,000
Committee recommendation	1,133,363,000
Change from the budget request	134,000,000

This appropriation provides funds for military personnel; operation and maintenance; procurement; and research, development, test and evaluation for drug interdiction and counter-drug activi-

ties of the Department of Defense to include activities related to narcoterrorism.

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS

[in thousands of dollars]

	Budget request	Committee recommendation	Change from request
DRUG INTERDICTION AND COUNTER-DRUG ACTIVITIES	999,363	1,133,363	134,000
National Guard counter-drug program		130,000	
Young Marines—drug demand reduction		4,000	

NATIONAL GUARD COUNTER-DRUG STATE PLANS

The Committee recommendation includes \$130,000,000 above the request to supplement the National Guard Counter-Drug Program. The Committee is discouraged that, in a misguided effort to produce savings, the budget request reduced the National Guard Counter-Drug Program by nearly forty percent from the fiscal year 2012 budget request, and by nearly fifty percent from the fiscal year 2012 enacted level. The Committee recognizes the importance of the mission of the National Guard Counter-Drug Program and encourages the continued use of the highly effective and efficient Threat Based Resource Model. Further, the Committee directs the Secretary of Defense to robustly fund the National Guard Counter-Drug Program in subsequent budget years and to ensure that funding levels for the National Guard Counter-Drug Program do not fall below twenty percent of the total Drug Interdiction and Counter-Drug Activities appropriations funded under title VI.

TETHERED AEROSTAT RADAR SYSTEM PROGRAM

The Committee is aware that internal interagency discussions are again underway related to the administration of the Tethered Aerostat Radar System (TARS) program. TARS surveillance data is used by U.S. Customs and Border Protection and by the Joint Interagency Task Force-South in support of border security and counter-drug operations. The aerostats, while still under the responsibility of the Air Force, have not been maintained for a number of reasons. However, the Committee believes that an alternative means of supporting operational needs for surveillance data has yet to be deployed. For that reason, the Committee is concerned about the reduced capability, particularly in the Caribbean, and encourages the Secretary of Defense to work with U.S. Customs and Border Protection and other interagency partners to develop a short term solution to address reduced capability as well as the right long term solution—whether that is transfer of assets, repair of current assets, replacement with other technology or capability, or other solutions.

JOINT IMPROVISED EXPLOSIVE DEVICE DEFEAT FUND

Fiscal year 2012 appropriation	---
Fiscal year 2013 budget request	\$227,414,000
Committee recommendation	217,414,000
Change from budget request	-10,000,000

This fund provides for the staff and infrastructure of the Joint Improvised Explosive Device Defeat Organization.

The Committee recommends an appropriation of \$217,414,000.

JOINT URGENT OPERATIONAL NEEDS FUND

Fiscal year 2012 appropriation	---
Fiscal year 2013 budget request	\$99,477,000
Committee recommendation	---
Change from budget request	-99,477,000

This fund provides for the Joint Urgent Operational Needs Fund.

The Committee recommends no funding for the Joint Urgent Operational Needs Fund.

OFFICE OF THE INSPECTOR GENERAL

Fiscal year 2012 appropriation	\$346,919,000
Fiscal year 2013 budget request	273,821,000
Committee recommendation	350,321,000
Change from budget request	76,500,000

The Committee recommends an appropriation of \$350,321,000 for the Office of the Inspector General.

The total amount recommended in the bill will provide the following program in fiscal year 2013:

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS

[in thousands of dollars]

	Budget request	Committee recommendation	Change from request
OPERATION AND MAINTENANCE	272,821	347,621	74,800
Program increase		74,800	
PROCUREMENT	1,000	2,700	1,700
Program increase		1,700	
TOTAL, OFFICE OF THE INSPECTOR GENERAL	273,821	350,321	76,500

TITLE VII
RELATED AGENCIES

NATIONAL AND MILITARY INTELLIGENCE PROGRAMS

The National Intelligence Program and the Military Intelligence Program budgets funded in the Department of Defense Appropriations Act consist primarily of resources for the Director of National Intelligence including the Intelligence Community Management Staff, the Central Intelligence Agency (CIA), the Defense Intelligence Agency, the National Reconnaissance Office, the National Security Agency, the National Geospatial-Intelligence Agency, the intelligence services of the Departments of the Army, Navy, Air Force, and Marine Corps, and the CIA Retirement and Disability fund.

CLASSIFIED ANNEX

The Committee's budget reviews are published in a separate detailed and comprehensive classified annex. The intelligence community, Department of Defense, and other organizations are expected to fully comply with the recommendations and directions in the classified annex accompanying the Department of Defense Appropriations Act, 2013.

CENTRAL INTELLIGENCE AGENCY RETIREMENT AND
DISABILITY SYSTEM FUND

Fiscal year 2012 appropriation	\$513,700,000
Fiscal year 2013 budget request	514,000,000
Committee recommendation	514,000,000
Change from budget request	---

This appropriation provides payments of benefits to qualified beneficiaries in accordance with the Central Intelligence Agency Retirement Act of 1964 for Certain Employees (P.L. 88-643), as amended by Public Law 94-522. This statute authorized the establishment of the CIA Retirement and Disability System for certain employees and authorized the establishment and maintenance of a fund from which benefits would be paid to those beneficiaries.

The Committee recommends the budget request of \$514,000,000 for the Central Intelligence Agency Retirement and Disability System fund. This is a mandatory account.

INTELLIGENCE COMMUNITY MANAGEMENT ACCOUNT

Fiscal year 2012 appropriation	\$547,891,000
Fiscal year 2013 budget request	540,252,000
Committee recommendation	511,476,000
Change from budget request	-28,776,000

The Committee recommends an appropriation of \$511,476,000 for the Intelligence Community Management Account.

TITLE VIII

GENERAL PROVISIONS

The accompanying bill includes 120 general provisions. Most of these provisions were included in the Department of Defense Appropriations Act for fiscal year 2012 and many have been included in the Defense Appropriations Acts for a number of years. A description of each provision follows.

Section 8001 provides that no funds made available in this Act may be used for publicity or propaganda purposes not authorized by Congress.

Section 8002 provides for conditions and limitations on the payment of compensation to, or employment of, foreign nationals.

Section 8003 provides that no funds made available in this Act may be obligated beyond the end of the fiscal year unless expressly provided for a greater period of availability elsewhere in the Act.

Section 8004 provides a 20 percent limitation on the obligation of funds provided in this Act during the last two months of the fiscal year.

Section 8005 has been amended and provides for the general transfer authority of working capital funds to other military functions.

Section 8006 has been amended and provides that the tables titled "Explanation of Project Level Adjustments" in the committee report and classified annex shall be carried out in the manner provided by the tables to the same extent as if the tables were included in the text of this Act.

Section 8007 has been amended and provides for the establishment of a baseline for application of reprogramming and transfer authorities for the current fiscal year.

Section 8008 provides for limitations on the use of transfer authority of working capital fund cash balances.

Section 8009 provides that none of the funds appropriated in this Act may be used to initiate a special access program without prior notification to the congressional defense committees.

Section 8010 has been amended and provides limitations and conditions on the use of funds made available in this Act to initiate multi-year contracts.

Section 8011 provides for the use and obligation of funds for humanitarian and civic assistance costs under chapter 20 of title 10, United States Code.

Section 8012 has been amended and provides that civilian personnel of the Department may not be managed on the basis of end strength or be subject to end strength limitations.

Section 8013 prohibits funding from being used to influence congressional action on any matters pending before the Congress.

Section 8014 prohibits compensation from being paid to any member of the Army who is participating as a full-time student and who receives benefits from the Education Benefits Fund when time spent as a full-time student is counted toward that member's service commitment.

Section 8015 provides for the transfer of funds appropriated in title III of this Act for the Department of Defense Pilot Mentor-Protégé Program.

Section 8016 provides for the Department of Defense to purchase anchor and mooring chains manufactured only in the United States.

Section 8017 has been amended and makes permanent the prohibition of funds made available to the Department of Defense from being used to demilitarize or dispose of certain surplus firearms and small arms ammunition or ammunition components.

Section 8018 provides a limitation on funds being used for the relocation of any Department of Defense entity into or within the National Capital Region.

Section 8019 provides for incentive payments authorized by section 504 of the Indian Financing Act of 1974 (25 U.S.C. 1544).

Section 8020 provides that no funding for the Defense Media Activity may be used for national or international political or psychological activities.

Section 8021 provides for the obligation of funds for purposes specified in section 2350j(c) of title 10, United States Code, in anticipation of receipt of contributions from the Government of Kuwait.

Section 8022 has been amended and provides funding for the Civil Air Patrol Corporation.

Section 8023 has been amended and prohibits funding from being used to establish new Department of Defense Federally Funded Research and Development Centers (FFRDC), with certain limitations.

Section 8024 provides for the Department of Defense to procure carbon, alloy, or armor steel plate melted and rolled only in the United States and Canada.

Section 8025 defines the congressional defense committees as being the Armed Services Committees of the House and Senate and the Subcommittees on Defense of the Committees on Appropriations of the House and Senate.

Section 8026 provides for competitions between private firms and Department of Defense Depot Maintenance Activities for modification, depot maintenance, and repair of aircraft, vehicles, and vessels as well as the production of components and other Defense-related articles.

Section 8027 has been amended and provides for revocation of blanket waivers of the Buy American Act upon a finding that a country has violated a reciprocal trade agreement by discriminating against products produced in the United States that are covered by the agreement.

Section 8028 provides for the availability of funds contained in the Department of Defense Overseas Military Facility Investment Recovery Account for purposes specified in section 2921(c)(2) of the 1991 National Defense Authorization Act.

Section 8029 provides for the conveyance, without consideration, of relocatable housing units that are excess to the needs of the Air Force located at Grand Forks Air Force Base, Malmstrom Air Force Base, Mountain Home Air Force Base, Ellsworth Air Force Base, and Minot Air Force Base to Indian Tribes located in the states of Nevada, Idaho, North Dakota, South Dakota, Montana, Oregon, Minnesota, and Washington.

Section 8030 provides authority to use operation and maintenance appropriations to purchase items having an investment item unit cost of not more than \$250,000.

Section 8031 has been amended and prohibits the use of Working Capital Funds to purchase specified investment items.

Section 8032 has been amended and provides that none of the funds appropriated for the Central Intelligence Agency shall remain available for obligation beyond the current fiscal year except for funds appropriated for the Reserve for Contingencies, the Working Capital Fund, or other programs as specified.

Section 8033 provides that funds available for the Defense Intelligence Agency may be used for the design, development, and deployment of General Defense Intelligence Program intelligence communications and intelligence information systems.

Section 8034 provides for the availability of funds for the mitigation of environmental impacts on Indian lands resulting from Department of Defense activities.

Section 8035 requires the Department of Defense to comply with the Buy American Act (chapter 83 of title 41, United States Code).

Section 8036 provides conditions under which contracts for studies, analyses, or consulting services may be entered into without competition on the basis of an unsolicited proposal.

Section 8037 places certain limitations on the use of funds made available in this Act to establish Field Operating Agencies.

Section 8038 provides grant authorities for the Department of Defense acting through the Office of Economic Adjustment.

Section 8039 prohibits funds made available in this Act from being used to convert to contractor performance an activity or function performed by civilian employees, unless certain conditions are met.

(RESCISSIONS)

Section 8040 provides for the rescission of \$1,019,316,000 from the following programs:

2011 Appropriations:

Procurement of Ammunition, Army:	
40mm ammunition	\$14,862,000
Aircraft Procurement, Navy:	
P-8A	30,100,000
Weapons Procurement, Navy:	
Tomahawk contract savings	22,000,000
Other Procurement, Navy:	
Minesweeping system replacement	12,432,000
Aircraft Procurement, Air Force:	
Light mobility aircraft	65,000,000
Other Procurement, Air Force:	
GCSS-AF FOS (ECSS)	9,500,000

2012 Appropriations:

Other Procurement, Army:	
Warfighter Information Network—Tactical	80,000,000
Aircraft Procurement, Navy:	
F-18 series OSIP 14-03 ILS	10,000,000
H-53 series IMDS installation kits	4,400,000
Weapons Procurement, Navy:	
Tomahawk contract savings	18,000,000

AMRAAM contract savings	3,572,000
ASW targets	10,000,000
Aircraft Procurement, Air Force:	
Common Vertical Lift Support Platform	52,800,000
Light Attack Armed Reconnaissance	115,000,000
RQ-4 advance procurement	71,500,000
C-17 modifications	37,750,000
Missile Procurement, Air Force:	
AMRAAM contract savings	37,000,000
Classified programs	7,000,000
Other Procurement, Air Force:	
GCSS-AF FOS (ECSS)	55,800,000
Research, Development, Test and Evaluation, Army:	
Joint Air-to-Ground Missile	63,000,000
Research, Development, Test and Evaluation, Navy:	
Medium range maritime UAS	15,000,000
Joint Air-to-Ground Missile	105,000,000
Research, Development, Test and Evaluation, Air Force:	
JSpOC modernization system	40,000,000
Classified programs	90,000,000
EW development (MALD-J II)	4,600,000
Common Vertical Lift Support Platform	5,300,000
Light Attack Armed Reconnaissance	13,700,000
AWACS	10,000,000
B-2 squadrons	16,000,000

Section 8041 prohibits funds made available in this Act from being used to reduce authorized positions for military technicians (dual status) of the Army National Guard, Air National Guard, Army Reserve, and Air Force Reserve unless such reductions are a direct result of a reduction in military force structure.

Section 8042 prohibits funding from being obligated or expended for assistance to the Democratic People's Republic of Korea unless appropriated for that purpose.

Section 8043 provides for reimbursement to the National Guard and reserve when members of the National Guard and reserve provide intelligence or counterintelligence support to the Combatant Commands, Defense Agencies, and Joint Intelligence Activities.

Section 8044 prohibits funds from being used to reduce civilian medical and medical support personnel assigned to military treatment facilities below the September 30, 2003 level unless the Service Surgeons General certify to the congressional defense committees that it is a responsible stewardship of resources to do so.

Section 8045 prohibits the transfer of Defense and Central Intelligence Agencies' drug interdiction and counter-drug activity funds to other agencies except as specifically provided in an appropriations law.

Section 8046 prohibits funding from being used for the procurement of ball and roller bearings other than those produced by a domestic source and of domestic origin.

Section 8047 prohibits funding from being used to purchase supercomputers which are not manufactured in the United States.

Section 8048 prohibits funding made available in this or any other Act from being used to pay the salary of anyone who approves or implements a transfer of administrative responsibilities or budgetary resources of any program, project, or activity financed

by this Act to the jurisdiction of another Federal agency not financed by this Act without express authorization of the Congress.

Section 8049 provides for prior Congressional notification of article transfers to international peacekeeping organizations.

Section 8050 prohibits funding from being used for contractor bonuses being paid due to business restructuring.

Section 8051 provides for the transfer of funds to be used to support personnel supporting approved non-traditional defense activities.

Section 8052 provides for the Department of Defense to dispose of negative unliquidated or unexpended balances for expired or closed accounts.

Section 8053 provides conditions for the use of equipment of the National Guard Distance Learning Project on a space-available, reimbursable basis.

Section 8054 provides for the availability of funds to implement cost-effective agreements for required heating facility modernization in the Kaiserslautern Military Community, Germany.

Section 8055 provides for the limitation on the use of funds appropriated in title IV to procure end-items for delivery to military forces for operational training, operational use, or inventory requirements.

Section 8056 provides for a waiver of the "Buy American" provisions for certain cooperative programs.

Section 8057 prohibits funding from being used to support the training of members of foreign security forces who have engaged in gross violations of human rights.

Section 8058 prohibits funding from being used for repairs or maintenance to military family housing units.

Section 8059 provides obligation authority for new starts for advanced concept technology demonstration projects only after notification to the congressional defense committees.

Section 8060 provides that the Secretary of Defense shall provide a classified quarterly report on certain matters as directed in the classified annex accompanying this Act.

Section 8061 prohibits the use of funds made available to the Department of Defense to provide support to an agency that is more than 90 days in arrears in making payments to the Department of Defense for goods or services provided on a reimbursable basis.

Section 8062 provides for the use of National Guard personnel to support ground-based elements of the National Ballistic Missile Defense System.

Section 8063 prohibits the use of funds made available in this Act to transfer to any nongovernmental entity ammunition held by the Department of Defense that has a center-fire cartridge and is designated as "armor piercing" except for demilitarization purposes.

Section 8064 provides for a waiver by the Chief, National Guard Bureau or his designee for all or part of consideration in cases of personal property leases of less than one year.

Section 8065 prohibits funding from being used to purchase alcoholic beverages.

Section 8066 has been amended and provides for the transfer of funds made available in this Act under "Operation and Mainte-

nance, Army” to other activities of the Federal Government for classified purposes.

Section 8067 has been amended and provides for the forced matching of disbursements and obligations made by the Department of Defense in the current fiscal year.

Section 8068 provides grant authority for the construction and furnishing of additional Fisher Houses to meet the needs of military family members when confronted with the illness or hospitalization of an eligible military beneficiary.

Section 8069 has been amended and provides funding and transfer authority for the Israeli Cooperative Programs.

Section 8070 has been amended and prohibits funding from being obligated to modify command and control relationships to give Fleet Forces Command operational and administrative control of U.S. Navy forces assigned to the Pacific Fleet.

Section 8071 has been amended and provides for the funding of prior year shipbuilding cost increases.

Section 8072 has been amended and provides that funds made available in this Act for intelligence activities are deemed to be specifically authorized by Congress for purposes of section 504 of the National Security Act of 1947 until the enactment of the Intelligence Authorization Act for the current fiscal year.

Section 8073 prohibits funding from being used to initiate a new start program without prior written notification.

Section 8074 provides that the budget of the President for the subsequent fiscal year shall include separate budget justification documents for costs of the United States Armed Forces’ participation in contingency operations for the Military Personnel, Operation and Maintenance, and Procurement accounts.

Section 8075 prohibits funding from being used for the research, development, test, evaluation, procurement, or deployment of nuclear armed interceptors of a missile defense system.

Section 8076 provides the Secretary of Defense with the authority to make grants in the amounts specified.

Section 8077 prohibits funding from being used to reduce or disestablish the operation of the 53rd Weather Reconnaissance Squadron of the Air Force Reserve.

Section 8078 prohibits funding from being used for the integration of foreign intelligence information unless the information has been lawfully collected and processed during conduct of authorized foreign intelligence activities.

Section 8079 provides that at the time members of reserve components of the Armed Forces are called or ordered to active duty, each member shall be notified in writing of the expected period during which the member will be mobilized.

Section 8080 provides that the Secretary of Defense may transfer funds from any available Department of the Navy appropriation under certain conditions to any available Navy ship construction appropriation to liquidate costs caused by rate adjustments or other economic factors.

Section 8081 provides for the use of current and expired Shipbuilding and Conversion, Navy subdivisions to reimburse the Judgment Fund.

Section 8082 prohibits funding from being used to transfer program authority relating to current tactical unmanned aerial vehicles from the Army and requires the Army to retain responsibility for and operational control of the MQ-1C Sky Warrior Unmanned Aerial Vehicle.

Section 8083 provides funding under certain conditions for the Asia Pacific Regional Initiative Program for the purpose of enabling the Pacific Command to execute certain Theater Security Cooperation activities.

Section 8084 has been amended and prohibits funding provided for the Director of National Intelligence beyond the current fiscal year, except for funds appropriated for research and technology, which shall remain available for the current and the following fiscal years.

Section 8085 provides for the adjustment of obligations within the Shipbuilding and Conversion, Navy appropriation.

Section 8086 requires the Director of National Intelligence to include certain budget exhibits as described in the Department of Defense Financial Management Regulation with the congressional budget justification books.

Section 8087 is a new provision that reduces the amounts provided to Operation and Maintenance, Army and Other Procurement, Army due to an excessive level of carryover at Army depots.

Section 8088 has been amended and provides for the establishment of a baseline for application of reprogramming and transfer authorities for the Office of the Director of National Intelligence for the current fiscal year.

Section 8089 provides for limitations on funding provided for the National Intelligence Program to be available for obligation or expenditure through a reprogramming or transfer of funds in accordance with section 102A(d) of the National Security Act of 1947 (50 U.S.C. 403-1(d)).

Section 8090 directs the Director of National Intelligence to submit a future-years intelligence program reflecting estimated expenditures and proposed appropriations.

Section 8091 defines the congressional intelligence committees as being the Permanent Select Committee on Intelligence of the House, the Select Committee on Intelligence of the Senate, and the Subcommittees on Defense of the Committees on Appropriations of the House and Senate.

Section 8092 has been amended and directs the Department of Defense to continue to report incremental contingency operations costs for Operation New Dawn, Operation Enduring Freedom, or any other named operations in the U.S. Central Command area of responsibility on a monthly basis in the Cost of War Execution Report as required by Department of Defense Financial Management Regulation.

Section 8093 provides the authority to transfer funding from operations and maintenance accounts for the Army, Navy, and Air Force to the Fisher Houses and Suites.

Section 8094 provides that operation and maintenance funds may be available for the purpose of making remittances to the Defense Acquisition Workforce Development Fund.

Section 8095 provides that any agency receiving funds made available in this Act shall post on a public website any report required to be submitted by Congress with certain exceptions.

Section 8096 requires contractors receiving any federal contract in excess of \$1,000,000 to require, as a condition of employment, that employees or independent contractors agree to resolve through arbitration any claim or tort related to, or arising out of, sexual assault or harassment, including assault and battery, intentional infliction of emotional distress, false imprisonment, or negligent hiring, supervision, or retention and to certify that each covered subcontractor do the same.

Section 8097 prohibits funding to the Association of Community Organizations for Reform Now (ACORN) or its subsidiaries.

Section 8098 has been amended and provides funds for transfer to the Joint Department of Defense—Department of Veterans Affairs Medical Facility Demonstration Fund.

Section 8099 has been amended and prevents the Office of the Director of National Intelligence from employing more Senior Executive employees than are specified in the classified annex.

Section 8100 prohibits funding from being used to pay a retired general or flag officer to serve as a senior mentor advising the Department of Defense unless such retired officer files a Standard Form 278 or successor form.

Section 8101 provides for the purchase of heavy and light armored vehicles for the physical security of personnel or for force protection purposes up to a limit of \$250,000 per vehicle.

Section 8102 has been amended and provides grants through the Office of Economic Adjustment to assist the civilian population of Guam in response to the military buildup of Guam.

Section 8103 prohibits the Secretary of Defense from taking beneficial occupancy of more than 2,000 parking spaces to be provided by the BRAC 133 project unless certain conditions are met.

Section 8104 has been amended and requires monthly reporting of the civilian personnel end strength by appropriation account to the congressional defense committees.

Section 8105 prohibits funding to separate the National Intelligence Program budget from the Department of Defense budget.

Section 8106 has been amended and provides the Director of National Intelligence with general transfer authority with certain limitations.

Section 8107 has been amended and provides authority to make grants to construct, renovate, repair, or expand elementary and secondary public schools on military installations to address capacity or facility condition deficiencies.

Section 8108 prohibits funding to transfer or release any individual detained at Guantanamo Bay, Cuba into the United States, its territories, or possessions. This language is identical to language enacted in Public Law 112–74.

Section 8109 prohibits funding to transfer any individual detained at Guantanamo Bay, Cuba to a country of origin or other foreign country or entity unless the Secretary makes certain certifications. This language is identical to language enacted in Public Law 112–74.

Section 8110 prohibits funding to modify any United States facility (other than the facility at Guantanamo Bay, Cuba) to house any individual detained at Guantanamo Bay, Cuba. This language is identical to language enacted in Public Law 112-74.

Section 8111 prohibits funding from being used to enter into agreements with corporations with unpaid tax liabilities.

Section 8112 prohibits funding from being used to enter into agreements with a corporation that was convicted of a federal criminal violation in the past 24 months.

Section 8113 prohibits funding from being used to violate the Trafficking Victims Protection Act of 2000.

Section 8114 prohibits funding from being used to violate the Child Soldiers Prevention Act of 2008.

Section 8115 prohibits funding from being used to violate the War Powers Resolution Act.

Section 8116 is a new provision that prohibits funding from being used to retire, divest, realign, or transfer Air Force aircraft or to disestablish or convert units associated with such aircraft.

Section 8117 is a new provision that requires the Secretary of the Air Force to obligate and expend funds previously appropriated for the procurement of RQ-4B Global Hawk and C-27J Spartan aircraft.

Section 8118 is a new provision that prohibits funding from being used to retire C-23 Sherpa aircraft.

Section 8119 is a new provision that eliminates funding requested for the civilian pay raise.

Section 8120 is a new provision that prohibits funding from being used to transfer a veterans memorial object to a foreign country or entity controlled by a foreign government unless such transfer is specifically authorized by law.

Section 8121 is a new provision that restricts funding from being used to sponsor certain sporting events.

TITLE IX
OVERSEAS CONTINGENCY OPERATIONS

COMMITTEE RECOMMENDATION

In title IX the Committee recommends total new appropriations of \$88,479,906,000. A detailed review of the Committee's recommendations for programs funded in this title is provided in the following pages.

REPORTING REQUIREMENTS

The Committee directs the Secretary of Defense to continue to report incremental contingency operations costs for Operation Enduring Freedom on the monthly basis in the Cost of War Execution report as required by Department of Defense Financial Management Regulation, Chapter 23, Volume 12. The committee further directs the Secretary of Defense to continue providing Cost of War reports to the congressional defense committees that include the following information by appropriation account: funding appropriated, funding allocated, monthly obligations, monthly disbursements, cumulative fiscal year obligations, and cumulative fiscal year disbursements.

Finally, given the Air Force's recent confusion regarding named operations versus exercises, the Committee wants to make clear that overseas contingency operations funding should only be used to finance the incremental cost of named military operations in the Central Command area of responsibility.

The Committee expects that in order to meet unanticipated requirements, funds may need to be transferred within these appropriations accounts for purposes other than those specified in this report. The Committee directs the Secretary of Defense to follow normal prior approval reprogramming procedures should it be necessary to transfer funding between different appropriations accounts in this title.

AFGHAN LOCAL POLICE AND HUMAN RIGHTS ABUSES

The Committee is deeply concerned by reports from human rights and humanitarian organizations alleging human rights abuses committed by some members of Afghan Local Police (ALP) in Afghanistan. The Committee remains troubled by public reports highlighting the Government of Afghanistan's lack of capacity to effectively oversee the ALP program and the potential consequences thereof. The Committee urges the Department to take additional steps to ensure that U.S. funds and personnel are employed in compliance with Section 8057 of this Act. Not later than 90 days after enactment of this Act, the Secretary of Defense shall provide a report to the congressional defense committees outlining in detail

the following: how the U.S. is assisting the Afghan government to implement the ALP program, the Afghan government's capacity and efforts to exercise effective oversight and investigate allegations of abuse by ALP units or individuals, and if necessary, what actions are being taken to hold those persons responsible accountable for these actions. The report should describe the U.S. and Afghan government's responses to allegations, efforts taken to investigate the allegations and bring those accused to justice, U.S. funds expended or anticipated to be expended for the ALP, as well as the Department's strategy to assist the Afghan government in the implementation of the program.

MILITARY PERSONNEL

The Committee recommends an additional appropriation of \$13,786,221,000 for Military Personnel. The Committee's recommendations for each military personnel account are shown below:

COMMANDER'S EMERGENCY RESPONSE PROGRAM

The bill provides \$250,000,000 of the \$400,000,000 requested for the Commander's Emergency Response Program (CERP) for Afghanistan. Funds to deliver CERP projects in Afghanistan in fiscal year 2013 were not fully justified to the Committee. The bill also requires the Secretary of Defense to notify the congressional defense committees 15 days prior to making CERP funds available for any project with an expected total cost in excess of \$5,000,000.

COALITION SUPPORT FUNDS

The recommendation provides \$1,750,000,000 requested for Coalition Support Funds for reimbursements to coalition countries, primarily Pakistan and Jordan, for logistical, military, and other expenses incurred in supporting U.S. military operations. Closures placed on ground lines of communication through Pakistan into Afghanistan following the events of November 26, 2011 have resulted in limited reimbursements. Because of the limited need for reimbursement, the Committee imposes restrictions on the use of \$1,300,000,000 of the \$1,750,000,000 allocated specifically for Pakistan. Additionally, the bill requires a certification by the Secretaries of State and Defense regarding Pakistan's cooperation with the United States on various matters.

C-17 ENGINE MAINTENANCE

The Air Force requests a direct appropriation of \$230,400,000 for C-17 engine maintenance in the Air Force Working Capital Fund but provides no supporting justification for this funding requirement. Further, the Air Force could not provide a coherent explanation as to why the funding was requested in the Working Capital Fund rather than in the operation and maintenance account. The Committee believes this funding requirement is an indication that the Air Force must do more to control the rising costs of maintaining the C-17 engine. The Air Force recently proposed a C-17 engine sustainment strategy to achieve savings through induced competition for engine overhaul and supply chain management services. However, the Committee is already concerned that this strategy will take longer to introduce competition than is necessary. As of December 2011, the Air Force had the C-17 engine overhaul and component repair manuals and the data rights to approve non-original equipment manufacturer parts and therefore had the ability to competitively contract for engine components, subsystems, and for the management of the supply chain. The Committee believes that by expediting the establishment of an effective Source Approval Request process, savings can be achieved through open competition as soon as fiscal year 2013. Accordingly, the Committee reduces the request by \$30,400,000 and expects the Secretary of the Air Force to take the necessary actions to accelerate competition in support of achieving these savings.

PROCUREMENT

The Committee recommends an additional appropriation of \$7,906,039,000 for Procurement. The Committee's recommendations for each procurement account are shown below:

Working Capital Fund Total	503,364	293,600	- 209,764

OTHER DEPARTMENT OF DEFENSE PROGRAMS

DEFENSE HEALTH PROGRAM

The Committee recommends an additional appropriation of \$993,898,000 for the Defense Health Program. The Committee's recommendations for operation and maintenance, procurement and research, development, test and evaluation are shown below:

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS
[In thousands of dollars]

	Budget Request	Committee Recommended	Change from Request
OPERATION AND MAINTENANCE	993,898	993,898	
IN-HOUSE CARE	483,326	483,326	
PRIVATE SECTOR CARE	376,982	376,982	
CONSOLIDATED HEALTH SUPPORT	111,675	111,675	
INFORMATION MANAGEMENT	4,773	4,773	
MANAGEMENT ACTIVITIES	660	660	
EDUCATION AND TRAINING	15,370	15,370	
BASE OPERATIONS AND COMMUNICATIONS	1,112	1,112	

**DRUG INTERDICTION AND COUNTER-DRUG ACTIVITIES,
DEFENSE**

The Committee recommends an additional appropriation of \$469,025,000 for Drug Interdiction and Counter-Drug Activities. The Committee's recommendations for the counter-drug account are shown below:

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS

[In thousands of dollars]

	Budget request	Committee recommended	Change from request
DRUG INTERDICTION AND COUNTER-DRUG ACTIVITIES	469,025	469,025

JOINT IMPROVISED EXPLOSIVE DEVICE DEFEAT FUND

The Committee recommends an additional appropriation of \$1,614,900,000 for the Joint Improvised Explosive Device Defeat Fund. The Committee's recommendations for the Joint Improvised Explosive Device Defeat Fund are shown below:

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS

[In thousands of dollars]

P-1	Budget request	Committee recommended	Change from request
1 ATTACK THE NETWORK	950,500	925,000	- 25,500
Program adjustment		- 25,500	
2 DEFEAT THE DEVICE	400,000	375,000	- 25,000
Program adjustment		- 25,000	
3 TRAIN THE FORCE	149,500	144,500	- 5,000
Program adjustment		- 5,000	
4 STAFF AND INFRASTRUCTURE	175,400	170,400	- 5,000
Program adjustment		- 5,000	
TOTAL, JOINT IED DEFEAT FUND	1,675,400	1,614,900	- 60,500

JOINT URGENT OPERATIONAL NEEDS FUND

The Committee recommends no funding for the Joint Urgent Operational Needs Fund.

OFFICE OF THE INSPECTOR GENERAL

The Committee recommends an additional appropriation of \$10,766,000 for the Office of the Inspector General.

GENERAL PROVISIONS

Title IX contains several general provisions, many of which extend or modify war-related authorities included in previous Acts. A brief description of the recommended provisions follows:

Section 9001 has been amended and provides that funds made available in this title are in addition to funds appropriated or otherwise made available for the Department of Defense for the current fiscal year.

Section 9002 has been amended and provides for general transfer authority within title IX.

Section 9003 provides that supervision and administration costs associated with a construction project funded with appropriations available for operation and maintenance, Afghanistan Infrastructure Fund or the Afghanistan Security Forces Fund may be obligated at the time a construction contract is awarded.

Section 9004 provides for the procurement of passenger motor vehicles and heavy and light armored vehicles for use by military and civilian employees of the Department of Defense in the U.S. Central Command area.

Section 9005 has been amended and provides funding for the Commander's Emergency Response Program, with certain limitations.

Section 9006 provides lift and sustainment to coalition forces supporting military and stability operations in Afghanistan.

Section 9007 prohibits the establishment of permanent bases in Iraq or Afghanistan or United States control over Iraq oil resources.

Section 9008 prohibits the use of funding in contravention of the United Nations Convention Against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment.

Section 9009 limits the obligation of funding for the Afghanistan Security Forces Fund until certain conditions have been met.

Section 9010 provides for the purchase of items of a particular investment unit cost from funding made available for operation and maintenance.

Section 9011 has been amended and provides funding for the Task Force for Business and Stability Operations in Afghanistan.

Section 9012 has been amended and provides funding for the operations and activities of the Office of Security Cooperation in Iraq and security assistance teams.

Section 9013 is a new provision stating that each amount designated in this Act by Congress for Overseas Contingency Operations/Global War on Terrorism pursuant to Section 251(b)(2)(A)(ii) of the Balanced Budget and Emergency Deficit Control Act shall be available only if the President subsequently so designates all such amounts and transmits such designations to Congress.

Section 9014 has been amended and provides for the rescission of \$579,900,000 from the following programs:

2009 Appropriations:	
General Provisions:	
Retroactive Stop Loss Special Pay Program	\$79,900,000
2012 Appropriations:	
Afghanistan Security Forces Fund:	
Afghanistan Security Forces Fund	500,000,000

Section 9015 is a new provision that restricts funds provided under the heading Operation and Maintenance, Defense-wide for payments under Coalition Support Funds for reimbursement to the Government of Pakistan until certain conditions are met.

TITLE X

Title X contains one new general provision. A brief description of the recommended provision follows:

Section 10001 is a new provision stating that the applicable allocation of new budget authority made by the Committee on Appropriations does not exceed the amount of proposed new budget authority.

HOUSE OF REPRESENTATIVES REPORTING REQUIREMENTS

The following items are included in accordance with various requirements of the Rules of the House of Representatives:

CHANGES IN THE APPLICATION OF EXISTING LAW

Pursuant to clause 3(f)(1) of rule XIII of the Rules of the House of Representatives, the following statements are submitted describing the effect of provisions in the accompanying bill which directly or indirectly change the application of existing law.

Language is included in various parts of the bill to continue ongoing activities which require annual authorization or additional legislation, which to date has not been enacted.

The bill includes a number of provisions which place limitations on the use of funds in the bill or change existing limitations and which might, under some circumstances, be construed as changing the application of law.

The bill includes a number of provisions, which have been virtually unchanged for many years that are technically considered legislation.

The bill provides that appropriations shall remain available for more than one year for some programs for which the basic authorizing legislation does not presently authorize each extended availability.

In various places in the bill, the Committee has allocated funds within appropriation accounts in order to fund specific programs.

Changes in the application of existing law found within appropriations headings:

Language is included in various accounts placing a limitation on funds for emergencies and extraordinary expenses.

Language is included that provides not more than \$30,000,000 for the Combatant Commander Initiative Fund.

Language is included that provides not more than \$36,000,000 for emergencies and extraordinary expenses.

Language is included that provides not less than \$35,897,000 for the Procurement Technical Assistance Cooperative Agreement Program, of which not less than \$3,600,000 shall be available for centers.

Language is included that makes available \$8,563,000 for certain classified activities and allows such funds to be transferred between certain accounts.

Language is included that provides that any transfer authority provided under the heading "Operation and Maintenance, Defense-Wide" shall be in addition to any other transfer authority provided in this Act.

Language is included under the various Environmental Restoration accounts that provides that the Service Secretaries may transfer such funds for the purposes of the funds provided under such appropriations headings.

Language is included that provides for specific construction, acquisition, or conversion of vessels under the heading "Shipbuilding and Conversion, Navy".

Language is included under the heading "National Guard and Reserve Equipment" requiring submission of a priority modernization assessment and placing a limitation on the use of research, development, test and evaluation funds for certain activities.

Language is included under the heading "Research, Development, Test and Evaluation, Navy" that provides funds for certain activities.

Language is included under the heading "Research, Development, Test and Evaluation, Defense-Wide" that provides \$250,000,000 for the Defense Rapid Innovation Program and provides for the transfer of funds.

Language is included that provides for the transfer of funds within the "National Defense Sealift Fund".

Language is included that prohibits the use of funds provided under "National Defense Sealift Fund" to award new contracts that provide for the acquisition of major components unless such components are made in the United States.

Language is included that provides that the exercise of an option in a contract award through the obligation of previously appropriated funds shall not be considered to be the award of a new contract.

Language is included that provides waiver authority of the Buy America provisions under "National Defense Sealift Fund" under certain circumstances.

Language is included that provides that not less than \$8,000,000 of funds provided under "Defense Health Program" shall be available for HIV/AIDS prevention education activities.

Language is included that provides for the carry-over of one percent of the Operation and Maintenance account under the "Defense Health Program".

Language is included that limits obligation of funds provided under the "Defense Health Program" for the integrated Department of Defense-Department of Veterans Affairs integrated health record pending submission of a report.

Language is included that provides for the transfer of funds under "Drug Interdiction and Counter-Drug Activities". Such transfer authority shall be in addition to other transfer authority provided elsewhere in the Act.

Language is included that allows the Director of the Joint Improvised Explosive Defeat Organization to undertake certain activities.

Language is included that requires that within 60 days of enactment of this Act, a plan for the intended management and use of the Joint Improvised Explosive Defeat Fund is to be provided to the congressional defense committees.

Language is included that requires the Secretary of Defense to submit a report to the congressional defense committees providing assessments of the evolving threats, service requirements to counter threats, pre-deployment training strategy, and funds execution of the Joint Improvised Explosive Defeat Fund.

Language is included under the Joint Improvised Explosive Defeat Fund to transfer funds. Such transfer authority shall be in addition to other transfer authority provided elsewhere in the Act.

Language is included that provides that no funds made available in this Act may be used for publicity or propaganda purposes not authorized by Congress.

Language is included that provides for conditions and limitations on the payment of compensation to, or employment of, foreign nationals.

Language is included that provides that no funds made available in this Act may be obligated beyond the end of the fiscal year unless express provision for a greater period of availability is provided elsewhere in this Act.

Language is included that provides a 20 percent limitation on the obligation of funds provided in this Act during the last two months of the fiscal year.

Language is included that provides for general transfer authority.

Language is included that provides for incorporation of project level tables.

Language is included that provides for the establishment of a baseline for application of reprogramming and transfer authorities for fiscal year 2013 and prohibits certain reprogrammings until after submission of a report.

Language is included that provides for limitations on the use and transfer authority of working capital fund cash balances.

Language is included that provides that none of the funds appropriated in this Act may be used to initiate a special access program without prior notification to the congressional defense committees.

Language is included that provides limitations and conditions on the use of funds made available in this Act to initiate multi-year contracts.

Language is included that provides for the use and obligation of funds for humanitarian and civic assistance costs under Chapter 20 of title 10, United States Code.

Language is included that provides that civilian personnel of the Department may not be managed on the basis of end strength or be subject to end strength limitations.

Language is included that prohibits funds made available in this Act from being used to influence congressional action on any matters pending before the Congress.

Language is included that prohibits compensation from being paid to any member of the Army who is participating as a full-time student and who receives benefits from the Education Benefits

Fund when time spent as a full-time student is counted toward that member's service commitment.

Language is included that provides for the transfer of funds appropriated in title III of this Act for the Department of Defense Pilot Mentor-Protégé Program.

Language is included that provides for the Department of Defense to purchase anchor and mooring chains manufactured only in the United States.

Language is included that prohibits funds made available to the Department of Defense from being used to demilitarize or dispose of surplus firearms.

Language is included that provides a limitation on funds being used for the relocation of any Department of Defense entity into or within the National Capital Region.

Language is included that provides for incentive payments authorized by section 504 of the Indian Financing Act of 1974 (25 U.S.C. 1544).

Language is included that provides that no funds made available in this Act for the Defense Media Activity may be used for national or international political or psychological activities.

Language is included that provides for the obligation of funds for purposes specified in section 2350j(c) of title 10, United States Code.

Language is included that provides funding for the Civil Air Patrol Corporation.

Language is included that provides for the number of staff years of technical effort that may be funded for defense Federally Funded Research and Development Centers.

Language is included that provides for the Department of Defense to procure carbon, alloy, or armor steel plate melted and rolled only in the United States and Canada.

Language is included that defines congressional defense committees as being the Armed Services Committees and the Subcommittees on Defense of the Committees on Appropriations of the House and Senate.

Language is included that provides for competitions between private firms and Department of Defense Depot Maintenance Activities for modification, depot maintenance, and repair of aircraft, vehicles, and vessels, as well as the production of components and other Defense-related articles.

Language is included that provides for revocation of blanket waivers of the Buy America Act upon a finding that a country has violated a reciprocal trade agreement by discriminating against products produced in the United States that are covered by the agreement.

Language is included that provides for the availability of funds for purposes specified in section 2921(c)(2) of the 1991 National Defense Authorization Act, namely facility maintenance and repair and environmental restoration at military installations in the United States.

Language is included that provides for the conveyance, without consideration, of relocatable housing units located at Grand Forks, Malmstrom, Mountain Home, Ellsworth, and Minot Air Force Bases to Indian Tribes that are excess to Air Force needs.

Language is included that provides authority to use operation and maintenance appropriations to purchase items having an investment item unit cost of not more than \$250,000.

Language is included that prohibits the purchase of specified investment items within Working Capital Fund.

Language is included that provides that none of the funds appropriated for the Central Intelligence Agency shall remain available for obligation beyond the current fiscal year except for funds appropriated for the Reserve for Contingencies, the Working Capital Fund, or other certain programs authorized under section 503 of the National Security Act.

Language is included that provides that funds available for the Defense Intelligence Agency may be used for intelligence communications and intelligence information systems for the Services, the Unified and Specified Commands, and the component commands.

Language is included that provides that not less than \$12,000,000 within "Operation and Maintenance, Defense-Wide" shall be for mitigation of environmental impacts on Indian lands.

Language is included that provides for the Department of Defense to comply with the Buy American Act (chapter 83 of title 41, United States Code).

Language is included that provides conditions under which contracts for studies, analyses, or consulting services may be entered into without competition on the basis of an unsolicited proposal.

Language is included that provides for the limitations of funds made available in this Act to establish Field Operating Agencies.

Language is included that provides grant authorities for the Department of Defense acting through the Office of Economic Adjustment.

Language is included that provides for the limitations on the conversion of an activity or function of the Department of Defense to contractor performance.

Language is included that provides for the rescission of previously appropriated funds.

Language is included that prohibits funds made available in this Act from being used to reduce authorized positions for military technicians (dual status) of the Army National Guard, Air National Guard, Army Reserve, and Air Force Reserve unless such reductions are a direct result of a reduction in military force structure.

Language is included that provides that none of the funds made available in this Act may be obligated or expended for assistance to the Democratic People's Republic of Korea unless appropriated for that purpose.

Language is included that provides for reimbursement to the National Guard and reserve when members of the National Guard and reserve provide intelligence or counterintelligence support to the Combatant Commands, Defense Agencies, and Joint Intelligence Activities.

Language is included that prohibits funds made available in this Act from being used to reduce civilian medical and medical support personnel assigned to military treatment facilities below the September 30, 2003, level unless the Service Surgeons General certify to the congressional defense committees that it is a responsible stewardship of resources to do so.

Language is included that provides that Defense and Central Intelligence Agencies' drug interdiction and counter-drug activity funds may not be transferred to other agencies unless specifically provided in an appropriations law.

Language is included that prohibits the use of funds appropriated by this Act for the procurement of ball and roller bearings other than those produced by a domestic source and of domestic origin.

Language is included that provides for the Department of Defense to purchase supercomputers manufactured only in the United States unless the Secretary certifies such acquisition must be made for national security purposes.

Language is included that prohibits the use of funds made available in this or any other Act to transfer administrative responsibilities or budgetary resources of any program, project, or activity financed by this Act to the jurisdiction of another Federal agency not financed by this Act without expressed authorization of the Congress.

Language is included that provides for prior Congressional notification of article transfers to international peacekeeping organizations.

Language is included that prohibits the use of funds made available in this Act for contractor bonuses from being paid due to business restructuring.

Language is included that provides for the transfer of funds to be used to support personnel supporting approved non-traditional defense activities.

Language is included that provides for the Department of Defense to dispose of negative unliquidated or unexpended balances for expired or closed accounts.

Language is included that provides conditions for the use of equipment of the National Guard Distance Learning Project on a space-available, reimbursable basis.

Language is included that provides for the availability of funds provided by this Act to implement cost-effective agreements for required heating facility modernization in the Kaiserslautern Military Community, Germany.

Language is included that provides for the limitation on the use of funds appropriated in title IV to procure end-items for delivery to military forces for operational training, operational use, or inventory requirements.

Language is included that provides for a waiver of the "Buy America" provisions for certain cooperative programs.

Language is included that prohibits the use of funds made available in this Act to support the training of members of foreign security forces who have engaged in gross violations of human rights.

Language is included that prohibits the use of funds made available in this Act for repairs or maintenance to military family housing units.

Language is included that provides obligation authority for new starts for advanced concept technology demonstration projects only after notification to the congressional defense committees.

Language is included that provides that the Secretary of Defense shall provide a classified quarterly report on certain matters as directed in the classified annex accompanying this Act.

Language is included that prohibits the use of funds made available to the Department of Defense to provide support to an agency that is more than 90 days in arrears in making payments to the Department of Defense for goods or services provided on a reimbursable basis.

Language is included that provides for the use of National Guard personnel to support ground-based elements of the National Ballistic Missile Defense System.

Language is included that prohibits the use of funds made available in this Act to transfer to any nongovernmental entity ammunition held by the Department of Defense that has a center-fire cartridge and is designated as “armor piercing” except for demilitarization purposes.

Language is included that provides for a waiver by the Chief, National Guard Bureau or his designee for all or part of consideration in cases of personal property leases of less than one year.

Language is included that prohibits funds made available in this Act from being used to purchase alcoholic beverages.

Language is included that provides for the transfer of funds made available in this Act under “Operation and Maintenance, Army” to other activities of the Federal Government for classified purposes.

Language is included that provides for the forced matching of disbursement and obligations made by the Department of Defense in fiscal year 2013.

Language is included that provides grant authority for the construction and furnishing of additional Fisher Houses to meet the needs of military family members when confronted with the illness or hospitalization of an eligible military beneficiary.

Language is included that provides funding and transfer authority for the Israeli Cooperative missile defense programs.

Language is included that prohibits the use of funds made available in this Act to be obligated to modify the command and control relationship to give the Fleet Forces Command administration and operations control of U.S. Naval Forces assigned to the Pacific Fleet.

Language is included that provides for the transfer of funds to properly complete prior year shipbuilding programs.

Language is included that provides that funds made available in this Act are deemed to be specifically authorized by Congress for purposes of section 504 of the National Security Act of 1947.

Language is included that prohibits the use of funds made available in this Act to initiate a new start program without prior written notification.

Language is included that provides that the budget of the President for fiscal year 2014 shall include separate budget justification documents for costs of the United States Armed Forces’ participation in contingency operations that contain certain budget exhibits as defined in the Department of Defense Financial Management Regulation.

Language is included that prohibits funds made available in this Act from being used for the research, development, test, evaluation, procurement, or deployment of nuclear armed interceptors of a missile defense system.

Language is included that provides the Secretary of Defense discretionary authority to make grants to the United Service Organizations and the Red Cross if he determines it to be in the national interest.

Language is included that prohibits funds made available in this Act from being used to reduce or disestablish the operation of the 53rd Weather Reconnaissance Squadron of the Air Force Reserve.

Language is included that prohibits funds made available in this Act from being used for the integration of foreign intelligence information unless the information has been lawfully collected and processed during conduct of authorized foreign intelligence activities.

Language is included that provides that at the time members of reserve components of the Armed Forces are called or ordered to active duty, each member shall be notified in writing of the expected period during which the member will be mobilized.

Language is included that provides that the Secretary of Defense may transfer funds from any available Department of the Navy appropriation to any available Navy ship construction appropriation to liquidate costs caused by rate adjustments or other economic factors.

Language is included that provides for the use of current and expired "Shipbuilding and Conversion, Navy" subdivisions to reimburse the Judgment Fund.

Language is included that prohibits the transfer of program authorities related to tactical unmanned aerial vehicles from the Army.

Language is included that provides funding and authority for the Asia Pacific Regional Initiative program.

Language is included that limits the obligation authority of funds provided for the Director of National Intelligence to the current fiscal year except for research and technology which shall remain available for the current and the following fiscal years.

Language is included that provides for the adjustment of obligations within the "Shipbuilding and Conversion, Navy" appropriation.

Language is included that provides that the Director of National Intelligence shall include certain budget exhibits with the congressional budget justification books.

Language is included that prohibits transfers of funds until the Director of National Intelligence submits a baseline for application of reprogramming and transfer authorities.

Language is included that sets forth reprogramming and transfer procedures for the National Intelligence Program.

Language is included that provides that the Director of National Intelligence shall provide budget exhibits identifying the five year future-years intelligence program.

Language is included that defines the congressional intelligence committees.

Language is included that directs the Department of Defense to report on the Cost of War Execution Report on a monthly basis.

Language is included that provides that funds may be used for the Defense Acquisition Workforce Development Fund.

Language is included that provides that agencies post congressionally directed reports on a public website.

Language is included that provides limitations on the award of contracts to contractors that require mandatory arbitration for certain claims as a condition of employment or a contractual relationship. The Secretary is authorized to waive the applicability of these limitations for national security interests.

Language is included that provides funds and transfer authority for the Joint Department of Defense-Department of Veterans Affairs Medical Facility Demonstration Fund.

Language is included that provides a limitation on the number of senior executives employed by the Office of the Director of National Intelligence.

Language is included that provides a limitation on certain senior mentors unless such mentors make certain financial disclosures.

Language is included that provides authority to purchase heavy and light armored vehicles notwithstanding price or other limitations on the purchase of passenger carrying vehicles.

Language is included that provides availability of funds appropriated under "Operation and Maintenance, Defense-Wide" for activities related to the military buildup of Guam.

Language is included that places limitations on the number of parking spaces provided by the BRAC 133 project, with certain waiver authorities.

Language is included that requires the Secretary of Defense to provide monthly reports on civilian personnel end strength.

Language is included that provides transfer authority for the Director of National Intelligence for the National Intelligence Program.

Language is included that provides funding for construction, renovation, repair, and expansion of public schools on military installations.

Language is included that prohibits funds to transfer or release certain individuals detained at Guantanamo Bay, Cuba into the United States, its territories, or possessions.

Language is included that places limitations on the transfer or release of certain individuals detained at Guantanamo Bay, Cuba to the custody or control of a foreign country unless certain certifications are provided.

Language is included that prohibits funds to construct, acquire, or modify any facility in the United States, its territories, or possessions to house individuals detained at Guantanamo Bay, Cuba.

Language is included that places limitations on the provision of funds to any corporation with an unpaid Federal tax liability.

Language is included that places limitations on the provision of funds to any corporation convicted of a felony criminal violation within the preceding 24 months.

Language is included that directs the Secretary of the Air Force to obligate and expend funds previously appropriated for the purposes for which such funds were originally provided.

Language is included that places limitations and requirements on the use of funds for reimbursements to key cooperating nations for logistical, military, and other support.

Language is included that provides funds and transfer authority for overseas contingency operations.

Language is included that provides authority for infrastructure projects in Afghanistan subject to certain conditions and reporting requirements.

Language is included that provides authority for the provision of assistance to Afghanistan Security Forces subject to certain notification requirements.

Language is included that provides for supervision and administration costs associated with overseas contingency operations.

Language is included that provides authority to purchase passenger, heavy, and light armored vehicles notwithstanding price or other limitations on the purchase of passenger carrying vehicles for use in the U.S. Central Command area of responsibility.

Language is included that provides funds and authority for the Commander's Emergency Response Program and establishes certain reporting requirements.

Language is included that authorizes the use of funds to provide certain assistance to coalition forces supporting military and stability operations in Afghanistan and establishes certain reporting requirements.

Language is included that places limitations on the use of Afghanistan Security Forces Funds and requires certain certifications.

Language is included that authorizes up to \$88,000,000 under the heading "Operation and Maintenance, Army" for the Task Force for Business and Stability Operations in Afghanistan, subject to certain reporting requirements.

Language is included that authorizes up to \$508,000,000 under the heading "Operation and Maintenance, Air Force" for the Office of Security Cooperation in Iraq and security assistance teams, subject to written notice requirements.

Language is included that places limitations on the use of Coalition Support Funds for the Government of Pakistan.

APPROPRIATIONS NOT AUTHORIZED BY LAW

Pursuant to clause 3(f)(1) to rule XIII of the Rules of the House of Representatives, the following table lists the appropriations in the accompanying bill which are not authorized by law:

[In thousands of dollars]

Agency/Program	Last year of authorization	Authorization Level	Appropriations		2013	2013
			in last year of authorization	in this bill 2013	compared to 2011	compared to 2012
DEPARTMENT OF DEFENSE						
Military Personnel, Army	2012	(1)	43,298,409	40,730,014	(312,639)	(2,568,395)
Military Personnel, Navy	2012	(1)	26,803,334	27,075,933	1,163,484	272,599
Military Personnel, Marine Corps	2012	(1)	13,635,136	12,560,999	(649,162)	(1,074,137)
Military Personnel, Air Force	2012	(1)	28,096,708	28,124,109	1,018,354	27,401
Reserve Personnel, Army	2012	(1)	4,289,407	4,456,823	123,658	167,416
Reserve Personnel, Navy	2012	(1)	1,935,544	1,871,688	(68,503)	(63,856)
Reserve Personnel, Marine Corps	2012	(1)	644,722	651,861	39,670	7,139
Reserve Personnel, Air Force	2012	(1)	1,712,705	1,743,875	93,078	31,170
National Guard Personnel, Army	2012	(1)	7,585,645	8,089,477	578,181	503,832
National Guard Personnel, Air Force	2012	(1)	3,088,929	3,158,015	97,917	69,086
Operation and Maintenance, Army	2012	30,529,232	31,072,902	36,422,738	3,116,621	5,349,836
Operation and Maintenance, Navy	2012	38,069,321	38,120,821	41,463,733	3,654,494	3,342,912
Operation and Maintenance, Marine Corps	2012	5,535,437	5,542,937	6,075,667	535,927	532,730
Operation and Maintenance, Air Force	2012	35,028,486	34,985,486	35,408,795	(654,194)	423,309
Operation and Maintenance, Defense-Wide	2012	29,876,363	30,152,008	31,780,813	1,570,003	1,628,805
Operation and Maintenance, Army Reserve	2012	3,071,733	3,071,733	3,199,423	358,996	127,690
Operation and Maintenance, Navy Reserve	2012	1,305,134	1,305,134	1,256,347	(97,917)	(48,787)
Operation and Maintenance, Marine Corps Reserve	2012	271,433	271,443	277,377	1,893	5,934

1/ The FY 2012 National Defense Authorization Act authorizes \$141,992,228,000 for military personnel
Note: The bill includes several transfers of funds which may or may not be specifically authorized in law.

TRANSFER OF FUNDS

Pursuant to clause 3(f)(2) of rule XIII of the Rules of the House of Representatives, the following is submitted describing the transfer of funds provided in the accompanying bill.

Language has been included under "Operation and Maintenance, Defense-Wide" which provides for the transfer of funds for certain classified activities.

Language has been included under "Environmental Restoration, Army" which provides for the transfer of funds for environmental restoration, reduction and recycling of hazardous waste, removal of unsafe buildings and debris, or for similar purposes.

Language has been included under "Environmental Restoration, Navy" which provides for the transfer of funds for environmental restoration, reduction and recycling of hazardous waste, removal of unsafe buildings and debris, or for similar purposes.

Language has been included under "Environmental Restoration, Air Force" which provides for the transfer of funds for environmental restoration, reduction and recycling of hazardous waste, removal of unsafe buildings and debris, or for similar purposes.

Language has been included under "Environmental Restoration, Defense-Wide" which provides for the transfer of funds for environmental restoration, reduction and recycling of hazardous waste, removal of unsafe buildings and debris, or for similar purposes.

Language has been included under "Environmental Restoration, Formerly Used Defense Sites" which provides for the transfer of funds for environmental restoration, reduction and recycling of hazardous waste, removal of unsafe buildings and debris, or for similar purposes.

Language has been included under "Research, Development, Test and Evaluation, Defense Wide" which provides for the transfer of funds for the Defense Rapid Innovation Program to appropriations for research, development, test and evaluation.

Language has been included under "Drug Interdiction and Counter-Drug Activities, Defense" which provides for the transfer of funds to appropriations available to the Department of Defense for military personnel of the reserve components; operation and maintenance; procurement; and research, development, test and evaluation.

Language has been included under "Joint Improvised Explosive Device Defeat Fund" which provides for the transfer of funds to appropriations for operation and maintenance; procurement; research, development, test and evaluation; and defense working capital funds to assist United States forces in the defeat of improvised explosive devices.

Language has been included under "General Provisions, Sec. 8005" which provides for the transfer of working capital funds to other appropriations accounts of the Department of Defense for military functions.

Language has been included under "General Provisions, Sec. 8008" which provides for the transfer of funds between working capital funds and the "Foreign Currency Fluctuations, Defense" appropriations and the "Operation and Maintenance" appropriation accounts.

Language has been included under “General Provisions, Sec. 8015” which provides for the transfer of funds from the Department of Defense Pilot Mentor-Protégé Program to any other appropriation for the purposes of implementing a Mentor-Protégé Program development assistance agreement.

Language has been included under “General Provisions, Sec. 8051” which provides for the transfer of funds from “Operation and Maintenance, Defense-Wide” to appropriations available for the pay of military personnel in connection with support and services of eligible organizations and activities outside the Department of Defense.

Language has been included under “General Provisions, Sec. 8066” which provides for the transfer of funds from “Operation and Maintenance, Army” to other activities of the federal government.

Language has been included under “General Provisions, Sec. 8069” which provides for the transfer of funds from “Research, Development, Test and Evaluation, Defense-Wide” for the Israeli Cooperative Programs.

Language has been included under “General Provisions, Sec. 8071” which provides for the transfer of funds within “Shipbuilding and Conversion, Navy” to fund prior year shipbuilding cost increases.

Language has been included under “General Provisions, Sec. 8080” which provides for the transfer of funds to available Navy ship construction appropriations for the purpose of liquidating liabilities resulting from inflation, market fluctuations, or rate adjustments.

Language has been included under “General Provisions, Sec. 8093” which provides for the transfer of funds from “Operation and Maintenance, Army”, “Operation and Maintenance, Navy”, and “Operation and Maintenance, Air Force” to the central fund established for Fisher Houses and Suites.

Language has been included under “General Provisions, Sec. 8094” which provides that funds appropriated for operation and maintenance may be available for the purpose of making remittances to the Defense Acquisition Workforce Development Fund.

Language has been included under “General Provisions, Sec. 8098” which provides for the transfer of funds to the Joint Department of Defense—Department of Veterans Affairs Medical Facility Demonstration Fund.

Language has been included under “General Provisions, Sec. 8106” which provides for the transfer of funds for the National Intelligence Program.

Language has been included under “General Provisions, Sec. 8107” which provides for the transfer of funds from “Operation and Maintenance, Defense-Wide” to the Secretary of Education to construct, renovate, repair, or expand elementary and secondary public schools on military installations to address capacity or facility condition deficiencies.

Language has been included under title IX “Operation and Maintenance, Navy” which provides for the transfer of funds to the Coast Guard “Operating Expenses” account.

Language has been included under title IX “Overseas Contingency Operations Transfer Fund” which provides for the transfer of

funds to military personnel; operation and maintenance; procurement; and working capital fund accounts for expenses directly related to overseas contingency operations.

Language has been included under title IX “Afghanistan Infrastructure Fund” which provides for the transfer of funds to the Department of State for purposes of undertaking infrastructure projects in Afghanistan.

Language has been included under title IX “Joint Improvised Explosive Device Defeat Fund” which provides for the transfer of funds to appropriations for military personnel; operation and maintenance; procurement; research, development, test and evaluation; and defense working capital funds to assist United States forces in the defeat of improvised explosive devices.

Language has been included under “General Provisions, Sec. 9002” which provides for the authority to transfer funds in title IX subject to certain conditions.

RESCISSIONS

Pursuant to clause 3(f)(2) of rule XIII of the Rules of the House of Representatives, the following table is submitted describing the rescissions recommended in the accompanying bill:

General Provisions, 2009	\$79,900,000
Procurement of Ammunition, Army, 2011/2013	14,862,000
Aircraft Procurement, Navy, 2011/2013	30,100,000
Weapons Procurement, Navy, 2011/2013	22,000,000
Other Procurement, Navy, 2011/2013	12,432,000
Aircraft Procurement, Air Force, 2011/2013	65,000,000
Other Procurement, Air Force, 2011/2013	9,500,000
Afghanistan Security Forces Funds, 2012	500,000,000
Other Procurement, Army, 2012/2014	80,000,000
Aircraft Procurement, Navy, 2012/2014	14,400,000
Weapons Procurement, Navy, 2012/2014	31,572,000
Aircraft Procurement, Air Force, 2012/2014	277,050,000
Missile Procurement, Air Force, 2012/2014	44,000,000
Other Procurement, Air Force, 2012/2014	55,800,000
Research, Development, Test and Evaluation, Army, 2012/2013	63,000,000
Research, Development, Test and Evaluation, Navy, 2012/2013	120,000,000
Research, Development, Test and Evaluation, Air Force, 2012/2013	179,600,000

TRANSFER OF UNEXPENDED BALANCES

Pursuant to clause 3(f)(2) of rule XIII of the Rules of the House of Representatives, the bill contains a general provision which allows for the transfer of unexpended balances from the Operation and Maintenance and Military Personnel accounts to the “Foreign Currency Fluctuation, Defense” account to address shortfalls due to foreign currency fluctuation.

STATEMENT OF GENERAL PERFORMANCE GOALS AND OBJECTIVES

Pursuant to clause 3(c)(4) of rule XIII of the Rules of the House of Representatives, the following is a statement of general performance goals and objectives for which this measure authorizes funding:

The Committee on Appropriations considers program performance, including a program’s success in developing and attaining outcome-related goals and objectives, in developing funding recommendations.

CONSTITUTIONAL AUTHORITY

Pursuant to Section 6(e) of the rules of the Committee on Appropriations of the House of Representatives, the following statement is submitted regarding the specific powers granted to the Congress in the Constitution to enact the accompanying bill or joint resolution.

The principal constitutional authority for this legislation is clause 7 of section 9 of article I of the Constitution of the United States (the appropriation power), which states: “No Money shall be drawn from the Treasury, but in Consequence of Appropriations made by Law” In addition, clause 1 of section 8 of article I of the Constitution (the spending power) provides: “The Congress shall have the Power . . . to pay the Debts and provide for the common Defence and general Welfare of the United States” Together, these specific constitutional provisions establish the congressional power of the purse, granting the Congress the authority to appropriate funds, to determine their purpose, amount, and period of availability, and to set forth terms and conditions governing their use.

COMPLIANCE WITH RULE XIII, CL. 3(e) (RAMSEYER RULE)

In compliance with clause 3(e) of rule XIII of the Rules of the House of Representatives, the Committee notes that the accompanying bill does not propose to repeal or amend a statute or part thereof.

EARMARK DISCLOSURE STATEMENT

Neither the bill nor the report contains any congressional earmarks, limited tax benefits, or limited tariff benefits as defined in Clause 9 of Rule XXI.

COMPARISON WITH THE BUDGET RESOLUTION

Clause 3(c)(2) of rule XIII of the Rules of the House of Representatives requires an explanation of compliance with section 308(a)(1)(A) of the Congressional Budget and Impoundment Control Act of 1974 (Public Law 93–344), as amended, which requires that the report accompanying a bill providing new budget authority contain a statement detailing how that authority compares with the reports submitted under section 302 of the Act for the most recently agreed to concurrent resolution on the budget for the fiscal year from the Committee’s section 302(a) allocation. This information follows:

	302(b) allocation		This bill	
	Budget authority	Outlays	Budget authority	Outlays
Comparison of amounts in the bill with Committee allocations to its subcommittees of amounts in the Budget Resolution for 2013: Subcommittee on Defense				
Discretionary:				
General Purpose	519,220	573,770	519,219	¹ 573,770
Overseas Contingency Operations ²	88,480	48,420	88,480	48,420
Mandatory	514	514	514	514

¹ Includes outlays from prior-year budget authority.

²Overseas Contingency Operations/Global War on Terrorism.

FIVE-YEAR OUTLAY PROJECTIONS

In compliance with section 308(a)(1)(B) of the Congressional Budget and Impoundment Control Act of 1974 (Public Law 93–344), as amended, the following table contains five-year projections associated with the budget authority provided in the accompanying bill.

[In millions of dollars]

	Non-OCO	OCO
Projection of outlays associated with the recommendation:		
2013	¹ 335,170	¹ 48,420
2014	111,768	27,481
2015	39,306	8,593
2016	16,872	2,571
2017 and future years	12,235	859

¹Excludes outlays from prior-year budget authority.

Note: OCO is Overseas Contingency Operations/Global War on Terrorism.

FINANCIAL ASSISTANCE TO STATE AND LOCAL GOVERNMENTS

In accordance with section 308(a)(1)(C) of the Congressional Budget and Impoundment Act of 1974 (Public Law 93–344), as amended, no new budget or outlays are provided by the accompanying bill for financial assistance to State and local governments.

FULL COMMITTEE VOTES

Pursuant to the provisions of clause 3(b) of rule XIII of the House of Representatives, the results of each roll call on an amendment or on the motion to report, together with the names of those voting for and those voting against, are printed below:

No record votes were ordered during consideration of the bill in Committee.

- 4/ Contributions to Department of Defense Retiree Health Care Fund (Sec. 725, P.L. 108-375)(CBO est)

ADDITIONAL VIEWS
FY 2013 DEPARTMENT OF DEFENSE APPROPRIATIONS BILL

In this bill, the Committee has carried out its Constitutional responsibilities to recommend the appropriations necessary to provide for the common defense, and I am pleased to say that this work was accomplished on a bipartisan and collegial basis in the Committee's longstanding tradition. The funding and priorities set in this bill are of vital importance to the quality of life, force structure and readiness, and investments for our Armed Forces.

The bill addresses the needs of our men and women in uniform as well as their dependents. The bill fully funds military pay and the Defense Health program. Also, for the third consecutive year, the bill includes funding to improve the condition and capacity of schools, owned and operated by local educational authorities or the US Department of Education, that are located on military installations. Throughout the Department of Defense, there are nearly 150 such schools supporting a student population of 42,000. The bill includes \$270,000,000, \$220,000,000 above the request, to replace inadequate schools. In addition, the bill includes \$40,000,000 above the request for Impact Aid funding. Both of these measures are essential to support the school-aged children of US Service members.

The bill pauses major changes to National Guard and Reserve Force Structure. In the budget request, DoD proposes significant reductions and rebalances force structure and missions between the Active and Reserve components. Particularly in the Air Force, the FY 2013 budget reflects decisions to divest aircraft and re-mission units in a way that disproportionately affects the National Guard and Reserve. In total the budget proposes retiring 200 aircraft in FY 2013 and nearly 300 aircraft over the Future Years Defense Program (FYDP), most of which would come from National Guard and Reserve force structure. The Committee recognizes many problems that may arise from this imbalance and has appropriately included funding to provide the opportunity needed to more carefully establish an appropriate balance.

This Committee conducted a thorough review of the costs and benefits of changes to major acquisition programs proposed by the Department. For example, the Committee bill reconsiders the DoD proposal to cancel the Global Hawk Block 30 program. The DoD analysis in the FY 2013 budget request represents a dramatic reversal of the conclusions reported in the June 2011 Nunn-McCurdy certification. Accordingly, the Committee provided the resources and direction to continue the program and consider its interaction with and relationship to other acquisition efforts.

Similarly, the Committee reconsidered a number of the proposals in the FY 2013 budget request regarding ground forces and Naval aviation. For the second consecutive year, the Committee has considered a budget proposal allowing tank production to cease only

to be restarted in FY 2017. The Committee believes that the economic case for this course of action is debatable, and also finds that continued production in the near term will bring the Army closer to a common equipment fleet across Active and National Guard forces. The Committee has made similar recommendations regarding the Bradley Fighting Vehicle and M88 recovery vehicle. In both cases, additional production will significantly upgrade the Army's vehicle fleet and preserve the industrial capacity required to produce the next generation of combat vehicles.

The Committee also considered the Navy's proposal to bridge the attack fighter gap by means of service life extension versus new production of F/A-18E/F Hornet aircraft. In the Committee's view, the cost difference between service life extension and new aircraft, compared to the dramatic increase in the number of flight hours provided by new aircraft, clearly warrants new production.

The Committee evaluated the investment accounts from the standpoint of DoD strategy as well. Prior to releasing the FY 2013 budget request, the Defense Department announced a strategic review that would shape forces and inform budget preparation for years to come. An important feature of this strategy is an increased emphasis on the Asia-Pacific region. To better support this strategy, the Committee placed a high priority on shipbuilding programs including the Virginia Class submarine, DDG 51 Destroyer and the existing Cruiser fleet. Committee recommendations in these areas will strengthen Naval forces and help realize the emerging defense strategy.

The Committee also continued its support of advanced technology development and support for small business innovation. In this bill the Committee provided \$250,000,000 for the Defense Rapid Innovation Program. This bill represents the 3rd year of Congressional support for this initiative, begun by this Committee. The Committee understands that DoD has received over 3,500 proposals primarily from small businesses, and will award funding on a competitive basis to stimulate innovative technology, reduce the lifecycle costs of weapons systems, and address various technical risks confronting the Defense Department.

As the Committee works toward completing the FY 2013 bill, and as we assess national security risks now and in the future, I believe there are threats that require fresh thinking and new approaches. Perhaps the area of greatest concern is cyber defense. There is consensus among government agencies that the newest official domain to be defended against enemies, foreign and domestic, is cyberspace. However, there seems to be confusion when determining requirements for this mission, in terms of budgets, weapons, and personnel. The attacks on Department of Defense networks have been widely reported. This is evident by the fact that foreign actors probe our military's networks daily. Our industrial partners, whose products are vital to our military dominance, are also victims of cyber attacks in the form of industrial espionage and they have lost billions as a result. Although DoD has responded to the threat against the "dot mil" domain by establishing Cyber Command, and the successful Defense Industrial Base Pilot Program, significant concerns remain. The effectiveness of our defenses in the "dot mil" domain are called into question due to the

scarcity of qualified personnel with technological and mathematical backgrounds; the lack of confidence in the integrity of the cloud storage architecture; and, the question of what protections DoD is able to achieve for the funding invested. Cyber, in all its forms, will continue to be one of the highest security priorities, but without a clear strategy and a transparent accounting of resources, questions and concerns will remain about our effectiveness in determining what is needed to defend our networks.

In addition, I continue to believe that reducing our presence in Afghanistan is vital to enhancing our security. Our nation has paid a dear price for more than a decade of war—more than 1,800 of our service personnel have given their lives in this theater of war, and prosecuting the war has taken hundreds of billions from our Nation's treasury. Indeed the financial demand of extended conflict is a chief contributor to our current debt crisis.

The United States, our allies and Afghanistan stand at the threshold of significant changes in this conflict. On May 1, 2012, President Obama and President Karzai signed the Strategic Partnership Agreement, which advances beyond the 2010 Lisbon Accord, and further defines the transition to Afghan control of their own security. According to the Administration, the agreement will detail how the partnership between the United States and Afghanistan will be normalized as we look beyond a responsible end to the war. The Strategic Partnership Agreement comes on the heels of two important memoranda of understanding that were negotiated and signed by Ambassador Crocker and his counterpart, and General Allen and his counterpart, over the course of March and April 2012—one on detention operations and the other on night operations or special operations. Both are designed to put Afghans in the lead on those two crucial issues.

However, the Strategic Partnership Agreement does not define the United States' potential troop levels in the future. Similarly, the Agreement does not suggest specific funding levels, yet it commits the United States to seek funding to support the training, equipping, advising and sustaining of Afghan National Security Forces, as well as for social and economic assistance. Left to its own resources, the Afghans could likely afford about 30,000 soldiers and police officers, a force only one-tenth the size of the current security force.

Most recently, at the NATO conference convened in Chicago on May 20, 2012, the Administration and NATO leaders have stated that the coalition fighting in Afghanistan will remain whole despite the plans of some nations to withdraw troops as early as 2012. Indeed, it is widely reported that some NATO troops, led by the United States, will likely stay behind after 2014 both to train Afghans and act as a hedge against the Taliban's return. The summit will try to clarify some of these details.

Despite the recent diplomatic activities, the details that will ultimately define the continuing US commitment in Afghanistan will not be worked out until the US negotiates a bilateral security agreement with Afghanistan. The Strategic Partnership Agreement noted above commits the United States and Afghanistan to initiate negotiations on such an agreement to supersede the current status of forces agreement.

The combination of a global economic crisis, public fatigue from more than a decade of conflict, and severe financial pressure domestically within the US clearly indicate that the time has come not only to consider withdrawal, but also to consider the nature and level of continuing US support for Afghan Security Forces. These pressures must be a factor in upcoming deliberations by NATO, discussions with Afghanistan on future bilateral security negotiations, and in future Defense Appropriations bills. Achieving solutions in these areas now appears possible, but it will require a focused approach and we should begin work within the Congress and with the Administration in this respect.

Finally, while I support the content of this bill and the process the Committee followed in its preparation, I am extremely disappointed that House Republicans walked away from the bipartisan agreement to establish \$1.047 trillion as the Committee's allocation. A majority of their conference voted for the Budget Control Act agreement less than 9 months ago. By reneging on the agreement, House Republicans put themselves at odds with House Democrats, the White House, Senate Democrats, and Senate Republicans. Senate Minority Leader McConnell recently voted for allocations at \$1.047 trillion and Ranking Member Cochran stated that it's appropriate "for the Committee to proceed on the basis of the discretionary caps enacted into law." House Republicans introduced uncertainty about the discretionary allocation, and about whether the House majority will threaten to shut down the government. This uncertainty will slow down the appropriations process and the austere House allocation, if it stands, will stall economic growth and impede job creation.

NORMAN D. DICKS.
